MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by management in accordance with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. Therefore, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. In the opinion of management, all adjustments, consisting solely of normal recurring adjustments necessary for a fair presentation of the financial information for the periods indicated, have been included. The results for the three-month and nine-month periods ended October 2, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

Note 2. Summary of Significant Accounting Policies

Use of Estimates

The Company employs accounting policies that are in accordance with U.S. generally accepted accounting principles and require management to make estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reported period. Significant estimates include those related to revenue recognition, allowance for doubtful accounts, valuation of inventories, valuation of long-lived assets, goodwill and other intangible assets, pension plan assumptions, income tax, income tax valuation allowances, and litigation and environmental liabilities. Actual results could differ from those estimates.

Note 3. Earnings Per Share (EPS)

Basic earnings per share are based upon the weighted average number of common shares outstanding during the period. Diluted earnings per share are based upon the weighted average number of common shares outstanding during the period assuming the issuance of common shares for all dilutive potential common shares outstanding.

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended		Nine Months Ended	
	Oct.	Oct.	Oct.	Oct.
	2,	3,	2,	3,
	2011	2010	2011	2010
Basic EPS (in millions, except per share data)				
Net income attributable to MTI	\$ 15.7	\$ 16.7	\$ 47.9	\$ 51.0
Weighted average shares outstanding	17.9	18.5	18.1	18.7
Basic earnings per share attributable to MTI	\$ 0.88	\$ 0.90	\$ 2.64	\$ 2.73

	Three Months Ended		Nine Months Ended	
	Oct.	Oct.	Oct.	Oct.
Diluted EPS (in millions, except per share data)	2, 2011	3, 2010	2, 2011	3, 2010
Net income attributable to MTI	\$ 15.7	\$ 16.7	\$ 47.9	\$ 51.0
Weighted average shares outstanding	17.9	18.5	18.1	18.7
Diluted effect of stock options and stock units	0.1	0.1	0.1	--
Weighted average shares outstanding, adjusted	18.0	18.6	18.2	18.7
Diluted earnings per share attributable to MTI	\$ 0.87	\$ 0.90	\$ 2.62	\$ 2.72

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The weighted average diluted common shares outstanding for the three-month and nine-month periods ended October 2, 2011 and October 3, 2010 excludes the dilutive effect of 603,869 options and 386,775 options, respectively, as such options had an exercise price in excess of the average market value of the Company's common stock during such periods.

Note 4. Income Taxes

As of October 2, 2011, the Company had approximately \$6.5 million of total unrecognized income tax benefits. Included in this amount were a total of \$4.4 million of unrecognized income tax benefits that if recognized would affect the Company's effective tax rate. While it is expected that the amount of unrecognized tax benefits will change in the next 12 months, we do not expect the change to have a material impact on the results of operations or the financial position of the Company.

The Company's accounting policy is to recognize interest and penalties accrued relating to unrecognized income tax benefits as part of its provision for income taxes. The Company accrued (reversed) approximately \$0.1 million and \$(0.2) million during the third quarter and first nine months of 2011, respectively, and had an accrued balance of \$1.5 million of interest and penalties as of October 2, 2011.

The Company operates in multiple taxing jurisdictions, both within and outside the U.S. In certain situations, a taxing authority may challenge positions that the Company has adopted in its income tax filings. The Company, with a few exceptions (none of which are material), is no longer subject to U.S. federal, state, local, and international income tax examinations by tax authorities for years prior to 2003.

Note 5. Inventories

The following is a summary of inventories by major category:

	October	December
(millions of dollars)	2, 2011	31, 2010
Raw materials	\$ 41.5	\$ 34.9
Work-in-process	6.1	6.4
Finished goods	29.2	25.8
Packaging and supplies	20.7	19.4
Total inventories	\$ 97.5	\$ 86.5

Note 6. Goodwill and Other Intangible Assets

Goodwill and other intangible assets with indefinite lives are not amortized, but instead are tested for impairment, at least annually. The carrying amount of goodwill was \$65.4 million and \$67.2 million as of October 2, 2011 and December 31, 2010, respectively. The net change in goodwill since December 31, 2010 was attributable to the effect of foreign exchange.

Acquired intangible assets subject to amortization as of October 2, 2011 and December 31, 2010 were as follows:

October 2, 2011

December 31, 2010

(m i l l i o n s o f dollars)	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents and trademarks	\$ 6.2	\$ 4.0	\$ 6.2	\$ 3.5
Customer lists	2.7	1.3	2.7	1.2
	\$ 8.9	\$ 5.3	\$ 8.9	\$ 4.7

The weighted average amortization period for acquired intangible assets subject to amortization is approximately 15 years. Estimated amortization expense is \$0.6 million for each of the next five years through 2015.

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Also included in other assets and deferred charges is an intangible asset of approximately \$0.6 million which represents the non-current unamortized amount paid to a customer in connection with contract extensions at seven PCC satellite facilities. A current portion of \$0.7 million is included in prepaid expenses and other current assets. Such amounts will be amortized as a reduction of sales over the remaining lives of the customer contracts. Approximately \$0.2 million was amortized in the third quarter of 2011. Estimated amortization as a reduction of sales is as follows: remainder of 2011 - \$0.1 million; 2012 - \$0.4 million; 2013 - \$0.4 million; 2014 - \$0.4 million; 2015 - \$0.1 million; with smaller reductions thereafter over the remaining lives of the contracts.

Note 7. Restructuring Costs

2007 Restructuring Program

In the third quarter of 2007, as a result of a change in management and deteriorating financial performance, the Company conducted an in-depth review of all its operations and developed a new strategic focus. The Company initiated a plan to realign its business operations to improve profitability and increase shareholder value by exiting certain businesses and consolidating some product lines. The restructuring resulted in a total workforce reduction of approximately 250, which has been completed.

A reconciliation of the restructuring liability for this program, as of October 2, 2011, is as follows:

(millions of dollars)	Balance as of December 31, 2010	Additional Provisions (Reversals)	Cash Expenditures	Balance as of October 2, 2011
Contract termination costs	\$ 1.3	\$ (0.2)	\$ (0.3)	\$ 0.8
Other exit costs	--	0.9	(0.9)	--
	\$ 1.3	\$ 0.7	\$ (1.2)	\$ 0.8

In the first quarter of 2011, the Company recorded additional restructuring costs associated with our 2007 restructuring of our PCC facility in Germany.

Approximately \$1.2 million in exit costs were paid in the first nine months of 2011. The remaining restructuring liability of \$0.8 million will be funded from cash flows from operations.

2009 Restructuring Program

In the second quarter of 2009, the Company initiated a program to improve efficiencies through the consolidation of manufacturing operations and reduction of costs.

The restructuring program reduced the workforce by approximately 200 employees worldwide. This reduction in force relates to plant consolidations as well as a streamlining of the corporate and divisional management structures to operate more efficiently.

