EARLE M. JORGENSEN COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)
December 31, 2001

1. **BASIS OF PRESENTATION**

The Earle M. Jorgensen Company (the "Company") is a wholly owned subsidiary of the Earle M. Jorgensen Holding Company, Inc. ("Holding").

The accompanying unaudited consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries including Earle M. Jorgensen (Canada) Inc. and Stainless Insurance Ltd., a captive insurance subsidiary. All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, the accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and include all adjustments (consisting of normally recurring accruals) and disclosures considered necessary for a fair presentation of the consolidated financial position of the Earle M. Jorgensen Company at December 31, 2001 and the consolidated results of operations and comprehensive income and cash flows for the three months and nine months ended December 31, 2001 and January 2, 2001. The consolidated results of operations and comprehensive income for the nine months ended December 31, 2001 are not necessarily indicative of the results to be expected for the full year. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended March 31, 2001.

Certain prior year amounts have been reclassified to conform with the current year presentation.

2.

OTHER COMPREHENSIVE INCOME

Other comprehensive income included foreign currency translation income (loss) of (\$99,000) and \$73,000 for the three months ended December 31, 2001 and January 2, 2001, respectively, and (\$113,000) and (\$369,000) for the nine months ended December 31, 2001 and January 2, 2001, respectively. In addition, the nine months ended December 31, 2001 included a loss of \$4,286,000, relating to the changes in fair value of the Company's interest rate swap agreement recognized in connection with the adoption of SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended. The Company determined that the interest rate swap agreement is a highly effective cash flow hedge under the provisions of SFAS No. 133, as amended. Accordingly, the effective portion of gain or loss resulting from future changes in the fair value of the interest rate swap agreement is reported in other comprehensive income while the ineffective portion will be recognized in net income. No amounts were recognized in the third quarter of fiscal 2002. For the nine months ended December 31, 2001, a loss of \$100,000 associated with the ineffective portion of the interest rate swap agreement was recognized in net income in accordance with SFAS 133, as amended.

3.

EXCISE TAX IMPOSED UNDER AN IRS SETTLEMENT AGREEMENT

In June 2001, the Company recorded an accrual for \$1.9 million, representing the amount of excise tax agreed to be paid by Holding to the IRS as a settlement of issues raised during an audit of the ESOP. Such amount was funded by the Company in September 2001.

5

EARLE M. JORGENSEN COMPANY MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS: Three months ended December 31, 2001 compared to three months ended January 2, 2001.

Revenues. Revenues for the third quarter of fiscal 2002 were \$208.1 million, compared to \$259.5 million for the same period in fiscal 2001. Revenues from our domestic operations decreased \$51.3 million (20.6%) to \$198.1 million in the third quarter of fiscal 2002 when compared to \$249.4 million for the same period in fiscal 2001. This decrease was primarily attributable to a 17% decrease in tonnage shipped which reflects a weakness in demand by our customers for most core commodities and across key industries served caused by the ongoing recession. Revenues from our Canadian operations of \$10.0 million in the third quarter of fiscal 2002 were comparable to \$10.1 million in the same period in fiscal 2001.

Gross Profit. Gross profit for the third quarter of fiscal 2002 was \$58.3 million, compared to \$72.0 million for the same period in fiscal 2001, and consolidated gross margins were 28.0% and 27.7%, respectively. Gross profit for the fiscal 2002 period included an immaterial LIFO adjustment compared to a LIFO charge of \$0.1 million in the fiscal 2001 period. Gross profit from our Canadian operations was \$2.1 million and gross margin was 21.0% during the third quarter of fiscal 2002, compared to \$2.3 million and 22.8%, respectively, for the same period in fiscal 2001. Exclusive of our Canadian operations and LIFO adjustments, gross margin was 28.4% for the third quarter of fiscal 2002 compared to 27.9% for the same period in fiscal 2001. The increase of 0.5% was the result of changes in customer and product mixes, including a higher level of value-added services.

Expenses. Total operating expenses for the third quarter of fiscal 2002 were \$49.6 million (23.8% of revenues), compared to \$55.8 million (21.5% of revenues) for the same period in fiscal 2001. The changes in operating expenses generally reflect the impact on variable expenses due to changes in tonnage shipped.

Warehouse and delivery expenses for the third quarter of fiscal 2002 were \$30.3 million (14.6% of revenues), compared to \$34.9 million (13.4% of revenues) for the same period in fiscal 2001. The decrease resulted from lower compensation expense and freight costs resulting from the decrease in tonnage shipped, partially offset by higher lease costs associated with new or expanded facilities.

