**Table of Contents**

**Item 8.01. Other Events.**

New Jersey Natural Gas ( NJNG ), a subsidiary of the Registrant, and South Jersey Gas Company have entered into a stipulation (the Stipulation ) with the staff of the Board of Public Utilities ( BPU ) which recommends to the Commissioners of the BPU approval of a three-year pilot for a Conservation Incentive Program ( CIP ), previously referenced as the Conservation and Usage Adjustment ( CUA ). The proposal is designed to decouple the link between customer usage and NJNG s utility gross margin to allow NJNG to encourage its customers to conserve energy. Under the Stipulation, the existing Weather Normalization Clause would be replaced with the CIP tracking mechanism which addresses margin variations related to both weather and customer usage. Furthermore, NJNG shall initiate programs to further customer conservation efforts. It is expected that the Stipulation will be considered by the Commissioners of the BPU on October 12, 2006. The final approval of the CIP is in the discretion of the Commissioners of the BPU and the Registrant can provide no assurance that the Commissioners of the BPU will adopt the Stipulation.
