Denny's Corporation and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1. Introduction and Basis of Presentation

Denny's Corporation, or Denny's, is one of America's largest family-style restaurant chains. At June 27, 2012, the Denny's brand consisted of 1,684 restaurants, 1,507 (89%) of which were franchised/licensed restaurants and 177 (11%) of which were company-owned and operated.

The following table shows the unit activity for the quarter and two quarters ended June 27, 2012 and June 29, 2011:

	Quarter Ended		Two Quarters Ended

Our unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Therefore, certain information and notes normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. In our opinion, all adjustments considered necessary for a fair presentation of the interim periods presented have been included. Such adjustments are of a normal and recurring nature. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above-described items, are reasonable.

These interim condensed consolidated financial statements should be read in conjunction with our consolidated financial statements and notes thereto for the year ended December 28, 2011 and the related Management's Discussion and Analysis of Financial Condition and Results of Operations, both of which are contained in our Annual Report on Form 10-K for the fiscal year ended December 28, 2011. The results of operations for the interim periods presented are not necessarily indicative of the results for the entire fiscal year ending December 26, 2012.

Note 2. Summary of Significant Accounting Policies

Newly Adopted Accounting Standards

Fair Value

ASU No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs"

Effective December 29, 2011, we adopted ASU 2011-04, which provides a consistent definition of fair value and ensures that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. The amended guidance changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The adoption did not have a material impact on the disclosures included in our Condensed Consolidated Financial Statements.

Comprehensive Income

ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income"

Effective December 29, 2011, we adopted ASU 2011-05, which amends existing guidance to allow only two options for presenting the components of net income and other comprehensive income: (1) in a single continuous statement of comprehensive income or (2) in two separate but consecutive financial statements consisting of an income statement followed by a statement of other comprehensive income. ASU No. 2011-05 requires retrospective application. The adoption concerns presentation and disclosure only and did not have an impact on our financial position or results of operations.

ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05"

Effective December 29, 2011, we adopted ASU 2011-12, which effectively defers the changes in ASU 2011-05 that relate to the presentation of reclassification out of accumulated other comprehensive income. All other requirements of ASU 2011-05 are not affected by this update. The adoption did not have a material impact on our Condensed Consolidated Financial Statements.

Goodwill

ASU No. 2011-08, "Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment"

Effective December 29, 2011, we adopted ASU 2011-08, which modifies the impairment test for goodwill. Under the new guidance, an entity is permitted to make a qualitative assessment of whether it is more likely than not that the reporting unit's fair value is less than the carrying value before applying the two-step goodwill impairment model that is currently in place. If it is determined through the qualitative assessment that a reporting unit's fair value is more likely than not greater than its carrying value, the remaining impairment steps would be unnecessary. The qualitative assessment is optional, allowing companies to go directly to the quantitative assessment. The adoption did not have any impact on our Condensed Consolidated Financial Statements.

Accounting Standards to be Adopted

We reviewed newly issued accounting pronouncements and concluded that they are either not applicable to our business or that no material effect is expected on the financial statements as a result of future adoption.

Note 3. Receivables

Receivables were comprised of the following:

	June 27, 2012 (In thousands)	December 28, 2011
Current assets:		
Receivables:		
Trade accounts receivable from franchisees	\$9,663	\$9,452
Notes receivable from franchisees and third parties	593	992
Vendor receivables	1,157	2,311
Credit card receivables	895	1,137
Other	1,495	1,087
Allowance for doubtful accounts	(22) (8
	\$13,781	\$14,971
Direct financing lease receivables (included as a component of prepaid and other current assets)	\$82	\$82
Noncurrent assets (included as a component of other noncurrent assets):		
Notes receivable from franchisees and third parties	\$593	\$560
Direct financing lease receivables	6,201	5,496
	\$6,794	\$6,056

We recognized interest income on notes receivable from franchisees of less than \$0.1 million for the quarter and two quarters ended June 27, 2012 and \$0.1 million for the quarter and two quarters ended June 29, 2011, respectively. These amounts are included as a component of interest expense, net on our Condensed Consolidated Statements of Comprehensive Income. We recognized interest income on direct financing leases of \$0.3 million and \$0.6 million for the quarter and two quarters ended June 27, 2012 and \$0.3 million and \$0.5 million for the quarter and two quarters ended June 29, 2011, respectively. These amounts are included as a component of interest expense, net on our Condensed Consolidated Statements of Comprehensive Income.

Note 4. Assets Held for Sale

Assets held for sale of \$0.5 million and \$2.4 million as of June 27, 2012 and December 28, 2011, respectively, consist of restaurants to be sold to franchisees. As a result of classifying certain assets as held for sale, we recognized impairment charges of \$0.1 million and \$0.1 million for the quarter and two quarters ended June 27, 2012, respectively. This expense is included as a component of operating (gains), losses and other charges, net in our Consolidated Statements of Comprehensive Income. There were no impairment charges recognized related to assets held for sale for the quarter and two quarters ended June 29, 2011.

