**Flag Financial Corporation and Subsidiary**  
**Notes to Consolidated Financial Statements**

The accompanying consolidated financial statements have not been audited. The results of operations are not necessarily indicative of the results of operations for the full year or any other interim periods.

**Note 1. Basis of Presentation**

The consolidated financial statements include the accounts of Flag Financial Corporation (“Flag” or the “Company”) and its wholly owned subsidiary, Flag Bank (the “Bank”). All significant intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial information furnished herein represents all adjustments that are, in the opinion of management, necessary to present a fair statement of the results of operations, and financial position for the periods covered herein and are normal and recurring in nature. For further information, refer to the consolidated financial statements and related notes included in Flag’s annual report on Form 10-K for the year ended December 31, 2004.

**Note 2. Recent Accounting Pronouncements**

As permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*, Flag currently accounts for share-based payments to employees using APB opinion No. 25’s intrinsic value method and, as such, generally recognizes no compensation expense for employee stock options. The impact of adoption of SFAS No. 123(R) cannot be predicted at this time because it will depend on levels of share-based payments granted in the future. However, had we adopted SFAS No.123(R) in prior periods, the impact of that standard would have approximated the impact of SFAS No. 123 as described in the disclosure of pro forma net income earnings per share in Note 4 to our consolidated financial statements. SFAS No. 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in the periods after adoption. While the company cannot estimate what those amounts will be in the future (because they depend on, among other things, when employees exercise stock options), the amount of operating cash flows recognized in prior periods for such excess tax deductions were insignificant. SFAS No. 123(R) is effective as of the beginning of the first interim or annual reporting period that begins after June 15, 2005. On April 14, 2005, the Securities and Exchange Commission (the “SEC”) announced a new rule that amends the compliance dates for SFAS No. 123(R). The SEC’s new rule allows companies to implement SFAS No. 123(R) at the beginning of their next fiscal year, instead of the next reporting period, that begins after June 15, 2005. Flag will adopt the standard in the first quarter of 2006.

**Note 3. Net Earnings Per Common Share**

Net earnings per common share are based on the weighted average number of common shares outstanding during each period. The calculation of basic and diluted earnings per share is as follows (in thousands, except per share amounts):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2005</b>	<b>2004</b>
Basic earnings per share:		
Net earnings	\$ 1,827	\$ 2,096
Weighted average common shares outstanding	8,515	8,528

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Basic earnings per share	\$	<b>0.21</b>	\$	0.25
Diluted earnings per share:				
Net earnings	\$	<b>1,827</b>	\$	2,096
Effect of dilutive stock options and warrants		<b>753</b>		566
Diluted earnings per share	\$	<b>0.20</b>	\$	0.23

---

**Flag Financial Corporation and Subsidiary**  
**Notes to Consolidated Financial Statements**

**Note 4. Stock-based Compensation**

Flag currently accounts for stock-based compensation to employees and non-employee members of the Board under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. No stock-based employee compensation cost is reflected in net earnings, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant.

The following table illustrates the effect on net earnings and earnings per share if Flag had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation (in thousands, except per share amounts):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2005</b>	2004
Net earnings as reported	\$ <b>1,827</b>	\$ 2,096
Deduct: Total stock-based employee compensation expense determined under fair-value based method for all awards, net of tax	<b>(44)</b>	(28)
Pro forma net earnings	\$ <b>1,783</b>	\$ 2,068
<b>Basic earnings per share:</b>		
As reported	\$ <b>0.21</b>	\$ 0.25
Pro forma	<b>0.21</b>	0.24
<b>Diluted earnings per share:</b>		
As reported	\$ <b>0.20</b>	\$ 0.23
Pro forma	<b>0.19</b>	0.23

During the first three months of 2005, Flag issued 70,000 options with a weighted average grant date fair value of \$3.92 each. The fair value of each option was estimated on the date of grant using the Black-Scholes options-pricing model with the following weighted average assumptions: dividend yield of 1.80%, volatility of 0.2225, risk free interest rate of 4.24% and an expected life of 7 years.

**Note 5. Loans**

Flag engages in a full complement of lending activities, including permanent residential mortgage loans, permanent residential construction loans, commercial mortgage loans, commercial business loans, financial loans and consumer installment loans. Flag generally concentrates lending efforts on real estate related loans. As of March 31, 2005, Flag's loan portfolio consisted of 58.7% real estate mortgage loans, including 1-4 family residential loans, multi-family loans and commercial real estate loans, 29.1% real estate construction loans, 9.6% commercial and financial loans, and 2.6% consumer installment loans. While risk of loss is primarily tied to the credit quality of the various borrowers, risk of loss may also increase due to factors beyond Flag's control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio. Of the target areas of lending activities, commercial and financial loans are generally considered to have a greater risk of loss than real estate loans or consumer installment loans.

