STANDEX INTERNATIONAL CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1)

Management Statement

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly the results of operations for the three and six months ended December 31, 2015 and 2014, the cash flows for the six months ended December 31, 2015 and 2014 and the financial position of Standex International Corporation (Standex , the Company , we , us , or our), at December 31, 2015. The interim results necessarily indicative of results for a full year. The unaudited condensed consolidated financial statements and notes do not contain information which would substantially duplicate the disclosures contained in the audited annual consolidated financial statements and notes for the year ended June 30, 2015. The condensed consolidated balance sheet at June 30, 2015 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The financial statements contained herein should be read in conjunction with the Annual Report on Form 10-K and in particular the audited consolidated financial statements for the year ended June 30, 2015. Certain prior period amounts have been reclassified to conform to the current period presentation. Unless otherwise noted, references to years are to the Company s fiscal years.

During the first quarter of 2016, we retrospectively adopted accounting standard update ASU 2015-3, *Simplifying the Presentation of Debt Issuance Cost*. The adoption of this update has reclassified debt issuance cost from Other non-current assets to Long-term debt. There have been no other significant changes in our reported financial position or results of operations and cash flows as a result of the adoption of new accounting pronouncements or to our significant accounting policies that were disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2015 that have had a significant impact on our consolidated financial statements or notes herein.

The Company considers events or transactions that occur after the balance sheet date but before the financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. We evaluated subsequent events through the date and time our unaudited condensed consolidated financial statements were issued.

2)

Acquisition

Northlake

On October 1, 2015, the Company acquired Northlake Engineering, Inc., (Northlake), a Wisconsin-based designer, manufacturer and distributor of high reliability electromagnetic products and solutions serving the North America power distribution and medical equipment markets. Northlake reports to our Electronics Products Group.

The Company paid \$13.5 million in cash for 100% of the outstanding stock of Northlake owned by William A. Hardt and the Marlene T. Hardt Family Trust, and has preliminarily recorded intangible assets of \$4.1 million, consisting of \$2.5 million of customer relationships which primarily are expected to be amortized over a period of twelve and half years, \$1.3 million of trademarks which are indefinite-lived and \$0.3 million of non-compete which are expected to amortized over a period of five years. Acquired goodwill of \$7.8 million is deductible for income tax. The Company anticipates finalizing the purchase price allocation during the current fiscal year.

The components of the fair value of the Northlake acquisition, including the preliminary allocation of the purchase price at December 31, 2015, are as follows (in thousands):

	Preliminary Allocation	
Fair value of business combination:		
Cash payments	\$	13,859
Less: cash acquired		(315)
Total	\$	13,544
Identifiable assets acquired and liabilities assumed:		
Current Assets	\$	2,810
Property, plant, and equipment		1,407
Identifiable intangible assets		4,124
Goodwill		7,821
Other non-current assets		158
Liabilities assumed		(2,620)
Expected final payments		(156)
Total	\$	13,544

Enginetics

On September 4, 2014, the Company acquired Enginetics Corporation (Enginetics), a leading producer of aircraft engine components for all major aircraft platforms. This investment complements our Engineering Technologies Group and allows us to provide broader solutions to the aviation market.

The Company paid \$55.0 million in cash for 100% of the outstanding stock of MPE Aeroengines, Inc., of which Enginetics is a wholly owned subsidiary and has recorded intangible assets of \$10.6 million, consisting of \$9.1 million of customer relationships which are expected to be amortized over a period of fifteen years and \$1.5 million of trademarks which are indefinite-lived. Acquired goodwill of \$34.8 million is not deductible for income tax purposes due to the nature of the transaction. The Company finalized the purchase price allocation during the fourth quarter ended June 30, 2015.

The components of the fair value of the Enginetics acquisition, is as follows (in thousands):

	Final
Fair value of business combination:	
Cash payments	\$ 55,021
Less: cash acquired	(113)
Total	\$ 54,908
Identifiable assets acquired and liabilities assumed:	
Current Assets	\$ 12,134
Property, plant, and equipment	8,808
Identifiable intangible assets	10,600
Goodwill	34,790
Other non-current assets	158
Liabilities assumed	(5,449)
Deferred taxes	(6,133)
Total	\$ 54,908

Ultrafryer

The Company paid a total of \$23.0 million, in cash, to acquire all of the outstanding stock of Ultrafryer Systems, Inc. (Ultrafryer), a producer of commercial deep fryers for restaurant and commercial installations. This included, in the subsequent fiscal year, during the quarter ended September 30, 2014, a \$2.2 million disbursement related to the Ultrafryer acquisition to purchase the land and building associated with the business.

The Company's recent acquisitions are strategically significant to the future growth prospects of the Company, however at the time of the acquisition and June 30, 2015, we concluded, that historical results of the acquired Companies both individually and in the aggregate, were immaterial to the Company's consolidated financial results and therefore additional proforma disclosures are not presented.

3)

Discontinued Operations

In pursuing our business strategy we have divested certain businesses and recorded activities of these businesses as discontinued operations.

Discontinued operations for the three and six months ended December 31, 2015 and 2014 are as follows (in thousands):

Three Months Ended		Six Months Ended	
December 31,		December 31,	
2015	2014	2015	2014

Edgar Filing: STANDEX INTERNATIONAL CORP/DE/ - Form 10-Q

Net sales	\$	-	\$	-	\$	-	\$	-
Pre-tax earnings		(94)		(126)		(342)		(647)
(Provision) benefit for taxes		19		47		107		193
Net earnings (loss) from discontinued operations	\$	(75)	\$	(79)	\$	(235)	\$	(454)

On March 30, 2012, Air Distribution Products Group, (ADP) was sold to a private equity buyer for consideration of \$16.1 million consisting of \$13.1 million in cash and a \$3.0 million promissory note from the buyer. The note was secured by a mortgage on the ADP real estate sold in the transaction in Detroit Lakes, MN, Medina, NY, and Powder Springs, GA. During the first quarter 2016, the private equity buyer of ADP sold one of the facilities securing the note. The Company released all mortgages on the properties and accepted an advanced payment of \$2.8 million during October 2015 in order to reduce repayment risk and settle all obligations under the note. The Company recorded a \$0.2 million loss in discontinued operations during the first quarter 2016 related to this transaction.

The Company remained the obligor of ADP s Philadelphia, PA facility and administrative offices. We have entered into a renewable sublease agreement with a third party for this space. Our obligation with respect to the lease is \$1.0 million, of which \$0.7 million was recorded as a liability at December 31, 2015. We do not expect to record additional charges related to these obligations.

Assets and liabilities related to discontinued operations appear in the condensed consolidated balance sheets are as follows (in thousands):

	December 31, 2015	June 30, 2015
Current assets	\$ -	\$ 23
Other non-current assets	14	3,014
Accrued expenses	1,352	1,383
Accrued pension and other non-current liabilities	289	896

4)

Fair Value Measurements

The financial instruments shown below are presented at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models may be applied.

Assets and liabilities recorded at fair value in the consolidated balance sheet are categorized based upon the level of judgment associated with the inputs used to measure their fair values. Hierarchical levels directly related to the

amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities and the methodologies used in valuation are as follows:

Level 1 Quoted prices in active markets for identical assets and liabilities. The Company's deferred compensation plan assets consist of shares in various mutual funds (for the deferred compensation plan, investments are participant-directed) which invest in a broad portfolio of debt and equity securities. These assets are valued based on publicly quoted market prices for the funds' shares as of the balance sheet dates.

Level 2 Inputs, other than quoted prices in an active market, that are observable either directly or indirectly through correlation with market data. For foreign exchange forward contracts and interest rate swaps, the Company values the instruments based on the market price of instruments with similar terms, which are based on spot and forward rates as of the balance sheet dates. The Company has considered the creditworthiness of counterparties in valuing all assets and liabilities.

Level 3 Unobservable inputs based upon the Company's best estimate of what market participants would use in pricing the asset or liability.

There were no transfers of assets or liabilities between level 1 and level 2 of the fair value measurement hierarchy at December 31, 2015 and June 30, 2015. The Company's policy is to recognize transfers between levels as of the date they occur.

Cash and cash equivalents, accounts receivable, and accounts payable are carried at cost, which approximates fair value.