Note 5. Goodwill and Other Intangible Assets

The following table reflects the changes in carrying amounts of goodwill:

	June 27, 2012 (In thousands)
Balance, beginning of year	\$30,764
Write-offs and reclassifications associated with sale of restaurants	(288

Estimated net cash payments related to exit cost liabilities are as follows:

	(In thousands)
Remainder of 2012	\$975
2013	1,053
2014	771
2015	394
2016	275
Thereafter	1,559
Total	5,027
Less imputed interest	1,054
Present value of exit cost liabilities	\$3,973

As of June 27, 2012 and December 28, 2011, we had accrued severance and other restructuring charges of \$1.0 million and less than \$0.1 million, respectively. The balance as of June 27, 2012 is expected to be paid during the next 12 months.

Note 7. Fair Value of Financial Instruments

Fair Value of Assets and Liabilities Measured on a Recurring and Nonrecurring Basis

Financial assets and liabilities measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements as of June 27, 2012				Valuation Technique
	Total	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(In thousands)				
Deferred compensation plan investments	\$5,858	\$ 5,858	\$—	\$—	market approach
Interest rate caps	\$28	\$ —	\$28	\$—	income approach
Total	\$5,886	\$ 5,858	\$28	\$—	

Fair Value Measurements as of December 28, 2011

	Total	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Valuation Technique
	(In thousands)				
Deferred compensation plan investments	\$4,935	\$ 4,935	\$—	\$—	market approach
Total	\$4,935	\$ 4,935	\$—	\$—	

In addition to the financial assets and liabilities that are measured at fair value on a recurring basis, we measure certain assets and liabilities at fair value on a nonrecurring basis. As of June 27, 2012, impaired assets related to underperforming units were written down to a fair value of \$0 based on the income approach. As of June 29, 2011, there were no such nonrecurring measurements.

Disclosures of Fair Value of Other Assets and Liabilities

The liabilities under our credit facility and capital leases are carried at historical cost in our Condensed Consolidated Balance Sheets. The estimated fair values of our senior secured term loan and capital lease obligations approximated their carrying values as of June 27, 2012.

Note 8. Long-Term Debt

On April 12, 2012, Denny's Corporation and certain of its subsidiaries refinanced our credit facility (the "Old Credit Facility") and entered into a new five-year senior secured credit agreement in an aggregate principal of \$250 million (the "New Credit Facility"). The New Credit Facility is comprised of a \$190 million senior secured term loan and a \$60 million senior secured revolver (with a \$30 million letter of credit sublimit). A commitment fee of 50 basis points is paid on the unused portion of the revolving credit facility. Borrowings for the term loan will bear a tiered interest rate based on the Company's consolidated leverage ratio and was initially set at LIBOR plus 300 basis points. The New Credit Facility does not contain an interest rate floor for either the term loan or the revolver. It includes an accordion feature that would allow us to increase the size of the facility to \$300 million. The maturity date for the New Credit Facility is April 12, 2017.

The New Credit Facility was used to refinance the Old Credit Facility and is available for working capital, capital expenditures and other general corporate purposes. The New Credit Facility is guaranteed by the Company and its material subsidiaries and is secured by substantially all of the assets of the Company and its subsidiaries, including the stock of the Company's subsidiaries. It includes negative covenants that are usual for facilities and transactions of this type. The New Credit Facility also includes certain financial covenants with respect to a maximum consolidated leverage ratio, a minimum consolidated fixed charged coverage ratio and maximum capital expenditures.

The term loan under the New Credit Facility amortizes \$19.0 million annually, payable in quarterly installments, with all remaining amounts due on the maturity date. We will be required to make certain mandatory prepayments under certain circumstances and will have the option to make certain prepayments under the New Credit Facility. The optional prepayments can be applied against future amortization. The New Credit Facility includes events of default (and related remedies, including acceleration and increased interest rates following an event of default) that are usual for facilities and transactions of this type.

On April 13, 2012, we entered into interest rate hedges that cap the LIBOR rate on borrowings for the term loan under the New Credit Facility during the first two years of the term loan. The 200 basis point LIBOR cap applies to \$150 million of term loan borrowings during the first year and \$125 million of term loan borrowings during the second year.

As a result of the debt refinancing, we recorded \$7.9 million of losses on early extinguishment of debt, consisting primarily of \$1.1 million of transaction costs, \$4.7 million from the write-off of deferred financing costs and \$2.0 million from the write-off of an original issue discount ("OID") related to the Old Credit Facility. These losses are included as a component of other nonoperating expense in the condensed Consolidated Statements of Comprehensive Income.

As of June 27, 2012, under the New Credit Facility, we had outstanding term loan borrowings of \$183.0 million and outstanding letters of credit under the revolving letter of credit facility of \$26.5 million. There were no revolving loans outstanding at June 27, 2012. These balances resulted in availability of \$33.5 million under the revolving facility. The weighted-average interest rate under the term loan was 3.25% and 5.25%, as of June 27, 2012 and December 28, 2011.

During the two quarters ended June 27, 2012, prior to the April 12, 2012 refinancing, we paid \$8.0 million (which included \$7.4 million of prepayments and \$0.6 million of scheduled payments) on the term loan under the Old Credit Facility. As a result of these prepayments, during the two quarters ended June 27, 2012, we recorded \$0.2 million of losses on early extinguishment of debt resulting from the write-off of \$0.1 million in deferred financing costs and \$0.1 million in OID related to the Old Credit Facility. These losses are included as a component of other nonoperating expense in our condensed Consolidated Statements of Comprehensive Income.

