CINTAS CORPORATION

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

The consolidated condensed financial statements of Cintas Corporation (Cintas, the Company, we, us or our) included herein have been prepared by Cintas, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to such rules and regulations. While we believe that the disclosures are adequately presented, it is suggested that these consolidated condensed financial statements be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2014. A summary of our significant accounting policies is presented beginning on page 38 of that report. There have been no material changes in the accounting policies followed by Cintas during the current fiscal year.

Interim results are subject to variations and are not necessarily indicative of the results of operations for a full fiscal year. In the opinion of management, adjustments (which include only normal recurring adjustments) necessary for a fair statement of the consolidated results of the interim periods shown have been made.

During fiscal 2015, Cintas sold its document imaging and document retention services business (Storage) and as a result has classified its operations as discontinued operations for all periods presented. Certain prior year amounts have been reclassified to conform with the current year presentation. See Note 12 entitled Discontinued Operations for more information.

On April 30, 2014, Cintas completed its partnership transaction with the shareholders of Shred-it International Inc. (Shred-it) to combine Cintas' document destruction, or shredding, business with Shred-it's document shredding business. Under the agreement, Cintas and Shred-it each contributed its document shredding business to a newly formed partnership (the Shred-it partnership) owned 42% by Cintas and 58% by the shareholders of Shred-it. In conjunction with the partnership agreement, Cintas agreed to provide certain transition services such as information technology and accounting in support of the Shred-it partnership for a period not to exceed fifteen months from the April 30, 2014 closing date. For all periods prior to the partnership transaction, the results of Cintas' document shredding business remain presented in continuing operations as required under GAAP.

As disclosed in our Annual Report on Form 10-K for the fiscal year ended May 31, 2014, inventories are valued at the lower of cost (first-in, first-out) or market. Inventory is comprised of the following amounts at:

(In thousands)	February 28, 2015	May 31, 2014
Raw materials	\$14,778	\$17,984
Work in process	14,665	14,304
Finished goods	205,198	218,951
	\$234,641	\$251,239

2. New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)," to clarify revenue recognition principles. This guidance is intended to improve disclosure requirements and enhance the comparability of revenue recognition

practices. Improved disclosures under the amended guidance relate to the nature, amount, timing and uncertainty of revenue that is recognized from contracts with customers. This guidance will be effective for reporting periods beginning after December 15, 2016 and will be required to be applied retrospectively. Early application of the amendments in this update is not permitted. Cintas is currently evaluating the impact that ASU 2014-09 will have on its consolidated condensed financial statements.

No other new accounting pronouncement recently issued or newly effective had or is expected to have a material impact on the Consolidated Condensed Financial Statements.

3. Fair Value Measurements

All financial instruments that are measured at fair value on a recurring basis (at least annually) have been segregated into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the consolidated balance sheet date. These financial instruments measured at fair value on a recurring basis are summarized below:

(In thousands)	As of February 28, 2015			Fair Value
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$358,320	\$—	\$—	\$358,320
Marketable securities:				
Canadian treasury securities	—	44,874	—	44,874
Total assets at fair value	\$358,320	\$44,874	\$—	\$403,194
Current accrued liabilities	\$—	\$286	\$—	\$286
Total liabilities at fair value	\$—	\$286	\$—	\$286
(In thousands)	As of May 31, 2014			Fair Value
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$513,288	\$—	\$—	\$513,288
Total assets at fair value	\$513,288	\$—	\$—	\$513,288
Current accrued liabilities	\$—	\$286	\$—	\$286
Total liabilities at fair value	\$—	\$286	\$—	\$286

Cintas' cash and cash equivalents and marketable securities are generally classified within Level 1 or Level 2 of the fair value hierarchy. Financial instruments classified as Level 1 are based on quoted market prices in active markets, and financial instruments classified as Level 2 are based on quoted market prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. The types of financial instruments Cintas classifies within Level 1 include most bank deposits and money market securities. Cintas does not adjust the quoted market price for such financial instruments.

The types of financial instruments Cintas classifies within Level 2 are primarily Canadian treasury securities (federal). The valuation technique used for Cintas' marketable securities classified within Level 2 of the fair value hierarchy is primarily the market approach. The primary inputs to value Cintas' marketable securities is the respective instrument's future cash flows based on its stated yield and the amount a market participant would pay for a similar instrument. Primarily all of Cintas' marketable securities are actively traded and the recorded fair value reflects current market conditions. However, due to the inherent volatility in the investment market, there is at least a possibility that recorded investment values may change in the near term.