Items presented at fair value at December 31, 2015 and June 30, 2015 consisted of the following (in thousands):

	December 31, 2015			
	Total	Level 1	Level 2	Level 3
Assets				
Marketable securities - deferred compensation plan	\$ 2,578	\$ 2,578	\$ -	\$ -

Hydraulics Products Group		3,058		-		-	3,058
Total	\$	154,732	\$	7,821	\$	(2,312)	\$ 160,241

7)

Intangible Assets

Intangible assets consist of the following (in thousands):

Customer Relationships

			Trademarks	Other	Total
December 31, 2015					
Cost	\$	45,462	\$ 16,763	\$ 4,491	\$ 66,716
Accumulated amortization		(23,545)	-	(2,715)	(26,260)
Balance, December 31, 2015	\$	21,917	\$ 16,763	\$ 1,776	\$ 40,456
June 30, 2015					
Cost	\$	43,493	\$ 15,514	\$ 4,096	\$ 63,103
Accumulated amortization		(22,628)	-	(2,427)	(25,055)
Balance, June 30, 2015	\$	20,865	\$ 15,514	\$ 1,669	\$ 38,048

Amortization expense for the three and six months ended December 31, 2015 was \$0.8 million and \$1.6 million, respectively. Amortization expense for the three and six months ended December 31, 2014 was \$0.7 million and \$1.4 million, respectively. At December 31, 2015, amortization expense is estimated to be \$2.0 million for the remainder of 2016, \$3.6 million in 2017, \$3.4 million in 2018, \$3.1 million in 2019, \$2.6 million in 2020, and \$8.9 million thereafter.

8)

Warranties

The expected cost associated with warranty obligations on our products is recorded as a component of Cost of sales when the revenue is recognized. The Company's estimate of warranty cost is based on contract terms and historical warranty loss experience that is periodically adjusted for recent actual experience. Since warranty estimates are forecasts based on the best available information, claims costs may differ from amounts provided. Adjustments to initial obligations for warranties are made as changes in the obligations become reasonably estimable.

The changes in warranty reserve, which are recorded as a component of accrued liabilities, for the six months ended December 31, 2015 and year ended June 30, 2015 were as follows (in thousands):

		December 31, 2015		June 30, 2015
Balance at beginning of year	\$	7,436	\$	6,941
Acquisitions and other		(1)		3
Warranty expense		7,414		11,086
Warranty claims		(6,324)		(10,594)
Balance at end of period	\$	8,525	\$	7,436

9)

Debt

At December 31, 2015 and June 30, 2015, we had debt issuance costs of \$1.1 million and \$1.3 million, respectively. The Company's debt payments are due as follows (in thousands):

Fiscal Year		December 31, 2015
2016	\$	6
2017		12
2018		6
2019		-
2020		110,000
Thereafter		-
Funded Debt		110,024
Issuance cost		(1,091)
Debt net of issuance cost	\$	108,933

Bank Credit Agreements

During fiscal year 2015, the Company entered into an Amended and Restated Credit Agreement (Credit Facility , or facility). This five-year Credit Facility expires in December 2019 and has a borrowing limit of \$400 million, which can be increased by an amount of up to \$100 million, in accordance with specified conditions contained in the agreement. The facility also includes a \$10 million sublimit for swing line loans and a \$30 million sublimit for letters of credit.

At December 31, 2015, the Company had standby letters of credit outstanding, primarily for insurance purposes, of \$7.7 million and had the ability to borrow \$247.2 million under the facility. At December 31, 2015, the carrying value of the current borrowings under the facility approximates fair value.

10)

Derivative Financial Instruments*Interest Rate Swaps*

From time to time as dictated by market opportunities, the Company enters into interest rate swap agreements designed to manage exposure to interest rates on the Company's variable rate indebtedness. The Company recognizes all derivatives on its balance sheet at fair value. The Company has designated its interest rate swap agreements, including those that are forward-dated, as cash flow hedges, and changes in the fair value of the swaps are recognized in other comprehensive income until the hedged items are recognized in earnings. Hedge ineffectiveness, if any, associated with the swaps will be reported by the Company in interest expense.

The Company's effective swap agreements convert the base borrowing rate on \$60 million of debt due under our revolving credit agreement from a variable rate equal to LIBOR to a weighted average fixed rate of 1.65% at December 31, 2015. The fair value of the swaps recognized in accrued expenses and in other comprehensive income is as follows (in thousands, except percentages):

Effective Date	Notional Amount	Fixed Rate	Maturity	Fair Value	
				December 31, 2015	June 30, 2015
March 15, 2012	10,000	2.745%	March 15, 2016	\$ (60)	\$ (186)
	20,000	1.180%		(85)	(140)

December 19, 2014			December 19, 2017		
December 19, 2014	5,000	1.200%	December 19, 2017	(23)	(36)
December 18, 2015	15,000	1.460%	December 19, 2018	(117)	(39)
December 19, 2015	10,000	2.005%	December 19, 2019	(246)	(150)
				\$ (531)	\$ (551)

The Company reported no losses for the three and six months ended December 31, 2015, as a result of hedge ineffectiveness. Future changes in these swap arrangements, including termination of the agreements, may result in a reclassification of any gain or loss reported in accumulated other comprehensive income (loss) into earnings as an adjustment to interest expense. Accumulated other comprehensive income (loss) related to these instruments is being amortized into interest expense concurrent with the hedged exposure.

Foreign Exchange Contracts

Forward foreign currency exchange contracts are used to limit the impact of currency fluctuations on certain anticipated foreign cash flows, such as foreign sales, foreign purchases of materials, and loan payments to and from subsidiaries. The Company enters into such contracts for hedging purposes only. For hedges of intercompany loan payments, the Company has not elected hedge accounting due to the general short-term nature and predictability of the transactions, and records derivative gains and losses directly to the statement of operations. At December 31, 2015 and June 30, 2015, the Company had outstanding forward contracts related to hedges of intercompany loans with net unrealized gain (losses) of \$0.2 million and \$0.7 million, respectively, which approximate the unrealized gains and losses on the related loans. The notional amounts of the Company's forward contracts, by currency, are as follows:

Currency	Notional Amount (in native currency)	
	December 31, 2015	June 30, 2015
Euro	5,829,098	10,134,797
British Pound Sterling	144,635	1,730,542

The table below presents the fair value of derivative financial instruments as well as their classification on the balance sheet (in thousands):

Derivative designated as hedging instruments	Asset Derivatives	
	December 31, 2015	June 30, 2015
	Balance Sheet	Balance Sheet

	Line Item	Fair Value	Line Item	Fair Value
Foreign exchange contracts	Other Assets	\$ 251	Other Assets	\$ 844

Liability Derivatives				
December 31, 2015			June 30, 2015	
Derivative designated as hedging instruments	Balance Sheet		Balance Sheet	
	Line Item	Fair Value	Line Item	Fair Value
Interest rate swaps	Accrued Liabilities	\$ 531	Accrued Liabilities	\$ 551
Foreign exchange contracts	Accrued Liabilities	20	Accrued Liabilities	193
		\$ 551		\$ 744

The table below presents the amount of gain (loss) recognized in comprehensive income on our derivative financial instruments (effective portion) designated as hedging instruments and their classification within comprehensive income for the periods ended (in thousands):

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Interest rate swaps	\$ 307	\$ (100)	\$ (245)	\$ (102)
Foreign exchange contracts	127	-	201	-
	\$ 434	\$ (100)	\$ (44)	\$ (102)

The table below presents the amount reclassified from accumulated other comprehensive income (loss) to Net Income for the periods ended (in thousands):

Details about Accumulated Other Comprehensive Income (Loss) Components	Three Months Ended		Six Months Ended		Affected line item in the Statements of Operations
	December 31,		December 31,		
	2015	2014	2015	2014	
Interest rate swaps	\$ 138	\$ 248	\$ 266	\$ 506	Interest expense
Foreign exchange contracts	(31)	-	(39)	-	Cost of Sales
	\$ 107	\$ 248	\$ 227	\$ 506	

Retirement Benefits

The Company has defined benefit pension plans covering certain current and former employees both inside and outside of the U.S. The Company's pension plan for U.S. employees is frozen for substantially all participants and has been replaced with a defined contribution benefit plan.

