LIFE TIME FITNESS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present financial position, results of operations and cash flows for the periods have been included.

These interim consolidated financial statements and the related notes should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the Securities and Exchange Commission (SEC), which includes audited consolidated financial statements for the three fiscal years ended December 31, 2008. We evaluated the impact of events occurring after September 30, 2009 up to October 30, 2009, which is the date of issuance of these consolidated financial statements. These statements contain all necessary adjustments and disclosures resulting from that evaluation.

2. Share-Based Compensation

We have four share-based compensation plans, the FCA, Ltd. 1996 Stock Option Plan (the 1996 Plan), the Life Time Fitness, Inc. 1998 Stock Option Plan (the 1998 Plan), the Amended and Restated Life Time Fitness, Inc. 2004 Long-Term Incentive Plan (the 2004 Plan) and an Employee Stock Purchase Plan (the ESPP), collectively, the share-based compensation plans. In connection with approval for the 2004 Plan, our Board of Directors approved a resolution to cease making additional grants under the 1996 Plan and the 1998 Plan. The types of awards that may be granted under the 2004 Plan include incentive and non-qualified options to purchase shares of common stock, stock appreciation rights, restricted shares, restricted share units, performance awards and other types of share-based awards.

As of September 30, 2009, we had granted a total of 5,587,165 options to purchase common stock under all of the share-based compensation plans, of which options to purchase 827,578 shares were outstanding, and a total of 2,525,837 restricted shares were granted, of which 1,981,757 restricted shares were outstanding and unvested. We use the term restricted shares to define nonvested shares granted to employees and non-employee directors, whereas applicable accounting guidance reserves that term for fully vested and outstanding shares whose sale is contractually or governmentally prohibited for a specified period of time.

Total share-based compensation expense included in our consolidated statements of operations for the three and nine months ended September 30, 2009 and 2008, was as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2009	2008	2009	2008
Share-based compensation expense related to stock options	\$ 98	\$ 533	\$ 730	\$ 1,852
Share-based compensation expense related to restricted shares	1,752	1,531	5,087	4,039
Share-based compensation expense related to ESPP	30	30	90	98
Total share-based compensation expense	\$ 1,880	\$ 2,094	\$ 5,907	\$ 5,989

Table of Contents

LIFE TIME FITNESS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

The following table summarizes the stock option transactions for the three month periods ended March 31, 2009, June 30, 2009 and September 30, 2009:

	Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2008	980,929	\$ 21.65	5.6	
Granted				
Exercised				
Canceled	(2,354)	\$ 31.06		
Outstanding at March 31, 2009	978,575	\$ 21.63	5.4	\$ 632
Granted				
Exercised	(24,100)	\$ 8.00		
Canceled	(3,947)	\$ 29.85		
Outstanding at June 30, 2009	950,528	\$ 21.94	5.2	\$ 2,439
Granted				
Exercised	(121,950)	\$ 16.38		
Canceled	(1,000)	\$ 25.47		
Outstanding at September 30, 2009	827,578	\$ 22.76	5.0	\$ 5,800
Vested or Expected to Vest at September 30, 2009	825,702	\$ 22.71	5.0	\$ 5,800
Exercisable at September 30, 2009	806,963	\$ 22.22	5.0	\$ 5,800

No options were granted during the nine months ended September 30, 2009 or the nine months ended September 30, 2008. As of September 30, 2009, there was \$0.1 million of unrecognized compensation expense related to stock options that is expected to be recognized over a weighted average period of 0.3 years.

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between our closing stock price at September 30, 2009 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders, had all option holders exercised their options on September 30, 2009. This amount changes based on the fair market value of our stock. Total intrinsic value of options exercised during the nine months ended September 30, 2009 and 2008 was \$1.8 million and \$3.7 million, respectively.

Net cash proceeds from the exercise of stock options were \$2.2 million and \$3.0 million for the nine months ended September 30, 2009, and 2008, respectively. The actual income tax benefit realized from stock option exercises total \$0.4 million and less than \$0.1 million, respectively, for those same periods.

Table of Contents

LIFE TIME FITNESS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

The following table summarizes the unvested restricted shares activity for the three month periods ended March 31, 2009, June 30, 2009 and September 30, 2009:

	Restricted Shares	Range of Market Price Per Share on Grant Date
Outstanding at December 31, 2008	487,203	\$ 14.31-53.95
Granted	657,315	\$ 9.72
Canceled	(2,253)	\$ 14.31-49.06
Vested	(100,136)	\$ 14.31-53.95
Outstanding at March 31, 2009	1,042,129	\$ 9.72-53.95
Granted	1,028,514	\$ 16.39-20.44
Canceled	(50,366)	\$ 9.72-50.82
Vested	(35,206)	\$ 14.31-50.82
Outstanding at June 30, 2009	1,985,071	\$ 9.72-53.95
Granted		\$
Canceled	(140)	\$ 20.44-46.51
Vested	(3,174)	\$ 9.72-51.15
Outstanding at September 30, 2009	1,981,757	\$ 9.72-53.95

During the nine months ended September 30, 2009 and 2008, we issued 1,685,829 and 404,638 shares of restricted stock, respectively, with an aggregate fair value of \$27.3 million and \$11.1 million, respectively. The grant date fair market value of restricted shares that vested during the nine months ended September 30, 2009 was \$5.2 million. The total value of each restricted stock grant, based on the fair market value of the stock on the date of grant, is amortized to compensation expense on a straight-line basis over the related vesting period. As of September 30, 2009, there was \$17.7 million of unrecognized compensation expense related to restricted stock that is expected to be recognized over a weighted average period of 2.9 years.

