1. "FOR" the election of all of the named nominees as directors;
2. "FOR" the approval of the grant of discretionary authority to the Board of Directors (a) to amend our Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation") to change the name of the Company to a name to be selected by the Board of Directors or (b) to determine not to proceed with the name change;

6. in accordance with the judgment of the persons appointed as proxies with respect to other matters which properly come before the Annual Meeting.

1

Voting Your Proxy

Whether or not you plan to attend the Annual Meeting, you may vote your shares via Internet, telephone or mail as more fully described below:

- By Internet: Go to www.voteproxy.com and follow the instructions. Have your proxy card available when you call.
- By Telephone: Call 1-800-PROXIES (1-800-776-9437) and follow the voice prompts. Have your proxy card available when you call.
- By Mail: If you have received a proxy card, mark your vote, sign your name exactly as it appears on your proxy card, date your card and return it in the envelope provided.

Required Vote

1. The affirmative vote of the holders of a plurality of the shares of Common Stock represented at the Annual Meeting in person or by proxy is required for the election of directors.
2. The affirmative vote of the holders of a majority of the shares of Common Stock issued and outstanding is required to approve the grant of discretionary authority to the Board of Directors (a) to amend the Certificate of Incorporation to change the name of the Company to a name to be selected by the Board of Directors or (b) to determine not to proceed with the name change.
3. The affirmative vote of the holders of a majority of the shares of Common Stock issued and outstanding is required to approve the grant of discretionary authority to the Board of Directors (i) to amend the Certificate of Incorporation to effect a reverse stock split of the Common Stock at a ratio within the range from one-for-two to one-for-ten and to proportionately reduce the number of shares of common stock authorized for issuance or (ii) to determine not to proceed with the reverse stock split and proportionate reduction in the number of shares of common stock authorized for issuance.
4. The affirmative vote of the holders of a majority of the shares of Common Stock represented in person or by proxy at the meeting is required to approve the amendment to our 2005 Plan to increase the maximum number of shares of our common stock available for issuance under the plan by 10,000,000 shares, bringing the total shares reserved for issuance under the plan to 20,000,000 shares.
5. The affirmative vote of the holders of a majority of the shares of Common Stock represented in person or by proxy at the meeting is required for the ratification of the appointment of Sweeney, Gates & Co. as our independent auditors for the fiscal year ending December 31, 2007.

Stockholders are not allowed to cumulate their votes in the election of directors. In voting on the election of directors, abstentions and broker non-votes (which occur when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner) will be disregarded and not treated as votes cast and, therefore, will not affect the outcome of the election. Abstentions and broker non-votes will have the same effect as votes against the proposals (1) to approve the grant of discretionary authority to the Board of Directors

(a) to amend the Certificate of Incorporation to change the name of the Company to a name to be selected by the Board of Directors or (b) to determine not to proceed with the name change; and (2) to approve the grant of discretionary authority to the Board of Directors (a) to amend the Certificate of Incorporation to effect a reverse stock split of the Common Stock at a ratio within the range from one-for-two to one-for-ten and proportionately reduce the number of shares of Common Stock authorized for issuance or (b) to determine not to proceed with the reverse stock

split and proportionate reduction in the number of shares of Common Stock authorized for issuance. Abstentions will have the same effect as votes against the proposals (1) to approve the amendment to our 2005 Plan to increase the maximum number of shares of our common stock available for issuance under the plan; and (2) to ratify the appointment of Sweeney, Gates & Co., but broker non-votes will not be counted as votes against such proposals or as shares present or represented at the meeting.

Quorum

The required quorum for the transaction of business at the Annual Meeting will be a majority of the voting power of shares of Common Stock issued and outstanding on the record date. Shares represented in person or by proxy (including shares which abstain or do not vote with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum exists at the meeting.

PROPOSAL 1

The Board of Directors currently has four members, James S. Kuo, M.D., Christopher J. Schaber, Ph.D., Evan Myrianthopoulos and Cyrille Buhrman, all of whom are nominees for re-election. The Board of Directors does not currently anticipate that any nominee will be unable to be a candidate for election. Recommendation of the Board of Directors

The Board of Directors recommends that you vote "FOR" the election of all of the nominees listed above.

Section 16(a) Beneficial Ownership Reporting Compliance

We are required to identify each person who was an officer, director or beneficial owner of more than 10% of our registered equity securities during our most recent fiscal year and who failed to file on a timely basis reports required by Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

To our knowledge, based solely on review of these filings and written representations from the certain reporting persons, we believe that during the fiscal year ended December 31, 2006, our officers, directors and significant stockholders have timely filed the appropriate form under Section 16(a) of the Exchange Act, except a Form 4 for Evan Myrianthopoulos (one filing) and a Form 4 for James Clavijo (one filing), both of which have been subsequently made.

Corporate Governance

Pursuant to our Certificate of Incorporation and By-laws, our business and affairs are managed under the direction of the Board of Directors. Members of the Board of Directors are kept informed of our business through discussions with senior management, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees.

The Board of Directors has determined that Dr. Kuo and Mr. Buhrman are "independent" as such term is defined by the applicable listing standards of the American Stock Exchange. The Board of Directors based this determination primarily on a review of the responses of the directors to questions regarding their employment, affiliations and family and other relationships. In making this determination, the Board of Directors considered Dr. Kuo's relationship with Christopher Schaber, our President and Chief Executive Officer, and Evan Myrianthopoulos, our Chief Financial Officer, at Discovery Laboratories, Inc. The Board of Directors determined that this relationship did not impair Dr. Kuo's independence.

The Board of Directors held 22 meetings in 2006, and each director who served as a director during 2006, attended all of the meetings of the Board of Directors and each of the committees on which he served.

We typically schedule a meeting of the Board of Directors in conjunction with our Annual Meeting and expect that all directors will attend, absent a valid reason, such as a scheduled conflict. Last year, all of the individuals then serving as directors attended the Annual Meeting in person or telephonically.

The Board of Directors has the following three committees: (1) Compensation, (2) Audit and (3) Nominating. The Board of Directors has adopted a written charter for each of these committees. These charters were filed as annexes to the Company's proxy statement prepared in connection with the Company's 2005 Annual Meeting of Stockholders.

The Board of Directors has also adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers (including the Chief Executive Officer and the Chief Financial Officer) and employees. Our Code of Business Conduct and Ethics is posted under the caption "Investors" on our website: <http://www.dorbiopharma.com>. If, in the future, the Board of Directors amends the Code of Business Conduct and Ethics or grants a waiver to our Chief Executive Officer, Chief Financial Officer or any future principal accounting officer with respect to our Code of Business Conduct and Ethics, we will post the amendment or a description of the waiver on our website.

