All of the non-employee directors are members of the Audit Committee. Mr. Lufkin serves as its Chairman. All of the members are independent directors in accordance with the rules of the NASDAQ Stock Market and applicable federal securities laws and regulations. In addition, the Board of Directors has determined that Mr. Lufkin qualifies as an audit committee financial expert and has designated him to that position. The Audit Committee provides oversight of the Company's accounting functions and acts as liaison between the Board of Directors and the Company's independent registered public accounting firm. The Committee reviews with the independent auditors the Company's unaudited quarterly financial statements, the planning and scope of the audits of the Company's financial statements, the results of those audits and the adequacy of internal accounting controls, and monitors other corporate and financial policies. In performing these functions, the Audit Committee meets periodically with the independent auditors (including in private sessions) and with management. In addition, the Audit Committee selects the independent registered public accounting firm. The Audit Committee operates under a written charter adopted and approved by the Board of Directors, a copy of which is available on the Company's website at www.dusapharma.com. ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Philosophy and Objectives All of our compensation programs and policies are designed to attract, retain, and reward key employees to align compensation with DUSA's performance and to motivate executive officers to achieve the Company's business objectives. Our programs are geared to rewarding both short and longer-term performance with the ultimate objective of increasing shareholder value over time.

The Compensation Committee of the Board of Directors (the Compensation Committee or the Committee) believes that compensation should reflect the success of our executives as a management team, so we consider both individual and corporate strategic and financial goals in determining compensation. We believe that executive compensation should not be based on the short-term performance of our stock, but that the price of our stock will, in the long-term, reflect our operating performance and management of the Company by our executives. We seek to have the long-term performance of our stock reflected in executive compensation through our stock option and restricted stock award programs.

Throughout this document, the individuals who served as our Chief Executive Officer and our Chief Financial Officer during fiscal 2009, as well as other individuals included in the Summary Compensation Table on page 11, are referred to as named executive officers.

Overview of Compensation and Process The Compensation Committee is composed of all of the independent non-employee directors. The Compensation Committee is responsible for setting and administering the policies which govern annual executive salaries and cash bonus awards, and under the 2006 Equity Compensation Plan, the

Committee approves the amounts of stock option or other equity awards to all grantees. The Compensation Committee evaluates, on a yearly basis, the performance, and determines the compensation of, the executive officers of DUSA, including the named executive officers. DUSA's President and Chief Executive Officer, Robert Doman, is not a member of the Compensation Committee, however, the Compensation Committee seeks input from him regarding the performance of DUSA's other executive officers. Mr. Doman and Richard C. Christopher, DUSA's Vice President of Finance and Chief Financial Officer, are

Table of Contents

present, at the invitation of the Compensation Committee, at its meetings, other than during consideration of their own compensation or other executive sessions.

In 2007, the Compensation Committee retained an independent compensation consultant, WNB Consulting LLC to review and analyze DUSA's executive compensation programs, to prepare a benchmarking analysis, and to recommend appropriate levels of cash and equity compensation for DUSA's executive officers, including its President and Chief Executive Officer. WNB Consulting was retained in both 2008 and 2009 for similar purposes, which included updating the information that the firm had provided to the Committee in 2007. The Compensation Committee is solely responsible for the engagement of WNB Consulting, and all work performed by WNB Consulting is initiated and supervised by the Compensation Committee, except to the extent delegated by the Compensation Committee to management. The Committee discussed the recommendations of WNB Consulting with the consultant when setting 2008, 2009 and 2010 salaries, and when making decisions about bonus levels and equity compensation awards. While input from the consultant is carefully considered, ultimate decision making authority rests with the Compensation Committee which retains discretion over salary, cash bonus, and equity compensation determinations based upon its subjective view of an executive's performance.

DUSA's executive compensation programs consist of base salary, discretionary cash bonus incentives based on annual individual and corporate goals, grants under the Company's equity plan, a 401(k) plan, a deferred compensation plan, and certain other perquisites and benefits generally available on the same basis as benefits provided to its other employees. Typically, during the first quarter of each year, our Compensation Committee meets to consider and, if deemed appropriate, approve cash bonuses for our executives based on the prior fiscal year's performance and base salaries for the new fiscal year, and to consider and, if deemed appropriate, grant equity awards, in the form of stock options and restricted stock awards, to all of the executive officers. On occasion, as occurred during 2007, compensation adjustments are made during the year to reflect a change in roles or responsibilities of our executives.