Flag Financial Corporation and Subsidiary  
Notes to Consolidated Financial Statements

**Note 5. Loans (continued)**

Loans are reported at outstanding unpaid balances and unamortized premiums or discounts on purchased loans. Balances within the major loans receivable categories are represented in the following table (in thousands):

	<b>March 31,</b>	<b>% of</b>	December	<b>% of</b>	March 31,	<b>% of</b>
	<b>2005</b>	<b>Total</b>	31,	<b>Total</b>	2004	<b>Total</b>

Less: Allowance for loan losses	<b>8,862</b>		8,602		7,052	
Total net loans	<b>\$606,253</b>		\$596,101		\$470,986	

**Note 6. Stock Repurchase Program**

In March 2004, Flag's Board of Directors authorized a stock repurchase program covering an amount equal to 10% of the outstanding shares of Flag's common stock. As of March 31, 2005, the Company has repurchased approximately 304,000 shares of the approximately 853,000 shares authorized to be purchased, at an average price of \$12.91. See Item 2. "Changes in Securities" for additional information about Flag's share repurchases.

## **Flag Financial Corporation and Subsidiary**

### **Item 2. Management's Discussion and Analysis of Financial Condition**

The Company's net income for the quarter ended March 31, 2005, was \$1.8 million, or \$0.20 per diluted share, compared with net income of \$2.1 million, or \$0.23 per diluted share, for the same quarter last year. Net interest income grew 20.3% to \$8.6 million during the first quarter of 2005 compared to \$7.1 million in the first quarter of 2004. This improvement in net interest income over the first quarter of 2004 resulted from a 24.3% growth in average loans outstanding as well as an increase in Flag's yield on loans of 95 basis points to 7.67% from 6.72%. Growth in loans outstanding comes as Flag continues to develop a stronger presence in metro Atlanta and through its Atlanta based lending lines of business.

Nonperforming assets were 0.80% percent of total assets at March 31, 2005, compared to 0.99% at March 31, 2004. Net charge-offs were 0.08% of average loans outstanding for the quarter ended March 31, 2005, compared to 0.29% for the quarter ended March 31, 2004. The allowance for loan losses at March 31, 2005 was 1.44% of total loans outstanding, compared to 1.42% at December 31, 2004 and 1.48% at March 31, 2004.

During the first quarter of 2004, Flag sold its Thomaston, Georgia, branch to another Georgia based bank. Flag recorded an after-tax gain of approximately \$1.47 million, which included \$635,000 in expenses related directly to the sale of the branch. Included in the sale was approximately \$1.7 million of premises and equipment, \$16.7 million in loans and \$35.8 million in deposits.

### **Forward-Looking Statements**

The following discussion and comments contain "forward-looking statements" relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues and other financial items that are based on the beliefs of our management, as well as assumptions made by and information currently available to our management. The words "expect", "estimate", "anticipate", and "believe", as well as similar expressions, are intended to identify forward-looking statements. Our actual results may differ materially from the results discussed in the forward-looking statements, and our operating performance each quarter is subject to various risks and uncertainties. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to, (i) the strength of the U.S. economy as well as the strength of the local economies in which operations are conducted; (ii) the effects of changing interest rates which could lower margins; (iii) inflation, interest rate, market and monetary fluctuations; (iv) unanticipated regulatory proceedings or legal actions, or changes in accounting policies and practices as adopted by the Financial Accounting Standards Board; (v) issues involved in the integration of acquisitions; and (vi) the timely development of products and services that position Flag to succeed in an increasingly competitive industry. If we are unsuccessful in managing the risks relating to these factors, together with other risks incident to the operation of our business, our financial condition, results of operations and cash flows could be adversely affected. Forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made to reflect the occurrence of unanticipated events.

### **Critical Accounting Policies**

The accounting principles we follow and our methods of applying these principles conform with accounting principles generally accepted in the United States and with general practices within the banking industry. In connection with the application of those principles, we have made judgments, estimates and assumptions which, in the case of the determining our allowance for loan losses (ALL), have been critical to the determination of our financial position and results of operations. Management assesses the adequacy of the ALL regularly during the year, and formally prior to the end of each calendar quarter. This assessment includes procedures to estimate the allowance and test the adequacy and appropriateness of the resulting balance.

This estimation process can affect our estimated loan loss expense for a given period. Generally, the allowance for loan losses increases as the outstanding balance of loans or the level of classified or impaired loans increases. Loans or portions of loans that are deemed uncollectible are charged against and reduce the allowance. The allowance is

replenished by means of a provision for loan losses that is charged as an expense. As a result, our estimate of the allowance for loan losses affects our earnings directly.