Compensation Committee

The Board of Directors has a Compensation Committee, which is currently comprised of Dr. Kuo and Mr. Buhrman. During 2006, the Compensation Committee was comprised of Dr. Kuo and Steven Kanzer. The Compensation Committee is responsible for reviewing and approving the executive compensation program, assessing executive performance, making grants of salary and annual incentive compensation and approving certain employment agreements. The Board of Directors has determined that both Dr. Kuo and Mr. Buhrman are "independent" directors, as such term is defined by the applicable American Stock Exchange listing standards. The Compensation Committee met one time during the fiscal year ended December 31, 2006.

Nominating Committee

The Board of Directors has a Nominating Committee, which is currently comprised of Dr. Kuo and Mr. Buhrman. During 2006, the Nominating Committee was comprised of Dr. Kuo and Steven Kanzer. The Nominating Committee makes recommendations to the Board of Directors regarding the size and composition of the Board of Directors, establishes procedures for the nomination process, recommends candidates for election to the Board of Directors and nominates officers for election by the Board of Directors. The Board of Directors has determined that both Dr. Kuo and Mr. Buhrman are "independent" directors, as such term is defined by the applicable American Stock Exchange listing standards. The Nominating Committee met one time during the fiscal year ended December 31, 2006.

In considering candidates for the Board of Directors, the Nominating Committee considers the entirety of each candidate's credentials and does not have any specific minimum qualifications that must be met by a nominee. However, the Nominating Committee does believe that all members of the Board of Directors should have the highest character and integrity, a reputation for working constructively with others, sufficient time to devote to Board matters, and no conflict of interest that would interfere with performance as a director. In the case of current Directors being considered for nomination, the Nominating Committee also takes into account the director's history of attendance at meetings of the Board of Directors or its committees, the Director's tenure as a member of the Board of Directors, and the Director's preparation for and participation in such meetings.

Stockholders who wish to suggest qualified candidates should write to the Office of the Secretary, DOR BioPharma, Inc., 1101 Brickell Avenue, Suite 701-S, Miami, Florida 33131, specifying the name of the candidates and stating in detail the qualifications of such persons for consideration by the Nominating Committee. A written statement from the candidate consenting to be named as a candidate and, if nominated and elected, to serve as a director should accompany any such recommendation. Stockholders who wish to nominate a director for election at an Annual Meeting of Stockholders must otherwise comply with our By-laws regarding stockholder proposals and nominations. See "Deadline for Stockholder Proposals" contained herein.

The Board of Directors, including Christopher Schaber, our President and Chief Executive Officer, and Evan Myrianthopoulos, our Chief Financial Officer, recommended that Cyrille Buhrman be nominated for appointment to the Board of Directors to fill the vacancy created by the resignation of Steven Kanzer.

Audit Committee

The Board of Directors has an Audit Committee, which is comprised of Dr. Kuo and Mr. Buhrman. During 2006, the Audit Committee was comprised of Dr. Kuo and Steven Kanzer. The Audit Committee assists the Board of Directors in monitoring the financial reporting process, the internal control structure and the independence and performance of the internal audit department and the independent public accountants. Its primary duties are to serve as an independent and objective party to monitor the financial process and internal control system, to review and appraise the audit effort of the independent accountants and to provide an open avenue of communication among the independent accountants, financial and senior management, and the Board of Directors. During the year, the Board of Directors examined the composition of the Audit Committee in light of the applicable listing standards of the American Stock Exchange and the regulations under the Exchange Act applicable to audit committees. Based upon this examination, the Board of Directors has determined that both Dr. Kuo and Mr. Buhrman are "independent" directors within the meaning of such listing standards and the Exchange Act and the rules and regulations thereunder. The Board of Directors has determined that Dr. Kuo qualifies as an "audit committee financial expert" as that term is defined in the applicable regulations of the Exchange Act. The Audit Committee met four times during the fiscal year ended December 31, 2006.

Report of the Audit Committee of the Board of Directors

The Audit Committee submits the following report for the year ended December 31, 2006:

The Audit Committee has reviewed and discussed with both management and the outside auditors the audited consolidated financial statements as of and for the year ended December 31, 2006. The Audit Committee's review included discussion with the outside auditors of matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants.

The Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended, by the Independence Standards Board, and has discussed with the independent auditors matters relating to the auditors' independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements referred to above be included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2006 for filing with the SEC.

Submitted by the Audit Committee,

James S. Kuo, M.D., M.B.A.

Steve H. Kanzer, C.P.A., J.D.*

* Mr. Kanzer resigned from the Board of Directors on May 28, 2007.

During December 2004, we entered into a three-year employment agreement with Michael T. Sember. Pursuant to this employment agreement, we agreed to pay Mr. Sember a base salary of \$300,000 per year. After one year of service, Mr. Sember would be entitled to a minimum annual bonus of \$100,000. We agreed to issue him options to purchase 2,000,000 shares of Common Stock, with one third immediately vesting and the remainder vesting over three years. Upon termination without "Just Cause," as defined by this agreement, we would pay Mr. Sember six months severance, as well as any unpaid bonuses and accrued vacation. No unvested options shall vest beyond the termination date. On August 25, 2006, we terminated the employment agreement with Mr. Sember without "Just Cause." Mr. Sember remained with us as a director until he resigned on September 25, 2006. We have paid his severance and accrued vacation according to the terms of his employment agreement. His employment agreement required us to pay him \$150,000 in severance and \$28,383 in accrued vacation. At the time of Mr. Sember's termination, he had vested options to purchase 1,340,000 shares of Common Stock, which will expire on August 24, 2007. Mr. Sember did not have any unpaid bonuses at the time of his termination.

In December 2004, we entered into a three-year employment agreement with Mr. Myriantopoulos. Pursuant to this employment agreement, we agreed to pay Mr. Myriantopoulos a base salary of \$185,000 per year. After one year of service, Mr. Myriantopoulos would be entitled to a minimum annual bonus of \$50,000. We agreed to issue him options to purchase 500,000 shares of Common Stock, with the options vesting over three years. Upon termination without "Just Cause," as defined by this agreement, we would pay Mr. Myriantopoulos six months severance subject to setoff, as well as any unpaid bonuses and accrued vacation would become payable. No unvested options shall vest beyond the termination date. Mr. Myriantopoulos also received options to purchase 150,000 shares of Common Stock, which options vested immediately when he was hired in November 2004, as President and Acting Chief Executive Officer.

In May 2006, we increased Evan Myriantopoulos' base salary to \$200,000. We also agreed to issue him options to purchase 400,000 shares of Common Stock, which vested immediately as to 100,000 shares and which vest as to the remainder over three years.

