PROXY STATEMENT

For the Annual Meeting of Stockholders
To Be Held on Tuesday, May 13, 2008

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

Solicitation of Proxy

This Proxy Statement is furnished to stockholders of IntegraMed America, Inc. (the "Company") in connection with the solicitation by the Company's Board of Directors of proxies for use at the Annual Meeting of Stockholders of the Company ("Annual Meeting") to be held in Purchase, New York, on Tuesday, May 13, 2008 at 10:00 a.m., and any adjournments of the Annual Meeting.

Mailing Date

The Annual Report of the Company for 2007, including financial statements, the Notice of Annual Meeting of Stockholders, this Proxy Statement, and the Proxy Card are being mailed to stockholders on or about April 11, 2008.

Who can vote -- Record Date

The record date for determining stockholders entitled to notice of and to vote at the Annual Meeting is March 21, 2008. Each of the 8,566,144 shares of Common Stock, par value \$.01 per share (the "Common Stock"), of the Company issued and outstanding on the record date is entitled to one vote at the meeting.

How to vote -- Proxy Instructions

You can vote your shares by mailing in your proxy card. Stockholders who hold their shares in "street name" must vote their shares in the manner prescribed by their brokers.

In voting on the Directors, you may specify whether your shares should be voted for all, some, or none of the nominees for director.

If you do not specify on your proxy card how you want to vote your shares, we will vote them "FOR" the election of all nominees for director as set forth under "Election of Directors For a Term of One Year."

Revocation of Proxies

You may revoke your Proxy at any time before it is exercised in any of three ways:

- (1) by submitting written notice of revocation to the Company's Secretary, which must be received prior to the Annual Meeting;
- (2) by submitting a new Proxy by mail that is dated later in time and properly signed; or
- (3) by voting in person at the meeting.

1

Quorum

A quorum of stockholders is necessary to hold a valid meeting. A quorum will exist if the holders of a majority of the votes entitled to be cast by the stockholders at the Annual Meeting are present, in person or by proxy. Broker "non-votes" and abstentions are counted as present at the Annual Meeting for purposes of determining whether a quorum exists. A broker "non-vote" occurs when

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner.

Required Vote

Persons receiving a plurality of the voted shares present in person or represented by proxy at the Annual Meeting will be elected directors, meaning the individuals receiving the greatest number of votes will be elected to serve as directors. Shares not voted (whether abstention, broker "non-votes" or otherwise) have no effect on the election. If any nominee is unable or declines to serve, proxies will be voted for the balance of those named and such person as shall be designated by the Board to replace any such nominee. However, the Board does not anticipate that this will occur.

Voting Results

Preliminary voting results will be announced at the Annual Meeting. Final voting results will be published in our quarterly report on Form 10-Q for the second quarter of 2008.

Other Business

The Company does not intend to bring any business before the meeting other than that set forth in the Notice of Annual Meeting and described in this Proxy Statement. However, if any other business should properly come before the meeting, the persons named in the enclosed proxy card intend to vote in accordance with their best judgment on such business and any matters dealing with the conduct of the meeting pursuant to the discretionary authority granted by your proxy.

2

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

DIRECTOR INDEPENDENCE

The Board of Directors has determined that Messrs. Liebler, Moon and Stuesser, Ms. Tallett and Dr. Thornton are independent directors in accordance with Rule 4200(a)(15) of the Nasdaq Marketplace Rules because none of them is believed to have any relationships that, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out their responsibilities as a director. Although Mr. Liebler is considered an independent director (as defined by Marketplace Rule 4200), due to the Company's payment to Mr. Liebler of certain fees pursuant to an ongoing consulting arrangement, he does not meet the heightened criteria for audit committee membership pursuant to Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). For the period May 15, 2007 to October 8, 2007, Mr. Liebler erroneously served on the audit committee during which time period the committee had one meeting in which he participated as a member.

Directors are elected by the Company's stockholders at each annual meeting or, in the case of a vacancy, are appointed by the directors then in office, to serve until the next annual meeting of stockholders or until their successors are elected and qualified. Officers are appointed by and serve at the discretion of the Board of Directors.

5

During 2007, the Board of Directors held four regular meetings, one special meeting and two telephonic meetings. Each director attended at least 75% of the aggregate of all meetings of (i) the Board of Directors and (ii) the committees thereof on which each director served during 2007. In 2007, the independent directors of the Board met four times in executive session.