A reconciliation of the restructuring liability for this program, as of October 2, 2011, is as follows:

Edgar Filing: MINERALS TECHNOLOGIES INC - Form 10-Q

(millions of dollars)	Balance as of December 31, 2010	Additional Provisions (Reversals)	Cash Expenditures	Balance as of October 2, 2011
Severance and other employee benefits	\$ 2.0	\$ (0.1)	\$ (1.1)	\$ 0.8
	\$ 2.0	\$ (0.1)	\$ (1.1)	\$ 0.8

Approximately \$0.6 million and \$1.1 million in severance payments were paid in the third quarter and first nine months of 2011, respectively. The remaining liability of \$0.8 million will be funded from operating cash flows.

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Other Restructuring

In the fourth quarter of 2009, the Company recorded restructuring charges for the shutdown of its Franklin, Va. satellite facility in connection with the announced closure of the paper mill at that location. A reconciliation of the restructuring liability for this closure, as of October 2, 2011, is as follows:

(millions of dollars)	Balance as of December 31, 2010	Additional Provisions (Reversals)	Cash Expenditures	Balance as of October 2, 2011
Severance and other employee benefits	\$ 0.1	\$ (0.1)	\$ --	\$ --
	\$ 0.1	\$ (0.1)	\$ --	\$ --

Note 8. Long-Term Debt and Commitments

The following is a summary of long-term debt:

(millions of dollars)	October 2, 2011	December 31, 2010
5.53% Series 2006A Senior Notes		
Due October 5, 2013	\$ 50.0	\$ 50.0
Floating Rate Series 2006A Senior Notes		
Due October 5, 2013	25.0	25.0
Variable/Fixed Rate Industrial		
Development Revenue Bonds Due August 1, 2012	8.0	8.0
Variable/Fixed Rate Industrial		
Development Revenue Bonds Series 1999 Due November 1, 2014	8.2	8.2
Installment obligations	1.4	1.4
Other Borrowings	1.7	--
Total	94.3	92.6
Less: Current maturities	8.6	--
Long-term debt	\$ 85.7	\$ 92.6

During the first quarter of 2011, the Company entered into a Renminbi ("RMB") denominated loan agreement at its Refractories facility in China with the Bank of America totaling RMB 10.6 million, or \$1.6 million. Principal of this loan is payable in equal installments over the next three years. Interest is payable semi-annually and is based upon the official RMB lending rate announced by the People's Bank of China. The interest rate for the third quarter and first nine months of 2011 was 6.2%.

As of October 2, 2011, the Company had \$186 million of uncommitted short-term bank credit lines, of which approximately \$5.4 million were in use.

Note 9. Pension Plans

The Company and its subsidiaries have pension plans both in the U.S. and internationally, covering substantially all eligible employees on a contributory or non-contributory basis. Disclosures for the U.S. plans have been combined with those outside of the U.S. as the international plans do not have significantly different assumptions, and together represent less than 25% of our total benefit obligation.

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Components of Net Periodic Benefit Cost

(millions of dollars)	Pension Benefits			
	Three Months Ended		Nine Months Ended	
	Oct. 2, 2011	Oct. 3, 2010	Oct. 2, 2011	Oct. 3, 2010
Service cost	\$ 0.4	\$ 1.9	\$ 4.1	\$ 6.0
Interest cost	0.8	3.1	6.8	9.1
Expected return on plan assets	(0.8)	(3.4)	(7.9)	(9.8)
Settlement cost	0.4	--	0.4	--
Amortization:				
Prior service cost	--	0.4	0.7	1.1
Recognized net actuarial loss	0.3	2.3	4.3	6.2
Net periodic benefit cost	\$ 1.1	\$ 4.3	\$ 8.4	\$ 12.6

(millions of dollars)	Other Benefits			
	Three Months Ended		Nine Months Ended	
	Oct. 2, 2011	Oct. 3, 2010	Oct. 2, 2011	Oct. 3, 2010
Service cost	\$ 0.2	\$ 0.2	\$ 0.5	\$ 0.4
Interest cost	0.1	0.2	0.5	0.7
Amortization:				
Prior service cost	(0.8)	(0.8)	(2.3)	(2.3)
Recognized net actuarial loss	--	0.1	0.2	0.4
Net periodic benefit cost	\$ (0.5)	\$ (0.3)	\$ (1.1)	\$ (0.8)

Amortization amounts of prior service costs and recognized net actuarial losses are recorded, net of tax, as increases to accumulated other comprehensive income.

Employer Contributions

The Company expects to contribute \$6.0 million to its pension plan and \$1.0 million to its other post retirement benefit plans in 2011. As of October 2, 2011, \$4.6 million has been contributed to the pension fund and approximately \$0.4 million has been contributed to the other post retirement benefit plans.

Note 10. Comprehensive Income

The following are the components of comprehensive income:

	Three Months Ended		Nine Months Ended	
	Oct.	Oct.	Oct.	Oct.
(millions of dollars)	2,	3,	2,	3,
	2011	2010	2011	2010
C o n s o l i d a t e d n e t income	\$ 16.3	\$ 17.5	\$ 50.2	\$ 53.2
Other comprehensive income, net of tax:				
Foreign currency translation adjustments	(25.3)	30.9	(3.2)	(2.9)
Pension and postretirement plan adjustments	(1.2)	1.3	1.8	3.4
Sale of interest in business	(0.9)	--	(0.9)	--
Cash flow hedges:				
Net derivative gains (losses) arising during the period	1.5	(3.6)	0.1	1.4
C o m p r e h e n s i v e income	(9.4)	46.1	48.1	55.1
Comprehensive income attributable to non-controlling interest	1.5	(2.2)	(1.4)	(3.6)
Comprehensive income attributable to MTI	\$ (7.9)	\$ 43.9	46.7	51.5

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The components of accumulated other comprehensive gain, net of related tax, are as follows:

(millions of dollars)	Oct. 2, 2011	December 31, 2010
Foreign currency translation adjustments	\$ 43.5	\$ 46.6
Unrecognized pension costs	(50.0)	(51.9)
Net gain (loss) on cash flow hedges	1.8	1.7
Accumulated other comprehensive gain (loss)	(4.7)	(3.6)

Note 11. Accounting for Asset Retirement Obligations

The Company records asset retirement obligations for situations in which the Company will be required to retire tangible long-lived assets. These are primarily related to its PCC satellite facilities and mining operations. The Company has also recorded provisions related to conditional asset retirement obligations at its facilities. The Company has recorded asset retirement obligations at all of its facilities except where there are no legal or contractual obligations. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset.

The following is a reconciliation of asset retirement obligations as of October 2, 2011:

(millions of dollars)	
Asset retirement liability, December 31, 2010	\$ 14.7
Accretion expense	0.5
Additional obligations	0.2
Reversal of obligations	(0.4)
Payments	(0.2)
Asset retirement liability, October 2, 2011	\$ 14.8

Approximately \$0.4 million is included in other current liabilities and \$14.4 million is included in other non-current liabilities in the Condensed Consolidated Balance Sheet as of October 2, 2011.

Note 12. Legal Proceedings

Certain of the Company's subsidiaries are among numerous defendants in a number of cases seeking damages for exposure to silica or to asbestos containing materials. The Company currently has 76 pending silica cases and 25 pending asbestos cases. To date, 1,389 silica cases and 8 asbestos cases have been dismissed. Most of these claims do not provide adequate information to assess their merits, the likelihood that the Company will be found liable, or the magnitude of such liability, if any. Additional claims of this nature may be made against the Company or its subsidiaries. At this time management anticipates that the amount of the Company's liability, if any, and the cost of defending such claims, will not have a material effect on its financial position or results of operations.