In June 2009, the Compensation Committee of our Board of Directors approved the grant of 996,000 shares of long-term performance-based restricted stock to serve as an incentive to our senior management team to achieve certain diluted earnings per share (EPS) targets in 2011 and 2012. If a specified EPS target is achieved for fiscal 2011, 50% of the restricted shares will vest. If a higher EPS target is achieved for fiscal 2011, 100% of the restricted shares will vest. If the grant has not fully vested after fiscal 2011, 50% of the shares will vest if a specified EPS target is achieved for fiscal 2012. If none of the shares vested after fiscal 2011, 100% of the shares will vest if a higher EPS target is achieved for fiscal 2012. In the event that we do not achieve the required EPS targets, the restricted stock will be forfeited. A maximum of \$20.4 million could be recognized as compensation expense under this grant if all EPS targets are met.

We consider the specific EPS targets to be competitively sensitive information during the performance period. We believe these targets, inclusive of compensation expense under this grant, to be aggressive goals in excess of our current baseline expectations, and therefore, we did not recognize any compensation expense associated with the grant during the nine months ended September 30, 2009, nor has any share amount been included in our total diluted shares. If all of the targets had been considered probable at September 30, 2009, we would have recognized \$2.3 million of

compensation cost during the nine months ended September 30, 2009. If it becomes probable that certain of the EPS performance targets will be achieved, the corresponding estimated cost of the grant will be recorded as compensation expense over the performance period. The probability of reaching the targets is revaluated each reporting period. If it becomes probable that certain of the target performance levels will be achieved, a cumulative adjustment will be recorded and future compensation expense will increase based on the currently projected performance levels. If we later determine that it is not probable that the minimum EPS performance threshold for the grants will be met, no further compensation cost will be recognized and any previously recognized compensation cost will be reversed.

Table of Contents

LIFE TIME FITNESS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

Our ESPP provides for the sale of our common stock to our employees at discounted purchase prices. The cost per share under this plan is 90% of the fair market value of our common stock on the last day of the purchase period, as defined. The current purchase period for employees under the ESPP began July 1, 2009 and ends December 31, 2009. Compensation expense under the ESPP is estimated based on the discount of 10% at the end of the purchase period. In June 2006, our Board of Directors authorized the repurchase of 500,000 shares of our common stock from time to time in the open market or otherwise for the primary purpose of offsetting the dilutive effect of shares pursuant to our ESPP. During the first nine months of 2009, we repurchased 67,268 shares for approximately \$1.0 million. As of September 30, 2009, there were 375,388 remaining shares authorized to be repurchased for this purpose. The shares repurchased to date have been purchased in the open market and, upon repurchase, became authorized, but unissued shares of our common stock.

3. Earnings per Share

Basic EPS is computed by dividing net income applicable to common shareholders by the weighted average number of shares of common stock outstanding for each period. Diluted EPS is computed based on the weighted-average number of common shares and common equivalent shares. Common equivalent shares represent the effect of dilutive stock options and restricted stock awards during each period presented. Stock options excluded from the calculation of diluted EPS because the option exercise or award price was greater than the average market price of the common share were 435,128 and 75,552 for the nine months ended September 30, 2009 and 2008, respectively. Long-term performance-based restricted shares excluded from the calculation of diluted EPS because vesting of the shares was not probable were 996,000 and 0 for the nine months ended September 30, 2009 and 2008, respectively.

The basic and diluted earnings per share calculations are shown below:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2009	2008	2009	2008
Net income	\$ 20,633	\$ 21,574	\$ 54,007	\$ 58,806
Weighted average number of common shares outstanding basic	39,410	39,025	39,221	38,946
Effect of dilutive stock options	141	215	55	215
Effect of dilutive restricted stock awards	704	130	411	189
Weighted average number of common shares outstanding diluted	40,255	39,370	39,687	39,350
Basic earnings per common share	\$ 0.52	\$ 0.55	\$ 1.38	\$ 1.51
Diluted earnings per common share	\$ 0.51	\$ 0.55	\$ 1.36	\$ 1.49

4. Operating Segments

Our operations are conducted mainly through our large, multi-use sports, fitness and family recreation centers. We aggregate the activities of our centers and other ancillary products and services into one reportable segment as none of the centers or other ancillary products or services meet the quantitative thresholds for separate disclosure under the applicable accounting guidance. Each of the centers has similar expected economic characteristics, service and product offerings, customers and design. Each of the other ancillary products and services either directly or indirectly, through advertising or branding, complement the operations of the centers. Our chief operating decision maker uses EBITDA, which consists of net income plus interest expense, net, provision for income taxes and depreciation and

amortization, as the primary measure of operating segment performance.

Deferred rent liability	539	1,380
Other liabilities	(8,292)	7,910
Changes in operating assets and liabilities	\$ 2,000	\$ 16,840

We made cash payments for income taxes of \$33.7 million and \$18.8 million for the nine months ended September 30, 2009 and 2008, respectively.