In May 2006, we entered into an amendment to the February 2005 employment agreement with James Clavijo. Pursuant to the amendment, we agreed to pay Mr. Clavijo a base salary of \$150,000 per year and a minimum annual bonus of \$35,000. Additionally, we agreed to issue him options to purchase 200,000 shares of Common Stock, with options as to 50,000 shares immediately vesting and the remainder vesting over three years. Pursuant to the February 2005 employment agreement, we agreed to issue Mr. Clavijo 150,000 shares of Common Stock, with one-third immediately vesting and the remainder vesting over three years. Upon termination without "Just Cause," as defined by this agreement, we would pay Mr. Clavijo three months severance, as well as any unpaid bonuses and accrued vacation would become payable. No unvested options shall vest beyond the termination date. Mr. Clavijo also received options, to purchase 100,000 shares of Common Stock, vesting over three years when he was hired in October 2004, as Controller, Treasurer and Corporate Secretary

Consideration and Determination of Executive and Director Compensation

The Compensation Committee of the Board of Directors is comprised of independent directors. The Compensation Committee provides overall guidance on compensation and benefits policy. In addition, the Compensation Committee approves and monitors:

- executive compensation and benefits programs;
 - executive employment agreements;
- 1995 Amended and Restated Omnibus Incentive Plan; and
 - 2005 Equity Incentive Plan.

The primary objectives of the Compensation Committee are to ensure that the executive compensation and benefits programs:

- are competitive with other growing companies of similar size and business;
- are effective in driving performance to achieve financial goals and create stockholder value;
 - are cost-efficient and fair to employees, management and stockholders; and
- are designed to attract, motivate, reward, and retain the competent and talented executives needed.

To achieve these objectives, the Compensation Committee meets at least once and usually several times during each fiscal year to review the existing compensation and benefits programs and to consider modifications that seek to

provide a direct relationship between executive compensation and sustained corporate performance.

The Compensation Committee makes executive compensation decisions on the basis of total remuneration and seeks to create an integrated total remuneration program structured to balance short and long-term financial goals. A significant amount of total compensation is comprised of bonus provisions which are specified in their contracts and which are intended to align executive interest with stockholder interest.

The Compensation Committee recommends to the Board of Directors a salary within a designated band for the respective executives, which is based on merit, performance and length of service. Bonus provisions for all executives are based on increase (if any) of net incremental profit over prior year highest net profit, subject to guaranteed minimum bonuses.

Non-executive employees were granted stock options under the 1995 Amended and Restated Omnibus Incentive Plan and the 2005 Equity Incentive Plan, approved by the stockholders, also in order to motivate, reward, and retain them while meeting goals and allowing them to share in the growth.

In general, under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limit does not apply, however, to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the Treasury regulations promulgated thereunder. The Compensation Committee has considered the limitations on deductions imposed by Section 162(m) of the Code, and it is the Compensation Committee's present intention that, as long as it is consistent with its overall compensation objectives, substantially all federal income tax deductions attributable to executive compensation should not be subject to the deduction limitation of Section 162(m) of the Code.

PROPOSAL 2
COMPANY NAME CHANGE

General

The Board of Directors has unanimously adopted a resolution seeking stockholder approval of an amendment to the Certificate of Incorporation to change the name of the Company and the grant to the Board of Directors of discretionary authority to implement a name change by filing the amendment to the Certificate of Incorporation. Approval of this name change proposal would give the Board of Directors the authority to determine, in its sole discretion, the name to which the Company's name will be changed and the date of the name change, to take place at any time during a period of twenty four months commencing on the date the Company's stockholders approve this proposal or to determine not to proceed with the name change.

Purpose

The Board of Directors believes the proposed name change is necessary to better describe the Company and to better position the Company in the biopharmaceuticals market as it intends to evolve from a technology driven, research and development intensive organization, to a fully integrated biopharmaceutical company with commercialized products. As a result, the Board of Directors believes that it is in the best interest of the Company and our stockholders to change the Company's name.

The Board of Directors believes that stockholder approval of the grant to the Board of Directors of discretionary authority to implement a name change provides the Board of Directors with maximum flexibility to achieve the purposes of the name change. If the stockholders approve the name change proposal, the name change will be effected, if at all, only upon a determination by the Board of Directors that the name change is in the best interests of the Company and our stockholders at that time. In connection with any determination to effect a name change, the Board of Directors will set the timing for such change and select the name. No further action on the part of stockholders will be required either to implement or abandon the name change. If the Board of Directors determines not to proceed with a name change within twenty-four months after receiving stockholder approval of this name change proposal, the authority granted in this proposal to implement a name change will terminate. The Board of Directors reserves its right to elect not to proceed with the name change if it determines, in its sole discretion, that the name change is no longer in the best interests of the Company and our stockholders. If implemented, the Board of Directors intends to effect the name change of the Company simultaneously with the reverse stock split described in Proposal 3 below. If implemented, the amendment will become effective upon filing of an appropriate amendment to the Certificate of Incorporation with the Secretary of State of the State of Delaware.

Recommendation of the Board of Directors

The Board of Directors recommends that you vote "FOR" approval of the proposed amendment to the Certificate of Incorporation and the grant of discretionary authority to the Board of Directors to select a name for the Company and effect a name change.

PROPOSAL 3 REVERSE STOCK SPLIT

General

As of August 7, 2007, the Company's aggregate market capitalization was approximately \$26,020,560; there were 92,930,574 shares of Common Stock issued and outstanding and the closing price of the Common Stock on that date was \$0.28. In order to reduce the number of shares of Common Stock issued and outstanding and proportionately raise the share price, the Board of Directors has unanimously adopted a resolution seeking stockholder approval of an amendment to the Certificate of Incorporation to effect a reverse split of the Common Stock and the grant to the Board of Directors of discretionary authority to implement a reverse stock split by filing the amendment to the Certificate of Incorporation. The ratio of the reverse stock split that the Board of Directors approved and deemed advisable and for which it is seeking stockholder approval is in the range from one-for-two to one-for-ten. The Board of Directors has approved by separate resolution every whole-number ratio within this range, with the exact ratio to be established within this range by the Board of Directors in its sole discretion at the time it elects to effect a reverse stock split. Approval of this reverse stock split proposal would give the Board of Directors authority to determine the date of the reverse stock split to take place at any time during a period of twenty four months commencing on the date the Company's stockholders approve this proposal or to determine not to proceed with the reverse stock split.

