The Cushing MLP Total Return Fund
Shareholder Letter

Dear Shareholders:

The Cushing MLP Total Return Fund (SRV) performed well over the six months ending May 31, 2010 as the net asset value per share increased +8.9% to \$6.25, while the share price rose +12.6% to \$7.37. SRV also paid its sixth consecutive \$0.225 dividend in June 2010.

Master Limited Partnerships (MLPs) have displayed solid operating results and stock price appreciation over the last six months, against an economic and broad market backdrop of continued uncertainty and volatility. Our MLP investment thesis has remained largely intact.

1. In times of economic uncertainty, the stable, toll road type businesses of MLPs will become relatively more attractive to investors.
2. MLPs should continue to maintain and increase distributions.
3. As investors become more attracted to this asset class, yields should compress, resulting in healthy annual returns.

MLP Operating Results

Because MLPs pay the majority of their cash flow to investors, the best measure of the health of the underlying business is cash distributions. Year-to-date, MLPs are on track to meet our internal annual distribution growth forecast of approximately 5.5%. We are encouraged by the number of high quality expansion projects taking place, and expect distribution growth in 2011 to edge higher.

Past performance is no guarantee of future results. Index performance shown for illustration purposes only. 2010 figures are estimated.

Capital Markets Activity

With numerous new growth projects to choose from, MLPs have actively been raising capital from the debt and equity capital markets to finance expansions. Through the first five months of 2010, MLPs raised \$5.9 billion of equity and \$11.1 billion of debt, roughly equal to what was raised during the entire year in 2009. The record full year for MLP capital issuance was 2007, when \$24.2 billion was raised. In addition, there have been two MLP IPOs this year: Plains Natural Gas Storage L.P., which raised over \$250 million and Niska Gas Storage Partners, LLC, which raised over \$350 million. Both MLPs provide direct exposure to the natural gas storage sector, which is a new MLP sub sector. We expect additional IPOs throughout 2010.

MLP Capital Markets Activity

In addition to expansion projects, MLP unit holders benefit from the acquisition of assets, which can be immediately accretive to cash flow. This often occurs when a larger integrated energy company looks to rationalize its portfolio of assets. Also, with improving MLP valuations and increased capital markets access, we have seen an increase in sponsor drop-down transactions. In January 2010, an integrated natural gas company, The Williams Companies, Inc. (NYSE: WMB), sold the majority of its pipeline and midstream assets to Williams Partners, L.P. (NYSE: WPZ). The transaction was valued at over \$12 billion and created one of the largest diversified MLPs.

SRV Adds Equity

In March 2010, SRV issued an additional 4,600,000 shares through a group of underwriters in a secondary offering. In July 2010, SRV issued an additional 8,625,000 shares, bringing the total outstanding shares to 25,850,726 shares. Both transactions were accretive to SRV's net asset value per common share as the common shares were issued at a premium to NAV. We were encouraged by the investor appetite for the common shares as both transactions were upsized from the original offering size. We believe that all investors will benefit from the increased liquidity. Given the success of the offerings, the market capitalization of the stock is now over \$200 million.

We appreciate your continued support.

The Cushing MLP Total Return Fund

Notes to Financial Statements

May 31, 2010 (Unaudited)

1. Organization

The Cushing MLP Total Return Fund (the Fund) was formed as a Delaware statutory trust on May 23, 2007, and is a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund s investment objective is to obtain a high after-tax total return from a combination of capital appreciation and current income. The Fund seeks to provide its stockholders with an efficient vehicle to invest in the energy infrastructure sector. The Fund commenced operations on August 27, 2007. The Fund s shares are listed on the New York Stock Exchange under the symbol SRV.