DUSA does not currently provide any pension benefits to its named executive officers or employees.

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to the corporation's chief executive officer and four other most highly paid executive officers. We periodically review the potential consequences of Section 162(m) and may structure performance-based compensation to comply with certain exemptions. However, we have not done so to date.

Base Salary With regard to base salary, the Compensation Committee believes that DUSA's officers should be compensated at levels comparable to the base salary of executive officers at similar public biotechnology or pharmaceutical companies. Base salaries are paid at competitive levels to attract and retain talented management personnel. During 2008 and 2009, the Compensation Committee used survey data reporting the salaries and bonuses for executives of companies in these groups which was prepared by WNB Consulting LLC. In addition, the Committee has referred to survey data or analyses of survey data from the Radford Biotechnology Survey, Mercer Executive Compensation Survey, Watson Wyatt's Executive Compensation Survey, TSG Management Survey, SIRS Executive Survey ORC's Executive Compensation Survey and TSG Biotechnology Survey. The Committee uses this information to assist it in setting executive compensation but does not have a pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation.

The Committee also takes note of the cost of living increase in determining base salary increases, as well as the general performance of the Company. In June 2007, the Committee increased Mr. Doman's salary in connection with his promotion to the position of Chief Executive Officer. In early 2007, the Committee approved base salary increases in the range of 2.5% to 10.8% for the other named executive officers. Following the analysis by WNB Consulting which indicated that several of the named executive officers' base salaries were below the low end range of competitiveness, the Committee, in April 2008, approved a base salary increases in the range of 3.5% to 14.6%,

including 10% for Mr. Doman and 14.6% for Mr. Christopher. For 2009, all base salaries company-wide remained at 2008 levels in order to preserve cash resources during uncertain economic times. However, for 2010, the Committee approved base salary increases for the named

Table of Contents

executive officers, other than Mr. Doman, in the range of 2.0% to 6.4% which includes certain market adjustments for two of the named executive officers based on recommendations from WNB Consulting. The Committee granted an increase of 4% to Mr. Doman in light of his very strong performance and guidance of the Company to achieve both positive cash flow and profitability during the fourth quarter of 2009.

Bonuses Under the terms of its employment agreements with its officers, DUSA's Vice Presidents are eligible to receive a range of up to 35-40% of their base salary as a discretionary cash bonus award to be set by the Board of Directors. These percentage opportunities reflect increases of 5%-10% which the Committee made in April 2008 upon the recommendation and analysis of WNB Consulting. In June 2007, in connection with his promotion to President and Chief Executive Officer, the Committee determined that Mr. Doman should be eligible to receive up to 50% of his base salary as a cash bonus. In some cases, the agreements provide that the Board may award a cash bonus in excess of the stated percentage for outstanding performance. DUSA believes that the cash bonus is an important incentive to its officers and assists DUSA in reaching its corporate goals.

Financial and strategic business goals are typically set by management, and approved by the Board of Directors, usually during the fourth quarter of the previous year. The primary financial goals relate to achievement of net revenue and income statement improvement milestones. Management recommends these goals to incentivize its named executive officers to perform at consistent high levels, however, these goals are not set at levels which management believes are likely to be unattainable. For 2007, attainment of corporate goals represented 70% of the bonus opportunity for the executives and attainment of individual goals represented 30% of the bonus opportunity, except that corporate financial goals had to be achieved in order for any bonus payment to be granted. In prior years, the Committee used various combinations of attainment of corporate goals, individual goals and stock performance as a basis for determining bonuses. No bonuses were paid for 2007 performance because management did not achieve its corporate goals primarily due to the consequences of a litigation matter that was settled in October 2007. For 2008 and 2009, the Committee used a more flexible, subjective approach in its consideration of cash bonus incentives. While management made recommendations to the Committee in light of certain corporate performance, including increases in total revenues and reduction in operating loss, no formal metrics were adopted by the Committee. The Committee also considered other factors, such as regulatory action in 2008 against certain of the Company's products and the manner in which management successfully responded, and the attainment of positive cash flow and profitability in the fourth quarter of 2009, despite a difficult economic environment. In February 2010, the Committee using its discretion, based on the experience of its members and in light of performance during 2009, determined that bonuses should be paid in amounts ranging from approximately 10% to approximately 30% of base salary. The Committee believes that in light of the Company's stage of development, a flexible approach is fairer and provides a greater incentive for the Company's executives to achieve both short and long term objectives.

