- The Company recorded a net income of Ch\$734 million (US\$1.4 million) in 1Q06 compared to a net income of Ch\$8,507 million (US\$16.2 million) in 1Q05.

- Average financial debt decreased 20.4% from US\$1,147 million in 1Q05 to US\$913 million in 1Q06.

Santiago, Chile April 28, 2006, Compania de Telecomunicaciones de Chile S.A. (NYSE: CTC) Telefonica Chile today announced its consolidated quarterly financial results, submitted to an interim financial review of independent auditors, stated in Chilean GAAP (in constant Chilean pesos as of March 30, 2006) for the first quarter of 2006. U.S. dollar equivalent information is based on the Observed Exchange Rate (as defined by the Chilean Central Bank) for March 31, 2006, which was Ch\$526.18 = US\$1.00. This information will be made publicly available through the Chilean Superintendencia de Valores y Seguros (SVS) and the Securities and Exchange Commission of the United States of America (www.sec.gov), as well as at the Companys website

CONSOLIDATED RESULTS FOR 1Q06

(Comparisons refer to 1Q05)

REVENUES

Telefónica Chile's **revenues** decreased by 1.0% in 1Q06 as compared to 1Q05, amounting to Ch\$140,804 million (US\$267.6 million). This variation is mainly the result of lower revenues from the long distance business and a 7.9% reduction in basic telephony revenues.

OPERATING COSTS AND EXPENSES

Operating costs and expenses

(excluding depreciation) increased 3.1% in 1Q06, to Ch\$71,176 million (US\$138.9 million), mainly explained by: (i) an increase of 49.5% in interconnections costs and an 8.2% increase in costs for third party services in 1Q06 as compared with 1Q05, related to installations and network maintenance resulting from higher commercial activity, along with the cost of printing directories, which are printed every two years. These costs and expenses were partly offset by a 12.5% decrease in uncollectables following the implementation of policies designed to reduce delinquency and by salary costs that were 8.6% lower. Total personnel decreased 7.8% as compared to 1Q05.

EBITDA

As a result, **EBITDA** in 1Q06 fell 4.9% to Ch\$69,628 million (US\$132.3 million), compared to Ch\$73,204 million (US\$139.3 million) recorded in 1Q05.

EBITDA margin

in 1Q06 was 49.5%, compared to the 51.5% recorded in 1Q05.

DEPRECIATION

Total depreciation

in 1Q06 decreased slightly by 0.8% to Ch\$50,178 million (US\$95.4 million), as compared to 1Q05.

OPERATING INCOME

OPERATING INCOME

decreased 14.0% to Ch\$19,450 million (US\$37.0 million) in 1Q06 when compared to Ch\$22,608 million (US\$43.0 million) in 1Q05.

Operating margin

reached 13.8% in 1Q06 vs. 15.9% in 1Q05.

NON-OPERATING RESULTS

NON-OPERATING RESULT

registered a non-operating loss of Ch\$15,012 million (US\$28.5 million) in 1Q06 as compared to a non-operating loss of Ch\$9,500 million (US\$18.1 million) in 1Q05. The non-operating loss in 1Q06 was basically due to i) other non-operating expenses of Ch\$10,125 million (US\$19.2 million) in 1Q06, as compared to Ch\$1,496 million (US\$2.8 million) in 1Q05; this difference is mainly the result of an extraordinary charge of Ch\$8,811 million (US\$16.7 million) due to indemnities associated with the personnel reduction carried out in 1Q06, (ii) interest expenses of Ch\$4,493 million (US\$9.4 million), which decreased by 44.9% on account of the 20.4% reduction in the average interest bearing debt in pesos (US\$ 913 million), and (iii) a goodwill charge for Ch\$761 million (US\$1.4 million) associated with the organizational restructuring realized in 1Q06 and (iv) a loss for monetary correction (price level restatement) in the amount Ch\$425 million (US\$0.8 million), resulting from a negative effect of Ch\$652 (US\$1.2 million) due to the impact of the negative CPI of 0.3% during 1Q06, which was partially offset by the positive impact of Ch\$226 million (US\$0.4 million) in exchange differences. This compared to a loss for monetary correction (price level restatement) in the amount Ch\$3,120 million (US\$5.9 million) in 1Q05, due to the impact of a higher negative CPI of 0.8% during 1Q05.