---

Flag Financial Corporation and Subsidiary  
Management's Discussion and Analysis of Financial Condition

The ALL consists of two portions (1) allocated amounts representing the potential exposures on specifically identified credits and other exposures readily predictable by historical or comparative experience; and (2) an unallocated amount representative of inherent loss which is not readily identifiable. Even though the ALL is composed of two components, the entire ALL is available to absorb any credit losses. Allocated amounts are used on loans where management has determined that there is an increased probability or severity of loss than on the loan portfolio as a whole. We base the allocation for these unique loans primarily on risk rating grades assigned to each of these loans as a result of our loan management and review processes. We then assign each risk-rating grade a loss ratio, which is determined based on the experience of management, discussions with banking regulators and our independent loan review process. We estimate losses on impaired loans based on estimated cash flows discounted at the loan's original effective interest rate or based on the underlying collateral value. To the extent that management does not believe that a certain loan's risk is appropriately represented by the risk rating grades, a specific review of the credit is performed which would result in a specific allocation for that particular loan.

Unallocated amounts are particularly subjective and do not lend themselves to exact mathematical calculation. The unallocated amount represents estimated inherent credit losses which may exist, but have not yet been identified, as of the balance sheet date. In estimating the unallocated amount, we consider such matters as changes in the local or national economy, the depth or experience in the lending staff, any concentrations of credit in any particular industry group, and new banking laws or regulations. After we assess applicable factors, we evaluate the aggregate unallocated amount based on our management's experience. We then test the resulting ALL balance by comparing the balance in the ALL to historical trends and peer information. Our management then evaluates the result of the procedures performed, including the result of our testing, and concludes on the appropriateness of the balance of the ALL in its entirety.

The audit committee of our board of directors reviews the assessment prior to the filing of quarterly and annual financial information. In assessing the adequacy of the ALL, we also rely on an ongoing independent loan review process. We undertake this process both to ascertain whether there are loans in the portfolio whose credit quality has weakened over time and to assist in our overall evaluation of the risk characteristics of the entire loan portfolio. Our loan review process includes the judgment of management, input from our independent loan reviewer, and reviews that may have been conducted by bank regulatory agencies as part of their usual examination process.

See "Provision and Allowance for Loan Losses" for additional information.

**Flag Financial Corporation and Subsidiary  
Management's Discussion and Analysis of Financial Condition**

**Overview of Financial Condition**

Total assets were \$840.4 million at March 31, 2005, an increase of \$12.1 million or 1.5%, from \$828.3 million at December 31, 2004. Earning assets (consisting of loans, investment securities and short-term investments) totaled \$780.8 million or 92.9% of total assets at March 31, 2005, compared to \$772.4 million or 93.2% of total assets at December 31, 2004. During the same period, stockholders' equity increased \$1.1 million or 1.6% to \$70.3 million at March 31, 2005.

**Loans**

Gross loans outstanding at March 31, 2005, totaled \$615.1 million, an increase of \$10.4 million or 1.7%, from \$604.7 million at December 31, 2004. Mortgage loans held-for-sale decreased to \$7.3 million at March 31, 2005 from \$10.7 million at December 31, 2004. Loans outstanding, including mortgage loans held-for-sale, comprised 79.7% of earning assets at March 31, 2005 and December 31, 2004. Flag concentrates its lending activities in several areas that management believes provides adequate diversification with acceptable yield and risk levels. These areas include, but are not limited to construction, commercial real estate, agricultural and correspondent lending (lending services to other community banks). For more information see Note 5 to the Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations - Provision and Allowance for Loan Losses.

**Investment Securities**

Investment securities at March 31, 2005, totaled \$111.4 million, a decrease of \$13.1 million or 10.5%, from \$124.5 million at December 31, 2004. Investment securities comprised 14.3% and 16.1% of earning assets at March 31, 2005 and December 31, 2004, respectively.

**Federal Funds Sold and Other Interest-Bearing Deposits**

Short-term investments (federal funds sold and other interest-bearing deposits) totaled \$41.6 million at March 31, 2005, an increase of \$14.6 million or 54.1%, from the December 31, 2004 level of \$27.0 million. Historically, Flag has maintained lower levels of short-term investments, choosing instead to invest more heavily in loans and investment securities. Short-term investments amounted to 5.3% of earning assets at March 31, 2005 and 3.5% of earning assets at December 31, 2004.

**Premises and Equipment**

Premises and equipment at March 31, 2005, totaled \$13.7 million, a decrease of \$801,000 or 5.5%, from \$14.5 million at December 31, 2004. During the first quarter of 2005, Flag sold one of its banking centers with a net book value of \$828,000 and recognized a pre-tax gain of \$36,000. Flag maintains a branch location in the center under a lease agreement with the buyer.

**Deposits and Other Funding**

Total deposits at March 31, 2005, were \$713.3 million, an increase of \$6.5 million or 0.9%, from \$706.8 million at December 31, 2004. Core deposits offer the Bank a lower cost source of funds. Core deposits (noninterest-bearing demand deposits, interest-bearing demand deposits, and savings) were \$406.5 million at March 31, 2005, compared to \$417.7 million at December 31, 2004. Core deposits comprise 57.0% of the total deposit base at March 31, 2005

versus 59.1% at December 31, 2004. Total time deposits amounted to \$306.8 million at March 31, 2005, compared to \$289.2 million at December 31, 2004. Customer deposits represented 93.9% of total funding at March 31, 2005 and December 31, 2004.