Edgar Filing: JORGENSEN EARLE M CO /DE/ - Form 10-Q

Selling expenses for the third quarter of fiscal 2002 were \$7.5 million (3.6% of revenues), compared to \$8.4 million (3.2% of revenues) for the same period in fiscal 2001. The decrease resulted from lower compensation expense, including accruals for incentive compensation based on sales and gross profit levels.

General and administrative expenses for the third quarter of fiscal 2002 were \$11.9 million (5.7% of revenues), compared to \$12.4 million (4.8% of revenues) for the same period in fiscal 2001. The decrease resulted from higher income recognized in connection with redemption of life insurance policies, lower compensation expense, including accruals for incentive compensation and lower marketing expense, offset by costs associated with certain restructuring and consolidation of facilities, and higher provisions for bad debt and workers compensation claims.

Net Interest Expense. Net interest expense was \$10.2 million for the third quarter of fiscal 2002 compared to \$12.4 million for the same period in fiscal 2001. Such amounts include interest and amortization of debt issue costs related to our revolving credit facility ("Revolving Credit Facility"), our 9¹/₂% senior notes ("Senior Notes"), our variable rate term loan ("Term Loan") and interest on borrowings against the cash surrender value of certain life insurance policies we maintain.

6

Interest expense and amortization of debt issue costs related to our outstanding indebtedness (excluding those borrowings against the cash surrender value of certain life insurance policies) totaled \$6.2 million for the third quarter of fiscal 2002 compared to \$8.8 million for the same period in fiscal 2001. The average outstanding indebtedness during the third quarter of fiscal 2002 was \$311.2 million, compared to \$347.9 million for the same period in fiscal 2001. The weighted average interest rate on such indebtedness was 6.47% during the third quarter of fiscal 2002 versus 9.26% during the same period in fiscal 2001. During the three months ended December 31, 2001 and January 2, 2001, borrowings under the Revolving Credit Facility averaged \$99.8 million and \$135.1 million and the average interest rate on such borrowings was 4.42% and 8.80%, respectively.

Interest expense associated with borrowings against the cash surrender value of certain life insurance policies maintained was \$4.0 million during the third quarter of fiscal 2002 compared to \$3.6 million for the same period in fiscal 2001.

The interest rates on our Senior Notes and on the borrowings under the life insurance policies are fixed at 9.50% and 11.76%, respectively. The interest rates on our Revolving Credit Facility and Term Loan are floating (3.80% and 5.19%, respectively, as of December 31, 2001).

Pursuant to our interest rate swap agreement with Bankers Trust Company covering a notional amount of \$95.0 million under the Term Loan, we paid \$0.6 million during the third quarter of fiscal 2002 versus receiving \$0.2 million during the same period in fiscal 2001.

Income Taxes. Income tax expense for the third quarter of fiscal 2002 and 2001 included provisions for state franchise and foreign income taxes. Federal tax provisions for the third quarter of fiscal 2002 and 2001 were offset by recognition of tax benefits associated with our loss carryforwards.

RESULTS OF OPERATIONS: Nine months ended December 31, 2001 compared to nine months ended January 2, 2001.

Revenues. Revenues for the first nine months of fiscal 2002 were \$670.5 million, compared to \$788.8 million for the same period in fiscal 2001. Revenues from our domestic operations decreased \$120.4 million (15.9%) to \$638.3 million in the first nine months of fiscal 2002 when compared to \$758.7 million for the same period in fiscal 2001. This decrease was primarily attributable to a 14% decrease in tonnage shipped which reflects a weakness in demand by our customers for most core commodities and across key industries served caused by the ongoing recession. Revenues from our Canadian operations increased 6.6% to \$32.1 million in the first nine months of fiscal 2002 when compared to \$30.1 million in the same period in fiscal 2001 due to the opening of our Edmonton operations in September 2000.

Gross Profit. Gross profit for the first nine months of fiscal 2002 was \$191.1 million, compared to \$219.7 million for the same period in fiscal 2001, and consolidated gross margins were 28.5% and 27.9%, respectively. Gross profit for the fiscal 2002 period included a LIFO credit of \$1.3 million compared to a LIFO credit of \$0.1 million in the fiscal 2001 period. Gross profit from our Canadian operations was \$7.0 million and gross margin was 21.8% during the first nine months of fiscal 2002, compared to \$7.1 million and 23.6%, respectively, for the same period in fiscal 2001. Exclusive of our Canadian operations and LIFO adjustments, gross margin was 28.6% for the first nine months of fiscal 2002 compared to 28.0% for the same period in fiscal 2001. The increase of .6% was the result of changes in customer and product mixes, including a higher level of value-added services.

