We have audited the accompanying statements of net assets available for plan benefits of the Edison 401(k) Savings Plan (the "Plan") as of December 31, 2009 and 2008 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal controls over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits as of December 31, 2009 and 2008, and the changes in net assets available for plan benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

- Plan Description The following description of the Edison 401(k) Savings Plan (the "Plan"), provides only general information. The Plan sponsor is the Southern California Edison Company (the "Plan Sponsor"). Participants should refer to the summary plan description and Plan document, as amended, for a more complete description of the Plan's provisions.

Nature of Plan

Eligibility

The Plan is a defined-contribution plan with a 401(k) feature, in which qualifying full-time and part-time employees of Edison International (the "Company") and many of its subsidiary companies are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. An employee, as defined by the Plan document, is eligible to participate in the Plan immediately upon employment.

Contributions

Subject to statutory limits, all participants may defer up to 84 percent of eligible pay. Participating employers provide matching contributions up to 6.0 percent of a participant's eligible pay. Employees who attain age fifty before the close of a Plan year are allowed to make catch-up contributions subject to IRS limitations. The Plan was amended effective January 1, 2009 to provide that most participants may designate certain contributions under the Plan as Roth elective deferrals, and make and receive Roth rollovers. Certain participating subsidiaries also provide a fixed profit sharing contribution of 3.0 percent of eligible pay each pay period and a variable profit sharing contribution annually (if certain business objectives are reached) to eligible employees. The Plan also accepts rollover contributions from other qualified plans.

Vesting

Participants immediately vest in their contributions plus actual earnings thereon. Employer contributions plus actual earnings thereon vest at a rate of 20 percent per year. After five years of service or reaching age 65, all existing and future employer contributions are fully vested.

Notes to Financial Statements (Continued)

Page 7

1. Plan Description Forfeitures (Continued)

At December 31, 2009, and 2008, the unused portion of forfeited non-vested accounts totaled \$7,595, and \$6,256, respectively. These accounts are used to reduce future employer contributions. During 2009, employer contributions were reduced by \$882,145 from forfeited non-vested accounts.

Plan Trust

Plan assets are held in trust with State Street Bank and Trust Company (the "Trustee") for the benefit of participants and their beneficiaries. The mutual covenants to which the Plan Sponsor and the Trustee agree are disclosed in the trust agreement between the Plan Sponsor and the Trustee.

Plan Administration

The Plan is administered by the Southern California Edison Company Benefits Committee (the "Plan Administrator"). Hewitt Associates LLC is the Plan's record keeper. As of December 31, 2009 and 2008, the Plan provided investment choices in 41 and 43 investment funds, respectively. The Plan provides to participants a detailed description of each investment fund choice and lists the respective

Edgar Filing: EDISON INTERNATIONAL - Form 11-K

investment manager.

Administrative and Investment Expenses

The Plan Sponsor pays the cost of administering the Plan, including fees and expenses of the Trustee and record keeper. The fees, taxes and other expenses incurred by the Trustee or investment managers in making investments are paid out of the applicable investment funds. These expenses also include brokerage fees for sales or purchases of Edison International Common Stock on the open market. No additional costs are incurred in connection with sales of Edison International Common Stock within the trust or the transfer of assets between funds.

Mutual funds pay fees to the Plan record keeper for administrative services to participants that would otherwise have to be provided by the mutual funds. The majority of fees received by the Plan record keeper are used to reduce the record keeping and communication expenses of the Plan paid by the Plan Sponsor. See Note 7 for a discussion of party-in-interest transactions.

1. Plan Description Participant Accounts
(Continued)

Each participant account is adjusted for the participant's contribution, the employer's contribution, if applicable, and allocations of investment earnings/losses, and redemption fees, if applicable. Allocation of earnings/losses is based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Participant Loans

Participants may borrow from their account, a minimum of \$1,000 to a maximum of \$50,000, with certain restrictions. Loan transactions are treated as a transfer from (to) the investment fund to (from) participant loans. Loan terms range from one to four years for general purpose loans or up to 15 years for the purchase of a primary residence. Loans bear interest at prime rate plus one percent. Interest rates on outstanding loans range from 4.25 percent to 10.5 percent as of December 31, 2009 and mature on various dates through November 2024. Principal and interest are paid ratably through payroll deductions. Some separated participants may repay loan obligations directly, rather than through payroll deductions. Participant loans amounted to approximately \$83,350,000 and \$73,260,000 as of December 31, 2009, and 2008, respectively.