2. Significant Accounting Policies

A. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, recognition of distribution income and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

B. Investment Valuation

The Fund will use the following valuation methods to determine either current market value for investments for which market quotations are available, or if not available, the fair value, as determined in good faith pursuant to such policies and procedures may be approved by the Fund s Board of Trustees (Board of Trustees) from time to time. The valuation of the portfolio securities of the Fund currently includes the following processes:

(i) The market value of each security listed or traded on any recognized securities exchange or automated quotation system will be the last reported sale price at the relevant valuation date on the composite tape or on the principal exchange on which such security is traded. If no sale is reported on that date, Swank Energy Income Advisors, LP (the Advisor) utilizes, when available, pricing quotations from principal market makers. Such quotations may be obtained from third-party pricing services or directly from investment brokers and dealers in the

Table of Contents

secondary market. Generally, the Fund's loan and bond positions are not traded on exchanges and consequently are valued based on market prices received from third-party services or broker-dealer sources.

(ii) Listed options on debt securities are valued at the average of bid price and ask price. Unlisted options on debt or equity securities are valued based upon their composite bid prices if held long, or their composite ask prices if held short. Futures are valued at the last sale price on the commodities exchange on which they trade.

(iii) The Fund's non-marketable investments will generally be valued in such manner as the Advisor determines in good faith to reflect their fair values under procedures established by, and under the general supervision and responsibility of, the Board of Trustees. The pricing of all assets that are fair valued in this manner will be subsequently reported to and ratified by the Board of Trustees.

The Fund may engage in short sale transactions. For financial statement purposes, an amount equal to the settlement amount, if any, is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the short positions. Subsequent fluctuations in market prices of securities sold short may require purchasing the securities at prices which may differ from the market value reflected on the Statement of Assets and Liabilities. The Fund is liable for any dividends paid on securities sold short and such amounts would be reflected as dividend expense in the Statement of Operations. The Fund's obligation to replace the borrowed security will be secured by collateral deposited with the broker-dealer. The Fund also will be required to segregate similar collateral to the extent, if any, necessary so that the value of both collateral amounts in the aggregate is at all times equal to at least 100 percent of the current market value of the securities sold short.

C. Security Transactions and Investment Income

Security transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on a specific identified cost basis. Interest income is recognized on the accrual basis, including amortization of premiums and accretion of discounts. Distributions are recorded on the ex-dividend date. Distributions received from the Fund's investments in master limited partnerships (MLPs) generally are comprised of ordinary income, capital gains and return of capital from the MLP. The Fund records investment income on the ex-date of the distributions. For financial statement purposes, the Fund uses return of capital and income estimates to allocate the dividend income received. Such estimates are based

Table of Contents

on historical information available from each MLP and other industry sources. These estimates may subsequently be revised based on information received from MLPs after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year-end of the Fund.

The Fund estimates the allocation of investment income and return of capital for the distributions received from MLPs within the Statement of Operations. The Fund has estimated approximately 10 percent as investment income with the remaining balance to be return of capital.

Subsequent to November 30, 2008, the Company revised the amount of investment income and return of capital it recognized based on the 2008 tax reporting information received from the individual MLPs.

D. Dividends and Distributions to Stockholders

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The character of dividends and distributions to common stockholders made during the year may differ from their ultimate characterization for federal income tax purposes. For the period ended May 31, 2010, the Fund's dividends and distributions were expected to be comprised of 100 percent return of capital. The tax character of distributions paid for the period ended May 31, 2010 will be determined in early 2011.

E. Federal Income Taxation

The Fund, taxed as a corporation, is obligated to pay federal and state income tax on its taxable income. Currently, the maximum marginal regular federal income tax rate for a corporation is 35 percent. The Fund may be subject to a 20 percent federal alternative minimum tax on its federal alternative minimum taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax.

The Fund invests its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the Fund reports its allocable share of the MLP's taxable income in computing its own taxable income. The Fund's tax expense or benefit is included in the Statement of Operations based on the component of income or gains (losses) to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized.

Table of Contents

The Fund has adopted financial reporting rules regarding recognition and measurement of tax positions taken or expected to be taken on a tax return. The Fund has reviewed all open tax years and major jurisdictions and concluded that there is no impact on the Fund's net assets and no tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken on a tax return. As of May 31, 2010, open federal tax years include the tax years ended November 30, 2007, November 30, 2008 and November 30, 2009.

F. Cash and Cash Equivalents

The Fund considers all highly liquid investments purchased with initial maturity equal to or less than three months to be cash equivalents.