Federal funds purchased and other borrowings of \$6.7 million at March 31, 2005 remained steady compared to \$6.6 million at December 31, 2004.

**Advances from the Federal Home Loan Bank**

Advances from the Federal Home Loan Bank (“FHLB”) remained unchanged at \$25.0 million at March 31, 2005 and December 31, 2004. Borrowings from the FHLB decreased during the last year as a result of Flag’s successful implementation of its deposit sales program.

---

**Flag Financial Corporation and Subsidiary**  
**Management's Discussion and Analysis of Financial Condition**

**Liquidity**

Liquidity management involves Flag's ability to maintain adequate short-term assets to meet the cash flow expectations of depositors and other lending institutions, and to provide funds for the growth in earning assets. Liquidity is managed daily by understanding the cash flow expectations of depositors and other lending institutions and maintaining enough liquid assets to meet these expectations. As of March 31, 2005, Flag had \$384.4 million of deposits due on demand, \$22.1 million in savings deposits and \$209.9 million of time deposits and other borrowings due within one year. Potential liquidity needs of these liabilities are met with liquid assets (assets that can be easily converted to cash). Liquid assets at March 31, 2005, totaled \$108.3 million and included cash and due from banks, federal funds sold and other interest-bearing deposits, unpledged investment securities available-for-sale and mortgage loans held-for-sale. In addition to using liquid assets to meet potential liquidity needs, Flag maintains available lines of credit with other financial institutions. These include federal funds and other lines of credit totaling \$46 million and a line of credit with the FHLB totaling \$95 million. Flag also maintains a line of credit with the Federal Reserve Bank of Atlanta totaling \$125 million. At March 31, 2005, \$29.5 million of the available \$266 million in total lines was advanced to Flag.

**Off Balance Sheet Arrangements**

Flag is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments consist of commitments to extend credit and standby letters of credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Standby letters of credit are written conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. A commitment involves, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets. Flag's exposure to credit loss in the event of non-performance by the other party to the instrument is represented by the contractual notional amount of the instrument.

Since certain commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Flag uses the same credit policies in making commitments to extend credit as they do for on-balance-sheet instruments. Collateral held for commitments to extend credit varies but may include accounts receivable, inventory, property, plant, equipment, and income-producing commercial properties.

The following table summarizes Flag's off-balance-sheet financial instruments whose contract amounts represent credit risk as of March 31, 2005 and December 31, 2004 (in thousands):

	2005	2004
Commitments to extend credit	<b>\$176,465</b>	\$142,036
Standby letters of credit	<b>\$ 3,242</b>	\$ 3,650

**Market Risk Sensitivity**

Market rate sensitivity is the tendency for changes in the interest rate environment to be reflected in Flag's net interest income and results of operations. Flag, through its asset and liability management program, seeks to balance maturities and rates on earning assets and the corresponding funding such that interest rate fluctuations have a minimal impact on earnings and the value of Flag's equity.

Historically, the average term to maturity or repricing (rate changes) of assets (primarily loans and investment securities) has exceeded the average repricing period of liabilities (primarily deposits and borrowings). Flag's primary source of funding has been demand deposits (interest-bearing and noninterest-bearing) instead of time deposits and wholesale borrowings with longer maturities. This method of funding earning assets has issues concerning interest rate risk, liquidity and profitability, all of which were contemplated and measured by the Company. Flag concluded that this strategy is the most profitable method of funding growth in earning assets of the Company for the foreseeable future and has committed significant sales, marketing and training resources at being successful in this effort. Where interest rate risk is concerned, Flag considered factors such as account size, relationship strength and historical rate levels needed to remain competitive. Generally speaking, it is the opinion of management that these deposits are less sensitive to rate movements than the earning assets they are funding. Flag uses an interest rate simulation model that uses management assumptions and theories regarding rate movements and the impact each movement will have on individual components of the balance sheet. As of March 31, 2005, Flag's simulation model shows that Flag' balance sheet is, in fact, asset-sensitive, meaning a rising rate environment would have a positive impact on Flag's net interest income.

---

## Flag Financial Corporation and Subsidiary Management's Discussion and Analysis of Financial Condition

Management carefully measures and monitors market rate sensitivity and believes that its operating strategies offer protection against interest rate risk. As required by various regulatory authorities, Flag's Board of Directors established an interest rate risk policy, which sets specific limits on interest rate risk exposure. Adherence to this policy is reviewed by Flag's executive committee and presented at least annually to the Board of Directors.