Expenses. Total operating expenses for the first nine months of fiscal 2002 were \$152.6 million (22.8% of revenues), compared to \$167.5 million (21.2% of revenues) for the same period in fiscal 2001. The changes in operating expenses generally reflect the impact on variable expenses from changes in tonnage shipped.

Warehouse and delivery expenses for the first nine months of fiscal 2002 were \$94.2 million (14.0% of revenues), compared to \$102.3 million (13.0% of revenues) for the same period in fiscal 2001. The decrease resulted from lower compensation expense and freight costs resulting from the decrease in tonnage shipped, partially offset by higher lease costs associated primarily with new or expanded facilities. As of December 31, 2001, 1,067 employees were involved in warehouse and delivery activities, compared to 1,260 as of January 2, 2001.

Selling expenses for the first nine months of fiscal 2002 were \$24.0 million (3.6% of revenues), compared to \$27.5 million (3.5% of revenues) for the same period in fiscal 2001. The decrease resulted from lower compensation expense, including accruals for incentive compensation based on sales and gross profit levels.

General and administrative expenses for the first nine months of fiscal 2002 were \$34.4 million (5.1% of revenues), compared to \$37.8 million (4.8% of revenues) for the same period in fiscal 2001. The decrease resulted from higher income recognized in connection with our life insurance policies, lower compensation, including accruals for incentive compensation, lower marketing expense, and lower levels of sales discounts, offset by costs associated with certain restructuring and consolidation of facilities, and higher provisions for workers compensation claims and bad debt.

Net Interest Expense. Net interest expense was \$31.8 million for the first nine months of fiscal 2002 compared to \$34.4 million for the same period in fiscal 2001. Such amounts include interest and amortization of debt issue costs related to our Revolving Credit Facility, our Senior Notes, our Term Loan and interest on borrowings against the cash surrender value of certain life insurance policies we maintain.

Interest expense and amortization of debt issue costs related to outstanding indebtedness (excluding those borrowings against the cash surrender value of certain life insurance policies) totaled \$20.0 million for the first nine months of fiscal 2002 compared to \$23.9 million for the same period in fiscal 2001. The average outstanding indebtedness during the first nine months of fiscal 2002 was \$309.9 million, compared to \$328.0 million for the same period in fiscal 2001. The weighted average interest rate on such indebtedness was 7.38% during the first nine months of fiscal 2002 versus 9.21% during the same period in fiscal 2001. During the nine months ended December 31, 2001 and January 2, 2001, borrowings under the Revolving Credit Facility averaged \$98.2 million and \$114.3 million and the average interest rate on such borrowings was 5.62% and 8.63%, respectively.

Interest expense associated with borrowings against the cash surrender value of certain life insurance policies maintained was \$11.7 million during the first nine months of fiscal 2002 compared to \$10.5 million for the same period in fiscal 2001.

Pursuant to our interest rate swap agreement with Bankers Trust Company covering a notional amount of \$95.0 million under the Term Loan, we paid \$1.3 million during the first nine months of fiscal 2002 versus receiving \$0.5 million during the same period in fiscal 2001.

Income Taxes. Income tax expense for the first nine months of fiscal 2002 and 2001 included provisions for state franchise and foreign income taxes. Federal tax provisions for the first nine months of fiscal 2002 and 2001 were offset by recognition of tax benefits associated with our loss carryforwards.

LIQUIDITY AND CAPITAL RESOURCES

Working capital increased to \$171.2 million at December 31, 2001 when compared to \$156.3 million at March 31, 2001 primarily as the result of lower accounts payable. During the first nine months of fiscal 2002 our primary sources of cash consisted of funds provided by borrowings under our Revolving Credit Facility of \$34.1 million. Our primary uses of cash included capital expenditures, \$19.5 million, dividends to Holding, \$12.7 million, and funding operating activities, \$8.7 million.

Cash used in operating activities was \$8.7 million (1.3% of revenues) during the first nine months of fiscal 2002 compared to \$48.5 million (6.1% of revenues) during the same period of fiscal 2001. The improvement generally reflects decreasing accounts receivable and inventory levels partially offset by the timing of payments to vendors.

For fiscal 2002, we have planned approximately \$26.2 million of capital expenditures to be financed from internally generated funds and borrowings under our Revolving Credit Facility. Approximately \$24.1 million is for facility expansions and improvements, including

approximately \$20.0 million for the expansion and automation of our facility in Schaumburg, Illinois, and routine replacement of machinery and equipment, and \$2.1 million is for further additions to our management information systems. During the first nine months of fiscal 2002, we spent \$19.5 million for planned capital expenditures.