The funds invested in Canadian treasury securities are not presently expected to be repatriated, but instead are expected to be invested indefinitely in foreign subsidiaries. Interest, realized gains and losses and declines in value determined to be other than temporary on available-for-sale securities are included in interest income or expense. The cost of the securities sold is based on the specific identification method. The amortized cost basis of marketable securities as of February 28, 2015 was \$44.9 million. There were no outstanding marketable securities as of May 31, 2014. All outstanding marketable securities at February 28, 2015 had contractual maturities due within one year.

Foreign currency forward contracts were included in current accrued liabilities as of February 28, 2015 and May 31, 2014. The fair value of Cintas' foreign currency forward contracts are based on similar exchange traded derivatives

(market approach) and are, therefore, included within Level 2 of the fair value hierarchy.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Cintas believes its valuation methods are appropriate and consistent with

other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the consolidated balance sheet date.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company records assets and liabilities at fair value on a nonrecurring basis as required under GAAP. As a result of the shredding partnership transaction and in accordance with GAAP requirements, Cintas' equity method investment in the Shred-it partnership was initially measured at fair value. See Note 4 entitled Investments for additional information on the measurement of the investment in the Shred-it partnership.

4. Investments

Investments at February 28, 2015 of \$445.5 million include an equity method investment in the Shred-it partnership of \$330.2 million, other equity method investments of \$16.2 million, the cash surrender value of insurance policies of \$96.9 million and cost method investments of \$2.2 million. Investments at May 31, 2014 of \$458.4 million include an equity method investment in the Shred-it partnership of \$341.4 million, other equity method investments of \$29.7 million, the cash surrender value of insurance policies of \$86.5 million and cost method investments of \$0.8 million.

Investments are evaluated for impairment on an annual basis or when indicators of impairment exist. For the three and nine months ended February 28, 2015 and 2014, no losses due to impairment were recorded.

On April 30, 2014, Cintas completed its partnership transaction with the shareholders of Shred-it to combine Cintas' document shredding business with Shred-it's document shredding business. Under the agreement, Cintas and Shred-it each contributed its document shredding business to a newly formed partnership owned 42% by Cintas. The resulting equity method investment (Level 3) in the Shred-it partnership was initially recorded at fair value at \$339.4 million derived with a primary reliance upon the income approach utilizing various discounted cash flow models. Fair value was determined by an independent valuation specialist. Management ultimately oversees the independent valuation specialist to ensure that the transaction-specific assumptions are appropriate for Cintas. The following table details quantitative information about significant unobservable inputs used in the initial valuation of Cintas' investment in the Shred-it partnership:

(Dollars in millions)	Fair Value at April 30, 2014	Valuation Technique	Input	Range			
				Low		High	
Equity method investment - Shred-it partnership	\$339.4	Discounted Cash Flow	EBITDA Margin	20.0	%	22.0	%
			Ratio of capital expenditures to revenues	4.5	%	5.5	%
			Long-term revenue growth	1.5	%	2.0	%
			WACC Rate	9.0	%	9.0	%

In the first quarter of fiscal 2015, Cintas received additional proceeds related to the contribution of the shredding business to the Shred-it partnership. The Company realized a pre-tax gain of \$6.6 million as a result of the additional consideration received. During the three and nine months ended February 28, 2015, Cintas recorded a net loss on our investment in Shred-it of \$6.8 million and \$7.0 million, respectively.

On June 30, 2014, Cintas sold stock in an equity method investment. In conjunction with the sale, Cintas also received a cash dividend of \$5.2 million. Total cash received from the transaction was \$35.2 million. The sale resulted in the recording of a gain, net of tax, of approximately \$13.6 million in the nine months ended February 28, 2015. As a result, the Company no longer has the ability to exercise significant influence over the investee. Therefore, effective July 1, 2014, the remaining investment retained by Cintas is accounted for under the cost method.

For both the three months ended February 28, 2015 and 2014, options granted to purchase 0.4 million shares of Cintas common stock were excluded from the computation of diluted earnings per share. For the nine months ended

February 28, 2015 and 2014, options granted to purchase 0.7 million and 0.6 million shares of Cintas common stock, respectively, were excluded from the computation of diluted earnings per share. The exercise prices of these options were greater than the average market price of the common stock (anti-dilutive).