Flag's management from time to time uses certain derivative instruments in an effort to add stability to the Company's net interest income and manage exposure to changing interest rates. Guidance for using these instruments is found in SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*. Under the terms of this statement, all derivatives are classified as either fair value hedges (those designed to hedge the fair market value of asset or liabilities affected by changing interest rates) or cash flow hedges (those designed to mitigate exposure to variability in expected future cash flows due to changing interest rates).

At March 31, 2005, the Company had three derivative instruments designated as cash flow hedges. No fair value hedges were outstanding. The following table summarizes the outstanding derivative instruments (in thousands).

Type	Transaction Date	Term Date	Notional	Receive Rate	Pay Rate	Current Spread	Fair Value
Receive Fixed, Pay LIBOR Swap	June 2004	Dec 2005	\$ 5,000	2.68%	2.86%	(0.18)%	\$ (35)
Receive Fixed, Pay LIBOR Swap	June 2004	June 2006	15,000	3.00%	2.86%	0.14%	(168)
Receive Fixed, Pay LIBOR Swap	June 2004	Dec 2006	5,000	3.27%	2.86%	0.41%	(72)
Total Received Fixed Swaps			\$25,000	2.99%	2.86%	0.13%	\$(275)

For the first quarter of March 31, 2005, there was no material amount recognized which represented the ineffective portion of cash flow hedges. All components of each derivative's gain or loss are included in the assessment of hedge effectiveness, unless otherwise noted.

### Capital

At March 31, 2005, the capital ratios of Flag and the Bank were adequate compared to the minimum regulatory capital requirements. Minimum regulatory capital levels for banks and holding companies require Tier 1 capital (core capital accounts less intangible assets) to risk-weighted assets of at least 4%, total capital (Tier 1 capital plus a portion of the allowance for loan losses) to risk-weighted assets of 8%, and Tier 1 capital to average assets of at least 4%.

On April 15, 2004, the Company closed a private offering of 14,000 floating rate Capital Securities offered and sold by Flag Financial Corporation Statutory Trust (the "Trust") having a liquidation amount of \$1,000 each. The proceeds from such issuances, together with the proceeds of the related issuance of common securities of the Trust purchased by the Company in the amount of \$433,000, were invested in floating rate Junior Subordinated Debentures (the "Debentures") of the Company totaling \$14.4 million. The sole assets of the Trust are the Debentures. The Debentures are unsecured and rank junior to all senior debt of the Company. The Company owns all of the common securities of the Trust. For the quarter ended March 31, 2005, the floating rate securities had a 5.31% interest rate, which will reset quarterly at the three-month LIBOR rate plus 2.75%.

**Flag Financial Corporation and Subsidiary**  
**Management's Discussion and Analysis of Financial Condition**

In March 2004, Flag's Board of Directors authorized a stock repurchase program covering an amount equal to 10% of the outstanding shares of Flag's common stock. As of March 31, 2005, the Company has repurchased approximately 304,000 shares of the approximately 853,000 shares authorized to be purchased, at an average price of \$12.91. See Item 2. "Changes in Securities" for additional information about Flag's share repurchases.

The following table reflects Flag's capital position with respect to the regulatory minimums as of March 31, 2005:

	<b>Actual</b>	<b>Required</b>	<b>Excess</b>
	<b>Amount</b>	<b>%</b>	<b>Amount</b>
			<b>%</b>
Total Capital (to Risk Weighted Assets)	\$70,297	11.46%	\$55,520
			8.00%
	\$ 14,777	3.46%	
Tier 1 Capital (to Risk Weighted Assets)	63,695	10.20%	27,760
			4.00%
	35,935	6.20%	
Tier 1 Capital (to Average Assets)	63,695	7.87%	21,355
			4.00%
	42,340	3.87%	

**Provision and Allowance for Loan Losses**

The allowance for loan losses is established through provisions for loan losses charged to expense. Loans are charged against the allowance for loan losses when management believes that the collection of the principal is unlikely. The allowance is an amount which, in management's judgment, will be adequate to absorb losses on existing loans that may become uncollectible. The allowance is established through consideration of such factors, including, but not limited to, historical loss experience, changes in the nature and volume of the portfolio, adequacy of collateral, delinquency trends, loan concentrations, specific problem loans, and economic conditions that may affect the borrower's ability to pay.

Management believes that the allowance for loan losses is adequate. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review Flag's allowance for loan losses. Such agencies may require Flag to recognize additions to the allowance based on their judgments about information available to them at the time of their examination.

The following table presents an analysis of the allowance for loan losses for the three month periods ended March 31, 2005 and 2004 (in thousands):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2005</b>	<b>2004</b>
Balance of allowance for loan losses at beginning of period	\$ 8,602	\$ 6,685
Provision charged to operating expense	375	720

Net charge-offs		115		353
Balance of allowance for loan losses at end of period	\$	8,862	\$	7,052

---

## Flag Financial Corporation and Subsidiary Management's Discussion and Analysis of Financial Condition

See "Critical Accounting Policies" for an explanation of our methodology for determining the appropriate level for the allowance and its effect on our results of operations.

