GRUPO SIMEC ANNOUNCES FINAL AUDITED RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2005

GUADALAJARA, MEXICO, May 4, 2006- Grupo Simec, S.A. de C.V. (AMEX-SIM) ("Simec") announced today its final audited results of operations for the year ended December 31, 2005. Net sales increased 119% to Ps. 12,883 million in 2005 compared to Ps. 5,872 million in 2004, primarily due to the inclusion for the full year 2005 of net sales generated by the plants in Apizaco and Cholula acquired in August 2004, of Ps. 2,732 million as well as Ps. 6,220 million generated by the newly acquired plants of PAV Republic, Inc. ("Republic") in July 2005. Simec recorded net income of Ps. 1,272 million in 2005 versus net income of Ps. 1,453 million in 2004.

On July 22, 2005 Simec and its parent company Industrias CH, S.A. de C.V. ("ICH") acquired 100% of the stock of Republic. Simec, ICH's largest subsidiary, acquired 50.2% of Republic's stock, and ICH purchased the remaining 49.8%. The cash purchase price of U.S. \$229 million was financed by internally generated funds. At December 30, 2005, the total amount of Republic's liabilities was U.S. \$37.7 million (Ps. 407 million), with a weighted average cost per year of 5.87%. Republic is the leading producer of special bar quality (SBQ) steel in the United States and, together with Simec, they are the largest producer of this kind of steel in North America.

On September 10, 2004, Simec completed the acquisition of the property, plant and equipment and inventories, and assumed liabilities associated with seniority premiums of employees of the Mexican steel-making facilities of Industrias Ferricas del Norte, S.A. (Corporacion Sidenor of Spain) located in Apizaco, Tlaxcala and Cholula, Puebla. Simec's total investment in this transaction was approximately U.S. \$135 million, funded with internally generated resources of Simec and capital contributions from its parent company ICH of U.S. \$19 million for capital stock issued in the second quarter of 2005. Simec began to operate the plants on August 1, 2004, and, as a result, the operations of both plants are reflected in Simec's financial results as of such date.

Simec sold 1,711,315 metric tons of basic steel products during 2005 (including 413,925 metric tons produced by the newly acquired plants in Apizaco and Cholula and 674,957 metric tons produced by the newly acquired plants of Republic), an increase of 121% as compared to 773,297 metric tons in 2004 (including 155,614 metric tons produced by the newly acquired plants in Apizaco and Cholula). Exports (including sales by U.S. subsidiaries) of basic steel products were 809,083 metric tons in 2005 (including 19,261 metric tons produced by the newly acquired plants in Apizaco and Cholula and 674,957 metric tons generated by the newly acquired plants of Republic) versus 97,126 metric tons in 2004. Additionally Simec sold 14,487 metric tons of billet in 2005 as compared to 41,832 metric tons of billet in 2004. Prices of finished products (excluding the sales of Republic) sold in 2005 decreased 14% in real terms versus 2004.

Simec's direct cost of sales increased 206% to Ps. 10,304 million in 2005 (including Ps. 2,015 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 5,863 million relating to the newly acquired plants of Republic) compared to Ps. 3,413 million in 2004 (including Ps. 862 million relating to the newly acquired plants in Apizaco and Cholula). The average cost of raw materials used to produce steel products (excluding the

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

production of Republic) increased 1% in real terms in 2005 versus 2004, primarily as a result of increases in the price of scrap and certain other raw materials.

Indirect manufacturing, selling, general and administrative expenses (including depreciation) were Ps. 1,011 million during 2005 (including Ps. 247 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 269 million relating to the newly acquired plants of Republic), compared to Ps. 590 million in 2004 (including Ps. 75 million relating to the newly acquired plants in Apizaco and Cholula).

Simec's operating income decreased 16% to Ps. 1,567 million during 2005 (including Ps. 470 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 87 million relating to the newly acquired plants of Republic) from Ps. 1,869 million in 2004 (including Ps. 296 million relating to the newly acquired plants in Apizaco and Cholula). Operating income was 12% of net sales in 2005 compared to 32% of net sales in 2004.

