Sidebar text: "NO ONE KNOWS WHAT THE FUTURE WILL BRING, WHICH IS WHY WE THINK A WELL-BALANCED PORTFOLIO IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS."

Dear
SHAREHOLDER

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with tax-free monthly income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Manager's Comments and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder whether interest rates will rise, and whether that possibility should cause them to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Manager's
COMMENTS

Portfolio manager Paul Brennan reviews economic and market conditions, key investment strategies and the recent performance of the Funds. With 12 years of investment experience, Paul assumed portfolio management responsibility for these Funds in January 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE TWELVE-MONTH PERIOD ENDED JUNE 30, 2003?

As has been the case for some time, we believe the two biggest influences on the general economy and the municipal market for this reporting period were the slow pace of economic recovery and historically low interest rates. We don't yet see a change in this pattern. In late June 2003, the Federal Reserve, citing a U.S. economy that "has yet to exhibit sustainable growth," cut the fed funds rate by 25 basis points to 1.0%, its lowest level since 1958. A few days later, the GDP for the first quarter of 2003 was revised downward to 1.4%.

In addition to historically low interest rates and sluggish economic growth, the core rate of inflation continued to hover around 1.5% throughout the second quarter of 2003, the smallest year-over-year increase in 37 years. This combination of low interest rates, slow economic recovery and the lack of inflationary pressures created conditions that helped many municipal bonds perform well over the period covered by this report.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN NEW JERSEY AND PENNSYLVANIA?

Aided by a diverse economic base and highly skilled workforce, New Jersey's economy performed reasonably well during the reporting period, adding jobs in sectors such as construction, retail, education and healthcare. The state also benefited from an influx of financial services jobs from New York City as well as growth in its sizable pharmaceutical industry. However, like many other states, New Jersey continues to grapple with budgetary stress resulting from falling tax revenues. Since 1996, New Jersey's debt levels have increased 60%. During the first six months of 2003, New Jersey issued \$9.2 billion in new municipal bonds, up 115% over the same period in 2002. As of June 30, 2003, the state's credit rating remained at Aa2 with a negative outlook, while Standard & Poor's rated the state AA with a stable outlook.

Pennsylvania's economy continued to reflect the national slowdown, faring about the same as other large Northeastern states. Although Pennsylvania is working to improve its business environment and develop value-added industries, employment trends in most of its major industry groups remained weak, with only the health services and leisure/hospitality sectors showing modest growth. Manufacturing, in particular the commonwealth's makers of steel, industrial machinery, and electronic and electrical equipment, continued to suffer, with employment in this sector declining 5% from the previous year. After exhausting its rainy day reserves in fiscal 2002, the commonwealth managed to avoid a major tax increase for fiscal 2004 by relying primarily on \$1.6 billion in spending cuts to close a \$2.4 billion gap in the \$21 billion budget. Municipal issuance in Pennsylvania during the first six months of 2003 totaled \$7.6 billion, an increase of 6% over the same period in 2002. As of June 30, 2003, the commonwealth's credit rating with Moody's and Standard & Poor's was Aa2/AA, respectively, with stable outlooks.

HOW DID THESE FUNDS PERFORM OVER THE TWELVE MONTHS ENDED JUNE 30, 2003?

For additional information, see the individual Performance Overview for your Fund in this report.

For the twelve months ended June 30, 2003, all of the Funds in this report outperformed the national, unleveraged Lehman Brothers Municipal Bond Index. Much of this outperformance is attributable to the Funds use of leverage, a strategy that can provide the opportunity for additional income for common shareholders. Leverage can work especially well during periods of low short-term interest rates, as was the case for the twelve months ended June 30, 2003.

In addition, a number of these Funds benefited from the length of their durations.⁴ During periods of declining interest rates, such as that we experienced over most of the reporting period, longer duration investments generally performed well. As of June 30, 2003, the durations of NXJ, NUJ, NQP, NXM and NVY ranged from 10.05 to 11.12, compared with 7.94 for the Lehman index (see the individual Performance Overview pages for each Fund for their individual durations). NQJ, NNJ, and NPY had relatively higher exposures to bonds with short call positions over the reporting period. This tended to shorten their durations and modestly affected their performance relative to the longer duration Funds.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels, the dividend-payment capabilities of these Funds benefited from their use of leverage. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. Low short-term rates can enable the Funds to reduce the amount of income paid to MuniPreferred shareholders, which can potentially leave more earnings to support common share dividends.

