CENVEO, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements ("financial statements") of Cenveo, Inc. and its subsidiaries (collectively, "Cenveo" or the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission ("SEC") and, in the Company's opinion, include all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of financial position as of September 27, 2014, and the results of operations for the three and nine months ended September 27, 2014, and September 28, 2013, and cash flows for the nine months ended September 27, 2014 and September 28, 2013. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted pursuant to SEC rules. The results of operations for the three and nine months ended September 27, 2014, are generally not indicative of the results to be expected for any interim period or for the full year, primarily due to restructuring, acquisition and debt-related activities or transactions. The December 28, 2013 consolidated balance sheet has been derived from the audited consolidated financial statements at that date. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 28, 2013, filed with the SEC.

It is the Company's practice to close its fiscal quarters on the Saturday closest to the last day of the calendar quarter. The reporting periods for the three and nine months ended September 27, 2014, and September 28, 2013, each consisted of 13 weeks and 39 weeks, respectively.

As a result of exploring opportunities to divest certain non-strategic or underperforming businesses within its manufacturing platform, the Company completed the sale of its Custom Envelope Group ("Custom Envelope") during the third quarter of 2013. Additionally, during the second quarter of 2013, the Company decided to exit the San Francisco market and closed a manufacturing facility. Collectively, the Company refers to these businesses as the "Discontinued Operations." As a result, the Company's historical condensed consolidated balance sheets, condensed consolidated statements of operations and comprehensive income (loss) ("statements of operations") and condensed consolidated statements of cash flows have been reclassified to reflect these Discontinued Operations separately from the Company's continuing operations for all periods presented.

The Company has revised the historical financial statements included in its Form 10-Q for the three and nine months ended September 28, 2013 to reflect certain adjustments made during the fourth quarter of 2013 to the preliminary purchase price allocation of the fair value of assets acquired and liabilities assumed on September 16, 2013, the date the Company acquired certain assets of National Envelope Corporation ("National"). The adjustments resulted in an increase to the fair value of net assets acquired of \$4.8 million and a corresponding increase to the bargain purchase gain recognized, exclusive of \$1.9 million in tax expense. The Company has not adjusted the statements of operations for the three and nine months ended September 28, 2013 for any other items.

During the fourth quarter of 2013, the Company completed a realignment of its reportable segments as a result of a change in management reporting and strategy. The reportable segments were realigned into three complementary reportable segments: the envelope segment, the print segment and the label and packaging segment. Previously, the two reportable segments were the print and envelope segment and the label and packaging segment. Prior period disclosures have been updated to reflect current year presentation.

New Accounting Pronouncements: Effective in the first quarter of 2013, the Company adopted an accounting pronouncement relating to the presentation of accumulated other comprehensive income (loss) ("AOCI"). This pronouncement does not change the current accounting requirements; however, the Company is required to provide information about the amounts reclassified out of AOCI by component. In addition, the Company is required to present, either on the face of the statement where net loss is presented or in the notes, significant amounts reclassified

out of AOCI by the respective line items of net loss, but only if the amount is required under GAAP to be reclassified to net loss in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net loss, the Company is required to cross-reference to other disclosures required under GAAP that provide additional detail on these amounts. The Company has provided the required disclosures in Note 13. The adoption of this pronouncement did not have a material impact to the Company's financial statements. In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." This ASU provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward exists. The objective of this ASU is to eliminate diversity in practice related to this topic. The ASU states that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the consolidated

CENVEO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, similar tax loss or a tax credit carryforward except in certain situations. This ASU is effective for annual and interim periods beginning after December 15, 2013. The adoption of this pronouncement did not have a material impact to the Company's financial statements.

In April 2014, the FASB issued ASU 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." The amendments in the ASU change the criteria for reporting discontinued operations while enhancing related disclosures. The amendments in the ASU are effective in the first quarter of 2015. The Company is currently evaluating the impact of the pending adoption of ASU 2014-08 on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)." The new revenue recognition standard provides a five-step analysis to determine when and how revenue is recognized. The standard requires that a company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This ASU is effective for annual periods beginning after December 15, 2016 and will be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. The Company is currently evaluating the impact of the pending adoption of ASU 2014-09 on its consolidated financial statements.

2. Acquisitions

The Company accounts for business combinations under the provisions of the Business Combination Topic of the FASB's Accounting Standards Codification ("ASC") 805. Acquisitions are accounted for by the purchase method, and accordingly, the assets and liabilities of the acquired businesses have been recorded at their estimated fair values on the acquisition date with the excess of the purchase price over their estimated fair values recorded as goodwill. In the event the estimated fair values of the assets and liabilities acquired exceed the purchase price paid, a bargain purchase gain is recorded in the statements of operations.

Acquisition-related costs are expensed as incurred. Acquisition-related costs, including integration costs, are included in selling, general and administrative expenses in the Company's statements of operations and were \$0.9 million and \$5.0 million for the three months ended September 27, 2014, and September 28, 2013, respectively, and \$5.2 million and \$5.7 million for the nine months ended September 27, 2014, and September 28, 2013, respectively.

2013

National Envelope

On September 16, 2013, Cenveo acquired certain assets of National. National's accounts receivable and inventory were purchased by unrelated third parties in conjunction with Cenveo's acquisition. National manufactured and distributed envelope products for the billing, financial, direct mail and office products markets and had approximately 1,600 employees. The Company believes the acquisition of certain assets of National has enhanced the Company's manufacturing capabilities and reduced capacity in the envelope industry. The purchase price was \$34.1 million, of which \$6.0 million was Cenveo common stock, and was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date, and was assigned to the Company's envelope segment. The acquisition of certain assets of National resulted in a bargain purchase gain of approximately \$17.3 million, exclusive of \$6.8 million of tax expense, which was recognized in the Company's

statement of operations in 2013. Prior to the recognition of the bargain purchase gain, the Company reassessed the fair values of the tangible and identifiable intangible assets acquired and liabilities assumed in the acquisition. The Company believes it was able to acquire those assets of National for less than their fair value due to National's bankruptcy prior to the Company's acquisition. The acquired identifiable intangible asset relates to a leasehold interest with a fair value of \$4.4 million, which is being amortized over the remaining lease term of 20 years, which includes renewal periods. The Company finalized the purchase price allocation in the third quarter of 2014 and adjusted the preliminary values allocated to certain assets and liabilities. There were no material adjustments to the purchase price allocation.

National's results of operations and cash flows are included in the Company's statements of operations and cash flows from September 16, 2013. As a result of the Company's integration of certain assets of National into the Company's existing envelope operations, it is impracticable to disclose the amounts of revenues and operating income of National since the acquisition date.

CENVEO, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Purchase Price Allocation

The following table summarizes the allocation of the purchase price of National to the assets acquired and liabilities assumed in the acquisition (in thousands):

Property, plant and equipment	\$53,108
Other intangible assets	4,430
Total assets acquired	57,538
Accounts payable	1,015
Accrued compensation and related liabilities	1,210
Other current liabilities	1,453
Note payable	2,536
Total liabilities assumed	6,214
Net assets acquired	51,324
Cost of the acquisition of certain assets of National	34,062
Gain on bargain purchase	\$ 17,262

Property, plant and equipment values were estimated based on discussions with machinery and equipment brokers, internal expertise related to the equipment and current marketplace conditions. The value of the leasehold interest acquired was determined based on the present value of the difference between: (i) the contractual amounts to be paid pursuant to the lease; and (ii) management's estimate of current market lease rates for the corresponding lease, measured over the remaining lease term and renewal periods.

The fair values of property, plant and equipment and the intangible asset acquired from National were determined to be Level 3 under the fair value hierarchy.

Unaudited Pro Forma Financial Information

The following supplemental pro forma consolidated summary financial information of the Company for the three and nine months ended September 28, 2013 herein has been prepared by adjusting the historical data as set forth in its statements of operations to give effect to the acquisition of certain assets of National as if it had been made as of January 1, 2012 (in thousands, except per share amounts).

	For the Three Months Ended September 28, 2013	For the Nine Months Ended September 28, 2013

Pro forma	\$(0.12) \$(1.08)

The supplemental pro forma consolidated summary financial information is presented for comparative purposes only and does not purport to be indicative of the Company's actual consolidated results of operations had the acquisition of certain

assets of National been consummated as of the beginning of the period noted above or of the Company's expected future results of operations. The above adjustments related to the supplemental pro forma consolidated summary financial information include the removal of \$4.7 million and \$4.8 million in acquisition-related expenses incurred during the three and nine months ended September 28, 2013, respectively, as well as the removal of a bargain purchase gain of \$17.3 million, and the related \$6.8 million of tax expense, in the third quarter of 2013.

The Company has completed its assessment of the purchase price allocation by identifying and estimating the fair values of tangible and identifiable intangible assets, comprised of a leasehold interest and property, plant and equipment. Pro forma adjustments have been made to depreciation and amortization expense related to these estimated fair values, and to reflect the Company's borrowing rate in the above supplemental pro forma consolidated summary financial information. The pro forma operating results do not include any anticipated synergies related to combining the operations.

Express Label

On December 31, 2012, the Company acquired certain assets and assumed certain liabilities of Express Label Company ("Express Label"), which had annual net sales of approximately \$5.4 million prior to the acquisition by the Company. The total purchase price was approximately \$5.1 million, and was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at their acquisition date. The Express Label acquisition resulted in \$0.1 million of goodwill, all of which is deductible for income tax purposes, and was assigned to the Company's label and packaging segment. The Company believes that the recognized goodwill related to Express Label is due to expected synergies and a reasonable market premium. The acquired identifiable intangible assets relate to: (i) customer relationships of \$3.0 million, which are being amortized over their estimated useful life of 10 years; and (ii) a trade name of \$0.3 million, which is being amortized over its estimated useful life of 10 years.

Express Label's results of operations and cash flows are included in the Company's statements of operations and cash flows from December 31, 2012.