If the stockholders approve the reverse stock split proposal and the Board of Directors decides to implement the reverse stock split within such twenty four-month period, the Company will file an amendment to its then current Certificate of Incorporation with the Secretary of State of the State of Delaware (as described below), which will effect a reverse split of the shares of the Common Stock then issued and outstanding at the specific ratio determined by the Board of Directors. The reverse stock split, if implemented, also would decrease the number of authorized shares of our Common Stock proportionately based on the reverse stock split ratio selected by the Board of Directors, but the \$.001 par value per share of the Common Stock would not change. Except for any changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of Common Stock, on a fully diluted basis with respect to shares of Common Stock underlying options, warrants and other derivative securities, outstanding immediately after the reverse stock split as such stockholder held immediately prior to the split. If implemented, the Board of Directors intends to effect the reverse stock split simultaneously with the name change of the Company described in Proposal 2 above.

Purpose

The Board of Directors is seeking stockholder approval of the authority to implement a reverse stock split because it believes that a higher stock price may help generate and enable institutional investor interest in the Company and help us attract and retain employees and other service providers. The Board of Directors believes that institutional investors and investment funds are generally reluctant to invest in lower priced stocks. The Board of Directors also believes that a higher stock price will facilitate a listing on a major stock exchange such as the NASDAQ Global Select Market or the American Stock Exchange, which will further generate and enable institutional investor interest in the Company. Accordingly, the Board of Directors concluded that reducing the number of outstanding shares of Common Stock might be desirable in order to attempt to support a higher stock price per share based on our current market capitalization. In addition, the Board of Directors considered that the Common Stock might not appeal to brokerage firms that are reluctant to recommend lower priced securities to their clients. Investors may also be dissuaded from purchasing lower priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide research coverage of lower priced stocks. The combination of lower transaction costs and increased interest from institutional investors and investment funds can ultimately improve the trading liquidity of Common Stock. In order to reduce the number of shares of Common Stock outstanding and thereby attempt to proportionally raise the per share price of Common Stock, the Board of Directors believes that it is in the

best interests of our Company's stockholders for the Board of Directors to obtain the authority to implement a reverse stock split.

The Board of Directors believes that stockholder approval of a number of ratios within a range (rather than an exact exchange ratio) provides the Board of Directors with maximum flexibility to achieve the purposes of the reverse stock split. If the stockholders approve the reverse stock split proposal, the reverse stock split will be effected, if at all, only upon a determination by the Board of Directors that the reverse stock split is in the best interests of the Company and our stockholders at that time. In connection with any determination to effect a reverse stock split, the Board of Directors will set the timing for such a split and select the specific ratio within the range. These determinations will be made by the Board of Directors in its effort to create the greatest marketability of the Common Stock based on prevailing market conditions at that time. If the Board of Directors implements a reverse stock split, its choice of a ratio will depend largely on the current market prices of the Common Stock during the period leading up to that date. Because of the volatility of the market prices of our Common Stock in recent months, it is not possible at this point to specify an exact ratio or even a likely ratio that the Board of Directors would consider to be in our best interest. No further action on the part of stockholders will be required either to implement or abandon the reverse stock split. If the Board of Directors determines not to proceed with a reverse stock split within twenty four months after receiving stockholder approval of the reverse stock split, the authority granted in this proposal to implement a reverse stock split on these terms will terminate. The Board of Directors reserves its right to elect not to proceed with the reverse stock split if it determines, in its sole discretion, that the split is no longer in the best interests of the Company and our stockholders.

Certain Risks Associated with the Reverse Stock Split

There can be no assurance that the total market capitalization of the Common Stock after the proposed reverse stock split will be equal to or greater than the total market capitalization before the proposed reverse stock split or that the per share market price of the Common Stock following the reverse stock split will either exceed or remain higher than the current per share market price.

There can be no assurance that the market price per new share of Common Stock (the “New Shares”) after the reverse stock split will rise or remain constant in proportion to the reduction in the number of old shares of Common Stock (the “Old Shares”) outstanding before the reverse stock split. For example, based on a market price of the Common Stock of \$0.28 per share (which was the closing bid price on August 7, 2007), if the Board of Directors decided to implement the reverse stock split and selects a reverse stock split ratio of one-for-five, there can be no assurance that the post-split market price of the Common Stock would be \$1.40 per share or greater. Alternatively, based on the same market price of the Common Stock of \$0.28 per share, if the Board of Directors decided to implement the reverse stock split and selects a reverse stock split ratio of one-for-ten, there can be no assurance that the post-split market price of the Common Stock would be \$2.80 per share or greater.

Accordingly, the total market capitalization of the Common Stock after the proposed reverse stock split may be lower than the total market capitalization before the proposed reverse stock split and, in the future, the market price of Common Stock following the reverse stock split may not exceed or remain higher than the market price prior to the proposed reverse stock split.

There can be no assurance that the reverse stock split will result in a per-share price that will attract institutional investors and brokers.

While the Board of Directors believes that a higher stock price may help generate investor interest, there can be no assurance that the reverse stock split will result in a per share price that will attract institutional investors and brokers or that, if attained, such price will be maintained.

There can be no assurance that the reverse stock split will result in a per-share price that will increase the Company’s ability to attract and retain employees and other service providers.

While the Board of Directors believes that a higher stock price may help us attract and retain employees and other service providers who are less likely to work for a company with a low stock price, there can be no assurance that the reverse stock split will result in a per share price that will increase our ability to attract and retain employees and other service providers or that, if attained, such price will be maintained.

A decline in the market price for the Common Stock after the reverse stock split may result in a greater percentage decline than would occur in the absence of a reverse stock split, and the liquidity of the Common Stock could be adversely affected following a reverse stock split.

The market price of the Common Stock will also be based on our performance and other factors, some of which are unrelated to the number of shares outstanding. If the reverse stock split is effected and the market price of the Common Stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of a reverse stock split. In many cases, both the total market capitalization of a company and the market price of a share of such company’s common stock following a reverse stock split are lower than they were before the reverse stock split. Furthermore, the reduced number of shares that would be outstanding after the reverse stock split could adversely affect the liquidity of the Common Stock.

Principal Effects of the Reverse Stock Split

Corporate Matters. If approved and effected, the reverse stock split would have the following effects:

- Depending on the exact reverse stock split ratio selected by the Board of Directors, between two and ten Old Shares owned by a stockholder would be exchanged for one New Share. To illustrate, a shareholder who currently holds 200 shares of Common Stock would exchange those 200 Old Shares for 100 New Shares if a one-for-two reverse split were implemented, or 20 New Shares if a one-for-ten reverse split were implemented. If a one-for-six reverse split were implemented, a holder of 200 Old Shares would exchange those shares for 34 New Shares, rounded up for the fractional share interest of the remaining 2 Old Shares;
- The number of shares of Common Stock issued and outstanding will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors;
 - The number of shares of Common Stock authorized to be issued will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors;
- Based on the reverse stock split ratio selected by the Board of Directors, proportionate adjustments will be made to the per-share exercise price and the number of shares issuable upon the exercise of all outstanding options and warrants entitling the holders thereof to purchase shares of Common Stock, which will result in approximately the same aggregate price being required to be paid for such options or warrants upon exercise of such options or warrants immediately preceding the reverse stock split; and
 - The number of shares reserved for issuance under the 2005 Plan will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors.

