## PARK NATIONAL CORPORATION <br> NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

## Note 1 - Basis of Presentation

The accompanying unaudited consolidated condensed financial statements included in this report have been prepared for Park National Corporation (sometimes also referred to as the "Registrant") and its subsidiaries. Unless the context otherwise requires, references to "Park", the "Corporation" or the "Company" and similar terms mean Park National Corporation and its subsidiaries. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the results of operations for the interim periods included herein have been made. The results of operations for the three-month and nine-month periods ended September 30, 2018 are not necessarily indicative of the operating results to be anticipated for the fiscal year ending December 31, 2018.

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and footnotes necessary for a fair presentation of the condensed balance sheets, condensed statements of income, condensed statements of comprehensive income, condensed statements of changes in shareholders' equity and condensed statements of cash flows in conformity with United States ("U.S.") generally accepted accounting principles ("U.S. GAAP"). These financial statements should be read in conjunction with the consolidated financial statements incorporated by reference in the Annual Report on Form 10-K of Park for the fiscal year ended December 31, 2017 from Park's 2017 Annual Report to Shareholders ("Park's 2017 Annual Report"). Prior period financial statements reflect the retrospective application of Accounting Standards Update ("ASU") 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This change in classification had no effect on reported net income.

Park's significant accounting policies are described in Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report. For interim reporting purposes, Park follows the same basic accounting policies, as updated by the information contained in this report, and considers each interim period an integral part of an annual period.

Note 2 - Adoption of New Accounting Pronouncements and Issued But Not Yet Effective Accounting Standards
The following is a summary of new accounting pronouncements impacting Park's consolidated financial statements, and issued but not yet effective accounting standards:

## Adoption of New Accounting Pronouncements

ASU 2014-09 - Revenue from Contracts with Customers (Topic 606): In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU creates a new topic, Topic 606, to provide guidance on revenue recognition for entities that enter into contracts with customers to transfer goods or services or enter into contracts for the transfer of nonfinancial assets. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additional disclosures are required to provide quantitative and qualitative information regarding the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The majority of the Company's revenues come from interest income and other sources, including loans, leases, securities and derivatives, that are outside the scope of ASC 606. Certain services that
fall within the scope of ASC 606 are presented within Other Income and are recognized as revenue as the Company satisfies its obligation to the customer. Services within the scope of ASC 606 include income from fiduciary activities, service charges on deposit accounts, other service income, checkcard fee income, ATM fees, and gain (loss) on sale of OREO, net. The adoption of this guidance on January 1, 2018 did not have a material impact on Park's consolidated financial statements. However, the adoption of this standard resulted in additional disclosures beginning with the first quarter 2018 Form 10-Q. Reference Note 20 - Revenue from Contracts with Customers, for further discussion on the Company's accounting policies for revenue sources within the scope of ASC 606.

ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. In January 2016, the FASB issued ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. Changes reflected in the current U.S. GAAP model primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. In addition, this ASU clarifies guidance related to the

## Table of Contents

valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale ("AFS") securities. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 resulted in an $\$ 1.9$ million increase to beginning retained earnings and a $\$ 995,000$ increase to beginning accumulated other comprehensive loss. Additional income of $\$ 3.2$ million, $\$ 1.3$ million and $\$ 89,000$ was recorded in the first, second and third quarters of 2018, respectively, as a result of changes to the accounting for equity investments. Further, beginning with the first quarter of 2018, Park's fair value disclosures in Note 16 - Fair Value, have incorporated the revised disclosure requirements for financial investments.

ASU 2016-15 - Statement of Cash Flows (Topic 203): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force): In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 203): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force). This ASU provides guidance on eight specific cash flow issues where then current GAAP was either unclear or did not include specific guidance. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 did not have an impact on Park's consolidated financial statements. As such transactions arise, management will utilize the updated guidance in providing disclosures within Park's consolidated condensed statements of cash flows.

ASU 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost: In March 2017, the FASB issued ASU 2017-07-Compensation Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. As a result of the adoption of this guidance on January 1, 2018, all prior periods have been recast to separately record the service cost component and other components of net benefit cost. For all periods presented, this resulted in an increase in other income and an offsetting increase in other expense with no change to net income. See Note 14 - Benefit Plans, for further details.

ASU 2017-09 - Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting: In May 2017, the FASB issued ASU 2017-09 - Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. This ASU amends the guidance concerning which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting under Topic 718. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 did not impact Park's consolidated financial statements.

ASU 2017-12 - Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities: In August 2017, the FASB issued ASU 2017-12 - Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. This ASU amends the current guidance with the objective of improving the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. In addition, this ASU amends the current guidance to simplify the application of the hedge accounting guidance. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The early adoption of this guidance on July 1, 2018 did not have an impact on Park's consolidated financial statements. Park will apply this guidance to future transactions.

ASU 2018-02 - Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income: In February 2018, the FASB issued ASU 2018-02 - Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. This ASU allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects, resulting from the federal corporate income tax rate enacted under the Tax Cuts and Jobs Act. The amount of the reclassification is the difference between the historical federal corporate income tax rate and the newly-enacted $21 \%$ federal corporate income tax rate. The guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The early adoption of this guidance effective January 1, 2018 resulted in a $\$ 3.8$ million increase to Park's accumulated other comprehensive loss and a $\$ 3.8$ million increase to retained earnings.

ASU 2018-03 - Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. In February 2018, the FASB issued ASU 2018-03 - Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. This ASU includes amendments that clarify certain aspects of the guidance issued in ASU 2016-01. Park considered this clarification in determining the appropriate adoption of ASU 2016-01 effective as of January 1, 2018.