3. Discontinued Operations

On September 28, 2013, the Company completed the sale of Custom Envelope. The Company received total net cash proceeds of approximately \$47.0 million, of which \$1.0 million and \$1.2 million were received in the first and second quarters of 2014, respectively. This resulted in the recognition of a total after-tax gain of \$16.5 million, of which \$14.9 million was recognized in the year ended 2013. The operating results of Custom Envelope are reported in discontinued operations in the Company's financial statements for all periods presented herein.

During the second quarter of 2013, the Company decided to exit the San Francisco market and closed a manufacturing facility within its print segment. The operating results of this manufacturing facility are reported in discontinued operations in the Company's financial statements for all periods presented herein.

The following table shows the components of assets and liabilities that are classified as discontinued operations in the Company's condensed consolidated balance sheets as of September 27, 2014, and December 28, 2013 (in thousands):

Sale Leaseback Transaction

During the first quarter of 2013, the Company sold one manufacturing facility related to its label and packaging segment, which had a net book value of \$3.7 million for net proceeds of \$6.3 million, and entered into a seven-year operating lease for the same facility. In connection with the sale, the Company recorded a deferred gain of \$2.6 million, which will be amortized on a straight-line basis over the term of the lease as a reduction to rent expense in cost of sales in the Company's statements of operations.

Proceeds From Long-Lived Assets

During the third quarter of 2014, the Company sold one manufacturing facility, which related to its print segment, for net proceeds of \$1.2 million.

During the first quarter of 2013, a press in the Company's label and packaging segment was destroyed by a fire. The Company's insurance policy provided coverage for business interruption and the replacement cost of the press. The insurance settlement was finalized during the second quarter of 2013 and the Company received cash proceeds of \$4.4 million, resulting in a \$2.7 million gain. The gain on the insurance settlement represents the difference between the replacement cost and carrying value of the press. The gain is recorded in other (income) expense, net in the Company's statements of operations.

During the second quarter of 2013, the Company sold one manufacturing facility, which related to its envelope segment, for net proceeds of \$1.7 million.

The estimated fair value of the Company's long-term debt was approximately \$1.2 billion as of September 27, 2014, and December 28, 2013. The fair value was determined by the Company to be Level 2 under the fair value hierarchy, and was based upon review of observable pricing in secondary markets for each debt instrument.

As of September 27, 2014, the Company was in compliance with all covenants under its long-term debt.

6.000% Senior Priority Secured Notes

On June 26, 2014, the Company's wholly-owned subsidiary, Cenveo Corporation (the "Subsidiary Issuer") issued \$540.0 million aggregate principal amount of 6.000% senior priority secured notes due 2019 (the "6.000% Notes"), which were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933, and to certain non-U.S. persons in accordance with Regulation S under the Securities Act of 1933. The 6.000% Notes were issued at par, pursuant to an indenture (the "6.000% Indenture") among the Subsidiary Issuer, Cenveo, Inc. and the other guarantors party thereto, and The Bank of New York Mellon, as trustee and collateral agent. The Subsidiary Issuer will pay interest on the 6.000% Notes semi-annually, in cash in arrears, on February 1 and August 1 of each year, commencing on August 1, 2014. The 6.000% Notes have no required principal payments prior to their maturity on August 1, 2019. The 6.000% Notes are guaranteed on a senior secured basis by Cenveo, Inc. and substantially all of its existing and future North American subsidiaries (other than the Subsidiary Issuer). As such, the 6.000% Notes rank pari passu with all of the Subsidiary Issuer's existing and future senior debt, and senior to any of the Subsidiary Issuer's subordinated debt and effectively junior to the Subsidiary Issuer's obligations under the Company's asset-based revolving credit facility (the "ABL Facility"). The Subsidiary Issuer may redeem the 6.000% Notes, in whole or in part, on or after February 1, 2019, at a redemption price of 100.0% plus accrued and unpaid interest. In addition, at any time between August 1, 2017, and February 1, 2019, the Subsidiary Issuer may redeem in whole or in

part the remaining aggregate principal amount of the notes originally issued at a redemption price of 100% plus accrued and unpaid interest and a "make-whole" premium of not less than 1%. At any time prior to August 1, 2017, the Subsidiary Issuer may redeem up to 35% of the aggregate principal amount of the notes originally issued with the net cash proceeds of certain public equity offerings, at a redemption price of 106.0% plus accrued and unpaid interest. Each holder of the 6.000% Notes has the right to require the Subsidiary Issuer to repurchase such holder's notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest thereon, upon the occurrence of certain events specified in the indenture that constitute a change of control. The 6.000% Indenture contains a number of covenants which, among other things, restrict, subject to certain exceptions, the Company's ability and the ability of the Subsidiary Issuer and the Company's other subsidiaries, to incur or guarantee additional indebtedness, make restricted payments (including paying dividends on, redeeming or repurchasing our capital stock), permit restricted subsidiaries to pay dividends or make other

distributions or payments, dispose of assets, make investments, grant liens on assets, merge or consolidate or transfer certain assets, and enter into transactions with affiliates. The 6.000% Indenture also contains certain customary affirmative covenants and events of default.

8.500% Junior Priority Secured Notes

Concurrently with the issuance of the 6.000% Notes on June 26, 2014, the Subsidiary Issuer issued \$250.0 million aggregate principal amount of 8.500% junior priority secured notes due 2022 (the "8.500% Notes") which were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933. The 8.500% Notes were issued at par, pursuant to an indenture (the "8.500% Indenture") among the Subsidiary Issuer, Cenveo, Inc. and the other guarantors party thereto, and The Bank of New York Mellon, as trustee and collateral agent. The Subsidiary Issuer will pay interest on the 8.500% Notes semi-annually, in cash in arrears, on March 15 and September 15 of each year, commencing September 15, 2014. The 8.500% Notes have no required principal payments prior to their maturity on September 15, 2022. The 8.500% Notes are guaranteed on a junior secured basis by Cenveo, Inc. and substantially all of its existing and future North American subsidiaries (other than the Subsidiary Issuer). As such, the 8.500% Notes rank junior to any senior secured obligations of the Subsidiary Issuer, senior to any existing and future unsecured obligations of the Subsidiary Issuer, and senior to all existing and future obligations of the Subsidiary Issuer that are expressly subordinated to the 8.500% Notes. The Subsidiary Issuer may redeem the 8.500% Notes, in whole or in part, on or after September 15, 2017, September 15, 2018, September 15, 2019, or September 15, 2020, at redemption prices of 106.375%, 104.250%, 102.125% and 100.00%, respectively, plus accrued and unpaid interest. At any time prior to September 15, 2017, the Subsidiary Issuer may redeem up to 35% of the aggregate principal amount of the notes originally issued with the net cash proceeds of certain public equity offerings, at a redemption price of 108.5% plus accrued and unpaid interest. Each holder of the 8.500% Notes has the right to require the Subsidiary Issuer to repurchase such holder's notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest thereon, upon the occurrence of certain events specified in the indenture that constitute a change of control. The 8.500% Indenture contains a number of covenants which, among other things, restrict, subject to certain exceptions, the Company's ability and the ability of the Subsidiary Issuer and the Company's other subsidiaries, to incur or guarantee additional indebtedness, make restricted payments (including paying dividends on, redeeming or repurchasing our capital stock), permit restricted subsidiaries to pay dividends or make other distributions or payments, dispose of assets, make investments, grant liens on assets, merge or consolidate or transfer certain assets, and enter into transactions with affiliates. The 8.500% Indenture also contains certain customary affirmative covenants and events of default.

Net proceeds of the 6.000% Notes and 8.500% Notes were used to: (i) refinance the \$360 million secured term loan facility (the "Term Loan Facility"), which at the time had a remaining principal balance of \$327.3 million; (ii) refinance the 8.875% senior second lien notes due 2018 (the "8.875% Notes"), which at the time had a remaining principal balance of \$400.0 million; and (iii) pay related fees, expenses and accrued interest. In connection with the issuance of the 6.000% Notes and the 8.500% Notes, the Company capitalized debt issuance costs of \$14.7 million and \$7.1 million, respectively, all of which will be amortized over the life of the 6.000% Notes and the 8.500% Notes.

A portion of the refinancing was accounted for as a modification of debt. As a result, the Company will continue to amortize a portion of the unamortized debt issuance costs on the 8.875% Notes and Term Loan Facility. The modification resulted in the recording of a discount of \$5.9 million on the 6.000% Notes and \$2.8 million on the 8.500% Notes.

7% Senior Exchangeable Notes

During the third quarter of 2014, the Company exchanged \$3.0 million of its 7% senior exchangeable notes due 2017 (the "7% Notes") for approximately one million shares of the Company's common stock.

Amendment to Term Loan Facility

In February 2014, the Company entered into an amendment to adjust, among other things, its covenant requirements under its Term Loan Facility. This amendment eliminated the maximum consolidated leverage ratio and replaced it with a maximum consolidated first lien leverage ratio, providing the Company additional financial flexibility. In connection with this amendment, the Company capitalized \$1.5 million related to original issuance discount.

Extinguishments

In the third quarter of 2014, the Company extinguished \$1.4 million of its 11.5% senior notes due 2017 (the "11.5% Notes"). In connection with the extinguishment, the Company recorded a loss on early extinguishment of debt of \$0.1 million, all of which is related to the write-off of original issuance discount. Additionally, in connection with the exchange of \$3.0 million of its 7% Notes completed in the third quarter of 2014, the Company incurred a non-cash induced conversion expense of \$1.1 million, which has been recorded in loss on early extinguishment of debt, net.

In the second quarter of 2014, the Company extinguished its Term Loan Facility and its 8.875% Notes. In connection with this extinguishment, the Company recorded a loss on early extinguishment of debt of approximately \$9.0 million, of which \$5.8 million related to the write-off of unamortized debt issuance costs, and \$3.2 million related to the write-off of original issuance discount. Additionally, in connection with the issuance of the 6.000% Notes and 8.500% Notes in the second quarter of 2014, the Company expensed debt issuance costs of \$16.5 million, of which \$1.6 million related to fees paid to third parties. The Company also used cash on hand of \$9.4 million to repay in full the remaining principal balance on the unsecured \$50.0 million aggregate principal amount term loan due 2017 (the "Unsecured Term Loan"). In connection with the extinguishment of the Unsecured Term Loan, the Company recorded a loss on early extinguishment of debt of approximately \$1.0 million, of which \$0.6 million related to the write-off of unamortized debt issuance costs, and \$0.4 million related to the write-off of original issuance discount.

