#### Highlights:

- Ø The signature of a preliminary agreement to acquire the chemical division of the Berci Group (CANAMEX) is the first stage in Ultrapar's globalization process. The acquisition is designed to establish a more active presence in the Mexican market of specialty chemicals and to create a production and distribution platform to the United States.

- Ø On August 6, 2003, Ultrapar's Board of Directors approved a dividend distribution in the amount of R\$ 0.508195 per 1,000 preferred shares and R\$ 0.461996 per 1,000 common shares, corresponding to an advance on year-end 2003 earnings, to be paid on August 29, 2003.
- Ø During April, May and July, Ultrapar, through Oxitenó, raised US\$70 million in pre-export facilities with an average 3 year term and an average cost equivalent to 91.3% of the Interbank Deposit Certificate - CDI on the funding contract date.

#### Ultrapar and the macroeconomic environment

A strong wave of optimism in the financial markets in the first half 2003 resulted in the strengthening of the *Real* and the reduction in the country risk premium. In the real economy, the high interests and inflation rates and the lack of a trigger to the exports due to the currency appreciation, resulted in lower industrial production, lower investments and a decline in workers' real wages.

Internationally, the post conflict scenario in Middle East drove down in 9% the average oil price in dollar (Brent) this quarter, compared to the average price practiced in the first quarter 2003. Following this trend, the average NWE benchmark price for naphtha decreased 27% between 2Q03 and 1Q03. However, when compared to the 2Q02, oil and nafta average prices increased 3% and 5%, respectively.

In Brazil, due to the delay to pass through the international prices and the currency variation to nafta prices, nafta average price remained, in *reais*, at the same levels when compared to the 1Q03, and presented a 83% average increase when compared to the 2Q02, impacting petrochemicals margins. The drop in oil related prices should reflect in Ultrapar's costs only in the third quarter 2003.

Despite the scenario of low industrial production and high oil related prices, once again Ultrapar achieved significant improvements in its results in this quarter. Oxitenó achieved a favorable result compared to the second quarter 2002, when it suffered from a shortage of raw materials and an unfavorable price environment. Ultragaz was able to show a similar performance when compared to the 2Q02, even though the successive increases in the ex-refinery prices occurred during 2002, the demand retraction, and the client losses to natural gas, that impacted its results.

#### Operating Performance

**Ultragaz** - In 2Q03, the Brazilian LPG market was negatively impacted by the successive increases in Petrobras LPG prices, by demand retraction and by client losses due to competition from natural gas. As a result, the LPG market reported a year over year decline in sales volume of 5.2%. Ultragaz posted 2Q03 sales volume of 310.4 thousand tons, 5.0% lower when compared with the second quarter 2002. In the first half of 2003, Ultragaz recorded a sales volume of 600.2 thousand ton, 5.3% lower when compared with the first half of 2002, while the Brazilian LPG market as a whole was down 7.6% in the same period.

#### Sales Volume - Ultragaz (in thousand ton)

Sales volume in the bottled segment, served mainly by 13 Kg cylinders, increased 2% over 2Q02, a consequence of the geographic expansion mainly to the states of Minas Gerais and Rio de Janeiro. In the bulk segment, comprising mainly industrial and commercial consumers, 2Q03 sales volume dropped 20.7 thousand tons compared to 2Q02, mainly the result of industrial companies located along the Brazil-Bolivia gas pipeline that converted their energy source to natural gas. This situation was in line with company's expectations.

**Oxitenó** - Oxitenó is a producer of Ethylene Oxide and its main derivatives, as well as a large producer of specialty chemicals. Oxitenó's products are used throughout many industrial sectors, including PET packaging, paints, cosmetics and detergents.

Oxitenó's 2Q03 sales volume was 110.6 thousand tons, a 26% increase in relation to the second quarter 2002. This increase is a reflection of the greater supply of raw material this quarter in relation to 2Q02 when Braskem, ethylene supplier in Camaçari, interrupted operations as part of its program to expand production capacity, restricting Oxitenó's ethylene supply in 22% in that

quarter, impacting sales volume, particularly exports.