Issued But Not Yet Effective Accounting Standards
ASU 2016-02 - Leases (Topic 842): In February 2016, the FASB issued ASU 2016-02 - Leases (Topic 842). This ASU will require all organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. Additional qualitative and quantitative disclosures will be required so that users can understand more about the nature of an entity's leasing activities. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted. Management is currently analyzing data on leased assets and is in the process of implementing a software solution to assist in the adoption of this ASU. The adoption of this guidance is expected to increase both assets and liabilities, but is not expected to have a material impact on Park's consolidated statement of income.

ASU 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments: In June 2016, FASB issued ASU 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The new guidance replaces the incurred loss model with an expected loss model, which is referred to as the current expected credit loss ("CECL") model. The CECL model is applicable to the measurement of credit losses on financial assets measured at amortized cost, including loan receivables, held-to-maturity ("HTM") debt securities, and reinsurance receivables. It also applies to off-balance sheet credit exposures not accounted for as insurance (loan commitments, standby letters of credit, financial guarantees, and other similar instruments) and net investments in leases recognized by a lessor. The CECL model requires an entity to estimate credit losses over the life of an asset or off-balance sheet exposure. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2019. Early adoption is permitted for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2018.

Management is currently evaluating the impact of the adoption of this guidance on Park's consolidated financial statements. We anticipate that the adoption of the CECL model will result in a material increase to Park's allowance for loan losses. Management has established a committee to oversee the implementation of the CECL model and is currently in the process of implementing a software solution to assist in the adoption of this ASU. Management plans to run our current allowance model and a CECL model concurrently for 12 months prior to the adoption of this guidance on January 1, 2020.

ASU 2017-08 - Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities: In March 2017, the FASB issued ASU 2017-08 - Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. This ASU amends the amortization period for certain purchased callable debt securities held at a premium. It shortens the amortization period for the premium to the earliest call date. Under current U.S. GAAP, premiums on callable debt securities generally are amortized to the maturity date. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The adoption of this guidance is not expected to have a material impact on Park's consolidated financial statements.

ASU 2018-10 - Codification Improvements to Topic 842, Leases: In July 2018, the FASB issued ASU 2018-10 Codification Improvements to Topic 842, Leases. This ASU includes amendments that clarify certain aspects of the guidance issued in ASU 2016-02. Park will consider this clarification in determining the appropriate adoption of ASU 2016-02, effective for annual and interim reporting periods within those annual periods, beginning after December 15, 2018.

ASU 2018-11 - Leases (Topic 842): Targeted Improvements: In July 2018, the FASB issued ASU 2018-11 - Leases (Topic 842): Targeted Improvements. This ASU amends the guidance in ASU 2016-02 which is not yet effective. The amendments in the ASU provide entities with an additional (and optional) transition method to adopt the new leases standard. Under this new transition method, an entity initially applies the new leases standard at the adoption date and recognizes a cumulative-effect adjustment to the opening balance of retained earnings for the period of adoption.
Additionally, this amendment provides lessors with a practical expedient, by class of asset, to not separate nonlease components from the associated lease component and, instead, to account for those components as a single component if certain criteria are met. Park will consider this clarification in determining the appropriate adoption of ASU 2016-02, effective for annual and interim reporting periods within those annual periods, beginning after December 15, 2018.

ASU 2018-13 - Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement: In August 2018, the FASB issued ASU 2018-13 - Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement. This ASU modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement by removing, modifying and adding certain requirements. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted upon issuance of this ASU. An entity is permitted to early adopt and remove or modify disclosures upon issuance of the ASU and delay adoption of the additional disclosures until their effective date. The adoption of this guidance will not have an impact on Park's consolidated financial statements, but will impact disclosures.

ASU 2018-14 - Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans: In August 2018, the FASB issued ASU 2018-14 - Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans. This amendments in this ASU modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans by removing disclosures that are no longer considered cost beneficial, clarifying the specific requirements of disclosures and adding disclosure requirements identified as relevant. The amendments in this ASU are effective for fiscal years ending after December 15, 2020. Early adoption is permitted. The adoption of this guidance will not have an impact on Park's consolidated financial statements, but will impact disclosures.

## Note 3 - Business Combinations

On July 1, 2018, NewDominion Bank, a North Carolina state-chartered bank ("NewDominion"), merged with and into The Park National Bank, the national bank subsidiary of Park ("PNB"), with PNB continuing as the surviving entity pursuant to the Agreement and Plan of Merger and Reorganization (the "Merger Agreement"), dated as of January 22, 2018, by and among Park, PNB, and NewDominion. In accordance with the Merger Agreement, NewDominion shareholders were permitted to make an election to receive for their shares of NewDominion common stock either $\$ 1.08$ in cash without interest (the cash consideration) or 0.01023 of a Park common share, plus cash in lieu of any fractional Park common share (the stock consideration). Based on the terms of the Merger Agreement, the aggregate consideration to be paid in the merger was subject to proration and allocation procedures to ensure that 60 percent of the shares of NewDominion common stock outstanding immediately prior to the completion of the merger were exchanged for the stock consideration and that the remaining 40 percent of the shares of NewDominion common stock outstanding immediately prior to the completion of the merger were to be exchanged for the cash consideration, including, in each case, shares of NewDominion common stock subject to NewDominion options and restricted stock awards.

Purchase consideration consisted of 435,457 Park common shares, valued at $\$ 48.5$ million, and $\$ 30.7$ million in cash to acquire $91.45 \%$ of NewDominion outstanding common shares. The remaining $8.55 \%$ of NewDominion's outstanding common shares were previously held by Park. Park recognized a gain of $\$ 3.5$ million as a result of remeasuring to fair value its $8.55 \%$ equity interest in NewDominion held before the business combination. The gain is included in "(Loss) gain on equity securities, net" in the consolidated condensed statements of income. The acquisition is expected to provide additional revenue growth and geographic diversification.