During the quarter ended June 27, 2012, subsequent to the April 12, 2012 refinancing, we paid \$7.0 million (which included \$2.3 million of prepayments and \$4.8 million of scheduled payments) on the term loan under the New Credit Facility.

Aggregate annual maturities of long-term debt, excluding capital lease obligations, at June 27, 2012 are as follows:

	(In thousands)
Remainder of 2012	\$7,304
2013	19,000
2014	19,000
2015	19,000
2016 and thereafter	118,750
Total long-term debt, excluding capital lease obligations	\$183,054

Note 9. Defined Benefit Plans

The components of net periodic benefit cost were as follows:

	Pension Plan		Other Defined Benefit Plans

We made contributions of \$0.8 million and \$0.4 million to our qualified pension plan during the two quarters ended June 27, 2012 and June 29, 2011, respectively. We made contributions of \$0.1 million to our other defined benefit plans during both the two quarters ended June 27, 2012 and June 29, 2011. We expect to contribute an additional \$1.1 million to our qualified pension plan and an additional \$0.1 million to our other defined benefit plans over the remainder of fiscal 2012.

Additional minimum pension liability of \$24.3 million and \$24.8 million is reported as a component of accumulated other comprehensive loss in the Condensed Consolidated Statement of Shareholders' Deficit as of June 27, 2012 and December 28, 2011.

Note 10. Share-Based Compensation

Total share-based compensation cost included as a component of net income was as follows:

	Quarter Ended		Two Quarters Ended	
	June 27, 2012	June 29, 2011	June 27, 2012	June 29, 2011
	(In thousands)

Board deferred stock units	181	183	200	291
Total share-based compensation	\$876	\$1,176	\$1,666	\$2,149

Stock Options

As of June 27, 2012, we had approximately \$1.0 million of unrecognized compensation cost related to unvested stock option awards outstanding, which is expected to be recognized over a weighted average of 1.3 years.

Restricted Stock Units

In February 2012, we granted approximately 0.4 million performance shares and related performance-based target cash awards of \$2.0 million to certain employees. As these awards contain a market condition, a Monte Carlo valuation was used to determine the performance shares' grant date fair value of \$6.05 per share and the payout probability of the target cash awards. The awards granted to our named executive officers also contain a performance condition based on certain operating measures for the fiscal year ended December 26, 2012. The performance period is the three year fiscal period beginning December 29, 2011 and ending December 31, 2014. The performance shares and cash awards will vest and be earned (from 0% to 200% of the target award for each such increment) at the end of the performance period based on the Total Shareholder Return of our stock compared to the Total Shareholder Returns of a group of peer companies.

During the two quarters ended June 27, 2012, we made payments of \$0.4 million in cash and issued 0.1 million shares of common stock related to restricted stock unit awards.

As of June 27, 2012, we had approximately \$3.7 million of unrecognized compensation cost related to all unvested restricted stock unit awards outstanding, which is expected to be recognized over a weighted average of 1.6 years.

Board Deferred Stock Units

During the two quarters ended June 27, 2012, we granted 0.1 million deferred stock units (which are equity classified) with a weighted average grant date fair value of \$4.05 per unit to non-employee members of our Board of Directors. A

director may elect to convert these awards into shares of common stock either on a specific date in the future (while still serving as a member of the Board of Directors) or upon termination as a member of the Board of Directors. During the two quarters ended June 27, 2012, less than 0.1 million deferred stock units were converted into shares of common stock. As of June 27, 2012, we had approximately \$0.4 million of unrecognized compensation cost related to all unvested deferred stock unit awards outstanding, which is expected to be recognized over a weighted average of 0.8 years.

Note 11. Income Taxes

The provision for income taxes was \$3.2 million and \$7.1 million for both the quarter and two quarters ended June 27, 2012, respectively. The provision for income taxes was \$0.4 million and \$0.6 million for the quarter and two quarters ended June 29, 2011. For the 2012 periods, the difference in the overall effective tax rate from the U.S. statutory rate was due to discrete tax items, including a \$1.3 million out of period adjustment related to the reversal of a portion of the income tax benefit recorded in fourth quarter of 2011. We do not believe the out of period adjustment was material to any prior or current year financial statements or on earnings trends. In addition, a \$0.8 million current and deferred tax benefit was recorded. This benefit arose from additional state credits generated during the quarter ending June 27, 2012 related to prior years' activity. The provision for income taxes for the first two quarters of 2011 was determined using our effective rate estimated for the entire fiscal year.

Note 14. Share Repurchase

Our Old Credit Facility permitted and our New Credit Facility permits the payment of cash dividends and the purchase of Denny's stock subject to certain limitations. In April, 2011, we announced that our Board of Directors approved a share repurchase program authorizing us to repurchase up to an additional 6.0 million shares of our Common Stock. Under the program, we may, from time to time, purchase shares in the open market (including pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Securities Exchange Act of 1934) or in privately negotiated transactions, subject to market and business conditions. As of June 27, 2012, we had repurchased 5.1 million shares of Common Stock for approximately \$19.9 million and there were 0.9 million shares remaining to be repurchased under this share repurchase program.

On May 18, 2012, we announced that our Board of Directors approved a new share repurchase program authorizing us to repurchase up to an additional 6.0 million shares of our Common Stock. Under this program, we may, from time to time, purchase shares in the open market (including pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Securities Exchange Act of 1934) or in privately negotiated transactions, subject to market and business conditions. There were no shares repurchased under this program as of June 27, 2012.

