Effective in 2008, a change in accounting policy was adopted with regard to the calculation of the portfolio turnover rate to include

cash proceeds due to mergers. Had this policy been adopted retroactively, the portfolio turnover rate for the years ended December 31, 2007, 2006, and 2005 would have been 27.3%, 33.1%, and 27.0%, respectively.

THE GABELLI EQUITY TRUST INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Organization. The Gabelli Equity Trust Inc. (the Equity Trust) is a non-diversified closed-end management investment company organized as a Maryland corporation on May 20, 1986 and registered under the Investment Company Act of 1940, as amended (the 1940 Act), whose primary objective is long-term growth of capital. Investment operations commenced on August 21, 1986.

The Equity Trust will invest at least 80% of its assets in equity securities under normal market conditions (the 80% Policy). The 80% Policy may be changed without shareholder approval. The Equity Trust will provide shareholders with notice at least sixty days prior to the implementation of any changes in the 80% Policy.

2. Significant Accounting Policies. The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) has become the exclusive reference of authoritative United States of America (U.S.) generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The ASC has superseded all existing non-SEC accounting and reporting standards. The Fund s financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market s official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of sixty days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than sixty days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. U.S. government obligations with maturities greater than sixty days are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

THE GABELLI EQUITY TRUST INC.
NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and

Level 3 significant unobservable inputs (including the Fund's determinations as to the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities and other financial instruments by inputs used to value the Fund's investments as of June 30, 2010 is as follows:

The Fund's policy is to recognize transfers into and transfers out of Level

3 as of the beginning of the reporting period.

In January 2010, the FASB issued amended guidance to improve disclosure about fair value measurements which requires additional disclosures about transfers between Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). It also clarifies existing disclosure requirements relating to the levels of disaggregation of fair value measurement and inputs and valuation techniques used to measure fair value. Disclosures about purchases, sales, issuances, and settlements in the rollforward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. Management is currently evaluating the implications of this guidance on the Fund's financial statements. The remainder of the amended guidance is effective for financial statements for fiscal years beginning after December 15, 2009 and interim periods within those fiscal years. Management has evaluated the impact of this guidance on the Fund's financial statements and determined that there is no impact as of June 30, 2010.

Derivative Financial Instruments.

The Fund may engage in various portfolio investment strategies by investing in a number of derivative financial instruments for the purpose of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or that, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative

THE GABELLI EQUITY TRUST INC.

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

The Fund's derivative contracts held at June 30, 2010, if any, are not accounted for as hedging instruments under GAAP.

Options. The Fund may purchase or write call or put options on securities or indices for the purpose of achieving additional return or of hedging the value of the Fund's portfolio. As a writer of put options, the Fund receives a premium at the outset and then bears the risk of unfavorable changes in the price of the financial instrument underlying the option. The Fund would incur a loss if the price of the underlying financial instrument decreases between the date the option is written and the date on which the option is terminated. The Fund would realize a gain, to the extent of the premium, if the price of the financial instrument increases between those dates. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a written put option is exercised, the premium reduces the cost basis of the security.

As a purchaser of put options, the Fund pays a premium for the right to sell to the seller of the put option the underlying security at a specified price. The seller of the put has the obligation to purchase the underlying security upon exercise at the exercise price. If the price of the underlying security declines, the Fund would realize a gain upon sale or exercise. If the price of the underlying security increases or stays the same, the Fund would realize a loss upon sale or at the expiration date, but only to the extent of the premium paid.

In the case of call options, these exercise prices are referred to as in-the-money, at-the-money, and out-of-the-money, respectively. The Fund may write (a) in-the-money call options when the Adviser expects that the price of the underlying security will remain stable or decline during the option period, (b) covered at-the-money call options when the Adviser expects that the price of the underlying security will remain stable, decline, or advance moderately during the option period, and (c) out-of-the-money call options when the Adviser expects that the premiums received from writing the call option will be greater than the appreciation in the price of the underlying security above the exercise price. By writing a call option, the Fund limits its opportunity to profit from any increase in the market value of the underlying security above the exercise price of the option. Out-of-the-money, at-the-money, and in-the-money put options (the reverse of call options as to the relation of exercise price to market price) may be utilized in the same market environments that such call options are used in equivalent transactions. During the six months ended June 30, 2010 the Fund had no investments in options.