G. Cash Flow Information

The Fund makes distributions from investments, which include the amount received as cash distributions from MLPs, common dividends and interest payments. These activities are reported in the accompanying Statements of Changes in Net Assets, and additional information on cash receipts and payments is presented in the accompanying Statement of Cash Flows.

H. Indemnifications

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund may enter into contracts that provide general indemnification to other parties. As of May 31, 2010, the Fund has accrued and paid approximately \$500,000 in expenses relating to the indemnification of its officers and trustees relating to the legal proceedings described in Note J. The Fund's maximum exposure under such indemnification arrangements, however, is unknown, as this would involve expenses relating to existing claims that have not yet been accrued or future claims that may be made against the Fund that have not yet occurred and may not occur.

I. Derivative Financial Instruments

The Fund has adopted enhanced disclosure regarding derivatives and hedging activity intending to improve financial reporting of derivative instruments by enabling investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position.

The Fund occasionally engages in equity option trading as a source of protection against a broad market decline. During the period ended May 31, 2010, the Fund purchased 34,800 S&P Depository Receipts (SPDR)

Table of Contents

Trust Series 1 equity option put contracts with various exercise prices and sold 28,200 of these option contracts for a total loss of \$143,809. Of this loss, \$812,506 was realized gain included in net realized gain on investments in the Statement of Operations.

On May 31, 2010 the Fund held 6,600 SPDR Trust Series 1 equity option put contracts at fair value of \$749,400. Of the 6,600 contracts held, 2,600 contracts had an exercise price of \$101.00, 2,500 contracts had an exercise price of \$102.00, and 1,500 contracts had an exercise price of \$103.00. These equity option contracts are included in investments at fair value in the Statement of Assets and Liabilities. The unrealized depreciation of \$956,315 on these equity option put contracts is included in the net change in unrealized appreciation of investments in the Statement of Operations.

During the period ended May 31, 2010, the Fund wrote 19,900 SPDR Trust Series 1 short option put contracts with various exercise prices and covered 13,300 of these option contracts for a total loss of \$100,697. Of this loss, \$441,341 was realized loss and included in net realized gain on investments in the Statement of Operations.

On May 31, 2010 the Fund held 6,600 SPDR Trust Series 1 short option put contracts at fair value of \$(171,600). All contracts had an exercise price of \$90.00. These equity option contracts are included in securities sold short at fair value in the Statement of Assets and Liabilities. The unrealized appreciation of \$340,644 on these equity option put contracts is included in the net change in unrealized appreciation of investments in the Statement of Operations.

J. Legal Proceedings

On February 10, 2009, a putative class action lawsuit was filed in the United States District Court, Northern District of Texas, by Terri Morse Bachow on behalf of all persons who purchased shares of the Fund between September 1, 2008 and December 19, 2008, against the Advisor, Swank Capital, LLC, Jerry V. Swank, Mark W. Fordyce, Brian R. Bruce, Ronald P. Trout and Edward N. McMillan alleging violations of Sections 10(b) of the Securities Exchange Act of 1934 (the Exchange Act) by Mr. Swank and Mr. Fordyce, violations of Section 20(a) of the Exchange Act by Swank Capital, LLC, Mr. Swank, Mr. Fordyce, Mr. Bruce, Mr. Trout, and Mr. McMillan, and violations of Section 36(b) of the Investment Company Act of 1940 by Swank Capital, LLC. The complaint seeks an unspecified amount in compensatory damages, actual damages, and fees and expenses incurred in the lawsuit. The plaintiff s claims relate to the treatment and valuation of a deferred tax asset carried by the Fund under FASB Accounting Standards Codification No. 740, Income Taxes (formerly FASB Statement of Financial Accounting Standards

Table of Contents

No. 109). Plaintiffs claimed that the Fund's NAV was inflated as a result of an alleged failure to apply a valuation allowance to its deferred tax asset. Defendants filed a motion to dismiss the complaint and the court granted in part and denied in part the motion to dismiss. The court dismissed all claims under Section 20(a) of the Exchange Act and Section 36(b) of the 1940 Act but did not dismiss the claim under Section 10(b) of the Exchange Act against Mr. Swank and Mr. Fordyce. On May 17, 2010, the Fund entered into a stipulation and Agreement of Settlement in the lawsuit. The settlement is contingent on court approval and provides for, among other things, dismissal of the lawsuit with prejudice, the granting of board releases of the named defendants, the Fund and all affiliated entities and a payment to the plaintiffs by the Fund's insurance carrier of \$3.6 million, which would include payment of any attorneys' fees for plaintiffs' counsel.

