NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying Unaudited Consolidated Financial Statements of Peoples Bancorp Inc. and its subsidiaries ("Peoples" refers to Peoples Bancorp Inc. and its consolidated subsidiaries collectively, except where the context indicates the reference relates solely to Peoples Bancorp Inc.) have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") for interim financial information and the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not contain all of the information and footnotes required by US GAAP for annual financial statements and should be read in conjunction with Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2016 ("2016 Form 10-K").

The accounting and reporting policies followed in the presentation of the accompanying Unaudited Consolidated Financial Statements are consistent with those described in Note 1 of the Notes to the Consolidated Financial Statements included in Peoples' 2016 Form 10-K, as updated by the information contained in this Form 10-Q. Management has evaluated all significant events and transactions that occurred after June 30, 2017 for potential recognition or disclosure in these consolidated financial statements. In the opinion of management, these consolidated financial statements reflect all adjustments necessary to present fairly such information for the periods and at the dates indicated. Such adjustments are normal and recurring in nature. All significant intercompany accounts and transactions have been eliminated. The Consolidated Balance Sheet at December 31, 2016, contained herein, has been derived from the audited Consolidated Balance Sheet included in Peoples' 2016 Form 10-K.

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Results of operations for interim periods are not necessarily indicative of the results to be expected for the full year, due in part to seasonal variations and unusual or infrequently occurring items.

New Accounting Pronouncements: From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") or other standard setting bodies that are adopted by Peoples as of the required effective dates. Unless otherwise discussed, management believes the impact of any recently issued standards, including those issued but not yet effective, will not have a material impact on Peoples' consolidated financial statements taken as a whole.

May, Accounting Standards Update ("ASU") 2017-09 - Compensation - Stock Compensation (Topic 718): Scope and Modification Accounting. An entity may change the terms or conditions of a share-based payment award for many different reasons, and the nature and effect of the change can vary significantly. Modification is currently defined as "a change in any of the terms or conditions of a share-based payment award." The amendments in this ASU provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in accordance with Topic 718. The amendments will be effective for interim and annual reporting periods beginning after December 15, 2017 (effective January 1, 2018 for Peoples). Peoples will adopt this new accounting guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

March, ASU 2017-08 - Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in this ASU shorten the amortization period for certain callable debt securities held at a premium. The amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The amendments will be effective for interim and annual reporting periods beginning after December 15, 2018 (effective January 1, 2019 for Peoples). Peoples will adopt this new accounting guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

March, ASU 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The amendments in this ASU require that an employer disaggregate the service cost component from the other components of net benefit cost. The amendments will improve

the consistency, transparency, and usefulness of financial information and will be effective for interim and annual reporting periods beginning after December 15, 2017 (effective January 1, 2018 for Peoples). Peoples will adopt this new accounting guidance as required, and it will have no impact on Peoples' consolidated financial statements as the accrual for pension plan benefits for all participants was frozen as of March 1, 2011.

January, ASU 2017-04 - Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill

Impairment. This ASU is to simplify how an entity is required to test goodwill for impairment by eliminating the requirement to calculate

Table of Contents

the implied fair value of goodwill to measure a goodwill impairment charge. This accounting guidance will be effective for interim and annual reporting periods beginning after December 15, 2019 (effective January 1, 2020 for Peoples). Peoples will adopt this new accounting guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

January, ASU 2017-01 - Business Combinations (Topic 805): Clarifying the Definition of a Business. This ASU is to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting, including acquisitions, disposals, goodwill and consideration. In a separate ASU (Phase 2 of the project) that is expected to be issued shortly after this ASU, the FASB provides clarifying guidance for partial sales or transfers of assets within the scope of Subtopic 610-20 and the corresponding accounting for retained interest. This ASU will become effective for interim and annual reporting periods beginning after December 15, 2017 (effective January 1, 2018 for Peoples). Peoples will adopt this new accounting guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

May, ASU 2014-09 - Revenue from Contracts with Customers (Topic 606). There are many aspects of this new accounting guidance that are still being interpreted and the FASB has issued updates to certain aspects of the guidance to address implementation issues. The FASB issued updates in March, April, May and December of 2016 clarifying several areas of the guidance. These clarifications included:

- Principal versus agent considerations,
- Collectibility, sales tax and non-cash consideration, practical expedients for contract modifications and completed contracts,
- Identification of performance obligations, and
- Licensing implementation guidance.

This accounting guidance can be implemented using either a full retrospective method or a modified retrospective approach. This accounting guidance will be effective for interim and annual reporting periods beginning after December 15, 2017 (effective January 1, 2018 for Peoples). Early adoption is permitted but only for interim and annual reporting periods beginning after December 15, 2016. Peoples will adopt this new accounting guidance in 2018, as required, and anticipates implementing the new accounting guidance using the modified retrospective approach. The modified retrospective approach uses a cumulative-effect adjustment to retained earnings to reflect uncompleted contracts in the initial application of the guidance. Peoples' preliminary analysis indicates that certain non-interest income financial statement line items contain revenue streams that are in the scope of this update. Based on Peoples' evaluation to date, Peoples does not expect the adoption of this accounting guidance to have a significant impact on Peoples' financial condition or results of operations; however, the review is ongoing. Peoples will continue to evaluate the impact of this accounting guidance, including any additional guidance issued, during the completion of this internal assessment.

June, ASU 2016-13 - Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This accounting guidance replaces the current "incurred loss" model for recognizing credit losses with an "expected loss" model referred to as the Current Expected Credit Loss ("CECL") model. Under the CECL model, Peoples will be required to present certain financial assets carried at amortized cost, such as loans held-for-investment and held-to-maturity debt securities, at the net amount expected to be collected.

The measurement of expected credit losses is to be based on information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. This measurement will take place at the time the financial asset is first added to the balance sheet and periodically thereafter. This differs significantly from the "incurred loss" model required under current US GAAP, which delays recognition until it is probable a loss has been incurred. Accordingly, Peoples expects that the adoption of the CECL model will materially affect how the allowance for loan losses is determined and could require significant increases to the allowance for loan losses. Moreover, the CECL model may create more volatility in the level of Peoples' allowance for loan losses. If required to materially increase the level of allowance for loan losses for any reason, such increase could adversely affect Peoples' business, financial condition and results of operations.

The new CECL standard will become effective for interim and annual reporting periods beginning after December 15, 2019 (effective January 1, 2020 for Peoples). Peoples is currently evaluating the impact that the CECL model will have on Peoples' financial statements and expects to recognize a one-time cumulative-effect adjustment to the allowance for loan loss provision as of the beginning of the first reporting period in which the new standard is effective, consistent with regulatory expectations set forth in interagency guidance issued at the end of 2016. Peoples has not yet determined the magnitude of any such one-time cumulative adjustment or of the overall impact of the new standard on Peoples financial condition or results of operations.

March, ASU 2016-09 - Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amendments in this ASU require all excess income tax benefits or tax deficiencies of stock awards to be recognized in the income statement when the awards vest or are settled. The amendments also allow an employer to repurchase more of an employee's shares than it could under previous guidance for tax withholding purposes without triggering liability accounting and to make a policy election to account for forfeitures as they occur. Peoples adopted this pronouncement as of January 1, 2017, and will continue using an estimated forfeiture rate. In the first six months of 2017, Peoples recorded a tax benefit of \$104,000 associated with the adoption of this ASU for the tax benefit of awards that settled or vested during the year, with the majority recorded in the first quarter of 2017.

February, ASU 2016-02 - Leases (Topic 842): The amendment was issued to improve the financial reporting of leasing activities and provide a faithful representation of leasing transactions and improve understanding and comparability of a lessee's financial statements. Under the new accounting guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. The ASU will require both finance and operating leases to be recognized on the balance sheet. The ASU will affect all companies and organizations that lease real estate. This ASU will become effective for interim and annual reporting periods beginning after December 15, 2018 (effective January 1, 2019 for Peoples). Peoples will adopt this new accounting guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

January, ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this ASU are intended to enhance the reporting model for financial instruments to provide users of financial statements with more useful information. The amendments require equity investments to be measured at fair value with changes in fair value recognized in net income. However, a reporting organization may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment (if any,) from observable price changes in orderly transactions for similar investments of the same issuer. The ASU will be effective for fiscal years beginning after December 15, 2017 (effective January 1, 2018 for Peoples). Peoples is currently evaluating the impact of adopting the new accounting guidance on Peoples' consolidated financial statements which may result in an impact to the income statement on a quarterly and annual basis, as market values fluctuate. Peoples will adopt this accounting guidance as of the required effective date. As of June 30, 2017, Peoples had net unrealized gains on equity securities of \$8.1 million.

The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1 inputs) or fair values determined by pricing models using a market approach that considers observable market data, such as interest rate volatility, LIBOR yield curves, credit spreads and prices from market makers and live trading systems (Level 2). Management reviews the valuation methodology and quality controls utilized by the pricing services in management's overall assessment of the reasonableness of the fair values provided, and challenges prices when management believes a material discrepancy in pricing exists.

Certain financial assets and financial liabilities are measured at fair value on a non-recurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets measured at fair value on a non-recurring basis included the following:

Impaired Loans: Impaired loans are measured and reported at fair value when the amounts to be received are less than the carrying value of the loans. One of the allowable methods for determining the amount of impairment is estimating fair value using the fair value of the collateral for collateral-dependent loans. Management's determination of the fair value for these loans uses a market approach representing the estimated net proceeds to be received from the sale of the collateral based on observable market prices or market value provided by independent, licensed or certified appraisers (Level 2 inputs). At June 30, 2017, impaired loans with an aggregate outstanding principal balance of \$34.0 million were measured and reported at a fair value of \$28.0 million. For the three and six months ended June 30, 2017, Peoples recognized \$159,000 and \$324,000 of recoveries on impaired loans, respectively, through the allowance for loan losses.

(2) For additional information, see Note 9. Financial Instruments with Off-Balance Sheet Risk

The methodologies for estimating the fair value of financial assets and liabilities that are measured at fair value on a recurring or non-recurring basis are discussed above. For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include cash and cash equivalents, demand and other non-maturity deposits, and overnight borrowings. Peoples used the following methods and assumptions in estimating the fair value of the following financial instruments:

Loans: The fair value of portfolio loans assumes sale of the notes to a third-party financial investor. Accordingly, this value is not necessarily the value to Peoples if the notes were held to maturity. Peoples considered interest rate, credit and market factors in estimating the fair value of loans (Level 3 inputs). In the current whole loan market, financial investors are generally requiring a much higher rate of return than the return inherent in loans if held to maturity given the lack of market liquidity. This divergence accounts for the majority of the difference in carrying amount over fair value.

Deposits: The fair value of fixed maturity certificates of deposit is estimated using a discounted cash flow calculation based on current rates offered for deposits of similar remaining maturities (Level 2 inputs).

Long-term borrowings: The fair value of long-term borrowings is estimated using a discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms (Level 2 inputs).

Cash flow hedges: Cash flow hedges are recognized in the Unaudited Consolidated Balance Sheets at their fair value. The fair value for derivative instruments is determined based on market prices, broker-dealer quotations on similar products, or other related input parameters (Level 2 inputs).

Bank premises and equipment, customer relationships, deposit base, banking center networks, and other information required to compute Peoples' aggregate fair value are not included in the above information. Accordingly, the above fair values are not intended to represent the aggregate fair value of Peoples.

Peoples' investment in equity securities was comprised largely of common stocks issued by various unrelated bank holding companies at both June 30, 2017 and December 31, 2016. At June 30, 2017, there were no securities of a single issuer that exceeded 10% of stockholders' equity.

The gross gains and gross losses realized by Peoples from sales of available-for-sale securities for the periods ended June 30 were as follows:

| | Three Months Ended June 30, | Six Months Ended June 30, | Three Months Ended June 30, | Six Months Ended June 30, |
|------------------------|--------------------------------------|------------------------------------|--------------------------------------|------------------------------------|
| (Dollars in thousands) | 2017 | 2016 | 2017 | 2016 |

Management systematically evaluates available-for-sale investment securities for other-than-temporary declines in fair value on a quarterly basis. At June 30, 2017, management concluded no individual securities were other-than-temporarily impaired since Peoples did not have the intent to sell, nor was it more likely than not that Peoples would be required to sell, any of the securities with an unrealized loss prior to recovery. Further, the unrealized losses at both June 30, 2017 and December 31, 2016 were largely attributable to changes in market interest rates and spreads since the securities were purchased.