These non-operating losses were partly offset by (i) financial income that decreased 80.7% as compared with 1Q05, due to larger short-term investments made in 1Q05 than in 1Q06, as in January 2006, funds were used for the US\$156 million Yankee bond amortization, (ii) other non-operating revenues, which decreased 17.1% as compared to 1Q05 and (iii) revenues from related companies that increased 5.2% as compared to 1Q05.

INCOME TAXES

INCOME TAXES:

In 1Q06, Telefónica Chile recorded a total income tax charge in the amount of Ch\$3,769 million (US\$7.2 million). The above is compared to the Ch\$4,619 million (US\$8.8 million) tax charge in 1Q05.

Total income tax in 1Q06 consists of Ch\$6,061 million (US\$11.5 million) in current income taxes, partly offset by a Ch\$2,292 million (US\$9.7 million) net charge for deferred taxes for the period as well as amortization of deferred taxes for previous periods.

NET INCOME

The Company recorded **net income** of Ch\$734 million (US\$1.4 million) in 1Q06 vs. net income of Ch\$8,507 million (US\$16.2 million) in 1Q05. Excluding the extraordinary charge in 1Q06, net income increased 9.8% to Ch\$9,344 million (US\$17.8 million) in 1Q06.

Net income per ADR

in 1Q06 amounted to US\$0.006, compared to the net income per ADR of US\$0.061 recorded in 1Q05. Furthermore, net income per share in 1Q06 equaled Ch\$0.8 as compared to Ch\$8.9 in 1Q05.

CAPEX

Capital expenditures

for Telefónica Chile and its consolidated subsidiaries amounted to US\$35.4 million in 1Q06 compared to US\$17.3 million in 1Q05. Capital expenditure were mainly focused on the development of broadband, television and data transmission.

REVENUES BY BUSINESS UNIT

FIXED TELECOMMUNICATIONS

Increased revenues from broadband business and commercial plans compensated for negative trends of traditional voice services

Fixed Telecommunications is divided into Basic Telephony, Broadband, Access Charges and Interconnections and Other Fixed Telecommunications Businesses (including equipment marketing, directory advertising and public telephones, among others). Fixed telecommunications revenues, which represented 77% of total operating revenues in 1Q06, decreased 0.9% to Ch\$108,030

million (US\$205.3 million) in the period as compared to 1Q05.

Basic Telephony

revenues, which include the fixed monthly charge, variable charge, connections and other installations, plans of minutes (allowed under tariff flexibility), value-added services and other basic telephony revenues (services through operator and rural telephony, among others), decreased 7.9% to Ch\$67,569 million (US\$128.4 million) in 1Q06 as compared to 1Q05. This decrease is mainly attributable to a 26.2% decrease in the fixed monthly charge and a 20.7% decrease in the variable charge, was partially compensated by an increase in revenue from tariff flexibility plans. The aggregate 7.1% decline in these items is mainly due to: (i) a 14.1% decrease in local traffic for 1Q06 compared to 1Q05 (ii) average lines in service decreased slightly 0.1% compared to 1Q05, and (iii) the average revenue per line fell due to a higher proportion of economic lines and prepaid lines, which grew 15.0% as compared to 1Q05.

Broadband

revenues grew 69.2% to Ch\$13,784 million (US\$26.2 million) in 1Q06, due to the 60.9% growth in ADSL connections in the quarter. This growth in ADSL connections was driven by the successful marketing of joint offers of plans of minutes plus broadband and others. Broadband revenues for 1Q06 include sales to wholesalers in the amount of Ch\$1,199 million (US\$2.3 million) which had previously been presented as revenues under corporate communications. As a reference these revenues in 1Q05 amounted to Ch\$1,372 million (US\$ 2.6 million).

