NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank and CSB Investment Services, LLC (together referred to as the Company or CSB). All significant intercompany transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at June 30, 2009, and the results of operations and changes in cash flows for the periods presented have been made. Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been omitted. The Annual Report for CSB for the year ended December 31, 2008, contains consolidated financial statements and related footnote disclosures, which should be read in conjunction with the accompanying consolidated financial statements. The results of operations for the period ended June 30, 2009 are not necessarily indicative of the operating results for the full year or any future interim period.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2009, the FASB issued FAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. FAS No. 168 establishes the FASB Accounting Standards Codification (Codification), which was officially launched on July 1, 2009, and became the primary source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under the authority of Federal securities laws are also sources of authoritative GAAP for SEC registrants. The subsequent issuances of new standards will be in the form of Accounting Standards Updates that will be included in the Codification. FAS No. 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. As such, the Company plans to adopt FAS No.168 in connection with its third quarter 2009 reporting. As the Codification is neither expected nor intended to change GAAP, the adoption of FAS No.168 will not have a material impact on its results of operations or financial position.

In June 2009, the FASB issued FAS No. 166, *Accounting for Transfers of Financial Assets*. FAS 166 removes the concept of a qualifying special-purpose entity (QSPE) from FAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities*, and removes the exception from applying FIN 46(R). This statement also clarifies the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. This statement is effective for fiscal years beginning after November 15, 2009. As such, the Company plans to adopt FAS No. 166 effective January 1, 2010. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In May 2009, the FASB issued FAS No. 165, *Subsequent Events*, which requires companies to evaluate events and transactions that occur after the balance sheet date but before the date the financial statements are issued, or available to be issued in the case of non-public entities. FAS No. 165 requires entities to recognize in the financial statements the effect of all events or transactions that provide additional evidence of conditions that existed at the balance sheet date, including the estimates inherent in the

financial preparation process. Entities shall not recognize the impact of events or transactions that provide evidence about conditions that did not exist at the balance sheet date but arose after that date. FAS No. 165 also requires entities to disclose the date through which subsequent events have been evaluated. FAS No. 165 was effective for interim and annual reporting periods ending after June 15, 2009. The Company adopted the provisions of FAS No. 165 for the quarter ended June 30, 2009, as required, and adoption did not have a material impact on Company's results of operations or financial position. The Company has presented the necessary disclosures in Note 6 herein.

In April 2009, the FASB issued FSP No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FSP relates to determining fair values when there is no active market or where the price inputs being used represent distressed sales. It reaffirms the need to use judgment to ascertain if a formerly active market has become inactive and in determining fair values when markets have become inactive. FSP No. FAS 157-4 is effective for interim and annual periods ending after June 15, 2009, but entities may early adopt this FSP for the interim and annual periods ending after March 15, 2009. The adoption of this FSP did not have a material effect on the Company's results of operations or financial position.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*, which relates to fair value disclosures for any financial instruments that are not currently reflected on the balance sheet of companies at fair value. Prior to issuing this FSP, fair values for these assets and liabilities were only disclosed once a year. The FSP now requires these disclosures on a quarterly basis, providing qualitative and quantitative information about fair value estimates for all those financial instruments not measured on the balance sheet at fair value. FSP No. FAS 107-1 and APB 28-1 is effective for interim and annual periods ending after June 15, 2009. The Company has presented the necessary disclosures in Note 4 herein.

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*, which provides additional guidance designed to create greater clarity and consistency in accounting for and presenting impairment losses on securities. FSP No. FAS 115-2 and FAS 124-2 is effective for interim and annual periods ending after June 15, 2009. The adoption of this FSP did not have a material effect on the Company's results of operations or financial position. The Company has presented the necessary disclosures in Note 2 herein.

NOTE 2 SECURITIES-(continued)**Realized Gains and Losses**

The following table shows the proceeds from sales of available-for-sale securities and the gross realized gains and losses on the sales of those securities that have been included in earnings as a result of sales. Gains or losses on the sales of available-for-sale securities are recognized upon sale and are determined by the specific identification method.

