**PROXY STATEMENT**

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of MKS Instruments, Inc., a Massachusetts corporation, for use at the 2010 Annual Meeting of Shareholders to be held on May 3, 2010, at 10:00 a.m. at the Wyndham Boston Andover Hotel, 123 Old River Road, Andover, Massachusetts 01810, and at any adjournment or postponement thereof (the Annual Meeting). References in this proxy statement to we, us, the Company or MKS refer to MKS Instruments, Inc. and its consolidated subsidiaries.

All proxies will be voted in accordance with the shareholders' instructions. If no choice is specified in the proxy, the shares will be voted in favor of the matters set forth in the accompanying Notice of 2010 Annual Meeting of Shareholders. Any proxy may be revoked by a shareholder at any time before its exercise by delivery of written revocation to the Secretary of MKS. Attendance at the Annual Meeting will not in itself be deemed to revoke a proxy unless the shareholder gives affirmative notice at the Annual Meeting that the shareholder intends to revoke the proxy and vote in person.

**VOTING SECURITIES AND VOTES REQUIRED**

At the close of business on March 4, 2010, the record date for the determination of shareholders entitled to notice of and to vote at the Annual Meeting, there were issued and outstanding and entitled to vote 49,545,671 shares of our common stock, no par value per share (the Common Stock). Each outstanding share entitles the record holder to one vote on each matter submitted at the Annual Meeting.

In order to transact business at the Annual Meeting, we must have a quorum. Under our Amended and Restated By-Laws, the holders of a majority of the shares of Common Stock issued and outstanding and entitled to vote at the Annual Meeting shall constitute a quorum for the transaction of business at the Annual Meeting. Shares of Common Stock present in person or represented by proxy (including broker non-votes and shares that abstain or do not vote with respect to a particular proposal to be voted upon) will be counted for purposes of determining whether a quorum exists at the Annual Meeting.

The affirmative vote of the holders of a plurality of the shares of Common Stock voting on the matter is required for the election of directors. The ratification of PricewaterhouseCoopers LLP, or PwC, requires the approval of the holders of a majority of the shares of Common Stock present or represented by proxy at the Annual Meeting and voting on the matter.

Shares held by shareholders who abstain from voting as to a particular matter, and broker non-votes, which are shares held in street name by banks, brokers or nominees, who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular non-routine matter, including the election of directors, will not be counted as votes in favor of such matter. Accordingly, abstentions and broker non-votes will have no effect on the voting on a matter that requires the affirmative vote of a certain percentage of the shares voting on the matter. If the shares you own are held in street name by a bank or brokerage firm, your bank or brokerage firm, as the record holder of your shares, is required to vote your shares according to your instructions. In order to vote your shares, you will need to follow the directions your bank or brokerage firm provides you.

Mr. Hanley has served as a director of Crossing Automation since January 2010, and has served as a director of a non-profit organization since 2008. From 2004 to May 2007, Mr. Hanley served as a director of Thermawave, Inc., a developer of process control metrology systems used in the manufacture of semiconductors, which was sold to KLA Tencor. Mr. Hanley's substantial background in the semiconductor industry, for more than 25 years, including senior management roles at Novellus and Applied Materials, two of MKS' largest customers, provides the Board of Directors with invaluable insights into the industry's sales and marketing challenges and opportunities.

*Hans-Jochen Kahl*

Mr. Kahl has served as our director since January 2001. From June 1994 through September 1996, Mr. Kahl served as a consultant to Ebara, a Japanese manufacturer of industrial water pumps and vacuum process equipment for the semiconductor industry. Mr. Kahl was employed by Leybold AG, formerly Leybold-Heraeus GmbH, a leading international manufacturer of vacuum pumps and other vacuum process equipment for the semiconductor industry, from July 1983 to March 1992, where he served as a managing director and was primarily responsible for sales, marketing and strategic planning. From September 1995 to November 2000, he was a director of Applied Science and Technology, Inc. (ASTeX) which was acquired by MKS. Mr. Kahl has served as a director of Solid State Management, a privately held manufacturer of high precision measurement tools since November 1996. Mr. Kahl's widespread experience in the semiconductor industry provides him with valuable insight into the operational and strategic issues facing our industry.

*Louis P. Valente*

Mr. Valente has served as our director since February 1996. Mr. Valente has served as Chairman of Palomar Medical Technologies, Inc., a company which designs, manufactures and markets cosmetic lasers, since September 1997. Chief Executive Officer from May 1997 to May 2002. From 1968 to 1995, Mr. Valente held numerous positions at Perkin Elmer, Inc. (formerly EG&G, Inc.), a provider of drug discovery, research and clinical screening products, services and technologies for the life science industry. Initially, he was an Assistant Controller and later Corporate Treasurer, before becoming Senior Vice President of EG&G, Inc., presiding over and negotiating acquisitions, mergers and investments. Mr. Valente has served as a director of Medical Information Technology, Inc. since 1972. He served as a director of Surgilight, Inc., from July 2001 to October 2008, and as a director of Patient Care Technologies, Inc. from 1992 to April 2007. Mr. Valente is a certified public accountant and a graduate of Bentley University. Mr. Valente's experience at the helm of a public corporation, in addition to his extensive acquisition and financial background, offers the Board of Directors a combination of valuable skill sets.

## **Agreements as to Nomination**

Mr. Bertucci resigned from his employment with MKS effective December 31, 2006. Mr. Bertucci's employment agreement provided that if Mr. Bertucci resigned from his employment, then, subject to applicable law, our Amended and Restated By-Laws and articles of organization and the directors' fiduciary duties, the Board of Directors shall nominate Mr. Bertucci for election as a Class III director and consider Mr. Bertucci for appointment as Chairman of the Board of Directors, until such time as Mr. Bertucci is no longer eligible for nomination as a director.