If approved and effected, the reverse stock split will be effected simultaneously for all of the Common Stock and the ratio will be the same for all of the Common Stock. The reverse stock split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company, subject to being rounded up to the next whole number in the case of fractional shares, as described below. Common Stock issued pursuant to the reverse stock split will remain fully paid and non-assessable. We will continue to be subject to the periodic reporting requirements of the Exchange Act.

Fractional Shares. No scrip or fractional certificates will be issued in connection with the reverse stock split. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of Old Shares not evenly divisible by the number selected by the Board of Directors for the reverse stock split ratio will be rounded up to the nearest whole share amount.

If approved and effected, the reverse stock split will result in some stockholders owning "odd lots" of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in "round lots" of even multiples of 100 shares.

Authorized Shares. Upon the effectiveness of the reverse stock split, the number of authorized shares of Common Stock would proportionately decrease based on the reverse stock split ratio selected by the Board of Directors. Under the Certificate of Incorporation, we currently have the authority to issue 255,000,000 shares of capital stock, of which 250,000,000 shares are designated as Common Stock, 4,600,000 shares are designated as "Preferred Stock," 200,000 shares are designated as "Series B Convertible Preferred Stock," and 200,000 shares are designated as "Series C Convertible Preferred Stock." We currently have 92,930,574 shares of Common Stock issued and outstanding and do not have any other class of stock outstanding. Authorized but unissued shares will be available for issuance, and we may issue such shares in financings or otherwise. If we issue additional shares, the ownership interest of holders of Common Stock may also be diluted. Also, the issued shares may have rights, preferences or privileges senior to those

of the Common Stock.

The Board of Directors believes, based on the number of shares of Common Stock currently outstanding, the number of shares reserved for issuance under stock option plans and warrants, and the number of shares the Company reasonably expects to issue in future transactions, that, after giving effect to the reverse split at any of the proposed ratios, 250,000,000 is an excessive number of shares of Common Stock for the Company to be authorized to issue without stockholder approval. In addition, one method that the State of Delaware uses to impose franchise taxes upon domestic corporations is based upon a corporation's authorized capital. Accordingly, the Board of Directors believes that a decrease in the number of authorized shares of Common Stock would reduce the amount of franchise taxes that the Company is required to pay annually and would be in the best interests of the Company. The Board of Directors believes that a reduction in the number of shares of Common Stock authorized for issuance at the same ratio determined by the Board of Directors with regard to the reverse split will leave a sufficient number of authorized shares of Common Stock to maintain the requisite amount of flexibility required by the Company's ongoing activities.

Effects at Illustrative Ratios. The following table illustrates the aggregate effect of a reverse split, at illustrative levels of one-for-two, one-for-6, and one-for-ten, on the numbers of shares of Common Stock outstanding, on the numbers of shares of Common Stock issuable on exercise or conversion of exercisable or convertible securities, and on the number of authorized but unissued and unreserved shares that would be available for issuance.

	Before reverse stock split	Effect of 1 for 2 reverse stock split	Effect of 1 for 6 reverse stock split	Effect of 1 for 10 reverse stock split
Issued and outstanding shares	92,930,574	46,465,287	15,488,429	9,293,058
Shares issuable upon exercise or conversion of all outstanding exercisable and convertible securities	43,580,090	21,790,045	7,263,349	4,358,009
Authorized shares of Common Stock	250,000,000	125,000,000	41,666,667	25,000,000
Authorized, but unissued shares available for issuance	113,489,336	56,744,668	18,914,889	11,348,933

Accounting Matters. The reverse stock split will not affect the par value of the Common Stock. As a result, as of the effective time of the reverse stock split, the stated capital on our balance sheet attributable to the Common Stock will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value of the Common Stock will be restated because there will be fewer shares of Common Stock outstanding.

Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

If the stockholders approve the proposal to authorize the Board of Directors to implement the reverse stock split and reduction of the number of authorized shares of Common Stock and the Board of Directors decides to implement the reverse stock split and reduction of the number of shares of authorized Common Stock, we will file an amendment to the Certificate of Incorporation ("Amendment to Certificate of Incorporation") with the Secretary of State of the State of Delaware to amend our existing Certificate of Incorporation. The reverse stock split and reduction of the number of shares of authorized Common Stock will become effective at the time specified in the Amendment to Certificate of Incorporation, which is referred to below as the "effective time." Beginning at the effective time, each certificate representing Old Shares will be deemed for all corporate purposes to evidence ownership of New Shares.

The text of the Amendment to Certificate of Incorporation to effect the reverse stock split, if implemented by the Board of Directors, would be in substantially the form attached hereto as Annex A; provided, however, that the text of the form of Amendment to Certificate of Incorporation attached hereto is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Delaware and as the Board of Directors deems necessary and advisable to effect the reverse stock split, including the insertion of the effective time and the applicable reverse stock split ratio determined by the Board of Directors.

As soon as practicable after the effective time, stockholders will be notified that the reverse stock split has been effected. The Company expects that its transfer agent, American Stock Transfer & Trust Company, will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of Old Shares will be asked to surrender to the exchange agent certificates representing Old Shares in exchange for certificates representing New Shares in accordance with the procedures to be set forth in the letter of transmittal the Company sends to its stockholders. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the exchange agent. Any Old Shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for New Shares. **STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.**

No Dissenters' Rights

Under the Delaware General Corporation Law, our stockholders are not entitled to dissenters' rights with respect to the reverse stock split, and we will not independently provide stockholders with any such right.

Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material federal income tax consequences of the reverse stock split. The summary does not purport to be a complete discussion of all of the possible federal income tax consequences of the reverse stock split and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the Old Shares were, and the New Shares will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (i.e., generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the reverse stock split.

No loss should be recognized by a stockholder upon such stockholder's exchange of Old Shares for New Shares pursuant to the reverse stock split. The aggregate tax basis of the New Shares received in the reverse stock split (including any fraction of a New Share deemed to have been received) will be the same as the stockholder's aggregate tax basis in the Old Shares exchanged therefore. The stockholder's holding period for the New Shares will include the period during which the stockholder held the Old Shares surrendered in the reverse stock split.