### Nonperforming Assets

Nonperforming assets (nonaccrual loans, loans over 90 days past due and still accruing, other real estate owned and repossessions) totaled \$6.7 million at March 31, 2005, compared to \$5.3 million at December 31, 2004. Nonperforming assets as a percentage of total assets represented 0.80% and 0.64%, respectively.

Flag has a loan review function that continually monitors selected accruing loans for which general economic conditions or changes within a particular industry could cause the borrowers financial difficulties. The loan review function also identifies loans with high degrees of credit or other risks. The focus of loan review is to maintain a low level of nonperforming assets and to return current nonperforming assets to earning status.

Flag's credit quality has improved significantly over the past few years. This is due to several factors including a stricter credit culture that focuses more heavily on the quality of the borrower's financial condition and collateral values. In addition, Flag's expansion into lending in metro Atlanta presents more credit opportunities than in the Company's past, allowing the Company to be more selective in the credit approval process without hindering or slowing the growth in loans outstanding. The following table summarizes the nonperforming assets for the three month periods presented (in thousands):

	March 31, 2005	December 31, 2004	March 31, 2004
Loans on nonaccrual	\$ 5,822	\$ 4,224	\$ 3,973
Loans past due 90 days and still accruing	-	74	143
Other real estate owned and repossessions	918	1,012	2,670
Total nonperforming assets	\$ 6,740	\$ 5,310	\$ 6,786
Total nonperforming assets as a percentage of total assets	0.80%	0.64%	0.99%

### Results of Operations for the Three Month Periods Ended March 31, 2005 and 2004

**Net income** - Net income for the quarter ended March 31, 2005, was \$1.8 million or \$0.20 per diluted share, compared to \$2.1 million or \$0.23 per diluted share for the quarter ended March 31, 2004. Included in the 2004 earnings is an after-tax gain on the sale of its Thomaston, Georgia branch of approximately \$1.47 million. In addition to the one-time gain, Flag had other charges to earnings of 2004, including credit related charges of approximately \$376,000 after-tax and a charge relating to its benefit plans of approximately \$234,000 after-tax. Excluding the effects of the one-time gain and other charges, earnings for the first quarter of 2004 were approximately \$1.2 million.

**Net interest income** - Net interest income for the quarter ended March 31, 2005, was \$8.6 million, an increase of \$1.5 million or 20.3%, from \$7.1 million for the quarter ended March 31, 2004. Flag's net interest margin (net interest income divided by average earning assets) increased to 4.50% from 4.40% on average earning assets of \$772.4 million and \$652.3 million for the first quarter of 2005 and 2004, respectively. In 2004, in anticipation of rising interest rates, Flag began to reposition its balance sheet to a more asset-sensitive position. A balance sheet is considered asset sensitive when its assets (loans and securities) reprice faster or to a greater extent than liabilities (deposits and borrowings). An asset-sensitive balance sheet will produce more net interest income when interest rates rise and less net interest income when interest rates decline. The Federal Reserve has increased the federal funds rate

seven times since June 2004, increasing the rate from 1.0% to 2.75%. See “Market Risk Sensitivity” for more information on Flag’s asset and liability management program.

**Interest income** - Interest income for the quarter ended March 31, 2005, was \$12.8 million, an increase of \$3.1 million or 32.2%, from \$9.7 million for the same quarter of 2004. The increase is primarily due to higher levels of average interest-earning assets coupled with increases in the yield on loans. The yield on interest-earning assets increased 75 basis points to 6.71% during the quarter ended March 31, 2005, compared to 5.96% for the first quarter of 2004.

---

**Flag Financial Corporation and Subsidiary  
Management's Discussion and Analysis of Financial Condition**

Interest income and fees on loans in the current quarter increased \$3.3 million or 40.5% to \$11.4 million, compared to \$8.1 million in the same quarter of 2004. Average loans outstanding during the first quarter of 2005 were \$603.4 million compared to \$485.5 million for 2004. The yield on loans during the first quarter of 2005 was 7.67% an increase from 6.72% in the first quarter of 2004.

Interest on investment securities decreased \$380,000 or 26.1% to \$1.1 million for the first quarter of 2005 from \$1.5 million in the first quarter of 2004. This decrease in interest income was driven primarily by the declining average balance of investment securities in the first quarter of 2005. In the first quarter of 2005, average investment securities decreased to \$114.7 million, compared to \$133.3 million in the first quarter of 2004. The decrease in the average balance is primarily due to calls of investments securities and accelerated prepayments of mortgage-backed securities. Instead of reinvesting in investment securities, Flag chose to invest the proceeds in short-term investments that could be liquidated and used to fund projected loan growth.