At June 30, 2017, approximately 98% of the mortgage-backed securities with a market value that had been at an unrealized loss position for twelve months or more were issued by U.S. government sponsored agencies. The remaining 2%, or three positions, consisted of privately issued mortgage-backed securities with all of the underlying mortgages originated prior to 2004. Two of the three positions had a fair value of less than 90% of their book value, with an aggregate book and fair value of \$0.7 million and \$0.4 million, respectively. Management analyzed the underlying credit quality of these securities and concluded the unrealized losses were primarily attributable to the floating rate nature of these investments and the low number of loans remaining in these securities.

Furthermore, the unrealized losses with respect to the three bank-issued trust preferred securities that had been in an unrealized loss position for twelve months or more at June 30, 2017 were primarily attributable to the floating-rate nature of those investments, the current interest rate environment and spreads within that sector.

The table below presents the amortized cost, fair value and total weighted-average yield of available-for-sale securities by contractual maturity at June 30, 2017. The weighted-average yields are based on the amortized cost. In some cases, the issuers may have the right to call or prepay obligations without call or prepayment penalties prior to the contractual maturity date. Rates are calculated on a fully tax-equivalent basis using a 35% federal income tax rate.

Other Securities

Peoples' other investment securities on the Unaudited Consolidated Balance Sheet consist largely of shares of the Federal Home Loan Bank of Cincinnati (the "FHLB") and the Federal Reserve Bank of Cleveland (the "FRB").

Pledged Securities

Peoples had pledged available-for-sale investment securities with carrying values of \$551.4 million and \$517.9 million at June 30, 2017 and December 31, 2016, respectively, and held-to-maturity investment securities with carrying values of \$19.3 million and \$20.0 million at June 30, 2017 and December 31, 2016, respectively, to secure public and trust department deposits, and repurchase agreements in accordance with federal and state requirements. Peoples also pledged available-for-sale investment securities with carrying values of \$8.3 million and \$9.2 million at June 30, 2017 and December 31, 2016, respectively, and held-to-maturity securities with carrying values of \$21.5 million and \$22.2 million at June 30, 2017 and December 31, 2016, respectively, to secure additional borrowing capacity at the FHLB and the FRB.

Note 4. Loans

Peoples' loan portfolio consists of various types of loans originated primarily as a result of lending opportunities within Peoples' primary market areas of northeastern, central, southwestern and southeastern Ohio, west central West Virginia, and northeastern Kentucky. Acquired loans consist of loans purchased in 2012 or thereafter in a business combination. Loans that were acquired and subsequently re-underwritten, are reported as originated upon execution of such credit actions (for example, renewals and increases in lines of credit). The major classifications of loan balances, excluding loans held for sale, were as follows:

| (Dollars in thousands) | June 30, 2017 | December 31, 2016 |
|---------------------------------------|------------------|----------------------|
| Originated loans: | | |

Peoples has acquired various loans through business combinations for which there was, at acquisition, evidence of deterioration of credit quality since origination, and for which it was probable that all contractually required payments would not be collected. The carrying amounts of these purchased credit impaired loans included in the loan balances above are summarized as follows:

| (Dollars in thousands) | June 30, 2017 | December 31, 2016 |
|-------------------------------|------------------|----------------------|
| Commercial real estate, other | \$ 8,969 | \$ 11,476 |

| Total outstanding balance | \$ 31,394 | \$ 36,431 |
| Net carrying amount | \$ 21,974 | \$ 26,524 |

Table of Contents

Changes in the accretable yield for purchased credit impaired loans for the six months ended June 30, 2017 were as follows:

| (Dollars in thousands) | Accretable Yield |
|----------------------------|---------------------|
| Balance, December 31, 2016 | \$ 7,132 |
| Accretion | (876) |
| Balance, June 30, 2017 | \$ 6,256 |

Cash flows expected to be collected on acquired purchased credit impaired loans are estimated by incorporating several key assumptions, similar to the initial estimate of fair value. These key assumptions include probability of default, and the amount of actual prepayments after the acquisition date. Prepayments affect the estimated life of the loans and could change the amount of interest income, and possibly the principal expected to be collected. In reforecasting future estimated cash flows, credit loss expectations are adjusted as necessary.

Peoples pledges certain loans secured by 1-4 family and multifamily residential mortgages under a blanket collateral agreement to secure borrowings from the FHLB. The amount of such pledged loans totaled \$512.7 million and \$542.5 million at June 30, 2017 and December 31, 2016, respectively. Peoples also pledges commercial loans to secure borrowings with the FRB. The outstanding balances of these loans totaled \$128.3 million and \$152.0 million at June 30, 2017 and December 31, 2016, respectively.

Nonaccrual and Past Due Loans

A loan is considered past due if any required principal and interest payments have not been received as of the date such payments were required to be made under the terms of the loan agreement. A loan may be placed on nonaccrual status regardless of whether or not such loan is considered past due.

The recorded investments in loans on nonaccrual status and loans delinquent for 90 days or more and accruing were as follows:

| (Dollars in thousands) | Nonaccrual Loans | | Loans 90+ Days Past Due and Accruing | |
|--------------------------------------|------------------|----------------------|---|----------------------|

| Total loans | \$ 16,921 | \$ 21,325 | \$ 2,583 | \$ 3,771 |

During the first six months of 2017, Peoples' nonaccrual loans and loans 90+ days past due and accruing declined largely due to several payoffs on larger relationships.

During the first six months of 2017, Peoples' delinquency trends improved compared to the balances at December 31, 2016, as total loans past due declined in both the originated and acquired loan portfolios.

Credit Quality Indicators

As discussed in Note 1 of the Notes to the Consolidated Financial Statements included in Peoples' 2016 Form 10-K, Peoples categorizes the majority of its loans into risk categories based upon an established risk grading matrix using a scale of 1 to 8. A description of the general characteristics of the risk grades used by Peoples is as follows:

“Pass” (grades 1 through 4): Loans in this risk category involve borrowers of acceptable-to-strong credit quality and risk who have the apparent ability to satisfy their loan obligations. Loans in this risk grade would possess sufficient mitigating factors, such as adequate collateral or strong guarantors possessing the capacity to repay the loan if required, for any weakness that may exist.

“Special Mention” (grade 5): Loans in this risk grade are the equivalent of the regulatory definition of “Other Assets Especially Mentioned.” Loans in this category possess some credit deficiency or potential weakness, which requires a high level of management attention. Potential weaknesses include declining trends in operating earnings and cash flows and/or reliance on a secondary source of repayment. If left uncorrected, these potential weaknesses may result in noticeable deterioration of the repayment prospects for the loan or in Peoples' credit position.

“Substandard” (grade 6): Loans in this risk grade are inadequately protected by the borrower's current financial condition and payment capability or the collateral pledged, if any. Loans so classified have one or more well-defined weaknesses that jeopardize the orderly repayment of the loan. They are characterized by the distinct possibility that Peoples will sustain some loss if the deficiencies are not corrected.

“Doubtful” (grade 7): Loans in this risk grade have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or orderly repayment in full, on the basis of current

existing facts, conditions and values, highly questionable and improbable. Possibility of loss is extremely high, but because of

21

Table of Contents

certain important and reasonably specific factors that may work to the advantage and strengthening of the exposure, classification of the loan as an estimated loss is deferred until its more exact status may be determined.

“Loss” (grade 8): Loans in this risk grade are considered to be non-collectible and of such little value that their continuance as bankable assets is not warranted. This does not mean a loan has absolutely no recovery value, but rather it is neither practical nor desirable to defer writing off the loan, even though partial recovery may be obtained in the future. Charge-offs against the allowance for loan losses are taken in the period in which the loan becomes uncollectible. Consequently, Peoples typically does not maintain a recorded investment in loans within this category. Consumer loans and other smaller-balance loans are evaluated and categorized as “substandard,” “doubtful,” or “loss” based upon the regulatory definition of these classes and consistent with regulatory requirements. All other loans not evaluated individually, nor meeting the regulatory conditions to be categorized as described above, would be considered as being “not rated.”

The following table summarizes the risk category of loans within Peoples' loan portfolio based upon the most recent analysis performed:

Peoples' impaired loans shown in the table above included loans that were classified as troubled debt restructurings ("TDRs").

In assessing whether or not a borrower is experiencing financial difficulties, Peoples considers information currently available regarding the financial condition of the borrower. This information includes, but is not limited to, whether (i) the borrower is currently in payment default on any of the borrower's debt; (ii) a payment default is probable in the foreseeable future without the modification; (iii) the borrower has declared or is in the process of declaring bankruptcy; and (iv) the borrower's projected cash flow is insufficient to satisfy contractual payments due under the original terms of the loan without a modification.

Peoples considers all aspects of the modification to loan terms to determine whether or not a concession has been granted to the borrower. Key factors considered by Peoples include the borrower's ability to access funds at a market rate for debt with similar risk characteristics, the significance of the modification relative to the unpaid principal balance or collateral value of the debt, and the significance of a delay in the timing of payments relative to the original contractual terms of the loan. The most common concessions granted by Peoples generally include one or more modifications to the terms of the loan, such as (i) a reduction in the interest rate for the remaining life of the loan, (ii) an extension of the maturity date at an interest rate lower than the current market rate for new loans with similar risk, (iii) a temporary period of interest-only payments, and (iv) a reduction in the contractual payment amount for either a short period or the remaining term of the loan.

Allowance for Acquired Loan Losses

Acquired loans are recorded at their fair value as of the acquisition date with no valuation allowance, and monitored for changes in credit quality and subsequent increases or decreases in expected cash flows. Decreases in expected cash flows of acquired purchased credit impaired loans are recognized as an impairment, with the amount of the expected loss included in management's evaluation of the appropriateness of the allowance for loan losses. The methods utilized to estimate the required allowance for loan losses for nonimpaired acquired loans are similar to those utilized for originated loans; however, Peoples records a provision for loan losses only when the computed allowance exceeds the remaining fair value adjustment. During the first six months of 2017, Peoples recorded a recovery of loan losses that was related to an acquired purchased credit impaired loan that was paid off during the quarter.

The following table presents activity in the allowance for loan losses for acquired loans for the three and six months ended June 30:

| | Three Months Ended | | Six Months Ended | |

Note 5. Long-Term Borrowings

The following table summarizes Peoples' long-term borrowings:

| (Dollars in thousands) | June 30, 2017 | | | December 31, 2016 | | |
|---|---------------|-----------------------|--|-------------------|-----------------------|--|
| | Balance | Weighted-Average Rate | | Balance | Weighted-Average Rate | |
| FHLB putable, non-amortizing, fixed-rate advances | \$145,000 | 2.07 % | | \$70,000 | 2.49 % | |
| Callable national market repurchase agreements | 40,000 | 3.63 % | | 40,000 | 3.63 % | |
| FHLB amortizing, fixed-rate advances | 27,038 | 2.01 % | | 28,282 | 2.01 % | |

| Total long-term borrowings | \$219,014 | 2.43 % | | \$145,155 | 2.81 % | |

Peoples continually evaluates its overall balance sheet position given the interest rate environment. During the first quarter of 2017, Peoples borrowed an additional \$30.0 million of long-term FHLB non-amortizing advances, which have interest rates ranging from 1.20% to 1.46% and mature between 2018 and 2019. During the second quarter of 2017, Peoples borrowed an additional \$45.0 million of long-term FHLB non-amortizing advances, which have interest rates ranging from 1.74% to 2.03% and mature between 2020 and 2022.

As of June 30, 2017, Peoples' FHLB putable and callable national market repurchase agreements had no remaining call options. Peoples is required to make quarterly interest payments.