Note 15. Commitments and Contingencies

There are various claims and pending legal actions against or indirectly involving us incidental to and arising out of the ordinary course of the business. In the opinion of management, based upon information currently available, the ultimate liability with respect to these proceedings and claims will not materially affect the Company's consolidated results of operations or financial position. We record legal settlement costs as other operating expenses in our Condensed Consolidated Statements of Comprehensive Income as those costs are incurred.

Note 16. Subsequent Events

We performed an evaluation of subsequent events and determined that no events required disclosure.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following discussion is intended to highlight significant changes in our financial position as of June 27, 2012 and results of operations for the quarter and two quarters ended June 27, 2012 compared to the quarter and two quarters ended June 29, 2011. The forward-looking statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations, which reflect our best judgment based on factors currently known and are intended to speak only as of the date such statements are made, involve risks, uncertainties, and other factors which may cause our actual performance to be materially different from the performance indicated or implied by such statements. Such factors include, among others: competitive pressures from within the restaurant industry; the level of success of our operating initiatives and advertising and promotional efforts; adverse publicity; changes in business strategy or development plans; terms and availability of capital; regional weather conditions; overall changes in the general economy (including with regard to energy costs), particularly at the retail level; political environment (including acts of war and terrorism); and other factors included in the discussion below, or in Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and Part I. Item 1A. Risk Factors, contained in our Annual Report on Form 10-K for the year ended December 28, 2011.

Company Restaurant Operations

During the quarter ended June 27, 2012, same-store sales were flat, comprised of a 1.7% increase in guest check average, offset by a 1.6% decrease in guest counts. Company restaurant sales decreased \$12.8 million, or 12.3%, primarily resulting from a 36 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent units primarily resulted from the sale of company-owned restaurants to franchisees.

Total costs of company restaurant sales as a percentage of company restaurant sales decreased to 85.2% from 86.7%. Product costs increased to 24.9% from 24.6% primarily due to the impact of increased commodity costs. Payroll and benefits decreased to 40.1% from 40.8% primarily due to improved labor efficiency and favorable workers' compensation claims development. Occupancy costs increased to 6.8% from 6.5% primarily as a result of the negative development of certain general liability claims. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

	Quarter Ended		June 29, 2011		
	June 27, 2012				
	(Dollars in thousands)				
Utilities	\$3,592	3.9	% \$4,590	4.4	%
Repairs and maintenance	1,634	1.8	% 1,890	1.8	%

Legal settlement costs	71	0.1	% (14) 0.0	%
Other direct costs	3,516	3.9	% 4,892	4.7	%
Other operating expenses	\$12,202	13.4	% \$15,329	14.7	%

Utilities decreased 0.5 percentage points, primarily due to lower natural gas rates in the 2012 period. Other direct costs decreased 0.8 percentage points primarily as a result of higher new store opening expenses in the prior period.

Franchise Operations

Franchise and license revenue and related costs were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

	Quarter Ended		June 29, 2011		
	June 27, 2012				
	(Dollars in thousands)				
Royalties	\$20,874	62.3	% \$19,926	62.6	%
Initial and other fees	1,003	3.0	% 708	2.2	%
Occupancy revenue	11,615	34.7	% 11,198	35.2	%
Franchise and license revenue	\$33,492	100.0	% \$31,832	100.0	%
Occupancy costs	8,705	26.0	% 8,658	27.2	%
Other direct costs	2,681	8.0	% 2,427	7.6	%
Costs of franchise and license revenue	\$11,386	34.0	% \$11,085	34.8	%

Royalties increased by \$0.9 million, or 4.8%, primarily resulting from a 0.9% increase in same-store sales and a 51 equivalent unit increase in franchised and licensed units, as compared to the prior year. The increase in equivalent units primarily resulted from the sale of company-owned restaurants to franchisees and the conversion of restaurants at Pilot Flying J Travel Centers during 2011. Initial fees increased by \$0.3 million, or 41.7%. The increase in initial fees resulted from the higher number of restaurants sold to franchisees during the current year period, partially offset by the higher number of restaurants opened by franchisees during the prior year period. The increase in occupancy revenue of \$0.4 million, or 3.7%, is primarily the result of the sale of restaurants to franchisees over the last 12 months.

Costs of franchise and license revenue increased by \$0.3 million, or 2.7%. Occupancy costs remained relatively constant. Other direct costs increased by \$0.3 million, or 10.5%, primarily as a result of an increase in performance-based compensation. As a result, costs of franchise and license revenue as a percentage of franchise and license revenue decreased to 34.0% for the quarter ended June 27, 2012 from 34.8% for the quarter ended June 29, 2011.

Other Operating Costs and Expenses

Other operating costs and expenses such as general and administrative expenses and depreciation and amortization expense relate to both company and franchise operations.

General and administrative expenses were comprised of the following:

	Quarter Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Share-based compensation	\$876	\$1,176
Other general and administrative expenses	13,909	12,916
Total general and administrative expenses	\$14,785	\$14,092

The \$0.7 million increase in general and administrative expenses is primarily the result of a \$1.0 million increase in performance-based compensation, partially offset by a \$0.3 million decrease in share-based compensation.

