Additional Terms:

Interest

The interest rate applicable to each Interest Reset Period will equal the Prime Rate (as defined below) minus the Spread set forth above.

The "Prime Rate" means, with respect to any Interest Determination Date, the rate set forth on that Interest Determination Date in H.15(519) under the heading "Bank Prime Loan".

The following procedures will apply if the rate cannot be set as described above:

- (a) If the rate is not published in H.15(519) by 3:00 p.m., New York City time, on the Calculation Date, then the Prime Rate will be the rate as published on such Interest Determination Date in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate under the caption ""Bank Prime Loan".
- (b) If the rate is not published in H.15(519), H.15 Daily Update or another recognized electronic source by 3:00 p.m., New York City time, on the Calculation Date, then the Prime Rate will be the

average (rounded upwards, if necessary, to the next higher one-hundred thousandth of a percentage point) of the rates publicly announced by each bank on the Reuters Screen USPRIME1 Page as its prime rate or base lending rate for that Interest Determination Date.

- (c) If fewer than four, but more than one, rates appear on the Reuters Screen USPRIME1 Page, the Prime Rate will be the average of the prime rates (quoted on the basis of the actual number of days in the year divided by a 360-day year) as of the close of business on the Interest Determination Date by four major money center banks in The City of New York selected by the calculation agent.
- (d) If fewer than two rates appear, the Prime Rate will be determined based on the rates furnished in The City of New York by the appropriate number of substitute banks or trust companies organized and doing business under the laws of the United States, or any State thereof, having total equity capital of at least \$500 million and being subject to supervision or examination by a Federal or State authority, as selected by the calculation agent.
- (e) If no banks are providing quotes, the rate of interest on the Prime Rate notes will be the same as the rate of interest thereon for the prior interest period.