The Fund anticipates that the entire settlement amount will be paid by its insurers and that the Fund will not incur any further costs or liability from this settlement. On May 17, 2010, the lead plaintiff and defendants, Mr. Swank and Mr. Fordyce, filed a joint motion seeking preliminary approval by the court of the settlement and approval of a form of notice to potential settlement class members. On June 28, 2010, the court entered an order certifying a settlement class and set a settlement fairness hearing on September 13, 2010 at 9:30 a.m.

Under the Fund's organizational documents, its officers and trustees, including Mr. Swank, are entitled to indemnification against certain liabilities arising out of the performance of their duties to the Fund, and this indemnification obligation may extend to costs and/or liabilities resulting from the above-described action. As of June 30, 2010, the Fund has accrued and paid approximately \$500,000 in expenses relating to the indemnification of its officers and trustees relating to this proceeding. The Fund does not expect any significant increase in these expenses going forward.

3. Concentrations of Risk

The Fund's investment objective is to obtain a high after-tax total return from a combination of capital appreciation and current income. The Fund will seek to achieve its investment objective by investing, under normal market conditions, at least 80% of its net assets, plus any borrowings for investment purposes, in MLP investments; up to 50% of its managed assets in securities of MLPs and other natural resource companies that are not publicly traded, or that are otherwise restricted securities; up to 20% of its managed assets in securities of companies that are not MLPs, including other natural resource companies, and U.S. and non-U.S. issuers that may not constitute other

Table of Contents

natural resource companies; and up to 20% of its managed assets in debt securities of MLPs, other natural resource companies and other issuers.

4. Agreements and Related Party Transactions

The Fund has entered into an Investment Management Agreement with the Advisor. Under the terms of the agreement, the Fund will pay the Advisor a fee, payable at the end of each calendar month, at an annual rate equal to 1.25% of the average weekly value of the Fund's managed assets during such month for the services and facilities provided by the Advisor to the Fund. The Advisor announced on December 19, 2008 that it will temporarily reduce the advisory fee charged to the Fund from an annual rate of 1.25% to 1.00%. Subsequently, the Advisor increased the advisory fee back to 1.25% beginning February 1, 2010. The Advisor earned \$821,936 in advisory fees for the period ended May 31, 2010.

The Fund has engaged U.S. Bancorp Fund Services, LLC to serve as the Fund's administrator. The Fund pays the administrator a monthly fee computed at an annual rate of 0.08 percent of the first \$100,000,000 of the Fund's managed assets, 0.05 percent on the next \$200,000,000 of managed assets and 0.04 percent on the balance of the Fund's managed assets, with a minimum annual fee of \$40,000.

Computershare Trust Fund, N.A. serves as the Fund's transfer agent, dividend paying agent, and agent for the automatic dividend reinvestment plan.

U.S. Bank, N.A. serves as the Fund's custodian. The Fund pays the custodian a monthly fee computed at an annual rate of 0.004 percent of the Fund's daily market value, with a minimum annual fee of \$4,800.