We made cash payments for interest of \$23.0 million and \$19.6 million for the nine months ended September 30, 2009 and 2008, respectively. Capitalized interest was \$2.6 million and \$7.5 million for the nine months ended September 30, 2009 and 2008, respectively.

Construction accounts payable and accounts payable related to property and equipment was \$11.4 million at September 30, 2009 and \$88.7 million at September 30, 2008.

6. Commitments and Contingencies

Litigation We are engaged in proceedings incidental to the normal course of business. Due to their nature, such legal proceedings involve inherent uncertainties, including but not limited to, court rulings, negotiations between affected parties and governmental intervention. We have established reserves for matters that are probable and estimable in amounts we believe are adequate to cover reasonable adverse judgments not covered by insurance. Based upon the information available to us and discussions with legal counsel, it is our opinion that the outcome of the various legal

actions and claims that are incidental to our business will not have a material adverse impact on the consolidated financial position, results of operations or cash flows; however, such matters are subject to many uncertainties, and the outcome of individual matters are not predictable with assurance.

7. Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued guidance which establishes the FASB Accounting Standards Codification as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in the United States. It became effective for our interim reporting period ended September 30, 2009.

8. Derivative Instruments

As part of our risk management program, we may periodically use interest rate swaps to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity.

In 2007, we entered into an interest rate swap contract that effectively fixed the rates paid on a total of \$125.0 million of variable rate borrowings at 4.825% plus the applicable spread (which depends on our cash flow leverage ratio) until October 2010. In May 2009, we amended the interest rate swap contract to effectively fix the rates paid on the \$125.0 million of variable rate borrowings at 4.715% plus the applicable spread from July 2009 until October 2010. The contract has been designated a cash flow hedge against interest rate volatility. In accordance with applicable accounting guidance, changes in the fair market value of the swap contract are recorded in accumulated other comprehensive income (loss). As of September 30, 2009, the \$3.4 million fair market value loss, net of tax, of the swap contract was recorded as accumulated other comprehensive loss in the shareholders' equity section of our consolidated balance sheets and the \$5.4 million gross fair market value of the swap contract was included in long-term debt.

On an ongoing basis, we assess whether the interest rate swap used in this hedging transaction is highly effective in offsetting changes in the fair value or cash flow of the hedged item by comparing the current terms of the swap and the debt to assure they continue to coincide and through an evaluation of the continued ability of the counterparty to the swap to honor its obligations under the swap. If it is determined that the derivative is not highly effective as a hedge or hedge accounting is discontinued, any change in fair value of the derivative since the last date at which it was determined to be effective would be recognized in earnings.

9. Fair Value Measurements

The carrying amounts related to cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximate fair value due to the relatively short maturities of such instruments. The fair value of our long-term debt and capital leases are estimated based on estimated current rates for debt with similar terms, credit worthiness and the same remaining maturities. The fair value estimates presented are based on information available to us as of September 30, 2009. These fair value estimates have not been comprehensively revalued for purposes of these consolidated financial statements since that date, and current estimates of fair values may differ significantly. The following table presents the carrying value and the estimated fair value of long-term debt as of September 30, 2009:

	September 30, 2009	
	Carrying Value	Estimated Fair Value
Fixed-rate debt	\$ 363,132	\$ 340,742
Obligations under capital leases	18,929	18,759
Floating-rate debt	301,234	284,763
Total	\$ 683,295	\$ 644,264

The accounting guidance established a framework for measuring fair value and expanded disclosures about fair value measurements. The guidance applies to all assets and liabilities that are measured and reported on a fair value basis.

This enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The guidance requires that each asset and liability carried at fair value be classified into one of the following categories:

Table of Contents

**LIFE TIME FITNESS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)**

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

We determined the fair value of the swap contract based upon current fair values as quoted by recognized dealers. As prescribed by the guidance, we recognize the fair value of the swap liability as a Level 2 valuation.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Forward-Looking Statements

The following discussion may contain forward-looking statements regarding us and our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described under Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2008. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the SEC that advise interested parties of the risks and factors that may affect our business.

The interim consolidated financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for the three fiscal years ended December 31, 2008.

Overview

We operate large, multi-use sports, fitness and family recreation centers. As of October 30, 2009, we operated 84 centers primarily in residential locations across 19 states under the LIFE TIME FITNESS and LIFE TIME ATHLETIC brands.

We compare the results of our centers based on how long the centers have been open at the most recent measurement period. We include a center for comparable center revenue purposes beginning on the first day of the thirteenth full calendar month of the center's operation, prior to which time we refer to the center as a new center. We include an acquired center for comparable center revenue purposes beginning on the first day of the thirteenth full calendar month after we assumed the center's operations. We consider a center to be a mature center beginning on the first day of the 37th full calendar month of the center's operations.

As we grow our presence in existing markets by opening or leasing new centers, we expect to attract some memberships away from our other existing centers already in those markets, reducing revenue and initially lowering the memberships of those existing centers. In addition, as a result of new center openings in existing markets, and because older centers will represent an increasing proportion of our center base over time, our comparable center revenue may be lower in future periods than in the past. Of the three new centers we opened in 2009, two are in existing markets. We do not expect that operating costs of our planned new centers will be significantly higher than centers opened in the past, and we also do not expect that the planned increase in the number of centers will have a material adverse effect on the overall financial condition or results of operations of existing centers.