Realized losses	577		577	
Impairment losses			35,000	
Net securities (losses) gains	\$ (577)	\$	\$ 115,503	\$

At least quarterly, the Company conducts a comprehensive security-level impairment assessment. The assessments are based on the nature of the securities, the extent and duration of the securities, the extent and duration of the loss and management's intent to sell or if it is more likely than not that management will be required to sell a security before recovery of its amortized cost basis, which may be maturity. Management believes the Company will fully recover the cost of these securities and it does not intend to sell these securities and likely will not be required to sell them before the anticipated recovery of the remaining amortized cost basis, which may be maturity. As a result, management concluded that these securities were not other-than-temporarily impaired at June 30, 2009 and has recognized the total amount of the impairment in other comprehensive income, net of tax. A \$35,000 other-than-temporary impairment was recognized on an equity investment during the first quarter 2009.

NOTE 3 FAIR VALUE MEASUREMENTS (FAS NO. 157)

Effective January 1, 2008, the Company adopted FAS No. 157, *Fair Value Measurements*, which, among other things, requires enhanced disclosures about assets and liabilities carried at fair value. FAS No. 157 establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy under FAS No. 157 are described below:

Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by corroborated or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The following table presents the assets reported on the consolidated statements of financial condition at their fair value as of June 30, 2009 and December 31, 2008, by level within the fair value hierarchy. No liabilities are carried at fair value. As required by FAS No. 157, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Common stocks and US Treasury notes are valued at the closing price reported on the active market on which the individual securities are traded. US Agency bonds, mortgage-backed securities and obligations of state and political subdivisions are valued at observable market data for similar assets.

The following table presents the assets measured on a nonrecurring basis on the consolidated balance sheets at their fair value as of June 30, 2009, and December 31, 2008, by level within the fair value hierarchy. Impaired loans that are collateral dependent are written down to fair value through the establishment of specific reserves. Techniques used to value the collateral that secure the impaired loans include: quoted market prices for identical assets classified as Level I inputs; observable inputs, employed by certified appraisers, for similar assets classified as Level II inputs. In cases where valuation techniques included inputs that are unobservable and are based on estimates and assumptions developed by management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

NOTE 4 FAIR VALUES OF FINANCIAL INSTRUMENTS (FAS NO. 107)

The estimated fair values of recognized financial instruments as of June 30, 2009 and December 31, 2008 are as follows:

(Dollars in thousands)	2009		2008	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets:				
Cash and cash equivalents	\$ 17,391	\$ 17,391	\$ 12,746	\$ 12,746
Securities	72,766	72,766	81,888	81,888

Financial liabilities:				
Deposits	\$300,513	\$302,784	\$305,453	\$308,213
Short-term borrowings	24,918	24,918	22,892	22,892
Other borrowings	50,262	52,234	50,998	53,073
Accrued Interest Payable	405	405	417	417

For purposes of the above disclosures of estimated fair value, the following assumptions are used:

Cash and cash equivalents; Accrued interest receivable; Short term borrowings, Accrued interest payable

The fair value of the above instruments is considered to be carrying value.

Securities

The fair value of securities available-for-sale which are measured on a recurring basis are determined primarily by obtaining quoted prices on nationally recognized securities exchanges or matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on securities' relationship to other similar securities.

Loans, net

The fair value for loans is estimated by discounting future cash flows using current market inputs at which loans with similar terms and qualities would be made to borrowers of similar credit quality. Where quoted market prices were available, primarily for certain residential mortgage loans, such market rates were utilized as estimates for fair value.

Fair value of non-accrual loans is based on carrying value.

Deposits and Other Borrowed Funds

The fair values of certificates of deposit and other borrowed funds are based on the discounted value of contractual cash flows. The discount rates are estimated using rates currently offered for similar instruments with similar remaining maturities. Demand, savings, and money market deposit accounts are valued at the amount payable on demand as of year-end.