NewDominion's results of operations were included in Park's results beginning July 1, 2018. For the nine months ended September 30, 2018, Park recorded merger-related expenses of $\$ 3.6$ million associated with the NewDominion acquisition. Of this $\$ 3.6$ million in expense, $\$ 1.8$ million is included within "Professional fees and services", $\$ 1.6$ million is included within "Salaries", $\$ 78,000$ is included within "Employee benefits", and $\$ 197,000$ is included within "Miscellaneous", in each case within "Other expense" on the consolidated condensed statements of income.

Goodwill of $\$ 40.4$ million arising from the acquisition consisted largely of synergies and the cost savings resulting from the combining of the operations of the PNB and NewDominion. The goodwill is not deductible for income tax purposes as the transaction was accounted for as a tax-free exchange.

## Table of Contents

The following table summarizes the consideration paid for NewDominion and the amounts of the assets acquired and liabilities assumed at their fair value:

| (in thousands) |  |
| :--- | :--- |
| Consideration | $\$ 30,684$ |
| Cash | 48,519 |
| Equity instruments | 7,000 |

| Deposits | 284,231 |
| Other liabilities | 2,254 |
| Total liabilities assumed | 286,485 |
| Net identifiable assets | 45,798 |

Park accounted for the NewDominion acquisition using the acquisition method of accounting and accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair value on the acquisition date, in accordance with FASB ASC Topic 805, Business Combinations. The fair value measurements of assets acquired and liabilities assumed are subject to refinement for up to one year after the closing date of the acquisition as additional information relative to closing date fair values becomes available. Park continues to finalize the fair values of loans, intangible assets, and deferred taxes. As a result, the fair value adjustments are preliminary and may change as information becomes available. Fair value adjustments will be finalized no later than July 2019.

The fair value of net assets acquired includes fair value adjustments to loans that were not considered impaired as of the acquisition date. The fair value adjustments were determined using discounted contractual cash flows. However, Park believes that all contractual cash flows related to these loans will be collected. As such, these loans were not considered impaired at the acquisition date and were not subject to the guidance relating to purchased credit impaired loans, which have shown evidence of credit deterioration since origination. Loans acquired that were not subject to these requirements included non-impaired loans with a fair value and gross contractual amounts receivable of \$267.9 million and $\$ 272.9$ million, respectively, on the date of acquisition.

* Included within each of commercial, financial and agricultural loans and commercial real estate loans is an immaterial amount of consumer loans that are not broken out by class.

Loans are shown net of deferred origination fees, costs and unearned income of $\$ 12.4$ million at September 30, 2018 and $\$ 12.2$ million at December 31,2017 , which represented a net deferred income position in both periods. At September 30, 2018, loans included a purchase accounting adjustment of $\$ 5.1$ million, which represented a net deferred income position. This fair market value adjustment is expected to be recognized into interest income on a level yield basis over the remaining expected life of the loans.

Overdrawn deposit accounts of $\$ 1.1$ million and $\$ 1.9$ million had been reclassified to loans at September 30, 2018 and December 31, 2017, respectively, and are included in the commercial, financial and agricultural loan class above.

Management's general practice is to proactively charge down loans individually evaluated for impairment to the fair value of the underlying collateral. At September 30, 2018 and December 31, 2017, there were $\$ 8.9$ million and $\$ 7.9$ million, respectively, of partial charge-offs on loans individually evaluated for impairment with no related allowance recorded. At both September 30, 2018 and December 31, 2017, there were $\$ 2.1$ million of partial charge-offs on loans individually evaluated for impairment that also had a specific reserve allocated.

## Table of Contents

The allowance for loan losses included specific reserves related to loans individually evaluated for impairment at September 30, 2018 and December 31, 2017 of $\$ 1.8$ million and $\$ 0.7$ million, respectively. These loans with specific reserves had a recorded investment of $\$ 5.2$ million and $\$ 3.5$ million as of September 30, 2018 and December 31, 2017, respectively.

Interest income on nonaccrual loans individually evaluated for impairment is recognized on a cash basis only when Park expects to receive the entire recorded investment of the loan. Interest income on accruing TDRs individually evaluated for impairment continues to be recorded on an accrual basis. The following table presents the average recorded investment and interest income recognized subsequent to impairment on loans individually evaluated for impairment as of and for the three and nine months ended September 30, 2018 and September 30, 2017:

## Credit Quality Indicators

Management utilizes past due information as a credit quality indicator across the loan portfolio. Past due information as of September 30, 2018 and December 31, 2017 is included in the tables above. The past due information is the primary credit quality indicator within the following classes of loans: (1) mortgage loans and installment loans in the construction real estate segment; (2) mortgage loans, HELOC and installment loans in the residential real estate segment; and (3) consumer loans. The primary credit indicator for commercial loans is based on an internal grading system that grades commercial loans on a scale from 1 to 8 . Credit grades are continuously monitored by the responsible loan officer and adjustments are made when appropriate. A grade of 1 indicates little or no credit risk and a grade of 8 is considered a loss. Commercial loans that are pass-rated (graded an 1 through a 4) are considered to be of acceptable credit risk. Commercial loans graded a 5 (special mention) are considered to be watch list credits and a higher loan loss reserve percentage is allocated to these loans. Loans classified as special mention have potential weaknesses that require management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of Park's credit position at some future date. Commercial loans graded a 6 (substandard), also considered to be watch list credits, are considered to represent higher credit risk and, as a result, a higher loan loss reserve percentage is allocated to these loans. Loans classified as substandard are inadequately protected by the current sound worth and paying capacity of the obligor or the value of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that Park will sustain some loss if the deficiencies are not corrected. Commercial loans that are graded a 7 (doubtful) are shown as nonaccrual and Park generally charges these loans down to their fair value by taking a partial charge-off or recording a specific reserve. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable. Certain 6-rated loans and all 7-rated loans are placed on nonaccrual status and included within the impaired category. A loan is deemed impaired when management determines the borrower's ability to perform in accordance with the contractual loan agreement is in doubt. Any commercial loan graded an 8 (loss) is completely charged off.