Another result of opening new centers or leasing centers, is that our center operating margins may be lower than they have been historically. We expect both the addition of pre-opening expenses and the lower revenue volumes characteristic of newly-opened centers, as well as the occupancy costs associated with leased centers to affect our center operating margins at these centers and on a consolidated basis.

Table of Contents

In the future, we also may experience increased member attrition, lower average dues, lower in-center revenue per membership as well as higher membership acquisition costs which may result in lower total revenue and operating profit in affected centers and on a consolidated basis. Our categories of new centers and existing centers do not include the center owned by Bloomingdale, LLC because it is accounted for as an investment in an unconsolidated affiliate and is not consolidated in our financial statements.

We measure performance using such key operating statistics as member satisfaction ratings, return on investment, average revenue per membership, including membership dues and enrollment fees, average in-center revenue per membership and center operating expenses, with an emphasis on payroll and occupancy costs, as a percentage of sales and comparable center revenue growth. We use center revenue and EBITDA margins to evaluate overall performance and profitability on an individual center basis. In addition, we focus on several membership statistics on a center-level and system-wide basis. These metrics include change in center membership levels and growth of system-wide memberships, percentage center membership to target capacity, center membership usage, center membership mix among individual, couple and family memberships and center attrition rates. During 2008, our trailing twelve month attrition rate increased from 34.2% to 42.3%, driven primarily by the slowing economy and inactive members leaving earlier than in the past. During the first nine months of 2009, our trailing twelve month attrition rate has decreased from 42.3% to 40.6%.

We have three primary sources of revenue.

First, our largest source of revenue is membership dues (67.1% of total revenue for the nine months ended September 30, 2009) and enrollment fees (3.1% of total revenue for the nine months ended September 30, 2009) paid by our members. We recognize revenue from monthly membership dues in the month to which they pertain. We recognize revenue from enrollment fees over the expected average life of the membership, which we estimate to be 30 months for 2009 and the fourth quarter of 2008, 33 months for the second and third quarters of 2008 and 36 months for the first quarter of 2008 and prior periods.

Second, we generate revenue within a center, which we refer to as in-center revenue, or in-center businesses (28.2% of total revenue for the nine months ended September 30, 2009), including fees for personal training, registered dietitians, group fitness training and other member activities, sales of products at our LifeCafe, sales of products and services offered at our LifeSpa, tennis programs and renting space in certain of our centers.

Third, we have expanded the LIFE TIME FITNESS brand into other wellness-related offerings that generate revenue, which we refer to as other revenue, or corporate businesses (1.6% of total revenue for the nine months ended September 30, 2009), including our media, wellness and athletic events businesses. Our primary media offering is our magazine, *Experience Life*. Other revenue also includes two restaurants in the Minneapolis market and rental income from our Highland Park, Minnesota office building.

Center operations expenses consist primarily of salary, commissions, payroll taxes, benefits, rent, real estate taxes and other occupancy costs, utilities, repairs and maintenance, supplies, administrative support and communications to operate our centers. Advertising and marketing expenses consist of our marketing department costs and media and advertising costs to support center membership levels, in-center businesses and our corporate businesses. General and administrative expenses include costs relating to our centralized support functions, such as accounting, information systems, procurement, real estate and development and member relations. Our other operating expenses include the costs associated with our media, athletic events and nutritional product businesses, two restaurants and other corporate expenses, as well as gains or losses on our dispositions of assets. Our total operating expenses may vary from period to period depending on the number of new centers opened during that period, the number of centers engaged in presale activities and the performance of our in-center businesses.

Our primary capital expenditures relate to the construction of new centers and updating and maintaining our existing centers. The land acquisition, construction and equipment costs for a current model center can vary considerably based on variability in land cost and the cost of construction labor, as well as whether or not a tennis area is included or whether or not we expand the gymnasium or add other facilities. We perform maintenance and make improvements on our centers and equipment throughout each year. We conduct a more thorough remodeling project at each center approximately every four to six years.

Table of Contents

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S., or GAAP, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Ultimate results could differ from those estimates. In recording transactions and balances resulting from business operations, we use estimates based on the best information available. We use estimates for such items as depreciable lives, volatility factors, expected lives and rate of return in determining fair value of option grants, probability of achieving performance targets, tax provisions and provisions for uncollectible receivables. We also use estimates for calculating the amortization period for deferred enrollment fee revenue and associated direct costs, which are based on the historical average expected life of center memberships. We revise the recorded estimates when better information is available, facts change or we can determine actual amounts. These revisions can affect operating results.

Our critical accounting policies and use of estimates are discussed in and should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for our three fiscal years ended December 31, 2008.