Sales volume to the domestic market was 61.5 thousand tons, a decline of 11% in relation to the second quarter 2002, a reflection of the drop in sales in the polyester and hydraulic fluid segments due to weaker economic activity of these segments this year. Exports were 49.1 thousand tons, a 167% growth compared to the preceding year, when exports were damaged by the ethylene restriction in Camaçari. In the first half of 2003, Oxitenos sales volume was 228.5 tons, a 18% increase compared to the first half of 2002.

#### Sales Volume Oxitenos (in thousand ton)

**Ultracargo.** Through its subsidiaries Transultra and Tequimar, Ultracargo is one of the leaders in logistics for the chemical, petrochemicals and LPG sectors in Brazil. Among the solutions, Transultra offers integrated multi-modal transportation and operations of reception and expedition of goods at its customers' installations. Transultra operates through its own and third-party fleets. Tequimar maintains and operates storage installations at port terminals and rail junctions for the movement of chemical and petrochemical products. Tequimar operates terminals in Aratu, Camaçari, Maceió, Paulínia, Santos and Suape. The company's considerable storage capacity and the strategic location of its assets, facilitates product movement along its multi-modal logistics system. Besides storage services, Tequimar offers ship loading and unloading services, the operation of pipelines, logistics programming and installation engineering.

Transultra increased its fleet mileage by 39% in 2Q03, a consequence of winning new and important clients during 2002 and of investing in new trucks. At Tequimar, the effective storage capacity increased by 9% between second quarters, due to the 20 thousand cubic meters expansion in the Aratu terminal, occurred in June, and to the increase in the occupancy rate of Tequimar's tanks. In 2Q03 it reached 94.3%, versus 91.2% in 2Q02.

#### Financial Performance

**Net Sales Revenue** - Consolidated net sales revenue totaled R\$ 932.7 million in 2Q03, an increase of 38% when compared to 2Q02. In the first half of 2003, consolidated net sales revenue totaled R\$ 1,866.9 million, 49% higher than in the first half of 2002.

**Ultragaz** Net sales revenue at Ultragaz totaled R\$ 616.7 million in 2Q03 a 31% increase over 2Q02. The increase reflects the increase in LPG costs during 2002. In the first half of 2003, net sales revenue totaled R\$ 1,185.6 million, a 37% increase over 1H02.

**Oxitenos** Net sales revenue totaled R\$ 282.2 million in 2Q03, 56% higher than in the 2Q02. The real depreciation and the recovery of glycol prices in the international market, resulted in a 24% improvement in average sales prices, comparing the two second quarters. In the first half of 2003, net sales revenue increased by 76% over 1H02.

**Ultracargo** Net sales revenue in 2Q03 was R\$ 43.1 million, 43% higher than in 2Q02. This increase is a result of new clients at Transultra and the increase of storage volume at Tequimar.

---

**Cost of Goods Sold.** Cost of goods sold at Ultrapar in 2Q03 totaled R\$ 744.8 million, 45% higher than in the 2Q02. In the first half of 2003, cost of goods sold was 55% higher compared to the same period in 2003.

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

**Ultragaz:** The cost of goods sold in 2Q03 increased 37% over 2Q02, driven by LPG cost corrections, reflecting foreign exchange rate variation and LPG price levels practiced on the international market. Year over year, average LPG prices charged to the distributors increased 57%. Comparing the first six-month periods of 2003 and 2002, cost of goods sold at Ultragaz increased 47%.

**Oxitenó:** Cost of goods sold in 2Q03 increased 66% over 2Q02, reflecting increased sales volume together with an increase in variable unit costs, especially those of ethylene which year over year rose 61% per unit. Cost of goods sold increased 74% in the first half 2003 compared to the 1H02.

**Ultracargo** Cost of services rendered increased 50% in the 2Q03 compared to the same period last year, reflecting increases in the volume of operations and increases in the cost of its main raw materials. Fuel costs and third-party freight costs increased at Transultra and, at Tequimar, the increase was in the cost of nitrogen, used to clean the tanks.

**Selling General and Administrative Expenses** Ultrapar's SG&A expenses totaled R\$ 104.0 million in 2Q03, 17% higher than the R\$ 88.7 million in 2Q02. In the first half of 2003, SG&A expenses were R\$ 207.6 million, 23% higher than in the same period in 2002.