During the 12 months ended June 30, 2003, the continued low level of short-term interest rates enabled us to implement three dividend increases in NNJ, NXJ and NXM, and two in NQJ and NPY. As of June 2003, NQP had paid stable, attractive dividends for 37 consecutive months, while NUJ and NVY had offered shareholders

steady dividends for 14 consecutive months.

Over the course of this reporting period, strong investor demand and favorable market conditions helped to boost the share prices and net asset values of all of these Funds. As of June 30, 2003, NQJ, NQP, NPY and NXM were trading at premiums to their common share NAVs, while NNJ, NXJ, NUJ and NVY were trading at discounts (see charts on the individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE YEAR ENDED JUNE 30, 2003?

Over this reporting period, we continued to place strong emphasis on diversifying the Funds' portfolios, enhancing their call protection and supporting their dividend-paying capabilities. Strategically, our focus centered on systematically shortening the Funds' durations, which we believe will enhance our ability to manage the Funds' interest rate risk over time. Interest rate risk is the risk that the value of the bonds in a Fund's portfolio will decline if interest rates rise (since bond prices move in the opposite direction of interest rates). The longer the duration of a Fund's portfolio, the greater its interest rate risk.

In line with our desire to shorten durations, we concentrated on finding value in the long-intermediate part of the yield curve (i.e., bonds

- 1 The total annual returns on common share net asset value (NAV) for these Nuveen Funds are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of the Nuveen New Jersey Funds are compared with the average annualized return of the 12 funds in the Lipper New Jersey Municipal Debt Funds category, while the total returns of the Nuveen Pennsylvania Funds are compared with the average annualized return of the 11 funds in the Lipper Pennsylvania Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 28% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: New Jersey 32.5% and Pennsylvania 30%.
- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

that mature in about 15 years). In many cases, bonds in this part of the curve were offering yields similar to those of longer-term bonds but, in our opinion, had less inherent interest rate risk. In the older Funds, especially NQJ, NNJ

and NPY, general market trends over the reporting period caused a number of holdings to be priced to call dates, rather than to maturity. This also served to shorten duration.

In general, continued strong issuance in the New Jersey and Pennsylvania municipal markets over the past year helped us find additional opportunities to purchase the types of bond structures we favor. However, some of the benefits of increased issuance were offset by the fact that many of the new New Jersey bonds came predominately from the tobacco and transportation sectors. Pennsylvania issuance was dominated by unusually heavy issuance of general obligation debt by smaller local governments.

Over the reporting period, the New Jersey and Pennsylvania Funds generally had meaningful holdings of education and healthcare bonds, which were among the top performing Lehman revenue sectors for this reporting period. In addition, we purchased a sizable number of new New Jersey Turnpike Authority bonds. As part of a merger of the turnpike authorities in New Jersey, some of the older New Jersey Turnpike bonds were advance refunded, which enhanced the credit quality of our Funds' holdings.

As of June 30, 2003, each of the New Jersey Funds held less than 5% of its portfolio in bonds backed by the 1998 master tobacco settlement agreement. Driven mainly by ongoing budget problems, the state followed an August 2002 issuance of \$1.8 billion in tobacco bonds with an additional \$1.7 billion issuance in February 2003. We participated in both offerings, taking advantage of the relatively higher yields (approximately 7% versus 4.5% for similarly rated bonds at that time) provided by these credits. In recent months, we have seen the prices of tobacco bonds weaken as the result of lawsuits involving the major tobacco companies as well as the increased issuance of such bonds by different states. Although the sector as a whole produced negative returns over the twelve months ended June 30, 2003, tobacco bonds showed some recovery toward the end of the reporting period. At the present time, we plan to maintain our current tobacco holdings while we continue to regularly evaluate the situation.