The amortizing, fixed-rate FHLB advances have a fixed rate for the term of each advance, with maturities ranging from ten to twenty years. These advances require monthly principal and interest payments, with some having a constant prepayment rate requiring an additional principal payment annually. These advances are not eligible for optional prepayment prior to maturity.

Peoples has entered into interest rate swaps as part of its interest rate risk management strategy. These interest rate swaps were designated as cash flow hedges and involved the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of June 30, 2017, Peoples had seven interest rate swaps with a notional

value of \$60.0 million associated with Peoples' cash outflows for various FHLB advances. The swaps become effective in 2018, roughly to coincide with the maturity of existing FHLB advances.

Additional information regarding Peoples' interest rate swaps can be found in Note 9 of the Notes to the Unaudited Consolidated Financial Statements.

On March 4, 2016, Peoples entered into a Credit Agreement (the "RJB Credit Agreement"), with Raymond James Bank, N.A. ("Raymond James") which provides Peoples with a revolving line of credit in the maximum aggregate principal amount of \$15 million (the "RJB Loan Commitment") for the purpose of: (i) to the extent that any amounts remained outstanding, paying off the then outstanding \$15 million revolving credit loan to Peoples, (ii) making acquisitions; (iii) making stock repurchases; (iv) working capital needs; and (v) other general corporate purposes. On March 4, 2016, Peoples paid origination fees of \$70,600, representing 0.47% of the RJB Loan Commitment.

The RJB Credit Agreement is unsecured. However, the RJB Credit Agreement contains negative covenants which preclude Peoples from: (i) taking any action which could, directly or indirectly, decrease Peoples' ownership (alone or together with any of Peoples' subsidiaries) interest in Peoples Bank (Peoples' Ohio state-chartered subsidiary bank) or any of Peoples Bank's subsidiaries to a level below the percentage of equity interests held as of March 4, 2016; (ii) taking any action to, or allowing Peoples Bank or any of Peoples Bank's subsidiaries to take any action to, directly or indirectly create, assume, incur, suffer or permit to exist any pledge, encumbrance, security interest, assignment, lien or charge of any kind or character on the equity interests of Peoples Bank or of any of Peoples Bank's subsidiaries; or (iii) taking any action to or allow Peoples Bank or any of Peoples Bank's subsidiaries to sell, transfer, issue, reissue or exchange, or grant any option with respect to, any equity interest of Peoples Bank or any of Peoples Bank's subsidiaries. There are also negative covenants limiting the actions which may be taken with respect to the authorization or issuance of additional shares of any class of equity interests of Peoples Bank or any of Peoples Bank's subsidiaries or the grant to any person other than Raymond James of any proxy for existing equity interests of Peoples Bank or any of Peoples Bank's subsidiaries. Additional information regarding the RJB Credit Agreement can be found in Peoples' 2016 Form 10-K.

The aggregate minimum annual retirements of long-term borrowings in future periods are as follows:

| (Dollars in thousands) | Balance | Weighted-Average | |
|-------------------------------------|-----------|------------------|---|
| | | Rate | |
| Six months ending December 31, 2017 | \$4,403 | 1.66 | % |

Note 7. Employee Benefit Plans

Peoples sponsors a noncontributory defined benefit pension plan that covers substantially all employees hired before January 1, 2010. The plan provides retirement benefits based on an employee's years of service and compensation. For employees hired before January 1, 2003, the amount of postretirement benefit is based on the employee's average monthly compensation over the highest five consecutive years out of the employee's last ten years with Peoples while an eligible employee. For employees hired on or after January 1, 2003, the amount of postretirement benefit is based on 2% of the employee's annual compensation plus accrued interest. Effective January 1, 2010, the pension plan was closed to new entrants. Effective March 1, 2011, the accrual of pension plan benefits for all participants was frozen. Peoples recognized this freeze as a curtailment as of December 31, 2010 and March 1, 2011, under the terms of the pension plan. Peoples also

provides post-retirement health and life insurance benefits to former employees and directors. Only those individuals who retired before January 27, 2012 were eligible for life insurance benefits. As of January 1, 2011, all retirees who desire to participate in the Peoples Bank medical plan do so by electing COBRA, which provides up to 18 months of coverage; retirees over the age of 65 also have the option to pay to participate in a group Medicare supplemental plan. Peoples' policy is to fund the cost of the health benefits as they arise.

Derivatives and Hedging Activities - Risk Management Objective of Using Derivatives

Peoples is exposed to certain risks arising from both its business operations and economic conditions. Peoples principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. Peoples manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources, and duration of its assets and liabilities and through the use of derivative financial instruments. Specifically, Peoples enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known or expected cash amounts, the value of which are determined by interest rates. Peoples' derivative financial instruments are used to manage differences in the amount, timing, and duration of Peoples' known or expected cash receipts and its known or expected cash payments principally related to certain variable rate borrowings. Peoples also has interest rate derivatives that result from a service provided to certain qualifying customers and, therefore, are not used to manage interest rate risk in Peoples' assets or liabilities. Peoples manages a matched book with respect to its derivative financial instruments in order to minimize its net risk exposure resulting from such transactions.

Fair Values of Derivative Instruments on the Balance Sheet

Peoples' fair value of the derivative financial instruments was \$4.9 million in an asset position and \$3.9 million in a liability position at June 30, 2017, and there was \$5.0 million in an asset position and \$3.2 million in a liability position at December 31, 2016.

Cash Flow Hedges of Interest Rate Risk

Peoples' objectives in using interest rate derivatives are to add stability to interest income and expense, and to manage its exposure to interest rate movements. To accomplish this objective, Peoples has entered into interest rate swaps as part of its interest rate risk management strategy. These interest rate swaps are designated as cash flow hedges and involve the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of June 30, 2017, Peoples had seven interest rate swaps with a notional value of \$60.0 million associated with Peoples' cash outflows for various FHLB advances.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of each derivative is initially reported in accumulated other comprehensive income ("AOCI") (outside of earnings), net of tax, and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. Peoples assesses the effectiveness of each hedging relationship by comparing the changes in cash flows of the derivative hedging instrument with the changes in cash flows of the designated hedged transaction.

Peoples hedged its exposure to the variability in future cash flows for forecasted transactions over a maximum period of 16 months (excluding forecasted transactions related to the payment of variable interest on existing financial instruments). Peoples entered into the seven interest rate swap contracts, described above, whereby Peoples will pay a fixed rate of interest for up to ten years while receiving a floating rate component of interest equal to the three-month LIBOR rate. The received floating rate component is intended to offset the rate on the rolling three-month FHLB advances that will be used to fund the transaction. Amounts reported in AOCI related to derivatives will be reclassified to interest income or expense as interest payments are made or received on Peoples' variable-rate assets or liabilities. During the three and six months ended June 30, 2017, and June 30, 2016, Peoples had no reclassifications to interest expense. During the next twelve months, Peoples estimates that no interest expense amount will be reclassified.

The amount of accumulated other comprehensive pre-tax income for Peoples' cash flow hedges was \$1.1 million at June 30, 2017. There were no pre-tax net losses recorded for the six months ended June 30, 2017. Additionally, Peoples had no reclassifications to earnings in the three months or six months ended June 30, 2017 or June 30, 2016.

Non-Designated Hedges

Peoples maintains an interest rate protection program for commercial loan customers, which was established in 2010. Under this program, Peoples provides its customer with a fixed-rate loan while creating a variable-rate asset for Peoples by the customer entering into an interest rate swap with Peoples on terms that match the loan. Peoples offsets

its risk exposure by entering into an offsetting interest rate swap with an unaffiliated institution. These interest rate swaps do not qualify as designated hedges; therefore, each swap is accounted for as a standalone derivative. Peoples had interest rate swaps associated with commercial loans with a notional value of \$320.0 million and fair value of \$3.5 million of equally offsetting assets and liabilities at June 30, 2017, and a notional value of \$247.3 million and fair value of \$3.2 million of equally offsetting assets and liabilities at December 31, 2016. These interest rate swaps did not have a material impact on Peoples' results of operation or financial condition.

Note 10. Stock-Based Compensation

Under the Peoples Bancorp Inc. Second Amended and Restated 2006 Equity Plan (the "2006 Equity Plan"), Peoples may grant, among other awards, nonqualified stock options, incentive stock options, restricted stock awards, stock appreciation rights ("SARs") and unrestricted share awards to employees and non-employee directors. The total number of common shares available under the 2006 Equity Plan is 1,081,260. The maximum number of common shares that can be issued for incentive stock options is 800,000 common shares. Prior to 2007, Peoples granted nonqualified and incentive stock options to employees and nonqualified stock options to non-employee directors under the 2006 Equity Plan and predecessor plans. Since 2009, Peoples has granted restricted common shares to employees and restricted common shares to non-employee directors subject to the terms and conditions prescribed by the 2006 Equity Plan. In general, common shares issued in connection with stock-based awards are issued from treasury shares to the extent available. If no treasury shares are available, common shares are issued from authorized but unissued common shares.

Stock Appreciation Rights

SARs granted to employees have an exercise price equal to the fair market value of Peoples' common shares on the date of grant and will be settled using common shares of Peoples. Additionally, the SARs granted to employees vested three years after the grant date and are to expire ten years from the date of grant. The most recent grant of SARs occurred in 2008. The following table summarizes the changes to Peoples' SARs for the six months ended June 30, 2017:

| | Number of Common Shares Subject to SARs | Weighted- Average Exercise Price | Weighted-Average Remaining Contractual Life | Aggregate Intrinsic Value |
|--------------------------|---|---|---|---------------------------------|
| Outstanding at January 1 | 2,338 | \$ 27.37 | | |
| Exercised | 2,024 | 27.93 | | |
| Outstanding at June 30 | 314 | \$ 23.77 | 0.6 years | \$ 2,625 |
| Exercisable at June 30 | 314 | \$ 23.77 | 0.6 years | \$ 2,625 |

Restricted Common Shares

Under the 2006 Equity Plan, Peoples may award restricted common shares to officers, key employees and non-employee directors. In general, the restrictions on restricted common shares awarded to non-employee directors expire after six months, while the restrictions on restricted common shares awarded to employees expire after periods ranging from one to three years. In the first six months of 2017, Peoples granted an aggregate of 61,457 restricted common shares subject to performance-based vesting to officers and key employees with restrictions that will lapse three years after the grant date provided that in order for the restricted common shares to vest in full, Peoples must have reported positive net income and maintained a well capitalized status by regulatory standards for each of the three fiscal years preceding the vesting date. During the first six months of 2017, Peoples granted, to certain key employees, an aggregate of 4,250 restricted common shares subject to time-based vesting with restrictions that will lapse three years after the grant date. Peoples also granted, to non-employee directors, an aggregate of 3,300 restricted common shares subject to time-based vesting with restrictions that will lapse six months after the grant date.

Table of Contents

The following table summarizes the changes to Peoples' restricted common shares for the six months ended June 30, 2017:

| | Time-Based Vesting | | Performance-Based Vesting | |
|--------------------------|-------------------------|--|---------------------------|--|
| | Number of Common Shares | Weighted-Average Grant Date Fair Value | Number of Common Shares | Weighted-Average Grant Date Fair Value |
| Outstanding at January 1 | 40,316 | \$ 21.85 | 142,415 | \$ 21.95 |
| Awarded | 7,550 | 31.36 | 61,457 | 32.42 |
| Released | 450 | 28.95 | 21,050 | 21.74 |
| Forfeited | 300 | 31.05 | 2,304 | 25.98 |
| Outstanding at June 30 | 47,116 | \$ 23.24 | 180,518 | \$ 25.48 |

For both the six months ended June 30, 2017 and June 30, 2016, the total intrinsic value for restricted common shares released was \$0.7 million.