Table of Contents**Results of Operations**

The following table sets forth our statement of operations data as a percentage of total revenue and also sets forth other financial and operating data:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2009	2008	2009	2008
Revenue				
Center revenue				
Membership dues	67.6%	66.0%	67.1%	65.5%
Enrollment fees	3.1	3.5	3.1	3.4
In-center revenue	27.6	28.2	28.2	29.1
Total center revenue	98.3	97.7	98.4	98.0
Other revenue	1.7	2.3	1.6	2.0
Total revenue	100.0	100.0	100.0	100.0
Operating expenses				
Center operations	59.5	58.4	60.5	58.6
Advertising and marketing	2.7	3.7	3.2	4.1
General and administrative	4.5	4.8	5.2	5.3
Other operating	3.7	2.5	2.8	2.4
Depreciation and amortization	10.9	9.4	10.8	9.1
Total operating expenses	81.3	78.8	82.5	79.5
Income from operations	18.7	21.2	17.5	20.5
Other income (expense)				
Interest expense, net	(3.6)	(3.6)	(3.7)	(3.7)
Equity in earnings of affiliate	0.1	0.2	0.2	0.2
Total other income (expense)	(3.5)	(3.4)	(3.5)	(3.5)
Income before income taxes	15.2	17.8	14.0	17.0
Provision for income taxes	5.6	6.9	5.5	6.8
Net income	9.6%	10.9%	8.5%	10.2%
Other financial and operating data:				
Comparable center revenue growth 13 month (1)	(5.4%)	3.9%	(4.2%)	3.8%
Comparable center revenue growth 37 month (1)	(8.7%)	(1.9%)	(8.5%)	(1.9%)
Average revenue per membership	\$ 358	\$ 358	\$ 1,063	\$ 1,082
Average in-center revenue per membership	\$ 100	\$ 104	\$ 305	\$ 321
EBITDA (in thousands)	\$ 63,726	\$ 61,179	\$ 179,867	\$ 171,502

Edgar Filing: LIFE TIME FITNESS INC - Form 10-Q

EBITDA margin	29.7%	30.8%	28.4%	29.8%
Capital expenditures (in thousands)	\$ 25,128	\$ 124,974	\$ 116,853	\$ 360,551
Centers open at end of period	84	77	84	77
Number of memberships at end of period	590,716	557,164	590,716	557,164
Total center square footage at end of period				
(2)	8,445,689	7,645,989	8,445,689	7,645,989

(1) Membership dues, enrollment fees and in-center revenue for a center are included in *comparable center revenue growth 13 month* beginning on the first day of the thirteenth full calendar month of the center's operation and are included in *comparable center revenue growth 37 month* beginning on the first day of the thirty-seventh full calendar month of the center's operation, at which time it is considered a mature center.

(2) The square footage presented in this table reflects fitness square footage which is the best metric for the efficiencies of a facility. In a few of our centers,

we sublease space to third parties who operate our pro shop, salon or climbing wall or to hospitals or chiropractors that use the space to provide physical therapy. The square footage figures include those subleased areas. The square footage figures exclude areas used for tennis courts and outdoor swimming pools. These figures are approximations.

Table of Contents

Three Months Ended September 30, 2009 Compared to Three Months Ended September 30, 2008

Total revenue. Total revenue increased \$15.5 million, or 7.8%, to \$214.3 million for the three months ended September 30, 2009 from \$198.8 million for the three months ended September 30, 2008.

Total center revenue grew \$16.4 million, or 8.4%, to \$210.6 million for the three months ended September 30, 2009 from \$194.2 million for the three months ended September 30, 2008. Of the \$16.4 million increase in total center revenue,

83.0% was from membership dues, which increased \$13.6 million, or 10.4%, due to increased memberships at new centers. Our number of memberships increased 6.0% to 590,716 at September 30, 2009 from 557,164 at September 30, 2008.

18.2% was from in-center revenue, which increased \$3.0 million primarily as a result of increased sales of our LifeCafe products and services and personal training. Average in-center revenue per membership decreased from \$104 for the three months ended September 30, 2008 to \$100 for the three months ended September 30, 2009. We began to see slower in-center revenue growth in the second half of 2008 through the current period in 2009 due to the slower economy.

(1.2%) was from enrollment fees, which are deferred until a center opens and recognized on a straight-line basis over our estimated average life of a membership. Since the fourth quarter of 2008, the estimated average life of a membership has been 30 months. For the second and third quarters of 2008, it was 33 months, and for the first quarter of 2008 and prior, it was 36 months. Enrollment fees decreased by \$0.2 million for the three months ended September 30, 2009 to \$6.6 million. In 2008 and 2009, we lowered our enrollment fees to stimulate new membership demand.

Other revenue decreased \$0.9 million, or 18.8%, to \$3.7 million for the three months ended September 30, 2009, which was primarily due to lower media sales.

Center operations expenses. Center operations expenses totaled \$127.5 million, or 60.5% of total center revenue (or 59.5% of total revenue), for the three months ended September 30, 2009, compared to \$116.3 million, or 59.9% of total center revenue (or 58.4% of total revenue), for the three months ended September 30, 2008. This \$11.2 million increase primarily consisted of an increase of \$6.1 million in occupancy-related costs, including utilities, real estate taxes and rent on leased centers, \$1.7 million in additional payroll-related costs to support increased memberships at new centers and increases in membership acquisition costs and an increase in expenses to support in-center products and services. Center rent expense totaled \$9.9 million for the three months ended September 30, 2009 and \$6.5 million for the three months ended September 30, 2008. This \$3.4 million increase is primarily a result of the six sale-leaseback transactions that we entered into during the second half of 2008.

Advertising and marketing expenses. Advertising and marketing expenses were \$5.8 million, or 2.7% of total revenue, for the three months ended September 30, 2009 compared to \$7.3 million, or 3.7% of total revenue, for the three months ended September 30, 2008. These expenses decreased primarily due to less presale activity and more targeted and more market-specific marketing campaigns.