Simec recorded other income, net, from other financial operations of Ps. 55 million in 2005 compared to other expense, net, of Ps. 38 million in 2004. In addition, Simec recorded a provision for income tax and employee profit sharing of Ps. 190 million in 2005 versus a provision of Ps. 341 million in 2004.

Simec recorded financial expense of Ps. 144 million in 2005 compared to financial expense of Ps. 37 million in 2004 as a result of (i) net interest expense of Ps. 16 million in 2005 compared to Ps. 6 million of net interest income in 2004, (ii) an exchange loss of Ps. 75 million in 2005 compared to an exchange gain of Ps. 4 million in 2004 reflecting an increase of 4.3% in the value of the peso versus the dollar in 2005 compared to a decrease of 0.3% in the value of the peso versus the dollar in 2004 and (iii) a loss from monetary position of Ps. 53 million in 2005 compared to a loss from monetary position of Ps. 47 million in 2004, reflecting the domestic inflation rate of 3.3% in 2005 compared to the domestic inflation rate of 5.2% in 2004 and lower debt levels during the 2005 period.

At December 31, 2005, Simec's total consolidated debt consisted of approximately \$38 million of U.S. dollar-denominated debt. At December 31, 2004, Simec had outstanding approximately \$13.9 million of U.S. dollar-denominated debt.

All figures were prepared in accordance with Mexican generally accepted accounting principles and are stated in constant Pesos at December 31, 2005.

Simec is a mini-mill steel producer in Mexico and manufactures a broad range of non-flat structural steel products and its subsidiary Republic is the leading producer of special bar quality (SBQ) steel in the United States.

FINANCIAL STATEMENT NOTES

CONSOLIDATED

PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

On September 10, 2004 Simec completed the acquisition of the property, plant and equipment and the inventories, and assumed liabilities associated with seniority premiums of employees, of the Mexican steel-making facilities of Industrias Ferricas del Norte, S.A. (Corporacion Sidenor of Spain) located in Apizaco, Tlaxcala and Cholula, Puebla. Simec estimates that its total investment in this transaction was approximately U.S. \$135 million. Simec began to operate the plants in Apizaco, Tlaxcala and Cholula, Puebla on August 1, 2004, and, as a result, the operation of both plants is reflected in Simec's financial results as of such date.

On July 22, 2005 Simec and its parent company ICH have acquired 100% of the Stock of PAV Republic, Inc. ("Republic"). Simec, ICH's largest subsidiary, has acquired 50.2% of Republic's stock, and ICH purchased the remaining 49.8%. The cash purchase price of USD \$229 million was financed by internally generated funds. Republic is the leading producer of special bar quality (SBQ) steel in the United States and, together with Simec, will become the largest producer of this kind of steel in North America. Simec began to operate the plants of Republic on July 22, 2005 and, as a result the operation is reflected in Simec's financial results as of such date.

According with the established in the articles 35 and 81 of the dispositions of general character applicable to the registrants and other participants of the market of values in Mexico, next consolidated earning statements from January 1 to December 31, appear pro forma of Simec by the period 2005 and 2004, in order to be comparable and the consolidated balance sheet appear Pro Forma of Simec at December 31, 2004 in order to be comparable against December 31, 2005.

s39 Premium in subscription of Capital Stock made in March 29, 2001 and April 29, 2005.

s44 In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and

employee profit sharing that result from enterprise activities during the current and preceding years. Simec's long-term liabilities resulted of the adoption of this Bulletin was Ps. 1,503,308 at December 31, 2005 compared to Ps. 1,480,919 at December 31, 2004. The effect on Simec's consolidated statement of income in 2005, was an increase of Ps. 110,997 in the provision for income tax and employee profit sharing compared to an increase of Ps. 318,396 in 2004. These provisions do not affect the cash flow of Simec.

QUARTER: 4 YEAR: 2005

DIRECTOR REPORT

ANNEX 1

CONSOLIDATED

JUDGED INFORMATION

INFORMATION CONCERNING LIQUIDITY AND CAPITAL RESOURCES AND DEBT OBLIGATIONS WITH BANKS AND COMMERCIAL CREDITORS

Liquidity and Capital Resources

At December 31, 2005, Simec's total consolidated debt consisted of U.S. \$38 million (Ps. 410 million), of which \$33.4 million is debt held by GE Capital, \$4.3 million dollars held by the Ohio Department of Development Loan, and U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at December 31, 2005 was U.S. 309,311 dollars). At December 31, 2004, Simec had outstanding approximately \$13.9 million of U.S. dollar-denominated debt.

