**CVRD settles 2007 iron ore and pellet prices with Erdemir**

Rio de Janeiro, January 16, 2007 Companhia Vale do Rio Doce (CVRD), the world's largest iron ore producer, has concluded the iron ore and blast furnace pellet price negotiations for 2007 with Ereğli Demir Çelik (Erdemir), the largest Turkish steel maker. As an outcome, prices for iron ore fines (Carajás and Southern System) increased by 9.50% relatively to the reference prices for 2006, while the reference price for blast furnace pellets increased by 5.28%.

To meet Turkish market's demand for high value-added products, Erdemir, the only flat steel producer of Turkey, is pursuing a large investment program to increase its crude steel production to 8 million tons per year and its flat steel production to 8.5 million tons from the current 3.9 million tons per year.

CVRD reinforces its commitment with clients, continuing to invest a substantial amount of resources to add new capacity of high quality iron ore and pellets to meet client needs in the near future.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian and Canadian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore and nickel business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
