### EXHIBITS

Exhibit 99

-----  
Press release issued November 10, 2005 in which the Registrant announced that it will initiate a 15,000 meter core drill program at its 100% owned Courageous Lake project in the Northwest Territories beginning in February, 2006. The program is designed to expand gold resources at the FAT deposit and extend the estimated mine life in the recently completed Preliminary Assessment of the project. To help fund the 2006 drill program, the Registrant has arranged a private placement of 435,000 flow-through shares at \$7.25 per share for gross proceeds of \$3,153,750. The shares to be issued under this private placement will be subject to a four-month hold period. There will be no commissions or finder's fees payable on this financing. Closing of this financing is subject to regulatory approval and completion of final documentation. No insiders of the Registrant are participating in this private placement. Note that the press release references a private placement of 425,000 flow-through shares, the correct number, as referenced above is 435,000, and the correct gross proceeds is \$3,153,750, not \$3,081,250 as referenced in the press release.