The tables below present the recorded investment by loan grade at September 30, 2018 and December 31, 2017 for all commercial loans:

## Purchase Credit Impaired ("PCI") Loans

In conjunction with the NewDominion acquisition, Park acquired loans with a book value of $\$ 277.9$ million as of July 1,2018 . These loans were recorded at the preliminary fair value of $\$ 272.8$ million.

Loans acquired with deteriorated credit quality with a book value of $\$ 5.1$ million were recorded at the preliminary fair value of $\$ 4.9$ million. The carrying amount of loans acquired with deteriorated credit quality at September 30, 2018 was $\$ 4.5$ million, while the outstanding customer balance was $\$ 4.7$ million. At September 30, 2018, no allowance for loan losses had been recognized related to the acquired impaired loans.

Troubled Debt Restructurings ("TDRs")
Management classifies loans as TDRs when a borrower is experiencing financial difficulties and Park has granted a concession to the borrower as part of a modification or in the loan renewal process. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of the borrower's debt in the foreseeable future without the modification. This evaluation is performed in accordance with the Company's internal underwriting policy. Management's policy is to modify loans by extending the term or by granting a temporary or permanent contractual interest rate below the market rate, not by forgiving debt. A court's discharge of a borrower's debt in a Chapter 7 bankruptcy is considered a concession when the

## Edgar Filing: PARK NATIONAL CORP /OH/ - Form 10-Q

borrower does not reaffirm the discharged debt.
Certain loans which were modified during the three-month periods ended September 30, 2018 and September 30, 2017 did not meet the definition of a TDR as the modification was a delay in a payment that was considered to be insignificant. Management considers a forbearance period of up to three months or a delay in payment of up to 30 days to be insignificant. TDRs may be classified as accruing if the borrower has been current for a period of at least six months with respect to loan payments and management expects that the borrower will be able to continue to make payments in accordance with the terms of the restructured note. Management reviews all accruing TDRs quarterly to ensure payments continue to be made in accordance with the modified terms.

# Edgar Filing: PARK NATIONAL CORP /OH/ - Form 10-Q 

## Table of Contents

Quarterly, management reviews renewals/modifications of loans previously identified as TDRs to consider if it is appropriate to remove the TDR classification. If the borrower is no longer experiencing financial difficulty and the renewal/modification did not contain a concessionary interest rate or other concessionary terms, management considers the potential removal of the TDR classification. If deemed appropriate, the TDR classification is removed if the borrower has complied with the terms of the loan at the date of the renewal/modification and there was a reasonable expectation that the borrower would continue to comply with the terms of the loan subsequent to the date of the renewal/modification. The majority of these TDRs were originally considered restructurings in a prior year as a result of a renewal/modification with an interest rate that was not commensurate with the risk of the underlying loan at the time of the renewal/modification. The TDR classification was removed on $\$ 0.2$ million of loans during the three-month period ended September 30, 2018 and on $\$ 2.4$ million of loans during the nine-month period ended September 30, 2018. There were no TDR classifications removed during the three-month or nine-month periods ended September 30, 2017.

At September 30, 2018 and December 31, 2017, there were $\$ 25.2$ million and $\$ 38.5$ million, respectively, of TDRs included in the nonaccrual loan totals. At September 30, 2018 and December 31, 2017, $\$ 19.4$ million and $\$ 32.4$ million, respectively, of these nonaccrual TDRs were performing in accordance with the terms of the restructured note. As of September 30, 2018 and December 31, 2017, loans with a recorded investment of $\$ 14.7$ million and $\$ 20.2$ million, respectively, were included in accruing TDR loan totals. Management will continue to review the restructured loans and may determine it is appropriate to move certain nonaccrual TDRs to accrual status in the future.

At September 30, 2018 and December 31, 2017, Park had commitments to lend $\$ 0.2$ million and $\$ 1.3$ million, respectively, of additional funds to borrowers whose outstanding loan terms had been modified in a TDR.

At September 30, 2018 and December 31, 2017, there were $\$ 0.9$ million and $\$ 0.5$ million of specific reserves related to TDRs. Modifications made in 2017 and 2018 were largely the result of renewals and extending the maturity date of the loans at terms consistent with the original notes. These modifications were deemed to be TDRs primarily due to Park's conclusion that the borrower would likely not have qualified for similar terms through another lender. Many of the modifications deemed to be TDRs were previously identified as impaired loans, and thus were also previously evaluated for impairment under Accounting Standards Codification (ASC) 310. Additional specific reserves of $\$ 150,000$ were recorded during the three-month period ended September 30, 2018 as a result of TDRs identified in the period. There were no additional specific reserves recorded during the three-month period ended September 30, 2017 as a result of TDRs identified in the period. Additional specific reserves of $\$ 160,000$ and $\$ 290,000$ were recorded during the nine-month periods ended September 30, 2018 and September 30, 2017, respectively, as a result of TDRs identified in the respective periods.