On July 22, 2005, Simec and its parent company Industrias CH, S.A. de C.V. ("ICH") acquired 100% of the stock of PAV Republic, Inc. ("Republic"). Simec, ICH's largest subsidiary, acquired 50.2% of Republic's stock, and ICH purchased the remaining 49.8%. The cash purchase price of U.S. \$229 million was financed by internally generated funds. At December 31, 2005, the total amount of Republic's liabilities was of U.S. \$37.7 million (Ps. 407 million), with a weighted average cost per year of 5.87%. Republic is the leading producer of special bar quality (SBQ) steel in the United States and, together with Simec, is the largest producer of this kind of steel in North America.

On September 10, 2004, Simec completed the acquisition of the property, plant and equipment and the inventories, and assumed liabilities associated with seniority premiums of employees of the Mexican steel-making facilities of Industrias Ferricas del Norte, S.A. (Corporacion Sidenor of Spain) located in Apizaco, Tlaxcala and Cholula, Puebla. Simec's total investment in this transaction was approximately U.S. \$135 million, funded with internally generated resources of Simec and capital contributions from ICH of U.S. \$19 million for capital stock issued in the second quarter of 2005. Simec began operating the plants in Apizaco, Tlaxcala and Cholula, Puebla on August 1, 2004, and, as a result, the operation of both plants is reflected in Simec's financial results as of such date.

Net resources used by operations were Ps. 1,960 million in 2005 (including the effects of the acquisition of Republic) versus Ps. 909 million of net resources provided by operations in 2004. Net resources used by financing activities were Ps. 1,058 million in 2005 versus Ps. 401 million of net resources provided by financing activities in 2004 (which amount reflects the prepayment of Ps. 20 million (U.S. \$1.7 million) of bank debt, a capital contribution from ICH to Simec in the amount of Ps. 229 million (\$19 million) for capital stock to be issued in the future and a capital contribution of certain minority shareholders of Simec for Ps. 24 million). Net resources used in investing activities (to acquire property, plant and equipment and other non-current assets) were Ps. 1,217 million in 2005 (including Ps. 1,218 from the acquisition of the Republic facilities) versus net resources used in investing activities of Ps. 1,349 million in 2004 (which amount reflects the acquisition of the Apizaco and Cholula facilities).

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Year Ended December 31, 2005 compared to Year Ended December 31, 2004

Net Sales

Net sales of Simec increased 119% to Ps. 12,883 million in 2005 (including the net sales generated by the newly acquired plants in Apizaco and Cholula of Ps. 2,732 million and the newly acquired plants of Republic of Ps. 6,220 million), compared to Ps. 5,872 million in 2004 (including the net sales generated by the newly acquired plants in Apizaco and Cholula of Ps. 1,233 million). Sales in metric tons of basic steel products increased 121% to 1,711,315 metric tons in 2005 (including 413,925 metric tons generated by the newly acquired plants in Apizaco and Cholula and 674,957 metric tons generated by the newly acquired plants of Republic) compared to 773,297 metric tons in 2004 (including 155,614 metric tons relating to the newly acquired plants in Apizaco and Cholula). Exports (including sales by U.S. subsidiaries) of basic steel products increased 733% to 809,083 metric tons in 2005 (including 19,261 tons relating to the newly acquired plants in Apizaco and Cholula and 674,957 metric tons generated by the newly acquired plants of Republic) versus 97,126 metric tons in the same period of 2004 (including 12,394 metric tons relating to the newly acquired plants in Apizaco and Cholula). Additionally, Simec sold 14,487 metric tons of billet in 2005, compared to 41,832 tons of billet in 2004. The average price of steel products (excluding the sales of Republic) decreased 14% in real terms in 2005 versus 2004.