The Company's view regarding the tax consequences of the reverse stock split is not binding on the Internal Revenue Service or the courts. **ACCORDINGLY, EACH STOCKHOLDER SHOULD CONSULT WITH HIS OR HER OWN TAX ADVISOR WITH RESPECT TO ALL OF THE POTENTIAL TAX CONSEQUENCES TO HIM OR HER OF THE REVERSE STOCK SPLIT.**

Recommendation of Board of Directors

The Board of Directors recommends that you vote “FOR” approval of the Amendment to the Certificate of Incorporation and the grant of discretionary authority to the Board of Directors to effect a reverse stock split and proportionately decrease the number of shares of authorized Common Stock available for issuance.

PROPOSAL 4
AMENDMENT TO 2005 PLAN

General

In 2005, the Board of Directors and stockholders adopted the 2005 Plan. The 2005 Plan constitutes a key element of the Company's total compensation program. This plan is designed to advance our interests by providing for the grant of stock-based and other incentive awards to our key employees and key non-employees.

Purpose

As a result of prior grants of stock options under the 2005 Plan, the number of shares of Common Stock available for the grant under the 2005 Plan as of August 7, 2007 was 3,315,000. A considerable portion of the shares available under the 2005 plan were utilized as liquid common stock payment to consultants, vendors and employees. In addition, our need to have available stock options in order to be prepared for rapid growth, provide incentive to management and employees, and to attract senior management and other qualified staff requires this amendment. The Board has unanimously adopted resolutions setting forth the proposed amendment to the 2005 Plan, declaring its advisability and directing that the proposed amendment be submitted to stockholders for their approval. If adopted by the stockholders, the amendment will become immediately effective, which the Company currently expects will occur on or about September 27, 2007. If approved, the total number of shares available for the grant under the 2005 Plan will be increased by 10,000,000 shares, and the aggregate number of shares will increase from 10,000,000 to 20,000,000.

Notwithstanding the proposed increase, if the proposed reverse stock split is approved and effected, the number of shares reserved for issuance under the 2005 Plan will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors.

Recommendation of the Board of Directors

The Board of Directors recommends that you vote "FOR" approval of the proposed amendment to the 2005 Plan.

Summary of the 2005 Plan

The following summary of the material features of the 2005 Plan is qualified in its entirety by the full text of the 2005 Plan that appears as Annex B to this proxy statement. All references to the "Code" are to the Internal Revenue Code of 1986, as amended from time to time, or any successor thereto. This summary does not include the proposed increase in number of number of shares of Common Stock available for the grant under the 2005 Plan.

The 2005 Plan became effective on December 29, 2005 and will terminate on the date of the annual meeting of the Board of Directors immediately following the tenth (10th) anniversary of the Board of Director's adoption of the plan. The 2005 Plan is administered by the Compensation Committee of the Board of Directors.

The 2005 Plan provides for the grant of stock options (both non-statutory options or "NSOs" and, in the case of employees, incentive stock options or "ISOs"), restricted stock, deferred stock and unrestricted stock. Unless otherwise determined by the Compensation Committee, awards may not be transferred except by will or by the laws of descent and distribution.

Number of Shares.

A maximum of 10,000,000 shares of Common Stock may be delivered in satisfaction of awards made under the 2005 Plan. The maximum number of shares of Common Stock that may be issued pursuant to the exercise of ISOs, and the maximum number of shares of Common Stock that may be issued pursuant to the exercise of NSOs, is 2,000,000. The maximum number of shares of Common Stock for which stock options may be granted to any person in any calendar year will be 2,000,000. The maximum benefit that will be paid to any person under other awards in any calendar year will be 1,000,000 shares. In the event of a stock dividend, stock split or other change in our capital structure, or a distribution to stockholders other than normal cash dividends, the Compensation Committee will make appropriate adjustments to the limits described above and will also make appropriate adjustments to the number and kind of shares of stock or securities subject to and available for awards, any exercise prices relating to awards and any other provisions of awards affected by the change. The Compensation Committee may also make similar adjustments in response to any other event, as the Compensation Committee deems appropriate, to avoid distortion in the operation of the 2005 Plan. Any such adjustment shall, to the extent applicable, comply with Section 409A of the Code.

The share limitations described above are in addition to the limitation on the number of shares available for awards under the 2005 Plan. The maximum number of shares that may be issued under the 2005 Plan represents approximately 10.8% of the total number of shares of the Common Stock outstanding on August 7, 2007.

Administration of 2005 Plan.

The 2005 Plan is administered by a committee of the Board of Directors, currently the Compensation Committee. Compensation Committee members are required to satisfy applicable requirements for independence. The Compensation Committee will have full authority to determine who will receive awards and to determine the types of awards to be granted as well as the amounts, terms, and conditions of any awards. The Compensation Committee will determine any questions that may arise regarding the interpretation and application of the provisions of the 2005 Plan and to make, administer and interpret such rules and regulations as it deems necessary or advisable. The Compensation Committee's determinations are conclusive and bind all parties.

Eligibility.

Participation in the 2005 Plan is limited to our key employees and to key non-employees (other persons or entities including consultants and non-Employee directors who, in the opinion of the Compensation Committee, are in a position to make a significant contribution to the success of the Company).

Stock Options.

Each stock option awarded under the 2005 Plan will be a NSO unless expressly designated as an ISO at the time of the grant. The exercise price of stock options granted under the 2005 Plan will be determined by the Compensation Committee, but may not be less than 100% of the fair market value of the Common Stock subject to the option, determined at the time the option is granted unless otherwise required by the Code with respect to an ISO. The term of any option granted under the 2005 Plan may not exceed ten years. Options will be exercisable at such time or times and on such conditions as the Compensation Committee specifies. Notwithstanding the foregoing, to the extent that any NSO is granted at an exercise price less than 100% of the fair market value of the Common Stock subject to the option, the requirements of Section 409A of the Code shall be satisfied as set forth in more particularity in the Individual Stock Option Agreement.

Restricted Stock Awards; Unrestricted Stock; Deferred Stock.

The 2005 Plan provides for awards of nontransferable shares of Common Stock which may be subject to repurchase or forfeiture as set forth in more particularity in the Individual Restricted Stock Agreement. The Compensation Committee may, at the time any other award is granted, provide that any or all the Common Stock delivered pursuant to an award will be restricted Common Stock. The 2005 Plan also provides for awards of unrestricted stock, but no

more than 90,000 shares of unrestricted stock in the aggregate may be granted at less than fair market value or not in lieu of cash compensation equal to fair market value. The 2005 Plan provides for deferred grants entitling the recipient to receive Common Stock upon the satisfaction of conditions determined by the Compensation Committee in its discretion. To the extent required, all such awards shall comply with the requirements of Section 409A of the Code.