5. Income Taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting

Table of Contents

and tax purposes. Components of the Fund's deferred tax assets and liabilities as of May 31, 2010, are as follows:

Deferred tax assets:		
Net operating loss carryforward	\$	10,915,134
Capital loss carryforward		37,979,912
Total deferred tax assets		48,895,046
Deferred tax liabilities:		
Unrealized gain on investment securities		10,813,006
Net deferred tax asset before valuation allowance		38,082,040
Valuation allowance		(38,082,040)
Net deferred tax asset	\$	

The net operating loss carryforward and capital loss carryforward are available to offset future taxable income. For the period ended May 31, 2010, before the application of valuation allowance, the components of income tax expense include \$292,557 and \$40,446 for deferred federal and state income tax expense, respectively. The Fund has the following net operating loss and capital loss amounts:

Net Operating Loss	Amount	Expiration
Year ended November 30, 2007	\$ 440,000	November 30, 2027
Year ended November 30, 2008	6,961,000	November 30, 2028
Year ended November 30, 2009	16,306,000	November 30, 2029
Total Net Operating Loss	\$ 23,707,000	
 <u>Capital Loss</u>		
Year ended November 30, 2007	\$ 699,000	November 30, 2012
Year ended November 30, 2008	64,139,000	November 30, 2013
Year ended November 30, 2009	36,470,000	November 30, 2014
Total Capital Loss	\$ 101,308,000	

For corporations, capital losses can only be used to offset capital gains and cannot be used to offset ordinary income. As such, none of the capital loss was used to offset investment income. The capital loss may be carried forward for 5 years and, accordingly, would begin to expire as of November 30, 2012. The net operating loss can be carried forward for 20 years and, accordingly, would begin to expire as of November 30, 2027.

Table of Contents

The Fund has recorded a valuation allowance for the full amount of the deferred tax asset as the Fund believes it is more likely than not that the asset will not be utilized.

Total income tax benefit (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 35 percent to net investment income and realized and unrealized gains (losses) on investments before taxes for the period ended May 31, 2010, as follows:

Application of statutory income tax rate	\$	408,000
State income taxes (net of federal benefit)		35,000
Non-deductible expenses		120,000
Dividends received deduction		(230,000)
Change in valuation allowance		(333,000)
 Total tax expense	 \$	

The decrease in the valuation allowance was due to a decrease in the net deferred tax asset of \$333,000 during the period ended May 31, 2010.

At May 31, 2010, the cost basis of investments was \$128,718,371 and gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

Gross unrealized appreciation	\$	30,370,184
Gross unrealized depreciation		(5,263,707)
 Net unrealized appreciation	 \$	 25,106,477

The Fund files a U.S. tax return. No income tax returns are currently under examination. The statute of limitations of the Fund's tax return remains open for the years ended November 30, 2007, November 30, 2008 and November 30, 2009. Due to the nature of the Fund's investments, the Fund may be required to file income tax returns in several states.

6. Fair Value Measurements

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and

8. Investment Transactions

For the period ended May 31, 2010, the Fund purchased (at cost) and sold securities (proceeds) in the amount of \$233,858,342 and \$172,058,967 (excluding short-term securities), respectively, and made purchases to cover investments sold short and received proceeds from investments sold short in the amount of \$12,366,449 and \$12,194,808, respectively.

9. Common Stock

The Fund has 92,500,000 shares of capital stock authorized and 17,174,858 shares outstanding at May 31, 2010. Transactions in common stock for the period ended May 31, 2010 were as follows:

Shares at November 30, 2009	11,247,598
Shares sold through additional offerings	5,850,000
Shares issued through reinvestment of distributions	77,260
Shares at May 31, 2010	17,174,858

10. Borrowing Facilities

The Fund maintains a margin account arrangement with Credit Suisse. The interest rate charged on margin borrowing is tied to the cost of funds for

Credit Suisse (which approximates LIBOR plus 0.30 percent). Proceeds from the margin account arrangement are used to execute the Fund's investment objective.

The average principal balance and interest rate for the period during which the credit facilities were utilized during the period ended May 31, 2010 was approximately \$42,245,000 and 0.66 percent, respectively. At May 31, 2010, the principal balance outstanding was \$47,800,000 and accrued interest expense was \$149,568.

11. Subsequent Events

On June 11, 2010, the Fund issued 50,868 shares through its dividend reinvestment plan. On July 14, 2010, the Fund sold 8,625,000 common shares in a registered public offering at a price of \$8.08 per share. After these share issuances and sales, the Fund's total common shares outstanding were 25,850,726.