Direct Cost of Sales

Simec's direct cost of sales increased 202% to Ps. 10,304 million in 2005 (including Ps. 2,015 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 5,863 million relating to the newly acquired plants of Republic) compared to Ps. 3,413 million in 2004 (including Ps. 862 million relating to the newly acquired plants in Apizaco and Cholula). Direct cost of sales as a percentage of net sales was 80% in 2005 compared to 58% in the same period of 2004. The average cost of raw materials used to produce steel products (excluding the production of Republic) increased 1% in real terms in 2005 versus 2004, primarily as a result of increases in the price of scrap and certain other raw materials.

Marginal Profit

Simec's marginal profit increased 5% to Ps. 2,579 million in 2005 (including Ps. 717 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 357 million relating to the newly acquired plants of Republic) compared to Ps. 2,459 million in 2004 (including Ps. 371 million relating to the newly acquired plants in Apizaco and Cholula). As a percentage of net sales, marginal profit was 20% in 2005 compared to 42% in 2004.

Indirect Manufacturing, Selling, General and Administrative Expenses

Indirect manufacturing, selling, general, and administrative expenses (which include depreciation and amortization) increased 72% to Ps. 1,012 million in 2005 (including Ps. 247 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 269 million relating to the newly acquired plants of Republic) from Ps. 589 million in 2004 (including Ps. 75 million relating to the newly acquired plants in Apizaco and Cholula); Simec recorded an increase of Ps. 107 million in depreciation and amortization expense, which in 2005 was Ps. 328 million (including Ps. 60 million relating to the newly acquired plants in

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

Apizaco and Cholula and Ps. 72 million relating to the newly acquired plants of Republic) compared to Ps. 221 million in 2004 (including Ps. 10 million relating to the newly acquired plants in Apizaco and Cholula).

Operating Income

Simec's operating income decreased 16% to Ps. 1,567 million in 2005 (including Ps. 470 million relating to the newly acquired plants in Apizaco and Cholula and Ps. 87 million relating to the newly acquired plants of Republic) compared to Ps. 1,870 million in 2004 (including Ps. 296 million relating to the newly acquired plants in Apizaco and Cholula). Operating income was 12% of net sales in 2005 and 32% of net sales in 2004.

Financial Income (Expense)

Simec recorded financial expense of Ps. 144 million in 2005 compared to financial expense of Ps. 38 million in 2004. Simec recorded an exchange loss of approximately Ps. 75 million in 2005 compared to an exchange gain of Ps. 4 million in 2004, reflecting a 4.3% increase in the value of the peso versus the dollar in 2005 compared to a 0.3% decrease in the value of the peso versus the dollar in the same period of 2004. Net interest expense was Ps. 16 million in 2005 versus net interest income of Ps. 5 million in 2004. Simec recorded a loss from monetary position of Ps. 53 million in 2005 compared to a loss from monetary position of Ps. 47 million in the same period of 2004, reflecting the domestic inflation rate of 3.3% in 2005 as compared to 5.2% in the same period of 2004 and lower debt levels during 2005.

Other Income (Expense), Net

Simec recorded other income, net, of Ps. 55 million in 2005 (including Ps. 67 million relating to the amortization of negative goodwill) compared to other expense, net, of Ps. 38 million in 2004 (reflecting (i) income from the recovery of an account recorded as a doubtful account of Ps. 14 million, (ii) a reserve of Ps. 6 million relating to clean-up of contaminated land at the Pacific Steel facilities, (iii) a reserve of Ps. 13 million relating to the realizable value of idle machinery and equipment, (iv) a reserve for doubtful accounts of Ps. 10 million, and (v) other expense related to other financial operations of Ps. 23 million).

Income Tax and Employee Profit Sharing

Simec recorded a provision of Ps. 190 million for income tax and employee profit sharing in 2005 (including a provision of Ps. 111 million from the application of Bulletin D-4 with respect to deferred income tax described below) compared to a provision of Ps. 341 million in 2004 (including a provision of Ps. 318 million from the application of Bulletin D-4 with respect to deferred income tax described below).

Net Income Before Minority Interest

Simec recorded net income before minority interest of Ps. 1,289 million in 2005 compared to net income before minority interest of Ps. 1,453 million in 2004.

Minority Interest

Simec recorded minority interest of Ps. 17 million in 2005 versus no minority interest recorded in 2004. The minority interest reflects the 49.8% interest in Republic held by ICH.