Performance Awards.

Any award under the 2005 Plan may be made subject to the satisfaction of performance criteria specified by the Compensation Committee. In the case of performance awards intended to qualify for exemption under Section 162(m) of the Code, the Compensation Committee will use objectively determinable measures of performance in accordance with Section 162(m) that are based on any or any combination of the following (measured either absolutely or by reference to an index or indices and determined either on a consolidated basis or, as the context permits, on a divisional, subsidiary, line of business, project or geographical basis or in combinations thereof): sales; revenues; assets; expenses; earnings before or after deduction for all or any portion of interest, taxes, depreciation, or amortization, whether or not on a continuing operations or an aggregate or per share basis; return on equity, investment, capital or assets; one or more operating ratios; borrowing levels, leverage ratios or credit rating; market share; capital expenditures; cash flow; stock price; stockholder return; sales of particular products or services; customer acquisition or retention; acquisitions and divestitures (in whole or in part); joint ventures and strategic alliances; spin-offs, split-ups and the like; reorganizations; or recapitalizations, restructurings, financings (issuance of debt or equity) or refinancings. Any performance criterion based on performance over time will be determined by reference to a period of at least one year. The Compensation Committee will determine whether the performance criteria that have been chosen for a particular performance award have been met. Notwithstanding the foregoing, to the extent that any award under the 2005 Plan may be subject to Section 409A of the Code and subject to the satisfaction of performance criteria specified by the Compensation Committee, such performance parameters shall specifically comply with Section 409A of the Code in addition to such criteria necessary to qualify for exemption under Section 162(m) of the Code.

Termination of Affiliation with Company: Effect on Stock Options.

Except as otherwise determined by the Compensation Committee, if a participant in the 2005 Plan dies, any ISO or NSO granted at fair market value owned by the participant will, to the extent exercisable on the date of death, remain exercisable for a one-year period, provided that no such option will be exercisable beyond the end of its original term. In addition, and except as otherwise determined by the Compensation Committee, if a participant's affiliation with the Company ends because of the participant's total and permanent disability, then any ISOs and NSOs granted at fair market value held by the participant that were exercisable at the time of disability may be exercised by the participant at any time in accordance with the original terms of the options. Finally, and except as otherwise determined by the Compensation Committee, if a participant's employment (or other applicable affiliation with the Company) terminates for any reason other than death or disability, ISOs and NSOs granted at fair market value that were exercisable at the time the participant ceased to be affiliated with the Company will remain exercisable for three months, provided that (i) under no circumstances will any option be extended beyond its original term; and (ii) in the case of termination of the participant for cause, the Compensation Committee may elect to terminate any options immediately. In all cases, ISOs and NSOs granted at fair market value that are not exercisable on the date of termination will terminate on that date. With respect to any NSO granted at less than fair market value, the treatment of the option upon a termination of affiliation with the company shall be set forth in the Individual Stock Option Agreement as determined by the Compensation Committee.

Termination of Affiliation with the Company: Effect on Restricted and Deferred Stock.

Upon a termination of affiliation of the Company, as set forth in more particularity in the Individual Restricted and/or Deferred Stock Award Agreement and as determined by the Compensation Committee, any share of Common Stock subject to a continuing restriction may be repurchased by the Company. Common Stock awards, whether restricted or deferred, to which the participant did not become irrevocably entitled prior to the termination of the participant's affiliation with the Company will be forfeited upon termination of affiliation.

Effect of Certain Mergers, Consolidations, Etc.

In the case of certain mergers, consolidations or similar transactions in which a majority of our stock or all or substantially all of its assets are acquired, or in the case of a dissolution or liquidation, the Compensation Committee may, in its discretion, make options immediately exercisable, remove restrictions on shares of restricted Common Stock, waive conditions on any deferred awards of Common Stock and remove any performance or other conditions on any award. In addition, the Compensation Committee may, under such circumstances, provide for replacement awards for certain participants. Notwithstanding the foregoing, to the extent applicable, any such modification and/or replacement award shall comply with the requirements of Section 409A of the Code as set forth in more particularity in the Individual Option or Stock Award Agreement.

Amendment of 2005 Plan.

The Compensation Committee may amend the 2005 Plan or any outstanding award for any purpose that may at the time be permitted by law, and may at any time terminate the 2005 Plan as to any future grants of awards. The Compensation Committee may not, without the approval of our stockholders, effectuate a change to the 2005 Plan (i) for which stockholder approval is required in order for the 2005 Plan to continue to qualify for the award of ISOs under Section 422 of the Code or for the award of performance-based compensation under Section 162(m) of the Code; or (ii) if the change would increase the aggregate number of shares of Common Stock that may be delivered under the 2005 Plan, or change the class of persons or entities that qualify as participants under the 2005 Plan. Specifically, and in addition to the foregoing, this Plan may be amended, to the extent necessary, to comply with regulatory and legislative requirements, including but not limited to Section 409A of the Code.

Federal Income Tax Consequences

The following discussion summarizes certain federal income tax consequences under the Code of the issuance and receipt of options under the 2005 Plan.

Incentive Stock Options.

In general, an optionee realizes no taxable income upon the grant or exercise of an ISO, although the exercise of an ISO may result in an alternative minimum tax liability. With certain exceptions, a disposition of shares purchased under an ISO within two years from the date of grant or within one year after exercise produces ordinary income to the optionee (with a corresponding deduction available to the Company) generally equal to the value of the shares at the time of exercise less the exercise price. Any additional gain recognized in the disposition is generally treated as a capital gain for which the Company is not entitled to a deduction. If the optionee does not dispose of the shares until after the expiration of these one-and two-year holding periods, any gain or loss recognized upon a subsequent sale is generally treated as a long-term capital gain or loss for which the Company is not entitled to a deduction.

Non-statutory Options.

In general, in the case of a NSO granted at fair market value, the optionee has no taxable income at the time of grant but realizes ordinary income in connection with exercise of the option in an amount equal to the excess (at time of exercise) of the fair market value of the shares acquired upon exercise over the exercise price; a corresponding deduction is available to the Company; and upon a subsequent sale or exchange of the shares, any recognized gain or loss after the date of exercise is treated as capital gain or loss for which the Company is not entitled to a deduction. The ordinary income recognized on exercise shall be subject to applicable withholding and employment taxes.

In general, an ISO that is exercised more than three months after termination of employment (other than termination by reason of death) is treated as a NSO. ISOs are also treated as non-statutory options to the extent they first become exercisable by an individual in any calendar year for shares having a fair market value (determined as of the date of grant) in excess of \$100,000.