Over the course of the reporting period, we reduced our exposure to bonds issued by U. S. territories, such as Puerto Rico or Guam. These bonds were initially purchased to add diversity and yield at times of tighter municipal supply. With bonds now more plentiful, this need is not as acute.

In addition, in light of the ongoing weakness in the airline industry, we also trimmed the New Jersey Funds' exposure to airline-backed bonds, selling approximately half of NXJ's holdings backed by Continental Airlines and eliminating NQJ's and NUJ's positions in Delta-backed bonds. NQJ continues to hold less than 1% of its portfolio's par value in bonds backed by American Airlines, while we have maintained an exposure of approximately 2% to the Newark/Continental bonds in both NXJ and NUJ.

In the Pennsylvania Funds, we worked to reduce our allocations of general obligation bonds (GOs), although this has been somewhat difficult given the recent preponderance of GOs in the Pennsylvania market. In addition, we have begun to limit or modestly reduce our exposure to AMT (alternative minimum tax) bonds, following a consistent widening of spreads relative to Treasuries over the reporting period.

Given the geopolitical and economic climate, we believed that strong credit quality remained a vital requirement. As of June 30, 2003, each of the New Jersey and Pennsylvania Funds offered

excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 60% to 89%. In general, our weightings in insured and AAA bonds benefited the performance of these Funds during the past year.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THE FUNDS IN PARTICULAR?

Nationally, we think the supply of new municipal bonds should remain strong, as issuers continue to take advantage of the low rate environment. In addition, many states continue to face budget problems and the ongoing need to raise money to cover the costs of essential services, including infrastructure and healthcare.

Looking ahead, we will continue to reduce some of the Funds' call exposure. As of June 30, 2003, the call exposure of the older Funds--NQJ, NNJ, NQP and NPY--ranged from 9% to 17% through 2005. The number of actual calls will depend largely on market interest rates in coming months. The newer Funds--NXJ, NUJ, NXM, and NVY--will not face any significant call exposure for several years.

In the months ahead, our primary goal will be to continue managing the Funds' durations. We also plan to continue to closely monitor the New Jersey Funds' holdings of tobacco and airline bonds as well as the budgetary situations in both states for any potential impact on credit ratings. Overall, we plan to continue to emphasize strategies that we think will add value for our shareholders and provide support for the Funds' long-term dividend-paying capabilities.

FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Prior to the commencement of operations of New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. (formerly, The John Nuveen Company), and the recording of the organization expenses (\$11,500 per Fund) and their reimbursement by Nuveen Investments, LLC (formerly, Nuveen Investments), also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian

to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At June 30, 2003, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Investment Quality (NQP), Pennsylvania Premium Income 2 (NPY), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) had an outstanding when-issued purchase commitments of \$10,258,860, \$6,209,310, \$3,239,640, \$2,159,760, \$2,429,025, \$2,331,864, \$582,966, and \$582,966, respectively.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state and local income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended June 30, 2003, have been designated Exempt Interest Dividends.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared and paid monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of such distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the fiscal year ended June 30, 2003.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share for New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY). New Jersey Dividend Advantage 2's (NUJ) and Pennsylvania Dividend Advantage 2's (NVY) share of Common share offering costs (\$135,000 and \$111,450, respectively) were recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY) in connection with their offering of Preferred shares (\$479,767 and \$411,581, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

POLICY CHANGE

On November 14, 2002, the Board adopted a policy that allows these Funds, in addition to investments in municipal bonds, to invest up to 5% of its net assets (including assets attributable to preferred shares, if any) in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided Nuveen Advisory determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer. This policy is a non-fundamental policy of each Fund which means that it can be changed at any time by the Board of Trustees without vote of the shareholders.

Glossary of Terms Used in this Report

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual

performance over the time period being considered.

Average Effective Maturity: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

Leverage-Adjusted Duration: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the period ended June 30, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, Nuveen Advisory Corp. (the "Adviser") would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. [RESERVED]

ITEM 9. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