Net Periodic Benefit Cost for the Company's U.S. and Foreign pension benefit plans for the three and six months ended December 31, 2015 and 2014 consisted of the following components (in thousands):

	U.S. Plans		Non-U.S. Plans	
	Three Months Ended		Three Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Service cost	\$ 16	\$ 53	\$ 8	\$ 12
Interest cost	2,873	2,619	363	409
Expected return on plan assets	(3,465)	(3,489)	(330)	(371)
Recognized net actuarial loss	995	986	213	189
Amortization of prior service cost	3	14	(12)	(14)
Net periodic benefit cost	\$ 422	\$ 183	\$ 242	\$ 225

	U.S. Plans		Non-U.S. Plans	
	Six Months Ended		Six Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
Service cost	\$ 34	\$ 106	\$ 17	\$ 24
Interest cost	5,745	5,238	734	840
Expected return on plan assets	(6,932)	(6,977)	(667)	(763)
Recognized net actuarial loss	1,990	1,973	430	389
Amortization of prior service cost	7	27	(24)	(28)
Net periodic benefit cost	\$ 844	\$ 367	\$ 490	\$ 462

The Company expects to pay \$1.5 million in contributions to its defined benefit plans during fiscal 2016. Contributions of \$0.3 million and \$0.6 million were made during the three and six months ended December 31, 2015 compared to \$0.2 million and \$0.5 million during the three and six months ended December 31, 2014, respectively.

Required contributions of \$0.9 million will be paid to the Company's U.K. defined benefit plan during 2016. The Company also expects to make contributions of \$0.2 million and \$0.3 million to its unfunded defined benefit plans in

the U.S. and Germany, respectively during the current fiscal year.

12)

Income Taxes

The Company's effective tax rate from continuing operations for the second quarter of 2016 was 20.3% compared with 26.2% for the prior year quarter. The lower effective tax rate in 2016 is the result of two events: first, an increase in the jurisdictional mix of income where more income is being taxed outside of the U.S. at lower tax rates than in the prior year quarter, and second, a larger discrete tax benefit for 2016 related to the retroactive reinstatement of the research and development (R&D) credit in the U.S.

The Company's effective tax rate from continuing operations for the six months ended December 31, 2015 was 25.3% compared with 27.5% for the prior year. The lower effective tax rate for the year to date is due to the same jurisdictional mix of income and the R&D tax credit.

During the quarter ended December 31, 2015, the Company increased its uncertain tax positions related to a bargain-sale of property to a charitable organization. The impact of this position has been included in the Company's annual effective tax rate calculation.

13)

Earnings Per Share

The following table sets forth a reconciliation of the number of shares (in thousands) used in the computation of basic and diluted earnings per share:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2015	2014	2015	2014
Basic - Average shares outstanding	12,692	12,656	12,675	12,655
Effect of dilutive securities:				
Unvested, restricted stock awards	99	146	102	163
Diluted - Average shares outstanding	12,791	12,802	12,777	12,818

Earnings available to common stockholders are the same for computing both basic and diluted earnings per share. No options to purchase common stock were excluded as anti-dilutive from the calculation of diluted earnings per share for the three and six months ended December 31, 2015 and 2014, respectively.

Performance stock units of 30,764 and 28,597 for the six months ended December 31, 2015 and 2014, respectively, are excluded from the diluted earnings per share calculation as the performance criteria have not been met.

14)

Comprehensive Income (Loss)

The components of the Company's accumulated other comprehensive loss are as follows (in thousands):

		December 31, 2015		June 30, 2015
Foreign currency translation adjustment	\$	(24,252)	\$	(13,333)
Unrealized pension losses, net of tax		(77,249)		(79,248)
Unrealized losses on derivative instruments, net of tax		(323)		(436)
Total	\$	(101,824)	\$	(93,017)

15)

Contingencies

From time to time, the Company is subject to various claims and legal proceedings, including claims related to environmental remediation, either asserted or unasserted, that arise in the ordinary course of business. While the outcome of these proceedings and claims cannot be predicted with certainty, the Company's management does not believe that the outcome of any of the currently existing legal matters will have a material impact on the Company's consolidated financial position, results of operations or cash flow. The Company accrues for losses related to a claim or litigation when the Company's management considers a potential loss probable and can reasonably estimate such potential loss.

16)

Industry Segment Information

The Company has determined that it has five reportable segments organized around the types of product sold:

Food Service Equipment Group an aggregation of seven operating segments that manufacture and sell commercial food service equipment;

Engraving Group provides mold texturizing, slush molding tools, project management and design services, roll engraving, hygiene product tooling, low observation vents for stealth aircraft, and process machinery for a number of industries;

Engineering Technologies Group provides net and near net formed single-source customized solutions in the manufacture of engineered components for the aviation, aerospace, defense, energy, industrial, medical, marine, oil and gas, and manned and unmanned space markets.

Electronics Products Group manufacturing and selling of electronic components for applications throughout the end-user market spectrum; and

Hydraulics Products Group manufacturing and selling of single and double-acting telescopic and piston rod hydraulic cylinders.

Net sales and income (loss) from continuing operations by segment for the three and six months ended December 31, 2015 and 2014 were as follows (in thousands):

	Three Months Ended December 31,			
	Net Sales		Income from Operations	
Segment:	2015	2014	2015	2014
Food Service Equipment Group	\$ 90,936	\$ 98,533	\$ 6,704	\$ 6,912
Engraving Group	31,935	26,625	7,443	5,947
Engineering Technologies Group	20,711	26,605	2,093	3,218
Electronics Products Group	28,350	27,823	4,525	4,738
Hydraulics Products Group	10,016	9,751	1,519	1,452
Restructuring costs			(1,477)	(1,094)
Corporate			(4,745)	(5,321)
Sub-total	\$ 181,948	\$ 189,337	\$ 16,062	\$ 15,852
Interest expense			(731)	(788)
Other non-operating income			294	188
Income from continuing operations before income taxes			\$ 15,625	\$ 15,252

	Six Months Ended December 31,			
	Net Sales		Income from Operations	
Segment:	2015	2014	2015	2014
Food Service Equipment Group	\$ 198,149	\$ 212,366	\$ 20,728	\$ 18,585
Engraving Group	65,456	54,713	17,350	12,890
Engineering Technologies Group	39,422	46,724	2,768	5,438
Electronics Products Group	56,336	57,293	10,075	10,284
Hydraulics Products Group	20,983	20,268	3,495	3,174
Restructuring costs			(2,996)	(1,956)
Other operating income (expense), net			-	(59)
Corporate			(12,255)	(11,267)
Sub-total	\$ 380,346	\$ 391,364	\$ 39,165	\$ 37,089
Interest expense			(1,375)	(1,431)
Other non-operating income			484	453
Income from continuing operations before income taxes			\$ 38,274	\$ 36,111

Net sales include only transactions with unaffiliated customers and include no intersegment sales. Income (loss) from operations by segment excludes interest expense and other non-operating income (expense).

The Company's identifiable assets at December 31, 2015 and June 30, 2015 are as follows (in thousands):

	December 31, 2015	June 30, 2015
Food Service Equipment Group	\$ 203,466	\$ 218,334
Engraving Group	118,279	114,268
Engineering Technologies Group	134,559	141,351
Electronics Products Group	106,890	90,948
Hydraulics Products Group	25,245	22,705
Corporate & Other	72,018	71,457
Total	\$ 660,457	\$ 659,063

17)

Restructuring

The Company has undertaken cost reduction and facility consolidation initiatives that have resulted in severance, restructuring, and related charges. A summary of charges by initiative is as follows (in thousands):

Fiscal 2016	Three Months Ended December 31, 2015			Six Months Ended December 31, 2015		
	Involuntary Employee Severance and Benefit Costs	Other	Total	Involuntary Employee Severance and Benefit Costs	Other	Total
Restructuring initiatives	\$ 696	\$ 107	\$ 803	\$ 730	\$ 167	\$ 897

	\$ 299	\$ 795	\$ 1,094	\$ 458	\$ 1,498	\$ 1,956

2016 Restructuring Initiatives

The Company continues to focus on our efforts to reduce cost and improve productivity across our businesses, particularly through headcount reductions, facility closures, and consolidations. The Company's 2016 initiatives have commenced at the specialty solutions division of the Food Service Equipment group, and at our Canadian based

Electronics facility.