Net Income

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

As a result of the foregoing Simec recorded net income of Ps. 1,271 million in 2005 compared to net income of Ps. 1,453 million in 2004.

Purchase Price Accounting

Under purchase price accounting (US accounting standard FASB #141) the company is required to value the assets (current assets, primarily inventories, property, plant & equipment and intangible assets) and liabilities (primarily deferred taxes) at market as of the purchase date. The purchase price accounting adjustments were recorded on the opening balance sheet for Republic. Due to our higher basis in the inventory (market value rather than production costs) our cost of sales expense increased approximately \$17.6 million in July, August and September. This provision does not affect the cash flow of Simec.

Pronouncements Applicable to Mexican GAAP

In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years. Simec's long-term liability resulting from the adoption of this Bulletin was Ps. 1,503 million at December 31, 2005 compared to Ps. 1,481 million at December 31, 2004. The effect on Simec's consolidated statement of income in

2005 was an increase of Ps. 79 million in the provision for income tax and employee profit sharing compared to an increase in the provision of Ps. 318 million in 2004. These provisions do not affect the cash flow of Simec.

STOCK EXCHANGE CODE: SIMEC
GRUPO SIMEC, S.A. DE C.V.

QUARTER: 4 YEAR: 2005

FINANCIAL STATEMENT NOTES

JUDGED INFORMATION ANNEX 2 CONSOLIDATED

(1) Operations preparation bases and summary of significant accounting policies:

Grupo Simec, S.A. de C.V. and its Subsidiaries ("the Company") are subsidiaries of Industrias CH, S.A. de C.V. ("ICH"), and their main activities consist of the manufacturing and sale of steel products primarily destined for the construction sector of Mexico and other countries.

Significant accounting policies and practices followed by the Companies which affect the principal captions of the financial statements are described below:

a. Financial statement presentation - The consolidated financial statements have been prepared in accordance with principles generally accepted in Mexico, which include the recognition of the effects of inflation on the financial information and the presentation in constant Mexican pesos.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

b. Principles of Consolidation - As part of the financial debt restructuring agreement into during 1997, Compania Siderurgica de Guadalajara, S.A. de C.V. ("CSG") assumed all of the debt of the Company in return for an equity interest in its subsidiaries. As a result of the above, the Company is the principal shareholder of CSG, and CSG is the principal shareholder of the other subsidiaries that Grupo Simec, S.A. de C.V. ("Simec") controlled before the restructuring.

The main subsidiaries of CSG are the following:

- o Compania Siderurgica de California, S.A. de C.V.
- o Industrias del Acero y del Alambre, S.A. de C.V.
- o Pacific Steel Inc.
- o SimRep Corporation and PAV Republic and Subsidiaries

All significant intercompany balances and transactions have been eliminated in consolidation.

c. Cash and cash equivalents - The Company considers short-term investments with original maturities not greater than three months to be cash equivalent. Cash equivalents includes temporary investments and Mexican Government Treasury Bonds, and are stated at market value, which approximates cost plus earned interest. Any increase in market value is credited to operations for the period.

d. Inventories - The inventories are originally stated at average cost and subsequently adjusted to replacement value at the balance sheet date. The replacement values do not exceed market and are determined as follows:

Billet finished goods and work in process - At the latest production cost for the month.

Raw materials - According to purchase prices prevailing in the market at the balance sheet date.

Materials, supplies and rollers - At historical cost, restated by applying the steel industry inflation index.

The Company presents as non-current inventories the rollers and spare parts, which according to historical data and production trends will not be used within a one-year period.

e.- Derivative financial instruments-- The Company is using derivative financial instruments for hedging risks associated with natural gas prices and conducted studies on historical consumption, future requirements and commitments; thus it avoided exposure to risks other than the normal operating risks. Management of the Company examines its financial risks by continually analyzing price, credit and liquidity risks.

The Company uses futures contracts for hedging risks from fluctuations in natural gas prices, which are based on demand and supply at the principal international markets.