The Compensation Committee discusses and adjusts the written recommendations of the President and Chief Executive Officer of DUSA in awarding discretionary cash bonuses, as well as base salary increases for the other executives. For 2008, the then current Chairman of the Board discussed a recommendation with the Committee for the compensation of the then current President and Chief Executive Officer which was considered by the Committee. The Compensation Committee exercises subjective judgment and discretion in the granting of the amount of bonuses and in setting base salaries.

In February 2010, the Committee met with Mr. Doman and Mr. Christopher who reviewed the contributions of each of the named executive officers, and Mr. Doman provided his recommendations for base salaries for 2010 and proposed a cash bonus opportunity that should be paid to each of the named executive officers other than himself. In making its decision, the Committee discussed and evaluated the recommendations of Mr. Doman regarding 2010 salaries and cash bonus opportunities, as well as the base salary and bonus for Mr. Doman, in conjunction with WNB Consulting.

Equity Awards DUSA has awarded stock options to its executive officers on initial hire, sometimes at the time of a promotion, and generally, on an annual basis at a meeting of the Compensation Committee during the first quarter of the year. During 2008 and 2009, in conjunction with the recommendation of WNB

Consulting, the Committee also provided its executives with restricted stock awards. The Compensation Committee believes that a strong stock ownership program, aligns executive officers with shareholders interests and is essential to the long-term growth of the Company by providing executives with incentives to increase shareholder value over time. The Compensation Committee uses survey data and recommendations of consultants to monitor and evaluate the amount of long-term incentive compensation levels of its officers. There is no formula for the number of grants which are issued. Also recently, the amount of the grants has been limited due to the number of grants that are available under the 2006 Equity Compensation Plan, since the Board of Directors believes that no more than 20% of the shares of common stock outstanding should be subject to equity awards. In addition, the Board has decided to grant equity awards every year in order to take into account the volatility of DUSA's stock price from year to year. WNB Consulting has recommended to the Compensation Committee that going forward, DUSA should increase the level of equity compensation DUSA pays to its executive officers to better align executive officers interest with shareholders, maintain the effectiveness of DUSA's goal of retaining and motivating its executive officers through the use of equity compensation since historical equity compensation has been significantly below that of similarly situated companies. WNB Consulting has advised that DUSA's current equity compensation does not meet desired levels of competitive long-term compensation based on its analysis.

WNB Consulting also provided survey data indicating that the members of DUSA's Board of Directors receive less compensation than their peers, particularly with respect to equity compensation and committee activities. Although the Committee decided that annual compensation should remain at current levels, in light of the extraordinary time and effort required of the members of the Committee during 2008, the Board awarded a special grant of restricted shares to Committee members. Messrs. Abeles, Bartash, Lufkin and Moliteus each received an award of 7,500 restricted shares and Mr. Haft received 15,000 restricted shares.

Stock options have typically been granted as of the close of business on the date of grant. In December 2006, the Board of Directors determined that all grants should be made two days following the release of quarterly earnings by DUSA.

DUSA also maintains a 401(k) plan for all employees which provides a match of \$0.50 for each dollar contributed up to 2.5% of base salary. In 2006, DUSA adopted a deferred compensation plan which was available to operating director-level employees and above, however since only one executive officer is currently enrolled the plan has been suspended for the time being. DUSA adopted these plans in order to provide competitive benefits to its upper level employees.

In some cases, the Committee has altered a proposed amount of a cash bonus or option grant to provide a particular award for excellent performance. This is an example of the discretion which is contemplated in the employment agreements between the Company and the named executive officers.

Currently, DUSA does not have any stated policy regarding an adjustment or recovery of awards or payments if a performance measure upon which such award or payment may have been based were to be restated.

Perquisites As provided in his employment agreement, DUSA provides its President and Chief Executive Officer with local housing, including utilities, since his permanent residence is in a state different from the location of DUSA's principal offices in Massachusetts. In addition, DUSA covers the amount of tax that the officer pays on the amount of the rent which constitutes compensation to him. This form of compensation did affect the level of base salary that the officer was offered and agreed upon when he joined DUSA in 2005.

Other Compensation

Generally Available Benefits

We provide the following benefits to our named executive officers generally on the same basis as the benefits provided to all employees:

Health and dental insurance;

Life insurance;

Table of Contents

Short- and long-term disability;

Educational assistance; and

401(k) plan.