**Involuntary Employee
Severance and Benefit Costs**

			Other		Total
Restructuring liabilities at July 1, 2015	\$	-	\$	-	\$ -
Additions and adjustments		160		279	439
Payments		(160)		(279)	(439)
Restructuring liabilities at December 31, 2015	\$	-	\$	-	\$ -

Prior Year Initiatives

The Company previously announced closure of our Food Service Equipment U.K. facility and entered into a distribution agreement with a U.K. based partner to reduce channel costs and enhance profitability, expand and strengthen, our U.K. Food Service Equipment group's presence for all of our brands.

Activity in the reserve related to the prior year restructuring initiatives is as follows (in thousands):

**Involuntary Employee Severance
and Benefit Costs**

			Other		Total
Restructuring liabilities at July 1, 2015	\$	82	\$	301	\$ 383

	\$ 299	\$ 795	\$ 1,094	\$ 458	\$ 1,498	\$ 1,956

We incurred severance and other costs of \$1.5 million and \$3.0 million associated with these activities during the three and six months ended December 31, 2015, respectively, which includes \$0.5 million and \$1.7 million, respectively, of non-cash expenses, to reduce the net book value of a closed facility to its net realizable value. Restructuring expense is expected to be \$3.7 million for fiscal year 2016, of which \$3.0 million was incurred for the period ended December 31, 2015.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Statements contained in this Quarterly Report on Form 10-Q that are not based on historical facts are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of forward-looking terminology such as should, could, "may," will, expect, "believe," "estimate," "anticipate," intends, "continue," or similar terms or variations of those terms or the negative of those terms. There are many factors that affect the Company's business and the results of its operations and may cause the actual results of operations in future periods to differ materially from those currently expected or desired. These factors include, but are not limited to material adverse or unforeseen legal judgments, fines, penalties or settlements, conditions in the financial and banking markets, including fluctuations in exchange rates and the inability to repatriate foreign cash, general and international recessionary economic conditions, including the impact, length and degree of the current slow growth conditions on the customers and markets we serve and more specifically conditions in the oil and gas, food service equipment, automotive, construction, aerospace, energy, transportation and general industrial markets, lower-cost competition, the relative mix of products which impact margins and operating efficiencies, both domestic and foreign, in certain of our businesses, the impact of higher raw material and component costs, particularly steel, petroleum based products and refrigeration components, an inability to realize the expected cost savings from restructuring activities, effective completion of plant consolidations, cost reduction efforts, restructuring including procurement savings and productivity enhancements, capital management improvements, strategic capital expenditures, and the implementation of lean enterprise manufacturing techniques, the inability to achieve the savings expected from the sourcing of raw materials from and diversification efforts in emerging markets, the inability to attain expected benefits from strategic alliances or acquisitions and the inability to achieve synergies contemplated by the Company. Other factors that could impact the Company include changes to future pension funding requirements. In addition, any forward-looking statements represent management's estimates only as of the day made and should not be relied upon as representing management's estimates as of any subsequent date. While the Company may elect to update forward-looking statements at some point in the future, the Company and management specifically disclaim any obligation to do so, even if management's estimates change.

Overview

We are a leading manufacturer of a variety of products and services for diverse commercial and industrial markets.

We have five reportable segments: Food Service Equipment Group, Engraving Group, Engineering Technologies Group, Electronics Products Group, and the Hydraulics Products Group.

Our long term strategy is to build larger industrial platforms through a value creation system that assists management in meeting specific corporate and business unit financial and strategic performance goals in order to create and sustain shareholder value. The Standex Value Creation System has four components. The Balanced Performance Plan process aligns annual goals throughout the business and provides a standard reporting, management and review process. It is focused on setting and meeting annual and quarterly targets that support our short term and long term goals. The Standex Growth Disciplines are a standard set of tools and processes to grow our businesses organically and through acquisitions. Standex Operational Excellence employs LEAN processes to eliminate waste, improve profitability, cash flow and customer satisfaction. Finally, the Standex Talent Management process provides training, development, and succession planning for our employees. The value creation system provides standard tools and processes throughout Standex to deliver our business objectives:

It is our objective to grow larger and more profitable business units through both organic initiatives and acquisitions.

On an ongoing basis we identify and implement organic growth initiatives such as new product development, geographic expansion, introduction of products and technologies into new markets and applications, key accounts and strategic sales channel partners. Also, we have a long-term objective to create sizable business platforms by adding strategically aligned or bolt on acquisitions to strengthen the individual businesses, to create both sales and cost synergies with our core business platforms, to accelerate their growth and margin improvement. There is a particular focus on identifying and investing in opportunities that complement our products and will increase the global presence and capabilities of our businesses. From time to time we have divested businesses that we felt were not strategic or did not meet our growth and return expectations.

We create Customer Intimacy by utilizing the Standex Growth Disciplines to partner with our customers in order to develop and deliver custom solutions or engineered products that provide technology-driven solutions to our customers. This relationship generally provides us with the ability to sustain sales and profit growth over time and provide operating margins that enhance shareholder returns. Further, we have made a priority of developing new sales channels and leveraging strategic customer relationships.

Standex Operational Excellence drives continuous improvement in the efficiency of our businesses. We recognize that our businesses are competing in a global economy that requires that we constantly strive to improve our competitive position. We have deployed a number of management competencies including operational excellence through lean enterprise, the use of low cost manufacturing facilities in countries such as Mexico, and China, the consolidation of manufacturing facilities to achieve economies of scale and leveraging of fixed infrastructure costs, alternate sourcing to achieve procurement cost reductions, and capital improvements to increase shop floor

productivity, which drives improvements in the cost structure of our business units.

Our capital allocation strategy is to use cash flow generated from operations to fund the strategic growth programs described above, including acquisitions, dividends, and capital investments for organic growth and cost reductions. We recognize that cash flow is fundamental to our ability to invest in organic and acquisitive growth for our business units and return cash to our shareholders in the form of dividends.

As part of this ongoing strategy, during the quarter, we acquired Northlake Engineering, Inc., a designer, manufacturer and distributor of high reliability magnetics serving the North American power distribution and medical equipment markets. This investment complements our Electronics Group and allows us to provide broader solutions to our customers.

Our business units are actively engaged in initiating new product introductions, expansion of product offerings through private labeling and sourcing agreements, geographic expansion of sales coverage, the development of new sales channels, leveraging strategic customer relationships, development of energy efficient products, new applications for existing products and technology, and next generation products and services for our end-user markets.

We continue to focus on our efforts to reduce cost and improve productivity across our businesses. Our businesses that serve the oil and gas industry have been negatively impacted by reduced spending by our customers. We have and will continue to implement appropriate cost reductions to align our costs to appropriate sales levels. We continue to evaluate our products and production processes and expect to execute similar cost reductions and restructuring programs on an ongoing basis.

Restructuring expenses reflect costs associated with the Company's efforts to continuously improve operational efficiency and expand globally in order to remain competitive in the end-user markets we serve. Each year the Company incurs costs for actions to size its businesses to a level appropriate for current economic conditions and to improve its cost structure to enhance our competitive position and operating margins. Such expenses include costs for moving facilities to low-cost locations, starting up plants after relocation, or downsizing operations because of changing economic conditions, and other costs resulting from asset redeployment decisions. Shutdown costs include severance, benefits, stay bonuses, lease and contract terminations, asset write-downs, costs of moving fixed assets, moving, and relocation costs. Vacant facility costs include maintenance, utilities, property taxes, and other costs.

Because of the diversity of the Company's businesses, end user markets and geographic locations, management does not use specific external indices to predict the future performance of the Company, other than general information about broad macroeconomic trends. Each of our individual business units serves niche markets and attempts to identify trends other than general business and economic conditions which are specific to their businesses and which could impact their performance. Those units report pertinent information to senior management, which use it to the extent relevant to assess the future performance of the Company. A description of any such material trends is described below in the applicable segment analysis.

We monitor a number of key performance indicators (KPIs) including net sales, income from operations, backlog, effective income tax rate, and gross profit margin. A discussion of these KPIs is included in the discussion below.

We may also supplement the discussion of these KPIs by identifying the impact of foreign exchange rates, acquisitions, and other significant items when they have a material impact on the discussed KPI.

We believe that the discussion of these items provides enhanced information to investors by disclosing their consequence on the overall trend in order to provide a clearer comparative view of the KPI where applicable. For discussion of the impact of foreign exchange rates on KPIs, the Company calculates the impact as the difference between the current period KPI calculated at the current period exchange rate as compared to the KPI calculated at the historical exchange rate for the prior period. For discussion of the impact of acquisitions, we isolate the effect to the KPI amount that would have existed regardless of our acquisition. Sales resulting from synergies between the acquisition and existing operations of the Company are considered organic growth for the purposes of our discussion.