Depreciation and amortization was comprised of the following:

	Quarter Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Depreciation of property and equipment	\$4,194	\$5,263
Amortization of capital lease assets	827	778
Amortization of intangible assets	806	1,193
Total depreciation and amortization expense	\$5,827	\$7,234

The overall decrease in depreciation and amortization expense is primarily due to the sale of company-owned restaurants to franchisees during fiscal 2011 and 2012.

Operating (gains), losses and other charges, net were comprised of the following:

	Quarter Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Gains on sales of assets and other, net	\$(4,908)	\$(879)
Restructuring charges and exit costs	882	402
Impairment charges	17	58
Operating (gains), losses and other charges, net	\$(4,009)	\$(419)

During the quarter ended June 27, 2012, we recognized gains of \$4.9 million, primarily resulting from the sale of restaurant operations to franchisees and the sale of two real estate assets. During the quarter ended June 29, 2011, we recognized gains of \$0.9 million, primarily resulting from the sale of a restaurant operation to a franchisee and the sale of one real estate asset.

Restructuring charges and exit costs were comprised of the following:

	Quarter Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Exit costs	\$327	\$251
Severance and other restructuring charges	555	151
Total restructuring and exit costs	\$882	\$402

Operating income was \$19.0 million for the quarter ended June 27, 2012 compared with \$13.7 million for the quarter ended June 29, 2011.

Interest expense, net was comprised of the following:

	Quarter Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Interest on credit facilities	\$1,708	\$3,034
Interest on capital lease liabilities	818	944
Letters of credit and other fees	390	461
Interest income	(337) (328
Total cash interest	2,579	4,111
Amortization of deferred financing costs	163	370
Amortization of debt discount	16	140
Interest accretion on other liabilities	235	280
Total interest expense, net	\$2,993	\$4,901

The decrease in interest expense resulted from a decrease in interest rates related to the 2012 refinancing of our credit facility, as well as debt reductions during 2011 and 2012.

Other nonoperating expense, net was \$8.2 million for the quarter ended June 27, 2012 compared with \$0.3 million for the quarter ended June 29, 2011. The change was primarily the result of \$7.9 million of expenses and write-offs of deferred financing costs and original issue discount related to our debt refinancing.

The provision for income taxes was \$3.2 million for the quarter ended June 27, 2012 compared to \$0.4 million for the quarter ended June 29, 2011. For the quarter ended June 27, 2012, the difference in the overall effective tax rate from the U.S. statutory rate was due to discrete tax items, including a \$1.3 million out-of-period adjustment related to the reversal of a portion of the income tax benefit recorded in fourth quarter of 2011. We do not believe the out-of-period adjustment was material to any prior or current year financial statements or on earnings trends. In addition, a \$0.8 million current and deferred tax benefit was recorded. This benefit arose from additional state credits generated during the quarter ending June 27, 2012 related to prior years' activity. The provision for income taxes for the quarter ended June 29, 2011 was determined using our effective rate estimated for the entire fiscal year.

Net income was \$4.6 million for the quarter ended June 27, 2012 compared with \$8.1 million for the quarter ended June 29, 2011 due to the factors noted above.

Company Restaurant Operations

During the two quarters ended June 27, 2012, we realized a 0.4% increase in same-store sales, comprised of a 2.0% increase in guest check average, partially offset by a 1.6% decrease in guest counts. Company restaurant sales decreased \$23.2 million, or 11.1%, primarily resulting from a 34 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent-units primarily resulted from the sale of company-owned restaurants to franchisees.

Total costs of company restaurant sales as a percentage of company restaurant sales decreased to 85.1% from 87.3%. Product costs increased to 24.9% from 24.6% primarily due to the impact of increased commodity costs. Payroll and benefits decreased to 40.1% from 41.5% primarily due to improved labor efficiency and favorable workers' compensation claims development. Occupancy costs remained flat at 6.5%. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

	Two Quarters Ended		June 29, 2011		
	June 27, 2012				
	(Dollars in thousands)				
Utilities	\$7,306	3.9	% \$8,979	4.3	%
Repairs and maintenance	3,322	1.8	% 3,732	1.8	%
Marketing	6,924	3.7	% 7,812	3.7	%
Legal	169	0.1	% 63	0.0	%
Other direct costs	7,376	4.0	% 10,000	4.8	%
Other operating expenses	\$25,097	13.5	% \$30,586	14.7	%

Utilities decreased 0.4 percentage points, primarily due to lower natural gas rates in the 2012 period. Other direct costs decreased 0.8 percentage points primarily as a result of higher new store opening expenses in the prior period.

Franchise Operations

Franchise and license revenue and costs of franchise and license revenue were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

	Two Quarters Ended		June 29, 2011		
	June 27, 2012				
	(Dollars in thousands)				
Royalties	\$41,401	62.7	% \$39,220	62.2	%
Initial fees	1,439	2.2	% 1,613	2.6	%
Occupancy revenue	23,227	35.1	% 22,249	35.2	%
Franchise and license revenue	\$66,067	100.0	% \$63,082	100.0	%
Occupancy costs	17,428	26.4	% 17,218	27.3	%
Other direct costs	5,270	8.0	% 5,432	8.6	%
Costs of franchise and license revenue	\$22,698	34.4	% \$22,650	35.9	%

Royalties increased by \$2.2 million, or 5.6%, primarily resulting from a 1.8% increase in same-store sales and a 51 equivalent unit increase in franchised and licensed units, as compared to the prior year. The increase in equivalent units primarily resulted from the sale of company-owned restaurants to franchisees and the conversion of restaurants at Pilot Flying J Travel Centers by franchisees during 2011. Initial fees decreased by \$0.2 million, or 10.8%. The

decrease in initial fees resulted from the higher number of restaurants opened by franchisees during the prior year period, partially offset by the higher number of restaurants sold to franchisees during the current year period. The increase in occupancy revenue of \$1.0 million, or 4.4%, is primarily the result of the sale of restaurants to franchisees over the last 12 months.