On July 30, 2013, we announced that the Board of Directors authorized a \$500.0 million share buyback program. This plan was completed in February 2015. On January 13, 2015, we announced that the Board of Directors authorized a new \$500.0 million share buyback program, which does not have an expiration date. For the three months ended

February 28, 2015, we purchased 3.2 million shares of Cintas common stock at an average price of \$78.84 per share for a total purchase price of \$250.8 million. During the nine months ended February 28, 2015, we purchased 4.0 million shares of Cintas common stock at an average price of \$75.49 per share for a total purchase price of \$300.5 million. In the period subsequent to February 28, 2015 through April 2, 2015, we did not purchase any shares of Cintas common stock. From the inception of the July 30, 2013 share buyback program through completion of the program in February 2015, Cintas purchased a total of 7.3 million shares of Cintas common stock at an average price of \$68.28 per share for a total purchase price of \$500.0 million. In addition, for the nine months ended February 28, 2015, Cintas acquired 0.2 million shares of Cintas common stock for employee payroll taxes due on restricted stock awards that vested during the nine months ended February 28, 2015. These shares were acquired at an average price of \$64.32 per share for a total purchase price of \$14.1 million. Of the total purchase price, \$0.2 million occurred in the three months ended February 28, 2015.

6. Goodwill, Service Contracts and Other Assets

Effective August 31, 2014, the Storage business was classified as discontinued operations. As a result, goodwill and service contracts related to this business, which were previously included in the Document Management Services operating segment, are included in the Corporate segment. The Storage business was sold in three separate transactions during the quarter ended November 30, 2014. See Note 12 entitled Discontinued Operations for more information.

Changes in the carrying amount of goodwill and service contracts for the nine months ended February 28, 2015, by operating segment, are as follows:

Amortization expense for continuing operations was \$10.3 million and \$15.6 million for the nine months ended February 28, 2015 and 2014, respectively. Estimated amortization expense for continuing operations, excluding any future acquisitions, for each of the next five full fiscal years is \$14.0 million, \$10.2 million, \$6.0 million, \$5.0 million and \$4.7 million, respectively.

7. Debt, Derivatives and Hedging Activities

Cintas' senior notes are recorded at cost. The fair value of the senior notes is estimated using Level 2 inputs based on general market prices. The carrying value and fair value of Cintas' long-term debt as of February 28, 2015 were \$1,300.0 million and \$1,428.0 million, respectively, and as of May 31, 2014 were \$1,301.0 million and \$1,421.0 million, respectively.

Cintas' commercial paper program has a capacity of \$300.0 million that is fully supported by a backup revolving credit facility through a credit agreement with its banking group. This revolving credit facility has an accordion feature that allows for a maximum borrowing capacity of \$450.0 million and has a maturity date of May 28, 2019. No commercial paper or borrowings on our revolving credit facility were outstanding as of February 28, 2015 or May 31, 2014.

Cintas used interest rate lock agreements to hedge against movements in the treasury rates at the time Cintas issued its senior notes in fiscal 2007, fiscal 2008, fiscal 2011 and fiscal 2013. The amortization of the cash flow hedges resulted in an increase to other comprehensive income of \$0.5 million for the three months ended February 28, 2015 and 2014 and \$1.5 million for the nine months ended February 28, 2015 and 2014.

To hedge the exposure of movements in the foreign currency rates, Cintas may use foreign currency hedges. These hedges reduce the impact on cash flows from movements in the foreign currency exchange rates. Examples of foreign currency hedge instruments that Cintas may use are average rate options and forward contracts. Cintas had foreign currency forward contracts included in current accrued liabilities of \$0.3 million as of February 28, 2015 and May 31, 2014.

Cintas has certain covenants related to debt agreements. These covenants limit Cintas' ability to incur certain liens, to engage in sale-leaseback transactions and to merge, consolidate or sell all or substantially all of Cintas' assets. These covenants also require Cintas to maintain certain debt to consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) and interest coverage ratios. Cross-default provisions exist between certain debt instruments. Cintas is in compliance with all debt covenants for all periods presented. If a default of a significant covenant were to occur, the default could result in an acceleration of the maturity of the indebtedness, impair liquidity and limit the ability to raise future capital.

8. Income Taxes

In the normal course of business, Cintas provides for uncertain tax positions and the related interest, and adjusts its unrecognized tax benefits and accrued interest accordingly. During the three months ended February 28, 2015, unrecognized tax benefits increased by approximately \$0.4 million and accrued interest increased by less than \$0.1 million. During the nine months ended February 28, 2015, unrecognized tax benefits increased by approximately \$1.4 million and accrued interest increased by approximately \$0.2 million.

All U.S. federal income tax returns are closed to audit through fiscal 2010. Cintas is currently in advanced stages of various audits in certain foreign jurisdictions and certain domestic states. The years under audit cover fiscal years back to 2005. Based on the resolution of the various audits and changes in tax law, it is reasonably possible that the balance of unrecognized tax benefits would not change for the fiscal year ending May 31, 2015.