Unless otherwise noted, references to years are to fiscal years.

Results from Continuing Operations

(Dollar amounts in thousands, except percentages)	Three Months Ended December 31,		Six Months Ended December 31,	
	2015	2014	2015	2014
Net sales	\$ 181,948	\$ 189,337	\$ 380,346	\$ 391,364
Gross profit margin	32.0%	31.1%	33.3%	31.9%
Income from operations	16,062	15,852	39,165	37,089

(In thousands)	Three Months Ended December 31, 2015	Six Months Ended December 31, 2015
Net sales, prior period	\$ 189,337	\$ 391,364
Components of change in sales:		
Effect of exchange rates	(4,735)	(10,884)
Effect of acquisitions	1,995	6,132
Organic sales change	(4,649)	(6,266)
Net sales, current period	\$ 181,948	380,346

Net sales for the second quarter of 2016 decreased \$7.4 million, or 3.9%, when compared to the prior year quarter. This change was due to exchange rate decrease of 2.5% and organic sales decrease of 2.4% partially offset by sales of 1.0% generated from our Northlake acquisition. We expect that the negative impact of foreign exchange should lessen during the second half of the fiscal year.

Net sales in the six months ended December 31, 2015 decreased \$11.0 million, or 2.8%, when compared to the prior year. This change was due to exchange rate decrease of 2.8% and organic sales decrease of 1.6% partially offset by sales generated by acquisitions of 1.6% from Enginetics and Northlake. We anticipate continue soft demand in the oil and gas industry will negatively impact the remainder of the fiscal year. Our exposure across all of our businesses to the oil and gas market in the first half of the year totaled approximately 1% of sales.

Gross Profit Margin

Our gross margin for the second quarter of 2016 was 32.0% compared to the prior year quarter of 31.1%. Gross margin increased 0.9% due to sales increases in the Engraving Group which typically carry higher margins than sales in our other segments.

Our gross margin in the six months ended December 31, 2015 was 33.3% compared to the prior year of 31.9%. Gross margin increased primarily due to sales increase in the Engraving Group which typically carry higher margins than sales in our other segments.

Selling, General, and Administrative Expenses

Selling, General, and Administrative Expenses (SG&A) for the second quarter of 2016 were \$40.7 million, or 22.4% of sales, compared to \$41.9 million, or 22.1% of sales, during the prior year quarter. The increase in SG&A as a percentage of sales is primarily due to \$0.5 million of incremental expenses as a result of the Northlake acquisition, partially offset by the reduction of incentive compensation expense.

Selling, General, and Administrative Expenses (SG&A) for six months ended December 31, 2015 were \$84.6 million, or 22.2% of sales, compared to \$85.8 million, or 21.9% of sales, during the prior year quarter. The increase in SG&A as a percentage of sales is primarily due to \$0.5 million of incremental expenses as a result of the Northlake acquisition, partially offset by the reduction of incentive compensation expense.

Income from Operations

Income from operations for the second quarter of 2016 was \$16.1 million compared to \$15.9 million during the prior year quarter. The increase of \$0.2 million or 1.3% is primarily due to the mix of segment income and cost reduction activities implemented in response to reduced volume levels.

Income from operations for the six months ended December 31, 2015 was \$39.2 million compared to \$37.1 million during the prior year. The increase of \$2.1 million or 5.6% is primarily due to the mix of segment income, cost reduction activities implemented in response to reduced volume levels, and improvements generated by the Standex Operational Excellence program in the Food Service Equipment Group.

Interest Expense

Interest expense for the second quarter of 2016 was \$0.7 million compared to \$0.8 million during the prior year quarter. Interest expense for the six months ended December 31, 2015 and December 31, 2014 were both \$1.4 million.

Income Taxes

The Company's effective tax rate from continuing operations for the second quarter of 2016 was 20.3% compared with 26.2% for the prior year quarter. The lower effective tax rate in 2016 is the result of two events: first, an increase in the jurisdictional mix of income where more income is being taxed outside of the US at lower tax rates than in the prior year quarter, and second, a larger discrete tax benefit for 2016 related to the retroactive reinstatement of the research and development (R&D) credit in the U.S.

The Company's effective tax rate from continuing operations for the six months ended December 31, 2015 was 25.3% compared with 27.5% for the prior year. The lower effective tax rate for the year to date is due to the same jurisdictional mix of income and the R&D tax credit.

Backlog

The Backlog in Food Service Equipment Group has decreased primarily due to the fact that prior year amounts were elevated as shipments from our Mexico facility were delayed due to the consolidation of facilities. Engineering Technologies backlog has increased due to long term agreements executed with customers in the space and aviation markets. The increase in Electronics Products includes \$5.3 million from the recently acquired Northlake business.

Backlog realizable within one year increased \$11.1 million, or 7.5%, to \$158.4 million at December 31, 2015 from \$147.3 million at December 31, 2014.

(In thousands)	As of December 31,			
	2015		2014

Segment Analysis**Food Service Equipment Group**

(In thousands, except percentages)	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	% Change	2015	2014	% Change
Net sales	\$ 90,936	\$ 98,533	-7.7%	\$ 198,149	\$ 212,366	-6.7%
Income from operations	6,704	6,912	-3.0%	20,728	18,585	11.5%
Operating income margin	7.4%	7.0%		10.5%	8.8%	

Net sales in the second quarter of fiscal year 2016 decreased \$7.6 million, or 7.7%, when compared to the prior year quarter. Sales were negatively impacted by foreign exchange declines of \$0.6 million due to a weak Euro, continued slower sales with select major chains, lower sales at dollar stores, and the rationalization of less profitable products.

The Refrigeration Solutions Group had a sales decline of 7.1% in the quarter due to weakness in the dollar store segment and slowed expansion in national chains partially offset by increases in sales to the dealer market. The Cooking Solutions Group sales were down 9.7% in the quarter due to lower sales in our export markets and at major chains along with the rationalization of lower margin products. On-time shipments are up and improving in fiscal year 2016, and past due backlog has continued to decline. Our Specialty Solutions Group sales decreased by 6.0%;

with foreign exchange driving 3.7% of the decline and slightly lower volume in our beverage segment the remainder. The dollar store consolidation may continue to impact sales in the coming quarters as customers realign their procurement.

Net sales in the six months ended December 31, 2015 decreased \$14.2 million, or 6.7%, when compared to the prior year. Foreign exchange was negatively impacted by \$1.3 million due to a weak Euro, slower sales to major chains, lower sales at dollar stores, and the rationalization of less profitable products. Refrigeration Solutions sales showed a decline of 8.7% as dollar store and key chains experienced slower growth with some offset by increases in sales to the dealer channel. Cooking Solutions experienced a 3.0% sales decrease due to lower sales at major chains. During the six months ended December 31, 2015, the dealer channel slowed with a partial offset in the food retail sector. Specialty Solutions sales were down 4.0% due to foreign exchange which drove 4.2% of the reduction and lower volume in our beverage market.

Income from operations in the second quarter of fiscal 2016 decreased by \$0.2 million, or 3.0%, when compared to the prior year quarter. The decrease is due to sales volume reductions, partially offset by increased productivity. In the quarter, we experienced positive impacts from material savings, operating expenditure controls, and portfolio rationalization, partially offset by increased warranty costs in our Refrigeration Solutions group. We anticipate continued improvements in our on time delivery to customers in the Cooking Solutions Group.

Income from operations in the six months ended December 31, 2015 increased \$2.1 million, or 11.5%, when compared to the prior year. Sales volume decreases impacting income from operations were more than offset by gains from operating efficiencies, portfolio rationalization, organizational alignment and increased cost control.

Engraving Group

(In thousands, except percentages)	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	% Change	2015	2014	% Change
Net sales	\$ 31,935	\$ 26,625	19.9%	\$ 65,456	\$ 54,713	19.6%
Income from operations	7,443	5,947	25.2%	17,350	12,890	34.6%
Operating income margin	23.3%	22.3%		26.5%	23.6%	

Net sales for the second quarter of 2016 increased by \$5.3 million, or 19.9%, when compared to the prior year quarter.

