**Table of Contents****Item 8.01. Other Events.**

We are filing this Current Report on Form 8-K for the purpose of incorporating the contents of this report into the Registration Statement on Form S-3 that we intend to file on December 11, 2006.

**Consolidation of Reportable Segments**

As previously reported, beginning in the first quarter of fiscal 2007, we consolidated our Enterprise Security, Data Protection, and Storage and Server Management segments into two segments – the Security and Data Management segment and the Data Center Management segment. Pursuant to guidance provided by the Securities and Exchange Commission, we have recast in Exhibit 99.01 filed with this Current Report on Form 8-K the following items that were contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2006 ( Annual Report ), to reflect this change in reportable segments: Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations and Item 8, Financial Statements and Supplementary Data. The information included in and with this Current Report on Form 8-K is presented for information purposes only in connection with the change in our reportable segments. There is no change to our previously reported consolidated operating results, financial condition or cash flows. The changes to Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations are to refer to the consolidated operating segment structure that we adopted in fiscal 2007, to report Net revenues, Operating income (loss) and Depreciation & amortization expense for our reportable segments in these segments and to discuss these matters consistently with this presentation.

In Item 1, Business, of our Annual Report, in the subsection entitled Operating Segments and Products, we refer to our having viewed our business in six operating segments and to the fact that beginning in the June 2006 quarter, our Enterprise Security, Data Protection, and Storage and Server Management segments would be consolidated into the Security and Data Management segment and the Data Center Management segment. We are now operating in the reportable segments that we indicated would become effective in the June 2006 quarter. Our Security and Data Management segment focuses on providing enterprise and large enterprise customers with endpoint security, information security, and security management software, as well as providing small and medium-sized businesses with software to provision, backup, secure, and remotely access their personal computers and servers. Our Data Center Management segment focuses on providing enterprise and large enterprise customers with storage and server management, data protection, and application performance management solutions.

**Item 9.01. Financial Statements and Exhibits**

(d) Exhibits

**Exhibit Number      Exhibit Title or Description**

23.01	Consent of Independent Registered Public Accounting Firm