The Company has not settled any silica or asbestos lawsuits to date. We are unable to state an amount or range of amounts claimed in any of the lawsuits because state court pleading practices do not require identifying the amount of the claimed damage. The aggregate cost to the Company for the legal defense of these cases since inception was approximately \$0.1 million, the majority of which has been reimbursed by Pfizer Inc pursuant to the terms of certain agreements entered into in connection with the Company's initial public offering in 1992. Our experience has been that the Company is not liable to plaintiffs in any of these lawsuits and the Company does not expect to pay any settlements or jury verdicts in these lawsuits.

Environmental Matters

On April 9, 2003, the Connecticut Department of Environmental Protection ("DEP") issued an administrative consent order relating to our Canaan, Connecticut, plant where both our Refractories segment and Specialty Minerals segment have operations. We agreed to the order, which includes provisions requiring investigation and remediation of contamination associated with historic use of polychlorinated biphenyls ("PCBs") and mercury at a portion of the site. Historic documentation indicates that PCBs and mercury were first used at the contaminated

MINERALS TECHNOLOGIES INC. AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

portion of the facility at a time of U.S. government ownership for production of materials needed by the military during World War II, the Korean War, and the subsequent Cold War period.

The following is the present status of the remediation efforts:

- **Building Decontamination.** We have completed the investigation of building contamination and submitted several reports characterizing the contamination. We are awaiting review and approval of these reports by the regulators. Based on the results of this investigation, we believe that the contamination may be adequately addressed by means of encapsulation through painting of exposed surfaces, pursuant to the Environmental Protection Agency's ("EPA") regulations and have accrued such liabilities as discussed below. However, this conclusion remains uncertain pending completion of the phased remediation decision process, including a site-specific risk assessment required by the regulators.
- **Groundwater.** We have completed investigations of potential groundwater contamination and have submitted a report on the investigations finding that there is no PCB or mercury contamination, but some oil contamination of the groundwater. We expect the regulators to require confirmatory long term groundwater monitoring at the site.
- **Soil.** We have completed investigations of soil contamination and submitted reports characterizing contamination to the regulators. Based on the results of these investigations we believe that, with minor exceptions, the contamination may be left in place and monitored, pursuant to the site-specific risk assessment, which is underway. However, this conclusion is subject to completion of a phased remediation decision process required by applicable regulations.

We believe that the most likely form of overall site remediation will be to leave existing contamination in place, encapsulate it, and monitor the effectiveness of the encapsulation. We anticipate that a substantial portion of the remediation cost will be borne by the United States based on its involvement at the site from 1942 – 1964. Though the cost of the likely remediation above remains uncertain pending completion of the phased remediation decision process, we have estimated that the Company's share of the cost of the encapsulation and limited soil removal described above would approximate \$400,000, which has been accrued as of October 2, 2011.

The Company is evaluating options for upgrading the wastewater treatment facilities at its Adams, Massachusetts plant. This work has been undertaken pursuant to an administrative Consent Order originally issued by the Massachusetts Department of Environmental Protection ("DEP") on June 18, 2002. This order was amended on June 1, 2009 and on June 2, 2010. The amended Order includes the investigation by January 1, 2022 of options for ensuring that the facility's wastewater treatment ponds will not result in unpermitted discharge to groundwater. Additional requirements of the amendment include the submittal by July 1, 2022 of a plan for closure of a historic lime solids disposal area. Preliminary engineering reviews completed in 2005 indicate that the estimated cost of wastewater treatment upgrades to operate this facility beyond 2024 may be between \$6 million and \$8 million. The Company estimates that the remaining remediation costs would approximate \$400,000, which has been accrued as of October 2, 2011.

The Company and its subsidiaries are not party to any other material pending legal proceedings, other than routine litigation incidental to their businesses.

Note 13. Non-Operating Income and Deductions

(Unaudited)

During the third quarter of 2011, the Company recognized currency translation losses of \$1.4 million upon the sale of a 50% interest in and deconsolidation of its joint venture in Korea.

During the second quarter of 2010, the Company recognized income of \$0.8 million for a settlement related to a customer contract termination.

Note 14 . Non-controlling interests

The following is a reconciliation of beginning and ending total equity, equity attributable to MTI, and equity attributable to non-controlling interests:

(millions of dollars)	Equity Attributable to MTI						Total
	Common Stock	Additional Paid-in Capital	Retained Earnings	Accumulated Other Comprehensive Income (Loss)	Treasury Stock	Non-controlling Interests	
Balance as of December 31, 2010	\$ 2.9	323.2	899.2	(3.6)	(466.2)	27.2	782.7

Edgar Filing: MINERALS TECHNOLOGIES INC - Form 10-Q

Stock based compensation	--	4.1	--	--	--	--	4.1
Purchase of common stock	--	--	--	--	(45.0)	--	(45.0)
Balance as of October 2, 2011	\$ 2.9	332.5	944.4	(4.8)	(511.2)	28.1	792.0

The income attributable to non-controlling interests for the nine-month periods ended October 2, 2011 and October 3, 2010 was from continuing operations. The remainder of income was attributable to MTI. In the third quarter of 2011, the company divested a 50% interest in its Refractories joint venture in Korea. As a result, the Company now has a 20% equity interest in this entity and recognized a \$1.4 million currency translation loss upon deconsolidation of this entity. The fair value of the remaining 20% interest was approximately \$0.6 million and the Company will account for this investment using the equity method. There were no other changes in MTI's ownership interest for the period ended October 2, 2011 as compared with December 31, 2010.

Note 15. Segment and Related Information

Segment information for the three and nine-month periods ended October 2, 2011 and October 3, 2010 were as follows:

REVIEW REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Minerals Technologies Inc.:

We have reviewed the condensed consolidated balance sheet of Minerals Technologies Inc. and subsidiary companies as of October 2, 2011 and the related condensed consolidated statements of operations for the three-month and nine-month periods ended October 2, 2011 and October 3, 2010, and the related condensed consolidated statements of cash flows for the nine-month periods ended October 2, 2011 and October 3, 2010. These condensed consolidated financial statements are the responsibility of the company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Minerals Technologies Inc. and subsidiary companies as of December 31, 2010, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 25, 2011, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2010 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ KPMG LLP

New York, New York
October 28, 2011

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Income from operations	9.7	10.0	9.5	9.9
Net income	6.0%	6.7%	6.0%	6.7 %

Executive Summary

Consolidated sales for the third quarter of 2011 increased 5% to \$262.2 million from \$249.8 million in the prior year. Income from operations was \$25.4 million as compared to \$25.0 million in the prior year, an increase of 2%. Net income was \$15.7 million as compared to \$16.7 million in the prior year. Included in net income for the quarter is a \$1.4 million currency translation loss recognized upon divestiture of a 50% interest in the Company's Refractories joint venture in Korea.