On September 13, 2013, the U.S. Department of the Treasury and the Internal Revenue Service released final tangible property regulations under Sections 162(a) and 263(a) of the Internal Revenue Code of 1986 regarding amounts paid to improve tangible property and acquire or produce tangible property, as well as proposed regulations regarding the disposition of property. The effective date of the final regulations was extended and is effective for Cintas' fiscal year ending May 31, 2015. Cintas is reviewing these regulations and does not believe there will be a material impact on the consolidated condensed financial statements.

9. Litigation and Other Contingencies

Cintas is subject to legal proceedings, insurance receipts, legal settlements and claims arising from the ordinary course of its business, including personal injury, customer contract, environmental and employment claims. In the opinion of management, the aggregate liability, if any, with respect to such ordinary course of business actions will not have a material adverse effect on the consolidated condensed financial position, results of operations or cash flows of Cintas. Cintas is party to additional litigation not considered in the ordinary course of business, including the litigation discussed below. Cintas is a defendant in a purported class action lawsuit, *Mirna E. Serrano, et al. v. Cintas Corporation* (Serrano), filed on May 10, 2004, and pending in the United States District Court, Eastern District of Michigan, Southern Division. The Serrano plaintiffs alleged that Cintas discriminated against women in hiring into various service sales representative positions across all divisions of Cintas. On November 15, 2005, the Equal Employment Opportunity Commission (EEOC) intervened in the Serrano lawsuit. The Serrano plaintiffs seek injunctive relief, compensatory damages, punitive damages, attorneys' fees and other remedies. On October 27, 2008, the United States District Court in the Eastern District of Michigan granted summary judgment in favor of Cintas limiting the scope of the putative class in the Serrano lawsuit to female applicants for service sales representative positions at Cintas locations within the state of Michigan. Consequently, all claims brought by female applicants for service sales representative positions outside of the state of Michigan were dismissed. Similarly, any claims brought by the EEOC on behalf of similarly situated female applicants outside of the state of Michigan have also been dismissed from the Serrano lawsuit. In September 2010, the Court in Serrano dismissed all private individual claims and all claims of the EEOC and the 13 individuals it claimed to represent. The EEOC appealed the District Court's summary judgment decisions and various other rulings to the United States Court of Appeals for the Sixth Circuit. On November 9, 2012, the Sixth Circuit Court of Appeals reversed the District Court's opinion and remanded the claims back to the District Court. On April 16, 2013, Cintas filed with the United States Supreme Court a Petition for a Writ of Certiorari seeking to review the judgment of the United States Court of Appeals for the Sixth Circuit. On October 7, 2013, the Court denied Cintas' Petition, thus remanding the claims back to the District Court consistent with the Sixth Circuit Court's November 9, 2012 decision.

The litigation discussed above, if decided or settled adversely to Cintas, may result in liability material to Cintas' consolidated condensed financial condition, results of operations or cash flows and could increase costs of operations on an ongoing basis. Any estimated liability relating to these proceedings is not determinable at this time. Cintas may enter into discussions regarding settlement of these and other lawsuits, and may enter into settlement agreements if it

believes such settlement is in the best interest of Cintas' shareholders.

11. Segment Information

Cintas classifies its businesses into three operating segments based on the types of products and services provided. The Rental Uniforms and Ancillary Products operating segment consists of the rental and servicing of uniforms and other garments including flame resistant clothing, mats, mops and shop towels and other ancillary items. In addition to these rental items, restroom cleaning services and supplies and carpet and tile cleaning services are also provided within this operating segment. The Uniform Direct Sales operating segment consists of the direct sale of uniforms and related items. The First Aid, Safety and Fire Protection Services operating segment consists of first aid, safety and fire protection products and services.

Prior to August 31, 2014, Cintas classified its business into four operating segments. The Document Management Services operating segment is no longer considered an operating segment for fiscal 2015 and beyond. This operating segment consisted of the document Shredding and Storage businesses. On April 30, 2014, Cintas completed its partnership transaction with the shareholders of Shred-it to combine Cintas' shredding business with Shred-it's shredding business. The document destruction business is reported in Corporate for the three- and nine-month periods ended February 28, 2014. Additionally, effective August 31, 2014, the document Storage business is classified as discontinued operations. The document imaging and document retention services business has been excluded from segment results for all periods presented. Please see Note 12 entitled Discontinued Operations for additional information.