During the third quarter of 2013, the Company incurred an aggregate loss on early extinguishment of debt of \$1.6 million related to the pay down of \$15.0 million of debt relating to its Unsecured Term Loan, of which \$0.9 million related to the write-off of unamortized debt issuance costs and \$0.7 million related to the write-off of original issuance discount.

During the nine months ended September 28, 2013, the Company extinguished \$30.0 million of its Unsecured Term Loan. In connection with the extinguishment, the Company recorded a loss on early extinguishment of debt of approximately \$2.9 million, of which \$1.6 million related to the write-off of unamortized debt issuance costs and \$1.3 million related to the write-off of original issuance discount. Additionally during the nine months ended September 28, 2013, and in connection with the refinancing of its term loan and revolving credit facilities, the Company recorded a loss on early extinguishment of debt of approximately \$6.4 million, of which \$4.1 million related to consent fees paid to consenting lenders, \$2.1 million related to the write-off of unamortized debt issuance costs and \$0.2 million related to the write-off of original issuance discount.

In the first quarter of 2013, the Company extinguished all of its 7.875% senior subordinated notes due 2013 ("7.875% Notes"). In connection with the extinguishment, the Company recorded a loss on early extinguishment of debt of approximately \$0.1 million, all of which relates to the write-off of unamortized debt issuance costs.

8. Commitments and Contingencies

Effective September 19, 2014, the Company reached an agreement with all defendants to settle all controversies and disputes, and agreed to dismiss all claims against defendants with prejudice, in connection with certain litigation arising out of the Company's packaging division. Pursuant to the settlement agreement, the Company received settlement proceeds from the litigation during the third quarter of 2014, which has been recorded in other (income) expense, net, in the Company's consolidated statement of operations. Additionally, certain defendants in the above-referenced action forfeited certain benefits, the effect of which has been recorded in other (income) expense, net, in the Company's consolidated statement of operations.

The Company has incurred \$2.6 million of legal expenses over several years related to this litigation, including \$0.2 million and \$0.9 million for the three and nine months ended September 27, 2014, respectively, and \$0.1 million and \$0.2 million for the three and nine months ended September 28, 2013, respectively, which have been recorded in selling, general and administrative expenses in the Company's statements of operations. The Company is currently working with its insurance carriers regarding reimbursement of these expenses, however, no assurances can be provided.

The Company is party to various other legal actions that are ordinary and incidental to its business. While the outcome of pending legal actions cannot be predicted with certainty, management believes the outcome of these various proceedings will not have a material effect on the Company's financial statements.

The Company is involved in certain environmental matters and has been designated as a potentially responsible party for certain hazardous waste sites. There have been no material changes related to these environmental matters and, based on information currently available, the Company believes that remediation of these environmental matters will not have a material effect on the Company's financial statements.

CENVEO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company's income, sales and use and other tax returns are routinely subject to audit by various authorities. The Company believes that the resolution of any matters raised during such audits will not have a material effect on the Company's financial statements.

The Company participates in a number of multi-employer pension plans for union employees ("Multi-Employer Plans") and is exposed to significant risks and uncertainties arising from its participation in these Multi-Employer Plans. These risks and uncertainties, including changes in future contributions due to partial or full withdrawal of the Company and other participating employers from these Multi-Employer Plans, could significantly increase the Company's future contributions or the underfunded status of these Multi-Employer Plans. Two of the Multi-Employer Plans are in mass withdrawal status. While it is not possible to quantify the potential impact of future actions of the Company or other participating employers in these Multi-Employer Plans, continued participation in or withdrawal from these multi-employer pension plans could have a material effect on the Company's financial statements.

9. Fair Value Measurements

Certain assets and liabilities of the Company are required to be recorded at fair value on either a recurring or nonrecurring basis. Fair value is determined based on the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants. There were no assets or liabilities recorded at fair value on a recurring or nonrecurring basis as of September 27, 2014, and September 28, 2013.

Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, accounts receivable, net, long-term debt and accounts payable. The carrying values of cash and cash equivalents, accounts receivable, net, current maturities of long-term debt and accounts payable are reasonable estimates of their fair values as of September 27, 2014, and December 28, 2013, due to the short-term nature of these instruments. See Note 7 for fair value of the Company's long-term debt. Additionally, the Company records the assets acquired and liabilities assumed in its acquisitions (Note 2) at fair value.

10. Retirement Plans

The components of the net periodic (benefit) expense for the Company's pension plans, SERP and other postretirement benefit plans ("OPEB") are as follows (in thousands):

	For the Three Months Ended		For the Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013

Vested	(529,250)	4.44
Forfeited	(625)	5.62
Non-vested at September 27, 2014	539,111	\$3.24

On May 1, 2014, 88,236 RSUs were issued to certain members of the Company's Board of Directors. The RSUs vest one year from the date of issuance. The fair value of these awards was determined based on the Company's stock price on the date of issuance.

The total fair value of RSUs which vested during the three and nine months ended September 27, 2014, was zero and \$1.7 million, as of the respective vesting dates.

12. Restructuring and Other Charges

The Company currently has three active cost savings, restructuring and integration plans: (i) two plans related to the implementation of cost savings initiatives focused on overhead cost eliminations, including headcount reductions, and the potential closure of certain manufacturing facilities (the "2014 Plan" and the "2013 Plan"); and (ii) the plan related to the integration of certain assets of National into existing envelope operations (the "National Plan").

2014 Plan

During the first quarter of 2014, the Company began implementing the 2014 Plan, which primarily focuses on overhead cost eliminations, including headcount reductions, and the potential closure of certain manufacturing facilities. The Company expects to be substantially complete with the 2014 Plan during the 2015 fiscal year.

2013 Plan

During the first quarter of 2013, the Company began implementing the 2013 Plan, which primarily focuses on overhead cost eliminations, including headcount reductions, and the potential closure of certain manufacturing facilities. The Company expects to be substantially complete with the 2013 Plan during the 2014 fiscal year.

Acquisition Integration Plans

Upon the completion of the acquisition of certain assets of National, the Company developed and began implementing the National Plan. Since the date of acquisition, activities related to the National Plan have included the closure and consolidation of three envelope facilities on the west coast into one facility. Additionally, during the third quarter of 2014, the Company substantially completed the consolidation of seven additional envelope facilities into our existing operations and two new facilities. The Company expects the National Plan to be completed during 2014.

Upon the completion of the Envelope Product Group ("EPG") acquisition, the Company developed and implemented its plan to integrate EPG into its existing envelope operations (the "EPG Plan"). Since the date of acquisition, activities related to the EPG Plan have included the closure and consolidation of five manufacturing facilities into the Company's existing operations and the elimination of duplicative headcount. The Company has substantially completed the EPG Plan.

2012 Plan

In 2012, the Company announced the closure and consolidation of a print plant and an envelope plant into its existing operations. Additionally, the Company began implementing a cost savings initiative (the "2012 Plan"), which primarily focused on the Company's print and envelope segments and corporate expenses. This initiative focused on the consolidation of office and warehouse space and other overhead cost elimination plans, including headcount reductions.

Residual Plans

The Company currently has certain residual cost savings, restructuring and integration plans (the "Residual Plans"). As a result of these cost savings actions over the last eight years, the Company has closed or consolidated a significant amount of manufacturing facilities and has had a significant number of headcount reductions.

The Company does not anticipate any significant future expenses related to either the 2012 Plan or the Residual Plans.

14. Income (Loss) per Share

Basic income (loss) per share is computed based upon the weighted average number of common shares outstanding for the period. When applicable, diluted income (loss) per share is calculated using two approaches. The first approach, the treasury stock method, reflects the potential dilution that could occur if the stock options, RSUs and, when applicable, performance share units ("PSUs," and collectively with the stock options and RSUs, the "Equity Awards") to issue common stock were exercised. The second approach, the if converted method, reflects the potential dilution of the Equity Awards and the 7% Notes being exchanged for common stock. Under this method, interest expense associated with the 7% Notes, net of tax, is added back to income from continuing operations and the shares outstanding are increased by the underlying 7% Notes equivalent.

For the nine months ended September 27, 2014, and September 28, 2013, the effect of approximately 20.3 million and 24.0 million shares, respectively, related to the exchange of the 7% Notes for common stock and the issuance of common stock upon exercise of the Equity Awards, were excluded from the calculation of diluted income (loss) per share, as the effect would be anti-dilutive.

The following table sets forth the computation of basic and diluted income (loss) per share for the three and nine months ended September 27, 2014, and September 28, 2013 (in thousands, except per share data):

15. Segment Information

The Company operates four operating segments: envelope, print, label and packaging. Based upon similar economic characteristics and management reporting, the Company has aggregated the label and packaging operating segments to have a total of three reportable segments: envelope, print and label and packaging. The envelope segment provides direct mail offerings and transactional and stock envelopes. The print segment provides a wide array of print offerings such as high-end printed materials including car brochures, advertising literature, corporate identity and brand marketing material, digital printing and content management. The label and packaging segment specializes in the design, manufacturing and printing of labels such as custom labels, overnight packaging labels, pressure-sensitive prescription labels, full body shrink sleeves, and specialized folded carton packaging.

Operating income (loss) of each segment includes all costs and expenses directly related to the segment's operations. Corporate expenses include corporate general and administrative expenses including stock-based compensation.

Corporate identifiable assets primarily consist of cash and cash equivalents, miscellaneous receivables, deferred financing fees, deferred tax assets and other assets.