As applicable, the Company recognized the fair value of instruments either as liabilities or assets. Such fair value and thus, the value of these assets or liabilities were restated at each month's-end. The Company opted for the early adoption of Bulletin C-10 "Derivative Financial Instruments and Hedging"; therefore, at December 31, 2003 the fair value of natural gas in force during 2004, 2005 and 2006 and which effective portions will not be offset against the

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

asset risks until consumed, were recognized within the comprehensive income account in stockholders' equity.

f. Property, plant and equipment - Property, plant and equipment of domestic origin are restated by using factors derived from The National Consumer Price Index ("NCPI") from the date of their acquisition, and imported machinery and equipment are restated by applying devaluation and inflation factors of the country of origin. Depreciation recorded in the consolidated statement of income (loss) is computed based upon the estimated useful life and the restated cost of each asset. In addition, Financial expense incurred during the construction period is capitalized as construction in progress. The capitalized amounts are restated using a factor derived from the NCPI cumulative from the date of capitalization through period-end and are amortized over the average depreciation period of the corresponding assets. The estimated useful lives of assets as of December 31, 2005 are as follows:

	Years -----
Buildings.....	15 to 50
Machinery and equipment	10 to 40
Buildings and improvements (Republic).....	10 to 25
Land improvements (Republic)	5 to 25
Machinery and equipment (Republic)	5 to 20

g. Other assets - Organization and pre-operating expenses are capitalized and restated using a factor derived from the NCPI cumulative from the date of generation through period-end, and their amortization is calculated by the straight-line method over a period of 20 years.

h. Seniority premiums and severance payments - According to Federal Labor Law, employees are entitled to seniority premiums after fifteen years or more of services. These premiums are recognized as expenses in the years in which the services are rendered, using actuarial calculations based on the projected unit credit method, and since 1996 by applying real interest and salary increases.

Any other payments to which employees may be entitled in case of separation, disability or death, are charged to operations in the period in which they become payable.

i. Pension plan - Until 1995, the Company provided pension benefits for all personnel with a minimum of 10 years of service and 35 years of age. The Company had established an irrevocable trust for its contributions, which were based on actuarial calculations. In December 1995, the board of directors of the Company, in agreement with the trade union, discontinued these benefits and related contributions to the trust fund. This decision was made because of the new Mexican pension fund system, Administradoras de Fondos para el Retiro, which establishes similar benefits for the employees. The balance of the trust fund will be applied to the retirement benefits of qualifying employees until the fund is exhausted due to the irrevocable status of the fund.

The Company does not have any contractual obligation regarding the payment of pensions of retirements.

j. Cost of sales - Cost of sales related to sales of inventory items is recorded at standard cost, which approximates the replacement cost at the date of sale.

k. Income tax and employee profit sharing - In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years.

The Company and its subsidiaries are included in the consolidated tax returns of the company's parent.

l. Foreign currency transactions and exchange differences - All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

The financial statements of foreign subsidiaries are translated into Mexican pesos in conformity with Bulletin B-15 "Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations".

Pacific Steel and Undershaft investments are considered to be "integrated foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary items at the exchange rate at the balance sheet date.
- Non-monetary items and stockholders' equity at the exchange rate prevailing at the date the transactions occurred.
- Income and expense items at an appropriate average exchange rate.
- The resulting foreign currency translation differences are included in the financial income (expense) in the statement of income (loss).
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.

SimRep and subsidiaries are considered to be "foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary and non-monetary items at the exchange rate at the balance sheet date.
- Income and expense items at the exchange rate at the balance sheet date.
- The resulting foreign currency translation differences are included in the stockholders' equity.
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.

m. Geographic concentration of credit risk - The Company sells its products primarily to distributors for the construction industry with no specific geographic concentration. Additionally, no single customer accounted for a significant amount of the Company's sales, and there were no significant accounts receivable from a single customer or affiliate at December 31, 2005 and 2004. The Company performs evaluations of its customers' credit histories and establishes and allowance for doubtful accounts based upon the credit risk of specific customers and historical trends.

n. Other income (expenses) - Other income (expenses) shown in the consolidated statements of operations primarily includes other financial operations.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

o. Gain on monetary position - The gain on monetary position in the consolidated statements of income (loss) is determined by applying to net monetary assets or liabilities at the beginning of each month the factor of inflation derived from the NCPI and is restated at period-end with the corresponding factor.