## **CORPORATE GOVERNANCE**

### **Board Independence**

The Board of Directors has determined that all of the members of the Board of Directors, other than Mr. Bertucci and Mr. Berlinghieri, are independent as defined under the rules of the NASDAQ Stock Market.

In determining Mr. Hanley's independence, the Board of Directors considered Mr. Hanley's past and current relationship with Novellus, a significant customer of MKS. The Board of Directors considered such factors including, but not limited to, the fact that Mr. Hanley is not a significant shareholder of Novellus and has not been an executive officer of Novellus since December 2003, and that Mr. Hanley's current role and compensation as an occasional consultant to Novellus does not relate in any way to relationships with that company's suppliers in general or with us in particular.

### **Board Leadership Structure**

Since 2005, we have separated the roles of CEO and Chairman of the Board of Directors in recognition of the differences between the two roles. The CEO is responsible for setting the strategic direction for the Company and the day-to-day leadership and performance of the Company, while the Chairman of the Board of Directors provides guidance to the CEO, sets the agenda for Board meetings and presides over meetings of the full Board.

In addition, the Board of Directors has established the position of Lead Director. Our Corporate Governance Guidelines provide that during any period in which the Chairman of the Board of Directors is not an independent director, a Lead Director shall be elected by and from the independent directors. The primary role of the Lead Director is to serve as a liaison between the independent directors and the Chairman of the Board of Directors and the Chief Executive Officer and to represent the interest of the independent directors, as appropriate. Louis P. Valente was elected the first Lead Director in 2008, and was reappointed in 2009. Pursuant to our Corporate Governance Guidelines (which are posted on our website at [www.mksinstruments.com](http://www.mksinstruments.com) in the Corporate Governance Section under the Investors tab), the Lead Director shall, among other matters:

Have the authority to call meetings of the independent directors.

Preside at all meetings of the Board of Directors at which the Chairman of the Board of Directors is not present, including executive sessions of the independent directors.

Assure that at least two meetings per year of only the independent directors are held and chair any such meetings of the independent directors.

## **Table of Contents**

Facilitate communications and serve as a liaison between the independent directors and the Chairman of the Board of Directors and the Chief Executive Officer, provided that any director is free to communicate directly with the Chairman of the Board of Directors and with the Chief Executive Officer.

Work with the Chairman of the Board of Directors and the Chief Executive Officer in the preparation of the agenda for each Board of Directors meeting and approve each such agenda.

Oversee, in conjunction with the Nominating and Corporate Governance Committee, the annual reviews of the performances of the members of the Board of Directors.

If a meeting is held between a major stockholder and a representative of the independent directors, the Lead Director shall serve, subject to availability, as such representative of the independent directors.

Otherwise consult with the Chairman of the Board of Directors and the Chief Executive Officer on matters relating to corporate governance and performance of the Board of Directors.

Our Board of Directors believes that its leadership structure is appropriate because it strikes an effective balance between management and independent leadership participation in the Board of Directors process.

## **Board's Role in Risk Oversight**

Management is responsible for the day-to-day management of risks the Company faces, while the Board of Directors, as a whole and through its committees, has the ultimate responsibility for the oversight of risk management. Senior management attends quarterly meetings of the Board of Directors, provides presentations on operations including significant risks, and is available to address any questions or concerns raised by the Board of Directors. Additionally, our three board committees assist the Board of Directors in fulfilling its oversight responsibilities in certain areas of risk. Pursuant to its charter, the Audit Committee coordinates the Board of Directors' oversight of the Company's internal control over financial reporting, disclosure controls and procedures and code of conduct. Management regularly reports to the Audit Committee on these areas. The Compensation Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs as well as succession planning as it relates to our Chief Executive Officer. The Nominating and Corporate Governance Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and corporate governance. When any of the committees receives a report related to material risk oversight, the Chairman of the relevant committee reports on the discussion to the full Board of Directors.

## **Board of Director Meetings and Committees of the Board of Directors**

The Board of Directors held four meetings in 2009. Each director attended at least 75% of the aggregate of the total number of meetings of the Board of Directors and the total number of meetings of all committees of the Board of Directors on which he or she served. Pursuant to our Corporate Governance Guidelines, directors are encouraged to attend annual meetings of shareholders. All of the directors then serving on the Board of Directors other than Mr. Kahl attended the 2009 Annual Meeting of Shareholders.

The Board of Directors has established three standing committees – Audit, Compensation and Nominating and Corporate Governance – each of which operates under a charter that has been approved by the Board of Directors. Each committee's current charter is posted under the Investors tab on our website, [www.mksinstruments.com](http://www.mksinstruments.com), under the heading Corporate Governance.

### **Audit Committee Financial Expert**

The Board of Directors has determined that each of the three members of the Audit Committee is an audit committee financial expert as defined in Item 407(d)(5) of Regulation S-K.

### **Director Candidates**

The Nominating and Corporate Governance Committee recommended to the Board of Directors that the director nominees be nominated by the Board of Directors for election as Class II directors. The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by the Committee members of the Committee and the Board of Directors.

In considering whether to recommend any particular candidate for inclusion in the Board of Directors' slate of recommended director nominees, the Nominating and Corporate Governance Committee applies the criteria attached to the Committee's charter. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry, experience, diligence, conflicts of interest and the ability to act in the interests of all shareholders. Nominees should generally be under the age of 75 at the time of nomination. The Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. Nominees shall not be discriminated against on the basis of race, religion, national origin, sex, sexual orientation, disability or any other basis prescribed by law. In considering director candidates, the Committee takes into account the value of diversity on the Board. While the Nominating and Corporate Governance Committee does not have a formal policy with respect to diversity, the Board and the Committee believe that it is essential that the Board members represent diverse viewpoints. In considering candidates for the Board, the Nominating and Corporate Governance Committee considers the entirety of each candidate's credentials in the context of these standards. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the Board of Directors to fulfill its responsibilities.

Shareholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the shareholder or group of shareholders making the recommendation has beneficially owned more than 5% of our Company's Common Stock for at least a year as of the date such recommendation is made, to the Nominating and Corporate Governance Committee, in care of Kathleen F. Burke, Esq., General Counsel, MKS Instruments, Inc., 2 Tech Drive, Suite 201, Andover, MA 01810. Assuming that appropriate biographical and background material has been provided on a timely basis, the Nominating and Corporate Governance Committee will evaluate shareholder-recommended candidates by following substantially the same process, and applying the same criteria, as it does in considering other candidates.

Shareholders also have the right under our Amended and Restated By-Laws to directly nominate director candidates, without any action or recommendation on the part of the Nominating and Corporate Governance Committee or the Board of Directors, by following the procedures set forth under the heading "Deadline for Submission of Shareholder Proposals for the 2010 Annual Meeting" below.

### **Communications from Shareholders**

The Board of Directors will give appropriate attention to written communications that are submitted by shareholders, and will respond if appropriate. The Chairman of the Nominating and Corporate Governance Committee, with the assistance of our General Counsel, is primarily responsible for monitoring communications from shareholders and for

providing copies or summaries to the other directors as he considers appropriate. Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the Chairman of the Nominating and Corporate Governance Committee considers to be important for the directors to know. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

## **Table of Contents**

Shareholders who wish to send communications on any topic to the Board of Directors should address such communications to the Board of Directors in care of Kathleen F. Burke, Esq., General Counsel, MKS Instruments, Inc., 2 Tech Drive, Suite 201, Andover, MA 01810.

**EXECUTIVE COMPENSATION**

**Compensation Discussion and Analysis**

*Compensation Philosophy and Objectives*

The primary objective of our executive compensation program is to attract, retain and motivate the critical talent that is required to execute our business strategy and lead us to achieve our long-term growth and earnings goals. This section summarizes our compensation philosophy and objectives relating to our principal executive officer, principal

financial officer, and each of the three other most highly compensated executive officers (collectively, the Named Executive Officers ).

As addressed in greater detail below, as part of our effort to reduce costs during the recent economic slowdown, beginning in 2008 and continuing into the first half of 2009, the Compensation Committee temporarily reduced the

**Table of Contents**

salaries of our Named Executive Officers from their respective 2008 levels. Similarly, in 2009, the Compensation Committee decreased the number of shares typically subject to the Named Executive Officers' annual equity grants and did not implement a Management Incentive Bonus Plan for Named Executive Officers. In addition, Named Executive Officers shared in corporate-wide cost-saving measures such as mandatory corporate shut-downs, and the temporary cessation of employee stock purchase plans and 401(k) corporate matches. It is the Company's philosophy that during severe downturns, the Company's executive officers should share in the corporate belt-tightening. On October 29, 2009, with signs of some recovery in the semiconductor industry, the temporary salary reductions of the Named Executive Officers were lifted, and salaries were returned to their original 2008 levels, retroactive to July 1, 2009.

Our executive compensation program is guided by the following principles:

- Offer compensation programs that are competitive with programs at companies of similar size and in a similar industry.
- Reward individual initiative, leadership and achievement.
- Provide short-term annual performance bonus incentives for management to meet or exceed our earnings goals.
- Provide long-term equity incentive compensation, such as stock options, restricted stock and restricted stock units, or RSUs, to encourage management to focus on shareholder return.
- Emphasize our pay-for-performance philosophy.

The Company's executive compensation program is designed to provide an overall compensation package that is competitive, on a position-by-position basis, when benchmarked against that of comparable companies, while factoring in an executive's individual performance, tenure and potential with the Company. The differentiation in compensation among the executive officers reflects the relative value that the market places on these positions, as well as each individual's performance, tenure and potential with the Company. Our goal is to use executive compensation programs to closely align the interests of our management with the interests of shareholders so that our management has incentives to achieve short-term performance goals while building long-term value for our shareholders. We will review our executive compensation programs from time to time in order to determine their competitiveness, and to take into account factors that are unique to us.

***Elements of Compensation***

The following summarizes the compensation elements for our Named Executive Officers. We benchmark each of the various compensation elements, including salary, short-term incentives, and long-term incentives, to the median levels for the individual position in the market. In considering the compensation of an executive relative to the market level, we look qualitatively at the individual's overall performance, tenure and potential with the Company. Currently, not taking into account the temporary salary reductions in effect, all of our Named Executive Officers are paid in the range of, or slightly below the range of, their competitive market.

***Base Salary***

Base salaries are designed to provide executives with a level of predictability and stability with respect to a portion of their total compensation package. In establishing base salaries for executive officers, the Compensation Committee considers the executive's responsibilities, performance, historical salary levels, internal equity among executives and the base salaries of executives at comparable companies and, with respect to salaries other than that of the Chief

Executive Officer, the Chief Executive Officer's recommendations. As part of our effort to reduce costs during the recent economic slowdown, the Compensation Committee temporarily reduced the salaries of our Named Executive Officers through the first half of 2009. In August 2008, the base salary of Mr. Berlinghieri, our President and Chief Executive Officer, was temporarily decreased by 10% and the base salaries of the other Named Executive Officers were decreased by 5%. In January 2009, the Compensation Committee further reduced the base salary of Mr. Berlinghieri, resulting in an aggregate reduction of 20% from its original 2008 level, and further reduced the salaries of the other Named Executive Officers, resulting in an aggregate reduction of 10% from their

**Table of Contents**

respective original 2008 levels. The Compensation Committee sought to make the temporary reductions reasonable in light of the economic circumstances, in order to align Named Executive Officers' incentives with the interests of shareholders, while not sacrificing the retentive value of the overall long-term compensation package. On October 19, 2009, the temporary reductions were lifted, and salaries were returned to their original 2008 levels, retroactive to July 1, 2009.