In general, in the case of a NSO granted at less than fair market value, the optionee will have taxable income to the extent not previously included at such times that the option is no longer subject to a substantial risk of forfeiture (and subject to applicable withholding and employment taxes), which is generally December 31 of any calendar year such options are vested. The optionee generally will recognize additional ordinary income on exercise equal to the amount the fair market value of the underlying stock increases, if any, from the date the substantial risk of forfeiture lapses to the date of exercise to the extent such amounts have not been previously taxed. Such ordinary income will be subject to applicable withholding and employment taxes. However, with respect to NSOs granted at less than fair market value which are subject to the requirements of Section 409A of the Code, it is intended that, the Individual Stock Option Agreement will contain such terms and conditions as are required under said Section 409A including without limitation provisions applicable to the vesting and exercise of such NSOs such that taxation will not occur until exercise of these options under the general rules for NSOs granted at fair market value.

The foregoing summary assumes that stock options are exercised for substantially vested stock. Where a stock option is exercised for Restricted Stock, as is permitted by the 2005 Plan, the tax treatment will differ from the treatment summarized above. In general, a participant who exercises a NSO for Restricted Stock will have income taxable at ordinary income rates only when the stock vests, in an amount equal to the fair market value of the stock at time of vesting less the exercise price. However, the participant may make a special election to have the income measured and taken into account, instead, at time of exercise. In either case, a corresponding deduction will be available to the Company. In the case of a participant who exercises an ISO for Restricted Stock, the determination of "alternative minimum taxable income" (relevant in determining whether an alternative minimum tax must be paid) will follow rules similar to the rules for determining ordinary income in the case of the exercise of a NSO. For federal income tax purposes, the exercise of an ISO for Restricted Stock will be treated the same as the exercise of an ISO for substantially vested stock, provided that the shares are held for the requisite one-year and two-year holding periods described above, but further provided that an election is not available with respect to the early recognition of ordinary income upon exercise.

Specific provisions regarding the impact of a change in control of the Company on any award granted under the 2005 Plan will, to the extent necessary, comply with the requirements of Section 409A of the Code and as set forth in more particularity in the Individual Option and/or Stock Award Agreement.

The Code also limits to \$1 million the deduction the Company may claim for compensation paid annually to any of its top five officers, subject to a number of exceptions. The deduction limitation rules provide an exemption for compensation attributable to the exercise of non-discounted stock options that satisfy certain requirements. Stock options awarded under the 2005 Plan are intended to qualify for this exemption.

Stock Awards

Persons receiving Common Stock pursuant to an Award generally will recognize compensation income equal to the fair market value of the shares received, reduced by any purchase price paid. Such compensation income will be taxed at ordinary income rates and subject to applicable withholdings and employment taxes. The Company generally should be entitled to a corresponding deduction for federal income tax purposes when such person recognizes compensation income. When such Common Stock is sold, the seller generally will recognized capital gain or loss equal to the difference between the amount realized upon the sale and the seller's adjusted tax basis in the Common Stock (generally, the amount that the seller paid for such stock plus the amount taxed to the seller as compensation income). Special rules apply if the Common Stock acquired pursuant to an Award is subject to vesting, or is subject to restrictions on resale under federal securities laws applicable to directors, officers or 10% shareholders. Deferred Stock issued pursuant to an Award may also be subject to special rules. In addition, any award issued pursuant to the 2005 Plan, except ISOs and NSOs granted at fair market value, may be subject to the requirements of Section 409A of the Code and accordingly, subject to special rules.

Statutory Requirements and the Subsequent Amendment

The 2005 Plan and the grant of any award thereunder is intended, to the extent applicable, to constitute good faith compliance with the requirements of the American Jobs Creation Act, specifically with respect to the definition of deferred compensation and the provisions of Section 409A of the Code. To the extent required by guidance to be issued subsequent to this filing, whether statutory or regulatory, the Company will make such amendments and/or modifications as are necessary to maintain compliance with the provisions and requirements of said Section 409A.

OTHER MATTERS

Deadline for Stockholder Proposals

Under SEC Rule 14a-8, stockholder proposals for the Annual Meeting of Stockholders to be held in 2008 will not be included in the proxy statement for that meeting unless the proposal is proper for inclusion in the proxy statement and for consideration at the next Annual Meeting of Stockholders, and is received by our Secretary at our executive offices, no later than July 3, 2008. Stockholders must also follow the other procedures prescribed in SEC Rule 14a-8 under the Exchange Act, as well as our By-Laws, which contain requirements that are separate and apart from the SEC requirements of Rule 14a-8. Our By-Laws provide that stockholders desiring to bring business before the 2007 Annual Meeting, including nomination of a person for election to our Board of Directors, must provide written notice to our Secretary at our executive offices no earlier than 75 days, and no later than 45 days, before the one year anniversary of the mailing of this proxy statement. The written notice must include the information required by Section 2.4 of the By-Laws: (a) as to each person whom the stockholder proposes to nominate for election or reelection as a director, all information relating to such person as would be required to be disclosed in solicitations of proxies for the election of such nominee as a director pursuant to Regulation 14A under the Exchange Act, and such person's written consent to serve as a director if elected; (b) as to any other business that the stockholder proposes to bring before the meeting, a brief description of such business, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; and (c) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made (i) the name and address of such stockholder, as they appear on our books, and of such beneficial owner, (ii) the class and number of shares of the Company that are owned beneficially and of record by such stockholder and such beneficial owner, and (iii) whether either such stockholder or such beneficial owner intends to deliver a proxy statement and form of proxy to holders of, in the case of a proposal, at least the percentage of our voting shares required under applicable law to carry the proposal or, in the case of a nomination or nominations, a sufficient number of holders of our voting shares to elect such nominee or nominees.

Householding of Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports. This means that only one copy of our proxy statement or annual report may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you if you notify our Secretary at our executive offices. If you wish to receive separate copies of the annual report and proxy statement in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker, or other nominee record holder, or you may contact us at our executive offices.

Financial Statements and Exhibits to Form 10-KSB

Our financial statements are contained in our Annual Report on Form 10-KSB for our fiscal year ended December 31, 2006 that was filed with the Securities and Exchange Commission on March 9, 2007, a copy of which is made available with this proxy statement. Such report and the financial statements contained therein are not to be considered as a part of this soliciting material.

The Form 10-KSB made available with this proxy statement does not include copies of the exhibits to that filing. We will furnish any such exhibit upon payment of a reasonable fee by request sent to us, c/o Corporate Secretary, DOR BioPharma, Inc., 1101 Brickell Avenue, Suite 701-S, Miami, Florida 33131.