We believe that these benefits are consistent with those offered by other similarly situated companies.

Severance Benefits

All of the named executive officers have a provision in their employment agreements providing for a severance benefit equal to twelve (12) months of the officer's then current salary. DUSA has received information from its employment consultant that the provision of twelve (12) months severance for termination without cause is relatively common, and DUSA believes that the provision assists it in attracting key management to the Company.

Change of Control

DUSA provides a change of control provision in its named executive officers' employment agreements. The provision provides for the payment of three (3) times an officer's then current salary under certain change of control circumstances. DUSA believes that the change of control provisions would serve to retain DUSA's senior management talent and to focus management's attention on DUSA's operations during a change of control transaction. DUSA also provided a change of control provision in a consulting agreement with its former Chairman of the Board. The provision provides for the payment of three (3) times the consultant's annual consulting fee under certain change of control circumstances subject to certain terms and conditions.

Sections 280G and 4999 of the Internal Revenue Code impose certain adverse tax consequences on compensation treated as excess parachute payments. An executive is treated as having received excess parachute payments if he receives compensatory payments or benefits that are contingent on a change in control, and the aggregate amount of such payments and benefits equal or exceeds three times the executive's base amount. The portion of the payments and benefits in excess of one times base amount are treated as excess parachute payments and are subject to a 20% excise tax, in addition to any applicable federal income and employment taxes. Also, our compensation deduction in respect of the executive's excess parachute payments is disallowed. If we were to be subject to a change of control, certain amounts received by our executives could be excess parachute payments under Section 380G and 4999 of the Internal Revenue Code.

Deferred Compensation

On the recommendation of the Compensation Committee, DUSA adopted the DUSA Pharmaceuticals, Inc. Non-Qualified Deferred Compensation Plan (the "Plan") effective October 18, 2006. The Plan is intended to be a non-qualified, supplemental retirement plan. It is intended primarily for the purpose of allowing a select group of management, including the named executive officers and members of the Board of Directors (the "Participants") the option of having a portion of their compensation deferred, pursuant to Sections 201(2), 301(a)(3), and 401(a)(1) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and, as such, to be exempt from the provisions of Parts II, III, and IV of Title I of ERISA. Participants may defer up to 80% of their compensation. A Participant will be 100% vested in all of the amounts he or she defers as well as in the earnings attributable to a Participant's deferred account. A Participant may elect to receive distributions from the deferred account at various times, either in a lump sum or in up to ten annual installments. DUSA's obligation to pay the Participant an amount from his or her deferred account is an unsecured promise and benefits will be paid out of the general assets of the

Company. While DUSA has established a Rabbi Trust to segregate the Participants' deferred amounts, the Participants will be general creditors of DUSA. The Compensation Committee acts as the administrator of the Plan. The trustee of the Participants' deferred accounts is Bankers Trust Company. Although, as noted above, this plan has been suspended for lack of enrollees, we believe that this plan is beneficial in assisting DUSA to retain and attract key individuals for the long-term benefit of the Company.

Table of Contents

Section 409A of the Internal Revenue Code requires that nonqualified deferred compensation be deferred and paid under plans or arrangements that satisfy the requirements of the statute with respect to the timing of deferral elections, timing of payments and certain other matters. Failure to satisfy these requirements can expose employees and other service providers to accelerated income tax liabilities and penalty taxes and interest on their vested compensation under such plans. It is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including the named executive officers, so that they are either exempt from, or satisfy the requirements of, Section 409A. With respect to our compensation and benefit plans that are subject to Section 409A, in accordance Section 409A and regulatory guidance issued by the IRS, we are currently operating such plans in compliance with Section 409A based upon our good faith, reasonable interpretation of the statute and the IRS's regulatory guidance.

Executive Compensation

The following table shows, for the fiscal years ended December 31, 2007, 2008 and 2009, certain information regarding the annual and long-term compensation paid by DUSA to those persons who were, at any time during the year (i) our principal executive officer, (ii) our principal financial officer, and (iii) the three most highly compensated executive officers other than the principal executive officer and principal financial officer who were serving DUSA at the end of the year. All amounts are stated in United States dollars unless otherwise indicated. Potential Payments Upon Termination or Change-In-Control

The Company has employment agreements with each of its named executive officers. According to the terms of these agreements, the named executive officers are entitled to receive compensation as determined by the Board of Directors and are eligible to receive the benefits generally made available to employees of the Company. The Company may terminate any of these agreements at any time, with or without cause on sixty (60) days prior written

notice. If employment is terminated without cause, the Company has agreed to pay a severance allowance equivalent to twelve (12) months of the named executive officer's then-current base salary payable in either: (i) a lump sum, within sixty (60) days following the date of termination; or (ii) equal monthly installments, depending on the terms of the named executive officer's employment agreement.