*Short-term Incentives*

Our Management Incentive Bonus Plan provides a short-term incentive to reward management for reaching our overall earnings goals and those of certain product groups and to reinforce our pay-for-performance philosophy. We believe that our bonus plan provides significant incentive to the executive officers to exceed our financial goals. Because of the unique market conditions in 2009 caused by the global economic crisis, we elected not to implement our Management Incentive Bonus Plan in 2009. However, in typical years, each executive would be eligible for an annual performance bonus calculated based on a specified target percentage of base salary, called an Individual Incentive Target. In 2008, the Individual Incentive Targets were 100% of base salary for Mr. Berlinghieri, 65% of base salary for Mr. Colella, 55% of base salary for Mr. Lee and 50% of base salary for Messrs. Smith and Weigner. The maximum bonus payout possible was 200% of this Individual Incentive Target and the minimum payout was zero, with incremental pay-outs for performance between these levels. For Named Executive Officers other than Mr. Lee, annual performance bonuses were based solely upon achievement of specific corporate pro-forma, pre-tax earning goals. In 2008, participants would not receive any portion of their corporate-based bonus if the Company's operating income after bonus and before tax was \$80,000,000 or less, and participants would receive the maximum amount of their corporate-based bonus if such pro-forma operating income was \$227,666,000 or more.

Historically, for executives who headed up a product group, a portion of the bonus would be tied to product group targets. For example, for Mr. Lee, who is the Vice President of a product group, 70% of his 2008 bonus was based on the achievement of the corporate objective, while 30% was based on the achievement of annual earnings goals for his product group. Achievement of the product group based portion of the bonus has fluctuated significantly in the years since these incentives were first initiated. In 2010, the Company decided to eliminate the product group target portion of the bonus for executives focusing solely on the corporate objective, which the Company believes eliminates complexity and more closely aligns all executives' interests with those of the shareholders.

The corporate element of the bonus plan formula is calculated as follows:

Base Salary x Individual Incentive Target x Corporate Performance Multiplier

The Corporate Performance Multiplier in 2008 and in 2010 ranged from 0% for achievement below the specified minimum corporate goal, up to 200% for achievement of the maximum corporate goal. Accordingly, the maximum payout possible for each executive was 200% of his Individual Incentive Target and the minimum payout was zero, with incremental payouts for performance between these levels.

For 2008, the most recent year that we had an active Management Incentive Bonus Plan, the minimum threshold targets were not achieved and we paid no bonus to the Named Executive Officers. Since institution of the Management Incentive Bonus plan, achievement has varied widely, from no payment to the full 200%. The average achievement of the plan from its institution in 1997 through 2008 is approximately 65%. While the Company endeavors to set reasonable, but challenging targets for the plan each year, consistent achievement is particularly challenging in the semiconductor industry, which is subject to wide, and often unpredictable demand shifts.

*Long-Term Incentive Compensation*

We provide executives with long-term incentive compensation, in the form of stock options, restricted stock and RSUs in order to:

Align executives' interests with those of the shareholders by allowing executives to share in appreciation in the value of our Common Stock.

**Table of Contents**

Balance the short-term focus of annual short-term incentive compensation with a longer term reward for appreciating our value.

Retain executives because equity-based compensation vests over time.

Prior to 2006, we issued primarily stock options. In 2006, we issued restricted stock and in 2007, we began to issue RSUs. We believe that RSUs are attractive because they help ensure executives' interests are aligned with shareholders in both a rising and a declining stock market. We believe RSUs are preferable to options, which have a relatively high accounting cost as compared to their potential value to the executive and preferable to restricted stock, which gives the executive voting rights prior to full vesting. The Named Executive Officers receive at least half of their total equity grant value in the form of performance-based RSUs and the remainder in the form of time-based RSUs, to further our pay-for-performance philosophy. Typically, the performance objectives for our equity grants relate to corporate operating income objectives. However, in 2009, due to the unusual economic conditions, our performance objectives related to achievement of 2009 corporate cash break-even levels to motivate executives to control costs during the downturn. Our RSUs vest in equal annual installments over three years, subject to achievement of the performance goal with respect to the performance-based portion.

When establishing equity grant levels, the Compensation Committee considers general corporate performance and material economic conditions, comparable company grants to comparable executives, executive seniority and experience, the dilutive impact of the grants, previous grant history for each executive, vesting schedules of outstanding equity-based grants, the current stock price and individual contributions to our financial, operational and strategic objectives and, with respect to grants made to individuals other than the Chief Executive Officer, the Chief Executive Officer's recommendations.

It is our practice to make an initial equity-based grant to all executives at the time they commence employment, in an amount that is consistent with those granted to executive officers in the industry at similar levels of seniority. In addition, we typically make an annual grant of equity-based compensation to executives during the first fiscal quarter of each year. Discretionary equity-based grants may be made throughout the year to provide an incentive to achieve a specific goal or to reward a significant achievement.

*Retirement Benefits*

Pursuant to employment agreements, we provide supplemental retirement benefits to certain executives, including Messrs. Berlinghieri, Colella, Smith and Weigner. These supplemental benefits are designed to reward long service with us and to serve as a significant incentive for these executives to remain with us. In addition, these benefits are designed to provide for supplemental retirement benefits for executives that are not available under our company-wide employee benefit plans due to regulatory limitations on benefit accruals.