Cintas evaluates the performance of each operating segment based on several factors of which the primary financial measures are operating segment revenue and income before income taxes. The accounting policies of the operating segments are the same as those described in Note 1 entitled Basis of Presentation. Information related to the operations of Cintas' operating segments is set forth below:

Corporate assets also include the real estate assets of the Storage business that were not included in the sale transactions. Corporate results for the three months ended February 28, 2014 include the revenue (\$74.9 million) and income before income taxes (\$1.3 million) of the document shredding business. Corporate results and assets as of and for the nine months ended February 28, 2014 include the revenue (\$222.0 million), income before income taxes (\$5.1 million) and assets (\$484.1 million) of the document shredding business.

12. Discontinued Operations

Effective August 31, 2014, Cintas' Storage business was classified as discontinued operations. The business was previously included in the Document Management Services operating segment. In accordance with the applicable accounting guidance for the disposal of long-lived assets, the results of the document imaging and document retention services business have been excluded from both continuing operations and segment results for all periods presented.

In the quarter ended November 30, 2014, Cintas sold the Storage business. The Storage business, excluding related real estate owned by Cintas, was sold in three separate transactions to three separate buyers. For the nine months ended February 28, 2015, cash proceeds received at the closing of each transaction total \$154.9 million, net of cash contributed. During the three months ended February 28, 2015, Cintas received additional proceeds of \$0.9 million in connection with the Storage transaction. Each transaction involves contingent consideration that the Company has an opportunity to receive if specified future events occur. Because of the uncertainty surrounding the future events, these amounts represent gain contingencies have not been recorded. Certain real estate owned by Cintas is being leased by the buyers. These lease payments do not represent a material direct cash flow of the disposed Storage business and therefore does not impact the classification of the Storage business as a discontinued operation.

Following is selected financial information included in net income from discontinued operations for the Storage business:

Certain real estate assets and related liabilities were not included in the sale transactions, but opportunities for these assets are being evaluated; as such, these are classified as held for sale as of February 28, 2015. As allowed under applicable accounting guidance, the May 31, 2014 balance sheet amounts for these assets and liabilities remain in their natural classifications.

13. Supplemental Guarantor Information

Cintas Corporation No. 2 (Corp. 2) is the indirectly, wholly-owned principal operating subsidiary of Cintas. Corp. 2 is the issuer of the \$1,300.0 million aggregate principal amount of long-term senior notes, which are unconditionally guaranteed, jointly and severally, by Cintas Corporation and its wholly-owned, direct and indirect domestic subsidiaries.

As allowed by SEC rules, the following condensed consolidating financial statements are provided as an alternative to filing separate financial statements of the guarantors. Each of the subsidiaries presented in the following condensed consolidating financial statements has been fully consolidated in Cintas' consolidated financial statements. The following condensed consolidating financial statements should be read in conjunction with the consolidated financial statements of Cintas and notes thereto of which this note is an integral part.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

BUSINESS STRATEGY

Cintas provides highly specialized products and services to businesses of all types primarily throughout North America, as well as Latin America, Europe and Asia. We bring value to our customers by helping them provide a cleaner, safer and more pleasant atmosphere for their customers and employees. Our products and services are designed to improve our customers' images. We also help our customers protect their employees and their company by enhancing workplace safety and helping to ensure legal compliance in key areas of their business.

We are North America's leading provider of corporate identity uniforms through rental and sales programs, as well as a significant provider of related business services, including entrance mats, restroom cleaning services and supplies, carpet and tile cleaning services, and first aid, safety and fire protection products and services.

Cintas' principal objective is "to exceed customers' expectations in order to maximize the long-term value of Cintas for shareholders and working partners," and it provides the framework and focus for Cintas' business strategy. This strategy is to achieve revenue growth for all of our products and services by increasing our penetration at existing customers and by broadening our customer base to include business segments to which we have not historically served. We will also continue to identify additional product and service opportunities for our current and future customers.

To pursue the strategy of increasing penetration, we have a highly talented and diverse team of service professionals visiting our customers on a regular basis. This frequent contact with our customers enables us to develop close personal relationships. The combination of our distribution system and these strong customer relationships provides a platform from which we launch additional products and services.

We pursue the strategy of broadening our customer base in several ways. Cintas has a national sales organization introducing all of its products and services to prospects in all business segments. Our broad range of products and services allows our sales organization to consider any type of business a prospect. We also broaden our customer base through geographic expansion, especially in our first aid, safety and fire protection business. Finally, we evaluate strategic acquisitions as opportunities arise.