Stockholders may communicate directly with the directors. All communications should be sent in care of the Secretary of the Company at the Company's address and should prominently indicate on the outside of the envelope that it is intended for the Board of Directors, for non-employee directors or a particular committee of the directors. If no director is specified, the communication will be forwarded to the entire Board.

The Company does not have a policy requiring the directors to attend stockholders meetings; however, all of our directors attended the 2007 annual meeting. It is expected that all of our directors will attend the 2008 Annual Meeting.

COMMITTEES OF THE BOARD

The Board of Directors maintains three standing Committees: Audit Committee, Compensation Committee, and Nominating and Governance Committee whose members are set forth below:

AUDIT -----	COMPENSATION -----	NOMINATING AND GOVERNANCE -----
Wayne R. Moon	Sarason D. Liebler	Sarason D. Liebler

AUDIT COMMITTEE

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

The Audit Committee is charged by the Board of Directors to (i) study, review and evaluate the Company's accounting, auditing and financial reporting practices, including the internal controls and audit functions, (ii) assess the Company's compliance with legal and regulatory requirements, and (iii) select the independent auditors and review their qualifications, independence and performance, while being the focal point for communications between the Board of Directors, management and the independent auditors. More specifically, the Audit Committee pre-approves all audit and non-audit services to be performed by the independent auditors, reviews the scope and results of the audit of the Company's financial statements, reviews financial statements and periodic filings with the Commission, and discusses the same with management.

Each Audit Committee member meets the independence standards of The Nasdaq Stock Market, Inc., except that for the period May 15, 2007 to October 8, 2007 Mr. Liebler erroneously served on the Audit Committee although he did not meet the heightened criteria for audit committee membership pursuant to Rule 10A-3(b)(1) under the Exchange Act due to the Company's payment to Mr. Liebler of certain fees pursuant to an ongoing consulting arrangement. The Board of Directors has determined that in addition to being independent, Mr. Stuesser is an "audit committee financial expert" as such term is defined in Item 407 of Regulation S-K promulgated by the Commission. The Board of Directors has adopted a written charter for the Audit Committee. A copy of the Audit Committee charter is available to stockholders at the Company's website <http://www.integrated.com> under the Investors' Relation Section thereof.

The Audit Committee held four regular meetings and four telephonic meetings in 2008.

6

COMPENSATION COMMITTEE

The Compensation Committee, under a delegation of authority from the Board of Directors, reviews and makes decisions with respect to salaries, wages, bonuses, equity awards and other benefits and incentives for executive officers of the Company. The Compensation Committee held four regular meetings in 2007.

The Compensation Committee has a charter, a copy of which is available to stockholders at the Company's website <http://www.integrated.com> under the Investors' Relation Section thereof.

Compensation Committee Interlocks and Insider Participation

For 2007, the members of the Compensation Committee were Ms. Tallett (Chairperson) and Messrs. Liebler, Moon and Stuesser, and Dr. Thornton, all of whom are independent directors. None of these individuals has ever been an officer or employee of the Company or any of its subsidiaries. For 2007, no executive officer of the Company served on the Compensation Committee or Board of Directors of any other entity, which had any executive officer who also served on the Compensation Committee or Board of Directors of the Company.

NOMINATING AND GOVERNANCE COMMITTEE

The Board of Directors maintains a Nominating and Governance Committee consisting of independent directors as defined by NASDAQ rules. The primary purpose of the Committee is to provide oversight on the broad range of issues surrounding the composition and operation of the Board of Directors, including identifying individuals qualified to become Board members, recommending to the

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

Board director nominees for the next annual meeting of stockholders, and recommending to the Board a set of corporate governance principles applicable to the Company. The Committee also provides assistance to the Board in the areas of Committee selection, evaluation of the overall effectiveness of the Board and management, and review and consideration of developments in corporate governance practices. The Committee's goal is to assure that the composition, practices, and operation of the Board contribute to value creation and effective representation of the Company stockholders. The Nominating and Governance Committee held four meetings in 2007.

The Nominating and Governance Committee will consider candidates for board membership whose qualifications, including business experience and skills, lend themselves to advancing the Company's best interests. There are no minimum qualifications. Stockholders may recommend candidates for consideration by the Nominating and Governance Committee by writing to the "Chairperson, Nominating and Governance Committee, c/o IntegraMed America, Inc., Two Manhattanville Road, Purchase, New York 10577." Such recommendations for the 2009 annual meeting of stockholders must be received by the Company between January 13, 2009 and February 14, 2009. The Nominating and Governance Committee will evaluate candidates recommended by stockholders in the same manner as candidates identified by any other source. The Nominating and Governance Committee's process for identifying and evaluating nominees for director, including nominees recommended by stockholders, includes background and reference checks, together with personal interviews.