General and administrative expenses. General and administrative expenses were \$9.7 million, or 4.5% of total revenue, for the three months ended September 30, 2009 compared to \$9.5 million, or 4.8% of total revenue, for the three months ended September 30, 2008. This \$0.2 million increase was primarily due to increased costs to support the growth in memberships and the number of centers. These expenses decreased as a percentage of revenue primarily due to increased efficiencies and productivity improvements.

Other operating expenses. Other operating expenses were \$8.0 million for the three months ended September 30, 2009 compared to \$4.9 million for the three months ended September 30, 2008. This increase is primarily a result of construction-related expenses, costs associated with the expansion of our corporate wellness businesses and losses on the disposition of assets.

Depreciation and amortization. Depreciation and amortization was \$23.4 million for the three months ended September 30, 2009 compared to \$18.7 million for the three months ended September 30, 2008. This \$4.7 million increase was due primarily to depreciation on our new centers opened in 2008 and the first three quarters of 2009 and

the remodels of acquired clubs completed in 2008.

Table of Contents

Interest expense, net. Interest expense, net of interest income, was \$7.7 million for the three months ended September 30, 2009 compared to \$7.2 million for the three months ended September 30, 2008. This \$0.5 million increase was primarily the result of decreased capitalized interest on construction projects.

Provision for income taxes. The provision for income taxes was \$12.0 million for the three months ended September 30, 2009 compared to \$13.7 million for the three months ended September 30, 2008. This \$1.7 million decrease was due to a decrease in income before income taxes of \$2.6 million and a lower effective income tax rate in the third quarter of 2009. The effective income tax rate for the three months ended September 30, 2009 was 36.8% compared to 38.8% for the three months ended September 30, 2008.

Net income. As a result of the factors described above, net income was \$20.6 million, or 9.6% of total revenue, for the three months ended September 30, 2009 compared to \$21.6 million, or 10.9% of total revenue, for the three months ended September 30, 2008.

Nine Months ended September 30, 2009 Compared to Nine Months ended September 30, 2008

Total revenue. Total revenue increased \$57.6 million, or 10.0%, to \$633.3 million for the nine months ended September 30, 2009 from \$575.7 million for the nine months ended September 30, 2008.

Total center revenue grew \$59.0 million, or 10.5%, to \$623.4 million for the nine months ended September 30, 2009 from \$564.4 million for the nine months ended September 30, 2008. Of the \$59.0 million increase in total center revenue,

81.5% was from membership dues, which increased \$48.1 million, or 12.8%, due to increased memberships at new centers. Our number of memberships increased 6.0% to 590,716 at September 30, 2009 from 557,164 at September 30, 2008.

19.1% was from in-center revenue, which increased \$11.3 million primarily as a result of increased sales of our LifeCafe products and services and personal training. Average in-center revenue per membership decreased from \$321 for the nine months ended September 30, 2008 to \$305 for the nine months ended September 30, 2009. We began to see slower in-center revenue growth in the second half of 2008 through the current period in 2009 due to the slower economy.

(0.6%) was from enrollment fees, which are deferred until a center opens and recognized on a straight-line basis over our estimated average life of a membership. Since the fourth quarter of 2008, the estimated average life of a membership has been 30 months. For the second and third quarters of 2008, it was 33 months, and for the first quarter of 2008 and prior, it was 36 months. Enrollment fees decreased by \$0.4 million for the nine months ended September 30, 2009 to \$19.6 million. In 2008 and 2009, we lowered our enrollment fees to stimulate new membership demand.

Other revenue decreased \$1.4 million, or 12.1%, to \$9.9 million for the nine months ended September 30, 2009, which was primarily due to lower media sales.

Center operations expenses. Center operations expenses totaled \$383.3 million, or 61.5% of total center revenue (or 60.5% of total revenue), for the nine months ended September 30, 2009 compared to \$337.1 million, or 59.7% of total center revenue (or 58.6% of total revenue), for the nine months ended September 30, 2008. This \$46.2 million increase primarily consisted of an increase of \$20.0 million in occupancy-related costs, including utilities, real estate taxes and rent on leased centers, \$11.6 million in additional payroll-related costs to support increased memberships at new centers and increases in membership acquisition costs and an increase in expenses to support in-center products and services. Center rent expense totaled \$29.7 million for the nine months ended September 30, 2009 and \$16.9 million for the nine months ended September 30, 2008. This \$12.8 million increase is primarily a result of the six sale-leaseback transactions that we entered into during the second half of 2008.

Advertising and marketing expenses. Advertising and marketing expenses were \$20.1 million, or 3.2% of total revenue, for the nine months ended September 30, 2009 compared to \$23.6 million, or 4.1% of total revenue, for the nine months ended September 30, 2008. These expenses decreased primarily due less presale activity and more targeted and more market-specific marketing campaigns.

Table of Contents

General and administrative expenses. General and administrative expenses were \$33.2 million, or 5.2% of total revenue, for the nine months ended September 30, 2009 compared to \$30.7 million, or 5.3% of total revenue, for the nine months ended September 30, 2008. This \$2.5 million increase was primarily due to increased costs to support the growth in memberships and the number of centers and unabsorbed real estate and development overhead. These expenses decreased as a percentage of revenue primarily due to increased efficiencies and productivity improvements.