Mold texturizing sales original equipment manufacturers (OEMs) increased throughout all of our geographic regions and automotive roll outs remained strong. We are optimistic about our near term potential for global Mold-Tech sales growth. China showed robust mold texturizing sales growth of 33.6% year over year. We have not seen any slowdown in the Asian region. The Group also experienced a double digit increase in volume for the roll, plate, and machinery business in North America. Our Innovent business sales increased 22.3% as a result of good volume and product mix from major OEM diaper manufacturers. Foreign exchange impacts were unfavorable by \$2.6 million, or 9.9%.

Net sales for the six months ended December 31, 2015 increased \$10.7 million or 19.6% when compared to the prior year. Our global Mold-Tech, roll, plate and machinery, and Innovent businesses all experienced double digit sales growth during the first six months of the year. Unfavorable foreign exchange impacted sales by \$5.9 million, or 10.7%.

Income from operations for the second quarter of 2016 increased by \$1.5 million, or 25.2%, when compared to the prior year quarter. Performance in Mold-Tech, roll, plate and machinery, and Innovent all improved during the quarter. Foreign exchange unfavorably impacted the operating income comparison by \$0.6 million.

Income for the six months ended December 31, 2015 increased by \$4.5 million, or 34.6%, when compared to the prior year. All three businesses experienced strong performance and leveraged incremental sales. Unfavorable exchange impacted operating profit by \$1.6 million.

Engineering Technologies Group

(In thousands, except percentages)	Three Months Ended			Six Months Ended		
	December 31,		%	December 31,		%
	2015	2014	Change	2015	2014	Change
Net sales	\$ 20,711	\$ 26,605	-22.2%	\$ 39,422	\$ 46,724	-15.6%
Income from operations	2,093	3,218	-35.0%	2,768	5,438	-49.1%
Operating income margin	10.1%	12.1%		7.0%	11.6%	

Net sales in the second quarter of fiscal year 2016 decreased by \$5.9 million, or 22.2%, when compared to the prior year quarter. Organic sales decreased by \$5.8 million, or 21.7%. Aviation sales increased 21.3% compared to the prior period due to strong customer demand. Sales to the space-launch vehicle segment were down 15.1% from the prior year quarter due to timing of development programs in the manned space sector. Sales in the energy market were down \$5.9 million, or 78%, from the prior year. Lower oil and gas prices have delayed projects in the land based turbine and offshore drilling markets. We expect this market to remain soft and have reduced costs to align with demand. Foreign exchange impacts were unfavorable by \$0.1 million, or 0.5%.

Net sales for the six months ended December 31, 2015 decreased by \$7.3 million, or 15.6%, when compared to the prior year. The decrease was primarily due to a significant reduction in the energy market, down over \$11.1 million, or 75%, compared to the prior year. Total launch vehicle sales are down 14.8% due to project timing, year over year, in the manned sector with the NASA SLS vehicle. Demand in the unmanned segment of the business remains strong with sales up 47% compared to the prior year to date period. Aviation sales are up \$6.4 million, or 58%, compared to the prior year due to increased demand as development programs began entering early production phases. As we exit the fourth quarter of 2016, we expect sales growth in our markets, other than energy, to more than offset the head-winds we are experiencing in the energy market.

Income from operations in the second quarter of 2016 decreased by \$1.1 million, or 35.0%, when compared to the prior year quarter. Operating income results were negatively impacted by the significant reduction in the oil and gas market and were partially offset by aviation sales growth and cost containment.

Income from operations for the six months ended December 31, 2015 decreased by \$2.7 million, or 49.1%, when compared to the prior year. We anticipate exiting the fourth quarter of 2016 at a mid-teen margin. The margin improvements are projected to be generated from sales in aviation and easier year over year comparisons in the oil and gas market.

Electronics Products Group

(In thousands, except percentages)	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	% Change	2015	2014	% Change
Net sales	\$ 28,350	\$ 27,823	1.9%	\$ 56,336	\$ 57,293	-1.7%
Income from operations	4,525	4,738	-4.5%	10,075	10,284	-2.0%
Operating income margin	16.0%	17.0%		17.9%	17.9%	

Net sales in the second quarter of fiscal year 2016 increased \$0.5 million, or 1.9%, when compared to the prior year quarter. Organic sales growth was flat. Acquisition growth accounted for \$2.0 million, or 7.2%, of sales increase for the year quarter. Sales decreased \$1.4 million, or 5.2%, due to exchange rate declines. Within organic sales we experienced continued customer inventory adjustments and softness in the existing North American business offset somewhat with new programs as well as continued improvements in the European business. Asia volume was similar to the prior year quarter.

Net sales for the six months ended December 31, 2015 decreased \$1.0 million, or 1.7%, when compared to the prior year. Sales decreased \$3.4 million, or 5.9%, due to exchange rate declines. Exchange rate declines were partially offset by acquisition sales growth of \$2.0 million. Within organic sales we experienced continued customer inventory adjustments and softness in the existing North American business offset somewhat with new programs as well as continued improvements in the European business. Asia volume was similar to prior year. We anticipate new programs, particularly in sensors, will continue to drive growth over the next twelve months.

Income from operations in the second quarter of fiscal year 2016 decreased \$0.2 million, or 4.5%, when compared to the prior year quarter. The decrease is the result of the \$0.4 million purchase accounting related to the second quarter acquisition of Northlake. Continued cost improvements and the margin improvement helped offset much of the purchase accounting impact as well as the earnings impact on the exchange rate declines.

Income from operations for the six months ended December 31, 2015 decreased \$0.2 million, or 2.0%, when compared to the prior year. The decrease is the result of the \$0.4 million purchase accounting related to the second quarter acquisition of Northlake. Cost control and the impact of various lean initiatives continued to help the overall earnings. The acquisition of Northlake will allow us to begin further manufacturing consolidation during the second half of the year which will drive operating income improvements.

Hydraulics Products Group

(In thousands, except percentages)	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	% Change	2015	2014	% Change
Net sales	\$ 10,016	\$ 9,751	2.7%	\$ 20,983	\$ 20,268	3.5%
Income from operations	1,519	1,452	4.6%	3,495	3,174	10.1%
Operating income margin	15.2%	14.9%		16.7%	15.7%	

Net sales in the second quarter of fiscal year 2016 increased \$0.3 million, or 2.7%, when compared to the prior year quarter. The increase is the result of the continued strengthening sales in our traditional North America dump truck and trailer markets and market share gains on small underbody dump trailers, goose neck trailer stabilizers, and refuse vehicle platforms.

Net sales for the six months ended December 31, 2015 increased \$0.7 million, or 3.5%, when compared to the prior year. Similar to the quarter, our increase is the result of the continued strengthening sales in our traditional North America dump truck and trailer markets and market share gains. As we exit December, we anticipate continued sales volume strength as evidenced by a double digit increase in new orders and backlog.

Income from operations in the second quarter of fiscal year 2016 increased \$0.1 million, or 4.6%, when compared to the prior year quarter. During the quarter we added capacity in China by installing new CNC machining and tube polishing equipment to support continued growth.

Income from operations for the six months ended December 31, 2015 increased \$0.3 million or 10.1%, when compared to the prior year. Operating income improvements were primarily the result of sales volume increases and increased capacity.

Corporate and Other

(In thousands, except percentages)	Three Months Ended December 31,			Six Months Ended December 31,		
	2015	2014	% Change	2015	2014	% Change
Income (loss) from operations:						

Edgar Filing: STANDEX INTERNATIONAL CORP/DE/ - Form 10-Q

Corporate	\$ (4,745)	\$ (5,321)	-10.8%	\$ (12,255)	\$ (11,267)	8.8%
Restructuring	(1,477)	(1,094)	35.0%	(2,996)	(1,956)	53.2%
Other operating income (expense), net	-	-	-	-	(59)	-100.0%

Corporate expenses in the second quarter of fiscal year 2016 decreased by \$0.6 million, or 10.8%, when compared to the prior year quarter. The decrease is primarily due to reduced incentive compensation expense and partially offset by added overhead to support the Standex Value Creation System.

Corporate expenses for the six months ended December 31, 2015 increased by \$1.0 million, or 8.8%, when compared to the prior year. The increase is primarily due to costs incurred in the first quarter related to the realignment of corporate functions of \$0.3 million and costs associated with the implementation of our Standex Value Creation System of \$0.5 million.

During the second quarter of fiscal year 2016, we incurred consolidated restructuring expenses of \$1.5 million related to previously announced initiatives, which included \$0.5 million of non-cash expense to reduce the net book value of a closed facility to its final realizable value.