The Company's results reflect continued solid financial performance despite some softening in our end markets and uncertainty in the global markets. In addition, the Company has been affected by higher materials and energy costs. However, we have been able to partially offset these cost increases with price increases. The Company continues to focus on the execution of its geographic expansion and new product development growth strategies. During the third quarter, the Company began operations at one satellite PCC facility in the US, is constructing three new satellite PCC facilities in India, and is continuing to pursue market penetration of its FulFill™ portfolio of PCC products. We also continue to execute on our efforts to contain costs and improve productivity throughout the organization.

The Company's balance sheet remains strong. Cash, cash equivalents and short-term investments were approximately \$399 million. We have available credit lines of \$186 million, our debt to equity ratio was 12%, and our current ratio was 3.9. Our cash flows from operations were \$93 million in the first nine months of 2011, of which approximately \$36 million was generated in the third quarter.

We face some significant risks and challenges in the future:

·The industries we serve, primarily paper, steel, construction and automotive, have been adversely affected by the uncertain global economic climate. Although these markets have stabilized, our global business could be adversely affected by further decreases in

economic activity. Our Refractories segment primarily serves the steel industry. North American and European steel production improved 8% and 6%, respectively in the third quarter of 2011 as compared with the prior year, however, remains below pre-recession levels. In the paper industry, which is served by our Paper PCC product line, production levels for printing and writing papers within North America and Europe, our two largest markets for the third quarter 2011 were 1% higher than second quarter 2011 and 4% below third quarter of the prior year. In addition, our Processed Minerals and Specialty PCC product lines are affected by the domestic building and construction markets and the automotive market. Housing starts in the third quarter of 2011 averaged at approximately 615 thousand units, and were up 8% from second quarter 2011 levels and were up 5% when compared to third quarter 2010. Housing starts were at a peak rate of 2.1 million units in 2005. In the automotive industry, North American car and truck production was approximately 8% higher than the prior year, but were up only 1% from the

second quarter of 2011 and are now approximately five percent below pre-recession levels.

- Some of our customers may experience shutdowns due to further consolidations, or, may face liquidity issues, which could deteriorate the aging of our accounts receivable, increase our bad debt exposure and possibly trigger impairment of assets or realignment of our businesses.
- Consolidations and rationalizations in the paper and steel industries concentrate purchasing power in the hands of fewer customers, increasing pricing pressure on suppliers such as Minerals Technologies Inc.
- Most of our Paper PCC sales are subject to long-term contracts that may be terminated pursuant to their terms, or may be renewed on terms less favorable to us.
- We are subject to volatility in pricing and supply availability of our key raw materials used in our Paper PCC product line and Refractory product line.
- We continue to rely on China for a significant portion of our supply of magnesium oxide in the Refractories segment, which may be subject to uncertainty in availability and cost.
- Fluctuations in energy costs have an impact on all of our businesses.
- Changes in the fair market value of our pension assets, rates of return on assets, and discount rates could have a significant impact on our net periodic pension costs as well as our funding status.
- As we expand our operations abroad we face the inherent risks of doing business in many foreign countries, including foreign exchange risk, import and export restrictions, and security concerns.
- The Company's operations, particularly in the mining and environmental areas (discharges, emissions and greenhouse gases), are subject to regulation by federal, state and foreign authorities and may be subject to, and presumably will be required to comply with, additional laws, regulations and guidelines which may be adopted in the future.

During the second quarter of 2011, M-real Corporation announced plans to divest its Alizay paper mill in France by the end of September 2011. Over the past several months, M-real has been in discussions with a number of paper producers; however none of the candidates have fulfilled M-real's conditions for sale. On October 18th, M-real announced it had not reached an agreement with potential buyers and that it had commenced an information and consultation process to close this facility. However, we have not received any further information as to a possible closure date. M-real stated in its announcement that serious negotiations with two potential buyers had taken place in the past few weeks and that the French government has supported M-real in the sales process. We are aware that the negotiations with the potential buyers have continued beyond the October 18th. If M-real terminates its operations at the Alizay paper mill, the Company would likely shut down its PCC satellite facility and could incur an impairment of assets charge. Under that scenario, the Company could pursue options for mitigation or recovery of assets, including redeployment of assets to other locations to the extent feasible. The net book value of the facility as of October 2, 2011 is \$5.9 million. Projected 2011 annual sales at Alizay are approximately \$9 million.

During the third quarter of 2011, NewPage Corporation filed for Chapter 11 bankruptcy protection. The Company does business with five NewPage mills, including operating three satellite PCC facilities at NewPage locations. At present, the Company continues to supply PCC to these mills. If NewPage is unable to emerge from the bankruptcy process or should these facilities cease operations, the Company could incur an impairment of assets charge of up to \$16 million and may incur additional provisions for bad debt. Annualized sales to NewPage locations in 2011 are projected to be approximately \$20 million.

During the third quarter of 2011, UPM-Kymmene announced its intention to permanently reduce paper capacity at several locations in Europe by the end of 2011. The Company presently operates a PCC satellite facility at one of these locations at Myllykoski, Finland. The net book value of the Company's assets at that facility is \$0.7 million. The Company is accelerating depreciation of these assets over the last four months of the year. Sales at the Company's satellite at Myllykoski for 2011 are projected to be approximately \$15 million.

The Company has evaluated these facilities for impairment of assets and, based upon the information currently available and probability-weighted cash flows of various potential outcomes, has determined that no impairment charge is required in the third quarter.

The Company will continue to focus on innovation and new product development and other opportunities for continued growth as follows:

- Develop multiple high-filler technologies, such as filler-fiber, under the Fulfill™ platform of products, to increase the fill rate in freesheet paper and continue to progress with commercial discussions and full-scale paper machine trials.

- Increase our sales of PCC for paper by further penetration of the markets for paper filling at both freesheet and groundwood mills, particularly in emerging markets.
- Expand the Company's PCC coating product line using the satellite model.
- Promote the Company's expertise in crystal engineering, especially in helping papermakers customize PCC morphologies for specific paper applications.
- Expand PCC produced for paper filling applications by working with industry partners to develop new methods to increase the ratio of PCC for fiber substitutions.
- Develop unique calcium carbonates and talc products used in the manufacture of novel biopolymers and coating applications, a new market opportunity.
- Deploy value-added formulations of refractory materials that not only reduce costs but improve performance and expand our solid core wire line into BRIC and other Asian countries.
- Deploy the Company's new LaCam® -Torpedo measuring system, a new laser measurement technology to measure refractory lining thickness in hot ladles.
- Deploy operational excellence principles into all aspects of the organization, including system infrastructure and lean principles.
- Explore selective acquisitions to fit our core competencies in minerals and fine particle technology.

However, there can be no assurance that we will achieve success in implementing any one or more of these opportunities.

Results of Operations

Three months ended October 2, 2011 as compared with three months ended October 3, 2010.