Other operating expenses. Other operating expenses were \$17.8 million for the nine months ended September 30, 2009 compared to \$13.7 million for the nine months ended September 30, 2008. This increase is primarily a result of construction-related expenses, costs associated with the expansion of our corporate wellness businesses and losses on the disposition of assets.

Depreciation and amortization. Depreciation and amortization was \$68.1 million for the nine months ended September 30, 2009 compared to \$52.5 million for the nine months ended September 30, 2008. This \$15.6 million increase was due primarily to depreciation on our new centers opened in 2008 and the first three quarters of 2009 and the remodels of acquired clubs completed in 2008.

Interest expense, net. Interest expense, net of interest income, was \$23.0 million for the nine months ended September 30, 2009 compared to \$21.3 million for the nine months ended September 30, 2008. This \$1.7 million increase was primarily the result of decreased capitalized interest on construction projects.

Provision for income taxes. The provision for income taxes was \$34.7 million for the nine months ended September 30, 2009 compared to \$38.9 million for the nine months ended September 30, 2008. This \$4.2 million decrease was primarily due to a decrease in income before income taxes of \$9.0 million. The effective income tax rate for the nine months ended September 30, 2009 was 39.1% compared to 39.8% for the nine months ended September 30, 2008.

Net income. As a result of the factors described above, net income was \$54.0 million, or 8.5% of total revenue, for the nine months ended September 30, 2009 compared to \$58.8 million, or 10.2% of total revenue, for the nine months ended September 30, 2008.

Liquidity and Capital Resources***Liquidity***

Historically, we have satisfied our liquidity needs through various debt and sale-leaseback arrangements, sales of equity and cash flow provided by operations. Principal liquidity needs have included the development of new centers, debt service requirements and expenditures necessary to maintain and update our existing centers and associated fitness equipment. We believe that we can satisfy our near-term debt service obligations and capital expenditure requirements with cash flow from operations. We believe that we can satisfy our longer-term debt service obligations and capital expenditure requirements with cash flow from operations, by the extension of the terms of or refinancing our existing debt facilities, through sale-leaseback transactions and by continuing to raise long-term debt or equity capital, although there can be no assurance that such actions can or will be completed. Our business model operates with negative working capital because we carry minimal accounts receivable due to our ability to have monthly membership dues paid by electronic draft, we defer enrollment fee revenue and we fund the construction of our new centers under standard arrangements with our vendors that are paid with proceeds from long-term debt.

Table of Contents

The following table summarizes our capital structure as of September 30, 2009 and December 31, 2008 (in thousands).

	September 30, 2009	December 31, 2008
Debt		
Long-term debt	\$ 671,165	\$ 702,569
Current maturities of long-term debt	12,130	10,335
Total debt	683,295	712,904
Shareholders' Equity		
Common stock	828	793
Additional paid-in capital	393,864	385,095
Retained earnings	325,718	271,711
Accumulated other comprehensive loss	(3,366)	(4,698)
Total shareholders' equity	717,044	652,901
Total capitalization	\$ 1,400,339	\$ 1,365,805

Debt highlights, as of September 30, 2009 and December 31, 2008:

	September 30, 2009	December 31, 2008
Fixed-rate debt as a percent of total debt	56.7%	54.6%
Weighted-average annual interest rate of total debt	3.7%	4.5%
Total debt (net of cash) as a percent of total capitalization (total debt (net of cash) and total shareholders' equity)	48.5%	51.8%
Cash provided by operating activities (trailing twelve months) as a percent of total debt	26.1%	25.7%

Operating Activities

As of September 30, 2009, we had total cash and cash equivalents of \$8.1 million. We also had \$72.3 million available under the existing terms of our revolving credit facility as of September 30, 2009.

Net cash provided by operating activities was \$138.6 million for the nine months ended September 30, 2009 compared to \$143.5 million for the nine months ended September 30, 2008.

Investing Activities

Investing activities consist primarily of purchasing real property, constructing new centers and purchasing new fitness equipment. In addition, we invest in capital expenditures to maintain and update our existing centers. We plan to finance the purchase of our property and equipment in the near-term through cash flow from operations. We plan to finance the purchase of our property and equipment in the longer-term through cash flow from operations, by the extension of the terms of or refinancing our existing debt facilities, through sale-leaseback transactions and by continuing to raise long-term debt or equity capital.

Net cash used in investing activities was \$115.6 million for the nine months ended September 30, 2009 compared to \$207.3 million for the nine months ended September 30, 2008. The decrease of \$91.7 million was primarily due to the reduced number of centers we currently plan to open.

Table of Contents

Our capital expenditures were as follows (in thousands):

	For the Nine Months Ended September 30,	
	2009	2008
Purchases of property and equipment	\$ 116,853	\$ 360,551
Non-cash property and equipment financed through capital lease obligations		12,294
Changes in construction accounts payable and accounts payable related to property and equipment	(52,335)	28,909
Non-cash share-based compensation capitalized to projects under development	319	552
Total capital expenditures	\$ 64,837	\$ 402,306

The following schedule reflects capital expenditures by type of expenditure for the nine months ended September 30, 2009 (in thousands):

New center building and construction on clubs opened in 2008 and 2009	\$ 27,786
New center building and construction on clubs to be opened in 2010 and beyond	15,435
Updating existing centers and corporate infrastructure	21,616
Total capital expenditures	\$ 64,837

At October 30, 2009, we had purchased the real property for two and entered into a ground lease for one of the three large format centers we plan to open in 2010, and we had purchased real property for four large format centers that we plan to open after 2010. Construction in progress, including land purchased for future development, totaled \$120.7 million at September 30, 2009 and \$285.1 million at September 30, 2008.

