ITEM 2.01 COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS.

On July 10, 2006, Diversified Energy Company d/b/a Highland Energy, a wholly owned subsidiary of RGC Resources, Inc. ("Resources" or "Company"), entered into an asset purchase and sale agreement for the sale of the assets relating to its energy marketing business to Atmos Energy Marketing, LLC ("Atmos"). On July 25, 2006, the sale of the assets was closed. The assets sold included the gas supply contracts between Highland Energy and its customers and related business records. The effective date of transfer under the gas supply contracts is set as the date from the first meter read performed for each of the end user customers on or after August 1, 2006. Prior to this transaction, Highland Energy purchased from Atmos a majority of the natural gas that Highland Energy resold to customers pursuant to these gas supply contracts.

Highland Energy and Resources agreed with Atmos for a period of three years ending July 1, 2009 to not sell any natural gas for consumption by an existing customer at any facility serviced under the assigned contracts with the exception of tariff gas sales by a public utility subsidiary or affiliate.

The purchase price for the assets sold by Highland Energy is valued at up to \$414,270. The purchase price was a negotiated amount, as may be adjusted as described below, based on the value of the gas supply contracts and the customer relationships. Atmos paid Highland Energy the sum of \$233,216 at closing. The remaining \$181,054 will be paid by Atmos to Highland Energy on the first anniversary of the closing provided that all such customers with assigned contracts remain as customers of Atmos Energy as of the anniversary date. However, the remaining balance payable will be adjusted downward by a prescribed amount to the extent (i) a customer pursuant an assigned contract is no longer a customer on the anniversary date and such customer was not a customer for two of the preceding twelve months or (ii) any customer reduces their average natural gas consumption by more than 20 percent from current annualized levels.

As a result of the sale of the assets of Highland Energy, the Company recognized a loss of approximately \$147,000 related to the unassigned basis (the transportation component of the gas purchase agreements) not acquired by Atmos. The loss reflects the difference in the original cost of such basis in excess of the current net realizable value that Highland Energy expects to receive for resale of the basis in current gas market conditions.

ITEM 9. FINANCIAL STATEMENTS AND EXHIBITS.