The Company also has unrecognized financial instruments at June 30, 2009 and December 31, 2008. These financial instruments relate to commitments to extend credit and letters of credit. The aggregated contract amount of such financial instruments was approximately \$61,425,000 at June 30, 2009 and \$61,791,000 at December 31, 2008. Such amounts are also considered to be the estimated fair values.

CSB BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The fair value estimates of financial instruments are made at a specific point in time based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the entire holdings of a particular financial instrument over the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Since no ready market exists for a significant portion of the financial instruments, fair value estimates are largely based on judgments after considering such factors as future expected credit losses, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

NOTE 5 BUSINESS COMBINATION

Effective after the close of business on October 31, 2008 CSB completed the acquisition of Indian Village Bancorp, Inc. (Indian Village). CSB and Indian Village entered into a definitive Agreement and Plan of Merger on May 14, 2008. Immediately following the merger, Indian Village Community Bank was merged with and into The Commercial and Savings Bank of Millersburg. Indian Village banking centers are located in Gnadenuhnten, New Philadelphia and North Canton, Ohio. Under the terms of the agreement, the Company paid a combination of stock and cash as set forth in the definitive agreement and plan of merger for each outstanding common share of Indian Village, resulting in aggregate merger consideration of approximately \$8.1 million. This transaction was accounted for using the purchase method of accounting.

The following unaudited summary information presents the consolidated results of operations of CSB on a pro forma basis, as if the Indian Village acquisition had occurred at the beginning of each of the periods presented. The pro forma data gives effect to the merger and is based on numerous assumptions and estimates.

**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following discussion focuses on the consolidated financial condition of CSB Bancorp, Inc. and its subsidiaries (the Company) at June 30, 2009 as compared to December 31, 2008, and the consolidated results of operations for the quarter and six-month period ended June 30, 2009 compared to the same period in 2008. The purpose of this discussion is to provide the reader with a more thorough understanding of the consolidated financial statements. This discussion should be read in conjunction with the interim consolidated financial statements and related footnotes.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report are not historical facts but rather are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms anticipates, plans, expects, believes, and similar expressions as they relate to the Company or its management are intended to identify such forward-looking statements. The Company's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

FINANCIAL CONDITION

Total assets were \$422.6 million at June 30, 2009, compared to \$424.7 million at December 31, 2008, representing a decrease of \$2.1 million or 0.5%. Cash and cash equivalents increased \$4.6 million, or 36.4%, during the six-month period ending June 30, 2009, due to a \$5.7 million increase in Interest-earning deposits in other banks and Federal funds sold and a \$1.1 million decrease in cash and due from banks. Securities decreased \$9.1 million or 11.1% during the first six months of 2009 primarily due to calls within the US Agency portfolio and principal repayments within the mortgage-backed securities portfolio. Net loans increased \$1.6 million, or 0.5%, while deposits decreased \$4.9 million, or 1.6%, during the six-month period. Short-term borrowings of Federal funds purchased, securities sold under repurchase agreement and Federal Home Loan Bank borrowings increased \$2.0 million, while other borrowings decreased \$736 thousand during the period.

Net loans increased \$1.6 million, or 0.5%, during the six-month period ended June 30, 2009. Loan balance increases were recognized in commercial loans of \$6.6 million and home equity lines of \$3.5 million during the six-month period. With low interest rates available on the mortgage secondary market, mortgages declined \$5.9 million and consumer installment credit continued to decline another \$770 thousand during the period. The allowance for loan losses amounted to \$3,398,000, or 1.07% of total loans at June 30, 2009 compared to \$3,394,000 or 1.07% of total loans at December 31, 2008.

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The allowance for loan losses totaled \$3.4 million at June 30, 2009 stable from March 31, 2009 and December 31, 2008. The Company provided \$635 thousand to the allowance for loan losses for the six-month period ending June 30, 2009 while net loan charge-offs totaled \$631 thousand for the same period. At June 30, 2009 nonperforming loans, other real estate owned and delinquent loans reflect balance decreases from March 31, 2009.