Sales

(millions of dollars)

Net Sales	Third Quarter 2011	% of Total Sales	Growth	Third Quarter 2010	% of Total Sales

Specialty PCC	16.0	6.1%	6%	15.1	6.0%
PCC Products	\$ 142.5	54.4%	4%	\$ 136.8	54.8%
Talc	\$ 11.3	4.3%	(10)%	\$ 12.5	5.0%
Ground Calcium Carbonate	17.3	6.6%	3%	16.8	6.7%
Processed Minerals Products	\$ 28.6	10.9%	(2)%	\$ 29.3	11.4%
Specialty Minerals Segment	\$ 171.1	65.3%	3%	\$ 166.1	66.5%
Refractory Products	\$ 71.1	27.1%	9%	\$ 65.4	26.2%

Metallurgical

Products		20.0	7.6%	9%	18.3	7.3%
Refractories Segment	\$	91.1	34.7%	9%	\$ 83.7	33.5%
Net sales	\$	262.2	100.0%	5%	\$ 249.8	100.0%

Worldwide net sales in the third quarter of 2011 increased 5% from the previous year to \$262.2 million from \$249.8 million. Foreign exchange had a favorable impact on sales of approximately \$10.4 million or 4 percentage points of growth. Sales in the Specialty Minerals segment, which includes the PCC and Processed Minerals product lines, increased 3% to \$171.1 million as compared with \$166.1 million for the same period in the prior year. Sales in the Refractories segment increased 9% to \$91.1 million as compared with \$83.7 million in the prior year.

Worldwide net sales of PCC, which is primarily used in the manufacturing process of the paper industry, increased 4% in the third quarter to \$142.5 million from \$136.8 million in the prior year. Foreign exchange had a favorable impact on sales of \$5.9 million or approximately 4 percentage point of growth. Paper PCC sales increased 4% to \$126.5 million in the third quarter of 2011 from \$121.7 million in the prior year. Paper PCC volumes declined 6% in the third quarter from the prior year. This was more than offset by price increases and the effects of

foreign exchange. Sales of Specialty PCC increased 6% to \$16.0 million from \$15.1 million in the prior year. This increase was primarily due to slightly higher volumes, increased pricing and the effects of foreign exchange.

Net sales of Processed Minerals products decreased 2% in the third quarter to \$28.6 million from \$29.3 million in the third quarter of 2010. This decrease was primarily due to 15% lower volumes in our talc product line which was attributable to significant customer inventory restocking in the prior year. This was offset by 7% higher volumes in our ground calcium product line due to higher roofing sales in the southwestern United States as compared with prior year.

Net sales in the Refractories segment in the third quarter of 2011 increased 9% to \$91.1 million from \$83.7 million in the prior year. Foreign exchange had a favorable impact on sales of \$4.5 million or approximately 5 percentage points of growth. Sales of refractory products and systems to steel and other industrial applications increased 9% to \$71.1 million from \$65.4 million in the prior year. This increase was primarily due to increased selling prices and the effects of foreign exchange, which more than offset a 5% decline in volumes, primarily in Asia, due to the sale of a 50% interest in and deconsolidation of our joint venture in Korea. Sales of metallurgical products within the Refractories segment increased 9% to \$20.0 million as compared with \$18.3 million in the same period last year.

Net sales in the United States increased 4% to \$140.2 million in the third quarter of 2011 from \$135.1 million in the prior year. International sales in the third quarter of 2011 increased 6% to \$122.0 million, primarily due to the effects of foreign exchange.

Operating Costs and Expenses (millions of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Cost of goods sold	\$ 209.3	\$ 197.6	6%
Marketing and administrative	\$ 22.6	\$ 22.6	0%
Research and development	\$ 4.7	\$ 4.6	2%
Restructuring and other costs	\$ 0.2	\$ --	*

* Percentage not meaningful

Cost of goods sold was 79.8% of sales as compared with 79.1% of sales in the prior year. Production margin increased \$0.7 million, or 1% as compared with a 5% increase in sales. In the Specialty Minerals segment, production margin remained flat over prior year, as compared with a 3% increase in sales. Net pricing increases of \$3.2 million were more than offset by higher raw material and energy costs incurred that were not fully recovered through pricing due to contractual stipulations. In the Refractories segment, production margin increased 4%, or \$0.7 million as compared with a 9% increase in sales. This segment had higher raw material costs of \$3.9 million which were offset by price increases of \$3.2 million and the favorable effects of foreign exchange.

Marketing and administrative costs remained flat at \$22.6 million as compared the prior year and represented 8.6% of net sales as compared with 9.0% of net sales in the prior year.

Research and development expenses increased 2% to \$4.7 million from \$4.6 million in the third quarter of 2010 and represented 1.8% of net sales as compared with 1.9% of net sales in the prior year.

Restructuring costs were \$0.2 million in the quarter and represented incremental employee severance costs associated with our 2009 program.

Income from Operations (millions of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Income from operations	\$ 25.4	\$ 25.0	2%

The Company recorded income from operations of \$25.4 million in the third quarter of 2011 as compared to \$25.0 million in the prior year. Income from operations represented 9.7% of sales in the third quarter of 2011 as compared with 10.0% of sales in the prior year.

Income from operations for the Specialty Minerals segment declined 2% to \$19.3 million from \$19.7 million in the prior year and was 11.3% of net sales as compared with 12.0% in the third quarter of 2010. Operating income for the Refractories segment was \$7.5 million as compared to income from operations of \$6.3 million in the prior year and represented 8.3% of sales as compared with 7.5% of sales.

Non-Operating Deductions (millions of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Non-operating deductions	\$ 1.7	\$ 0.2	*%

* Percentage not meaningful

In the third quarter of 2011, the Company recorded net non-operating deductions of \$1.7 million as compared to net non-operating deductions of \$0.2 million in the prior year. During the third quarter of 2011, the Company recognized currency translation losses of \$1.4 million upon deconsolidation of our joint venture in Korea.

Provision for Taxes on Income (millions of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Provision for taxes on income	\$ 7.4	\$ 7.3	1%

Provision for taxes on income during the third quarter of 2011 was \$7.4 million as compared to \$7.3 million during the third quarter of 2010. The effective tax rate for the third quarter of 2011 was 31.1% compared to 29.5% for the third quarter of 2010. In the third quarter of 2011, the effective tax rate was negatively affected by 1.5 percentage points related to the foreign currency translation loss for which the Company could not record a tax benefit.

Consolidated Net Income, net of tax (millions of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Consolidated net income, net of tax	\$ 16.3	\$ 17.5	(7)%

The Company recorded consolidated net income, net of tax, of \$16.3 million as compared with \$17.5 million in the prior year.

Non-controlling Interests (million of dollars)	Third Quarter 2011	Third Quarter 2010	Growth
Net income	\$ 0.7	\$ 0.8	(13)%

The decrease in the income attributable to non-controlling interests is due to slightly lower profitability in our joint ventures.

Net Income Attributable to MTI	Third	Third	Growth
--------------------------------	-------	-------	--------

(million of dollars)	Quarter 2011	Quarter 2010	
Net income	\$ 15.7	\$ 16.7	(6)%

Net income attributable to MTI was \$15.7 million in the third quarter of 2011 as compared with income of \$16.7 million in the prior year. Diluted earnings per common share were \$0.87 per share in the third quarter of 2011 as compared with \$0.90 per share in the prior year.