Costs of franchise and license revenue remained relatively constant. The increase in occupancy costs of \$0.2 million, or 1.2%, is primarily the result of the sale of restaurants to franchisees. Other direct costs decreased by \$0.2 million, or 3.0%, primarily as a result of a \$0.5 million franchisee settlement recorded during the prior year period, partially offset by an increase in performance-based compensation during the current year period. As a result, costs of franchise and license revenue as a percentage of franchise and license revenue decreased to 34.4% for the two quarters ended June 27, 2012 from 35.9% for the two quarters ended June 29, 2011.

Other Operating Costs and Expenses

Other operating costs and expenses such as general and administrative expenses and depreciation and amortization expense relate to both company and franchise operations.

General and administrative expenses are comprised of the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Share-based compensation	\$1,666	\$2,149
General and administrative expenses	28,782	26,082
Total general and administrative expenses	\$30,448	\$28,231

The \$2.2 million increase in general and administrative expenses is primarily the result of a \$1.5 million increase in performance-based compensation and increased payroll and benefit costs, partially offset by a \$0.5 million decrease in share-based compensation.

Depreciation and amortization is comprised of the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Depreciation of property and equipment	\$8,631	\$10,544
Amortization of capital lease assets	1,645	1,497
Amortization of intangible assets	1,611	2,381
Total depreciation and amortization expense	\$11,887	\$14,422

The overall decrease in depreciation and amortization expense is due primarily to the sale of company-owned restaurants to franchisees during fiscal 2011 and 2012.

Operating gains, losses and other charges, net are comprised of the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Gains on sales of assets and other, net	\$(6,863)	\$(1,875)
Restructuring charges and exit costs	2,149	869
Impairment charges	540	58
Operating (gains), losses and other charges, net	\$(4,174)	\$(948)

During the two quarters ended June 27, 2012, we recognized gains of \$6.9 million, primarily resulting from the sale of restaurant operations to franchisees and the sale of three real estate assets. During the two quarters ended June 29, 2011, we recognized gains of \$1.9 million, primarily resulting from the sale of restaurant operations to franchisees, the sale of one real estate asset and deferred gains related to a restaurant sold to a franchisee during a prior period.

Restructuring charges and exit costs were comprised of the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Exit costs	\$906	\$613
Severance and other restructuring charges	1,243	256
Total restructuring and exit costs	\$2,149	\$869

Severance and other restructuring charges for the two quarters ended June 27, 2012 includes charges related to the departure of the Company's former Chief Operating Officer.

Operating income was \$32.9 million for the two quarters ended June 27, 2012 and \$25.2 million for the two quarters ended June 29, 2011.

Interest expense, net is comprised of the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Interest on credit facilities	\$4,336	\$6,749
Interest on capital lease liabilities	1,787	1,952
Letters of credit and other fees	851	1,014
Interest income	(645)	(630)
Total cash interest	6,329	9,085
Amortization of deferred financing costs	503	662
Amortization of debt discount	137	284
Interest accretion on other liabilities	480	563
Total interest expense, net	\$7,449	\$10,594

The decrease in interest expense resulted from a decrease in interest rates related to the 2012 refinancing of our credit facility, as well as debt reductions during 2011 and 2012.

Other nonoperating expense, net was \$7.9 million for the two quarters ended June 27, 2012 compared with \$1.7 million for the two quarters ended June 29, 2011. The \$6.2 million change was primarily the result of \$7.9 million of expenses and write-offs of deferred financing costs and original issue discount related to our 2012 debt refinancing, partially offset by the recognition of \$1.4 million of costs related to the 2011 debt re-pricing in the prior year period.

The provision for income taxes was \$7.1 million for the two quarters ended June 27, 2012 compared to \$0.6 million the two quarters ended June 29, 2011. For the 2012 periods, the difference in the overall effective tax rate from the U.S. statutory rate was due to discrete tax items, including a \$1.3 million out-of-period adjustment related to the reversal of a portion of the income tax benefit recorded in fourth quarter of 2011. We do not believe the out-of-period adjustment was material to any prior or current year financial statements or on earnings trends. In addition, a \$0.8 million current and deferred tax benefit was recorded. This benefit arose from additional state credits generated during the quarter ending June 27, 2012 related to prior years' activity. The provision for income taxes for the first two quarters of 2011 was determined using our effective rate estimated for the entire fiscal year.

Net income was \$10.5 million for the two quarters ended June 27, 2012 compared with \$12.3 million for the two quarters ended June 29, 2011 due to the factors noted above.

Liquidity and Capital Resources

Our primary sources of liquidity and capital resources are cash generated from operations, borrowings under our credit facility (as described below) and, in recent years, cash proceeds from sales of restaurant operations to franchisees and sales of surplus properties, to the extent allowed by our credit facility. Principal uses of cash are operating expenses, capital expenditures and debt repayments.