During the six months ended December 31, 2015 we incurred consolidated restructuring expenses of \$3.0 million which were primarily related to \$1.7 million of non-cash charges to reduce the net book value of a closed facility to its final realizable value, in addition charges of \$0.5 million to downsize a Canadian facility in connection with the Northlake acquisition and \$0.2 million to reduce personnel in response to a prolonged slowdown in the oil and gas market.

Discontinued Operations

In pursuing our business strategy, we have divested certain businesses and recorded activities of these businesses as discontinued operations. Discontinued operations for the three and six months ended December 31, 2015 and 2014 are as follows:

(In thousands)	Three Months Ended December 31,		Six Months Ended December 31,	
	2015	2014	2015	2014
Net sales	\$ -	\$ -	\$ -	\$ -
Pre-tax earnings	(94)	(126)	(342)	(647)
(Provision) benefit for taxes	19	47	107	193
Net earnings (loss) from discontinued operations	\$ (75)	\$ (79)	\$ (235)	\$ (454)

Liquidity and Capital Resources

At December 31, 2015, our total cash balance was \$104.2 million, of which \$99.0 million was held by foreign subsidiaries. The repatriation of cash balances from certain of our subsidiaries could have adverse tax consequences or be subject to capital controls; however, those balances are generally available without legal restrictions to fund ordinary business operations. Our current plans are not expected to require a repatriation of cash to fund our U.S. operations and as a result, we intend to indefinitely reinvest our foreign earnings to fund our overseas growth. If the undistributed earnings of our foreign subsidiaries are needed for operations in the United States we would be required to accrue and pay U.S. taxes upon repatriation.

Net cash provided by operating activities from continuing operations for the six months ended December 31, 2015, was \$30.9 million compared to cash provided by continuing operations of \$11.8 million the prior year. The increase of \$19.1 million in cash provided by operating activities is primarily due to an increase in cash generated by working capital of \$17.1 million and the increase in year to date net income of \$2.4 million. Cash flow used in investing activities for the six months ended December 31, 2015, was \$22.0 million and consisted primarily of cash used to fund the acquisition of Northlake for \$13.5 million and capital expenditures of \$8.7 million. Cash inflows provided by financing activities for the six months ended December 31, 2015 were \$2.2 million and included net borrowings of \$7.0 million, cash paid for dividends of \$3.3 million and other stock based activity, including stock repurchases, of \$1.5 million.

During fiscal year 2015, the Company entered into an Amended and Restated Credit Agreement (Credit Facility , or facility). This five-year Credit Facility expires in December 2019 and has a borrowing limit of \$400 million, which can be increased by an amount of up to \$100 million, in accordance with specified conditions contained in the agreement. The facility also includes a \$10 million sublimit for swing line loans and a \$30 million sublimit for letters of credit.

Under the terms of the Credit Facility, we will pay a variable rate of interest and a commitment fee on borrowed amounts as well as a commitment fee on unused amounts under the facility. The amount of the commitment fee will depend upon both the undrawn amount remaining available under the facility and the Company's funded debt to EBITDA (as defined in the agreement) ratio at the last day of each quarter. As our funded debt to EBITDA ratio increases, the commitment fee will increase.

Funds borrowed under the facility may be used for the repayment of debt, working capital, capital expenditures, acquisitions (so long as certain conditions, including a specified funded debt to EBITDA leverage ratio is maintained), and other general corporate purposes. As of December 31, 2015, the Company has used \$7.7 million against the letter of credit sub-facility and had the ability to borrow \$247.2 million under the facility based on our current EBITDA. The facility contains customary representations, warranties and restrictive covenants, as well as specific financial covenants. The Company's current financial covenants under the facility are as follows:

Interest Coverage Ratio - The Company is required to maintain a ratio of Earnings Before Interest and Taxes, as Adjusted (Adjusted EBIT per the Credit Facility), to interest expense for the trailing twelve months of at least 3.0:1. Adjusted EBIT per the Credit Facility specifically excludes extraordinary and certain other defined items such as cash restructuring and acquisition-related charges up to \$7.5 million, and unlimited non-cash charges including gains or losses on sale of property and goodwill adjustments. At December 31, 2015, the Company's Interest Coverage Ratio was 27.94:1.

Leverage Ratio - The Company's ratio of funded debt to trailing twelve month Adjusted EBITDA per the facility, calculated as Adjusted EBIT per the Credit Facility plus depreciation and amortization, may not exceed 3.5:1. At December 31, 2015, the Company's Leverage Ratio was 1.13:1.

As of December 31, 2015, we had borrowings under our facility of \$110.0 million and the effective rate of interest for outstanding borrowings under the facility was 1.64%. Our primary cash requirements in addition to day-to-day operating needs include interest payments, capital expenditures, acquisitions, share repurchases, and dividends. Our primary sources of cash for these requirements are cash flows from continuing operations and borrowings under the facility. We expect to spend between \$26.0 and \$28.0 million on capital expenditures during 2016, and expect that depreciation and amortization expense will be between \$16.0 and \$17.0 million and \$2.5 and \$3.5 million, respectively.

In order to manage our interest rate exposure, we are party to \$60.0 million of active floating to fixed rate swaps. These swaps convert our interest payments from LIBOR to a weighted average rate of 1.65%.

The following table sets forth our capitalization a December 31, 2015 and June 30, 2015:

(In thousands)		December 31, 2015		June 30, 2015
Long-term debt	\$	108,933	\$	101,753
Less cash and cash equivalents		104,214		96,128
Net debt (cash)		4,719		5,625
Stockholders' equity		366,094		348,570
Total capitalization	\$	370,813	\$	354,195

We sponsor a number of defined benefit and defined contribution retirement plans. The U.S. pension plan is frozen for substantially all participants. We have evaluated the current and long-term cash requirements of these plans, and our existing sources of liquidity are expected to be sufficient to cover required contributions under ERISA and other governing regulations.

The fair value of the Company's U.S. defined benefit pension plan assets was \$192.0 million at December 31, 2015, as compared to \$204.7 million at the most recent measurement date, which occurred as of June 30, 2015. The next measurement date to determine plan assets and benefit obligations will be on June 30, 2016.

At December 31, 2015, we do not expect to make mandatory contributions to the U.S pension plan until at least 2018. The Company expects to pay \$1.5 million in contributions to its defined benefit plans during fiscal 2016. Contributions of \$0.3 million and \$0.6 million were made during the three and six months ended December 31, 2015 compared to \$0.2 million and \$0.5 million during the three and six months ended December 31, 2014 respectively. Required contributions of \$0.9 million will be paid to the Company's U.K. defined benefit plan during 2016. The Company also expects to make voluntary contributions of \$0.2 million and \$0.3 million to its unfunded defined benefit plans in the U.S. and Germany, respectively during the current fiscal year. Any subsequent plan contributions will depend on the results of future actuarial valuations.

We have an insurance program in place to fund supplemental retirement income benefits for six retired executives. Current executives and new hires are not eligible for this program. At December 31, 2015 the underlying policies had a cash surrender value of \$19.1 million and are reported net of loans of \$10.0 million for which we have the legal right of offset, these amounts are reported net on our balance sheet.

On March 30, 2012, Air Distribution Products Group, (ADP) was sold to a private equity buyer for consideration of \$16.1 million consisting of \$13.1 million in cash and a \$3.0 million promissory note from the buyer. The note was secured by a mortgage on the ADP real estate sold in the transaction in Detroit Lakes, MN, Medina, NY, and Powder Springs, GA. During the first quarter 2016, the private equity buyer of ADP sold one of the facilities securing the note. The Company released all mortgages on the properties and accepted an advanced payment of \$2.8 million during October 2015 in order to reduce repayment risk and settle all obligations under the note. The Company recorded a \$0.2 million loss in discontinued operations during the first quarter 2016 related to this transaction.

The Company remained the obligor of ADP's Philadelphia, PA facility and administrative offices. We have entered into a renewable sublease agreement with a third party for this space. Our obligation with respect to the lease is \$1.0 million, of which \$0.7 million was recorded as a liability at December 31, 2015. We do not expect to record additional charges related to these obligations.