Distribution to Participants

Account balances are distributed as soon as practicable after a participant dies, becomes entitled to a distribution and requests a distribution, or terminates employment with an account balance of \$5,000 or less. Participants may otherwise delay distribution, subject to the minimum distribution requirements under Internal Revenue Code Section 401(a)(9). The Plan was amended effective 2010 to require most terminated participants to receive their entire nonforfeitable account balance no later than the end of the year in which they attain age 70-1/2. Prior to 2010, participants were allowed to choose a lump sum, partial distribution or an installment form of payment. The Plan was amended to eliminate partial and installment distribution options for most participants effective 2010. In-service withdrawals may be

1. Plan Description taken from after-tax contributions or for certain financial hardships. The Plan was amended in 2008, 2009, and 2010 to allow additional in-service withdrawals for most participants who have attained age 59-1/2. Participants taking in-service withdrawals are required to pay applicable taxes on the withdrawals and may be subject to penalty taxes for early withdrawals taken prior to age 59-1/2. Participants who terminate employment with a vested account balance greater than \$1,000 but less than or equal to \$5,000 will have their vested account balance automatically rolled over to individual retirement accounts ("IRA") selected by the Chair or Secretary of the Plan Administrator, unless the participants make a timely distribution election.

Profit Sharing

Certain non-represented employees of Edison Mission Group Inc.'s ("EMG") participating subsidiaries are eligible for two types of profit sharing contributions:

- (i) Fixed profit sharing is comprised of a 3.0 percent profit sharing contribution each pay period to the Plan on behalf of eligible employees. Fixed profit sharing contributions in 2009 amounted to \$2,779,328.
- (ii) Variable profit sharing is comprised of an additional annual profit sharing contribution to the Plan on behalf of eligible employees if certain business objectives are reached. Variable profit sharing contributions made in 2010 and 2009 for the 2009 and 2008 plan years were 4.0% and 3.25% of eligible earnings for eligible EMG employees for a total amount of \$3,512,696 and \$2,820,832, respectively. Such amounts are presented as "Profit sharing receivable" on the

Statements of Net Assets Available for Plan Benefits as of December 31, 2009 and 2008, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are presented on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("U.S.A.") applicable to employee benefit plans and ERISA.

Edison 401(k) Savings Plan

Notes to Financial Statements (Continued)

Page 10

2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S.A. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

New Accounting Pronouncements

As of December 31, 2009, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("Codification") which became the single source of authoritative non-governmental accounting principles generally accepted in the United States of America ("GAAP"), superseding various existing authoritative accounting pronouncements. The Codification establishes one level of authoritative GAAP. All other literature is considered non-authoritative. There were no changes to the Plan's financial statements due to the implementation of the Codification other than changes in reference to various authoritative accounting pronouncements in the financial statements.

As of December 31, 2009, the Plan adopted FASB updated guidance regarding fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent). This update applies to investments that do not have a readily determinable fair value and are held by an entity that is required to report investments assets at fair value. This update creates a practical expedient to measure the fair value of such investments on the basis of the net asset value per share (or its equivalent) and requires disclosures by major category of the investments about the attributes of investments, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investees. The adoption of this update did not materially impact the Plan's

financial statements.

Edison 401(k) Savings Plan

Notes to Financial Statements (Continued)

Page 11

2. Summary
of Significant
Accounting
Policies
(Continued)

In January, 2010, the FASB issued updated guidance to improve disclosures regarding the fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of financial position. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in the Level 3 roll forward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure-related, it will not have a material impact on the Plan's financial statements.

Risks and Uncertainties

The Plan's investment in Edison International Common Stock amounted to approximately \$843,338,000 and \$762,101,000 as of December 31, 2009, and 2008, respectively. Such investments represented approximately 25 and 28 percent of the Plan's total net assets as of December 31, 2009, and 2008, respectively. For risks and uncertainties regarding investment in the Company's common stock, participants should refer to the annual report on Form 10-K for the period ended December 31, 2009, and the quarterly report on Form 10-Q for the period ended March 31, 2010, of Edison International, and its affiliate entities listed below:

2. Summary
of Significant
Accounting
Policies
(Continued)

The Plan provides for various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan participates in various investment options that comprise securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S.A. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S.A. companies.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value or estimated fair value. Investments in mutual funds valued at quoted market prices represent units held by the Plan at year end. Investments in the common collective funds invest in premixed portfolios and institutional funds (see Note 4). Investments in the common collective funds are valued at net asset value of shares held by the Plan at year-end. Edison International Common Stock is valued at its quoted market price at year-end. Participant loans are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant loans that are in default as provided in the Plan document, are treated as deemed distributions for tax purposes and also reported as such in the Form 5500. Management has determined these loans in default as uncollectible. For the year ended December 31, 2009, \$17,559 of participant loans in default were deemed to be uncollectible and written-off. Such amount is included as loans in default in the Statement of Changes in Net Assets Available for Plan Benefits.

2. Summary of Significant Accounting Policies (Continued) Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Distributions to Participants

Distributions to participants, other than loans, are recorded when paid.

Fair Value Measurements

Financial assets and liabilities that are re-measured and reported at fair value at each reporting period are classified and disclosed on one of the following three levels:

- o Level 1 - Quoted prices in active markets for identical assets.
- o Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- o Level 3 - Inputs that are unobservable for the assets and that are significant to the fair value of the assets.

