Item 1.01. Entry Into A Definitive Material Agreement.

Peabody Energy Corporation (Peabody) has an accounts receivable securitization program through its wholly owned, bankruptcy remote subsidiary, P&L Receivables Company, LLC (Seller). Under the program, Peabody contributes a pool of eligible trade receivables to the Seller, which then sells, without recourse, to Market Street Funding LLC, a multi-seller, asset-backed commercial paper conduit (Conduit). Purchases by the Conduit are financed with the sale of highly rated commercial paper.

On December 15, 2009, the receivables purchase agreement for the program was amended and restated (a) in order for the Seller to sell receivables rather than an undivided variable percentage interest in a pool of receivables, (b) to increase from \$25 million to \$50 million the amount of indebtedness which must be evidenced by a Peabody financing arrangement with respect to which notice of a default must be given to the Administrator of the program, (c) to modify the requirements relating to the qualifications and conduct of the independent director of the Seller, (d) to provide Peabody and the Seller with additional flexibility to disclose documentation relating to the program to other financial institutions in connection with any future replacement receivables securitization facility, (e) to reflect the conversion of certain of the originators of the receivables to limited liability companies and their associated name changes, (f) to incorporate amendments made to the receivables purchase agreement since the date of its last restatement as of September 30, 2005, and (g) to make certain other changes contained in the exhibit referenced below.

The foregoing description is only a summary of certain provisions of the amended and restated receivables purchase agreement, and is qualified in its entirety by reference to the amended and restated receivables purchase agreement itself, which is filed as Exhibit 10.1 hereto and which is incorporated by reference herein.