In addition, we also provide retiree medical benefits to Messrs. Berlinghieri, Colella and Weigner, and their respective spouses, for their lifetimes, upon meeting specified criteria. This benefit was designed to retain these executives over the long-term from the time that the benefit is first granted to the executive because it is contingent upon the executive maintaining his employment with us until age 62, with specified exceptions.

*Perquisites*

We offer certain perquisites to the Named Executive Officers to allow executives to focus on corporate strategy and enhancing shareholder value, to provide competitive pay packages and, in certain circumstances, to entertain customers. Examples of these perquisites are car payments, health cost reimbursements and club memberships.

*Severance and Change-in-Control Provisions*

We have entered into employment agreements with each of the Named Executive Officers (other than Mr. Lee, who is a California resident), providing for certain severance provisions and benefits associated with various termination scenarios and restricting the officers' ability to compete with us during and following the termination of employment. In addition, restricted stock agreements and RSU agreements with the Named Executive Officers provide for certain vesting acceleration in the event of a change-in-control. The severance and change-in-control provisions are designed to be competitive in the marketplace, to provide security for Named Executive Officers in

the event that we are acquired and his respective position is impacted and to provide an incentive for the executive to stay with the Company through such a change in control event. They are also intended to protect us from competitive harm by compensating the Named Executive Officers for agreeing to substantial non-compete provisions after termination.

### *Compensation Consultant; Market Comparison*

The Company engages a compensation consultant to serve as an independent advisor to the Compensation Committee regarding compensation for the Board of Directors and our executives. In recent years, the Compensation Committee has periodically engaged Radford Surveys and Consulting, or Radford, as its consultant. The Compensation Committee utilizes the consultant in three ways:

to provide the Company with occasional consultation regarding compensation compliance and strategies;

to provide annual benchmarking compensation data; and

to conduct, from time to time, formal competitive compensation analysis for the Compensation Committee regarding each executive, on a position-by-position basis, and the Board of Directors.

In 2009, the Compensation Committee engaged Radford to conduct a formal competitive analysis of our compensation for the Board of Directors, and also used data from Radford's standard subscription services for its executive compensation analysis.

### *Role of Company Executives*

The Chief Executive Officer reviews the performance of all of the other executive officers with the Compensation Committee and makes recommendations relating to executive compensation of such executives. Management develops proposed goals for review and approval by the Compensation Committee for the annual performance bonus and performance-based equity, develops proposals relating to potential changes in compensation programs for review and approval by the Compensation Committee and provides the Compensation Committee and advisors with information necessary to evaluate and implement compensation proposals and programs.

## **Impact of Accounting and Tax on the Form of Compensation**

### *Impact of Code Section 162(m)*

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for certain compensation in excess of \$1.0 million per person paid to such company's chief executive officer and other executive officers whose compensation is required to be reported to shareholders pursuant to the Securities Exchange Act of 1934, as amended, by reason of being among the four most highly paid executive officers. Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. The Compensation Committee reviews the potential effect of Section 162(m) periodically and generally seeks to structure the compensation granted to its executive officers in a manner that is intended to avoid disallowance of deductions under Section 162(m). However, because neither our 2004 Stock Incentive Plan (other than with respect to stock options) nor our Management Incentive Bonus Plan is designed to qualify as performance-based compensation under Section 162(m), it is possible that a portion of any bonus payable to, or compensation arising under equity awards (other than stock options) granted to, the Chief Executive Officer and certain other executives will not be deductible for federal income tax purposes. The Compensation Committee reserves the right to use its judgment to authorize compensation payments which may be in excess of the

Section 162(m) limit when the Committee believes such payments are appropriate, after taking into consideration changing business conditions or the officer's performance, and are in the best interests of the shareholders.

**Table of Contents***Impact of ASC 718*

The Compensation Committee has considered the impact of the Financial Accounting Standards Board ( FASB ) Accounting Standards Codification ( ASC ) 718 (formerly SFAS 123R), on our use of equity incentives as a key retention tool. Because of the significant cost associated with options under ASC 718 as compared to the potential value delivered, the Compensation Committee elected to grant more efficient equity instruments instead of stock options. Accordingly, it granted to executives restricted stock in 2006 and RSUs beginning in 2007. The Compensation Committee will regularly review its choice of equity instruments taking into account both tax and accounting considerations.

**COMPENSATION COMMITTEE REPORT**

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement on Schedule 14A.

Respectfully submitted,

Robert R. Anderson, Chairman  
Peter R. Hanley  
Louis P. Valente

The Compensation Committee Report shall not be deemed incorporated by reference by any general statement incorporating this proxy statement into any filing under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under such Acts.

- (1) Amounts listed in 2009 represent a cash bonus equal to approximately three days pay, which was made to all U.S. employees in December 2009.
- (2) Represents the grant date fair value for each restricted stock unit granted to the executive officer during the covered year, calculated in accordance with FASB ASC Topic 718 (formerly FAS 123R). The assumptions used in determining the grant date fair values of awards are set forth in the notes to our consolidated financial statements, which are included in our Annual Report on Form 10-K filed with the SEC on February 26, 2010.
- (3) In 2009, due to the global economic crisis, we did not implement our Management Incentive Bonus Plan. The amount shown for Mr. Smith in 2009 represents a reward related to the issuance of a patent. Amounts shown for 2007 and 2008 reflect compensation under the Management Incentive Bonus Plan earned for the year indicated, which was paid in the following year. For 2007 and 2008, each executive was eligible for an annual performance bonus calculated based on a specified target percentage of base salary, called an Individual Incentive Target. The maximum bonus payout possible was 200% of this Individual Incentive Target and the minimum payout was zero, with incremental pay-outs for performance between these levels. Annual performance bonuses were paid out upon achievement of specific corporate pro forma pre-tax EPS goals. The Individual Incentive Targets for the Named Executive Officers in 2008 were: Mr. Berlinghieri 100%; Mr. Weigner 50%; Mr. Colella 65% and Mr. Smith 50%. For 2008, we paid no bonus under the Management Incentive Bonus Plan. In 2007 the targets for the Named Executive Officers were: Mr. Berlinghieri 100%, Mr. Weigner 45%, Mr. Colella 60% and Mr. Smith 50%. For 2007, we paid a bonus of 55.88% of Individual Incentive Targets to the Named Executive Officers.
- (4) For supplement retirement benefits, this reflects the actuarial increase in present value for each year indicated, from the prior fiscal year. For deferred compensation, this reflects the theoretical change in assets from the prior fiscal year. The employment agreements for each Messrs. Berlinghieri, Weigner and Colella provide for supplemental retirement benefits. The employment agreement for Mr. Smith provides for a deferred compensation program.