Plan assets carried at fair value consist of the following investments: Edison International Common Stock, a money market fund, common/collective funds and mutual funds. Edison International common stock and mutual funds are classified as Level 1 as fair value is determined by observable, unadjusted quoted market prices in active or highly liquid and transparent markets. Common/collective funds are valued at the net asset value of shares held by the Plan. Although common/collective funds and the money market fund fair values are determined by observable prices, they are classified as Level 2 because

investments in equity mutual funds and equity common/collective funds are based upon stock-exchange prices. The fair value of the underlying investments in fixed-income common/collective funds and fixed-income mutual funds are based on evaluated prices that reflect significant observable market information such as reported trades, actual trade information of similar securities, benchmark yields, broker/dealer quotes, issuer spreads, bids, offers and relevant credit information.

3. Investment Elections The Trustee invests contributions in accordance with participant instructions.

Participants may elect changes to their investment mix effective each business day, with certain restrictions. The Plan imposes a seven-day trading restriction for most participants that applies to all funds except the Edison International Common Stock Fund. Reallocation elections are also subject to trading restrictions, redemption fees, or other measures imposed by investment fund managers. Participants may effect changes to their deferral percentages and deferral investment elections coincident with their pay frequency.

4. Investment Options The transfer of a participant's investment from one fund to any other fund is based on the net asset value of the units allocated to the participant's account, as of close of market on the date of transfer.

As of December 31, 2009, all participants were able to choose from among 41 investment fund offerings. These investment funds consisted of the following:

- o Three Pre-mixed Portfolios - Funds are invested in portfolios which include U.S. stocks, non-U.S. stocks and corporate and government bonds;

4. Investment Options (Continued)
- o Six Institutional Funds - Funds are invested in a broad selection of asset classes; and
 - o Thirty Two Mutual Funds - Funds are invested in a variety of retail mutual funds from multiple asset classes.

The Plan Sponsor's Trust Investment Committee may direct the Trustee to establish new investment funds or discontinue existing ones as well as change the investment medium for each investment fund. Participants should refer to the summary plan description for a more complete discussion of the various investment options.

6. Reconciliation of Financial Statements to Form 5500 (Continued)

For the year ended December 31, 2009

Edgar Filing: EDISON INTERNATIONAL - Form 11-K

(in 000's)

| | |
|--|------------|
| Benefits paid to participants per the financial statements | \$ 151,967 |
| Add: Amounts allocated to withdrawing participants at December 31, 2009 | 879 |
| Less: Amounts allocated to withdrawing participants at December 31, 2008 | (324) |

 Benefits paid to participants per the Form 5500 \$ 152,522

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not paid as of that date.

7. Party-In-Interest Transactions The Money Market Fund is managed by State Street Bank and Trust Company, which also serves as the Plan's Trustee. Fees earned by the Trustee in its capacity as fund manager for the Plan were \$494,798 for 2009 and were reported as management fees on the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan's investment options include the Company's Common Stock as a fund option. See Note 2 for a discussion of the amount of the Plan's investment in the Company's Common Stock. In addition, State Street Global Advisors, an affiliate of State Street Bank and Trust Company, is the investment manager of the Edison International Common Stock Fund. Fees earned by State Street Global Advisors in its capacity as the investment manager of the Edison International Common Stock Fund were \$116,772 for 2009 and were reported as management fees on the Statement of Changes in Net Assets Available for Plan Benefits.

Fees paid by the Plan Sponsor for administrative and other services rendered to the Plan were based on customary rates for such services. Various mutual funds offered as investment options in the Plan transfer to Hewitt Associates, the Plan's record keeper, certain fees they charge to Plan participants who invest in the mutual funds (these fees are charged to all investors in the mutual funds).

7. Party-In-Interest Transactions (Continued) These transferred fees, which totaled \$1,376,220 for 2009, were used to reduce Hewitt Associates' charge to the Plan Sponsor for services Hewitt Associates provided to the Plan.

See Note 10 below regarding Edison International Common Stock Fund dividend payments.

8. Plan Termination Although it has not expressed intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts. The Trust will continue after termination until all Trust assets have been distributed to participants and their beneficiaries.
9. Tax Status The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated May 22, 2002, that the Plan and related trust as amended through November 29, 2001, are designed in accordance with the applicable qualification sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan, as amended, is designed in compliance with the applicable qualification requirements of the IRC. In addition, the Plan Administrator is not aware of any operational issues that will prevent the continuation of the Plan's qualified tax status.
10. Employee Stock Ownership Plan The Edison International Common Stock Fund constitutes an employee stock ownership plan that allows for the current distribution of dividends to all participants. Such distributions paid from Plan net assets amounted to \$5,822,621 for the year ended December 31, 2009 and were included in distributions to participants in the accompanying financial statements. On December 10, 2009, the board of directors of Edison International declared a common stock dividend of \$0.315 per share payable on January 31, 2010, to the shareholders of record as of December 31, 2009. As the record date was at year end, dividend income of \$0.315 per share amounting to \$7,562,288 was accrued and included in dividends receivable in the accompanying financial statements at December 31, 2009.