RESULTS OF OPERATIONS

Effective August 31, 2014, Cintas classifies its businesses into three operating segments based on the types of products and services provided. The Rental Uniforms and Ancillary Products operating segment consists of the rental and servicing of uniforms and other garments including flame resistant clothing, mats, mops and shop towels and other ancillary items. In addition to these rental items, restroom cleaning services and supplies and carpet and tile cleaning services are also provided within this operating segment. The Uniform Direct Sales operating segment consists of the direct sale of uniforms and related items. The First Aid, Safety and Fire Protection Services operating segment consists of first aid, safety and fire protection products and services. Revenue and income before income taxes for each of these operating segments for the three and nine months ended February 28, 2015 and 2014 are presented in Note 11 entitled Segment Information of "Notes to Consolidated Condensed Financial Statements."

Previously, Cintas classified its businesses into four operating segments. The Document Management Services operating segment is no longer considered an operating segment for fiscal 2015 and beyond. This operating segment consisted of document destruction (Shredding), document imaging and document retention services (Storage). On April 30, 2014, Cintas completed its partnership transaction with the shareholders of Shred-it International Inc.

(Shred-it) to combine Cintas' document destruction, or shredding, business with Shred-it's shredding business. Due to the deconsolidation of the shredding business, fiscal 2015 results exclude the results of the shredding business. This business remains reported in continuing operations for the three and nine months ended February 28, 2014. Based on the change in reportable operating segments, the results of the Shredding business for the three and nine months ended February 28, 2014 are presented in Corporate. Additionally, effective August 31, 2014, the Storage business is reported as a discontinued operation for all periods presented and has been excluded from continuing operations and from operating segment results for all periods presented. In the quarter ended November 30, 2014, Cintas sold its Storage business. Please see Note 12 entitled Discontinued Operations of "Notes to Consolidated Financial Statements" for additional information.

Consolidated Results

Three Months Ended February 28, 2015 Compared to Three Months Ended February 28, 2014

Total revenue for the three months ended February 28, 2015 was \$1,108.8 million compared to \$1,111.0 million in the same period of the prior fiscal year. However, on an organic basis, revenue increased 7.5% as a result of increased sales volume. Organic growth excludes the impact of acquisitions, disposals and deconsolidations, and foreign currency exchange rate fluctuations. Revenue growth was negatively impacted 7.2% because of the deconsolidation of the shredding business, which contributed \$74.9 million of revenue in the three months ended February 28, 2014, and 0.6% due to foreign currency exchange rate fluctuations. Acquisitions positively impacted the growth rate by 0.1%.

Rental Uniforms and Ancillary Products operating segment revenue increased 7.2% for the three months ended February 28, 2015 over the same period in the prior fiscal year, from \$801.7 million to \$859.5 million. Revenue increased organically by 7.8%. Revenue growth was negatively impacted 0.6% due to foreign currency exchange rate fluctuations. Growth was driven by many factors including new business sold by sales representatives and penetration of additional products and services into existing customers.

Other Services revenue, consisting of revenue from the Uniform Direct Sales operating segment, First Aid, Safety and Fire Protection Services operating segment and the shredding business (for the three months ended February 28, 2014), decreased 19.4% for the three months ended February 28, 2015 compared to the same period in the prior fiscal year, from \$309.3 million to \$249.3 million. Revenue increased organically by 6.3%. Revenue growth was negatively impacted 25.7% due to the deconsolidation of the shredding business and 0.3% due to foreign currency exchange rate fluctuations. Acquisitions positively impacted the growth rate by 0.3%.

Cost of rental uniforms and ancillary products consists primarily of production expenses, delivery expenses and the amortization of in service inventory, including uniforms, mats, shop towels and other ancillary items. Cost of rental uniforms and ancillary products increased \$26.0 million, or 5.8%, for the three months ended February 28, 2015, compared to the three months ended February 28, 2014. This increase was due to higher Rental Uniforms and Ancillary Products operating segment sales volume.

Cost of other services consists primarily of cost of goods sold (predominantly uniforms and first aid, safety and fire protection products), delivery expenses and distribution expenses in the Uniform Direct Sales operating segment, the First Aid, Safety and Fire Protection Services operating segment, and the shredding business. Cost of other services decreased \$33.8 million, or 17.7%, for the three months ended February 28, 2015, compared to the three months ended February 28, 2014. The decrease was primarily due to the deconsolidation of the shredding business partially offset by increases due to higher Uniform Direct Sales and First Aid, Safety and Fire Protection Services operating segment sales volume.

Selling and administrative expenses decreased \$16.2 million, or 5.1%, for the three months ended February 28, 2015, compared to the three months ended February 28, 2014. The majority of the decrease was due to the deconsolidation of the shredding business partially offset by increases due to higher Rental Uniforms and Ancillary Products, Uniform Direct Sales and First Aid, Safety and Fire Protection Services operating segment sales volume.