Stock-Based Compensation

Peoples recognizes stock-based compensation expense, which is included as a component of Peoples' salaries and employee benefit costs, based on the estimated fair value of the awards on the grant date. The following table summarizes the amount of stock-based compensation expense and related tax benefit recognized for each period:

| | Three Months Ended | | Six Months Ended | |
|--|--------------------|---------------|------------------|---------------|
| | June 30, 2017 | June 30, 2016 | June 30, 2017 | June 30, 2016 |
| (Dollars in thousands) | | | | |
| Total stock-based compensation expense | \$443 | \$324 | \$1,011 | \$663 |
| Recognized tax benefit | (155) | (113) | (354) | (232) |
| Net expense recognized | \$288 | \$211 | \$657 | \$431 |

Total unrecognized stock-based compensation expense related to unvested awards was \$2.2 million at June 30, 2017, which will be recognized over a weighted-average period of 2.0 years.

Forward-Looking Statements

Certain statements in this Form 10-Q, which are not historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act, and the Private Securities Litigation Reform Act of 1995. Words such as "anticipates," "estimate," "may," "feel," "expect," "believes," "plans," "will," "would," "should," similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially. Factors that might cause such a difference include, but are not limited to:

- (1) the success, impact, and timing of the implementation of Peoples' business strategies, including the successful integration of acquisitions and the expansion of consumer lending activity; competitive pressures among financial institutions or from non-financial institutions which may increase
- (2) significantly, including product and pricing pressures, changes to third-party relationships and revenues, and Peoples' ability to attract, develop and retain qualified professionals; changes in the interest rate environment due to economic conditions and/or the fiscal policies of the United States
- (3) ("U.S.") government and the Board of Governors of the Federal Reserve System (the "Federal Reserve Board"), which may adversely impact interest rates, interest margins, loan demand and interest rate sensitivity; uncertainty regarding the nature, timing and effect of legislative or regulatory changes or actions, promulgated and to be promulgated by governmental and regulatory agencies in the State of Ohio, the Federal Deposit Insurance Corporation, the Federal Reserve Board and the Consumer Financial Protection Bureau, which may subject
- (4) Peoples, its subsidiaries, or one or more acquired companies to a variety of new and more stringent legal and regulatory requirements which adversely affect their respective businesses, including in particular the rules and regulations promulgated and to be promulgated under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and the Basel III regulatory capital reform;
- (5) changes in policy and other regulatory and legal developments accompanying the current presidential administration and uncertainty or speculation pending the enactment of such changes; Peoples' ability to leverage the core banking system upgrade that occurred in the fourth quarter of 2016 (including the related core operating systems, data systems and products) without complications or difficulties that may
- (6) otherwise result in the loss of customers, operational problems or one-time costs currently not anticipated to arise in connection with such upgrade; local, regional, national and international economic conditions and the impact these conditions may have on
- (7) Peoples, its customers and its counterparties, and Peoples' assessment of the impact, which may be different than anticipated;

- (8) Peoples' ability to integrate any future acquisitions which may be unsuccessful, or may be more difficult, time-consuming or costly than expected;
- (9) Peoples may issue equity securities in connection with future acquisitions, which could cause ownership and economic dilution to Peoples' current shareholders;

- changes in prepayment speeds, loan originations, levels of nonperforming assets, delinquent loans and
- (10) charge-offs, which may be less favorable than expected and adversely impact the amount of interest income generated;
- adverse changes in the economic conditions and/or activities, including, but not limited to, continued economic uncertainty in the U.S., the European Union (including uncertainty surrounding the actions to be taken to
- (11) implement the referendum by British voters to exit the European Union), Asia and other areas, which could decrease sales volumes, add volatility to the global stock markets and increase loan delinquencies and defaults;
- (12) deterioration in the credit quality of Peoples' loan portfolio, which may adversely impact the provision for loan losses;
- (13) changes in accounting standards, policies, estimates or procedures which may adversely affect Peoples' reported financial condition or results of operations;
- (14) Peoples' assumptions and estimates used in applying critical accounting policies, which may prove unreliable, inaccurate or not predictive of actual results;
- adverse changes in the conditions and trends in the financial markets, including political developments, which
- (15) may adversely affect the fair value of securities within Peoples' investment portfolio, the interest rate sensitivity of Peoples' consolidated balance sheet, and the income generated by Peoples' trust and investment activities;
- (16) Peoples' ability to receive dividends from its subsidiaries;
- (17) Peoples' ability to maintain required capital levels and adequate sources of funding and liquidity;
- (18) the impact of minimum capital thresholds established as a part of the implementation of Basel III;
- (19) the impact of larger or similar sized financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples' business generation and retention, funding and liquidity;
- (20) the costs and effects of regulatory and legal developments, including the outcome of potential regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations;
- Peoples' ability to secure confidential information through the use of computer systems and telecommunications
- (21) networks, including those of Peoples' third-party vendors and other service providers, may prove inadequate, which could adversely affect customer confidence in Peoples and/or result in Peoples incurring a financial loss;
- (22) ability to anticipate and respond to technological changes which can impact Peoples' ability to respond to customer needs and meet competitive demands;
- (23) changes in consumer spending, borrowing and saving habits, whether due to changes in business and economic conditions, legislative or regulatory initiatives, or other factors, which may be different than anticipated;
- (24) the overall adequacy of Peoples' risk management program;
- the impact on Peoples' businesses, as well as on the risks described above, of various domestic or international
- (25) widespread natural or other disasters, pandemics, cyber attacks, civil unrest, military or terrorist activities or international conflicts;
- (26) significant changes in the tax laws, which may adversely affect the fair values of deferred tax assets and obligations of states and political subdivisions held in Peoples' investment securities portfolio; and
- other risk factors relating to the banking industry or Peoples as detailed from time to time in Peoples' reports filed
- (27) with the Securities and Exchange Commission (the "SEC"), including those risk factors included in the disclosures under the heading "ITEM 1A. RISK FACTORS" of Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2016 ("Peoples' 2016 Form 10-K").

Business Overview

The following discussion and analysis of Peoples' Unaudited Consolidated Financial Statements is presented to provide insight into management's assessment of the financial condition and results of operations.

Peoples offers diversified financial products and services through 75 locations, including 67 full-service bank branches, and 75 Automated Teller Machines ("ATMs") in northeastern, central, southwestern and southeastern Ohio, west central West Virginia and northeastern Kentucky through its financial service units – Peoples Bank and Peoples Insurance Agency, LLC ("Peoples Insurance"), a subsidiary of Peoples Bank. Peoples Bank is subject to regulation and examination primarily by the Ohio Division of Financial Institutions (the "ODFI"), the Federal Reserve Bank of Cleveland and the Federal Deposit Insurance Corporation ("FDIC"). Peoples Bank is also subject to regulations of the Consumer Financial Protection Bureau (the "CFPB") which regulates consumer financial products and services and certain financial services providers. Peoples Insurance is subject to regulation by the Ohio Department of Insurance and the state insurance regulatory agencies of those states in which Peoples Insurance may do business.

Peoples' products and services include traditional banking products, such as deposit accounts, lending products and trust services. Peoples provides services through traditional offices, ATMs, mobile banking for consumers and telephone and internet-based banking. Peoples also offers a complete array of insurance products and makes available custom-tailored fiduciary, employee benefit plan and asset management services. Brokerage services are offered by Peoples exclusively through an unaffiliated registered broker-dealer located at Peoples Bank's offices.

Critical Accounting Policies

The accounting and reporting policies of Peoples conform to US GAAP and to general practices within the financial services industry. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates. Management has identified the accounting policies that, due to the judgments, estimates and assumptions inherent in those policies, are critical to understanding Peoples' Unaudited Consolidated Financial Statements, and Management's Discussion and Analysis at June 30, 2017, which were unchanged from the policies disclosed in Peoples' 2016 Form 10-K.

Summary of Recent Transactions and Events

The following is a summary of recent transactions and events that have impacted or are expected to impact Peoples' results of operations or financial condition:

On March 31, 2017, Peoples closed four full-service bank branches. The closures included two Ohio offices located in Belpre and Wilmington, and two West Virginia offices located in Huntington and Point Pleasant. Peoples continues to evaluate the bank branch structure in an effort to optimize efficiency.

On January 31, 2017, Peoples Insurance acquired a third-party insurance administration company with annual net revenue of \$0.4 million located in Piketon, Ohio. The acquisition did not materially impact Peoples' financial position, results of operations or cash flows.

On January 27, 2017, Peoples entered into two \$10.0 million forward starting interest rate swaps, which will become effective in 2018 and mature between 2025 and 2027, with interest rates ranging from 2.47% to 2.53%. For additional information regarding Peoples' interest rate swaps, refer to Note 9. Financial Instruments with Off-Balance Sheet Risk of the Notes to the Unaudited Consolidated Financial Statements.

In the fourth quarter of 2016, Peoples converted its core banking system (including ancillary systems as well as hardware, operating system, application software and data center locations). The conversion resulted in a pre-tax combined revenue and expense impact of \$1.3 million, or \$0.05 in earnings per diluted share, for the full year. The

costs recorded in the fourth quarter, third quarter and second quarter of 2016 were \$700,000, \$423,000 and \$90,000,

Table of Contents

respectively. Deposit account service charges were impacted by the system conversion as Peoples granted waivers of \$85,000 related to account service charges in the fourth quarter of 2016.

During the fourth quarter of 2016, Peoples entered into two \$5.0 million forward starting interest rate swaps, which become effective in 2018 and mature in 2022 and 2026, with interest rates of 1.56% and 1.83%. For additional information regarding Peoples' interest rate swaps, refer to Note 9. Financial Instruments with Off-Balance Sheet Risk of the Notes to the Unaudited Consolidated Financial Statements.

During the second quarter of 2016, Peoples executed the following transactions to take advantage of the low interest rates:

Peoples restructured \$20.0 million of FHLB borrowings that had a weighted-average rate of 2.97%, resulting in a \$700,000 loss. Peoples replaced these borrowings with a long-term FHLB advance, which has an interest rate of 2.17% and matures in 2026.

Peoples borrowed an additional \$35.0 million of long-term FHLB amortizing advances, which had interest rates ranging from 1.08% to 1.40%, and mature between 2019 and 2031.

Peoples entered into three \$10.0 million forward starting interest rate swaps, which become effective in 2018 and mature between 2023 and 2025, with interest rates ranging from 1.49% to 1.56%. These swaps locked in funding rates for \$40.0 million in FHLB advances that mature in 2018, which have interest rates ranging from 3.65% to 3.92%. For additional information regarding Peoples' interest rate swaps, refer to Note 9. Financial Instruments with Off-Balance Sheet Risk of the Notes to the Unaudited Consolidated Financial Statements.

On June 8, 2016, Peoples purchased an additional \$35.0 million in bank owned life insurance ("BOLI"). The additional BOLI added \$326,000 and \$243,000 in non-interest income in the first and second quarters of 2017, compared to the first and second quarters of 2016, respectively.

On March 4, 2016, Peoples entered into a Credit Agreement (the "RJB Credit Agreement") with Raymond James, which provides Peoples with a revolving line of credit in the maximum aggregate principal amount of \$15 million, for the purpose of: (i) to the extent that any amounts remained then outstanding, paying off the \$15 million revolving line of credit to Peoples pursuant to the U.S. Bank Loan Agreement; (ii) making acquisitions; (iii) making stock repurchases; (iv) working capital needs; and (v) other general corporate purposes. On March 4, 2016, Peoples paid upfront fees for the establishment of a revolving line of credit agreement of \$70,600, representing 0.47% of the loan commitment under the RJB Credit Agreement.

Effective March 2, 2016, Peoples terminated the loan agreement with U.S. Bank National Association dated as of December 18, 2012, as amended (the "U.S. Bank Loan Agreement"). As of the termination date, Peoples had no outstanding borrowings under the U.S. Bank Loan Agreement. Peoples paid an immaterial non-usage fee in connection with the termination of the U.S. Bank Loan Agreement.

On January 6, 2016, Peoples Bank acquired a small financial advisory book of business in Marietta, Ohio for total cash consideration of \$0.5 million, and recorded \$0.5 million of customer relationship intangibles. The acquisition did not materially impact Peoples' financial position, results of operations or cash flows.