**Ultragaz** General, administrative and selling expenses at Ultragaz were R\$56.9 million in the quarter, R\$3.8 million higher than in 2Q02, mainly due to the increase in depreciation expenses that were R\$20.9 million in 2Q03, R\$1.2 million higher than in the 2Q02, and to the increase in personnel expenses, a consequence of collective wage agreements negotiated in September 2002. Ultragaz's operating expenses totaled R\$ 111.4 million in 1H03, 13% higher than the in 1H02.

**Oxitenó** General, administrative and selling expenses were R\$39.1 million, an increase of R\$8.8 million compared to the 2Q02, due to the R\$8.5 million increase in selling expenses quarter over quarter, largely due to increased freight export expenses, compatible with growth in exports. In the first half of 2003, SG&A expenses at Oxitenó totaled R\$ 80.8 million, R\$ 22.3 million higher compared to the first half of 2002.

**Ultracargo** General, administrative and selling expenses were R\$9.2 million, an increase of R\$1.9 million compared to the 2Q02, due to the increase in administrative expenses, a consequence of the need of hiring new employees after the celebration of new clients' contracts and of collective wage agreements negotiated in the second half of 2002.

**EBITDA** Consolidated cash generation (EBITDA) totaled R\$ 118.8 million in 2Q03, 13% higher than the same period last year. In the first half of 2003 EBITDA totaled R\$ 240.9 million, 29% higher than in the first half of 2002, of R\$ 187.4 million.

**Ultragaz** EBITDA at Ultragaz totaled R\$ 61.6 million, at similar levels to the 2Q02.

**Oxitenó** EBITDA at Oxitenó was R\$ 45.5 million, 29% higher than in 2Q02.

**Ultracargo** Ultracargo's EBITDA totaled R\$ 10.1 million, 46% higher than in the same period last year.

---

**Financial Result** Ultrapar recorded a net financial expense of R\$19.0 million in 2Q03 against financial income of R\$14.8 million in 2Q02. During the second quarter 2003, Ultrapar's net cash position remained close to zero. The effect of the Real appreciation on our overseas financial investments (therefore in dollar) impacted negatively our financial result in this quarter. Ultrapar's hedge policy is to protect all of the company's dollar-denominated liabilities against currency fluctuations. Ultrapar's financial income of R\$14.8 million reported in 2Q02 is a consequence of Ultrapar's net cash position of R\$ 268.7 million in that period, and the impact of the Real devaluation in the 2Q02 on our overseas financial investments.

**Net Profit** Consolidated second quarter 2003 net income was R\$51.6 million, a 21% growth compared to the 2Q02. The improvement was the result of better operating profit and of the elimination of the minority participation in Oxitenó and Ultragaz, at the end of the corporate restructuring in the second half of 2002. In the first half of 2003, net income totaled R\$111.6 million, a 67% growth compared to the first half of 2002.

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

**CAPEX** Capital expenditures totaled R\$ 53.8 million in 2Q03, allocated as following:

- At Ultragaz, primarily to the expansion in the bulk segment (UltraSystem), gas bottles and installing the ERP system;
- At Oxiteno, capex focused on the modernization of the industrial facilities, installation of ERP system and development of new products;
- At Ultracargo, investments in the expansion of the Aratu terminal and fleet expansion.

Ultragaz	36.6	68%
Oxiteno	11.0	20%

<b>Ultrapar</b>	<b>53.8</b>	<b>100%</b>

### Ultrapar in the Capital Markets

Ultrapar's shares showed a 14% growth in the 2Q03 while the Ibovespa index showed a 15% growth in the same period.

**Share Repurchase Program** During the second quarter 2003, Ultrapar purchased a total of 63,600,000 shares.

### Outlook

The signature of the preliminary agreement to the acquisition of Canamex reinforces Ultrapar's intent and disposal to continue to look for growth opportunities, through solid and disciplined movements that add value for shareholders, and strengthen its market presence by growing the business, by improving performance and profitability or by technological improvement of its products and processes.

Oxiteno will continue to seek the development of new products and technologies as well as to conquer new markets through investments or through acquisitions, in Brazil or overseas. Ultragaz will keep its strategy of growth in UltraSystem but will also quest the expansion of its activities through acquisitions in the LPG sector in Brazil and abroad, mainly in Latin America. Ultracargo should strongly invest in its business expansion, exploring new opportunities that are arising from the large demand for logistics infrastructure in Brazil, the deregulation of the oil and oil derivatives market and from the strong growth in the international trade of vegetable oils and sugarcane alcohol.