Nine months ended October 2, 2011 as compared with nine months ended October 3, 2010

(millions of dollars)		First Nine Months 2011	% of Total Sales	Growth	First Nine Months 2010	% of Total Sales
Net Sales						
U.S.	\$	420.8	53.1%	3%	\$ 410.2	54.1%
International		372.3	46.9%	7%	348.8	45.9%
Net sales	\$	793.1	100.0%	4%	\$ 759.0	100.0%
Paper PCC	\$	379.3	47.8%	1%	\$ 375.6	49.5%
Specialty PCC		48.2	6.1%	8%	44.7	5.9%
PCC Products	\$	427.5	53.9%	2%	\$ 420.3	55.4%
Talc	\$	35.4	4.5%	4%	\$ 34.1	4.5%
Ground Calcium Carbonate		53.2	6.7%	2%	52.0	6.8%
Processed Minerals Products	\$	88.6	11.2%	3%	\$ 86.1	11.3%
Specialty Minerals Segment	\$	516.1	65.1%	2%	\$ 506.4	66.7%
Refractory Products	\$	216.1	27.2%	10%	\$ 196.2	25.9%
Metallurgical Products		60.9	7.7%	8%	56.4	7.4%
Refractories Segment	\$	277.0	34.9%	10%	\$ 252.6	33.3%
Net sales	\$	793.1	100.0%	4%	\$ 759.0	100.0%

Worldwide net sales in the first nine months of 2011 increased 4% to \$793.1 million from \$759.0 million in the prior year. Foreign exchange had a favorable impact on sales of approximately \$22.1 million or approximately 3 percentage points of growth. Sales in the Specialty Minerals segment, which includes the PCC and Processed Minerals product lines, increased 2% to \$516.1 million as compared with \$506.4 million for the same period in 2010. Sales in the Refractories segment increased 10% from the previous year to \$277.0 million.

Worldwide net sales of PCC, which is primarily used in the manufacturing process of the paper industry, increased 2% in the first nine months to \$427.5 million from \$420.3 million in the prior year. Foreign exchange had a favorable impact on sales of \$12.4 million, or 3 percentage points of growth. Paper PCC sales increased 1% to \$379.3 million in the first nine months of 2011 from \$375.6 million in the prior year. Total Paper PCC volumes decreased approximately 4% with volume declines in all regions. This was offset by increased pricing and the effects of foreign exchange. Sales of Specialty PCC increased 8% to \$48.2 million from \$44.7 million in the prior year. This increase was due to volume increases, increased prices, and the effects of foreign exchange.

Net sales of Processed Minerals products increased 3% from prior year in the first nine months of 2011 to \$88.6 million from \$86.1 million in the prior year. This increase was attributable to 8% higher volumes and price increases in the talc product line.

Net sales in the Refractories segment in the first nine months of 2011 increased 10% to \$277.0 million from \$252.6 million in the prior year. Sales of refractory products and systems to steel and other industrial applications increased 10 percent to \$216.1 million from \$196.2 million primarily due to increased selling prices, higher volumes, higher equipment sales, and the effects of foreign exchange. Sales of metallurgical products within the Refractories segment increased 8 percent to \$60.9 million as compared with \$56.4 million in the same period last year due to increased selling prices and better product mix, which more than offset volume declines of 9%, primarily in Asia.

Net sales in the United States increased 3% to \$420.8 million in the first nine months of 2011. International sales in the first nine months of 2010 increased 7% to \$372.3 million, primarily due to the effects of foreign exchange.

Operating Costs and Expenses (millions of dollars)	Nine Months 2011	Nine Months 2010	Growth
Cost of goods sold	\$ 633.6	\$ 600.4	6%
Marketing and administrative	\$ 69.4	\$ 67.5	3%
Research and development	\$ 14.5	\$ 14.7	(1)%
Restructuring and other costs	\$ 0.5	\$ 0.9	(46)%

Cost of goods sold was 79.9% of sales as compared with 79.1% of sales in the prior year. Production margin increased \$0.9 million, or 1% on a 4% increase on sales. In the Specialty Minerals segment, production margin remained flat as compared with a 2% increase in sales. This segment incurred higher raw materials and energy costs that were not fully recovered by price increases. In the Refractories segment, production margin increased 2%, on a 10% increase in sales. This segment incurred higher raw material costs of \$13 million that were partially offset by price increase of \$9.4 million, the favorable effects of foreign exchange and higher equipment sales.

Marketing and administrative costs increased 3% to \$69.4 million in the first nine months of 2011 as compared to \$67.5 million in the prior year. Marketing and administrative costs as a percentage of net sales, however, was 8.7% of sales in the third quarter of 2011 as compared with 8.9% of sales in the prior year.

Research and development expenses decreased 1% to \$14.5 million and represented 1.8% of net sales as compared with 1.9% of net sales in the prior year.

Restructuring and other costs during the first nine months of 2011 were \$0.5 million and primarily related to an additional \$0.9 million of restructuring costs associated with our 2007 restructuring of our PCC merchant facility in Germany. This was partially offset by reversals of previously recorded liabilities. Restructuring and other costs during the first nine months of 2010 were \$0.9 million and primarily related to railcar lease early termination costs associated with the announced plant closures of our Franklin, Virginia and Plymouth, North Carolina satellite facilities and additional net provisions for severance and other employee benefits.

Income from Operations (millions of dollars)	Nine Months 2011	Nine Months 2010	Growth
Income from operations	\$ 75.2	\$ 75.5	0%

The Company recorded income from operations in the first nine months of 2011 of \$75.2 million as compared with \$75.5 million in the prior year. Income from operations represented 9.5% of net sales as compared with 9.9% of net sales in the prior year.

Income from operations for the Specialty Minerals segment decreased 1% to \$57.1 million from \$57.4 million in the prior year. Income from operations for the Refractories segment increased 4% to \$22.2 million from \$21.4 million in the prior year.

Non-Operating Income (Deductions) (millions of dollars)	Nine months 2011	Nine months 2010	Growth
---	------------------------	------------------------	--------

Non-operating income (deductions), net	\$ (3.3)	\$ 0.3	*%
---	----------	--------	----

* Percentage not meaningful

Non-operating deductions were \$3.3 million in the first nine months of 2011 as compared with net non-operating income of \$0.3 million in the prior year. Included in non-operating deductions for the first nine months of 2011 are foreign currency translation losses recognized upon deconsolidation of the Company's joint venture in Korea. Included in the non-operating income for the first nine months of 2010 was a gain on the sale of previously impaired assets of \$0.2 million and a settlement relating to a customer contract termination of \$0.8 million.

Provision for Taxes on Income (millions of dollars)	Nine months 2011	Nine months 2010	Growth
Provision for taxes on income	\$ 21.7	\$ 22.6	(4)%

Provision for taxes on income during the first nine months of 2011 was \$21.7 million as compared to \$22.6 million during the first nine months of 2010. The effective tax rate for the first nine months of 2011 was 30.2% as compared to 29.8% for the first nine months of 2010. The rate for 2011 was affected by the foreign currency translation loss for Korea for which the Company could not record a tax benefit.

Consolidated net income, net of tax (millions of dollars)	Nine months 2011	Nine months 2010	Growth
Income (loss) from continuing operations	\$ 50.2	\$ 53.2	(6)%

The Company recorded consolidated net income, net of tax, of \$50.2 million as compared with \$53.2 million in the prior year.

Non-controlling Interests (million of dollars)	Nine months 2011	Nine months 2010	Growth
Net income (loss)	\$ 2.3	\$ 2.2	5%

The increase in the income attributable to non-controlling interests was due to slightly higher profitability in our joint ventures.