During the first nine months of fiscal 2002, we redeemed \$12.7 million of our capital stock from retiring and terminated employees, as required by the terms of our ESOP and by Holding's Stockholders' Agreement. We expect that such redemptions for the remainder of fiscal 2002 will not be significant, although the amount or timing of such expenditures is not within our control and there can be no assurance in this regard.

Our cash requirements for debt service and related obligations through the end of fiscal 2002 are expected to consist primarily of interest payments under the Revolving Credit Facility, interest and principal payments on the Term Loan, interest payments on the Senior Notes, dividend payments to Holding in connection with the required repurchase of its capital stock from departing stockholders pursuant to Holding's Stockholders' Agreement and the ESOP, capital expenditures and principal and interest payments on our industrial revenue bonds. As of December 31, 2001, remaining principal payments required by our outstanding industrial revenue bond indebtedness amount to \$1.4 million in fiscal years 2003 and 2004 and \$6.2 million in the aggregate thereafter through 2011. We will not be required to make any principal payments on our Senior Notes until 2005. Our Revolving Credit Facility will mature in 2003 and our Term Loan will mature in 2004. The Term Loan requires principal payments to be made in equal quarterly installments of \$250,000. The final installment due at maturity will repay in full all outstanding principal.

As of December 31, 2001, we were in compliance with all covenants under the Revolving Credit Facility, the Term Loan and the Senior Notes, except for the fixed charge coverage ratio. The noncompliance was primarily the result of significant capital expenditures incurred for the expansion and automation of our flagship facility in Schaumburg, Illinois, combined with the weaker earnings caused by the weak economy. The expansion is expected to be substantially completed by November 2002. We received a waiver for this covenant violation and subsequently amended the Revolving Credit Facility to reset the ratio for the four consecutive fiscal quarter period ended December 31, 2001. Moreover, we have received assurances from our banks that additional amendments to the Revolving Credit Facility will be made to reset the fixed charge coverage ratio for future reporting periods, as necessary. Although compliance with our covenants in the future is largely dependent on our future performance and general economic conditions, for which there can be no assurance, we expect to be in compliance with all of our debt covenants, except as previously mentioned, for the foreseeable future.

At December 31, 2001, our primary sources of liquidity were available borrowings of \$82.3 million under the Revolving Credit Facility, available borrowings of approximately \$2.7 million against certain life insurance policies and internally generated funds. Borrowings under our Revolving Credit Facility are secured by domestic inventory and accounts receivable, and future availability is determined by prevailing levels of those assets. Our Term Loan is secured by a first priority lien on a substantial portion of current and future acquired unencumbered property, plant and equipment. The life insurance policy loans are secured by the cash surrender value of the policies, are non-recourse, and bear interest at a rate 0.5% greater than the dividend income rate on the policies. For the first nine months of fiscal 2002, dividend income earned under the policies totaled \$9.3 million, compared to

\$10.1 million for the same period in fiscal 2001 and is reported as an offset to general and administrative expenses in the accompanying statements of operations. As of December 31, 2001, there was approximately \$23.5 million of cash surrender value in all life insurance policies we maintained, net of borrowings.

For the third quarter and first nine months of fiscal 2002, EBITDA totaled \$11.5 million (5.5% of revenues) and \$46.0 million (6.9% of revenues), respectively, compared to \$19.1 million (7.4% of revenues) and \$60.3 million (7.6% of revenues) for the same period in fiscal 2001. EBITDA, which represents income from operations before non-recurring charges, net interest expense, taxes, depreciation, amortization, LIFO adjustments, and certain other non-cash expenses, including accruals for post-retirement benefits, is provided as an important measure of our ability to service debt. However, EBITDA should not be considered in isolation or as a substitute for consolidated results of operations and cash flows data presented in the accompanying consolidated financial statements.

We believe our sources of liquidity and capital resources are sufficient to meet all currently anticipated operating cash requirements, including debt service payments on the Revolving Credit Facility, the Term Loan and the Senior Notes prior to their maturities in 2003, 2004 and 2005, respectively; however, we anticipate that it will be necessary to replace or to refinance all or a portion of the Revolving Credit Facility, the Term Loan and the Senior Notes prior to their respective maturities, although there can be no assurance on what terms, if any, we would be able to obtain such refinancing or additional financing. Our ability to make interest payments on the Revolving Credit Facility and the Senior Notes and principal and interest payments on the Term Loan will be dependent on maintaining the level of performance reflected in the last twelve months, which will be dependent on a number of factors, many of which are beyond our control, and the continued availability of revolving credit borrowings.

PART II OTHER INFORMATION

Item 6. Exhibits and Reports on Form 8-K