16. Condensed Consolidating Financial Information

Cenveo, Inc. is a holding company (the "Parent Company"), which is the ultimate parent of all Cenveo subsidiaries. The Subsidiary Issuer issued the 6.000% Notes, the 8.500% Notes, the 7.875% Notes, the 8.875% Notes, the 7% Notes, and the 11.5% Notes (collectively with the 6.000% Notes, the 8.500% Notes, the 7.875% Notes, the 8.875% Notes, and the 7% Notes, the "Subsidiary Issuer Notes"), which are fully and unconditionally guaranteed, on a joint and several basis, by the Parent Company and substantially all of its wholly owned North American subsidiaries, other than the Subsidiary Issuer (the "Guarantor Subsidiaries").

Presented below is condensed consolidating financial information for the Parent Company, the Subsidiary Issuer, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries as of September 27, 2014, and December 28, 2013, and for the three and nine months ended September 27, 2014, and September 28, 2013. The condensed consolidating financial information has been presented to show the financial position, results of operations and cash flows of the Parent Company, the Subsidiary Issuer, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, assuming the guarantee structure of the Subsidiary Issuer Notes was in effect at the beginning of the periods presented.

The supplemental condensed consolidating financial information reflects the investments of the Parent Company in the Subsidiary Issuer, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries using the equity method of accounting. The Company's primary transactions with its subsidiaries, other than the investment account and related equity in net income (loss) of subsidiaries, are the intercompany payables and receivables between its subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations, which we refer to as MD&A, of Cenveo, Inc. and its subsidiaries, which we refer to as Cenveo, should be read in conjunction with the accompanying condensed consolidated financial statements and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 28, 2013, which we refer to as our 2013 Form 10-K. Item 7 of our 2013 Form 10-K describes the application of our critical accounting policies, for which there have been no significant changes as of September 27, 2014.

Forward-Looking Statements

Certain statements in this report may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the use of terminology such as "may," "expect," "intend," "estimate," "anticipate," "plan," "foresee," "believe" or "continue" and similar expressions, or as other statements which do not relate solely to historical facts. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that could cause actual results to differ materially from what is expressed or forecasted in these forward-looking statements. In view of such uncertainties, investors should not place undue reliance on our forward-looking statements. Such statements speak only as of the date they were made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors which could cause actual results to differ materially from management's expectations include, without limitation: (i) recent United States and global economic conditions have adversely affected us and could continue to do so; (ii) our substantial level of indebtedness could impair our financial condition and prevent us from fulfilling our business obligations; (iii) our ability to service or refinance our debt; (iv) the terms of our indebtedness imposing significant restrictions on our operating and financial flexibility; (v) additional borrowings available to us which could further exacerbate our risk exposure from debt; (vi) our ability to successfully integrate acquired businesses with our business; (vii) a decline in our consolidated profitability or profitability within one of our individual reporting units could result in the impairment of our assets, including goodwill and other long-lived assets; (viii) the industries in which we operate our business are highly competitive and extremely fragmented; (ix) a general absence of long-term customer agreements in our industries, subjecting our business to quarterly and cyclical fluctuations; (x) factors affecting the United States postal services impacting demand for our products; (xi) the availability of the Internet and other electronic media adversely affecting our business; (xii) increases in paper costs and decreases in the availability of raw materials; (xiii) our labor relations; (xiv) our compliance with environmental laws; (xv) our dependence on key management personnel; and (xvi) any failure, interruption or security lapse of our information technology systems. This list of factors is not exhaustive, and new factors may emerge or changes to the foregoing factors may occur that would impact our business. Additional information regarding these and other factors can be found elsewhere in this report, and in our other filings with the Securities and Exchange Commission, which we refer to as the SEC.

Business Overview

We are a diversified manufacturing company focused on print-related products. Our broad portfolio of products includes envelope converting, commercial printing, label manufacturing and specialty packaging. We operate a global network of strategically located manufacturing facilities, serving a diverse base of over 100,000 customers. Our business strategy has been, and continues to be, focused on improving sales performance, pursuing and integrating strategic acquisitions, improving our cost and capital structure, and maintaining reasonable levels of financial flexibility. We believe this strategy has allowed us to diversify our revenue base, maintain our low cost structure and deliver quality product offerings to our customers.

We operate our business in three complementary reportable segments: the envelope segment, the print segment and the label and packaging segment. During the fourth quarter of 2013, we completed a realignment of our segments as a result of a change in management reporting and strategy. Previously, we reported our segments as the print and envelope segment and the label and packaging segment.

Envelope. We are the largest envelope manufacturer in North America. On September 16, 2013, we enhanced our manufacturing capabilities and reduced capacity in the envelope industry with the acquisition of certain assets of National Envelope Corporation, which we refer to as National. Our envelope segment represented approximately 47.2% and 48.2% of our net sales for the three and nine months ended September 27, 2014, respectively.

Our envelope segment offers direct mail products used for customer solicitations and transactional envelopes used for billing and remittance by end users including financial institutions, insurance companies and telecommunications companies. We also produce a broad line of specialty and stock envelopes which are sold through wholesalers, and to the office product market through distributors.

Print. We are one of the leading commercial printers in North America. Our print segment represented approximately 27.7% and 26.7% of our net sales for the three and nine months ended September 27, 2014, respectively.

Our print segment primarily caters to the consumer products, automotive, travel and leisure and telecommunications industries. We provide a wide array of print offerings to our customers including electronic prepress, digital asset archiving, direct-to-plate technology, high-quality color printing on web and sheet-fed presses, digital printing and content management. The broad selection of print products we produce includes car brochures, annual reports, direct mail products, advertising literature, corporate identity materials and brand marketing materials. Our content management business offers complete solutions, including: editing, content processing, content management, electronic peer review, production, distribution and reprint marketing.

Label and Packaging. We are a leading label manufacturer and the largest North American prescription label manufacturer for retail pharmacy chains. On December 31, 2012, we added to our label business with the acquisition of Express Label Company, which we refer to as Express Label. Our specialty packaging business currently focuses on specialty folded carton packaging and shrink-sleeve packaging. Our label and packaging segment represented approximately 25.0% and 25.2% of our net sales for the three and nine months ended September 27, 2014, respectively.

Our label and packaging segment produces a diverse line of custom labels for a broad range of industries including manufacturing, warehousing, packaging, food and beverage, and health and beauty, which we sell through extensive networks within the resale channels. We provide direct mail and overnight packaging labels, food and beverage labels, and shelf and scale labels for national and regional customers. We produce pressure-sensitive prescription labels for the retail pharmacy chain market. We produce premium, high-quality promotional packaging offerings including folded carton and full body shrink sleeves. Our primary customers for our specialty packaging products are pharmaceutical, apparel, nutraceutical and other large, multinational consumer product companies.

Consolidated Operating Results

This MD&A includes an overview of our condensed consolidated results of operations for the three and nine months ended September 27, 2014, and September 28, 2013, followed by a discussion of the results of operations of each of our reportable segments for the same periods. Our results for the three and nine months ended September 27, 2014, include the operating results of National. Our results for the three and nine months ended September 28, 2013, include the operating results of National beginning on September 16, 2013, the date of acquisition.

2014 Overview

The print-related industries are highly fragmented and extremely competitive due to over-capacity and pricing pressures. We believe these factors, combined with a slow general economic recovery, have continued to impact our results of operations in 2014.

Our current management focus is on the following areas:

Improving Sales Performance

Our sales focus has been, and will continue to be, on our customers' experience across each of our businesses, ensuring we meet our customers' demands. We seek to expand our relationship with them through cross-selling initiatives available within our platform. During 2013, we implemented a customer relationship management tool across our entire sales platform, and we focused on our e-commerce platform through both capital investments and incremental headcount. We have been successful in our recruiting efforts focusing on attracting not only talented individuals with experience in our current business lines, but also individuals with experience in complementary industry channels. We expect these focus points, along with our expanded geographic presence from the acquisition of certain assets of National, will allow us to experience modest sales growth despite operating in challenging industries and an uncertain economy.

In addition, the uncoated free sheet paper market, which is the primary input for our envelope segment and certain other products, experienced supply reductions beginning in the fourth quarter of 2013, and into the first quarter of 2014. As a result,

our suppliers announced price increases which became effective for us during our fourth quarter of 2013. We began to pass along these increases, as well as other ancillary raw material costs, which we were unable to pass through to our envelope customers over the previous two years, in the fourth quarter of 2013. We have had early success passing along price increases, resulting in an increase in our average selling price in 2014 versus 2013, which has more than offset the average year-over-year increase in uncoated free sheet paper prices. However, we cannot be assured we will be successful in every effort, and any increase in price may have an adverse impact on future product orders from our customers.

Integrating Certain Assets of National

We believe our acquisition of certain assets of National will provide much needed capacity reductions within the envelope industry. We developed and began implementing our plan to integrate those assets with our existing envelope operations in the third quarter of 2013. The integration has taken in excess of a year to complete due to the condition of National's operating platform and asset base at the time of acquiring these assets out of bankruptcy. To date, we have completed the consolidation of our west coast operations, which included the consolidation of three envelope facilities into one facility. Additionally, during the third quarter of 2014, we substantially completed the consolidation of seven additional envelope facilities into our existing operations and two new facilities, which had originally been scheduled to be completed in 2015. As a result of this accelerated consolidation, we experienced inefficiencies in our operations that we originally anticipated occurring over a longer duration in our initial integration plan. Our third quarter 2014 results reflect the impact of this accelerated timeline, and we expect that some disruption will continue into the fourth quarter of 2014. We believe this accelerated integration timeline will better position us for 2015 and beyond.

Improving our Cost Structure

We continue to monitor our cost structure as marketplace conditions warrant, and expect to further reduce costs as necessary. With the facility consolidations related to integrating National with our existing operations and select downsizing of certain commercial print assets, we believe our fixed costs will be reduced significantly as we exit 2014. We also continue to focus on strategic investments, capital expenditures and acquisitions in areas that we believe will strengthen our manufacturing platform and product offerings. We continue to review strategic alternatives for business lines we believe are underperforming or non-strategic to our future operations.