Peoples' net interest income and net interest margin are impacted by changes in market interest rates based upon actions taken by the Federal Reserve Board, either directly or through its Open Market Committee. These actions include changing its target Federal Funds Rate (the interest rate at which banks lend money to each other), Discount Rate (the interest rate charged to banks for money borrowed from a Federal Reserve Bank) and longer-term market interest rates (primarily U.S. Treasury securities). Interest rates also are affected by investor demand for U.S. Treasury securities. The resulting changes in the yield curve slope have a direct impact on reinvestment rates for Peoples' earning assets.

The Federal Reserve Board raised the benchmark Federal funds rate by 25 basis points in December of 2016 and March and June of 2017. The likelihood of additional rate hikes in 2017 is declining as the rate of inflation is below the targeted levels. Furthermore, geopolitical tensions between the U.S. and North Korea, as well as in the Middle East, are potentially significant situations that could negatively impact financial markets. Corporate earnings, however, are expected to be strong for the 2nd consecutive quarter, a sign of an improving economy which could cause the Federal Reserve Board to continue its effort to tighten monetary policy later in the year. Peoples is closely monitoring interest rates, both foreign and domestic, and potential impacts of changes in interest rates to Peoples

Bank's operations.

EXECUTIVE SUMMARY

Peoples recorded net income for the quarter ended June 30, 2017 of \$9.8 million, or \$0.53 per diluted common share, compared to \$8.0 million, or \$0.44 per diluted common share, for the second quarter of 2016 and net income of \$8.8 million, or \$0.48 per diluted common share, for the first quarter of 2017. On a year-to-date basis, net income was \$18.6 million, or \$1.02 per diluted share, compared to \$16.0 million, or \$0.88 per diluted share, for the same period in 2016. The increased earnings for all periods was primarily due to increases in net interest income.

Net interest income was \$28.1 million in the second quarter of 2017, compared to \$26.3 million for the second quarter of 2016 and \$26.9 million for the first quarter of 2017, while net interest margin was 3.62%, 3.57%, and 3.55%, respectively. For the six months ended June 30, 2017, net interest income was \$55.0 million, compared to \$52.1 million for the same period in 2016, while net interest margin was 3.58% and 3.55%, respectively.

The increase in net interest margin compared to all prior periods was due primarily to loan growth, with the recent increase in interest rates positively impacting net interest income and the net interest margin. The accretion income, net of amortization expense, from acquisitions added 10 basis points to net interest margin in the second quarter of 2017, compared to 12 basis points for the second quarter of 2016 and 11 basis points for the linked quarter. On a year-to-date basis, the accretion income, net of amortization expense, from acquisitions added 10 basis points to net interest margin for the first six months of 2017 compared to 12 basis points for the first six months of 2016.

Peoples' provision for loan losses for the three months ended June 30, 2017 and June 30, 2016 was \$947,000 and \$727,000, respectively, compared to \$624,000 for the first quarter of 2017. The higher provision for loan losses recorded during the second quarter of 2017 was reflective of the growth in loan balances during the period. Net charge-offs increased slightly to \$600,000 in the second quarter of 2017, compared to \$585,000 for the linked quarter and \$150,000 for the second quarter of 2016. The annualized net charge-off rate for each of the first and second quarters of 2017 was 0.11%, compared to 0.03% for the second quarter of 2016. The provision for loan losses recorded in 2017 was primarily driven by loan growth experienced during the first six months of 2017. Net charge-offs were \$1.2 million for the first six months of 2017, compared to \$623,000 for the first six months of 2016. The allowance for loan losses at June 30, 2017 increased to \$18.8 million, compared to \$18.4 million at December 31, 2016. The ratio of the allowance for loan losses as a percent of total loans, net of deferred fees and costs, was 0.82% at June 30, 2017 and March 31, 2017, and was 0.84% at June 30, 2016.

For the second quarter of 2017, total non-interest income increased \$1.4 million, or 11%, compared to the second quarter of 2016, and increased \$46,000 from the linked quarter. The growth in total non-interest income compared to the second quarter of 2016 was due to growth in almost all categories. Commercial loan swap fee income increased \$387,000, other income increased \$324,000, BOLI income increased \$243,000, and mortgage banking income increased \$202,000. The increase in commercial loan swap fee income was attributed to timing and volume of customer activity. The increase in other income was primarily due to the sale of a government guaranteed portion of a loan for \$437,000 in the second quarter of 2017. BOLI income increased due to the \$35.0 million of policies that were purchased late in the second quarter of 2016. The slight increase in total non-interest income compared to the linked quarter was the result of increases in most categories; commercial loan swap fee income increased \$383,000, other non-interest income increased \$292,000, and trust and investment income increased \$295,000. These increases were mostly offset by a decrease of \$688,000 in insurance income, which was largely due to a reduction of \$1.3 million in annual performance-based insurance commissions which, for the most part, are recognized in the first quarter of each year.

For the first six months of 2017, total non-interest income grew \$1.9 million, or 7%, compared to the same period in 2016. The increase compared to the first six months of 2016 was the result of growth in almost all categories. BOLI income increased \$569,000, trust and investment income increased \$501,000, commercial loan swap fee income increased \$491,000, and mortgage banking income increased \$429,000. The increases were partially offset by declines in deposit account service charges, which were driven by lower overdraft fees, coupled with lower insurance income. The increase in mortgage banking income was primarily due to \$28.0 million of loan sales to the secondary market in the first six months of 2017 compared to \$21.8 million in the first six months of 2016.

Total non-interest expense for the second quarter of 2017 were \$26.7 million, compared to \$26.5 million for the second quarter of 2016 and \$27.3 million for the first quarter of 2017. Total non-interest expense increased slightly from the second quarter of 2016 due mainly to the increase in salaries and employee benefits which was offset by decreases in professional fees, other expense and communication expenses. The increase in salaries and employee benefits was the result of an

Table of Contents

increase in incentive compensation, which is tied to business performance. The decrease in other expenses was primarily related to the timing of payments for postage expense, coupled with replacement of the previous vendor in 2016. The decrease in communication expense resulted from the continued consolidation of traditional phone lines to a method of transmitting all voice traffic over the internet and the discontinuation of overlapping traditional phone line contracts that occurred during the transition. Total non-interest expense decreased slightly from the linked quarter primarily due to a decrease of \$447,000 in salaries and employee benefits, mainly due to lower health insurance costs, lower base salaries and wages, and associated payroll taxes. The decrease in salaries and employee benefits was partially offset by an increase in incentive compensation. Peoples' number of full-time equivalent employees declined to 775 at June 30, 2017, compared to 776 at March 31, 2017 and 803 at June 30, 2016.

Peoples' efficiency ratio, calculated as total non-interest expense less amortization of other intangible assets divided by fully taxable equivalent ("FTE") net interest income, plus total non-interest income, excluding all gains and losses for the second quarter of 2017 was 61.19%, compared to 65.08% for the second quarter of 2016 and 64.89% for the linked quarter. The lower efficiency ratio in the second quarter of 2017 compared to the second quarter of 2016 was due to an increase in net interest income plus total non-interest income, excluding all gains and losses ("revenue") of 8%, which was slightly offset by a 1% increase in total non-interest expense. The decrease from the linked quarter was due to increased revenue of 3% coupled with a 2% decrease in total non-interest expense. On a year-to-date basis, the efficiency ratio was 63.01%, compared to 64.67% for the first six months of 2016. The improvement in the efficiency ratio during the first six months of 2017 versus 2016 was primarily due to a 6% increase in revenues, slightly offset by a 3% increase in total non-interest expense.

At June 30, 2017, total assets were \$3.53 billion, compared to \$3.43 billion, at December 31, 2016. The \$92.8 million increase was primarily the result of growth in loan balances, net of deferred fees and costs, of \$69.4 million, or 6% annualized. Indirect consumer lending continued to be a key component of loan growth as balances increased \$53.2 million, or 42% annualized, compared to December 31, 2016. The growth in indirect consumer loan balances included diversification in the portfolio beyond automobile loans, including indirect consumer loans for recreational vehicles and motorcycles. Commercial real estate loans grew \$14.2 million, or 4% annualized, with commercial and industrial loans growing \$9.1 million, or 4% annualized, during the first six months of 2017. Average gross loan balances for the six months ended June 30, 2017 increased \$151.2 million, or 7%, compared to the average gross loan balances for the six months ended June 30, 2016, due primarily to increases in indirect consumer loans, and commercial and industrial loans.

Total liabilities were \$3.07 billion at June 30, 2017, up \$76.7 million since December 31, 2016. The increase in liabilities during the first six months of 2017 was primarily due to an increase in deposits of \$167.4 million, or 7%, offset partially by a decline in total borrowings of \$89.2 million, or 20%. Interest-bearing deposits increased \$129.8 million, or 7%, and total non-interest-bearing deposits increased \$37.6 million, or 5%, compared to December 31, 2016. The growth in interest-bearing deposits was primarily the result of an increase of \$70.9 million in brokered certificates of deposit and \$45.9 million in governmental deposits. The increase in brokered certificates of deposits was the result of adding relatively shorter term funding on the balance sheet. The decrease in governmental deposit balances was due primarily to seasonality. The increase in non-interest-bearing deposits was primarily due to two commercial customers maintaining higher than usual balances as of June 30, 2017. Non-interest-bearing deposits comprised 29% of total deposits at each of June 30, 2017 and December 31, 2016.

At June 30, 2017, total stockholders' equity was \$451.4 million, an increase of \$16.1 million, or 4%, compared to December 31, 2016. Regulatory capital ratios remained significantly higher than "well capitalized" minimums. Peoples' common equity tier 1 risk-based capital ratio was 13.18% at June 30, 2017, versus 12.91% at December 31, 2016, while the tier 1 risk-based capital ratio was 13.47% at June 30, 2017, compared to 13.21% at December 31, 2016. The total risk-based capital ratio was 14.40% at June 30, 2017, compared to 14.11% at December 31, 2016. In addition, Peoples' tangible equity to tangible asset ratio was 9.07%, and tangible book value per common share was \$16.78 at June 30, 2017, versus 8.80% and \$15.89, respectively, at December 31, 2016.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income, the amount by which interest income exceeds interest expense, remains Peoples' largest source of revenue. The amount of net interest income earned by Peoples each quarter is affected by various factors, including changes in market interest rates due to the Federal Reserve Board's monetary policy, the level and degree of pricing competition for both loans and deposits in Peoples' markets, and the amount and composition of Peoples' earning assets and interest-bearing liabilities.

Table of Contents

(a) Average balances are based on carrying value.

(b) Interest income and yields are presented on a fully tax-equivalent basis using a 35% federal tax rate.

Average balances include nonaccrual, impaired loans and loans held for sale. Interest income includes interest earned and received on nonaccrual loans prior to the loans being placed on nonaccrual status. Loan fees included in interest income were immaterial for all periods presented.

(d) Loans held for sale are included in the average loan balance listed. Related interest income on loans originated for sale prior to the loan being sold is included in loan interest income.

(1)The change in interest due to both rate and volume has been allocated to rate and volume changes in proportion to the relationship of the dollar amounts of the changes in each.

(2)Interest income and yields are presented on a fully tax-equivalent basis using a 35% federal tax rate.

Net interest margin, which is calculated by dividing fully tax-equivalent ("FTE") net interest income by average interest-earning assets, serves as an important measurement of the net revenue stream generated by the volume, mix and pricing of earning assets and interest-bearing liabilities. FTE net interest income is calculated by increasing interest income to convert tax-exempt income earned on obligations of states and political subdivisions to the pre-tax equivalent of taxable income using a 35% federal tax rate.

Table of Contents

The following table details the calculation of FTE net interest income:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|--|--------------------|-----------|----------|------------------|----------|
| | June 30, | March 31, | June 30, | June 30, | June 30, |
| | 2017 | 2017 | 2016 | 2017 | 2016 |
| Net interest income, as reported | \$28,090 | \$26,945 | \$26,308 | \$55,035 | \$52,075 |
| Taxable equivalent adjustments | 496 | 513 | 502 | 1,009 | 1,010 |
| Fully tax-equivalent net interest income | \$28,586 | \$27,458 | \$26,810 | \$56,044 | \$53,085 |

Net interest income increased 4% in the second quarter of 2017 compared to the linked quarter and increased 7% compared to the prior year second quarter. During the second quarter of 2017, net interest income and net interest margin benefited from accretion income, net of amortization expense of \$735,000 related to the acquired loans, deposits and debt purchased in 2012 or thereafter in a business combination. The accretion income added 10 basis points to net interest margin, compared to \$829,000, or 11 basis points, respectively, during the linked quarter and \$886,000, or 12 basis points, respectively, during the prior year second quarter.