	June 30, 2009	March 31, 2009	December 31, 2008
Non-performing loans	\$ 4,071,028	\$ 4,123,091	\$ 2,642,728
Other real estate	52,000	59,000	79,000
Allowance for loan losses	3,397,920	3,401,888	3,393,685
Total loans	317,879,674	319,424,751	316,290,412
Allowance: loans	1.07%	1.07%	1.07%
30-89 day loan delinquency	1,581,869	1,837,725	3,111,000
Allowance: non-performing loans	0.8x	0.8x	1.3x
Non-performing assets: total assets	1.00%	0.99%	0.64%

The ratio of gross loans to deposits was 104.4% at June 30, 2009, compared to 103.5% at December 31, 2008. The increase in this ratio is the result of loan growth and deposit shrinkage experienced during the six months ended June 30, 2009.

At least quarterly, the Company conducts a comprehensive security-level impairment assessment. The assessments are based on the nature of the securities, the extent and duration of the securities, the extent and duration of the loss and management's intent to sell or if it is more likely than not that management will be required to sell a security before recovery of its amortized cost basis, which may be maturity. The Company had net unrealized gains of \$1.1 million within its securities portfolio at June 30, 2009, compared to net unrealized gains of \$218,000 at December 31, 2008. Gross unrealized losses of \$403 thousand as of June 30, 2009 were primarily concentrated in four (4) private label CMO's. These investments represent \$2.9 million fair value, \$7.5 million original par value and \$251,000 gross unrealized loss. All bonds are investment grade at June 30, 2009, collateralized primarily by 1-4 family mortgage loans and borrowers in a wide geographical dispersion. Management believes the Company will fully recover the cost of these securities and it does not intend to sell these securities and likely will not be required to sell them before the anticipated recovery of the remaining amortized cost basis, which may be maturity. As a result, management concluded that these securities were not other-than-temporarily impaired at June 30, 2009 and has recognized the total amount of the impairment in other comprehensive income, net of tax. A \$35,000 other-than-temporary impairment was recognized on an equity investment during the first quarter 2009.

Short-term borrowings increased \$2.0 million from December 31, 2008 as new customer relationships were opened as repurchase agreements. Other borrowings decreased \$736 thousand due to maturities and payments of Federal Home Loan advances.

Deposits decreased \$4.9 million, or 1.6% from December 31, 2008 with non-interest bearing deposits declining \$5.0 million and interest-bearing deposit accounts increasing \$35 thousand reflecting normal seasonal fluctuations. By deposit type, increases were recognized in money market savings accounts of \$2.1 million and time deposits under \$100 thousand of \$2.8 million for the six-month period ended June 30, 2009. During the period \$3.2 million of brokered deposits acquired through the merger with Indian Village matured and were not renewed. Decreases were also reflected in interest-bearing demand deposits and traditional savings accounts.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Total shareholders' equity amounted to \$44.7 million, or 10.6%, of total assets, at June 30, 2009, compared to \$43.5 million, or 10.2% of total assets, at December 31, 2009. The increase in shareholders' equity during the six months ended June 30, 2009 was due to net income of \$1,602,000 and the increase in net unrealized gains, net of tax, on securities of \$589,000. These increases were partially offset by dividends declared of \$985,000. The Company and its subsidiary bank met all regulatory capital requirements at June 30, 2009.

RESULTS OF OPERATIONS

Three months ended June 30, 2009 and 2008

For the quarter ended June 30, 2009, the Company recorded net income of \$706,000, or \$0.26 per share, as compared to net income of \$878,000, or \$0.36 per share for the quarter ended June 30, 2008. The \$172,000 decrease in net income for the quarter was principally due to a \$346,000 increase in the provision for loan losses and a \$593,000 increase in other expenses. The declines were partially offset by net increases in other income of \$100,000 and a decline in federal income tax provision of \$121,000.