Interest on federal funds sold and other interest-bearing deposits increased \$201,000 or 201.0% to \$301,000 during the first quarter of 2005 from \$100,000 in the same quarter last year. Interest on federal funds sold and other interest-bearing deposits increased as a result of an increase in the average balance of federal funds sold, resulting from the liquidation of investments, and an increase in the yield. The yield on federal funds sold and other interest-bearing deposits increased to 2.57% from 1.30% during the first quarter of 2005 compared to 2004.

**Interest expense** - Interest expense for the first quarter of 2005 was \$4.2 million, an increase of \$1.7 million or 65.6%, from \$2.5 million in the same quarter of 2004. The increase is due to higher levels of average funding coupled with a rising interest rate environment. In the first quarter of 2005, average funding increased \$116.7 million or 18.3% to \$754.2 million from \$637.5 million in the first quarter of 2004. Flag's total cost of funds increased 67 basis points to 2.26% from 1.59% over the same period.

Interest expense on deposits increased \$1.5 million or 64.7% to \$3.8 million in the current quarter from \$2.3 million in the first quarter of 2004. Average demand deposits (interest-bearing and noninterest-bearing) during the first quarter of 2005 were \$386.4 million, an increase of \$56.4 million or 17.1%, from \$330.0 million in the first quarter of 2004. Average time deposits in the first quarter of 2005 were \$299.8 million, an increase of \$77.2 million or 34.7% from \$222.6 million in the first quarter of 2004. The weighted average interest rate for interest-bearing demand deposits was 2.00% and 1.48% in the first quarter of 2005 and 2004, respectively. The weighted average interest rate for time deposits was 2.88% and 2.24% in the first quarter of 2005 and 2004, respectively.

Interest expense on other borrowings for the first quarter of 2005 was \$384,000, an increase of \$165,000 or 75.3%, from \$219,000 for the same quarter of 2004. Average other borrowings in the first quarter of 2005 were \$44.9 million, a decrease of \$14.1 million or 23.9%, from \$59.0 million in the same quarter of 2004. An increase in the weighted average rate offset the decrease in average borrowings in the first quarter of 2005, increasing to 3.47% compared to 1.49% in the first quarter of 2004. Included in interest expense on other borrowings in the first quarter of 2005, is interest expense of \$192,000 related to the Company's junior subordinated debentures that were issued in the second quarter of 2004.

**Noninterest income** - Noninterest income for the first quarter of 2005 totaled \$2.6 million, a decrease of \$2.1 million or 44.5%, compared to \$4.7 million in the same quarter last year. In the first quarter of 2004, noninterest income includes a \$3.0 million pre-tax gain on the sale of Flag's Thomaston, Georgia branch.

Traditionally service charges on deposit accounts and revenues from mortgage banking activities have been the largest components of noninterest income. Service charges on deposit accounts decreased to \$749,000 for the first quarter of

2005, a decrease of \$143,000 or 16.0%, from \$892,000 in the first quarter of 2004. While Flag maintained strong growth in deposits during the past year, most of the growth came from higher-balance money market and interest-bearing checking balances where customers carry balances sufficient to qualify for reduced or eliminated fees. Mortgage banking activities includes origination fees, service release premiums and the gain on the sales of mortgage loans held-for-sale. Mortgage banking activities totaled \$580,000, an increase of \$50,000 or 9.4%, compared to \$530,000 in the first quarter of 2004.

In the first quarter of 2005, gain on sales of securities was \$123,000, an increase of \$116,000, compared to \$7,000 in the same quarter last year. Gain (loss) on sale of other real estate owned increased \$94,000 to a gain of \$91,000 from a loss of \$3,000 in the first quarter of 2004.

Flag Financial Corporation and Subsidiary  
Management's Discussion and Analysis of Financial Condition

Other income increased \$832,000 or 543.8% to \$985,000 in the first quarter of 2005, compared to \$153,000 in the same quarter last year. Payroll Solutions contributed \$581,000 to other income in the first quarter of 2005. During the fourth quarter of 2004, Flag acquired Payroll Solutions a leading provider of payroll services. Other fees on loans, which are included in other income, increased \$100,000 or 300.0% to \$150,000 in the first quarter of 2005, compared to \$50,000 in the first quarter of 2004. The rise in other loan fees is primarily due to increased loan production.

**Noninterest expense** - Noninterest expense for the first quarter of 2005 totaled \$8.1 million, an increase of \$129,000 or 1.6%, compared to \$8.0 million in the same quarter of 2004.

Salaries and employee benefits totaled \$5.0 million, an increase of \$203,000 or 4.2%, from \$4.8 million in the first quarter of 2004. Salaries and commissions increased \$511,000 in the first quarter of 2005. This increase is primarily attributable to an increase in commissions on loan originations and the addition of Payroll Solutions personnel totaling \$185,000. In the first quarter of 2004, salaries and employee benefits included a \$376,000 charge related to a recent accounting interpretation on expenses of deferred compensation plans.