Improving our Capital Structure

Since the beginning of 2011, we have been focused on improving our capital structure through a number of initiatives including working capital improvements, exiting underperforming or non-strategic businesses, and taking advantage of attractive leveraged loan and high yield debt market conditions. Since we began this initiative, we have reduced our outstanding debt and weighted average interest rate, despite our continued reinvestments of cash into our businesses via four acquisitions, focused capital expenditures, and incurring over \$90 million in transaction costs associated with the improvement of our capital structure. In December of 2013, primarily due to our acquisition of certain assets of National, we increased our borrowing capacity on our asset-based revolving credit facility, which we refer to as the ABL Facility, to \$230 million from \$200 million, which was supported by over \$60 million of suppressed capacity underlying our ABL Facility at the time. The accordion feature within our ABL Facility will, subject to the satisfaction of customary conditions, permit us to borrow up to an additional \$20 million to further enhance our capital structure by using this lower interest rate vehicle to address our higher interest rate debt currently outstanding.

On June 26, 2014, we issued \$540.0 million aggregate principal amount of 6.000% senior priority secured notes due 2019, which we refer to as the 6.000% Notes, and \$250.0 million aggregate principal amount of 8.500% junior priority secured notes due 2022, which we refer to as the 8.500% Notes. Net proceeds from the 6.000% Notes and 8.500% Notes were used to refinance: (i) the \$360 million secured term loan facility, which we refer to as the Term

Loan Facility, which at the time had a remaining principal balance of \$327.3 million; and (ii) the 8.875% senior second lien notes due 2018, which we refer to as the 8.875% Notes, which at the time had a remaining principal balance of \$400.0 million. This transaction results in reductions in future cash interest expense, a significant extension of our existing maturities and will allow us greater flexibility to address our higher interest rate debt instruments in the future.

Additionally, during the second quarter of 2014, we used cash on hand of \$9.4 million to repay in full the remaining principal balance on our unsecured \$50.0 million aggregate principal amount term loan due 2017, which we refer to as the Unsecured Term Loan.

Discontinued Operations

In September 2013, we completed the sale of our custom envelope business, which we refer to as Custom Envelope, within our envelope segment. We received total net proceeds of \$47.0 million, of which \$1.0 million and \$1.2 million were received in the first and second quarters of 2014, respectively. The operating results of this divestiture are reported in discontinued operations in our condensed consolidated financial statements for all periods presented.

During the second quarter of 2013, we decided to exit the San Francisco market and closed a manufacturing facility within our print segment. The operating results of this manufacturing facility are reported in discontinued operations in our condensed consolidated financial statements for all periods presented.

Collectively, we refer to these businesses as the Discontinued Operations.

Reportable Segments

We operate three complementary reportable segments: the envelope segment, the print segment and the label and packaging segment.

See below for a summary of net sales and operating income for our reportable segments that we use internally to assess our operating performance. Our fiscal quarters end on the Saturday closest to the last day of the calendar month. Our three and nine month reporting periods consisted of 13 weeks and 39 weeks, respectively, and ended on September 27, 2014, and September 28, 2013.

Net Sales

Net sales increased \$37.8 million, or 8.5%, in the third quarter of 2014, as compared to the third quarter of 2013. Sales in our envelope segment increased \$49.4 million, which was partially offset by decreased sales of \$7.0 million in our print segment and decreased sales of \$4.5 million in our label and packaging segment.

Net sales increased \$182.2 million, or 14.4%, in the first nine months of 2014, as compared to the first nine months of 2013. Sales in our envelope segment increased \$192.9 million, which was partially offset by decreased sales of \$8.2 million in our label and packaging segment and decreased sales of \$2.4 million in our print segment.

See Segment Operations below for a detailed discussion of the primary factors affecting the change in our net sales by reportable segment.

Operating Income

Operating income decreased \$7.2 million, or 43.5%, in the third quarter of 2014, as compared to the third quarter of 2013. This decrease was due to a decrease in operating income from our envelope segment of \$3.8 million, an increase in corporate expenses of \$2.4 million, and a decrease in operating income from our label and packaging segment of \$1.0 million. Operating income from our print segment remained flat for the third quarter of 2014, as compared to the third quarter of 2013.

Operating income decreased \$12.3 million, or 27.3%, in the first nine months of 2014, as compared to the first nine months of 2013. This decrease was due to an increase in corporate expenses of \$7.3 million, a decrease in operating income from our label and packaging segment of \$4.2 million, and a decrease in operating income from our envelope segment of \$3.8 million, partially offset by an increase in operating income from our print segment of \$2.9 million.

See Segment Operations below for a more detailed discussion of the primary factors for the changes in operating income by reportable segment.

Gain on Bargain Purchase

During the three and nine months ended September 28, 2013, in connection with the acquisition of certain assets of National, we recognized a bargain purchase gain of approximately \$17.3 million.

Interest Expense

Interest expense decreased \$1.6 million to \$26.0 million in the third quarter of 2014, as compared to \$27.6 million in the third quarter of 2013. Interest expense decreased \$4.8 million to \$80.6 million in the first nine months of 2014, as compared to \$85.4 million in the first nine months of 2013. The decrease was primarily due to: (i) a lower weighted average interest rate as a result of the debt refinancings in the second quarters of 2013 and 2014; and (ii) principal repayments made on our Unsecured Term Loan, and on our Term Loan Facility, since the first quarter of 2013 using cash flow from operations and proceeds from the sale of Custom Envelope.

Interest expense in the third quarter of 2014 reflected average outstanding debt of approximately \$1.3 billion and a weighted average interest rate of 7.3%. This compares to average outstanding debt of approximately \$1.2 billion and a weighted average interest rate of 8.0% in the third quarter of 2013. Interest expense in the first nine months of 2014 reflected average outstanding debt of approximately \$1.2 billion and a weighted average interest rate of 7.6%. This compares to average outstanding debt of approximately \$1.2 billion and a weighted average interest rate of 8.3% in the first nine months of 2013.

We expect interest expense for the remainder of 2014 will be lower than the same period in 2013, primarily due to the refinancing of the Term Loan Facility and 8.875% Notes in the second quarter of 2014, and the concurrent repayment in full of the Unsecured Term Loan.

Loss on Early Extinguishment of Debt

In the third quarter of 2014, we extinguished \$1.4 million of our 11.5% senior notes due 2017, which we refer to as the 11.5% Notes. In connection with the extinguishment, we recorded a loss on early extinguishment of debt of \$0.1 million, all of which is related to the write-off of original issuance discount.

Additionally, during the third quarter of 2014, we exchanged \$3.0 million of our 7% senior exchangeable notes due 2017, which we refer to as the 7% Notes, for approximately one million shares of our common stock. In connection with this transaction, we incurred a non-cash induced conversion expense of \$1.1 million, which has been recorded in loss on early extinguishment of debt, net.

In the second quarter of 2014, we extinguished our Term Loan Facility and 8.875% Notes. In connection with this extinguishment, we recorded a loss on early extinguishment of debt of approximately \$9.0 million, of which \$5.8 million related to the write-off of unamortized debt issuance costs, and \$3.2 million related to the write-off of original issuance discount. Additionally, in connection with the issuance of the 6.000% Notes and 8.500% Notes in the second quarter of 2014, we expensed debt issuance costs of \$16.5 million, of which \$1.6 million related to fees paid to third parties. We also used cash on hand of \$9.4 million in the second quarter of 2014 to repay in full the remaining principal balance on the Unsecured Term Loan. In connection with the extinguishment of the Unsecured Term Loan, we recorded a loss on early extinguishment of debt of approximately \$1.0 million, of which \$0.6 million related to the write-off of unamortized debt issuance costs, and \$0.4 million related to the write-off of original issuance discount.

During the third quarter of 2013, we incurred an aggregate loss on early extinguishment of \$1.6 million related to the pay down of \$15.0 million of debt relating to our Unsecured Term Loan, of which \$0.9 million related to the write-off of unamortized debt issuance costs and \$0.7 million related to the write-off of original issuance discount.

During the nine months ended September 28, 2013, we extinguished \$30.0 million of our Unsecured Term Loan. In connection with the extinguishment, we recorded a loss on early extinguishment of debt of approximately \$2.9 million, of which \$1.6 million related to the write-off of unamortized debt issuance costs and \$1.3 million related to the write-off of original issuance discount. Additionally during the nine months ended September 28, 2013, and in connection with the refinancing of our term loan and revolving credit facilities, we recorded a loss on early extinguishment of debt of approximately \$6.4 million, of which \$4.1 million related to consent fees paid to consenting lenders, \$2.1 million related to the write-off of unamortized debt issuance costs and \$0.2 million related to the write-off of original issuance discount.

During the first quarter of 2013, in connection with refinancing activities, we incurred a loss on early extinguishment of debt of \$0.1 million, which related to unamortized debt issuance costs associated with the extinguishment of our 7.875% senior subordinated notes due 2013, which we refer to as the 7.875% Notes.

Other (Income) Expense, Net

During the third quarter of 2014 and the first nine months of 2014, respectively, we recognized other income, net, of \$7.0 million and \$7.3 million. This is primarily comprised of the receipt of settlement proceeds and the forfeiture of certain benefits in connection with certain litigation arising out of the Company's packaging division.

Income Tax Expense

In the third quarter of 2014, we had an income tax benefit of \$0.2 million, compared to an income tax benefit of \$9.4 million in the third quarter of 2013. The tax benefit for the third quarter of 2014 and the tax benefit for the third quarter of 2013 primarily related to income taxes on our domestic operations.

In the first nine months of 2014, we had an income tax benefit of \$1.4 million, compared to an income tax benefit of \$5.1 million in the first nine months of 2013. The tax benefit for the first nine months of 2014 and the tax benefit for the first nine months of 2013 primarily related to income taxes on our domestic operations.

Our effective tax rate for the three and nine months ended September 27, 2014 was lower than the federal statutory rate, primarily due to recording a valuation allowance charge of \$3.0 million and \$20.8 million during the three and nine months ended September 27, 2014, against deferred tax assets generated in the respective periods, primarily from pre-tax operating losses. Our effective tax rate for the three and nine months ended September 28, 2013, was lower than the federal statutory rate primarily due to non-deductible expenses and state income taxes.