The following table presents a summary of our sources and uses of cash and cash equivalents for the periods indicated:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Net cash provided by operating activities	\$26,228	\$24,935
Net cash provided by (used in) investing activities	9,016	(4,511)
Net cash used in financing activities	(27,987)	(36,561)
Net increase (decrease) in cash and cash equivalents	\$7,257	\$(16,137)

We believe that our estimated cash flows from operations for 2012, combined with our capacity for additional borrowings under our new credit facility, will enable us to meet our anticipated cash requirements and fund capital expenditures over the next twelve months.

Net cash flows provided by investing activities were \$9.0 million for the two quarters ended June 27, 2012. These cash flows include \$12.9 million in proceeds from asset sales and collections of notes receivable of \$1.5 million, partially offset by capital expenditures of \$4.3 million and issuances of notes receivable of \$1.1 million. Our principal capital requirements have been largely associated with the following:

	Two Quarters Ended	
	June 27, 2012	June 29, 2011
	(In thousands)	
Facilities	\$2,719	\$2,527
New construction	705	5,330
Remodeling	28	478
Information technology	80	105
Other	747	414
Capital expenditures	\$4,279	\$8,854

The decrease in new construction is primarily the result of the conversion of restaurants at Pilot Flying J Travel Centers during the prior year. Capital expenditures for fiscal 2012 are expected to be approximately \$15-16 million, comprised primarily of costs related to facilities and new construction.

Cash flows used in financing activities were \$28.0 million for the two quarters ended June 27, 2012, which included long-term debt payments of \$207.4 million, stock repurchases of \$5.5 million, deferred financing costs of \$1.8 million and debt transactions costs of \$1.1 million. These uses of cash were partially offset by \$190.0 million of net borrowings on our credit facility, which related to our debt refinancing, as described below.

Our working capital deficit was \$20.3 million at June 27, 2012 compared with \$25.9 million at December 28, 2011. The decrease in working capital deficit is primarily related to the timing of payments impacting prepaid and payable balances. We are able to operate with a substantial working capital deficit because (1) restaurant operations and most

food service operations are conducted primarily on a cash (and cash equivalent) basis with a low level of accounts receivable, (2) rapid turnover allows a limited investment in inventories, and (3) accounts payable for food, beverages and supplies usually become due after the receipt of cash from the related sales.

Refinancing of Credit Facility

On April 12, 2012, Denny's Corporation and certain of its subsidiaries refinanced our credit facility (the "Old Credit Facility") and entered into a new five-year senior secured credit agreement in an aggregate principal of \$250 million (the "New Credit Facility"). The New Credit Facility is comprised of a \$190 million senior secured term loan and a \$60 million senior secured revolver (with a \$30 million letter of credit sublimit). A commitment fee of 50 basis points is paid on the unused portion of the revolving credit facility. Borrowings for the term loan will bear a tiered interest rate based on the Company's consolidated leverage ratio and was initially set at LIBOR plus 300 basis points. The New Credit Facility does not contain an interest rate floor for either the term loan or the revolver. It includes an accordion feature that would allow us to increase the size of the facility to \$300 million. The maturity date for the New Credit Facility is April 12, 2017.

The New Credit Facility was used to refinance the Old Credit Facility and is available for working capital, capital expenditures and other general corporate purposes. The New Credit Facility is guaranteed by the Company and its material subsidiaries and is secured by substantially all of the assets of the Company and its subsidiaries, including the stock of the Company's subsidiaries. It includes negative covenants that are usual for facilities and transactions of this type. The New Credit Facility also includes certain financial covenants with respect to a maximum consolidated leverage ratio, a minimum consolidated fixed charged coverage ratio and maximum capital expenditures.

The term loan under the New Credit Facility amortizes \$19.0 million annually, payable in quarterly installments, with all remaining amounts due on the maturity date. We will be required to make certain mandatory prepayments under certain circumstances and will have the option to make certain prepayments under the New Credit Facility. The optional prepayments can be applied against future amortization. The New Credit Facility includes events of default (and related remedies, including acceleration and increased interest rates following an event of default) that are usual for facilities and transactions of this type.

On April 13, 2012, we entered into interest rate hedges that cap the LIBOR rate on borrowings for the term loan under the New Credit Facility during the first two years of the term loan. The 200 basis point LIBOR cap applies to \$150 million of term loan borrowings during the first year and \$125 million of term loan borrowings during the second year.

As a result of the debt refinancing, we recorded \$7.9 million of losses on early extinguishment of debt, consisting primarily of \$1.1 million of transaction costs, \$4.7 million from the write-off of deferred financing costs and \$2.0 million from the write-off of an original issue discount ("OID") related to the Old Credit Facility. These losses are included as a component of other nonoperating expense in the condensed Consolidated Statements of Comprehensive Income.

As of June 27, 2012, under the New Credit Facility, we had outstanding term loan borrowings of \$183.0 million and outstanding letters of credit under the revolving letter of credit facility of \$26.5 million. There were no revolving loans outstanding at June 27, 2012. These balances resulted in availability of \$33.5 million under the revolving facility. The weighted-average interest rate under the term loan was 3.25% as of June 27, 2012.