In the event a named executive officer should die while employed by the Company, his heirs or beneficiaries will be entitled to any Company paid death benefits in force at the time of such death and will also be entitled to exercise any vested but unexercised stock options which were held by him at the time of his death, within a period of one (1) year from the date of death.

These employment agreements also provide for certain severance benefits following a change in control of the Company and termination of employment. Upon any change of control, as defined in the agreements, the Company shall pay to the named executive officer a lump sum payment equal to three (3) times his base salary for the last fiscal year within five (5) days after such termination. In addition, Mr. Doman's agreement provides that he shall be entitled to receive a change of control payment equal to three (3) times his base

salary less the amount of salary paid from the date of the consummation of the change of control to the effective date of a termination, if the termination is effective within the three years of the change of control.

Under the Company's equity plans, upon a change of control, unless the Company determines otherwise, all outstanding options not fully vested automatically accelerate and become immediately exercisable and the restrictions and conditions on all outstanding stock awards immediately lapse. The date on which such accelerated vesting, immediate exercisability and lapse of restrictions and conditions would occur, is the date of the occurrence of the change of control.

Estimated Termination Payment

The table below reflects amounts payable to the named executive officers, assuming that their employment was terminated on December 31, 2009, both prior to and following a change in control of the Company, or assuming a change in control of the Company occurred on December 31, 2009.

401(k) Profit Sharing Plan

The Company adopted a tax-qualified employee savings and retirement 401(k) Profit Sharing Plan (the 401(k) Plan), effective January 1, 1996, covering all qualified employees. Participants may elect a salary reduction of at least 1% as a contribution to the 401(k) Plan, up to the statutorily prescribed annual limit for tax-deferred contributions (\$16,500 in 2009, \$22,000 if over age 50). Modification of salary reductions can be made monthly (for 2009). Effective February 1, 2003, the Company began to match a participant's contribution up to 1.25% of a participant's salary (the Company Match), subject to certain limitations of the 401(k) Plan. Employees who were already employed as of the effective date of the Company Match received credit for their past service to the Company.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions

We review all relationships and transactions in which we and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. According to our written Statement of Policy with respect to Related Person Transactions, our Audit Committee, with the assistance of management and our legal counsel, is primarily responsible for the implementation of processes and controls to obtain information from the directors and executive officers with respect to related person transactions and for then determining, based on the facts and circumstances, whether we or a related person has a direct or indirect material interest in the transaction. In determining whether a proposed transaction is a related person transaction, we

examine:

- (i) the related person's relationship to us;
- (ii) the related person's interest in the transaction;

Table of Contents

(iii) the material facts of the proposed transaction, including the proposed aggregate value of such transaction or, in the case of indebtedness, the amount of principal that would be involved; and

(iv) whether the proposed transaction is on terms that are comparable to the terms available to an unrelated third party or to employees generally.

If our Audit Committee determines that the proposed transaction is a related person transaction, the Audit Committee decides whether to approve or disapprove the transaction. If it is approved, any material related person transaction is submitted to our Board of Directors. For the period beginning January 1, 2009 and ending March 31, 2010, there were no transactions in which the Company was or is to be a participant and the amount involved exceeds \$120,000, and in which any related person had or will have a direct or indirect material interest. In January 2007, DUSA hired Kevin Doman, the son of Robert F. Doman, our President and Chief Executive Officer, as a sales representative. Kevin Doman's hiring was reviewed and approved by the Audit Committee. Factors considered by the Audit Committee included (i) Kevin Doman's experience in the industry, (ii) the fact that his compensation package is the same as that of our other sales representatives and was not reviewed or influenced by Robert Doman, prior to hiring or on an annual basis thereafter and (iii) the amount of compensation that Kevin Doman could receive from DUSA in the future. Kevin Doman received \$93,000 in salary and commissions for 2009 and has the potential to earn approximately \$130,000 in salary and commissions in 2010.

Independence of Directors

The Board has determined that all of the non-employee directors are independent, as independence is defined under the rules of the NASDAQ Stock Market.