The tax credits are substantiated by continued operating profitability. Management expects to realize these tax credits over a maximum period of three years. Deferred income and social contribution taxes are presented in the following principal categories:

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Strategic -operating risks (such as demand behavior, competition, technological innovation, and relevant structural changes in industry, among others) are addressed by the Company management model. O Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. The short-term investments of the Company and its subsidiaries are comprised substantially of transactions linked to interbank deposit (CDI) rates, as described in Note 5. A portion of the financial assets is destined for foreign currency hedges, as mentioned below. Funds obtained originate from BNDES financing and from abroad, as mentioned in Note 14.

O Exchange rates - Basically, the subsidiaries use foreign currency hedge instruments available in the financial market to cover their liabilities and assets in foreign currency. Given the volatility of exchange rates during 2001, the Company fully hedged its foreign currency exposure. Such hedges have amounts, periods and indexes equivalent to bank loans in foreign currency, to which they are linked. The following summary shows the assets and liabilities in foreign currency, translated into Brazilian reais at June 30, 2003:

Management believes that no valuation reserve is necessary for this investment, in view of its clear strategic and permanent nature, since the investee is an important supplier of raw material to Oxitenio S.A. - Indústria e Comércio. Also, the acquisition of this investment was made using long-term financing from BNDES, at favorable interest rates compared to those prevailing in the market.

### 19. INSURANCE COVERAGE FOR SUBSIDIARIES

The subsidiaries maintain insurance policies in amounts considered sufficient to cover potential losses from damage to assets, as well as for civil responsibility for involuntary, material and/or physical damages caused to third parties arising from their industrial and commercial operations, considering the nature of their activities and the advice of their insurance consultants.

### 20. SURETIES AND GUARANTEES

The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$ 542,180.

The Company issued guarantees to financial institutions related to amounts owed to those institutions by certain of its customers (vendor financing). In the event of payment of such guarantees to those financial institutions, the Company may recover the amount of such payment directly from its customers through trade collection. Maximum potential future payments related to these guarantees amount to R\$ 10,464, with maturities from 30 to 210 days. As of June 30, 2003, the Company has not recorded any liability related to these guarantees.

**21. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)**

The Petrochemical Industry Labor Union, which represents the employees of Oxitenor Nordeste S.A. - Indústria e Comércio, filed class action suits against the subsidiary in 1991, demanding compliance with the adjustments established in collective labor agreements or other specific in dexes, in lieu of the salary policies effectively followed. Based on the opinion of its legal counsel, who analyzed the final decision of the Federal Supreme Court on the class action suit in which such Union is a plaintiff, as well as the status of the specific suit against the subsidiary, its management does not believe that it is necessary to record a reserve at June 30, 2003.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel considers the risks to be low or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu effective through 2022 and 250,000 tons per year for Suape effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement using the harbor rates in effect at the date established for payment. As of June 30, 2003, such rates were R\$ 3.67 and R\$ 3.44 per ton for Aratu and Suape, respectively. The Company has been in compliance with the minimum cargo movement since the inception of the contracts.

Oxitenor Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A. (present name of Copene Petroquímica do Nordeste S.A.) effective through 2012, which establishes a minimum annual ethylene consumption level. The minimum purchase commitment and the actual demand for the periods ended June 30, 2003 and 2002, expressed in tons of ethylene, are summarized below. If the minimum purchase commitment is not met, the subsidiary is liable for a fine of 40% of the current ethylene price for the quantity not purchased.

#### 04.01 - Notes to the Quarterly Information (Amounts in thousands of Brazilian reais R\$ unless otherwise indicated) (unaudited)

In August 2001, the Company and its subsidiaries began to offer their employees a defined contribution pension plan. Adoption of this plan, managed by Ultraprev - Associação de Previdência Complementar, was approved at the Board of Directors Meeting on February 15, 2001. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev, or (ii) a fixed monthly amount which will extinguish the fund accumulated in the participant's name during a period between 5 and 25 years. As such, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt for the participants that retire under this plan. For the period ended June 30, 2003, the Company and its subsidiaries contributed R\$ 1,605 to Ultraprev, which was charged to income. The total number of employee participants as of June 30, 2003 was 4,937, with no participants retired to date.