### **Pension Benefits**

Pursuant to employment agreements, we provide supplemental retirement benefits to certain executives including Messrs. Berlinghieri, Weigner and Colella. These supplemental benefits are designed to reward long-term service with us and to serve as a significant incentive for these executives to remain with us. In addition, these benefits are designed to provide for supplemental retirement benefits for executives that are not available under our company-wide employee benefits due to regulatory limitations on benefit accruals.

The benefits vest upon (a) the employee reaching both (i) specified ages and (ii) 25 years of service with us, in each case while employed with us, or (b) upon the employee's earlier death, disability, termination without cause (as defined in the employment agreements) or a qualifying termination in connection with a change-in-control (as defined in the agreement), and are forfeited in the event of termination for cause. When vested, the benefits provide for a lump sum payment of an aggregate amount calculated in accordance with actuarial tables, payable not sooner than six months after the date of termination (except in the case of death or disability). These benefits are not subject to any deduction for social security or other offset amounts. Final average compensation is equal to the average of the respective officer's three highest years of compensation (salary plus bonus) during the 10 years prior to the officer's retirement (or other qualifying termination).

**Table of Contents**

Subject to the years of service qualifications, Mr. Berlinghieri's benefits will vest 80%, 90% and 100% upon retirement at the ages of 60, 61 and 62, respectively; Mr. Weigner's benefits have vested 90% and will vest 100% upon retirement at the age of 65; and Mr. Colella's benefits will vest 80%, 90% and 100% upon retirement at the ages of 60, 61 and 62, respectively.

The table below summarizes the present value as of December 31, 2009 of the accumulated benefits of our Named Executive Officers under their Supplemental Pension arrangements.

John A. Smith	N/A	N/A	N/A	N/A

(1) Maximum number of years credited is 25.

(2) Present value of accumulated benefit is calculated using the same assumptions we used for financial reporting purposes. The calculations use a discount rate of 5.5%, a maturity value rate of 3.75% and salary increases of 4.5% per annum and the 1994 Group Annuity Reserve Mortality Table. As of December 31, 2009, Mr. Weigner was vested 90% and Messrs. Berlinghieri and Colella were vested 0% in the amounts set forth above.

**Nonqualified Deferred Compensation**

We have provided supplemental defined contribution retirement benefits to Mr. Smith. We contribute an annual amount equal to 15% of Mr. Smith's salary and bonus, and may elect to contribute additional amounts in our sole discretion. These amounts are placed into hypothetical investment instruments in accordance with Mr. Smith's instruction. These benefits will vest 80%, 90% and 100% upon Mr. Smith retiring at age 63, 64 and 65, respectively. When vested, the benefits provide for a lump sum payment subject to a six month waiting period for the initial payment. Mr. Smith may also elect to defer up to 25% of his base salary and up to 100% of his bonus annually, until a time specified by Mr. Smith. These benefits are not subject to any deduction for social security or other offset amounts.

**Potential Payments Upon Termination of Employment or Change-in-Control**

This section (including the following tables) summarizes each Named Executive Officers' estimated payments and other benefits that would be received by the Named Executive Officer or his estate if his employment had terminated on December 31, 2009, under the circumstances set forth below.

For purposes of the following description of such benefits, *cause* means conviction for the commission of a felony, willful failure to perform his responsibilities to the Company, or willful misconduct. *Good reason* means voluntary separation from service within 90 days following (i) a material diminution in positions, duties and responsibilities from those described in his employment agreement (ii) a reduction in his base salary (other than as part of a general salary reduction program affecting senior executives) (iii) a material reduction in the aggregate value of his pension and welfare benefits from those in effect prior to the change in control (other than as proportionate to the reductions applicable to other senior executives pursuant to a cost-saving plan that includes all senior executives), (iv) a material breach of any provision of the employment agreement by the Company, (v) the Company's requiring the executive to be based at a location causing a one way commute in excess of 60 miles from his primary residence.

***Mr. Berlinghieri***

Mr. Berlinghieri's employment and equity agreements provide for the following:

If Mr. Berlinghieri's employment is terminated by us (other than for failure or refusal to perform his obligations, commitment of acts not in our interest, commission of a felony or willful misconduct), he will receive salary for 12 months after the date of such termination. He will also receive company paid medical, dental, life and vision insurance for 12 months.

If Mr. Berlinghieri's employment is terminated by us without cause or by Mr. Berlinghieri for good reason, within two years after a change-in-control, and certain other criteria are met, Mr. Berlinghieri will be entitled to:

salary and bonus for 36 months paid in a lump sum and grossed-up for applicable state and federal taxes;

paid medical, dental, life and vision insurance for 36 months;

full vesting of restricted stock and RSUs.

In the event that any payment to Mr. Berlinghieri under his employment agreement would subject him to any excise taxes imposed under Code Section 4999, Mr. Berlinghieri shall receive a gross-up payment for such amounts.