We expect our cash outlays for capital expenditures to be approximately \$140 to \$150 million in 2009, including approximately \$23 to \$33 million in the remaining three months of 2009. Of this approximately \$23 to \$33 million, we expect to incur approximately \$18 to \$23 million for new center construction and approximately \$5 to \$10 million for the updating of existing centers and corporate infrastructure. We plan to fund these capital expenditures primarily with cash flow from operations.

Financing Activities

Net cash used in financing activities was \$25.7 million for the nine months ended September 30, 2009 compared to net cash provided by financing activities of \$65.6 million for the nine months ended September 30, 2008. The decrease of \$39.9 million was primarily due to payments made on our revolving credit facility.

Long-term debt consists of the following (in thousands):

	September 30, 2009	December 31, 2008
Term notes payable to insurance company, monthly interest and principal payments totaling \$1,273 including interest at 8.25% to June 2011	\$ 107,150	\$ 111,812
Revolving credit facility, interest only due monthly at interest rates ranging from LIBOR plus 0.625% to 1.50% or base plus 0.0%, facility expires May 2012	387,000	414,600
Term notes payable with monthly interest and principal payments totaling \$632 including interest at 6.03% to February 2017	101,763	102,752
Other	68,453	64,056

Edgar Filing: LIFE TIME FITNESS INC - Form 10-Q

Total debt (excluding obligations under capital leases)	664,366	693,220
Obligations under capital leases	18,929	19,684
Total debt	683,295	712,904
Less current maturities	12,130	10,335
Total long-term debt	\$ 671,165	\$ 702,569

Table of Contents*Revolving Credit Facility*

The amount of our revolving credit facility is \$470.0 million. We may increase the total amount of the facility up to \$600.0 million through further exercise of the accordion feature by us if one or more lenders commit the additional \$130.0 million. As of September 30, 2009, \$387.0 million was outstanding on the facility, plus \$10.7 million related to letters of credit, leaving \$72.3 million available for additional borrowing under the existing terms of the facility. The weighted average interest rate and debt outstanding under the revolving credit facility for the nine months ended September 30, 2009 was 2.1% and \$382.2 million, respectively. The weighted average interest rate and debt outstanding under the revolving credit facility for the nine months ended September 30, 2008 was 4.4% and \$364.1 million, respectively.

New Long-Term Debt

In March 2009, we financed one Minnesota center using an obligation bearing interest at a fixed rate of 6.25% amortized over a 15-year period. This obligation is due in full in March 2014. As security for the obligation, we have granted a mortgage on this center. As of September 30, 2009, \$4.7 million was outstanding with respect to this obligation.

In May 2009, we financed one Minnesota center using an obligation bearing interest at a rate of 7.10%, to be reset in May 2014 and May 2019 using the five-year LIBOR swap rate plus 4.50%, with a 6.00% floor, and amortized over a 20-year period. This obligation is due in full in May 2024. As security for the obligation, we have granted a mortgage on this center. As of September 30, 2009, \$3.0 million was outstanding with respect to this obligation.

Debt Covenants

We are in compliance in all material respects with all restrictive and financial covenants under our various credit facilities as of September 30, 2009.

Our primary financial covenants under our revolving credit facility are:

Covenant	Requirement	Actual as of September 30, 2009	Actual as of December 31, 2008
Total Consolidated Debt to EBITDAR	Not more than 4.00 to 1.0	3.45 to 1.0	3.51 to 1.0
Senior Debt to EBITDA	Not more than 3.25 to 1.0	2.02 to 1.0	2.22 to 1.0
Fixed Charge Coverage Ratio	Not less than 1.60	2.62 to 1.0	3.16 to 1.0

The formulas for these covenants are specifically defined in the revolving credit facility and include, among other things, an add back of share-based compensation expense to EBITDAR and EBITDA.

The Fixed Charge Coverage Ratio decrease of 0.54 from December 31, 2008 to September 30, 2009 was primarily due to additional rent expense from the six sale-leaseback transactions that we entered into during the second half of 2008.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We invest our excess cash in highly liquid short-term investments. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our cash and cash equivalents and our interest expense on floating-rate indebtedness and therefore, impact our consolidated cash flows and consolidated results of operations. As of September 30, 2009 and December 31, 2008, our net floating-rate indebtedness was approximately \$301.2 million and \$323.8 million, respectively. If our interest rates on our floating-rate indebtedness were to have increased by 100 basis points during the nine months ended September 30, 2009, our interest costs would have increased by approximately \$1.6 million. If short-term interest rates were to have increased by 100 basis points during the nine months ended September 30, 2009, our interest income from cash equivalents would have increased by less than \$0.1 million. These amounts are determined by considering the impact of the hypothetical interest rates on our floating-rate indebtedness and cash equivalents balances at September 30, 2009.

Table of Contents**Item 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including the principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