Swap Agreements. The Fund may enter into equity, contract for difference, and interest rate swap or cap transactions for the purpose of increasing the income of the Fund or to hedge or protect its exposure to interest rate movements and movements in the securities markets. The use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an interest rate swap, the Fund would agree to pay periodically to the other party (which is known as the counterparty) a fixed rate payment in exchange for the counterparty agreeing to pay to the Fund periodically a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on Series C Cumulative Preferred Stock and Series E Cumulative Preferred Stock. In an interest rate cap, the Fund would pay a premium to the counterparty and, to the extent that a specified variable rate index exceeds a predetermined fixed rate, would receive from that counterparty payments of the difference based on the notional amount of such cap. Swap and cap transactions introduce additional risk because the Fund would remain obligated to pay preferred stock dividends when due in accordance with the Articles Supplementary even if the counterparty defaulted. In a swap, a set of future cash flows is exchanged between two counterparties. One of these cash

THE GABELLI EQUITY TRUST INC.**NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)**

flow streams will typically be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. Depending on the general state of short-term interest rates and the returns on the Fund's portfolio securities at the time a swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability in the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized gain or loss in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. During the six months ended June 30, 2010, the Fund had no investments in interest rate swap agreements. The Fund has entered into an equity contract for difference swap agreement with The Goldman Sachs Group, Inc. Details of the swap at June 30, 2010 are as follows:

Notional Amount	Equity Security Received	Interest Rate/ Equity Security Paid	Termination Date	Net Unrealized Depreciation
		One month LIBOR plus 90 bps plus Market Value Depreciation on:		
\$1,602,324 (180,000 Shares)	Market Value Appreciation on: Rolls-Royce Group plc	Rolls-Royce Group plc	6/27/11	\$ (89,883)

The Fund's volume of activity in equity contract for difference swap agreements during the six months ended June 30, 2010 had an average monthly notional amount of approximately \$1,533,839.

As of June 30, 2010, the value of equity contract for difference swap agreements that were held with equity risk exposure can be found in the Statement of Assets and Liabilities under Liabilities, Unrealized depreciation on swap contracts.

For the six months ended June 30, 2010, the effect of equity contract for difference swap agreements with equity risk exposure can be found in the Statement of Operations under Net Realized and Unrealized Gain/(Loss) on Investments, Swap Contracts, and Foreign Currency, Net realized gain on swap contracts and Net change in unrealized depreciation on swap contracts.

Futures Contracts. The Fund may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuations in the value of the contract, and are included in unrealized appreciation/depreciation on futures contracts. The Fund recognizes a realized gain or loss when the contract is closed. There are several risks in connection with the use of futures contracts as a hedging instrument. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. During the six months ended June 30, 2010, the Fund had no investments in futures contracts.

Forward Foreign Exchange Contracts. The Fund may engage in forward foreign exchange contracts for the purpose of hedging a specific transaction with respect to either the currency in which the transaction is denominated or another currency as deemed appropriate by the Adviser. Forward foreign exchange contracts are valued at the forward rate and are

marked-to-market daily. The change in market value is included in unrealized appreciation/depreciation on investments and foreign currency translations. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts. During the six months ended June 30, 2010, the Fund had no investments in forward foreign exchange contracts.

Repurchase Agreements. The Fund may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Board, with member banks of the Federal Reserve System, or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. It is the policy of the Fund to receive and maintain securities as collateral whose market value is not less than their repurchase price. The Fund will make payment for such securities only upon physical delivery or upon evidence of book entry transfer of the collateral to the account of the custodian. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. At June 30, 2010, there were no open repurchase agreements.

Investments in other Investment Companies. The Fund may invest, from time to time, in shares of other investment companies (or entities that would be considered investment companies but are excluded from the definition pursuant to certain exceptions under the 1940 Act) (the Acquired Funds) in accordance with the 1940 Act and related rules. As a shareholder in the Fund, you would bear the pro rata portion of the periodic expenses of the Acquired Funds in addition to the Fund's expenses. For the six months ended June 30, 2010, the Fund's pro rata portion of the periodic expenses charged by the Acquired Funds was less than one basis point.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/loss on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible

THE GABELLI EQUITY TRUST INC.

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

reevaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted and Illiquid Securities. The Fund may invest up to 10% of its net assets in securities for which the markets are illiquid. Illiquid securities include securities the disposition of which is subject to substantial legal or contractual restrictions. The sale of illiquid securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Board will monitor their liquidity. The Fund held no illiquid securities at June 30, 2010. For the restricted securities the Fund held as of June 30, 2010, refer to the Schedule of Investments.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date except for certain dividends which are recorded as soon as the Fund is informed of the dividend.

