### Additional Information:

#### **Settlement**

It is expected that delivery of the notes will be made against payment therefor on or about the date specified above in this term sheet, which will be the fifth business day following the date of pricing of the notes (such settlement code being herein referred to as "T + 5"). Under SEC Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle T + 5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date of pricing or the next succeeding business day should consult their own advisor.