The Nominating and Governance Committee has a charter, a copy of which is available to stockholders at the Company's website <http://www.integramed.com> under the Investors' Relation Section thereof.

DIRECTOR COMPENSATION

In 2007, non-employee directors of the Company were paid an annual retainer of \$22,500 and a fee of \$1,500 for each regularly scheduled meeting of the Board attended. The chairpersons of the Compensation Committee and the Nominating and Governance Committee were paid \$1,500 each for serving as chairperson and the Chairperson of the Audit Committee was paid \$3,000 for serving as chair of the Audit Committee. Directors were also reimbursed for expenses incurred in attending meetings. Additionally, non-employee directors were granted, as part compensation for services rendered, 2,358 shares of Common Stock, with a market value of \$30,000 based on the closing price per share of the Company's Common Stock on the date of the grant which was May 15, 2007. Directors who are also executive officers are not compensated for their services as directors. For 2008, each non-employee director currently receives (1) an annual retainer fee of \$30,000; (2) \$5,000 if he or she serves as Chairperson of a Committee and \$8,000 if he or she serves as Chairperson of the Audit

7

Committee; (3) \$2,000 for each regular Board meeting attended (\$2,000 for any special meeting or committee meeting not coinciding with a regularly scheduled Board meeting) and are reimbursed for reasonable travel expenses incurred in attending meetings; and (4) a stock grant, upon election at the Annual Meeting equal to the number of shares resulting from dividing \$40,000 by the closing market price on the day before the Annual Meeting, with vesting upon grant.

The Company's philosophy regarding director compensation is to recognize that in order to attract and retain directors who are willing to contribute time

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

and talent to the Company, it is important to compensate competitively such persons. With that philosophy in mind, the Company attempts to provide fair cash compensation for a Company of its size and also provide directors with "skin in the game" by awarding, as part compensation, stock in the Company. With stock as part of a director's compensation, the resulting objective is to enable directors to align their interests with shareholders. So directors are expected to appreciate the importance of improving stock performance and providing investors with long-term gains. Directors aren't paid for their roles on Committees, other than as serving as Chairperson. Committees meet in conjunction with Board meetings and accordingly, the Company believes there shouldn't be additional compensation for Committee involvement. On the other hand Committee chairpersons are expected to interact more with management and therefore should be compensated for the additional time.

During 2006, the Board established a requirement that directors own Company stock equal to five times the annual retainer fee, which based on the 2008 annual retainer would mean \$150,000 in Company stock; provided, however, a director has five years to achieve this requirement.,

The following table sets forth a summary of the compensation paid or accrued by the Company during the year ended December 31, 2007 for the Company's Directors, but excludes any management Director whose compensation is reflected on the Summary Compensation Table for Named Executive Officers:

COMPENSATION DISCUSSION AND ANALYSIS

Objectives

The objective of the Company's compensation program, consisting of base salary, executive incentive compensation (performance-based compensation) and restricted stock grants, is to ensure that in the Company's effort to create shareholder value, the Company attracts, motivates and retains executives capable of assisting in the creation of such shareholder value.

The Company's compensation program is designed first to be competitive by providing base salaries that are market driven; second, to reward for Company and individual performance through annual incentive compensation awards and third, to retain executives through the grant of restricted stock awards that provide for vesting over time. Additionally, commencing with 2008, the Company has awarded senior executives with stock option awards that vest over a four-year period. In order to be market competitive with salaries, the Company annually assesses market salaries and attempts to ensure that salaries for Company executives fall within the mid to upper range of salaries for comparable positions, taking into consideration experience, backgrounds and annual individual performance reviews for individual executives, but qualified to comparable size companies within comparable industries. With respect to executive incentive compensation, executives are expected to accomplish individual goals annually that contribute to the overall growth of the Company. To the extent the goals are accomplished, such executives are rewarded. Additionally, executives are rewarded if certain revenue and bottom-line goals are achieved by the Company each year, with greater reward being provided based on higher level of achievement.

The Company believes that linking executive compensation to corporate performance results in a better alignment of compensation with Company goals and the interests of the Company's shareholders. As performance goals are met or exceeded, most probably resulting in increased value to shareholders, executives are rewarded commensurately. The Company believes the compensation levels during the fiscal year 2007 for executives and the chief executive officer adequately reflect the Company's compensation goals and philosophy.