Net interest expense (interest expense less interest income) was \$16.2 million for the three months ended February 28, 2015, compared to \$16.4 million for the third quarter of fiscal 2014. The decrease was due to an increase in capitalized interest on capital projects along with a minor decrease in the amount of debt in the third quarter of fiscal 2015 from the third quarter of the prior fiscal year.

Cintas' effective tax rate on continuing operations was 36.2% for the three months ended February 28, 2015, compared to 36.7% for the three months ended February 28, 2014. The effective tax rate can fluctuate from quarter to quarter based upon tax reserve changes related to specific items, none of which were material to Cintas.

During the three months ended February 28, 2015, Cintas recorded a net loss on the investment in the Shred-it partnership of \$6.8 million. This loss was net of a tax benefit of \$4.0 million. The Shred-it partnership results in the period were adversely affected by integration costs and foreign currency exchange rates due to the weakened Canadian dollar.

Net income from continuing operations increased \$9.3 million, or 11.0%, for the three months ended February 28, 2015, from the same period in the prior fiscal year, as explained above. Diluted earnings per share from continuing

operations was \$0.79 for the three months ended February 28, 2015, which was an increase of 14.5% compared to the same period in the prior fiscal year. Diluted earnings per share from continuing operations increased due to an increase in earnings from continuing operations combined with a decrease in weighted average common shares outstanding. The decrease in common shares outstanding resulted from purchasing 7.4 million shares of common stock under the October 18, 2011 and July 30, 2013 share buyback programs since the beginning of the fourth quarter of fiscal 2014 through the third quarter of fiscal 2015.

The operating segment's gross margin was \$383.4 million, or 44.6% of revenue. The gross margin was 70 basis points higher than the prior fiscal year's third quarter gross margin of 43.9%. The increase was primarily driven by lower energy-related expenses.

Selling and administrative expenses increased \$11.2 million due primarily to increased labor and other employee-partner related expenses, and decreased 50 basis points, to 27.3% of revenue, compared to 27.8% in the third quarter of the prior fiscal year. The improvement as a percent of revenue was due to revenue growth out-pacing fixed or infrastructure costs.

First Aid, Safety and Fire Protection Services operating segment revenue increased from \$126.7 million to \$137.1 million, or 8.2%, for the three months ended February 28, 2015. Lower energy-related expenses comprised 60 basis points of the increase with the remainder due to an improved sales mix of higher margin products and services.

Selling and administrative expenses increased \$1.5 million compared to the same quarter in the prior fiscal year. The increase was due primarily to increased labor and other employee-related expenses. Selling and administrative expenses as a percent of revenue improved to 33.5% from 35.1% in the third quarter of fiscal 2014 as revenue growth outpaced the increase in expenses.

Income before income taxes for the First Aid, Safety and Fire Protection Services operating segment increased \$4.1 million to \$14.8 million for the three months ended February 28, 2015, compared to the same quarter in the prior fiscal year, due to the increase in revenue and decrease in energy-related expenses. Current year capital expenditures primarily relate to expansion efforts in the Rental Uniforms and Ancillary Products operating segment, representing \$139.3 million of the current year outflow. Cash paid for acquisitions of businesses net of cash acquired was \$13.8 million and \$33.0 million for the nine months ended February 28, 2015 and February 28, 2014, respectively. The acquisitions in fiscal 2015 occurred in our Rental Uniforms and Ancillary Products and First Aid, Safety and Fire Protection Services operating segments. In the nine months ended February 28, 2015, net cash used in investing activities includes \$35.2 million cash received from the sale of stock of an equity method investment plus receipt of dividends on the same investment. In addition, the Company sold its document imaging and document retention business during the nine month period ended February 28, 2015, receiving proceeds, net of cash contributed, of \$154.9 million.