The terms of certain other loans were modified during the three-month and nine-month periods ended September 30, 2018 and September 30, 2017 that did not meet the definition of a TDR. There were no substandard commercial loans modified during the three-month period ended September 30, 2018 which did not meet the definition of a TDR. Substandard commercial loans modified during the nine-month period ended September 30, 2018 which did not meet the definition of a TDR had a total recorded investment of $\$ 0.2$ million. Substandard commercial loans modified during the three-month and nine-month periods ended September 30, 2017 which did not meet the definition of a TDR had a total recorded investment of $\$ 0.9$ million and $\$ 1.0$ million, respectively. The renewal/modification of these loans: (1) resulted in a delay in a payment that was considered to be insignificant, or (2) resulted in Park obtaining additional collateral or guarantees that improved the likelihood of the ultimate collection of the loans such that each modification was deemed to be at market terms. Consumer loans modified during the three-month and nine-month periods ended September 30, 2018 which did not meet the definition of a TDR had a total recorded investment of $\$ 6.6$ million and $\$ 17.0$ million, respectively. Consumer loans with a recorded investment of $\$ 3.1$ million and $\$ 6.7$ million were modified during the three-month and nine-month periods ended September 30, 2017, respectively, and did not meet the definition of a TDR. Many of these loans were to borrowers who were not experiencing financial difficulties
but who were looking to reduce their cost of funds.

## Table of Contents

The following tables detail the number of contracts modified as TDRs during the three-month periods ended September 30, 2018 and September 30, 2017, as well as the recorded investment of these contracts at September 30, 2018 and September 30, 2017. The recorded investment pre- and post-modification is generally the same due to the fact that Park does not typically forgive principal.

Of those loans which were modified and determined to be a TDR during the three-month period ended September 30, 2018, $\$ 0.1$ million were on nonaccrual status as of December 31, 2017. Of those loans which were modified and determined to be a TDR during the three-month period ended September 30, 2017, $\$ 0.5$ million were on nonaccrual status as of December 31, 2016.

## Table of Contents

The following table presents the recorded investment in loans which were modified as TDRs within the previous 12 months and for which there was a payment default during the three-month and nine-month periods ended September 30, 2018 and September 30, 2017, respectively. For this table, a loan is considered to be in default when it becomes 30 days contractually past due under the modified terms. The additional allowance for loan loss resulting from the defaults on TDR loans was immaterial.

Of the $\$ 1.1$ million in modified TDRs which defaulted during the three-month period ended September 30, 2018, $\$ 67,000$ were accruing loans and $\$ 1.0$ million were nonaccrual loans. Of the $\$ 0.8$ million in modified TDRs which defaulted during the three-month period ended September 30, 2017, all were nonaccrual loans.

Note 5 - Allowance for Loan Losses
The allowance for loan losses ("ALLL") is that amount management believes is adequate to absorb probable incurred credit losses in the loan portfolio based on management's evaluation of various factors including overall growth in the loan portfolio, an analysis of individual loans, prior and current loss experience, and current economic conditions. A provision for loan losses is charged to operations based on management's periodic evaluation of these and other pertinent factors as discussed within Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report.

Loss factors are reviewed quarterly and updated at least annually to reflect recent loan loss history and incorporate current risks and trends which may not be recognized in historical data. The following are factors management reviews on a quarterly or annual basis.

Historical Loss Factor: Management updated the historical loss calculation during the fourth quarter of 2017, incorporating net charge-offs plus changes in specific reserves through December 31, 2017. With the addition of 2017 historical losses, management extended the historical loss period to 96 months from 84 months. The 96 -month historical loss period captures all annual periods subsequent to June 2009, the end of the most recent recession, thus encompassing the full economic cycle to date.

Loss Emergence Period Factor: At least annually, management calculates the loss emergence period for each commercial loan segment. The loss emergence period is calculated based upon the average period of time it takes from the probable occurrence of a loss event to the credit being moved to nonaccrual. If the loss emergence period for any commercial loan segment is greater than one year, management applies additional general reserves to all performing loans within that segment of the commercial loan portfolio. The loss emergence period was last updated in the fourth quarter of 2017.

Loss Migration Factor: Park's commercial loans are individually risk graded. If loan downgrades occur, the probability of default increases, and accordingly, management allocates a higher percentage reserve to those accruing commercial loans graded special mention and substandard. Annually, management calculates a loss - migration factor for each commercial loan segment for special mention and substandard credits based on a review of losses over the period of time a loan takes to migrate from pass-rated to impaired. The loss migration factor was last updated in the fourth quarter of 2017.

Environmental Loss Factor: Management has identified certain macroeconomic factors that trend in accordance with losses in Park's commercial loan portfolio. These macroeconomic factors are reviewed quarterly and the adjustments made to the environmental loss factor impacting each segment in the performing commercial loan portfolio correlate to changes in the macroeconomic environment. There was no change to the environmental loss factor during the third quarter of 2018.

Loans acquired as part of the acquisition of NewDominion were recorded at fair value on the date of acquisition, July 1, 2018. An allowance is only established on these NewDominion loans as a result of credit deterioration post acquisition. As of September 30, 2018, there was no allowance related to acquired NewDominion loans.

## Table of Contents

Loans collectively evaluated for impairment in the following tables include all performing loans at September 30, 2018 and December 31, 2017, as well as nonperforming loans internally classified as consumer loans. Nonperforming consumer loans are not typically individually evaluated for impairment, but receive a portion of the statistical allocation of the allowance for loan losses. Loans individually evaluated for impairment include all impaired loans internally classified as commercial loans at September 30, 2018 and December 31, 2017, which are evaluated for impairment in accordance with U.S. GAAP (see Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report).

The composition of the allowance for loan losses at September 30, 2018 and December 31, 2017 was as follows:

Note 6 - Foreclosed and Repossessed Assets
Park typically transfers a loan to other real estate owned ("OREO") at the time that Park takes deed/title to the asset. The carrying amounts of foreclosed properties held at September 30, 2018 and December 31, 2017 are listed below, as well as the recorded investment of loans secured by residential real estate properties for which formal foreclosure proceedings were in process at those dates.

In addition to real estate, Park may also repossess different types of collateral. As of September 30, 2018, Park had $\$ 7.2$ million in other repossessed assets which are included in other assets on the consolidated condensed balance sheet. These assets consisted of aircraft acquired as part of a loan workout. There were no other repossessed assets as of September 30, 2017.