Valuation Allowance

We review the likelihood that we will realize the benefit of our deferred tax assets, and therefore the need for valuation allowances, on a quarterly basis, or more frequently if events indicate that a review is required. In determining the requirement for a valuation allowance, the historical and projected financial results of the legal entity or consolidated group recording the net deferred tax asset is considered, along with all other available positive and negative evidence. The factors considered in our determination of the probability of the realization of the deferred tax assets include, but are not limited to: recent historical financial results, historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences, the duration of statutory carryforward periods and tax planning strategies. If, based upon the weight of available evidence, it is more likely than not the deferred tax assets will not be realized, a valuation allowance is recorded.

Concluding that a valuation allowance is not required is difficult when there is significant negative evidence which is objective and verifiable, such as cumulative losses in recent years. We utilize a rolling twelve quarters of pre-tax income or loss adjusted for significant permanent book to tax differences as a measure of our cumulative results in recent years. In the United States, our analysis indicates that we have cumulative three year historical losses on this basis. While there are significant impairment, restructuring and refinancing charges driving our cumulative three year loss, this is considered significant negative evidence which is objective and verifiable and, therefore, difficult to overcome. However, the three year loss position is not solely determinative and accordingly, we consider all other available positive and negative evidence in our analysis. Based upon our analysis, we believe it is more likely than not that the net deferred tax assets in the United States will not be fully realized in the future. Accordingly, we increased our valuation allowance related to those net deferred tax assets by \$3.0 million to \$124.1 million in the three months ended September 27, 2014. Deferred tax assets related to foreign tax credit carryforwards also did not reach the more likely than not realizability criteria and accordingly, were subject to a valuation allowance. During the three months ended September 27, 2014, our valuation allowance related to these deferred tax assets was unchanged at \$7.4 million.

There is no corresponding income tax benefit recognized with respect to losses incurred and no corresponding income tax expense recognized with respect to earnings generated in jurisdictions with a valuation allowance. This causes variability in our effective tax rate. We intend to maintain the valuation allowances until it is more likely than not that the net deferred tax assets will be realized. If operating results improve on a sustained basis, or if certain tax planning strategies are implemented, our conclusions regarding the need for valuation allowances could change, resulting in the reversal of the valuation allowances in the future, which could have a significant impact on income tax expense or benefit in the period recognized and subsequent periods.

(Loss) Income from Discontinued Operations, Net of Taxes

As a result of exploring opportunities to divest certain non-strategic or underperforming businesses within our manufacturing platform, we decided to exit the San Francisco market and closed a manufacturing facility within the print segment in the second quarter of 2013. Additionally, in the third quarter of 2013, we completed the sale of Custom Envelope within the envelope segment. The results of operations and cash flows of these businesses are reflected within discontinued operations for all periods presented herein, including the related tax effects.

In the third quarter of 2014, loss from Discontinued Operations was \$0.1 million, primarily comprised of expenses related to our former San Francisco print facility.

In the first nine months of 2014, income from Discontinued Operations was \$1.5 million, primarily comprised of a \$1.6 million gain related to the sale of Custom Envelope, net of tax expense of \$1.0 million.

In the third quarter of 2013, income from Discontinued Operations was \$13.5 million, comprised of: (i) the gain on the sale of Custom Envelope of \$12.5 million, net of tax expense of \$10.7 million; (ii) income from operations of \$1.3 million, net of tax expense of \$0.8 million, related to Custom Envelope; and (iii) a loss from operations of \$0.3 million, net of a tax benefit of \$0.2 million, related to our San Francisco print facility.

In the first nine months of 2013, income from Discontinued Operations was \$15.0 million, which includes: (i) the gain on the sale of Custom Envelope of \$12.5 million, net of tax expense of \$10.7 million; (ii) income from operations of \$4.2 million, net of tax expense of \$2.8 million, related to Custom Envelope; and (iii) a loss from operations related to San Francisco of \$1.8 million, net of a tax benefit of \$0.1 million.

Segment Net Sales

Segment net sales for our envelope segment increased \$49.4 million, or 27.8%, in the third quarter of 2014, as compared to the third quarter of 2013. Segment net sales for our envelope segment increased \$192.9 million, or 38.2%, in the first nine months of 2014, as compared to the first nine months of 2013. The increases were primarily due to: (i) sales generated from the integration of certain assets of National with our operations, as National was only included in our 2013 results beginning on September 16, 2013, the date of acquisition; (ii) increased demand from certain direct mail customers, primarily financial institutions; and (iii) higher sales revenues due to product mix changes and our ability to pass along paper price increases to certain customers. These increases were partially offset by volume declines associated with our decision to exit certain lower margin business as well as the closure and consolidation of several envelope facilities over the last twelve months related to the integration of National with our existing operations.

Segment Operating Income

Segment operating income for our envelope segment decreased \$3.8 million, or 46.7%, in the third quarter of 2014, as compared to the third quarter of 2013. The decrease was primarily due to: (i) higher restructuring and other charges of \$2.6 million, primarily due to the closure and consolidation of several envelope facilities related to the integration of National with our existing operations and two new facilities; and (ii) lower gross margin of \$1.8 million, primarily due to disruptions and other inefficiencies experienced in our envelope operations during the third quarter of 2014 in connection with the National integration, partially offset by the gross margin contribution of product mix changes and our ability to pass along paper price increases to certain customers.

Segment operating income for our envelope segment decreased \$3.8 million, or 13.9%, for the first nine months of 2014, as compared to the first nine months of 2013. The decrease was primarily due to: (i) higher restructuring and other charges of \$8.5 million, primarily due to the closure and consolidation of several envelope facilities related to the integration of National with our existing operations and two new facilities; and (ii) higher selling, general and administrative expenses of \$7.6 million in the first nine months of 2014, primarily due to higher commission expense from increased sales, expenses related to the integration of certain assets of National with our operations, and

incremental expenses of National, as National was only included in our 2013 results beginning on September 16, 2013, the date of acquisition. This decrease was partially offset by higher gross margin of \$12.5 million for the first nine months of 2014, primarily due to: (i) increased sales volumes from the integration of certain assets of National with our operations, as National was only included in our 2013 results beginning on September 16, 2013, the date of acquisition; and (ii) product mix changes and our ability to pass along paper price increases to certain customers.

Segment Net Sales

Segment net sales for our print segment decreased \$7.0 million, or 5.0%, in the third quarter of 2014, as compared to the third quarter of 2013. Segment net sales for our print segment decreased \$2.4 million, or 0.6%, in the first nine months of 2014, as compared to the first nine months of 2013. These decreases were primarily due to: (i) lower demand from our managed care customers; and (ii) sales declines due to the closure of two print facilities since the second quarter of 2013. These decreases were partially offset by several new account wins.

Segment Operating Income

Segment operating income for our print segment was flat in the third quarter of 2014, as compared to the third quarter of 2013. Segment operating income included lower gross margin of \$1.8 million, primarily related to lower sales volumes due to lower customer demand and the closure of two print facilities. This decrease was partially offset by lower restructuring and other charges of \$1.7 million.

Segment operating income for our print segment increased \$2.9 million, or 29.8%, in the first nine months of 2014, as compared to the first nine months of 2013. This increase was primarily due to higher gross margin of \$4.3 million, related to increased sales volumes and previously enacted cost reduction actions, and lower restructuring and other charges of \$1.2 million. These increases were partially offset by: (i) higher amortization expense of \$1.5 million related to the accelerated retirement of certain trade names; and (ii) increased selling expenses of \$1.0 million.

Segment Net Sales

Segment net sales for our label and packaging segment decreased \$4.5 million, or 3.6%, in the third quarter of 2014, as compared to the third quarter of 2013. Net sales from our label operations declined \$3.0 million, primarily due to volume declines from our retail customers and our decision to exit our dry gum product line within our specialty papers business. These decreases were partially offset by changes in product mix in our prescription and overnight packaging label businesses. Net sales from our packaging operations declined \$1.5 million, primarily due to volume declines from our pharmaceutical and consumer product customers.

Segment net sales for our label and packaging segment decreased \$8.2 million, or 2.2%, in the first nine months of 2014, as compared to the first nine months of 2013. Net sales from our label operations declined \$9.4 million, primarily due to volume declines from our retail customers and our decision to exit our dry gum product line within our specialty papers business, as well as weather-related issues in the first quarter of 2014. These decreases were partially offset by changes in product mix in our

prescription and overnight packaging label businesses. Net sales from our packaging operations increased \$1.1 million, primarily due to increased sales volumes from new customers, partially offset by lower pricing due to product mix.

Segment Operating Income

Segment operating income for our label and packaging segment decreased \$1.0 million, or 10.6%, in the third quarter of 2014, as compared to the third quarter of 2013. The decrease was primarily due to: (i) lower gross margin of \$1.5 million in our packaging operations, primarily due to a decline in sales, and disruptions related to the transition of work from our domestic operations to our international operations; and (ii) higher selling, general and administrative expenses of \$0.6 million in 2014, primarily due to our e-commerce and information technology initiatives. These decreases were partially offset by: (i) higher gross margin in our label operations of \$0.6 million, primarily due to initiatives related to operational efficiencies; and (ii) lower restructuring and other charges of \$0.5 million.

Segment operating income for our label and packaging segment decreased \$4.2 million, or 12.4%, in the first nine months of 2014, as compared to the first nine months of 2013. The decrease was primarily due to: (i) lower gross margin of \$3.1 million in our packaging operations, primarily due to a decline in sales, and disruptions related to the transition of work from our domestic operations to our international operations; and (ii) higher selling, general and administrative expenses of \$2.7 million in 2014, primarily due to our e-commerce and information technology initiatives along with increased expenses of \$0.7 million related to the litigation settlement in our packaging division. These decreases were partially offset by higher gross margin in our label operations of \$1.8 million, primarily due to initiatives related to operational efficiencies.