Our future contractual obligations relating to long-term debt and related interest obligations as of June 27, 2012 are as follows:

	Payments Due by Period				
	Total	Less than 1 Year	1-2 Years	3-4 Years	5 Years and Thereafter
	(In thousands)				
Long-term debt	\$ 183,054	\$ 12,054	\$ 38,000	\$ 133,000	\$—

Edgar Filing: DENNYS CORP - Form 10-Q

Interest obligations (1)	22,239	5,772	9,726	6,741	—
--------------------------	--------	-------	-------	-------	---

Interest obligations represent payments related to our long-term debt outstanding at June 27, 2012. For long-term (1) debt with variable rates, we have used the rate applicable at June 27, 2012 to project interest over the periods presented in the table above.

See Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 28, 2011 for information concerning other future contractual obligations and commitments.

Implementation of New Accounting Standards

See Note 2 to our Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We have exposure to interest rate risk related to certain instruments entered into for other than trading purposes. Specifically, as of June 27, 2012, borrowings under our term loan and revolver bore interest at variable rates based on LIBOR plus a spread of 300 basis points per annum. Up to \$150 million of the term loan borrowings has a 200 basis point LIBOR point cap.

Based on the levels of borrowings under the credit facility, if interest rates changed by 100 basis points, our annual cash flow and income before taxes would change by approximately \$1.8 million. This computation is determined by considering the impact of hypothetical interest rates on the credit facility, taking into consideration the interest rate cap. However, the nature and amount of our borrowings under the credit facility may vary as a result of future business requirements, market conditions and other factors.

We also have exposure to interest rate risk related to our pension plan, other defined benefit plans and self-insurance liabilities. A 25 basis point increase or decrease in discount rate would increase or decrease our projected benefit obligation related to our pension plan by approximately \$2.2 million and would impact the pension plan's net periodic benefit cost by less than \$0.1 million. The impact of a 25 basis point increase or decrease in discount rate would decrease or increase our projected benefit obligation related to our other defined benefit plans by less than \$0.1 million while the plans' net periodic benefit cost would remain flat. A 25 basis point increase or decrease in discount rate related to our self-insurance liabilities would result in a decrease or increase of \$0.2 million, respectively.

Commodity Price Risk

We purchase certain food products, such as beef, poultry, pork, eggs and coffee, and utilities such as gas and electricity, which are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control and which are generally unpredictable. Changes in commodity prices affect us and our competitors generally and often simultaneously. In general, we purchase food products and utilities based upon market prices established with vendors. Although many of the items purchased are subject to changes in commodity prices, the majority of our purchasing arrangements are structured to contain features that minimize price volatility by establishing fixed pricing and/or price ceilings and floors. We use these types of purchase arrangements to control costs as an alternative to using financial instruments to hedge commodity prices. In many cases, we believe we will be able to address commodity cost increases which are significant and appear to be long-term in nature by adjusting our menu pricing or changing our product delivery strategy. However, competitive circumstances could limit such actions and, in those circumstances, increases in commodity prices could lower our margins. Because of the often short-term nature of commodity pricing aberrations and our ability to change menu pricing or product delivery strategies in response to commodity price increases, we believe that the impact of commodity price risk is not significant.

We have established a policy to identify, control and manage market risks which may arise from changes in interest rates, commodity prices and other relevant rates and prices. We do not use derivative instruments for trading purposes.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act") our management conducted an evaluation (under the supervision and with the participation of our President and Chief Executive Officer, John C. Miller, and our Executive Vice President, Chief Administrative Officer and Chief Financial Officer, F. Mark Wolfinger) as of the end of the period covered by this Quarterly report on Form 10-Q, of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, Messrs. Miller and Wolfinger each concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) is accumulated and communicated to our management, including Messrs. Miller and Wolfinger, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) of the Exchange Act that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

There are various claims and pending legal actions against or indirectly involving us incidental to and arising out of the ordinary course of the business. In the opinion of management, based upon information currently available, the ultimate liability with respect to these proceedings and claims will not materially affect the Company's consolidated results of operations or financial position.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer

The table below provides information concerning repurchases of shares of our Common Stock during the quarter ended June 27, 2012.

Period	Total Number of Shares Purchased	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Programs (2)(3)	Maximum Number of Shares that May Yet be Purchased Under the Programs (3)(4)
	(In thousands, except per share amounts)			
March 29, 2012 - April 25, 2012	—	\$—	—	2,304
April 26, 2012 - May 23, 2012	898	4.01	898	7,406
May 24, 2012 - June 27, 2012	526	4.25	526	6,880
Total	1,424	\$4.10	1,424	

(1) Average price paid per share excludes commissions.

On April 4, 2011, we announced that our Board of Directors had approved the repurchase of up to 6 million shares of Common Stock ("Repurchase Program II"), in addition to a previous 3 million share authorization completed in (2)2011 ("Repurchase Program I"). Such repurchases may take place from time to time on the open market (including in pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Securities Exchange Act of 1934) or in privately negotiated transactions, subject to market and business conditions.

(3) During the quarter ended June 27, 2012, we purchased 1,424,354 shares of Common Stock for an aggregate consideration of approximately \$5.9 million, pursuant to Repurchase Program II.

On May 18, 2012 we announced that our Board of Directors had approved the repurchase of up to an additional 6 (4) million shares of Common Stock. Such repurchases are to be made in a manner similar to, and will be in addition to, authorizations under Repurchase Programs I and II.