Additionally, Ultraprev has 2 active participants and 34 former employees receiving defined benefits according to the policies of a previous plan. Considering that the fair market value for the plan's assets significantly exceeds the present actuarial value of the accumulated benefit obligations, the sponsoring entities have not been contributing to the plan for these 36 participants. On the other hand, the sponsoring entities do not believe that it would be possible to recover any amounts from the plan, based on legislation applicable to closed private pension entities. As a result, no asset or liability relating to these participants has been recorded in the financial statements of the sponsoring companies.

### 24. SUBSEQUENT EVENT

The Company announced on July 18, 2003, through a relevant fact published in the newspapers Gazeta Mercantil and Valor Econômico, that it has signed a preliminary agreement to acquire the chemical division of the Berci Group (CANAMEX).

CANAMEX is a specialty chemical producer with 2 plants in Mexico (Guadalajara and Coatzacoalcos), an installed production capacity of 52,800 ton/year and the same technological base as the one existing in the surfactant plants of Oxiteno S.A. - Indústria e Comércio. In 2002, CANAMEX reported sales of US\$19.0 million and an operating cash generation (EBITDA) of US\$2.0 million.

The agreement, which foresees the acquisition of 100% of the assets of the chemical division of the Berci Group (CANAMEX) in a single cash payment of US\$ 11.0 million with no assumption of any remaining debt, should be concluded through the signing of a stock purchase and sale agreement. The agreement is still subject to completion of negotiations on a satisfactory basis, a process which is expected to be finalized within two months.

### 08.01 - Comments on the Company's Consolidated Performance for the Quarter

**Net Sales:** In 2Q03, Ultrapar reported net sales revenue of R\$932.7 million, 38% higher than in the same period of prior year, reflecting the growth in net revenues from the chemical and gas divisions of 56% and 31%, respectively. Ultragaz's net revenues were R\$616.7 million in 2Q03, while Oxiteno posted net revenues of R\$282.2 million. In the first half of 2003, revenues at Ultrapar were R\$1,866.9 million, a year over year growth of 49%.

**Ultragaz:** In 2Q03, the Brazilian LPG market was negatively impacted by the increase in Petrobras LPG prices, by the demand retraction, and by client losses due to competition from natural gas. As a result, the LPG market reported a year over year decline in sales volume of 5.2%. Ultragaz posted 2Q03 sales volume of 310.4 thousand tons, 5.0% lower when compared with 2Q02. In the first half of 2003, Ultragaz recorded a sales volume of 600.2 thousand tons, 5.3% lower when compared with the first half of 2002, while the Brazilian LPG market as a whole was down 7.6% in the same period.

**Oxiteno:** Oxiteno's 2Q03 sales volume was 110.6 thousand tons, a 26% increase in relation to 2Q02. This increase is a reflection of the greater supply of raw material in relation to 2Q02 when Braskem, Oxiteno's ethylene supplier in Camaçari, interrupted operations as part of its program to expand production capacity, restricting Oxiteno's ethylene supply in 22% in that quarter, and impacting sales volume, particularly exports. Sales volume to the domestic market was 61.5 thousand tons, a decline of 11% in relation to 2Q02, a reflection of the drop in sales in the polyester and hydraulic fluid segments due to weaker economic activity of these segments this year. Exports were 49.1 thousand tons, a 167% growth compared to the preceding year. In the first half of 2003, Oxiteno's sales volume was 228.5 tons, an 18% increase compared to the first half of 2002.

**Cost of Goods Sold:** Cost of goods sold for Ultrapar in 2Q03 was R\$744.8 million, 45% higher than reported in the same period for 2002. Ultragaz posted a cost of goods sold of R\$519.9 million, a 37% increase in relation to 2Q02. The cost of goods sold at Oxiteno in 2Q03 was R\$206.2 million, a year over year growth of 66%.

**Ultragaz:** The increase in Ultragaz's cost of goods sold in 2Q03 compared to 2Q02 was due to LPG cost corrections, reflecting foreign exchange rate variation and LPG price levels practiced on the international market. Year over year, average LPG prices charged to the distributors increased 57%.

## Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Oxiten: In 2Q03, Oxiten's cost of goods sold posted a year over year increase of 66% reflecting increased sales volume together with an increase in variable unit costs, especially those of ethylene which rose 61%.