Elements of the Compensation Program

The Company has chosen these three elements of compensation because of the belief that taken together, base salary, executive incentive compensation and restricted stock grants represent the fairest way to compensate for services, provide an incentive for increased compensation and help align an executive's interest with that of shareholders by seeking to improve stock performance and thereby benefit from such result. Each individual's base salary is determined based on years of experience and market rates for similar

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

positions with other companies of comparable size. A significant part of an eligible executive's compensation is the incentive bonus compensation program which is 65% of salary for the President & CEO, 50% of salary for the Executive Vice President & CFO, 40% of salary for Senior Vice Presidents and 30% of salary for Vice Presidents. The program has been designed to (i) reward eligible employees who have achieved specific business and financial success during the Company's fiscal year, (ii) give eligible employees the incentive to strive for higher productivity, efficiency and quality of services and (iii) encourage the "best" people to join and stay with the Company. The program is based on achieving specific goals and is not meant as a reward for hard work or long hours, but rather reward executives for results. Part I of the Company's incentive compensation is based on the Company's performance versus budget. The maximum amount earned under Part I is 60% of an individual's total maximum incentive compensation which, as stated, ranges from 65% to 30% of base salary. Part II of the Company's incentive compensation is based on the achievement of certain common milestones related to Company achievements and specific milestones established for each executive. The common milestones are applicable to all eligible employees and the specific milestones apply to each eligible employee and are determined by each executive's individual supervisor with the approval of the President. For Mr. Higham, the President, the 2007 common milestones represented 10% of the bonus eligibility and specific milestones represented 30% of his bonus eligibility for 2007. For Mr. Hlywak, the Executive Vice President and CFO, 10% of his eligible bonus was based on the Common Milestones and specific milestones represented 30% of his bonus eligibility for 2007.

The Company's President & CEO recommends to and consults with the Compensation Committee with respect to the salary of executive officers. In order to assure that executive compensation is both competitive and appropriate, the Compensation Committee reviews executive compensation in its entirety before

10

determining compensation level adjustments. In that connection, the overall compensation of executives is intended to be a percentage of base salary which is projected to range from 115% to 136% for 2008.

Historically, the Company's executive compensation structure emphasized cash components over long-term incentive components, due primarily to the low trading volume of the Company's stock. As the Company has grown and experienced higher trading volume and price, it has become more feasible to increase the emphasis on long-term incentives, making the Company's executive compensation more competitive with comparable companies.

Allocation of Compensation Among the Three Elements

In determining what portion or percentage of an executive's compensation is to be allocated among the three elements discussed above, the Company has determined that the largest portion should be allocated to base salary, the next portion to incentive compensation and the smallest portion to restricted stock grants. The Company recognizes that in order to attract, motivate and retain executives, there must be a connection among each element of compensation that accomplishes these three objectives. The base salary serves to attract competent executives in what is an increasingly competitive market place. The incentive compensation award becomes a good motivator to provide annual incentives for executives to strive for the highest level of productivity resulting in shareholder value. Lastly, the restricted stock grants serve to retain executives because the vesting of the shares granted is over a period of time and with the growth of the stock, each executive's well being is aligned with that of the shareholders.

Perquisites

Based on the Company's relative size, perquisites that have historically been provided to executives at other companies are not offered at the Company. Our CEO, Jay Higham, is provided with a leased vehicle that is maintained at Company expense. The total 2007 expenses incurred by the Company related to the leased vehicle were \$10,255.00.

401(k) Defined Contribution Plan

The Company maintains a 401(k) and Profit Sharing Plan which allows executives, as well as other employees of the Company, to make elective salary deferrals in accordance with IRS regulations. The Company does provide a discretionary match of 25% of an individual's maximum contributions of \$15,500 up to 1.5% of an individual's compensation of \$225,000 or less for the fiscal year, for a maximum match of \$3,375 per individual. For the CEO, CFO and the other Named Executive Officers, the Company contributed a match for 2007 ranging from \$2,895 to \$3,300.

Retirement Benefits

No retirement benefits are provided to Company executives.