Park awarded 48,053 and 45,788 performance based restricted stock units ("PBRSUs") to certain employees during the nine months ended September 30, 2018 and 2017, respectively. No PBRSUs were awarded during the three months ended either September 30, 2018 or 2017.

On July 1, 2018, Park issued 435,457 common shares to complete its acquisition of NewDominion and granted 13,637 restricted stock units ("RSUs") to NewDominion employees. These common shares are included in average common shares outstanding beginning on that date.

Park repurchased 50,000 common shares during the nine months ended September 30, 2018 to fund the PBRSUs, RSUs and common shares to be awarded to directors of Park and to directors of Park's subsidiary PNB (and its divisions). No common shares were repurchased during the three months ended September 30, 2018. Park repurchased 20,000 common shares during the three months ended September 30, 2017, and repurchased 70,000 common shares during the nine months ended September 30, 2017 to fund the PBRSUs and common shares to be awarded to directors of Park and to directors of Park's subsidiary PNB (and its divisions).

## Note 8 - Segment Information

The Corporation is a financial holding company headquartered in Newark, Ohio. The operating segments for the Corporation are its chartered national bank subsidiary, PNB (headquartered in Newark, Ohio), SE Property Holdings, LLC ("SEPH"), and Guardian Financial Services Company ("GFSC").

Management is required to disclose information about the different types of business activities in which a company engages and also information on the different economic environments in which a company operates, so that the users of the financial statements can better understand the company's performance, better understand the potential for future cash flows, and make more informed judgments about the company as a whole. Park has three operating segments, as: (i) discrete financial information is available for each operating segment and (ii) the segments are aligned with internal reporting to Park's Chief Executive Officer and President, who is the chief operating decision maker.

The operating results of the Parent Company in the "All Other" column are used to reconcile the segment totals to the consolidated condensed statements of income for the three-month and nine-month periods ended September 30, 2018 and 2017. The reconciling amounts for consolidated total assets for the periods ended September 30, 2018 and 2017 consisted of the elimination of intersegment borrowings and the assets of the Parent Company which were not eliminated.

## Table of Contents

Note 9 - Loans Held For Sale
Mortgage loans held for sale are carried at their fair value. At September 30, 2018 and December 31, 2017, respectively, Park had approximately $\$ 6.4$ million and $\$ 4.1$ million in mortgage loans held for sale. These amounts are included in loans on the consolidated condensed balance sheets and in the residential real estate loan segments in Note 4 - Loans, and Note 5 - Allowance for Loan Losses. The contractual balance was $\$ 6.4$ million and $\$ 4.1$ million at September 30, 2018 and December 31, 2017, respectively. The gain expected upon sale was $\$ 75,000$ and $\$ 55,000$ at September 30, 2018 and December 31, 2017, respectively. None of these loans were 90 days or more past due or on nonaccrual status as of September 30, 2018 or December 31, 2017.

Note 10 - Investment Securities
The amortized cost and fair value of investment securities are shown in the following tables. Management performs a quarterly evaluation of investment securities for any other-than-temporary impairment. For the three-month and nine-month periods ended September 30, 2018 and 2017, there were no investment securities deemed to be other-than-temporarily impaired.

Investment securities at September 30, 2018, were as follows:

Investment securities with unrealized/unrecognized losses at September 30, 2018, were as follows:

Management does not believe any of the unrealized/unrecognized losses at September 30, 2018 or December 31, 2017 represented other-than-temporary impairment. Should the impairment of any of these securities become other-than-temporary, the cost basis of the investment will be reduced and the resulting loss recognized within net income in the period the other-than-temporary impairment is identified.

Park's U.S. Government sponsored entities' asset-backed securities consist primarily of 15-year residential mortgage-backed securities and collateralized mortgage obligations.

## Table of Contents

The amortized cost and estimated fair value of investments in debt securities at September 30, 2018, are shown in the following table by contractual maturity, except for asset-backed securities, which are shown as a single total, due to the unpredictability of the timing of principal repayments.

| Securities Available-for-Sale (In thousands) | Amortized cost | Fair value | Tax equivalent yield |  |
| :---: | :---: | :---: | :---: | :---: |
| U.S. Government sponsored entities' asset-backed securities | \$1,074,605 | \$1,032,265 | 52.35 | 5 \% |

| Total ${ }^{(1)}$ | \$303,668 | \$298,712 3 | 3.67 | \% |

(1) The tax equivalent yield for obligations of state and political subdivisions includes the effects of a taxable equivalent adjustment using a $21 \%$ federal corporate income tax rate.

The remaining average life of the entire investment portfolio is estimated to be 4.8 years.
There were no sales of investment securities during the three-month period ended September 30, 2018. During the nine-month period ended September 30, 2018, Park sold certain AFS debt securities with a book value of $\$ 247.0$ million at a loss of $\$ 2.6$ million. Additionally, during the nine-month period ended September 30, 2018, Park sold certain HTM debt securities with a book value of $\$ 7.4$ million at a gain of $\$ 291,000$. These HTM securities had been paid down by $96.3 \%$ of the principal outstanding at acquisition. There were no sales of investment securities during the three-month or nine-month periods ended September 30, 2017.

Investment securities having a book value of $\$ 564$ million and $\$ 557$ million at September 30, 2018 and December 31, 2017, respectively, were pledged to collateralize government and trust department deposits in accordance with federal and state requirements, to secure repurchase agreements sold and as collateral for Federal Home Loan Bank ("FHLB") advance borrowings.

