FIRST BANCSHARES, INC. ANNOUNCES FOURTH QUARTER FISCAL 2007 RESULTS

Mountain Grove, Missouri (August 2, 2007) - First Bancshares, Inc. (NASDAQ - FstBksh : FBSI), the holding company for First Home Savings Bank ("Bank"), today announced earnings for the fourth quarter and for its fiscal year ended June 30, 2007.

For the quarter ended June 30, 2007, the Company had net income of \$7,000, or \$0.01 per share - diluted, compared to a net loss of (\$567,000), or (\$0.36)

## Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 8-K

per share - diluted for the comparable period in 2006. Net income for the year ended June 30, 2007 was \$272,000, or \$0.18 per share - diluted, compared to a net loss of (\$173,000), or (\$0.11) per share - diluted for the year ended June 30, 2006. The changes from a net loss for both the quarter and year ended June 30, 2006 to net income for both the quarter and year ended June 30, 2007 are attributable to a reduction in the provision for loan losses and an increase in non-interest income for the fiscal 2007 periods. These items were partially offset by decreases in net interest income and increases in compensation and benefits expense, occupancy expense and professional fees.

The \$1.1 million or 72.0% decrease in the provision for loan losses during the year ended June 30, 2007 compared to the year ended June 30, 2006 was the result of increased efforts to resolve potential problem credits and a decrease, with a couple of exceptions noted below, in the number of credits that became problems.

The \$823,000 or 55.6% increase in non-interest income during the year ended June 30, 2007 compared to the comparable period in 2006 was the result of a gain of \$177,000 on the sale of securities, as compared to losses and write downs totaling \$422,000 in fiscal 2006, gains on the sale of loans totaling \$140,000 during the year ended June 30, 2007 from the operations of the loan origination office which was established in March 2007, and a gain of \$58,000 on sale of property and equipment and real estate owned compared to a loss of \$380,000 on such sales in fiscal 2006. These items were partially offset by write downs on real estate held for investment totaling \$271,000 and a decrease of \$71,000 in service charges and other fee income during the year ended June 30, 2007.

Net interest income decreased \$556,000 or 8.0% during the year ended June 30, 2007 compared to fiscal 2006 as the result of costs on interest-bearing liabilities increasing more rapidly than the yields on interest-bearing assets during the fiscal year. During the year ended June 30, 2007 the Company's net interest margin decreased to 3.01% from 3.21% for the year ended June 30, 2006.

Non-interest expense increased \$942,000 or 13.2% to \$8.1 million for the year ended June 30, 2007 compared to \$7.2 million for the comparable period in 2006. The increase was primarily attributable to an increase of \$314,000 in compensation and benefits as a result of additional staffing for the new branch and the loan origination office, and filling open positions at the senior management level. Occupancy expense increased \$422,000 as the result of the opening of the new branch and the loan origination office. Professional fees increased due to personnel turnover during the report preparation for fiscal 2006 requiring use of outside accountants and additional time required on the part of auditors and attorneys.

Total consolidated assets at June 30, 2007 were \$241.3 million, compared to \$228.4 million at June 30, 2006, representing an increase of \$12.9 million, or 5.6%. Stockholders' equity at June 30, 2007 was \$26.5 million, or 10.9% of assets, compared with \$26.3 million, or 11.5% of assets, at June 30, 2006. Book value per common share increased to \$17.07 at June 30, 2007 from \$16.93 at June 30, 2006. The increase in equity was primarily attributable to net income of \$272,000 for the year ended June 30, 2007, which was partially

offset by a negative \$27,000, net of income taxes, in the market value of available-for-sale securities, the payment of dividends of \$124,000 and the repurchase of common stock totaling \$27,000.

## Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 8-K

Net loans receivable increased \$17.0 million, or 12.0%, to \$159.0 million at June 30, 2007 from \$142.0 million at June 30, 2006. Growth of net loans receivable includes increases of \$3.9 million, \$4.4 million and \$8.1 million in residential first mortgage loans, commercial real estate loans and consumer loans, including second mortgages, respectively. These increases were partially offset by a decrease of \$3.3 million in commercial business loans. Customer deposits increased \$10.9 million, or 6.1%, to \$190.1 million at June 30, 2007 from \$179.1 million at June 30, 2006. Non-performing assets decreased during the fourth fiscal quarter by \$214,000 to \$3.3 million at June 30, 2007 from \$3.5 million at March 31, 2007. Non-performing assets totaled \$1.3 million at June 30, 2006. The increase between fiscal years is primarily the result of loans with two borrowers which became non-performing. In one case, a borrower with loans totaling \$1.6 million, filed for bankruptcy protection and offered a reorganization plan. However, recent events strongly indicate that the collateral will be liquidated. In the other case, a \$620,000 loan became non-performing when a pending sale of the collateral property failed to materialize. The collateral is currently being liquidated. There are Small Business Administration guarantees on these loans and the losses anticipated, based on estimated liquidation values, which exceed the guarantees have been provided for in the allowance for loan losses at June 30, 2007. The provision for loss on these loans for the quarter ended June 30, 2007 was approximately \$256,000 and the total provision for loss on these loans at June 30, 2007 was approximately \$580,000. During the year ended June 30, 2007, the allowance for loan losses increased by \$218,000, from \$2.5 million to \$2.7 million, while the ratio of the allowance to gross loans remained at 1.67%.

The Company ended a stock repurchase plan that had been in effect since May 28, 2004. The plan had authorized the repurchase of up to 164,336 shares of common stock. When the plan was ended on May 25, 2007, a total of 95,418 shares had been repurchased at a cost of \$1,965,000 or an average cost of \$20.59 per share. During the quarter ended June 30, 2007, 500 shares of common stock were purchased at a cost of \$16.06 per share.
