ART'S WAY MANUFACTURING CO., INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement Presentation

The financial statements are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods. The financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company's Annual Report on Form 10-KSB for the year ended November 30, 2006. The results of operations for the six months ended May 31, 2007 are not necessarily indicative of the results for the fiscal year ending November 30, 2007.

2. INVENTORIES

Major classes of inventory are:

	May 31, 2007	November 30, 2006
Raw material	$ 5,809,645	$ 3,260,897
Work-in-process	699,342	981,979
Finished goods	3,001,814	2,886,860
Total	$ 9,510,801	$ 7,129,736
Less reserves	1,259,827	1,131,561
Inventories	$ 8,250,974	$ 5,998,175

3. ACCRUED EXPENSES

Major components of accrued expenses are:

	May 31, 2007	November 30, 2006
Salaries, wages and commissions	$ 495,983	$ 464,609
Accrued warranty expense	253,853	230,740

Income tax	31,141	356,712
Other	286,605	375,597
Total	$ 1,067,582	$ 1,427,658

4. PRODUCT WARRANTY

The Company offers limited warranties of various lengths to its customers depending on the specific product and terms of the customer purchase agreement. The average length of the warranty period is one year from date of purchase. The Company's warranties require it to repair or replace defective products during the warranty period at no cost to the customer. The Company records a liability for estimated costs that may be incurred under its warranties. The costs are estimated based on historical experience and any specific warranty issues that have been identified. Although historical warranty costs have been within expectations, there can be no assurance that future warranty costs will not exceed historical amounts. The Company periodically assesses the adequacy of its recorded warranty liability and adjusts the balance as necessary.

Changes in the Company's product warranty liability for the three and six months ended May 31, 2007 and 2006 are as follows:

	Three Months Ended		Six Months Ended	
	May 31, 2007	May31, 2006	May 31, 2007	May31, 2006
Balance, beginning	$221,089	$84,440	$230,740	$131,832
Settlements made in cash or in-kind	(11,125)	(36,906)	(118,819)	(147,319)
Warranties issued	43,889	119,953	141,932	182,974
Balance, ending	$253,853	$167,487	$253,853	$167,487

5. LOAN AND CREDIT AGREEMENTS

The Company has a revolving line of credit for $3,500,000 with advances funding the working capital, letter of credit and corporate credit card needs that will mature on April 30, 2008. The interest rate is West Bank's prime interest rate, adjusted daily. Monthly interest only payments are required and the unpaid principal is due on the maturity date. Collateral consists of a first position on assets owned by the Company including, but not limited to inventories, accounts receivable, machinery and equipment. As of May 31, 2007 and 2006, the Company had borrowed approximately $94,000 and $0, respectively. Total amount available for borrowing at May 31, 2007 was $3,406,000. Other terms and conditions of the debt with West Bank include providing monthly internally prepared financial reports including accounts receivable aging schedules and borrowing base certificates and year-end audited financial statements. The borrowing base shall limit advances from line of credit to 60% of accounts receivable less than 90 days, 60% of finished goods inventory, 50% of raw material inventory and 50% of work-in-process inventory plus 40% of appraisal value of machinery and equipment.

J. Ward McConnell, Jr. was required to personally guarantee the debt with West Bank on an unlimited and unconditional basis. The guarantee of the term debt shall be reduced after the first three years to a percentage representing his ownership of the Company. Mr. McConnell's guarantee shall be removed from the term debt in the event that his ownership interest in the Company is reduced to a level less than 20% after the first three years of the loan. The Company compensates Mr. McConnell for his personal guarantee at an annual percentage rate of 2% of the outstanding balance to be paid monthly. Guarantee fee payments to Mr. McConnell were approximately $30,000 and $31,000, for the six months ended May 31, 2007, and 2006, respectively.

A summary of the Company's term debt is as follows:

	May 31, 2007	November 30, 2006
West Bank loan payable in monthly installments of $17,776 including interest at Bank's prime rate plus 1.5%, due March 31, 2023 (A) (B)	$ 1,682,057	$ 1,701,843
West Bank loan payable in monthly installments of $10,000 including interest at Bank's prime rate plus 1.5%, due March 31, 2015 (A) (B)	$ 922,532	$ 943,034
West Bank loan payable in monthly installments of $22,063 including interest at Bank's prime rate plus 1.0% due April 2016	$1,377,582	$1,428,054
Total term debt	$ 3,982,171	$ 4,072,931
Less current portion of term debt	$ 278,686	$ 220,559
Term debt, excluding current portion	$ 3,703,485	$ 3,852,372

(A) Notes are supported by a guarantee issued by the United States Department of Agriculture (USDA) for 75% of the loan amount outstanding. Collateral for these loans are primarily real estate with a second position on assets securing the line of credit. The USDA subordinates collateral rights in all assets other than real estate in an amount equal to West Bank's other credit commitments.