Corporate Expenses

Corporate expenses include the costs of running our corporate headquarters. Corporate expenses increased \$2.4 million in the third quarter of 2014, as compared to the third quarter of 2013, primarily due to higher restructuring and other charges, and lower vendor-related discounts. Corporate expenses increased \$7.3 million in the first nine months of 2014, as compared to the first nine months of 2013, primarily due to costs related to the integration of National, higher restructuring and other charges and lower vendor-related discounts.

Restructuring and Other Charges

During the first nine months of 2014, we implemented a cost savings initiative, which we refer to as the 2014 Plan, primarily focused on overhead cost eliminations, including headcount reductions and the potential closure of certain manufacturing facilities. Additionally, during the first nine months of 2014, we continued implementing a cost savings initiative, which we refer to as the 2013 Plan, primarily focused on overhead cost eliminations, including headcount reductions and the potential closure of certain manufacturing facilities. We also continued implementing our plan to integrate certain assets of National, acquired in the third quarter of 2013, by completing the consolidation of our west coast operations, which included the consolidation of three envelope facilities into one facility. Additionally, during the third quarter of 2014, we substantially completed the consolidation of seven additional envelope facilities into our existing operations and two new facilities, which had originally been scheduled to be completed in 2015. As a result of this accelerated consolidation, we experienced inefficiencies in our operations that we originally anticipated occurring over a longer duration in our initial integration plan. Our third quarter 2014 results reflect the impact of this accelerated timeline, and we expect this to continue into the fourth quarter of 2014. We believe this accelerated integration timeline will better position us for 2015.

During the third quarter of 2014, as a result of our restructuring and integration activities, we incurred \$5.6 million of restructuring and other charges, which included \$2.8 million of employee separation costs, equipment moving expenses of \$1.2 million, lease termination expenses of \$0.3 million, multi-employer pension withdrawal expenses of

\$0.2 million and building clean-up and other expenses of \$1.8 million. Additionally, we recognized income of \$0.7 million related to the sale of a closed facility within our print segment.

During the first nine months of 2014, as a result of our restructuring and integration activities, we incurred \$18.9 million of restructuring and other charges, which included \$7.1 million of employee separation costs, \$1.4 million of net non-cash charges on long-lived assets, equipment moving expenses of \$2.8 million, lease termination expenses of \$2.0 million, multi-employer pension withdrawal expenses of \$1.1 million and building clean-up and other expenses of \$4.4 million.

During the third quarter of 2013, as a result of our restructuring and integration activities, we incurred \$3.3 million of restructuring and other charges, which included \$1.8 million of employee separation costs, \$0.3 million of net non-cash charges on long-lived assets, equipment moving expenses of \$0.3 million, lease termination expenses of \$0.4 million, multi-employer pension withdrawal expenses of \$0.1 million and building clean-up and other expenses of \$0.5 million.

During the first nine months of 2013, as a result of our restructuring and integration activities, we incurred \$10.2 million of restructuring and other charges, which included \$5.6 million of employee separation costs, \$0.4 million of net non-cash charges on long-lived assets, equipment moving expenses of \$1.2 million, lease termination expenses of \$0.9 million, multi-employer pension withdrawal expenses of \$0.3 million and building clean-up and other expenses of \$1.8 million.

As of September 27, 2014, our total restructuring liability was \$23.6 million, of which \$5.9 million is included in other current liabilities and \$17.7 million, which is expected to be paid through 2032, is included in other liabilities in our condensed consolidated balance sheet. Our multi-employer pension withdrawal liabilities are \$19.4 million of our remaining restructuring liabilities. We believe these liabilities represent our anticipated ultimate withdrawal liabilities; however, we are exposed to significant risks and uncertainties arising from our participation in these multi-employer pension plans. While it is not possible to quantify the potential impact of our future actions or the future actions of other participating employers from the multi-employer pension plans for which we have exited, our anticipated ultimate withdrawal liabilities may be significantly impacted in the future due to lower future contributions or increased withdrawals from other participating employers.

There were no goodwill or intangible asset impairments recorded in the three and nine months ended September 27, 2014, and September 28, 2013.

Liquidity and Capital Resources

Net Cash (Used In) Provided By Operating Activities of Continuing Operations. Net cash used in operating activities of continuing operations was \$5.4 million in the first nine months of 2014, primarily due to: (i) a use of cash of \$15.0 million from working capital; (ii) pension and postretirement plan contributions of \$11.5 million; and (iii) cash payments made related to restructuring plans, net of cash restructuring expense, of \$5.8 million. The use of working capital primarily resulted from: (i) a use of cash from other working capital changes primarily due to certain vendor arrangements; and (ii) a use of cash from accounts receivables due to the timing of collections from and sales to our customers. This use of cash was partially offset by our net loss adjusted for non-cash items of \$28.4 million.

Net cash provided by operating activities of continuing operations was \$10.7 million in the first nine months of 2013, which was primarily due to our net loss adjusted for non-cash items of \$17.5 million, and a source of cash of \$8.1 million from working capital, primarily offset by pension and post-retirement plan contributions, net of pension expense, of \$10.0 million. The source of working capital primarily resulted from a source of cash from accounts payable due to changes in the timing of vendor payments. This source of cash was offset by: (i) a use of cash from inventory, primarily resulting from the acquisition of certain assets of National and the purchase of inventory ahead of anticipated supply constraints within our specialty product business line; (ii) a use of cash from accounts receivables due to National and the timing of collections from and sales to our customers; and (iii) a use of cash from other working capital changes primarily due to the timing of interest payments on our outstanding debt.

Cash provided by operating activities is generally sufficient to meet daily disbursement needs. On days when our cash receipts exceed disbursements, we reduce our revolving credit balance or place excess funds in conservative, short-term investments until there is an opportunity to pay down debt. On days when our cash disbursements exceed cash receipts, we use invested cash balances and/or our revolving credit to fund the difference. As a result, our daily revolving credit balance fluctuates depending on working capital needs. Regardless, at all times we believe we have sufficient liquidity available to us to fund our cash needs.

Net Cash (Used In) Provided By Operating Activities of Discontinued Operations. Represents the net cash (used in) provided by operating activities of our Discontinued Operations.

Net Cash Used In Investing Activities of Continuing Operations. Net cash used in investing activities of continuing operations was \$28.0 million in the first nine months of 2014, primarily resulting from: (i) capital expenditures of \$27.8 million; and (ii) the purchase of an investment of \$2.0 million. These uses of cash were offset in part by proceeds received from the sale of property, plant and equipment of \$1.8 million.

Net cash used in investing activities of continuing operations was \$47.0 million in the first nine months of 2013, primarily resulting from: (i) \$33.2 million of cash consideration paid for the acquisition of Express Label and certain assets of National; (ii) capital expenditures of \$23.0 million; and (iii) a cash investment of \$1.7 million. These uses of cash were offset in part by: (i) proceeds received from the sale of property, plant and equipment of \$7.9 million; and (ii) proceeds received from an insurance claim of \$3.0 million as a result of a fire that destroyed a press in our label and packaging segment.

Our debt agreements limit capital expenditures to \$45.0 million in 2014 plus any proceeds received from the sale of property, plant and equipment and, if certain conditions are satisfied, any unused permitted amounts from 2013. We estimate that we will spend approximately \$30.0 million on capital expenditures in 2014, after considering proceeds from the sale of property, plant and equipment. Our primary sources for our capital expenditures are cash generated from operations, proceeds from the sale of property, plant and equipment, and financing capacity within our current debt arrangements. These sources of funding are consistent with prior years' funding of our capital expenditures. Net Cash Provided By Investing Activities of Discontinued Operations. Represents the net cash provided by our Discontinued Operations related to investing activities. In the first nine months of 2014, the cash provided by discontinued investing activities of \$2.2 million is comprised of net cash proceeds received in 2014 related to the sale of Custom Envelope.

In the first nine months of 2013, the cash provided by discontinued investing activities of \$42.7 million is comprised primarily of net cash proceeds of \$42.3 million from the sale of Custom Envelope.

Net Cash Provided By (Used In) Financing Activities. Net cash provided by financing activities of continuing operations was \$32.8 million in the first nine months of 2014, primarily due to: (i) net borrowings of \$26.1 million under our ABL Facility; and (ii) net cash proceeds from the 6.000% Notes and 8.500% Notes and the related refinancing of the Term Loan Facility and 8.875% Notes, after payment of financing-related costs and expenses. These sources of cash were partially offset by: (i) the repayment in full of our Unsecured Term Loan of \$10.0 million; (ii) the payment of other long-term debt of \$6.5 million; and (iii) the extinguishment of \$1.4 million of our 11.5% Notes.

Net cash used in financing activities of continuing operations was \$13.0 million in the first nine months of 2013, primarily due to: (i) proceeds from the issuance of our Term Loan Facility; (ii) proceeds from the issuance of our ABL Facility; (iii) proceeds from the issuance of our Unsecured Term Loan of \$50.0 million; and (iv) proceeds from the issuance of an equipment loan of \$20.0 million in connection with the acquisition of certain assets of National. These sources of cash were offset by: (i) the repayment of our term loan B due 2016, which we refer to as our Term Loan B, of \$390.0 million; (ii) the repayment of our 7.875% Notes of \$67.8 million; (iii) the repayment of our Unsecured Term Loan of \$30.0 million; (iv) repayments of our revolving credit facility, due 2014, which we refer to as the Revolving Credit Facility, of \$18.0 million; (v) the payment of \$15.2 million of financing related costs and expenses including an original issuance discount of \$2.5 million on the issuance of our Unsecured Term Loan, and an original issuance discount of \$1.8 million on the issuance of our Term Loan Facility; and (vi) the repayment of other long-term debt of \$3.3 million.