Note 11 - Other Investment Securities
Other investment securities consist of stock investments in the FHLB, the Federal Reserve Bank ("FRB"), and equity securities. The FHLB and FRB restricted stock investments are carried at their redemption value. Equity securities with a readily determinable fair value are carried at fair value. Beginning on January 1, 2018, with the adoption of ASU 2016-01, changes in fair value are included in other income on the consolidated condensed statement of income as opposed to in accumulated other comprehensive loss on the consolidated condensed balance sheet. Equity securities without a readily determinable fair value are recorded at cost, minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions ("modified cost").

The carrying amount of other investment securities at September 30, 2018 and December 31, 2017 was as follows:

| (In thousands) | September December |  |
| :--- | :--- | :--- |
| FHLB stock | 30,2018 | 31,2017 |

Park evaluates goodwill for impairment on April 1 of each year, with financial data as of March 31. Based on the analysis performed as of April 1, 2018, the Company determined that goodwill for Park's national bank subsidiary (PNB) was not impaired. There have been no subsequent circumstances or events triggering an additional evaluation.

## Acquired Intangible Assets

The following table shows the balance of acquired intangible assets as of September 30, 2018. Park had no other intangible assets as of December 31, 2017.

## Note 13 - Share-Based Compensation

The Park National Corporation 2013 Long-Term Incentive Plan (the "2013 Incentive Plan") was adopted by the Board of Directors of Park on January 28, 2013 and was approved by Park's shareholders at the Annual Meeting of Shareholders on April 22, 2013. The 2013 Incentive Plan made equity-based awards and cash-based awards available for grant to participants in the form of incentive stock options, nonqualified stock options, stock appreciation rights ("SARs"), restricted common shares

("Restricted Stock"), restricted stock unit awards that may be settled in common shares, cash or a combination of the two ("Restricted Stock Units"), unrestricted common shares ("Other Stock-Based Awards") and cash-based awards. Under the 2013 Incentive Plan, 600,000 common shares were authorized to be delivered in connection with grants under the 2013 Incentive Plan. The common shares to be delivered under the 2013 Incentive Plan are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. As of September 30, 2018, there were 92,404 common shares subject to performance-based Restricted Stock Units ("PBRSUs") issued under the 2013 Incentive Plan, which represented the only awards outstanding under the 2013 Incentive Plan.

The Park National Corporation 2017 Long-Term Incentive Plan for Employees (the "2017 Employees LTIP") was adopted by the Board of Directors of Park on January 23, 2017 and was approved by Park's shareholders at the Annual Meeting of Shareholders on April 24, 2017. The 2017 Employees LTIP makes equity-based awards and cash-based awards available for grant to participants in the form of incentive stock options, nonqualified stock options, SARs, Restricted Stock, Restricted Stock Units, Other Stock-Based Awards and cash-based awards. Under the 2017 Employees LTIP, 750,000 common shares are authorized to be delivered in connection with grants under the 2017 Employees LTIP. The common shares to be delivered under the 2017 Employees LTIP are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. At September 30, 2018, 689,773 common shares were available for future grants under the 2017 Employees LTIP.

The Park National Corporation 2017 Long-Term Incentive Plan for Non-Employee Directors (the "2017 Non-Employee Directors LTIP") was adopted by the Board of Directors of Park on January 23, 2017 and was approved by Park's shareholders at the Annual Meeting of Shareholders on April 24, 2017. The 2017 Non-Employee Directors LTIP makes equity-based awards and cash-based awards available for grant to participants in the form of nonqualified stock options, SARs, Restricted Stock, Restricted Stock Units, Other Stock-Based Awards, and cash-based awards. Under the 2017 Non-Employee Directors LTIP, 150,000 common shares are authorized to be delivered in connection with grants under the 2017 Non-Employee Directors LTIP. The common shares to be delivered under the 2017 Non-Employee Directors LTIP are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. At September 30, 2018, 138,850 common shares were available for future grants under the 2017 Non-Employee Director LTIP.

The 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP have replaced the provisions of the 2013 Incentive Plan with respect to the grant of future awards. As a result of the approval of the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP, Park has not granted and will not grant any additional awards under the 2013 Incentive Plan after April 24, 2017. Awards made under the 2013 Incentive Plan prior to April 24, 2017 will remain in effect in accordance with their respective terms.

During the nine months ended September 30, 2018, the Compensation Committee of the Board of Directors of Park granted awards of PBRSUs, under the 2017 Employees LTIP, covering an aggregate of 48,053 common shares to certain employees of Park and its subsidiaries. Additionally, on July 1, 2018, Park granted 13,637 RSUs to NewDominion employees. During the nine months ended September 30, 2017, the Compensation Committee of the Board of Directors of Park granted awards of PBRSUs, under the 2013 Incentive Plan, covering an aggregate of 45,788 common shares to certain employees of Park and its subsidiaries. There were no awards granted during the three months ended September 30, 2017. The number of PBRSUs earned or settled will depend on the level of achievement with respect to certain performance criteria and are also subject to subsequent service-based vesting. The number of RSUs earned or settled are subject to subsequent service-based vesting.

## Table of Contents

A summary of changes in the common shares subject to nonvested PBRSUs and RSUs for the nine months ended September 30, 2018 follows:

|  | Common <br> shares <br> subject to <br> PBRSUs <br> and |
| :--- | :--- |
|  | RSUs |
| Nonvested at January 1, 2018 | 116,716 |

| Adjustment for performance conditions of PBRSUs ${ }^{(1)}$ | $(2,320$, |
| Nonvested at September 30, 2018 | 152,631 |

(1) The number of PBRSUs earned depends on the level of achievement with respect to certain performance criteria. Adjustment herein represents the difference between the maximum number of common shares which could be earned and the actual number earned for those PBRSUs as to which the performance period was completed.