Other Matters

Inflation Certain of our expenses, such as wages and benefits, occupancy costs and equipment repair and replacement, are subject to normal inflationary pressures. Inflation for medical costs can impact both our reserves for self-insured medical plans as well as our reserves for workers' compensation claims. We monitor the inflationary rate and make adjustments to reserves whenever it is deemed necessary. Our ability to manage medical costs inflation is dependent upon our ability to manage claims and purchase insurance coverage to limit the maximum exposure for us. Each of our segments is subject to the effects of changing raw material costs caused by the underlying commodity price

movements. In general, we do not enter into purchase contracts that extend beyond one operating cycle. While Standex considers our relationship with our suppliers to be good, there can be no assurances that we will not experience any supply shortage.

Foreign Currency Translation Our primary functional currencies used by our non-U.S. subsidiaries are the Euro, British Pound Sterling (Pound), Mexican (Peso), Chinese (Yuan) and Canadian dollar.

Environmental Matters To the best of our knowledge, we believe that we are presently in substantial compliance with all existing applicable environmental laws and regulations and do not anticipate any instances of non-compliance that will have a material effect on our future capital expenditures, earnings or competitive position.

Seasonality We are a diversified business with generally low levels of seasonality, however our fiscal third quarter is typically the period with the lowest level of activity.

Employee Relations The Company has labor agreements with a number of union locals in the United States and a number of European employees belong to European trade unions. There are no U.S. union contracts expiring during fiscal year 2016.

Critical Accounting Policies

The condensed consolidated financial statements include the accounts of Standex International Corporation and all of its subsidiaries. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying condensed consolidated financial statements. Although we believe that materially different amounts would not be reported due to the accounting policies adopted, the application of certain accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. Our Annual Report on Form 10-K for the year ended June 30, 2015 lists a number of accounting policies which we believe to be the most critical.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Risk Management

We are exposed to market risks from changes in interest rates, commodity prices and changes in foreign currency exchange. To reduce these risks, we selectively use, from time to time, financial instruments and other proactive management techniques. We have internal policies and procedures that place financial instruments under the direction of the Treasurer and restrict all derivative transactions to those intended for hedging purposes only. The use of financial instruments for trading purposes (except for certain investments in connection with the non-qualified defined contribution plan) or speculation is strictly prohibited. The Company has no majority-owned subsidiaries that are excluded from the consolidated financial statements. Further, we have no interests in or relationships with any special purpose entities.

Exchange Rate Risk

We are exposed to both transactional risk and translation risk associated with exchange rates. The transactional risk is mitigated, in large part, by natural hedges developed with locally denominated debt service on intercompany accounts.

We also mitigate certain of our foreign currency exchange rate risks by entering into forward foreign currency contracts from time to time. The contracts are used as a hedge against anticipated foreign cash flows, such as dividend payments, loan payments, and materials purchases, and are not used for trading or speculative purposes. The fair values of the forward foreign currency exchange contracts are sensitive to changes in foreign currency exchange rates, as an adverse change in foreign currency exchange rates from market rates would decrease the fair value of the contracts. However, any such losses or gains would generally be offset by corresponding gains and losses, respectively, on the related hedged asset or liability. At December 31, 2015, the fair value, in the aggregate, of the Company's open foreign exchange contracts was an asset of \$0.2 million.

Our primary translation risk is with the Euro, British Pound Sterling, Peso, and Chinese Yuan. A hypothetical 10% appreciation or depreciation of the value of any these foreign currencies to the U.S. Dollar at December 31, 2015, would not result in a material change in our operations, financial position, or cash flows. We do not hedge our translation risk. As a result, fluctuations in currency exchange rates can affect our stockholders' equity.

Interest Rate Risk

Our interest rate exposure is limited primarily to interest rate changes on our variable rate borrowings. From time to time, we use interest rate swap agreements to modify our exposure to interest rate movements. The Company's currently effective swap agreements convert our base borrowing rate on \$60.0 million of debt due under our Credit Agreement from a variable rate equal to LIBOR to a weighted average rate of 1.65% at December 31, 2015.

The Company's effective rate on variable-rate borrowings, including the impact of interest rate swaps, under the revolving credit agreement increased from 1.46% at June 30, 2015 to 1.64% at December 31, 2015.

Concentration of Credit Risk

We have a diversified customer base. As such, the risk associated with concentration of credit risk is inherently minimized. As of December 31, 2015, no one customer accounted for more than 5% of our consolidated outstanding receivables or of our sales.

Commodity Prices

The Company is exposed to fluctuating market prices for all commodities used in its manufacturing processes. Each of our segments is subject to the effects of changing raw material costs caused by the underlying commodity price movements. In general, we do not enter into purchase contracts that extend beyond one operating cycle. While Standex considers our relationship with our suppliers to be good, there can be no assurances that we will not experience any supply shortage.

The Engineering Technologies, Food Service Equipment, Electronics Products, and Hydraulics Products Groups are all sensitive to price increases for steel products, other metal commodities and petroleum based products. In the past year, we have experienced price fluctuations for a number of materials including steel, copper wire, other metal commodities, refrigeration components and foam insulation. These materials are some of the key elements in the products manufactured in these segments. Wherever possible, we will implement price increases to offset the impact of changing prices. The ultimate acceptance of these price increases, if implemented, will be impacted by our affected divisions' respective competitors and the timing of their price increases.

ITEM 4.

CONTROLS AND PROCEDURES

At the end of the period covered by this Report, the management of the Company, including the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of December 31, 2015 in ensuring that the information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's ("SEC") rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

SEC guidance permits the exclusion of an evaluation of the effectiveness of a registrant's disclosure controls and procedures as they relate to the internal control over financial reporting for an acquired business during the first year following such acquisition. As discussed in Note 2 to the consolidated financial statements contained in this Report; the Company acquired all of the outstanding stock of Northlake Engineering, Inc., (Northlake) on October 1, 2015.

Northlake represents less than 0.5% of the Company's consolidated revenue for the six months ended December 31, 2015 and approximately 2.4% of the Company's consolidated assets at December 31, 2015. Management's evaluation and conclusion as to the effectiveness of the design and operation of the Company's disclosure controls and procedures as of December 31, 2015 excludes any evaluation of the internal control over financial reporting of Northlake.

There was no change in the Company's internal control over financial reporting during the quarterly period ended December 31, 2015 that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c)

The following table provides information about purchases by the Company of equity securities that are registered by the Company pursuant to Section 12 of the Exchange Act:

Issuer Purchases of Equity Securities¹ Quarter Ended December 31, 2015

Period	(a) Total number of shares (or units) purchased	(b) Average price paid per share (or unit)	(c) Total number of shares (or units) purchased as part of publicly announced plans or programs	(d) Maximum number (or appropriate dollar value) of shares (or units) that may yet be purchased under the plans or programs

October 1 - October 31, 2015	6,567	\$ 74.97	6,567	314,377
November 1 - November 30, 2015	6,568	85.14	6,568	307,809
December 1 - December 31, 2015	79	74.15	79	307,730
Total	13,214	\$ 80.02	13,214	307,730

(1) The Company has a Stock Buyback Program (the Program) which was originally announced on January 30, 1985. Under the Program, the Company may repurchase its shares from time to time, either in the open market or through private transactions, whenever it appears prudent to do so. The Program has no expiration date, and the Company from time to time may authorize additional increases of share increments for buyback authority so as to maintain the Program. On August 20, 2013, the Company authorized 0.5 million shares for repurchase pursuant to its Program. All previously announced repurchases have been completed.

ITEM 6. EXHIBITS

(a)

Exhibits

10

Stock Purchase Agreement dated as of October 1, 2015 by and among Standex International Corporation, as buyer, and William A. Hardt and the Marlene T. Hardt Family Trust, as sellers, of Northlake Engineering, Inc.

31.1

Principal Executive Officer's Certification Pursuant to Rule 13a-14(a)/15d-14(a) and Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2

Principal Financial Officer's Certification Pursuant to Rule 13a-14(a)/15d-14(a) and Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32

Principal Executive Officer and Principal Financial Officer Certifications Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

101

The following materials from this Quarterly Report on Form 10-Q, formatted in Extensible Business Reporting Language (XBRL): (i) Condensed Consolidated Balance Sheets, (ii) Condensed Consolidated Statements of Operations, (iii) Condensed Consolidated Statements of Comprehensive Income, (iv) Condensed Consolidated Statements of Cash Flows, and (v) Notes to Unaudited Condensed Consolidated Financial Statements.

ALL OTHER ITEMS ARE INAPPLICABLE

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