Interest income for the quarter ended June 30, 2009, was \$5,466,000, representing a \$573,000 increase, or 11.7%, compared to the same period in 2008. This increase was primarily due to an increase in average loan volume of \$70 million for the second quarter in 2009 compared to the quarter ended June 30, 2008. Securities posted an additional net interest increase due to an increase in average volume of \$5 million. These interest increases were partially offset by a rate decline of 1.78% on approximately \$10 million in overnight fed funds sold and interest bearing deposit accounts.

Interest expense for the quarter ended June 30, 2009 was \$1,634,000, an increase of \$26,000, or 1.6%, from the same period in 2008. The increase in interest expense occurred due to volume increases from the deposits and Federal Home Loan Bank advances acquired in the Indian Village transactions, which were mostly offset by decreases in interest rates across the board for the quarter ended June 30, 2009. During second quarter 2009, maturing time deposits renewed at interest rates that were lower than the previous period.

The provision for loan losses for the quarter ended June 30, 2009, was \$394,000, compared to a \$48,000 provision for the same quarter in 2008. The provision for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

Non-interest income for the quarter ended June 30, 2009, was \$780,000, an increase of \$100,000, or 14.7%, compared to the same quarter in 2008. This increase occurred due to the gain on sale of mortgage loans into the secondary market of \$117,000 for the quarter as compared to the prior year quarter of \$7,000 attributable to refinancings in the current low rate mortgage market environment. Additional increases were made in debit card interchange fees of \$16,000 and all other income of \$33,000. Trust and brokerage fees declined \$43,000 on a quarter over quarter basis as the market value of assets under management declined. Service charges on deposit accounts also declined by \$15,000 or 4.4% as customer use of overdraft privilege products declined.

Non-interest expenses for the quarter ended June 30, 2009, increased \$593,000, or 22.7%, compared to the second quarter of 2008. FDIC assessments increased \$211,000 due to increased rates and a special assessment while a previous credit balance was exhausted. Increases in all other expenses occurred primarily as a result of the Indian Village acquisition; salaries and employee benefits increased \$169,000, occupancy and equipment expenses increased \$65,000 and other expenses increased \$69,000 or 13.0%.

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Federal income tax expense decreased \$121,000, or 28.7% for the quarter ended June 30, 2009 as compared to the second quarter of 2008. The provision for income taxes was \$302,000 (effective rate of 29.9%) for the quarter ended June 30, 2009, compared to \$423,000 (effective rate of 32.5%) for the quarter ended June 30, 2008. The decrease in the effective tax rate resulted from an increase in tax-exempt interest income and decreased income generated by the company.

Six months ended June 30, 2009 and 2008

Net income for the six months ending June 30, 2009, was \$1,602,000, or \$0.59 per share, as compared to \$1,880,000 or \$0.77 per share during the same period in 2008. Return on average assets and return on average equity were 0.76% and 7.24%, respectively, for the six-month period of 2009, compared to 1.10% and 10.14%, respectively for 2008. Net interest income was \$7,726,000 for the six months ended June 30, 2009, an increase of \$1,060,000 or 15.9% from the same period last year. Comparative net income decreased primarily due to the increase in the provision for loan losses of \$480,000 and the increase in FDIC premiums and assessments of \$377,000 compared to the same period in 2008.

Interest income on loans increased \$773,000, or 9.2%, for the six months ended June 30, 2009, as compared to the same period in 2008. This increase was primarily due to an average volume increase of \$67 million partially offset by an interest rate decrease of 91 basis points for the comparable six-month periods. Interest income on securities increased \$156,000, or 9.3%, as the yield on taxable securities increased 8 basis points, while average investment balances increased by \$3.4 million. Interest income on fed funds sold and interest bearing deposits decreased \$61,000 for the six months ended June 30, 2009 as the average fed funds sold rate decreased 184 basis points to 0.23%, compared to the same period in 2008.

