On July 1, 2003, General Motors Corporation (GM) issued a news release announcing June sales. The release is as follows:

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

GM Reports June Sales of 429,742, Up 1.5 Percent

Truck Sales Up 10 Percent; New Industry Record For Month and Second Quarter
Utility Vehicles Up 10 Percent; New Industry Record For Month and Second Quarter

DETROIT - General Motors Corp. dealers sold 429,742 new cars and trucks in June in the United States, up 1.5 percent compared to June 2002. GM's overall truck sales (247,577) were up 10 percent over a year ago. Car sales (182,165) were down 8.5 percent from the year-ago level.

"June sales were solid, with deliveries up from strong year-ago levels," said John Smith, group vice president of GM North America Vehicle Sales, Service and Marketing. "Importantly, our continued record-breaking sales in trucks and utility vehicles put us in a great position as we close out the 2003 model year and ramp up for 2004. Despite some economic uncertainty, industry sales levels for the first half of the year have been in line with our expectations. We remain optimistic that the second half of the year will improve and that this momentum will carry into 2004."

GM Truck Sales

For the third consecutive month, GM established a new industry record for truck sales, with total deliveries (247,577) up 10 percent from June 2002. Leading the sales surge were industry-record utility sales (111, 239), up 10 percent from last year. GM also had record June sales for large luxury utilities with 6,943 deliveries, up 78 percent over June 2002 and small utilities (12,828), up 27 percent. Total pickup sales in June (102,353) were up 17 percent from a year ago. Full-size pickup sales (81,666) were up 17 percent, and sales of small pickups (20,687) improved 14 percent over last year.

GM shattered the second-quarter industry sales record for trucks (750,707), which was up 8 percent from last year and the second-quarter industry sales record for utility vehicle sales (328,642), up 13 percent from a year ago. In the second quarter, sales of mid-size utilities (146, 216) established a GM record, up 8 percent. GM second-quarter records also were set for small utilities (31,748), up 12 percent; large and extra-large utilities (127,912), up 11 percent; and large luxury utilities (22,766), up 91 percent.

GM Car Sales

GM had strong sales results in several segments, despite a decline in overall sales. Sales of entry-level cars were up 16 percent over year-ago levels, led by strong Cavalier sales (34,213), which were up 50 percent and Vibe sales (5,568), up 50 percent. Additionally, Chevrolet Impala continued to break monthly sales records.