(B) Covenants include, but are not limited to, restrictions on payment of dividends, debt service coverage ratio, debt/tangible net worth ratio, current ratio, limitation on capital expenditures, and tangible net worth.

On June 7th, 2007 the Company restructured its long-term debt with West Bank. The Company will now have one loan for $4,100,000. The loan matures on May 1, 2017 and bears interest at the U.S. daily 5-year treasury index (presently 4.16%) plus 2.75 bps fixed for 5 years and ten adjusted to the prevailing same index and margin on the sixth anniversary of the loan for the balance of the term. For the first five years the interest is capped at 7.25%. Monthly principal and interest payments in the amount of $42,500 are required compared to $50,000 with the previous three loans. The new loan will not be guaranteed by the USDA or by Mr. McConnell.

6. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2006, the FASB issued Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 (Issued 6/06). This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. For the Company, the Statement is effective for fiscal years beginning after December 15, 2006. The Company is assessing the effects of Financial Interpretation No. 48.

7. STOCK OPTION PLANS

On January 25, 2007 the Board of Directors adopted the 2007 Non-Employee Directors' Stock Option Plan. Options will be granted to non-employee directors to purchase shares of common stock of the Company at a price not less than fair market value at the date the options are granted. Non-employee directors are automatically or initially granted options to purchase 1,000 shares of common stock annually upon their election to the Board, which are automatically vested. Options granted are nonqualified stock options. The option price and terms are set by the Compensation Committee of the Board of Directors of the Company.

On February 5, 2007 the Board of Directors adopted the 2007 Employee Stock Option Plan which was approved by the stockholders at the Annual Stockholders' Meeting on April 26, 2007.

8. SUBSEQUENT EVENTS

On June 26, 2007 the Company announced that they had signed a letter of intent with Miller - St. Nazianz, Inc. The letter of intent calls for Miller - St. Nazianz to sell to Art's-Way Manufacturing Co., Inc. portions of its Miller Pro product offerings, specifically the hay and forage lines. The sale is to include all inventories, tooling and other proprietary rights of these products. Closing is scheduled before the next selling season in September. It is the intent of the Company to move the production of the Miller lines to its Armstrong, Iowa location where it produces its other agricultural equipment.

9. SEGMENT INFORMATION

On October 4, 2005, the Company purchased certain assets of Vessels Systems, Inc. which created a separate operating segment. On August 2, 2006, the Company purchased certain assets of Tech Space, Inc. which created a third operating segment. Prior to these acquisitions the Company operated in one reportable segment.

The Company's reportable segments are strategic business units that offer different products. They are managed separately because each business requires different technology and marketing strategies.

There are three reportable segments: agricultural products, pressurized vessels and modular buildings. The agricultural products segment fabricates and sells farming products as well as replacement parts for these products in the United States and worldwide. Export sales year to date amounted to $460,000 and $0 in 2007 and 2006 respectively. The pressurized vessel segment produces pressurized tanks. The modular building segment produces modular buildings for animal containment and various laboratory uses.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies. Management evaluates the performance of each segment based on profit or loss from operations before income taxes, exclusive of nonrecurring gains and losses.

Approximate financial information with respect to the reportable segments is as follows. The agricultural products, pressurized vessels, and modular building segment information are for the three and six months ended May 31, 2007 and May 31, 2006.

Three Months Ended May 31, 2007

	Agricultural Products	Pressurized Vessels	Modular Buildings	Consolidated
Revenue from external customers	3,102,000	1,203,000	1,394,000	5,699,000

Depreciation	111,000	21,000	0	132,000

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this report. Management's discussion and analysis contains forward-looking statements that involve risks and uncertainties, including but not limited to, quarterly fluctuations in results; customer demand for our products; economic conditions; the achievement of lower costs and expenses; the continued availability of financing in the amount and on the terms required to support future business; and other risks detailed from time to time in our other Securities and Exchange Commission filings. Actual results may differ materially from management's expectations.

(a) Plan of Operation

In the current fiscal year we plan to continue growth through new product development and when appropriate acquisition. We continue to look for new and better ways to improve our product offerings for our end users. We persist in our attempt to improve our efficiencies, through the implementation of lean manufacturing processes.

(b) Management's Discussion and Analysis of Financial Condition and Results of Operations

(i) Critical Accounting Policies

Our critical accounting policies involving the more significant judgments and assumptions used in the preparation of the financial statements as of May 31, 2007 have remained unchanged from November 30, 2006. These policies involve revenue recognition, inventory valuation and income taxes. Disclosure of these critical accounting policies is incorporated by reference under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operation" in our Annual Report on Form 10-KSB for the year ended November 30, 2006.

