STAR BULK ANNOUNCES PRICING OF PUBLIC OFFERING OF COMMON SHARES

ATHENS, GREECE, July 19, 2011-Star Bulk Carriers Corp. (the "Company" or "Star Bulk") (Nasdaq: SBLK) today announced that it has successfully priced its underwritten public equity offering of 16,700,000 common shares at \$1.80 per share. As part of the offering, the Company has granted the underwriters a 30-day option to purchase an additional 2,505,000 common shares to cover over-allotments, if any. The net proceeds from the sale of the offered common shares will be approximately \$28,011,400* (or approximately \$32,249,860* if the underwriters exercise the over-allotment option in full).

The Company expects to use the net proceeds from the offering to fund a portion of the aggregate purchase price for two secondhand drybulk carriers it has contracted to acquire by August 31, 2011 and for general corporate purposes. The Company expects to close the sale of the common shares on July 22, 2011, subject to customary closing conditions.

The common shares trade on the Nasdaq Global Select Market under the symbol "SBLK".

Spyros Capralos, President and CEO of Star Bulk commented: "We are excited about our Company's outlook and growth prospects. I think that Star Bulk is now well positioned from a financial and operational point of view to take advantage of the current dislocation in the drybulk market. The success of this offering allows Star Bulk to complete an accretive acquisition both on an EPS and a cash-flow basis, to support its dividend policy and to explore other opportunities that might arise in the future."