Gross Profit: As a result of the evolution in net sales and costs described above, Ultrapar posted gross profits of R\$187.9 million in 2Q03, 16% above the R\$161.4 million for 2Q02. Ultragas reported gross profits in the quarter of R\$96.8 million compared with R\$93.1 million in 2Q02. Oxiten's gross profit was R\$76.0 million compared with R\$56.9 million in the same quarter in 2002.

#### **08.01 - Comments on the Company's Consolidated Performance for the Quarter**

---

Selling, General and Administrative Expenses: Ultrapar recorded R\$104.0 million in operating expenses in 2Q03 against R\$88.6 million for the same period in 2002.

Ultragas: General, administrative and selling expenses at Ultragas were R\$56.9 million in the quarter, R\$3.8 million higher than in 2Q02. This increase was mainly due to the increase in depreciation expenses, that reached R\$20.9 million in 2Q03, R\$1.2 million higher than in 2Q02, and the increase in personnel expenses, a consequence of collective salary agreements made in September 2002.

Oxiten: General, administrative and selling expenses were R\$39.1 million, an increase of R\$8.8 million compared to 2Q02, due to the R\$8.5 million increase in selling expenses quarter over quarter, largely due to increased freight expenses, compatible with growth in sales volume, principally exports.

Income from operations: Ultrapar's income from operations was R\$85.0 million in 2Q03, a 14% increase in relation to 2Q02. Oxiten reported income from operations of R\$36.8 million in the quarter, an increase of 35% compared to 2Q02. At Ultragas, income from operations remained at the same levels of 2Q02, changing from the R\$41.0 million in 2Q02 to R\$40.6 million in this quarter. In the first half of 2003, Ultrapar's income from operations was R\$174.7 million, a year over year increase of 36%.

Financial Income (Expense): Ultrapar recorded a net financial expense of R\$19.0 million in 2Q03 against financial income of R\$14.8 million in 2Q02. During the second quarter 2Q03, Ultrapar's net cash position remained close to zero. The negative financial result in this quarter is the effect of the *Real* appreciation on Ultrapar's overseas financial investments (therefore in dollar). Ultrapar's hedge policy is to protect all of the Company's dollar-denominated liabilities against currency fluctuations. Ultrapar's financial income of R\$14.8 million reported in 2Q02 is a consequence of Ultrapar's net cash position of R\$268.7 million in that period and of the *Real* devaluation in the 2Q02 on our overseas financial investments.

Equity in Subsidiaries and Affiliates: Equity in subsidiaries and affiliates was R\$11.2 million in 2Q03, mainly due to tax incentives enjoyed by Oxiten Nordeste, Bahiana Distribuidora de Gás and Tequimar. In the first half of 2003, equity in subsidiaries and affiliates was R\$23.7 million, mainly generated from tax incentives. The year over year increase of 58% was basically a reflection of the increase in equity of Oxiten Nordeste, compatible with its improved results.

Income and Social Contribution Taxes: Income and social contribution tax expenses were R\$23.7 million in 2Q03 and R\$2 2.9 million in 2Q02. In the first half of 2003 income and social contribution tax expenses were R\$52.6 million and R\$45.2 million in the same period of 2002. The half over half increase in income and social contribution tax expenses was mainly due to the increase in non-deductible expenses.

Minority Interest: The expenses related to minority interest fell from R\$30.8 million in 2Q02 to R\$1.7 million in 2Q03. In the first half of 2003, minority interest was R\$1.8 million, 96% lower than in the first half of 2002. This reduction reflects the corporate restructuring in the second half of 2002, when Ultrapar incorporated the minority interests of Oxitenio and Ultragaz.

Net Income: Ultrapar's net income in 2Q03 was R\$51.6 million, 21% higher than the R\$42.7 million in 2Q02. In the first half of 2003, net income totaled R\$111.6 million, a 67% growth compared to the same period in 2002.

EBITDA: Ultrapar's EBITDA for 2Q03 totaled R\$118.8 million, 13% higher than the R\$104.9 million in 2Q02. Utragaz's EBITDA was R\$61.6 million, practically at the same level of the same period in 2002, of R\$60.7 million. Oxitenio's EBITDA was R\$45.5 million, 29% higher than recorded for the same period last year as shown below. In the first half of 2003, Ultrapar's EBITDA was 29% higher than for the first half of 2002.