Severance and Change in Control Arrangements

The Company believes that executives, after years of service to the Company, should not be arbitrarily affected due to a "change in control." For that reason, the Company enters into retention agreements with executive officers providing for certain termination benefits if a "change in control" occurs and such executives are terminated without cause within a specified period. On October 10, 2005, the Company entered into an employment agreement with Jay Higham to serve as its President and Chief Executive Officer, effective January 1, 2006. Pursuant to the employment agreement, Mr. Higham was appointed director of the Company on January 24, 2006. The employment agreement provides for Mr. Higham to receive an annual salary of \$275,000, subject to increases. Under the employment agreement, Mr. Higham was granted shares of the Company with a value of \$400,000 based on the closing price of the Company's stock on the first trading day of January 2006. The number of shares granted was 32,000 and they vest over a 10-year period. Pursuant to the agreement, the Company may terminate Mr. Higham's employment without cause on thirty days' notice, in which event Mr. Higham will receive, as severance pay, twelve months' base salary payable, plus Mr. Higham's annual bonus, without regard to the condition precedents established under the bonus plan, in a lump sum. Under the agreement, if Mr. Higham had been terminated effective December 31, 2007, based on his 2007

11

compensation he would have been paid \$300,000 representing his 2007 base salary and \$195,000 representing his accrued 2007 bonus.

The employment agreement further provides that in the event that within one year after a "Change of Control" (as defined therein) of the Company, Mr. Higham's employment is terminated by Mr. Higham for "Good Reason" (as defined therein) or by the Company without cause, Mr. Higham will be paid a lump sum amount equal to his base salary for a 24-month period following termination, plus twice the full amount of Mr. Higham's annual bonus based on his then current salary, without regard to the condition precedents established for the bonus payment. Based on this change of control provision, if there had been a change of control of the Company in 2007 and Mr. Higham's employment had

Edgar Filing: INTEGRAMED AMERICA INC - Form DEF 14A

terminated effective December 31, 2007, either for "Good Reason" by Mr. Higham or without cause by the Company, Mr. Higham would be entitled to termination pay equal to \$600,000 representing his then annualized base salary for 24-months, plus \$390,00 representing twice the amount to which he was eligible under the Company's Executive Incentive Compensation Plan for 2007.

Under the employment agreement, Mr. Higham has agreed not to compete with the Company while employed by the Company and for a period of two years thereafter.

The Company is also party to Executive Retention Agreements with its executive officers, including Mr. Hlywak, the Company's Principal Financial Officer and the other named executive officers set forth in the foregoing compensation table.

The Executive Retention Agreements (the "Agreements") provide for certain severance payments and benefits to the named executives in the event of a termination of their employment, either by the Company without cause, or by the executive for "Good Reason" (as defined therein), at any time within eighteen (18) months following a "Change in Control" (as defined therein) of the Company (any such termination, a "Qualifying Termination"). More specifically, the Agreements provide the named executives with one additional year of salary, bonus (if applicable), and benefits (or equivalent), more than he or she would previously have been entitled to receive upon a termination without cause. Accordingly, pursuant to the Agreements, in the event of a Qualifying Termination, the named executives will be paid one year's severance. Pursuant to the terms of the Agreements, all incentive options granted to the respective executive would become fully vested upon a Qualifying Termination, subject to certain terms and conditions. Also, pursuant to the Agreements, the Company would be required to pay each respective executive for all reasonable fees and expenses incurred by the respective executive in litigating his or her rights, thereunder, to the extent the executive is successful in any such litigation.

In the event an executive officer, other than Mr. Higham who would be paid in accordance with the terms of his employment agreement, is terminated without cause under circumstances outside a "Change in Control," each person would be paid ninety (90) days salary continuation. In the event Mr. Hlywak had been terminated without cause effective December 31, 2007 as a result of a "change in control" in 2007, Mr. Hlywak would have been paid \$245,000 representing his 2007 annual base salary and \$122,500 representing the bonus amount Mr. Hlywak was eligible to receive. For each of the other named executive officers, had they been terminated without cause effective December 31, 2007 as a result of a "change in control" in 2007, they would have been paid their respective 2007 base salaries and bonus amount which they would have been eligible to receive. For Mr. Wood, the payment would have been \$225,000 in salary and \$90,000 in bonus. For Mr. Soifer, the payment would have been \$193,000 in salary and \$57,900 in bonus. For Mr. Travia, the payment would have been \$222,654 in salary and \$89,061 in bonus.

Finally, Section 162(m) of the Internal Revenue Code, in certain circumstances, limits to \$1 million the deductibility of compensation, including stock-based compensation, paid to executives by public companies. None of the compensation paid to executive officers named in the Summary Compensation Table for fiscal year 2007 exceeded the threshold for deductibility under Section 162(m).