Access charges and interconnection

revenues include revenues from access charges generated by LD carriers, as well as those paid by other telecommunications operators that use Telefónica Chile's network. They also include other interconnection services apart from access charges, such as interconnection of networks and information services to carriers and services to wholesalers, among others. These revenues increased by 19.8% in 1Q06 to Ch\$12,183 million (US\$23.2 million) as compared to 1Q05. This increase was mainly due to a 40.9% increase in other interconnections revenues due to higher revenues from rental capacity to other telecom operators and due to the reclassification of network service revenues to wholesaler clients since the 2Q05, which were previously presented as revenues under corporate communications. As a reference these revenues in 1Q06 reached Ch\$1,344 million (US\$2.6 million). This was partly compensated by (i) a decrease of 18.9% and 36.9% in revenues of access charges from DLD and ILD, respectively, mainly due to a 15.5% drop in traffic of LD access charges.

Revenues from **Other fixed telecommunications** businesses, includes revenues generated as a result of the Company's contract with Publiguías, those generated by the subsidiaries Teleemergencia (home security services) and Telefónica Internet Empresas (TIE) related to internet access, public telephone revenues, interior installations and equipment marketing revenues. These revenues decreased by 5.8% in 1Q06 to Ch\$14,494 million (US\$27.5 million) as compared to 1Q05. This is mainly due to a decrease in equipment marketing revenues and directory advertising, which were partly compensated by a 16.8% increase in revenues from Teleemergencia.

LONG DISTANCE

Increased market share in DLD and ILD to 46.7% and 35.7%, respectively

Long distance revenues include revenues from domestic and international long distance traffic, as well as revenues from the rental of the long distance network to other telecom operators. Total long distance revenues, which accounted for 10% of consolidated operating revenues in 1Q06, decreased 9.6% as compared to 1Q05, amounting to Ch\$14,026 million (US\$26.7 million). The decrease in revenues is explained by (i) an 8.9% and 8.5% decrease in DLD and ILD revenues, respectively; and, (ii) a 12.2% decrease in revenues from rental of the long distance network as compared to 1Q05. This is mainly explained by a 6.1% decrease in DLD traffic and a 2.8% decrease in average rate, and the 11.0% increase in ILD traffic that was offset by the 15.9% decrease in ILD average rate.

The Company's advertising campaign to re-position the brand of the long distance carrier, *188 Telefónica* as well as the successful commercial activities, resulted in an increase in market share in ILD from 45.9% in 1Q05 to 46.7% in 1Q06 and in DLD from 31.5% in 1Q05 to 35.7% in 1Q06.

CORPORATE CUSTOMER COMMUNICATIONS

Revenues from corporate customer communications represented 13% of consolidated revenues

Corporate customer communications include revenues from (i) telecommunications equipment, which mainly refers to the sale of voice equipment; (ii) complementary telephone services, such as digital communications; (iii) data services, including ATM, Frame Relay, housing and hosting services and services related to the IP network, and (iv) dedicated links and others, including videoconference, Dated, E1 Links and VSAT, e-solutions, and consulting services to corporate customers.

Revenues from corporate customer communications, which represented 13% of consolidated revenues, decreased 4.8% to Ch\$18,054

million (US\$34.3 million) in 1Q06 as compared to 1Q05. The decrease in these revenues was mainly due to: (i) a 25.5% decrease in revenues from data services mainly explained by the reclassification of revenues from network services to wholesaler clients in the amount of Ch\$1,343 million (US\$2.6 million) and to Megavía (broadband for wholesalers), which were reclassified as fixed telecommunications in the amount of Ch\$1,199 million (US\$2.3 million) in 1Q06, (ii) a 4.0% decrease in equipment marketing revenues and (iii) a 1.5% decrease in complementary services revenues. The above was partly offset by a 27.1% increase in revenues from dedicated links and others, due to higher revenues associated to the e-solution project for the presidential elections in January 2006. In 1Q06, ATM links and Dated decreased by 34.9% and 41.4%, while data links through the IP network (dedicated IP) grew by 14.5%.

OTHER REVENUES

These revenues include those from other Company subsidiaries, such as Telepeajes, Tecnonáutica and t-gestiona, among others. These revenues, which represented 0.5% of total operating revenues in 1Q06, decreased 0.6% to Ch\$694 million (US\$1.3 million) in 1Q06.