We provide supplemental retirement benefits to Mr. Berlinghieri, as described under the heading Pension Benefits above.

We provide Mr. Berlinghieri with retiree medical benefits for life, in the event he retires by at least age 62, which requires that he pay an annual contribution of \$1,500 and a decreasing percentage of the costs until he reaches age 65.

During the term of Mr. Berlinghieri's employment and for a period of one year thereafter (or two years, if employment was terminated by Mr. Berlinghieri other than for good reason), Mr. Berlinghieri may not:

engage in any competitive business or activity;

work for or become a partner with any of our employees, officers or agents; or

have any financial interest in or be a director, officer, 1% shareholder, partner, employee or consultant to any of our competitors.

For a period of two years after termination of employment, Mr. Berlinghieri may not:

solicit any customer to become a customer, distributor or supplier of any other person or entity or to cease doing business with us; or

**Table of Contents**

solicit or hire any of our employees or agents to terminate such person's employment or engagement with us or to work for a third party.

***Other Named Executive Officers***

All of the other Named Executive Officers' employment terms are month to month, with termination upon death, disability, or at our election if the employee fails to perform his duties or commits any act not in our best interest. Messrs. Colella, Smith and Weigner are entitled to the following benefits under their agreements:

severance equal to one-half of their base salary in the event that they are terminated without cause; and

six months continuation of specified health benefits at our cost.

In the event that any payment to Messrs. Colella or Weigner under their respective employment agreements would subject them to any excise taxes imposed under Code Section 4999, such executive shall receive gross-up payments for such amounts. Messrs. Colella and Weigner, and their respective spouses, shall also receive retiree medical benefits for life, in the event such executive retires by at least age 62. The executive pays an annual contribution of \$1,500 and a decreasing percentage of the costs until he reaches age 65.

We provide supplemental retirement benefits to Messrs. Colella and Weigner, as described under the heading Pension Benefits above, and supplemental defined contribution retirement benefits to Mr. Smith as described under the heading Nonqualified Deferred Compensation above.

The employment agreements of Messrs. Colella, Smith and Weigner contain non-competition provisions. The provisions provide that such employees may not, during the term of their employment and for the period of one year after termination of employment (or, in the case of Messr. Weigner, two years if employment was terminated by him other than for good reason):

engage in any competitive business or activity;

work for, employ, become a partner with, or cause to be employed, any of our employees, officers or agents;

give, sell or lease any competitive services or goods to any of our customers; or

have any material financial interest in or be a director, officer, partner, employee or consultant to or exceed specified shareholding limitations in, any of our competitors.

Each of Messrs. Colella, Lee, Smith and Weigner are subject to non-solicitation restrictions. During the term of employment and for a period of one year after termination of employment (two years for Mr. Weigner), Messrs. Colella, Smith and Weigner may not:

Solicit any customer to become a customer, distributor or supplier of any other person or entity or to cease doing business with us; or

solicit or hire any of our employees or agents to terminate such person's employment or engagement with us or to work for a third party.

During the term of employment and for one year after the termination of employment, Mr. Lee may not solicit or hire any of our employees or agents to terminate such person's employment or engagement with us or to work for a third party.

Each Named Executive Officer's RSUs provide for 100% acceleration of vesting of all shares if the executive is terminated without cause or resigns with good reason within 24 months of a change-in-control, as defined in the agreement, and with respect to those RSUs granted in 2008 and later, also provide for 100% acceleration of vesting upon retirement. Retirement, in this context, means a voluntary termination of employment by the executive after he is at least age sixty (60) and has a combination of years of age plus Years of Service (full years of employment since the executive's original hire date with the Company or one of its subsidiaries) with the Company equal to seventy (70) or more. RSUs typically vest in three equal annual installments, and at least half are generally subject to performance criteria.

**Table of Contents**

Mr. Lee, who resides in California, is employed at will and he does not have any provision for specific benefits upon termination. The value of the acceleration of vesting with respect to Mr. Lee, who is not included in the following tables, would have been \$566,509 upon Mr. Lee's death, disability or termination after a change-in-control as described above, had it occurred on December 31, 2009.

(1)

Reflects (a) our cost for continuation of life insurance, medical, dental and vision coverage for 12 months following involuntary termination without cause or termination by Mr. Berlinghieri for good reason or upon termination within 36 months after a change-in-control, and (b) the estimated present value of retiree medical benefits assuming the separation occurred on December 31, 2009.

- (2) This amount represents the present value of the accelerated amount of the accumulated benefit under the Supplemental Retirement Benefit. See also the description under Pension Benefits above.
- (3) For purposes of assessing whether Mr. Berlinghieri would be liable for a Section 4999 excise tax on parachute payments (and in turn entitled to a gross-up from us), the calculations assume that if Mr. Berlinghieri was terminated within 24 months of a change-in-control, the vesting on his options would be accelerated (which the Board of Directors may determine at its discretion).
- (4) RSUs granted since 2008 provide for acceleration upon retirement (as defined therein). Because he was not 60 as of December 31, 2009, Mr. Berlinghieri did not qualify for such acceleration at that time.
- (5) Upon death and disability, RSUs fully vest. The stated value assumes the death or disability occurred on December 31, 2009.
- (6) 100% of the unvested RSUs vest. For purposes of determining the value of the acceleration of unvested options, the calculations assume that Mr. Berlinghieri was terminated on December 31, 2009 following the change-in-control and the vesting on his options was accelerated by the Board of Directors (which the Board of Directors may determine at its discretion).
- (7) We have agreed to reimburse Mr. Berlinghieri for any state and federal income taxes associated with the severance payment, as well as any excise taxes due under Section 4999 applicable to parachute payments.
- (8) To be eligible for retiree medical benefits, the termination only needs to occur within 36 months of the change-in-control.