p. Restatement of capital stock and retained earnings (losses) - This is determined by multiplying capital stock contributions and retained earnings (losses) by factors derived from the NCPI, which measure the cumulative inflation from the date when capital stock contributions were made and earnings (losses) were generated, through the latest period-end.

q. Effect of restatement of stockholders' equity - The effect resulting from restating stockholders' equity includes the accumulated effect from holding non-monetary assets, which represents the change in the specific price level of those assets compared to the change in the NCPI.

r. Impairment of Long-Lived Assets - Long-lived assets, consisting of property, plant, and equipment, intangible assets and deferred costs, are periodically reviewed by the Company for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset, or related group of assets, may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the lesser of the recovery amount or the fair value of the assets. Measurement of fair value may be based upon appraisals, market values of similar assets or discounted cash flows. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less cost to sell and are no longer depreciated.

s. Environmental costs - The Company and other steel companies have in recent years become subject to increasingly stringent environmental laws and regulations. It is the policy of the Company to endeavor to comply with applicable environmental laws and regulations. The Company established a liability for an amount which the Company believes is appropriate, based on information currently available, to cover costs of environmental remediation it deems probable and estimable.

The recorded amounts represent estimates of the environmental remediation costs associated with future events triggering or confirming the costs that, in management's judgment, are probable. These estimates are based on currently available facts, existing technology and presently enacted laws and regulations, and take into consideration the likely effects of inflation and other societal and economic factors. The precise timing of such events cannot be reliably determined at this time due to the absence of any deadlines for remediation under the applicable environmental laws and regulations pursuant to which such remediation costs will be expended. No claims for recovery are netted against the stated amount.

(2) Financial Debt:

At December 31, 2005, Simec's total consolidated debt consisted of U.S. \$38 million (Ps. 410 million), of which \$33.4 million is debt held by GE Capital, \$4.3 million dollars held by the Ohio Department of Development Loan, and U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at December 31,

2005 was U.S. 309,311 dollars). At December 31, 2004, Simec had outstanding approximately \$13.9 million of U.S. dollar-denominated debt.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

(3) Commitments and contingent liabilities:

a. Pacific Steel, Inc. (a wholly-owned subsidiary located in the U.S.A.) has been named in various claims and suits relating to the generation, storage, transport, disposal and cleanup of materials classified as hazardous waste. The Company has accrued approximately Ps. 14,982 (U.S. \$1,390,133) at December 31, 2005, (included in accrued liabilities) relating to these actions; the reduction of this reserve from previous levels reflects clean-up activities undertaken by Simec. Management believes the ultimate liability with respect to this matter will not exceed the amounts that have been accrued.

b. The Company is subject to various other legal proceeding and claims, which have arisen, in the ordinary course of its business. It is the opinion of management that their ultimate resolution will not have a material adverse effect on the Company's consolidated financial position or consolidated results of operations.

c. Compania Siderurgica de Guadalajara, S.A. de C.V. has entered into a gas and liquid oxygen purchase agreement with Praxair de Mexico, S.A. de C.V., under which it is committed to acquire monthly over a fifteen-year period beginning January 1, 1989, a certain amount of product. At present required purchases amount to Ps. 1,436 per month.

INFORMATION RELATED TO BULLETIN B-15
(FOREIGN CURRENCY TRANSLATION)

ANNEX 14

CONSOLIDATED

JUDGED INFORMATION

Foreign currency transactions and exchange differences - All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

The financial statements of foreign subsidiaries are translated into Mexican pesos in conformity with Bulletin B-15 "Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations".

Pacific Steel and Undershaft investments are considered to be "integrated foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

- Monetary items at the exchange rate at the balance sheet date.
- Non-monetary items and stockholders' equity at the exchange rate prevailing at the date the transactions occurred.
- Income and expense items at an appropriate average exchange rate.
- The resulting foreign currency translation differences are included in the financial income (expense) in the statement of income (loss).
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.

SimRep and subsidiaries are considered to be "foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary and non-monetary items at the exchange rate at the balance sheet date.
- Income and expense items at the exchange rate at the balance sheet date.
- The resulting foreign currency translation differences are included in the stockholders' equity.
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.
