Fair Value Measurements

Fair value is defined as the price that the Fund would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the Fund's fair value measurements as of July 31, 2011:

| | Level 1 | Level 2 | Level 3 | Total |
|-----------------|---------|-----------------|-----------|---------------|
| Investments: | | | | |
| Municipal Bonds | \$ — | - \$279,909,482 | \$120,854 | \$280,030,336 |
| Derivatives: | | | | |

Forward Swaps* — (2,047,020) — (2,047,020)
Total \$—\$277,862,462 \$120,854 \$277,983,316

The following is a reconciliation of the Fund's Level 3 investments held at the beginning and end of the measurement period:

Level 3 Municipal Bonds \$ 189,235 Balance at the beginning of period Gains (losses): Net realized gains (losses) Net change in unrealized appreciation (depreciation) (109,070)Purchases at cost 40,689 Sales at proceeds Net discounts (premiums) Transfers in to Transfers out of Balance at the end of period \$ 120,854

During the period ended July 31, 2011, the Fund recognized no significant transfers to or from Level 1, Level 2 or Level 3.

Derivative Instruments and Hedging Activities

The Fund records derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Fund's investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

The following table presents the fair value of all derivative instruments held by the Fund as of July 31, 2011, the location of these instruments on the Statement of Assets and Liablilities, and the primary underlying risk exposure.

| | | Location on the S | Statements of As | ssets and Liabilities | |

^{*} Represents cumulative appreciation (depreciation) of swap contracts as reported in the Portfolio of investments. Some swap contracts require a counterparty to pay or receive a premium.

Income Tax Information

^{*} Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, and timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At July 31, 2011, the cost of investments was \$251,506,817.

Gross unrealized appreciation and gross unrealized depreciation of investments at July 31, 2011, were as follows:

Gross unrealized:

Appreciation \$14,885,195

Depreciation (4,361,678)

Net unrealized appreciation (depreciation) of investments \$10,523,517