Interest expense decreased \$192,000 to \$3,320,000 for the six months ended June 30, 2009, compared to the six months ended June 30, 2008. Interest expense on deposits decreased \$296,000, or 11.4%, from the same period as last year, while interest expense on other borrowings increased \$104,000 or 11.4%. The decrease in interest expense has been caused by lower interest rates being paid across the board on interest-bearing deposit accounts and borrowings. Time deposits continue to renew at lower interest rates, and some depositors have moved monies to saving instruments anticipating higher rate time deposits. Competition for deposits appears to be decreasing from a year ago with larger money center banks reducing the premium paid for term deposits. The net interest margin declined by 21 basis points for the six-month period ended June 30, 2009, to 3.93%, from 4.14% for the same period in 2008. The provision for loan losses was \$635,000 during the first six months of 2009, compared to \$155,000 in the same six-month period of 2008. The provision or credit for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

Non-interest income decreased \$59,000, or 3.6%, during the six months ended June 30, 2009, as compared to the same period in 2008. The decrease in non-interest income was primarily due to the sale of credit cards resulting in a gain of \$261,000 during first quarter 2008. Trust and Brokerage fees declined \$117,000 due to declines in market values and reductions in brokerage revenues. Service charges on deposits decreased \$9,000 from the same period in 2008 as deposit customers curtailed their use of overdraft privilege products in 2009. These decreases were partially offset by a \$184,000 increase in gains on mortgage loans sold in the secondary market for the first half of 2009, a \$31,000 increase in debit card interchange fees and a \$116,000 gain on securities sold during the first quarter of 2009.

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Non-interest expenses increased \$993,000, or 18.6%, for the six months ended June 30, 2009, compared to the same period in 2008. The bank's FDIC deposit premium rose \$377,000 from \$15,000 for the six months ended 2008 reflecting the rising assessment rate, the exhaustion of the bank's credit in 2009 and the effect of the special assessment payable on September 30, 2009. Salaries and employee benefits increased \$341,000, or 11.1%, primarily the result of increased number of employees following the merger of Indian Village as well as increased cost of benefit programs. Professional and directors fees a result of increased legal and legal collection fees due to an increased number of nonperforming loans. Occupancy expense has increased during the first six-months of 2009 as compared with 2008 due to increased rents, maintenance and utilities on three additional offices. Other expenses increased \$55,000 or 4.8% primarily the result of increased operating costs of a larger company. The provision for income taxes was \$726,000 (effective rate of 31.1%) for the six months ended June 30, 2009, compared to \$921,000 (effective rate of 32.9%) for the six months ended June 30, 2008. The decrease in the effective tax rate resulted from an increase in tax-exempt interest income as a portion of total income before income taxes.

CAPITAL RESOURCES

The Federal Reserve Board (FRB) has established risk-based capital guidelines that must be observed by financial holding companies and banks. Failure to meet specified minimum capital requirements could result in regulatory actions by the Federal Reserve or Ohio Division of Financial Institutions that could have a material effect on the Company's financial condition or results of operations. Management believes there were no material changes to Capital Resources as presented in CSB Bancorp's annual report on Form 10-K for the year ended December 31, 2008, and as of June 30, 2009 the holding company and its bank meet all capital adequacy requirements to which they are subject.

LIQUIDITY

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses and meet other obligations. The Company's primary sources of liquidity are cash and cash equivalents, which totaled \$17.4 million at June 30, 2009, an increase of \$4.6 million from \$12.7 million at December 31, 2008. Net income, securities available-for-sale, and loan repayments also serve as sources of liquidity. Cash and cash equivalents and estimated principal cash flow and maturities on investments maturing within one year represent 7.5% of total assets as of June 30, 2009 compared to 6.6% of total assets at year-end 2008. Other sources of liquidity include, but are not limited to, purchase of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet cash flow obligations for the foreseeable future.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

ITEM 4T CONTROLS AND PROCEDURES

With the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that:

- (a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which our periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