The net interest margin, excluding the impact of accretion income, net of amortization expense from the acquisitions completed, improved 8 basis points compared to the linked quarter. During the second quarter of 2017, compared to both the second quarter of 2016 and the first quarter of 2017, increases in loan growth and the earning asset yields outpaced higher funding costs. Recent increases in interest rates, coupled with prepayments on investment securities, led to the higher investment securities yield compared to both the second quarter of 2016 and the first quarter of 2017. Average loan balances increased \$27.4 million during the second quarter of 2017 compared to the first quarter of 2017, and were up \$149.7 million compared to the second quarter of 2016.

Funding costs increased 3 basis points during the second quarter of 2017 compared to the linked quarter, and increased 6 basis points from the prior year second quarter, as continued increases in interest rates have impacted the total cost of funds. Peoples continues to execute its strategy of replacing higher-cost funding with low-cost deposits. Additional information regarding changes in the Unaudited Consolidated Balance Sheets can be found under appropriate captions of the "FINANCIAL CONDITION" section of this discussion. Additional information regarding Peoples' interest rate risk and the potential impact of interest rate changes on Peoples' results of operations and financial condition can be found later in this discussion under the caption "FINANCIAL CONDITION - Interest Rate Sensitivity and Liquidity."

Provision for Loan Losses

The following table details Peoples' provision for loan losses:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|--|--------------------|-----------|----------|------------------|----------|
| | June 30, | March 31, | June 30, | June 30, | June 30, |
| | 2017 | 2017 | 2016 | 2017 | 2016 |
| Loan losses | \$850 | \$400 | \$575 | 1,250 | 1,433 |
| Checking account overdrafts | 97 | 224 | 152 | \$321 | \$249 |
| Provision for loan losses | \$947 | \$624 | \$727 | \$1,571 | \$1,682 |
| As a percentage of average total loans (a) | 0.17 % | 0.11 % | 0.14 % | 0.14 % | 0.16 % |

(a) Presented on an annualized basis

The provision for loan losses recorded represents the amount needed to maintain the adequacy of the allowance for loan losses based on management's quarterly analysis of the loan portfolio and procedural methodology that estimates the amount of probable credit losses. This process considers various factors that affect losses, such as changes in Peoples' loan quality, historical loss experience and current economic conditions. For the second quarter of 2017, the provision for loan losses was driven by loan growth; while the provision for loan losses recorded in the first quarter of 2017 was largely due to loan growth which was partially offset by improvements in asset quality. The provision for loan losses recorded in the second quarter of 2016 was primarily due to loan growth and low net charge-off activity during the period.

Additional information regarding changes in the allowance for loan losses and loan credit quality can be found later in this discussion under the caption “FINANCIAL CONDITION - Allowance for Loan Losses.”

Net Gain (Loss) on Asset Disposals and Other Transactions

The following table details the net gain (loss) on asset disposals and other transactions recognized by Peoples:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|---|--------------------|-----------|-----------|------------------|----------|
| | June 30, | March 31, | June 30, | June 30, | June 30, |
| | 2017 | 2017 | 2016 | 2017 | 2016 |
| Net gain (loss) on bank premises and equipment | \$133 | \$ (3) | \$ (97) | \$130 | \$(127) |
| Net loss on other real estate owned ("OREO") | (24) | — | — | (24) | (1) |
| Net loss on debt extinguishment | — | — | (707) | — | (707) |
| Net gain on other transactions | — | — | 35 | — | 35 |
| Net gain (loss) on asset disposals and other transactions | \$109 | \$ (3) | \$ (769) | \$106 | \$(800) |

The net loss on OREO during the second quarter of 2017 was due primarily to the write down of two OREO properties. The net loss on debt extinguishment during the second quarter of 2016 was related to the prepayment of \$20.0 million of FHLB advances. The net gain on bank premises and equipment during the second quarter of 2017 was due to the sale of a previously closed branch. The net loss on bank premises and equipment during the second quarter of 2016 was due mainly to the closing of a leased office and related disposal of leasehold improvements.

Non-Interest Income

Insurance income comprised the largest portion of the second quarter 2017 total non-interest income. The following table details Peoples' insurance income:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|---|--------------------|-----------|----------|------------------|----------|
| | June 30, | March 31, | June 30, | June 30, | June 30, |
| | 2017 | 2017 | 2016 | 2017 | 2016 |
| Property and casualty insurance commissions | \$2,753 | \$ 2,242 | \$ 2,672 | \$4,995 | \$5,120 |
| Performance-based commissions | 2 | 1,306 | 49 | 1,308 | 1,629 |
| Life and health insurance commissions | 467 | 410 | 479 | 877 | 898 |
| Credit life and A&H insurance commissions | 17 | 8 | 9 | 25 | 18 |
| Other fees and charges | 175 | 136 | 90 | 311 | 132 |
| Insurance income | \$3,414 | \$ 4,102 | \$ 3,299 | \$7,516 | \$7,797 |

The decrease in insurance income for the second quarter of 2017 compared to the linked quarter was mainly due to the decrease in performance-based commissions. The majority of performance-based commissions typically are recorded annually in the first quarter and are based on a combination of factors, such as loss experience of insurance policies sold, production volumes, and overall financial performance of the individual insurance carriers.

Peoples' trust and investment income continues to be based primarily upon the value of assets under management, with additional income generated from transaction commissions, cross-selling of products and additional retirement plan services business. The following tables detail Peoples' trust and investment income and related assets under administration and management:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|-----------------------------|--------------------|-----------|----------|------------------|----------|
| | June 30, | March 31, | June 30, | June 30, | June 30, |

| Trust and investment income | \$2,977 | \$ 2,682 | \$ 2,776 | \$5,659 | \$5,158 |

Table of Contents

| (Dollars in thousands) | June 30, 2017 | March 31, 2017 | December 31, 2016 | September 30, 2016 | June 30, 2016 |
|--|------------------|-------------------|-------------------------|--------------------------|------------------|
| Trust assets under administration and management | \$1,393,435 | \$1,362,243 | \$1,301,509 | \$1,292,044 | \$1,280,004 |
| Brokerage assets under administration and management | 836,192 | 805,361 | 777,771 | 754,168 | 729,519 |
| Total assets under administration and management | \$2,229,627 | \$2,167,604 | \$2,079,280 | \$2,046,212 | \$2,009,523 |
| Quarterly average | \$2,199,162 | \$2,122,036 | \$2,053,121 | \$2,031,378 | \$1,992,856 |

Trust and investment income increased \$295,000, or 11%, compared to the linked quarter and \$201,000, or 7%, compared to the second quarter of 2016, due primarily to the increase in market values and total assets under administration and management.

People's deposit account service charges was comprised of the following:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|---|--------------------|-------------------|------------------|------------------|------------------|
| | June 30, 2017 | March 31, 2017 | June 30, 2016 | June 30, 2017 | June 30, 2016 |
| Overdraft and non-sufficient funds fees | \$1,642 | \$1,614 | \$1,895 | \$3,256 | \$3,701 |
| Account maintenance fees | 545 | 536 | 585 | 1,081 | 1,146 |
| Other fees and charges | 107 | 279 | 83 | 386 | 319 |
| Deposit account service charges | \$2,294 | \$2,429 | \$2,563 | \$4,723 | \$5,166 |

The amount of deposit account service charges, particularly fees for overdrafts and non-sufficient funds, is largely dependent on the timing and volume of customer activity.

Mortgage banking income for the second quarter of 2017 increased 76% from the second quarter of 2016 and increased 21% compared to the linked quarter. The fluctuation of income was due to customer demand for long-term fixed-rate real estate loans which increased the sales of residential real estate loans to the secondary market.

Non-Interest Expense

Salaries and employee benefit costs remain Peoples' largest non-interest expense, accounting for over one-half of total non-interest expense. The following table details Peoples' salaries and employee benefit costs:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | |
|--|--------------------|-------------------|------------------|------------------|------------------|
| | June 30, 2017 | March 31, 2017 | June 30, 2016 | June 30, 2017 | June 30, 2016 |
| Base salaries and wages | \$9,750 | \$10,067 | \$9,820 | \$19,817 | \$19,657 |
| Sales-based and incentive compensation | 2,878 | 2,099 | 2,006 | 4,977 | 3,809 |
| Employee benefits | 1,509 | 1,927 | 1,347 | 3,436 | 2,895 |
| Stock-based compensation | 443 | 568 | 325 | 1,011 | 663 |
| Deferred personnel costs | (447) | (360) | (519) | (807) | (944) |
| Payroll taxes and other employment costs | 916 | 1,195 | 993 | 2,111 | 2,217 |
| Salaries and employee benefit costs | \$15,049 | \$15,496 | \$13,972 | \$30,545 | \$28,297 |
| Full-time equivalent employees: | | | | | |
| Actual at end of period | 775 | 776 | 803 | 775 | 803 |
| Average during the period | 774 | 780 | 813 | 777 | 814 |

Salaries and employee benefit costs for the second quarter of 2017 increased compared to the first quarter of 2017 and second quarter of 2016 due largely to an increase in performance-based incentive compensation, which is tied to business performance. The decrease in employee benefits in the second quarter of 2017 from the linked quarter was the result of reduced health insurance costs, which was the result of higher claims in the first quarter of 2017.

Peoples' net occupancy and equipment expense was comprised of the following:

| Net occupancy and equipment expense | \$2,648 | \$2,713 | \$2,581 | \$5,361 | \$5,387 |

Professional fees for the second quarter of 2017 decreased \$594,000, or 28%, from the prior year second quarter primarily due to charges related to annual trust client tax preparation, fees for outsourced services and the completion of a consulting engagement in the second quarter of 2016. Professional fees decreased \$81,000, or 5%, from the linked quarter due to a decrease in legal fees related to collections of special assets which correlated to the decrease in nonperforming assets and classified loans from December 31, 2016.

Data processing and software expense increased \$476,000, or 27%, in the first six months of 2017 compared to the first six months of 2016. The increase in expense was due to increased monthly fees which resulted in moving from an in-house core processing solution to a primarily outsourced solution. These increase was partially offset by reduced salaries and benefits related to the previous in-house solution.

Income Tax Expense

For the six months ended June 30, 2017, Peoples recorded income tax expense of \$8.3 million, for an effective tax rate of 30.8%. Peoples' current estimate is that the effective tax rate for the entire year of 2017 will be approximately 31.0%. In comparison, Peoples recorded an income tax expense of \$7.1 million for the same period in 2016, for an effective tax rate of 30.9%.

Peoples adopted the ASU 2016-09 - Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting as of January 1, 2017. In the first six months of 2017, Peoples recorded a tax benefit of \$104,000 associated with the adoption of this ASU for the tax benefit of awards that settled or vested during the period.

Pre-Provision Net Revenue

Pre-provision net revenue ("PPNR") has become a key financial measure used by state and federal bank regulatory agencies when assessing the capital adequacy of financial institutions. PPNR is defined as net interest income plus total non-interest income (excluding all gains and all losses) minus total non-interest expense and, therefore, excludes the provision for (recovery of) loan losses and all gains and/or losses included in earnings. As a result, PPNR represents the earnings capacity that can be either retained in order to build capital or used to absorb unexpected losses and preserve existing capital.

Table of Contents

The following table provides a reconciliation of this non-GAAP financial measure to the amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | | |

(a) Presented on an annualized basis.

PPNR increased compared to the first quarter of 2017 and the second quarter of 2016, in addition to the first six months of 2016. The increase was due largely to higher revenue, coupled with focused expense management.

Core Non-Interest Expense

Core non-interest expense is a financial measure used to evaluate Peoples' recurring expense stream. This measure is non-GAAP since it excludes the impact of system conversion costs, acquisition-related costs, pension settlement charges, search firm fees and legal settlement charges.

