ANNOUNCEMENT NO. 5 - 2008

14 March 2008

At the end of 2007, TORM's Board of Directors and Management developed a new strategy, "Greater Earning Power 2.0", which was approved in January 2008. The strategy focuses on continued growth over the next three years, which means that the number of vessels in the fleet has to grow to 225-250 incl. pool vessels. The organization's resources should reflect these ambitions, and therefore the next three years will focus on the development of competences and growth as well as to operate the Company in a socially responsible manner.

The profit before restructuring costs and tax was USD 819 million, which is in line with the latest forecast of USD 810-820 million excluding restructuring costs of USD 15 million in connection with the acquisition of OMI. No vessels have been sold in 2007. The Board of Directors considers the profit to be highly satisfactory.

EBITDA was USD 304 million (DKK 1,654 million).

Cash flow from operating activities was USD 205 million (DKK 1,115 million). Cash flow before financing activities was USD -159 million (DKK -865 million), while cash flow from investing activities was USD -364 million (DKK -1,980 million).

At 31 december 2007, equity amounted to USD 1,081 million (DKK 5,491 million), corresponding to USD 15.6 per share (DKK 79.3) excluding treasury shares.

The market value of the Company's fleet as of 31 December 2007 exceeded the book value by USD 1,578 million (2006: USD 1,061 million), equalling USD 22.8 per share (DKK 115.8) excluding treasury shares. To this should be added 44 chartered vessels. The company has purchase options on 19 of these.

Return on Invested Capital (RoIC) was 10.5% (2006: 19.6%), and Return on Equity (RoE) was 67.1% (2006: 21.5%).

In March 2007, TORM sold its stake in Norden at a price of DKK 3,987 million (USD 713 million), and in September half of the proceeds were distributed as an extraordinary dividend,

corresponding to DKK 27.5 per share (USD 5.1 per share).

In June 2007, TORM took over the US shipping company OMI in collaboration with the Canadian shipping company Teekay. In connection with the acquisition of OMI, TORM took over 26 product tankers incl. one newbuilding for delivery in 2009. Four of these were chartered vessels.

At the end of 2007, the Company owned 62 vessels, 56 of which were product tankers and six bulk carriers. In addition to the vessels taken over from OMI, the Company took delivery of five vessels during the year and contracted seven newbuildings not yet delivered.

By the end of 2007, TORM had 21 vessels on order and had exercised one purchase option. Consequently, the Company's fleet of owned and chartered vessels will by 2011 consist of 143 vessels incl. pool vessels based on existing contracts.

The forecast profit before tax for 2008 excl. sale of vessels is USD 210-230 million. The profit before tax in 2007 was USD 161 million, excluding a profit of USD 643 million from the sale of the Norden shares.

The Board of Directors recommends, subject to approval by the Annual General Meeting, that a dividend of DKK 4.50 (USD 0.89) per share be paid, corresponding to a total dividend payment of DKK 327.6 million (USD 64.5 million) and equivalent to a return of 2.5% in relation to the closing price of the Company's shares on the last business day of 2007. Including the extraordinary dividend of DKK 27.5 (USD 5.1) per share paid out in September 2007, the accumulated dividend for 2007 was 55% of the net profit equivalent to DKK 2,330 million (USD 434 million).

**Safe Harbor Forward Looking Statements** Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to

accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward looking statements are based on management's current evaluation, and TORM is only under obligation to update and change the listed expectations to the extent required by law.