On March 31, 2018, an aggregate of 18,800 of the PBRSUs granted in 2014 and 2015 vested in full due to the level of achievement with respect to certain performance criteria and the satisfaction of the service-based vesting requirement. A total of 5,879 common shares were withheld to satisfy employee income tax withholding obligations. This resulted in a net amount of 12,921 common shares being issued to employees of Park. On March 31, 2017, 9,674 of the PBRSUs granted in 2014 vested in full due to the level of achievement with respect to certain performance criteria and the satisfaction of the service-based vesting requirement. A total of 3,293 common shares were withheld to satisfy employee income tax withholding obligations. This resulted in a net amount of 6,381 common shares being issued to employees of Park.

Share-based compensation expense of $\$ 1.0$ million and $\$ 0.7$ million was recognized for the three-month periods ended September 30, 2018 and 2017, respectively, and of $\$ 3.1$ million and $\$ 2.1$ million was recognized for the nine-month periods ended September 30, 2018 and 2017, respectively.

The following table details expected additional share-based compensation expense related to PBRSUs and RSUs outstanding as of September 30, 2018:

Note 14 - Benefit Plans
Park has a noncontributory defined benefit pension plan (the "Pension Plan") covering substantially all of its employees. The Pension Plan provides benefits based on an employee's years of service and compensation.

There were no Pension Plan contributions for the three-month and nine-month periods ended September 30, 2018 and 2017.

Park has entered into Supplemental Executive Retirement Plan Agreements (the "SERP Agreements") with certain key officers of the Corporation and its subsidiaries which provide defined pension benefits in excess of limits imposed by federal tax law. The expense for the Corporation related to the SERP Agreements for the three months and nine months ended September 30, 2018 and 2017 was as follows:

|  | Three <br> Months <br> Ended <br> September <br> 30 , | Nine Months <br> Ended <br> September 30, | Affected Line Item in the Consolidated Condensed Statement of Income |

Previously, the net periodic benefit income/expense related to Park's Pension Plan and the expense related to the SERP Agreements had been recorded within the "Employee benefits" line item. During the first quarter of 2018, Park adopted ASU 2017-07-Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement. This ASU requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component. This ASU is required to be applied retrospectively to all periods presented. For all periods presented, this resulted in an increase in other income and an offsetting increase in other expense with no change to net income. As a practical expedient, Park used the amounts disclosed in "Note 12 Pension Plan" of the Notes to Unaudited Consolidated Condensed Financial Statements, included under Item 1 of Part I of Park's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2017 as the estimation basis for applying the retrospective presentation requirements.

## Note 15 - Loan Servicing

Park serviced sold mortgage loans of $\$ 1.38$ billion at September 30, 2018, $\$ 1.37$ billion at December 31, 2017 and $\$ 1.36$ billion at September 30, 2017. At September 30, 2018, $\$ 2.6$ million of the sold mortgage loans were sold with recourse, compared to $\$ 3.0$ million at December 31, 2017 and $\$ 3.2$ million at September 30, 2017. Management closely monitors the delinquency rates on the mortgage loans sold with recourse. At September 30, 2018 and December 31, 2017, management had established reserves of $\$ 49,000$ and $\$ 270,000$, respectively, to account for expected losses on loan repurchases.

When Park sells mortgage loans with servicing rights retained, these servicing rights are initially recorded at fair value. Park selected the "amortization method" as permissible within U.S. GAAP, whereby the servicing rights capitalized are amortized in proportion to and over the period of estimated future servicing income with respect to the underlying loan. At the end of each reporting period, the carrying value of mortgage servicing rights ("MSRs") is assessed for impairment with a comparison to fair value. MSRs are carried at the lower of their amortized cost or fair value. The amortization of MSRs is included within other service income in the consolidated condensed statements of income.

Servicing fees included in other service income were $\$ 0.9$ million and $\$ 0.8$ million for the three months ended September 30, 2018 and 2017, respectively, and were $\$ 2.7$ million and $\$ 2.6$ million for the nine months ended September 30, 2018 and 2017, respectively.

Note 16 - Fair Value
The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that Park uses to measure fair value are as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that Park has the ability to access as of the measurement date.
Level 2: Level 1 inputs for assets or liabilities that are not actively traded. Also consists of an observable market price for a similar asset or liability. This includes the use of "matrix pricing" to value debt securities absent the exclusive use of quoted prices.
Level 3: Consists of unobservable inputs that are used to measure fair value when observable market inputs are not available. This could include the use of internally developed models, financial forecasting and similar inputs.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the balance sheet date. When possible, the Company looks to active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, the Company looks to observable market data for similar assets and liabilities. However, certain assets and liabilities are not traded in observable markets and Park must use other valuation methods to develop a fair value. The fair value of impaired loans is typically based on the fair value of the underlying collateral, which is estimated through third-party appraisals in accordance with Park's valuation requirements under its commercial and real estate loan policies.

There were no transfers between Level 1 and Level 2 during either of the three-month periods ended September 30, 2018 or 2017. Management's policy is to transfer assets or liabilities from one level to another when the methodology to obtain the fair value changes such that there are more or fewer unobservable inputs as of the end of the reporting period.

The following methods and assumptions were used by the Company in determining the fair value of the financial assets and liabilities discussed above:

Investment securities: Fair values for investment securities are based on quoted market prices, where available (Level 1). If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows (Level 3).

Fair value swap: The fair value of the swap agreement entered into with the purchaser of the Visa Class B shares represents an internally developed estimate of the exposure based upon probability-weighted potential Visa litigation losses.

Mortgage Interest Rate Lock Commitments (IRLCs): Mortgage IRLCs are based on current secondary market pricing and are classified as Level 2.

Mortgage loans held for sale: Mortgage loans held for sale are carried at their fair value. Mortgage loans held for sale are estimated using security prices for similar product types and, therefore, are classified in Level 2.