The following table provides a reconciliation of this non-GAAP financial measure to the comparable GAAP amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

Efficiency Ratio

The efficiency ratio is a key financial measure used to monitor performance. The efficiency ratio is calculated as total non-interest expense (less amortization of other intangible assets) as a percentage of FTE net interest income plus total non-interest income (excluding all gains and all losses). This measure is non-GAAP since it excludes amortization of other intangible assets and all gains and/or losses included in earnings, and uses FTE net interest income.

The following table provides a reconciliation of this non-GAAP financial measure to the amounts reported in Peoples' Consolidated Financial Statements for the periods presented:

| (Dollars in thousands) | Three Months Ended | | | Six Months Ended | | |

| Efficiency ratio adjusted for non-core items | 61.19 | % 64.89 | % 64.85 | % 63.01 | % 64.56 | % |

The decrease in the efficiency ratio from the prior year second quarter and the linked quarter was primarily due to increased revenues and the continued focus on expense management.

Management is targeting an efficiency ratio of 62% to 64% for the full year of 2017, absent acquisition-related costs and other non-core charges.

Return on Average Tangible Stockholders' Equity

The return on average tangible stockholders' equity ratio is a key financial measure used to monitor performance. The return on tangible stockholders' equity is calculated as net income (less after-tax impact of amortization of other intangible assets) divided by tangible stockholders' equity. This measure is non-GAAP since it excludes amortization of other intangible assets from earnings and the impact of goodwill and other intangible assets acquired through acquisitions on total stockholders' equity.

FINANCIAL CONDITION

Cash and Cash Equivalents

At June 30, 2017, Peoples' interest-bearing deposits in other banks increased from December 31, 2016. The total cash and cash equivalent balances included \$9.0 million of excess cash reserves being maintained at the Federal Reserve Bank of Cleveland at June 30, 2017, compared to \$4.4 million at December 31, 2016. The amount of excess cash reserves maintained is dependent upon Peoples' daily liquidity position, which is driven primarily by changes in deposit and loan balances.

Through the first six months of 2017, Peoples' total cash and cash equivalents increased \$6.3 million as Peoples' net cash provided by financing and operating activities of \$97.4 million exceeded cash used in investing activities of \$91.1 million. Peoples' investing activities reflected purchases of \$96.2 million in available-for-sale investment securities and a net increase

of \$67.7 million in loans, which were partially offset by \$74.9 million in net proceeds from principal payments, calls and prepayments on available-for-sale investment securities. Financing activities included a net increase of \$167.4 million in deposits which was offset partially by a net decrease of \$88.1 million in borrowings and \$7.0 million of cash dividends paid.

Through the first six months of 2016, Peoples' total cash and cash equivalents decreased \$4.8 million, as cash used in investing activities was \$70.0 million, which exceeded cash provided by financing and operating activities of \$33.1 million and \$32.1 million, respectively. Peoples' investing activities reflected a \$54.2 million net increase in loans and \$35.0 million investment in BOLI, offset partially by \$24.8 million in proceeds from available-for-sale investment securities. The proceeds from the investment portfolio included sales and principal payments, which outpaced purchases. Financing activities included a net increase in borrowings of \$46.7 million, offset by cash dividends paid of \$5.4 million, purchases of treasury stock of \$5.0 million and a decrease in deposits of \$3.0 million.

Further information regarding the management of Peoples' liquidity position can be found later in this discussion under "Interest Rate Sensitivity and Liquidity."

In the second quarter of 2017, the carrying value of investment securities increased \$11.2 million from the linked quarter, due primarily to purchases of \$55.0 million, coupled with the increase in fair value of \$2.3 million, offset partially by principal payments, calls, prepayments and amortization of \$46.1 million.

Peoples' investment in residential and commercial mortgage-backed securities largely consists of securities either guaranteed by the U.S. government or issued by U.S. government sponsored agencies, such as Fannie Mae and Freddie Mac. The remaining portions of Peoples' mortgage-backed securities consist of securities issued by other entities, including other financial institutions, which are not guaranteed by the U.S. government.

Table of Contents

The amount of these “non-agency” securities included in the residential mortgage-backed securities totals above was as follows:

Management continues to reinvest the principal runoff from the non-agency securities in U.S. agency investments, which accounted for the decline in the past year. At June 30, 2017, Peoples' non-agency portfolio consisted entirely of first lien residential mortgages, with nearly all of the underlying loans in these securities originated prior to 2004 and possessing fixed interest rates. Management continues to monitor the non-agency portfolio closely for leading indicators of increasing stress and will continue to be proactive in taking actions to mitigate such risk when necessary. Additional information regarding Peoples' investment portfolio can be found in Note 3. Investment Securities of the Notes to the Unaudited Consolidated Financial Statements.

Includes all loans acquired, and related loan discount or premium recorded as part of acquisition accounting, in (a) 2012 and thereafter. Loans that were acquired and subsequently re-underwritten, are reported as originated upon execution of such credit actions (for example, renewals and increases in lines of credit).

Period-end total loan balances increased \$69.4 million, or 6% annualized, compared to December 31, 2016. Indirect consumer lending continued to be a key component of loan growth, as balances increased \$53.3 million, or 42% annualized, compared to the period-end balances at December 31, 2016. The growth in indirect consumer lending included diversification in the portfolio beyond automobile loans, including indirect consumer loans for recreational vehicles and motorcycles. Commercial real estate loans grew \$31.6 million, or 8% annualized, with commercial and industrial loans growing \$9.1 million, or 4% annualized, compared to December 31, 2016. Compared to March 31, 2017, period-end total loan balances increased \$44.9 million, or 8% annualized. The growth was primarily the result of indirect consumer loan growth of \$22.4 million, or 32% annualized, and commercial real estate loan balances grew \$29.0 million, or 14% annualized.

Loan Concentration

Peoples categorizes its commercial loans according to standard industry classifications and monitors for concentrations in a single industry or multiple industries that could be impacted by changes in economic conditions in a similar manner. Peoples' commercial lending activities continue to be spread over a diverse range of businesses from all sectors of the economy, with no single industry comprising over 10% of Peoples' total loan portfolio.

Loans secured by commercial real estate, including commercial construction loans, continued to comprise the largest portion of Peoples' loan portfolio. The following table provides information regarding the largest concentrations of commercial real estate loans within the loan portfolio at June 30, 2017:

Peoples' commercial lending activities continue to focus on lending opportunities inside its primary and secondary market areas within Ohio, West Virginia and Kentucky. In all other states, the aggregate outstanding balances of commercial loans in each state were not material at either June 30, 2017 or December 31, 2016.

Allowance for Loan Losses

The amount of the allowance for loan losses at the end of each period represents management's estimate of expected losses from existing loans based upon its quarterly analysis of the loan portfolio. While this process involves allocations being made to specific loans and pools of loans, the entire allowance is available for all losses incurred within the loan portfolio.

The following details management's allocation of the allowance for loan losses:

Table of Contents

At June 30, 2017, the allowance for loan losses increased to \$18.8 million, compared to \$17.8 million at June 30, 2016 and \$18.5 million at December 31, 2016. The ratio of the allowance for loan losses as a percent of total loans net of deferred fees and costs, was 0.82% at June 30, 2017, compared to 0.84% at June 30, 2016 and 0.83% at December 31, 2016. The continued decline in this ratio was primarily due to the stabilization of Peoples' asset quality metrics.

The significant allocations of allowance for loan losses to commercial loans reflect the higher credit risk associated with this type of lending and the size of this loan category in relationship to the entire loan portfolio. The allowance allocated to the residential real estate and consumer loan categories is based upon Peoples' allowance methodology for homogeneous pools of loans. The fluctuations in these allocations have been directionally consistent with the changes in loan quality, loss experience and loan balances in these categories.

(a) Prior periods reclassified.

Total deposits decreased \$25.0 million, or 1%, compared to March 31, 2017, and increased \$167.4 million, or 7%, compared to December 31, 2016. The decrease compared to March 31, 2017 in non-interest-bearing deposits was due primarily to one commercial customer having a higher than normal balance in the customer's account as of March 31, 2017, which was reduced during the second quarter of 2017. The decline in interest-bearing deposits, compared to March 31, 2017, was driven by a reduction in governmental deposit accounts of \$32.9 million, which was partially offset by increases in interest-bearing demand accounts and money market deposits. Balances in governmental deposit accounts are seasonally higher in the first quarter of each year compared to the other quarters.

The increase in total deposit balances compared to December 31, 2016 was primarily due to increases of \$70.9 million in brokered CDs, \$45.9 million in governmental deposit accounts and \$37.6 million in non-interest-bearing deposits. The increase in brokered CDs was the result of adding relatively shorter term funding on the balance sheet. The increase in non-interest-bearing deposits was due primarily to two commercial customers maintaining higher than usual balances as of June 30, 2017.

Total deposits at June 30, 2017 increased \$144.2 million, or 6%, compared to June 30, 2016. The growth in interest-bearing deposits was due primarily to increases of \$73.3 million in brokered CDs and \$51.4 million in interest-bearing demand accounts, which were partially offset by a decrease of \$49.3 million in retail CDs. Almost 34% of the total increase in non-interest-bearing deposits was due to an increase for one commercial customer, with the remaining increase attributable to increases for both commercial and individual customers, with no significant change in any one deposit account.

Non-interest-bearing deposits comprised 29% of total deposits at each of June 30, 2017 and December 31, 2016, compared to 28% at June 30, 2016. Peoples continues its deposit strategy of growing low-cost core deposits, such as checking and savings accounts, and reducing its reliance on higher-cost, non-core deposits, such as retail CDs.

Borrowed Funds

Peoples' short-term FHLB advances generally consist of overnight borrowings maintained in connection with the management of Peoples' daily liquidity position. Peoples' short-term FHLB advances at June 30, 2017 increased \$33.0 million compared to March 31, 2017 to fund loan growth during the second quarter of 2017. Peoples continually evaluates the overall balance sheet position given the interest rate environment.

Due to the interest rate environment, Peoples took action with respect to \$80 million of long-term borrowings that were scheduled to mature in 2018, with interest rates ranging from 2.79% to 3.92%. During the first quarter of 2017, and throughout 2016, these actions included:

On January 27, 2017, Peoples entered into two \$10.0 million forward starting interest rate swaps, which will become effective in 2018 and mature between 2025 and 2027, with interest rates ranging from 2.47% to 2.53%.

During the fourth quarter of 2016, Peoples entered into two \$5.0 million forward starting interest rate swaps, which become effective in 2018 and mature in 2022 and 2026, with interest rates of 1.56% and 1.83%.

During the second quarter of 2016, Peoples executed the following transactions to take advantage of the low interest rates:

60

Table of Contents

Peoples restructured \$20.0 million of FHLB borrowings that had a weighted-average rate of 2.97%, resulting in a \$700,000 loss. Peoples replaced these borrowings with a long-term FHLB advance, which had an interest rate of 2.17% and matures in 2026.

Peoples borrowed an additional \$35.0 million of long-term FHLB amortizing advances, which had interest rates ranging from 1.08% to 1.40%, and mature between 2019 and 2031.

Peoples entered into three \$10.0 million forward starting interest rate swaps, which become effective in 2018 and mature between 2023 and 2025, with interest rates ranging from 1.49% to 1.56%, which become effective in 2018 and mature between 2022 and 2026. These swaps locked in funding rates for \$40 million in FHLB advances that mature in 2018, which have interest rates ranging from 3.65% to 3.92%

Additional information regarding Peoples' interest rate swaps can be found in Note 9. Financial Instruments with Off-Balance Sheet Risk of the Notes to the Unconsolidated Financial Statements.