Net Income Attributable to MTI (millions of dollars)	Nine months 2011	Nine months 2010	Growth
Net income	\$ 47.9	\$ 51.0	(6)%

Net income attributable to MTI was \$47.9 million for the first nine months of 2011 as compared with income of \$51.0 million in the prior year. Diluted earnings per common share were \$2.62 for the first nine months of 2011 as compared with earnings per share of \$2.73 in the prior year.

Liquidity and Capital Resources

Cash flows provided from operations in the first nine months of 2011 were principally used to fund capital expenditures, repurchase shares of Company stock, and pay the Company's dividend to common shareholders. Cash provided from operating activities amounted to \$92.9 million in the first nine months of 2011 as compared with \$108.1 million for the same period last year.

Working capital is defined as trade accounts receivable, trade accounts payable and inventories. Working capital decreased approximately 2% from December 2010. Total days of working capital decreased four days to 55 days in

the third quarter of 2011 from 59 days in the fourth quarter of 2010. This decrease was due to a reduction of working capital combined with higher sales levels at the end of third quarter 2011 as compared with the fourth quarter 2010.

On February 22, 2010, the Company's Board of Directors authorized the Company's management to repurchase, at its discretion, up to \$75 million shares of Company stock over a two-year period. As of October 2, 2011, 1,278,606 shares were purchased under this program at an average price of approximately \$58.66 per share. This program has been completed.

The Company's Board of Directors has authorized the Company's management to repurchase, at its discretion, up to \$75 million of additional shares over a two-year period upon completion of the existing program.

The following table summarizes our contractual obligations as of October 2, 2011:

Contractual Obligations

(millions of dollars)	Total	Payments Due by Period			
		Less Than 1 Year	1-3 Years	3-5 Years	After 5 Years
Debt	\$ 94.3	\$ 8.6	\$ 77.5	\$ 8.2	\$ --
Operating lease obligations	20.2	3.6	4.8	4.0	7.8
Total contractual obligations	\$114.5	\$ 12.2	\$ 82.3	\$ 12.2	\$ 7.8

The Company had \$186 million in uncommitted short-term bank credit lines, of which \$5.4 million were in use at October 2, 2011. Our credit lines are primarily in the US, with approximately \$16 million or 8% outside the US. The credit lines are generally one year in term at competitive market rates at large well-established institutions. The Company typically uses its available credit lines to fund working capital requirement or local capital spending needs. We anticipate that capital expenditures for 2011 should be between \$50 million and \$60 million, principally related to the construction of PCC plants and other opportunities that meet our strategic growth objectives. We expect to meet our other long-term financing requirements from internally generated funds and where appropriate, project financing of certain satellite plants. The aggregate maturities of long-term debt are as follows: remainder of 2011 - \$0.6 million; 2012 - \$8.5 million; 2013 - \$77.0 million; 2014 - \$8.2 million; thereafter - \$0.0 million.

Cautionary Statement for “Safe Harbor” Purposes under the Private Securities Litigation Reform Act of 1995

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by or on behalf of the Company. This report contains statements that the Company believes may be “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, particularly statements relating to the Company’s objectives, plans or goals, future actions, future performance or results of current and anticipated products, sales efforts, expenditures, and financial results. From time to time, the Company also provides forward-looking statements in other publicly-released materials, both written and oral. Forward-looking statements provide current expectations and forecasts of future events such as new products, revenues and financial performance, and are not limited to describing historical or current facts. They can be identified by the use of words such as “believes,” “expects,” “plans,” “intends,” “anticipates,” and other words and phrases of similar meaning.

Forward-looking statements are necessarily based on assumptions, estimates and limited information available at the time they are made. A broad variety of risks and uncertainties, both known and unknown, as well as the inaccuracy of assumptions and estimates, can affect the realization of the expectations or forecasts in these statements. Many of these risks and uncertainties are difficult to predict or are beyond the Company’s control. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially. Significant factors affecting the expectations and forecasts are set forth under “Item 1A — Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010, and in Exhibit 99 to this Quarterly Report on Form 10-Q.

The Company undertakes no obligation to update any forward-looking statements to reflect events or circumstances that arise after the date hereof. Investors should refer to the Company’s subsequent filings under the Securities Exchange Act of 1934 for further disclosures.

Recently Issued Accounting Standards

We do not expect the adoption of any recent accounting pronouncements to have a material effect on the financial statements of the Company.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles.

The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

On an ongoing basis, we evaluate our estimates and assumptions, including those related to revenue recognition, allowance for doubtful accounts, valuation of inventories, valuation of long-lived assets, pension plan assumptions, stock-based compensation assumptions, income taxes, income tax valuation allowances and litigation and environmental liabilities. We base our estimates on historical experience and on other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that can not readily be determined from other sources. There can be no assurance that actual results will not differ from those estimates.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows due to adverse changes in market prices and foreign currency and interest rates. We are exposed to market risk because of changes in foreign currency exchange rates as measured against the U.S. dollar. We do not anticipate that near-term changes in exchange rates will have a material impact on our future earnings or cash flows. However, there can be no assurance that a sudden and significant decline in the value of foreign currencies would not have a material adverse effect on our financial condition and results of operations. Approximately 48% of our bank debt bears interest at variable rates; therefore our results of operations would only be affected by interest rate changes to such outstanding bank debt. An immediate 10 percent change in interest rates would not have a material effect on our results of operations over the next fiscal year.

We do not enter into derivatives or other financial instruments for trading or speculative purposes. When appropriate, we enter into derivative financial instruments, such as forward exchange contracts and interest rate swaps, to mitigate the impact of foreign exchange rate movements and interest rate movements on our operating results. The counterparties are major financial institutions. Such forward exchange contracts and interest rate swaps would not subject us to additional risk from exchange rate or interest rate movements because gains and losses on these contracts would offset losses and gains on the assets, liabilities, and transactions being hedged. We have open forward exchange contracts to purchase approximately \$1.3 million of foreign currencies as of October 2, 2011. The contracts mature between November 2011 and January of 2012. The fair value of these instruments at October 2, 2011 was an asset of \$0.2 million.

In 2008, the Company entered into forward contracts to sell 30 million Euros as a hedge of its net investment in Europe. These contracts mature in October 2013. The fair value of these instruments at October 2, 2011 was an asset of \$2.6 million.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, and under the supervision and with participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, pursuant to Exchange Act Rule 13a-15(b). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of October 2, 2011.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting during the quarter ended October 2, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

Certain of the Company's subsidiaries are among numerous defendants in a number of cases seeking damages for exposure to silica or to asbestos containing materials. The Company currently has 76 pending silica cases and 25 pending asbestos cases. To date, 1,389 silica cases and 8 asbestos cases have been dismissed. Most of these claims do not provide adequate information to assess their merits, the likelihood that the Company will be found liable, or the magnitude of such liability, if any. Additional claims of this nature may be made against the Company or its subsidiaries. At this time management anticipates that the amount of the Company's liability, if any, and the cost of defending such claims, will not have a material effect on its financial position or results of operations.