Occupancy expense for the first quarter of 2005 totaled \$956,000, an increase of \$46,000 or 5.1% from \$910,000 in the first quarter of 2004. The decrease in occupancy expense related to the sale of the Thomaston, Georgia, branch in the first quarter of 2004 was offset by increases in rent expense related to the purchase of mortgage and construction offices during the third quarter of 2004 and the addition of the Payroll Solutions offices.

Professional fees were \$549,000, an increase of \$249,000 or 83.0%, compared to \$300,000 in the same quarter of 2004. This increase is in part due to additional expenses related to compliance with the Sarbanes-Oxley Act.

Other noninterest expense totaled \$860,000 for the first quarter of 2005, a decrease of \$309,000 or 26.4%, compared to \$1.2 million in the same quarter of 2004. Included in other noninterest expense in 2004, were real estate write-downs totaling \$262,000, compared to \$32,000 in the first quarter of 2005, a decrease of \$230,000 or 87.8%. Other outside service fees decreased in the first quarter of 2005, to \$111,000, a decrease of \$115,000 or 50.9%, from \$226,000 in the same quarter of 2004. In the first quarter of 2004, other outside services included \$145,000 charge related to the sale of the Thomaston branch. Marketing expense totaled \$137,000, an increase of \$83,000 or 53.7%, from \$54,000 in the first quarter of 2004. The increase in marketing expense is primarily attributable to advertising costs associated with building Flag's metro Atlanta franchise.

**Income taxes** - Income tax expense for the quarter ended March 31, 2005, totaled \$862,000 compared to \$1.0 million for the same quarter of 2004. Flag's effective tax rate decreased to 32.1% in the first quarter of 2005 compared to 32.8% in the same quarter of 2004. Flag's lower effective tax rate relates to certain state income tax credits taken during the first quarter of 2005.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

As of March 31, 2005, there were no substantial changes in the composition of Flag's market-sensitive assets and liabilities or their related market values from that reported as of December 31, 2004. The foregoing disclosures related to the market risk of Flag should be read in conjunction with Flag's audited consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2004, included in Flag's 2004 Annual Report on Form 10-K.

### **Item 4. Controls and Procedures**

As of the end of the period covered by this report, Flag carried out an evaluation, under the supervision and with the participation of Flag's management, including Flag's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Flag's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, Flag's Chief Executive Officer and Chief Financial Officer concluded that Flag's disclosure controls and procedures are effective in timely alerting them to material information relating to Flag (including its consolidated subsidiary) that is required to be included in Flag's periodic filings with the Securities and Exchange Commission. There have been no significant changes in Flag's internal controls or, to Flag's knowledge, in other factors that could significantly affect those internal controls subsequent to the date Flag carried out its evaluation, and there have been no corrective actions with respect to significant deficiencies or material weaknesses.

Flag Financial Corporation and Subsidiary  
Part II. Other Information

**Item 1. Legal Proceedings - None**

**Item 2. Changes in Securities**

The following table sets forth information regarding the Company's purchases of its common stock on a monthly basis during the quarter ended March 31, 2005 (in thousands):

Period	Total of Number Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part Of Publicly Announced Plans or Programs <sup>(1)</sup>	Maximum Number Of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 through January 31, 2005	\$ -	-	1,551	549
February 1 through February 28, 2005	-	-	1,551	549
March 1 through March 31, 2005	-	-	1,551	549
Total	\$ -	-	1,551	549

(1) On March 19, 2004, Flag Financial Corporation announced a stock repurchase plan. The Company's board of directors authorized the repurchase of up to 10% of the Company's outstanding shares of common stock. No expiration date was specified, and no shares were repurchased under or outside of the plan during the first quarter of 2005. As of March 31, 2005, the Company has repurchased 304,000 shares at an aggregate cost of \$3.9 million.

**Item 3. Defaults upon Senior Securities - None**

**Item 4. Submission of Matters to a Vote of Security Holders - None**

**Item 5. Other Information**

Pursuant to Rule 14a-14(c)(1) promulgated under the Securities Exchange Act of 1934, as amended, shareholders desiring to present a proposal for consideration at the Company's 2006 Annual Meeting of Shareholders must notify the Company in writing to the Secretary of the Company, at 3475 Piedmont Road, N.E., Suite 550, Atlanta, Georgia, 30305, of the contents of such proposal no later than November 10, 2005, to be included in the 2006 Proxy Materials. Under the Company's bylaws, a shareholder must also notify the Company before November 10, 2005 of a proposal for the 2006 Annual Meeting that the shareholder intends to present other than by inclusion in the Company's proxy material. If the Company does not receive such notice prior to November 10, 2005, proxies solicited by the management of the Company will confer discretionary authority upon the management of the Company to vote upon any such matter.

During the first quarter of 2005, the Compensation Committee established the Company's 2005 bonus plan for executive officers and determined executive officer base salaries for the year. This information was previously filed as Exhibit 10.29 to the Company's Annual Report on Form 10-K for the year ended December 31, 2004.