- (7) Upon a change-in-control, Mr. Weigner may be subject to certain excise taxes under Section 4999 applicable to parachute payments. We have agreed to reimburse Mr. Weigner for those excise taxes as well as any income and excise taxes payable by Mr. Weigner as a result of any reimbursement for the Section 4999 excise taxes. Had Mr. Weigner been terminated following a change-in-control on December 31, 2009, there would not have been an excise tax liability due.
- (8) To be eligible for retiree medical benefits, the termination only needs to occur within 36 months of the change-in-control.

**Table of Contents****DIRECTOR COMPENSATION***Cash Compensation*

The following table summarizes cash compensation payable by MKS to non-employee directors effective as of December 31, 2009. Effective as of August 25, 2008, as part of our efforts to reduce costs during the recent economic downturn, the cash compensation payable to non-employee directors was temporarily reduced by 10% with respect to John R. Bertucci, Chairman of the Board, and by 5% with respect to other non-employee directors. In addition, effective as of January 20, 2009, cash compensation to non-employee directors was further temporarily reduced so that the aggregate effect of both reductions was a reduction of 20% to John R. Bertucci and 10% to other non-employee directors. On October 19, 2009, these temporary reductions were lifted, and cash compensation levels for non-employee directors were returned to their original 2008 levels, retroactive to July 1, 2009.

13 months after the date of grant, on the 13 month anniversary of the date of grant)

- (1) In 2009, the Initial Grant for non-employee directors was 6,666 RSUs and the Annual Grant was 4,000 RSUs.
- (2) Non-employee directors are eligible to receive annual awards if the non-employee director has been in office for at least six months prior to the date of the respective annual meeting of shareholders.

***Mr. Bertucci***

Mr. Bertucci resigned from his employment as our Executive Chairman effective December 31, 2006. At that time, he remained a Class III director and became non-executive Chairman of the Board. Pursuant to the terms of his employment agreement, Mr. Bertucci receives retiree medical benefits for life for himself and his spouse, which had

a net present value of \$246,740 as of December 31, 2009, and which require that he make an annual contribution toward the benefit of \$1,500. Mr. Bertucci also receives a car allowance for life, which had a net present value of \$164,945 as of December 31, 2009.

The following table summarizes compensation paid to non-employee directors in 2009. Mr. Berlinghieri is excluded from the table because he is an executive officer, and his compensation is set forth in the Executive Compensation section above, under the heading Summary Compensation Table for 2009.

**SECTION 16(a) BENEFICIAL  
OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires executive officers, directors and shareholders who beneficially own more than ten percent (10%) of the our stock to file initial reports of ownership on Form 3 and reports of changes in ownership on Form 4 with the SEC and any national securities exchange on which our securities are registered. Executive officers, directors and greater than ten percent (10%) beneficial owners are required by the SEC's regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms, and amendments thereto, furnished to us and written representations from the executive officers and directors, pursuant to Item 405 of Regulation S-K, we believe that all Section 16(a) filing requirements applicable to our executive officers, directors and greater than ten percent (10%) shareholders were complied with, except that (i) each of the following named executive officers inadvertently under-reported the number of shares subject to RSUs granted to them on March 16, 2009 by the following amounts: Mr. Berlinghieri, 7,308 shares; Mr. Weigner, 1,400 shares; Mr. Colella, 2,450 shares; Mr. Lee, 1,750 shares and Mr. Smith, 1,400 shares; (ii) Mr. Bertucci filed a late report with respect to the September 18, 2009 sale of 40,000 shares and (iii) Mr. Beecher filed a late report with respect to the May 4, 2009 acquisition of 4,000 shares.

**PROPOSAL TWO**

**RATIFICATION OF APPOINTMENT OF INDEPENDENT  
REGISTERED PUBLIC ACCOUNTING FIRM**

On February 2, 2010, the Audit Committee appointed PwC as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010. PwC was our independent registered public accounting firm for the fiscal year ended December 31, 2009.

Representatives of PwC are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they so desire and will be available to respond to appropriate questions from shareholders. In the event that the ratification of the appointment of PwC as our independent registered public accounting firm is not obtained at the Annual Meeting, the Board of Directors will reconsider its appointment.

**THE BOARD OF DIRECTORS BELIEVES THAT THE PROPOSAL TO RATIFY THE APPOINTMENT OF PWC AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2010 IS IN THE BEST INTERESTS OF MKS AND OUR SHAREHOLDERS AND THEREFORE RECOMMENDS A VOTE FOR THIS PROPOSAL.**

**OTHER MATTERS**

The Board of Directors does not know of any other matters which may come before the meeting. However, if any other matters are properly presented to the meeting, it is the intention of the persons named in the accompanying proxy to vote, or otherwise act, in accordance with their judgment on such matters.

All costs of solicitation of proxies will be borne by us. In addition to solicitations by mail, our directors, officers and regular employees, without additional remuneration, may solicit proxies by telephone and personal interviews and we reserve the right to retain outside agencies for the purpose of soliciting proxies. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of stock held in their names, and we will reimburse them for their reasonable out-of-pocket expenses incurred in connection with the distribution of proxy materials.

***Pre-Approval Policy and Procedures***

The Audit Committee's charter sets forth their obligations relating to the approval of all audit and non-audit services that are to be performed by our independent registered public accounting firm. The charter provides that we will not engage our independent registered public accounting firm to provide audit or non-audit services unless the service is pre-approved by the Audit Committee. In connection with the foregoing, the Audit Committee may approve specific services in advance. In addition, from time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to us by our independent registered public accounting firm during the next 12 months. Any such pre-approval of types of services is detailed as to the particular service or type of service to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has considered and determined that the provision of the non-audit services noted in the foregoing table is compatible with maintaining PwC's independence.