Capital/Stockholders' Equity

At June 30, 2017, capital levels for both Peoples and Peoples Bank remained substantially higher than the minimum amounts needed to be considered "well capitalized" institutions under applicable banking regulations. These higher capital levels reflect Peoples' desire to maintain a strong capital position. During the first quarter of 2015, Peoples adopted the new Basel III regulatory capital framework, as approved by the federal banking agencies. The adoption of this new framework modified the calculations and well capitalized thresholds of the existing risk-based capital ratios and added the new Common Equity Tier 1 risk-based capital ratio. Additionally, under the new rules, in order to avoid limitations on dividends, equity repurchases and compensation, Peoples must exceed the three minimum required ratios by at least the capital conservation buffer. The capital conservation buffer is being phased in from 0.625% beginning January 1, 2016 to 2.50% by January 1, 2019, and applies to the Common Equity Tier 1 ("CET1") ratio, the tier 1 capital ratio and the total risk-based capital ratio. At June 30, 2017, Peoples' had a capital conservation buffer of 6.40%, compared to 2.50% for the fully phased-in capital conservation buffer required by January 1, 2019. As such, Peoples exceeded the minimum ratios including the capital conservation buffer at June 30, 2017.

The following table details Peoples' risk-based capital levels and corresponding ratios:

Peoples' capital ratios increased compared to March 31, 2017 and December 31, 2016, largely due to net income increasing stockholders' equity, along with relatively stable net risk-weighted assets.

In addition to traditional capital measurements, management uses tangible capital measures to evaluate the adequacy of Peoples' stockholders' equity. Such ratios represent non-GAAP financial measures since their calculation removes the impact of goodwill and other intangible assets acquired through acquisitions on amounts reported in the Unaudited Consolidated Balance Sheets. Management believes this information is useful to investors since it facilitates the comparison of Peoples' operating performance, financial condition and trends to peers, especially those without a similar level of intangible assets to that of Peoples. Further, intangible assets generally are difficult to convert into cash, especially during a financial crisis, and could decrease substantially in value should there be deterioration in the overall franchise value. As a result, tangible equity represents a conservative measure of the capacity for Peoples to incur losses but remain solvent.

The following table reconciles the calculation of these non-GAAP financial measures to amounts reported in Peoples' Unaudited Consolidated Financial Statements:

The increase in the tangible equity to tangible assets ratio at June 30, 2017 compared to March 31, 2017 and December 31, 2016 was mostly due to net income, coupled with a slight recovery in the market value of investment securities.

Interest Rate Sensitivity and Liquidity

While Peoples is exposed to various business risks, the risks relating to interest rate sensitivity and liquidity are major risks that can materially impact future results of operations and financial condition due to their complexity and dynamic nature. The objective of Peoples' asset/liability management ("ALM") function is to measure and manage these risks in order to optimize net interest income within the constraints of prudent capital adequacy, liquidity and safety. This objective requires Peoples to focus on interest rate risk exposure and adequate liquidity through its management of the mix of assets and liabilities, their related cash flows, and the rates earned and paid on those assets and liabilities. Ultimately, the ALM function is intended to guide management in the acquisition and disposition of earning assets, and selection of appropriate funding sources.

Interest Rate Risk

Interest rate risk ("IRR") is one of the most significant risks arising in the normal course of business of financial services companies like Peoples. IRR is the potential for economic loss due to future interest rate changes that can impact the earnings stream as well as market values of financial assets and liabilities. Peoples' exposure to IRR is due primarily to differences in the maturity or repricing of earning assets and interest-bearing liabilities. In addition, other factors, such as prepayments of loans and investment securities, or early withdrawal of deposits, can expose Peoples to IRR and increase interest costs or reduce revenue streams.

Peoples has assigned overall management of IRR to its Asset-Liability Committee (the "ALCO"), which has established an IRR management policy that sets minimum requirements and guidelines for monitoring and managing the level of IRR. The methods used by the ALCO to assess IRR remain unchanged from those disclosed in Peoples' 2016 Form 10-K.

The following table shows the estimated changes in net interest income and the economic value of equity based upon a standard, parallel shock analysis (dollars in thousands):

62

Table of Contents

| Increase in Interest Rate (in Basis Points) | Estimated Increase (Decrease) in Net Interest Income | | Estimated Decrease in Economic Value of Equity | |
|--|--|----------------------|---|----------------------|
| | June 30, 2017 | December 31, 2016 | June 30, 2017 | December 31, 2016 |
| 300 | \$4,910 4.3% | \$(1,100)(1.0)% | \$(87,720) (13.0)% | \$(88,004)(15.0)% |
| 200 | 3,972 3.5% | 83 0.1 % | (59,264) (8.8)% | (57,925) (9.9)% |
| 100 | 2,514 2.2% | 603 0.6 % | (29,141) (4.3)% | (27,441) (4.7)% |

Estimated changes in net interest income and economic value of equity are partially driven by assumptions regarding the rate at which non-maturity deposits will reprice given a move in short-term interest rates. These assumptions are monitored closely by Peoples and were last updated in May 2017.

At June 30, 2017, Peoples' Unaudited Consolidated Balance Sheet remained positioned for a rising interest rate environment, as illustrated by the potential increase in net interest income shown in the above table. While parallel interest rate shock scenarios are useful in assessing the level of IRR inherent in Peoples' Unaudited Consolidated Balance Sheet, interest rates typically move in a non-parallel manner, with differences in the timing, direction and magnitude of changes in short-term and long-term interest rates. Thus, any benefit that could occur as a result of the Federal Reserve Board increasing short-term interest rates in future quarters could be offset by an inverse movement in long-term interest rates.

Peoples entered into interest rate swaps as part of its interest rate risk management strategy. These interest rate swaps are designated as cash flow hedges and involve the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of June 30, 2017, Peoples had seven interest rate swaps with a notional value of \$60.0 million.

Liquidity

In addition to IRR management, another major objective of the ALCO is to maintain a sufficient level of liquidity. The methods used by the ALCO to monitor and evaluate the adequacy of Peoples' liquidity position remain unchanged from those disclosed in Peoples' 2016 Form 10-K.

At June 30, 2017, Peoples had liquid assets of \$163.7 million, which represented 4.2% of total assets and unfunded commitments. This amount exceeded the minimal level of \$78.1 million, or 2.0% of total loans and unfunded commitments, currently required under Peoples' liquidity policy. Peoples also had an additional \$72.3 million of unpledged investment securities not included in the measurement of liquid assets.

Management believes the current balance of cash and cash equivalents, and anticipated cash flows from the investment portfolio, along with the availability of other funding sources, will allow Peoples to meet anticipated cash obligations, as well as special needs and off-balance sheet commitments.

Off-Balance Sheet Activities and Contractual Obligations

In the normal course of business, Peoples is a party to financial instruments with off-balance sheet risk necessary to meet the financing needs of Peoples' customers. These financial instruments include commitments to extend credit and standby letters of credit. The instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the Unaudited Consolidated Balance Sheets. The contract amounts of these instruments express the extent of involvement Peoples has in these financial instruments.

Loan Commitments and Standby Letters of Credit

Loan commitments are made to accommodate the financial needs of Peoples' customers. Standby letters of credit are instruments issued by Peoples Bank guaranteeing the beneficiary payment by Peoples Bank in the event of default by Peoples Bank's customer in the performance of an obligation or service. Historically, most loan commitments and standby letters of credit expire unused. Peoples' exposure to credit loss in the event of nonperformance by the counter-party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. Peoples uses the same underwriting standards in making commitments and conditional obligations as it does for on-balance sheet instruments. The amount of collateral obtained is based on management's credit evaluation of the customer. Collateral held varies, but may include accounts receivable,

inventory, property, plant, and equipment, and income-producing commercial properties.

Peoples routinely engages in activities that involve, to varying degrees, elements of risk that are not reflected in whole or in part in the consolidated financial statements. These activities are part of Peoples' normal course of business and include traditional off-balance sheet credit-related financial instruments, interest rate contracts and commitments to make additional

capital contributions in low-income housing tax credit investments. Traditional off-balance sheet credit-related financial instruments continue to represent the most significant off-balance sheet exposure.

The following table details the total contractual amount of loan commitments and standby letters of credit:

| (Dollars in thousands) | June 30, 2017 | March 31, 2017 | December 31, 2016 | September 30, 2016 | June 30, 2016 |
|-------------------------------|------------------|-------------------|----------------------|-----------------------|------------------|
| Home equity lines of credit | \$86,086 | \$86,037 | \$ 85,024 | \$ 83,267 | \$85,139 |
| Unadvanced construction loans | 92,669 | 116,168 | 119,075 | 100,484 | 88,342 |
| Other loan commitments | 302,710 | 267,132 | 269,669 | 268,259 | 242,914 |
| Loan commitments | \$481,465 | \$469,337 | \$ 473,768 | \$ 452,010 | \$416,395 |
| Standby letters of credit | \$26,458 | \$25,797 | \$ 25,651 | \$ 27,072 | \$22,065 |

Management does not anticipate that Peoples' current off-balance sheet activities will have a material impact on its future results of operations and financial condition based on historical experience and recent trends.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this Item 3 is provided under the caption "Interest Rate Sensitivity and Liquidity" under "ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION" in this Form 10-Q, and is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

Peoples' management, with the participation of Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer, has evaluated the effectiveness of Peoples' disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of June 30, 2017. Based upon that evaluation, Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer have concluded that:

- (a) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be accumulated and communicated to Peoples' management, including its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) Peoples' disclosure controls and procedures were effective as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in Peoples' internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during Peoples' fiscal quarter ended June 30, 2017, that have materially affected, or are reasonably likely to materially affect, Peoples' internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of their respective businesses or operations, Peoples or one of its subsidiaries may be named as a plaintiff, a defendant, or a party to a legal proceeding or any of their respective properties may be subject to various pending and threatened legal proceedings and various actual and potential claims. In view of the inherent difficulty of predicting the outcome of such matters, Peoples cannot state what the eventual outcome of any such matters.

However, based on management's current knowledge and after consultation with legal counsel, management believes these proceedings will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of Peoples.

ITEM 1A. RISK FACTORS

The accounting treatment of the interest rate swaps entered into by Peoples as part of its interest rate management strategy, may change if the hedging relationship is not as effective as currently anticipated. These interest rate swaps are designated as cash flow hedges and involve the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of June 30, 2017, Peoples had 7 interest rate swaps with a notional value of \$60.0 million. The swaps become effective in 2018, roughly to coincide with the maturity of existing FHLB advances. Although Peoples expects that the hedging relationship will be highly effective as described above, it has not assumed that there will be no ineffectiveness in the hedging relationship. As of June 30, 2017, the termination value of derivatives in a net asset position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$1.2 million. As of June 30, 2017, Peoples has no minimum collateral posting thresholds with certain of its derivative counterparties and has posted collateral of \$6.0 million against its obligations under these agreements. If Peoples had breached any of these provisions at June 30, 2017, it could have been required to settle its obligations under the agreements at the termination value.

There have been no other material changes from those risk factors previously disclosed in "ITEM 1A. RISK FACTORS" of Part I of Peoples' 2016 Form 10-K. Those risk factors are not the only risks Peoples faces. Additional risks and uncertainties not currently known to management or that management currently deems to be immaterial also may materially adversely affect Peoples' business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table details repurchases by Peoples and purchases by “affiliated purchasers” as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of Peoples’ common shares during the three months ended June 30, 2017:

| Period | (a) Total Number of Common Shares Purchased | (b) Average Price Paid per Common Share | (c) Total Number of Common Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾ | (d) Maximum Number (or Approximate Dollar Value) of Common Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾ |

| Total | 699 | \$ 32.82 | — | \$ 15,049,184 |

On November 3, 2015, Peoples announced that on that same date, Peoples' Board of Directors authorized a share (1) repurchase program authorizing Peoples to purchase up to \$20.0 million of its outstanding common shares. No common shares were purchased under this share repurchase program during the three months ended June 30, 2017.

(2) Information reported includes 36 common shares withheld in April, to pay income tax associated with vested restricted common shares.

Information reported includes 663 common shares purchased in open market transactions during April by Peoples Bank under the Rabbi Trust Agreement. The Rabbi Trust Agreement establishes a rabbi trust that holds assets to (3) provide funds for the payment of the benefits under the Peoples Bancorp Inc. Third Amended and Restated Deferred Compensation Plan for Directors of Peoples Bancorp Inc. and Subsidiaries.