Long-Term Debt. Our total outstanding long-term debt, including current maturities, was approximately \$1.3 billion as of September 27, 2014, an increase of \$66.3 million from December 28, 2013. This increase was primarily due to the issuance of the 6.000% Notes and 8.500% Notes and the related refinancings, as well as net borrowings of \$26.1 million under our ABL Facility during 2014. As of September 27, 2014, approximately 87% of our debt outstanding was subject to fixed interest rates. As of November 4, 2014, we had approximately \$57.0 million of borrowing availability under our ABL Facility. From time to time, we may seek to refinance our debt obligations as business needs and market conditions warrant.

On June 26, 2014, we issued the 6.000% Notes, which were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933, and to certain non-U.S. persons in accordance with Regulation S under the Securities Act of 1933. The 6.000% Notes were issued at par, pursuant to an indenture, which we refer to as the 6.000% Indenture, among us and the other guarantors party thereto, and The Bank of New York Mellon, as trustee and collateral agent. We will pay interest on the 6.000% Notes semi-annually, in cash in arrears, on February 1 and August 1 of each year, commencing on August 1, 2014. The 6.000% Notes have no required principal payments prior to their maturity on August 1, 2019. The 6.000% Notes are guaranteed on a senior secured basis by us and substantially all of our existing and future North American subsidiaries (other than Cenveo Corporation). As such, the 6.000% Notes rank pari passu with all of our existing and future senior debt and senior to any of our subordinated debt and effectively

junior to our obligations under the ABL Facility. We may redeem the 6.000% Notes, in whole or in part, on or after February 1, 2019, at a redemption price of 100.0% plus accrued and unpaid interest. In addition, at any time between August 1, 2017, and February 1, 2019, we may redeem in whole or in part the remaining aggregate principal amount of the notes originally issued at a redemption price of 100% plus accrued and unpaid interest and a "make-whole" premium of not less than 1%. At any time prior to August 1, 2017, we may redeem up to 35% of the aggregate principal amount of the notes originally issued with the net cash proceeds of certain public equity offerings, at a redemption price of 106.0% plus accrued and unpaid interest. Each holder of the 6.000% Notes has the right to require us to repurchase such holder's notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest thereon, upon the occurrence of certain events specified in the indenture that constitute a change of control. The 6.000% Indenture contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability and the ability of our subsidiaries, to incur or guarantee additional indebtedness, make restricted payments (including paying dividends on, redeeming or repurchasing our capital stock), permit restricted subsidiaries to pay dividends or make other distributions or payments, dispose of assets, make investments, grant liens on assets,

merge or consolidate or transfer certain assets, and enter into transactions with affiliates. The 6.000% Indenture also contains certain customary affirmative covenants and events of default.

Concurrently with the issuance of the 6.000% Notes on June 26, 2014, we issued the 8.500% Notes, which were sold to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933. The 8.500% Notes were issued at par, pursuant to an indenture, which we refer to as the 8.500% Indenture, among us and the other guarantors party thereto, and The Bank of New York Mellon, as trustee and collateral agent. We will pay interest on the 8.500% Notes semi-annually, in cash in arrears, on March 15 and September 15 of each year, commencing September 15, 2014. The 8.500% Notes have no required principal payments prior to their maturity on September 15, 2022. The 8.500% Notes are guaranteed on a junior secured basis by us and substantially all of our existing and future North American subsidiaries (other than Cenveo Corporation). As such, the 8.500% Notes rank junior to any senior secured obligations of ours, senior to any existing and future unsecured obligations of ours and senior to all existing and future obligations of ours that are expressly subordinated to the 8.500% Notes. We may redeem the 8.500% Notes, in whole or in part, on or after September 15, 2017, September 15, 2018, September 15, 2019 or September 15, 2020, at redemption prices of 106.375%, 104.250%, 102.125% and 100.00%, respectively, plus accrued and unpaid interest. At any time prior to September 15, 2017, we may redeem up to 35% of the aggregate principal amount of the notes originally issued with the net cash proceeds of certain public equity offerings, at a redemption price of 108.5% plus accrued and unpaid interest. Each holder of the 8.500% Notes has the right to require us to repurchase such holder's notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest thereon, upon the occurrence of certain events specified in the indenture that constitute a change of control. The 8.500% Indenture contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability and the ability of our subsidiaries, to incur or guarantee additional indebtedness, make restricted payments (including paying dividends on, redeeming or repurchasing our capital stock), permit restricted subsidiaries to pay dividends or make other distributions or payments, dispose of assets, make investments, grant liens on assets, merge or consolidate or transfer certain assets, and enter into transactions with affiliates. The 8.500% Indenture also contains certain customary affirmative covenants and events of default.

Net proceeds of the 6.000% Notes and 8.500% Notes were used to: (i) refinance the Term Loan Facility, which at the time had a remaining principal balance of \$327.3 million; (ii) refinance the 8.875% Notes, which at the time had a remaining principal balance of \$400.0 million; and (iii) pay related fees, expenses and accrued interest. In connection with the issuance of the 6.000% Notes and the 8.500% Notes, we capitalized debt issuance costs of \$14.7 million and \$7.1 million, respectively, all of which will be amortized over the life of the 6.000% Notes and the 8.500% Notes.

A portion of the refinancing was accounted for as a modification of debt. As a result, we will continue to amortize a portion of the unamortized debt issuance costs on the 8.875% Notes and Term Loan Facility. The modification resulted in the recording of a discount of \$5.9 million on the 6.000% Notes and \$2.8 million on the 8.500% Notes.

Additionally, during the second quarter of 2014, we used cash on hand of \$9.4 million to repay in full the remaining principal balance on our Unsecured Term Loan.

During the third quarter of 2014, we exchanged \$3.0 million of our 7% Notes for approximately one million shares of our common stock. We also extinguished \$1.4 million of our 11.5% Notes during the third quarter of 2014.

Letters of Credit

As of September 27, 2014, we had outstanding letters of credit of approximately \$20.5 million related to performance and payment guarantees. Based on our experience with these arrangements, we do not believe that any obligations that may arise will be significant.

Credit Ratings

Our current credit ratings are as follows:

Rating Agency	Corporate Rating	6.000% Notes	8.500% Notes	11.5% Notes	Outlook	Last Update
Moody's	Caa1	B3	Caa2	Caa3	Stable	June 2014
Standard & Poor's	B-	B	CCC	CCC	Stable	June 2014

In June 2014, Moody's Investors Services, which we refer to as Moody's, affirmed our Corporate Rating and the ratings on our 11.5% Notes. Additionally, they rated the 6.000% Notes and 8.500% Notes for the first time. In June 2014, Standard &

Poor's Ratings Services, which we refer to as Standard & Poor's, affirmed our Corporate Rating and the ratings on our 11.5% Notes. Additionally, they rated the 6.000% Notes and the 8.500% Notes for the first time. The detail of all current ratings has been provided in the table above.

The terms of our existing debt do not have any rating triggers that impact our funding availability or influence our daily operations, including planned capital expenditures. We do not believe that our current ratings will unduly influence our ability to raise additional capital if and/or when needed. Some of our constituents closely track rating agency actions and would note any raising or lowering of our credit ratings; however, we believe that along with reviewing our credit ratings, additional quantitative and qualitative analysis must be performed to accurately judge our financial condition.

As of September 27, 2014, we were in compliance with all covenants under our long-term debt. We expect that our internally generated cash flows and financing available under our ABL Facility will be sufficient to fund our working capital needs for the next twelve months; however, this cannot be assured.

Seasonality

Our envelope market and certain segments of the direct mail market have historically experienced seasonality with a higher percentage of volume of products sold to these markets during the fourth quarter of the year, primarily related to holiday purchases. Our office product envelope business historically has experienced seasonality during the late summer months in advance of back to school campaigns.

Our print plants experience seasonal variations. Revenues associated with consumer publications, such as holiday catalogs and automobile brochures tend to be concentrated from July through October. Revenues from annual reports are generally concentrated from February through April. Revenues associated with the educational and scholastic market and promotional materials tend to decline in the summer. As a result of these seasonal variations, some of our print operations operate at or near capacity at certain times throughout the year.

Our general label business has historically experienced a seasonal increase in net sales during the first and second quarters of the year, primarily resulting from the release of our product catalogs to the trade channel customers and our customers' spring advertising campaigns. Our prescription label business has historically experienced seasonality in net sales due to cold and flu seasons, generally concentrated in the fourth and first quarters of the year. As a result of these seasonal variations, some of our label operations operate at or near capacity at certain times throughout the year.

Our packaging business has not historically experienced seasonal variations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks such as changes in interest and foreign currency exchange rates, which may adversely affect our results of operations and financial position.

As of September 27, 2014, we had variable rate debt outstanding of \$162.8 million. Our ABL Facility is subject to a London Interbank Offered Rate, which we refer to as LIBOR, floor of 2%. As such, a change of 1% to current LIBOR rates would have a minimal impact to our interest expense.

Our changes in foreign currency exchange rates are managed through normal operating and financing activities. We have foreign operations, primarily in Canada and India, and thus are exposed to market risk for changes in foreign currency exchange rates. For the three and nine months ended September 27, 2014, a uniform 10% strengthening of the United States dollar relative to the local currency of our foreign operations would have resulted in a decrease in sales of approximately \$1.8 million and \$4.9 million, respectively, and an increase in operating income of less than \$0.1 million for both the three and nine months ended September 27, 2014.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")) as of September 27, 2014. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 27, 2014, in order to provide reasonable assurance that information required to be disclosed in our filings under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in the Exchange Act Rule 13a-15(f) and 15d-15(f)) during the quarter ended September 27, 2014, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and our Chief Financial Officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. The design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we may be involved in claims or lawsuits that arise in the ordinary course of business. Accruals for claims or lawsuits have been provided for to the extent that losses are deemed probable and estimable. Although the ultimate outcome of these claims or lawsuits cannot be ascertained, on the basis of present information and advice received from counsel, it is our opinion that the disposition or ultimate determination of such claims or lawsuits will not have a material effect on our consolidated financial statements.

In the case of administrative proceedings related to environmental matters involving governmental authorities, we do not believe that any imposition of monetary damages or fines would be material.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk factors" in our Annual Report on Form 10-K for the year ended December 28, 2013, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 4. Mine Safety Disclosures