Net cash used in financing activities was \$482.0 million and \$226.2 million for the nine months ended February 28, 2015 and February 28, 2014, respectively. On October 18, 2011, we announced that the Board of Directors authorized a \$500.0 million share buyback program. During the first nine months of fiscal 2014, under the October 18, 2011 program, we purchased 3.2 million shares of Cintas common stock for a total purchase price of \$157.7 million. The October 18, 2011 program was completed in April 2014. On July 30, 2013, we announced that the Board of Directors authorized a new \$500.0 million share buyback program. During the nine months ended February 28, 2015, under the July 30, 2013 program, we purchased 4.0 million shares of Cintas common stock for a total purchase price of \$300.5 million. The July 30, 2013 program was completed in February 2015. On January 13, 2015, we announced that the Board of Directors authorized a new \$500.0 million share buyback program, which does not have an expiration date. In the period subsequent to February 28, 2015 through April 2, 2015, we did not purchase any shares of Cintas common stock. From the inception of the July 30, 2013 share buyback program, Cintas has purchased a total of 7.3 million shares of Cintas common stock at an average price of \$68.28 per share for a total purchase price of \$500.0 million. No shares have yet been purchased under the January 13, 2015 program. For the nine months ended February 28, 2015, Cintas acquired 0.2 million shares of Cintas common stock for employee payroll taxes due on restricted stock awards that vested during the nine months ended February 28, 2015. These shares were acquired at an average price of \$64.32 per share for a total purchase price of \$14.1 million.

As of February 28, 2015, we had \$1,300.0 million aggregate principal amount in fixed rate senior notes outstanding with maturities ranging from 2016 to 2036.

Cintas' commercial paper program has a capacity of \$300.0 million that is fully supported by a backup revolving credit facility through a credit agreement with its banking group. This revolving credit facility has an accordion feature that

allows for a maximum borrowing capacity of \$450.0 million and has a maturity date of May 28, 2019. We believe this program, along with cash generated from operations, will be adequate to provide necessary funding for our future cash requirements. No commercial paper or borrowings under our revolving credit facility were outstanding as of February 28, 2015 or May 31, 2014.

Cintas has certain covenants related to debt agreements. These covenants limit our ability to incur certain liens, to engage in sale-leaseback transactions and to merge, consolidate or sell all or substantially all of Cintas' assets. These covenants also require Cintas to maintain certain debt to earnings before interest, taxes, depreciation and amortization (EBITDA) and interest coverage ratios. Cross-default provisions exist between certain debt instruments. If a default of a significant covenant were to occur, the default could result in an acceleration of the maturity of the indebtedness,

impair liquidity and limit the ability to raise future capital. As of February 28, 2015, Cintas was in compliance with all debt covenants.

Our access to the commercial paper and long-term debt markets has historically provided us with sources of liquidity. We do not anticipate having difficulty in obtaining financing from those markets in the future in view of our favorable experiences in the debt markets in the recent past. Our ability to continue to access the commercial paper and long-term debt markets on favorable interest rate and other terms will depend, to a significant degree, on the ratings assigned by the credit rating agencies to our indebtedness. As of February 28, 2015, our ratings were as follows:

Rating Agency	Outlook	Commercial Paper	Long-term Debt
Standard & Poor's	Positive	A-2	BBB+
Moody's Investors Service	Stable	P-1	A2

In the event that the ratings of our commercial paper or our outstanding long-term debt issues were substantially lowered or withdrawn for any reason, or if the ratings assigned to any new issue of long-term debt securities were significantly lower than those noted above, particularly if we no longer had investment grade ratings, our ability to access the debt markets may be adversely affected. In addition, in such a case, our cost of funds for new issues of commercial paper and long-term debt would be higher than our cost of funds would have been had the ratings of those new issues been at or above the level of the ratings noted above. The rating agency ratings are not recommendations to buy, sell or hold our commercial paper or debt securities. Each rating may be subject to revision or withdrawal at any time by the assigning rating organization and should be evaluated independently of any other rating. Moreover, each credit rating is specific to the security to which it applies.

To monitor our credit rating and our capacity for long-term financing, we consider various qualitative and quantitative factors. One such factor is the ratio of our debt to EBITDA. For the purpose of this calculation, debt is defined as the sum of short-term borrowings, long-term debt due within one year, obligations under capital leases due in one year, long-term debt and long-term obligations under capital leases.

LITIGATION AND OTHER CONTINGENCIES

Cintas is subject to legal proceedings and claims arising from the ordinary course of its business, including personal injury, customer contract, environmental and employment claims. In the opinion of management, the aggregate liability, if any, with respect to such ordinary course of business actions will not have a material adverse effect on the consolidated financial position or results of operation of Cintas. Cintas is party to additional litigation not considered in the ordinary course of business. Please refer to Note 9 entitled Litigation and Other Contingencies of "Notes to Consolidated Condensed Financial Statements" for a detailed discussion of certain specific litigation.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

In our normal operations, Cintas has market risk exposure to interest rates. There has been no material change to this market risk exposure to interest rates from that which was previously disclosed on page 28 of our Annual Report on Form 10-K for the year ended May 31, 2014.

Through its foreign operations, Cintas is exposed to foreign currency risk.