The Company has not settled any silica or asbestos lawsuits to date. We are unable to state an amount or range of amounts claimed in any of the lawsuits because state court pleading practices do not require identifying the amount of the claimed damage. The aggregate cost to the Company for the legal defense of these cases since inception was approximately \$0.1 million, the majority of which has been reimbursed by Pfizer Inc pursuant to the terms of certain agreements entered into in connection with the Company's initial public offering in 1992. Our experience has been that the Company is not liable to plaintiffs in any of these lawsuits and the Company does not expect to pay any settlements or jury verdicts in these lawsuits.

Environmental Matters

On April 9, 2003, the Connecticut Department of Environmental Protection ("DEP") issued an administrative consent order relating to our Canaan, Connecticut, plant where both our Refractories segment and Specialty Minerals segment have operations. We agreed to the order, which includes provisions requiring investigation and remediation of contamination associated with historic use of polychlorinated biphenyls ("PCBs") and mercury at a portion of the site. Historic documentation indicates that PCBs and mercury were first used at the contaminated portion of the facility at a time of U.S. government ownership for production of materials needed by the military during World War II, the Korean War, and the subsequent Cold War period.

The following is the present status of the remediation efforts:

- **Building Decontamination.** We have completed the investigation of building contamination and submitted several reports characterizing the contamination. We are awaiting review and approval of these reports by the regulators. Based on the results of this investigation, we believe that the contamination may be adequately addressed by means of encapsulation through painting of exposed surfaces, pursuant to the Environmental Protection Agency's ("EPA") regulations and have accrued such liabilities as discussed below. However, this conclusion remains uncertain pending completion of the phased remediation decision process, including a site-specific risk assessment required by the regulators.
- **Groundwater.** We have completed investigations of potential groundwater contamination and have submitted a report on the investigations finding that there is no PCB or mercury contamination, but some oil contamination of the groundwater. We expect the regulators to require confirmatory long term groundwater monitoring at the site.
- **Soil.** We have completed investigations of soil contamination and submitted reports characterizing contamination to the regulators. Based on the results of these investigations

we believe that, with minor exceptions, the contamination may be left in place and monitored, pursuant to the site-specific risk assessment, which is underway. However, this conclusion is subject to completion of a phased remediation decision process required by applicable regulations.

We believe that the most likely form of overall site remediation will be to leave existing contamination in place, encapsulate it, and monitor the effectiveness of the encapsulation. We anticipate that a substantial portion of the remediation cost will be borne by the United States based on its involvement at the site from 1942 – 1964. Though the cost of the likely remediation above remains uncertain pending completion of the phased remediation decision process, we have estimated that the Company's share of the cost of the encapsulation and limited soil removal described above would approximate \$400,000, which has been accrued as of October 2, 2011.

The Company is evaluating options for upgrading the wastewater treatment facilities at its Adams, Massachusetts plant. This work has been undertaken pursuant to an administrative Consent Order originally issued by the Massachusetts Department of Environmental Protection ("DEP") on June 18, 2002. This order was amended on June

1, 2009 and on June 2, 2010. The amended Order includes the investigation by January 1, 2022 of options for ensuring that the facility's wastewater treatment ponds will not result in unpermitted discharge to groundwater. Additional requirements of the amendment include the submittal by July 1, 2022 of a plan for closure of a historic lime solids disposal area. Preliminary engineering reviews completed in 2005 indicate that the estimated cost of wastewater treatment upgrades to operate this facility beyond 2024 may be between \$6 million and \$8 million. The Company estimates that the remaining remediation costs would approximate \$400,000, which has been accrued as of October 2, 2011.

The Company and its subsidiaries are not party to any other material pending legal proceedings, other than routine litigation incidental to their businesses.

ITEM 1A. Risk Factors

There have been no material changes to our risk factors from those disclosed in our 2010 Annual Report on Form 10-K. For a description of Risk Factors, see Exhibit 99 attached to this report.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of the Publicly Announced Program	Dollar Value of Shares that May Yet be Purchased Under the Program
July 4 – July 31	46,202	\$ 64.82	941,006	\$ 18,377,025
August 2 – August 29	130,600	\$ 56.30	1,071,606	\$ 11,024,472
August 30 – October 3	207,000	\$ 53.25	1,278,606	\$ 1,614
Total	383,802	\$ 55.68		

On February 22, 2010, the Company's Board of Directors authorized the Company's management to repurchase, at its discretion, up to \$75 million of additional shares over the next two-year period. As of October 2, 2011, 1,278,606 shares were purchased under this program at an average price of approximately \$58.66 per share. This program has been completed.

The Company's Board of Directors has authorized the Company's management to repurchase, at its discretion, up to \$75 million of additional shares over a two-year period upon completion of the existing program.

ITEM 3. Default Upon Senior Securities

Not applicable.

ITEM 5. Other Information

Section 1503 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Reform Act”) contains certain reporting requirements regarding coal or other mine safety. The Company, through its subsidiaries Specialty Minerals Inc. and Barretts Minerals Inc., operates four mines or mine complexes in the United States. The operation of our mines is subject to regulation by the federal Mine Safety and Health Administration (“MSHA”) under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”). MSHA inspects our mines on a regular basis and issues various citations and orders when it believes a violation has occurred under the Mine Act.

The following table sets forth the information required by the Reform Act with respect to each mine or mine complex for which we are the operator for the period July 4, 2011 to October 2, 2011 (number of occurrences, except for proposed assessment dollar values):

Mining Complex	Section 104(a) S&S (A)	Section 104(b) (B)	Section 104(d) (C)	Section 110(b)(2) (D)	Section 107(a) (E)	Proposed Assessments (F)	Fatalities (G)
Lucerne Valley, CA	0	0	0	0	0	\$28,204	0
Canaan, CT	2	0	0	0	0	\$3,868	0
Adams, MA	0	0	0	0	0	\$0	0
Dillon, MT**	1	0	0	0	0	\$300*	0

* As of the date of this report, we have not received proposed assessments for certain additional violations issued during this period for this location.

** The Barretts Minerals Inc mining complex at Dillon, MT consists of three mines separately identified by MSHA.

(A) The total number of violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a mine safety or health hazard under section 104 of the Mine Act for which we received a citation from MSHA.

(B) The total number of orders issued under section 104(b) of the Mine Act.

(C) The total number of citations and orders for unwarrantable failure of the Company to comply with mandatory health or safety standards under section 104(d) of the Mine Act.

(D) The total number of flagrant violations under section 110(b)(2) of the Mine Act.

(E) The total number of imminent danger orders issued under section 107(a) of the Mine Act.

(F) The total dollar value of proposed assessments from MSHA under the Mine Act.

(G) The total number of mining-related fatalities.

During the period July 4 to October 2, 2011, we did not receive any written notice from MSHA, with respect to any mine or mine complex for which we are the operator, of (A) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of mine health and safety hazards under section 104(e) of the Mine Act or (B) the potential to have such a pattern.

As of October 2, 2011, we had eleven pending legal actions before the Federal Mine Safety and Health Review Commission, all resulting from a recent MSHA inspection of the Lucerne Valley, California facility. We have no other legal actions before the Commission involving any other mine or mine complex for which we are the operator.

ITEM 6. Exhibits

Exhibit No.	Exhibit Title
10.1	Fourth Amendment to the Company's Savings and Investment Plan