(ii) Results of Operations

Our consolidated net sales for the six months ended were $10,974,000, representing a 30% increase compared to the same period one year ago. A majority of this increase was due to the inclusion of Art's-Way Scientific, Inc., net sales of $2,346,000, for the six months just ended. Art's-Way Scientific, Inc. was acquired in August of 2006 and therefore was not included in last year's six months results. Art's-Way Manufacturing had revenues totaling $6,374,000 for the six months, compared to $6,929,000 for the same period in 2006. This decrease was due to a reduction in sales to our OEM dealers for blowers. Art's-Way Vessels had revenues totaling $2,254,000 for the six months ended, compared to $1,485,000 for the same period in 2006. Art's-Way Vessels has succeeded in increasing sales since the acquisition date through on time delivery of a quality product, to new and existing customers.

Consolidated gross profit increased during the quarter to 30% compared to 28% in the first quarter. Year to date gross profit is 29% compared to 32% in 2006. When we purchased Art's-Way Scientific we also purchased their backlog and had to honor pricing from the prior owners. Art's-Way Scientific's gross profit was 20% for the first quarter of 2007, year to date, gross profit has increased to 28%. Art's-Way Manufacturing's gross profit was 28% while Art's-Way Vessel's was 34% year to date.

Operating expenses for the quarter decreased $32,000 compared to 2006. As a percent of sales, operating expenses decreased by seven percentage points- 17% in 2007 compared to 24% in 2006. Year to date operating expenses are 18% compared to 22% in 2006. Art's-Way Manufacturing's year to date operating expense as a percentage of sales was 22%, Art's-Way Vessel 11% and Art's-Way Scientific was 14%.

General and administrative expenses for the quarter decreased $86,000 as compared to 2006. Year to date general and administrative expenses as a percentage of sales was 12% compared to 15% in 2006.

Engineering expenses are up $26,000 for the quarter compared to the same quarter in 2006. As a percent of year to date sales, engineering expenses remain consistent at 2% for both 2007 and 2006.

Selling expenses were up for the quarter by $28,000 compared to the same quarter in 2006. As a percent of sales, year to date selling expenses are 4% compared to 5% in 2006.

Interest expense year to date remains consistent. Other income increased by $312,000 in 2007 compared to 2006 as a result of our accounting for the fire and insurance recoveries in Monona, Iowa.

As previously disclosed on January 16th, 2007, one of our buildings in Monona, Iowa, was completely destroyed by fire. The building housed the production and offices for Art's-Way Scientific. The 36,000 square foot building was a stick built structure with steel siding. We were insured for the loss of the building, its contents as well as the disruption in business. We are currently working with our insurance company to settle the claim. At this time we have received $500,000 towards the claim and we have booked a receivable for the estimated loss of the building of $983,000. We have incurred costs in excess of $900,000 related to the fire, including $334,000 in losses of fixed assets. We are currently working from one of our other buildings in Monona, Iowa. We have started construction on our replacement building. The new building will be located in Monona on the same site as the building that was destroyed. It is our intent to be in a new building by September 2007. We continue to manufacture buildings and have not lost any orders to date.

The order backlog as of May 31, 2007 is $12,105,000 compared to $5,790,000 one year ago. Art's-Way Manufacturing's order backlog as of May is $4,325,000 compared to $3,099,000 in 2006, Art's-Way Vessels backlog is $1,682,000 compared to $2,691,000 in 2006, and Art's-Way Scientific's backlog is $6,097,000.

(iii) Liquidity and Capital Resources

Our main source of funds year to date came from customer deposits which increased $1,687,000 over our 2006 year end. This is a traditional increase for us as our beet programs runs in the first quarter and we offer discounts to our customers for making down payments on their orders. We are working to settle the insurance claim for the building, inventory and assets that were destroyed in Monona, Iowa. We have currently recorded a gain of $699,000 as the result of the difference between anticipated fire insurance proceeds and the net book value of assets destroyed in the fire. We are also showing proceeds from insurance recoveries of $500,000 that relates directly to the expected insurance proceeds on the building. Inventories increased $2,253,000. We have bought in large quantities of steel for our current build of sugar beet equipment.

See footnote 5 of the notes to the consolidated condensed financial statements for a discussion of our credit facilities.

Item 3

CONTROLS AND PROCEDURES

Senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (a) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure; and (b) recorded, processed, summarized and reported, within the time specified in the SEC's rules and forms. Since that evaluation process was completed there have been no significant changes in our disclosure controls or in other factors that could significantly affect these controls.

There were no changes in our internal control over financial reporting, identified in connection with this evaluation that occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

ITEM 1. LEGAL PROCEEDINGS

During the period covered by this report, we were not a party to any legal action or claim which was other than routine litigation incidental to our business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS