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as custodian fee credits. When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 110% of the 90 day Treasury Bill rate on outstanding balances. This amount, if any, would be included in interest expense in the Statement of Operations. There were no custodian fee credits earned during the six months ended June 30, 2010.

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

Under the Fund's distribution policy, the Fund declares and pays quarterly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the year. Pursuant to this policy, distributions during the year may be made in excess of required distributions. To the extent such distributions

THE GABELLI EQUITY TRUST INC.**NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)**

are made from current earnings and profits, they are considered ordinary income or long-term capital gains. The Fund's current distribution policy may restrict the Fund's ability to pass through to shareholders all of its net realized long-term capital gains as a Capital Gain Dividend, subject to the maximum federal income tax rate of 15%, and may cause such gains to be treated as ordinary income subject to a maximum federal income tax rate of 35%. The Board will continue to monitor the Fund's distribution level, taking into consideration the Fund's net asset value (NAV) and the financial market environment. The Fund's distribution policy is subject to modification by the Board at any time.

Distributions to shareholders of the Fund's Series C Auction Rate Cumulative Preferred Stock, 5.875% Series D Cumulative Preferred Stock, Series E Auction Rate Cumulative Preferred Stock, and 6.20% Series F Cumulative Preferred Stock (Cumulative Preferred Stock) are recorded on a daily basis and are determined as described in Note 5.

The tax character of distributions paid during the year ended December 31, 2009 was as follows:

	Common	Preferred
Distributions paid from:		
Ordinary income (inclusive of net short-term capital gains)	\$ 17,615	\$ 12,991,753
Return of capital	127,616,760	
 Total distributions paid	 \$ 127,634,375	 \$ 12,991,753

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of December 31, 2009, the components of accumulated earnings/losses on a tax basis were as follows:

Accumulated capital loss carryforwards	\$ (59,042,461)
Net unrealized appreciation on investments, swap contracts, and foreign currency translations	149,763,255
Other temporary differences*	(114,231)
 Total	 \$ 90,606,563

* Other temporary differences are primarily due to adjustments on preferred share class distribution payables, income from investments in hybrid securities, and swap mark-to-market and accrual

adjustments.

At December 31, 2009, the Fund had net capital loss carryforwards for federal income tax purposes of \$59,042,461 which are available to reduce future required distributions of net capital gains to shareholders. \$5,677,941 of the loss carryforward is available through 2016; and \$53,364,520 is available through 2017.

The following summarizes the tax cost of investments and the related net unrealized appreciation/depreciation at June 30, 2010:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Investments	\$1,015,325,869	\$296,652,218	\$(184,653,993)	\$111,998,225

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement

THE GABELLI EQUITY TRUST INC.

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2010, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2010, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. Tax years ended December 31, 2007 through December 31, 2009 remain subject to examination by the Internal Revenue Service and state taxing authorities. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Agreements and Transactions with Affiliates. The Fund has entered into an investment advisory agreement (the Advisory Agreement) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs. The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Cumulative Preferred Stock if the total return of the NAV of the common shares of the Fund, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or corresponding swap rate of each particular series of the Cumulative Preferred Stock for the year.

The Fund's total return on the NAV of the common shares is monitored on a monthly basis to assess whether the total return on the NAV of the common shares exceeds the stated dividend rate or the corresponding swap rate of each particular series of Cumulative Preferred Stock for the period. For the six months ended June 30, 2010, the Fund's total return on the NAV of the common shares did not exceed the stated dividend rate or the corresponding swap rate of the outstanding Preferred Stock. Thus, advisory fees with respect to the liquidation value of the Preferred Stock assets were reduced by \$1,514,234.

During the six months ended June 30, 2010, the Fund paid brokerage commissions on security trades of \$86,474 to Gabelli & Company, Inc. (Gabelli & Co.), an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. During the six months ended June 30, 2010, the Fund paid or accrued \$22,500 to the Adviser in connection with the cost of computing the Fund's NAV.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser) and pays its allocated portion of the cost of the Fund's Chief Compliance Officer. For the six months ended June 30, 2010, the Fund paid or accrued \$83,163 in payroll expenses in the Statement of Operations.

The Fund pays each Director who is not considered an affiliated person an annual retainer of \$12,000 plus \$1,500 for each Board meeting attended. Each Director is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended, the Audit Committee Chairman receives an annual fee of \$3,000, the Proxy Voting Committee Chairman receives an annual fee of \$1,500, the Nominating Committee Chairman receives an annual fee of \$2,000, and the Lead Director receives an annual fee of \$1,000. A Director may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Directors who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities for the six months ended June 30, 2010, other than short-term securities and U.S. Government obligations, aggregated \$17,317,228 and \$53,731,446, respectively.

Sales of U.S. Government obligations for the six months ended June 30, 2010, other than short-term obligations, aggregated \$375,449.

5. Capital. The charter permits the Fund to issue 246,000,000 shares of common stock (par value \$0.001) and authorizes the Board to increase its authorized shares from time to time. The Board has authorized the repurchase of its shares on the open market when the shares are trading on the NYSE at a discount of 10% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the year ended December 31, 2009, the Fund did not repurchase any shares of its common stock in the open market. During the six months ended June 30, 2010, the Fund did not have any transactions in common shares.

Transactions in common shares for the year ended December 31, 2009 were as follows:

	Year Ended	
	December 31, 2009	
	Shares	Amount
Net increase from shares issued upon reinvestment of distributions	5,943,836	\$26,068,179

The Fund's Articles of Incorporation, as amended, authorizes the issuance of up to 18,000,000 shares of \$0.001 par value Cumulative Preferred Stock. The Cumulative Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Cumulative Preferred Stock are cumulative. The Fund is required by the 1940 Act and by the Articles Supplementary to meet certain asset coverage tests with respect to the Cumulative Preferred Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series C Auction Rate, 5.875% Series D, Series E Auction Rate, and 6.20% Series F Cumulative Preferred Stock at redemption prices of \$25,000, \$25, \$25,000, and \$25, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

A shelf registration authorizing the offering of an additional \$500,000,000 of preferred shares was declared effective by the SEC on March 20, 2008.

On June 27, 2002, the Fund received net proceeds of \$128,246,557 (after underwriting discounts of \$1,300,000 and offering expenses of \$453,443) from the public offering of 5,200 shares of Series C Auction Rate Cumulative Preferred Stock (Series C Stock). The dividend rate, as set by the auction process, which is generally held every seven days, is expected to vary with short-term interest rates. Since February 2008, the number of Series C Stock subject to bid orders by potential holders has been less than the number of Series C Stock subject to sell orders. Therefore, the weekly auctions have failed, and the dividend rate has been the maximum rate. Holders that have submitted sell orders have not been able to sell any or all of the Series C Stock for which they have submitted sell orders. The current maximum rate is 150% of the AA Financial Composite Commercial Paper Rate. The dividend rates of Series C Stock ranged from 0.105% to

0.420% during the six months ended June 30, 2010. Existing shareholders may submit an order to hold, bid, or sell such shares on each auction date. Shareholders of Series C Stock may also trade their shares in the secondary market. The Fund, at its option, may redeem the Series C Stock in whole or in part at the redemption price at any time. There were no redemptions of Series C Stock during the six months ended June 30, 2010. At June 30, 2010, 2,880 shares of Series C Stock were outstanding with an annualized dividend rate of 0.255% and accrued dividends amounted to \$510.

On October 7, 2003, the Fund received net proceeds of \$72,375,842 (after underwriting discounts of \$2,362,500 and offering expenses of \$261,658) from the public offering of 3,000,000 shares of 5.875% Series D Cumulative Preferred Stock (Series D Stock). Commencing October 7, 2008 and thereafter, the Fund, at its option, may redeem the Series D Stock in whole or in part at the redemption price at any time. The Board has authorized the repurchase of Series D Stock in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2010, the Fund did not repurchase any shares of 5.875% Series D Cumulative Preferred Stock. At June 30, 2010, 2,363,860 shares of 5.875% Series D Stock were outstanding and accrued dividends amounted to \$28,932.

On October 7, 2003, the Fund received net proceeds of \$49,350,009 (after underwriting discounts of \$500,000 and offering expenses of \$149,991) from the public offering of 2,000 shares of Series E Auction Rate Cumulative Preferred Stock (Series E Stock). The dividend rate, as set by the auction process, which is generally held every seven days, is expected to vary with short-term interest rates. Since February 2008, the number of Series E Stock subject to bid orders by potential holders has been less than the number of Series E Stock subject to sell orders. Therefore, the weekly auctions have failed, and the dividend rate has been the maximum rate. In that event, holders that have submitted sell orders have not been able to sell any or all of the Series E Stock for which they have submitted sell orders. The current maximum rate is 150% of the AA Financial Composite Commercial Paper Rate. The dividend rates of Series E Stock ranged from 0.090% to 0.525% during the six months ended June 30, 2010. Existing shareholders may submit an order to hold, bid, or sell such shares on each auction date. Shareholders of Series E Stock may also trade shares in the secondary market. The Fund, at its option, may redeem the Series E Stock in whole or in part at the redemption price at any time. There were no redemptions of Series E Stock during the six months ended June 30, 2010. At June 30, 2010, 1,120 shares of Series E Stock were outstanding with an annualized dividend rate of 0.300% and accrued dividends amounted to \$1,400.

On November 10, 2006, the Fund received net proceeds of \$144,765,000 (after underwriting discounts of \$4,725,000 and estimated offering expenses of \$510,000) from the public offering of 6,000,000 shares of 6.20% Series F Cumulative Preferred Stock (Series F Stock). Commencing November 10, 2011 and thereafter, the Fund, at its option, may redeem the 6.20% Series F Stock in whole or in part at the redemption price at any time. The Board has authorized the repurchase of Series F Stock in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2010, the Fund did not repurchase any shares of 6.200% Series F Cumulative Preferred Stock. At June 30, 2010, 5,850,402 shares of Series F Stock were outstanding and accrued dividends amounted to \$75,568.

The holders of Cumulative Preferred Stock generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common stock as a single class. The holders of Cumulative Preferred Stock voting together as a single class also have the right currently to elect two Directors and under certain circumstances are entitled to elect a majority of the Board of Directors. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the preferred stock, voting as a single class, will be required to approve any plan of reorganization adversely affecting the preferred stock, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding preferred stock and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

7. Other Matters. On April 24, 2008, the Investment Adviser entered into a settlement with the SEC to resolve an inquiry regarding prior frequent trading activity in shares of the GAMCO Global Growth Fund (the Global Growth Fund) by one investor who was banned from the Global Growth Fund in August 2002. In an administrative order that was entered in connection with the settlement, the SEC found that the Investment Adviser had willfully violated Section 206(2) of the Investment Advisers Act of 1940, Section 17(d) of the 1940 Act and Rule 17d-1 thereunder, and had willfully aided and abetted and caused violations of Section 12(d)(1)(B)(i) of the 1940 Act. Under the terms of the settlement, the Investment Adviser, while neither admitting nor denying the SEC's findings and allegations, paid \$16 million (which included a \$5 million civil monetary penalty), approximately \$12.8 million of which is in the process of being paid to shareholders of the Global Growth Fund in accordance with a plan developed by an independent distribution consultant and approved by the independent directors of the Global Growth Fund and acceptable to the staff of the SEC, and agreed to cease and desist from future violations of the above referenced federal securities laws. The SEC's order also noted the cooperation that the Investment Adviser gave the staff of the SEC. The settlement will not have a material adverse impact on the Investment Adviser or its ability to fulfill its obligations under the Investment Advisory Agreement. On the same day, the SEC filed a civil action against the Executive Vice President and Chief Operating Officer of the Investment Adviser, alleging violations of certain federal securities laws arising from the same matter. The officer is also an officer of the Fund, the Global Growth Fund, and other funds in the Gabelli/GAMCO fund complex. The officer denied the allegations and is continuing in his positions with the Investment Adviser and the funds. The court dismissed certain claims, finding that the SEC was not entitled to pursue various remedies against the officer while leaving one remedy in the event the SEC were able to prove violations of law. The court, in response to a motion by the SEC, subsequently dismissed the remaining remedy without prejudice against the officer, which would allow the SEC to appeal the court's rulings. The Investment Adviser currently expects that any resolution of the action against the officer will not have a material adverse impact on the Investment Adviser or its ability to fulfill its obligations under the Investment Advisory Agreement.

8. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

Certifications

The Fund's Chief Executive Officer has certified to the New York Stock Exchange (NYSE) that, as of June 30, 2010, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund reports to the SEC on Form N-CSR which contains certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's disclosure in such reports and that are required by Rule 30a-2(a) under the 1940 Act.

THE GABELLI EQUITY TRUST INC.

Board Consideration and Re-Approval of Investment Advisory Agreement (Unaudited)

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act), contemplates that the Board of Directors (the Board) of The Gabelli Equity Trust Inc. (the Fund), including a majority of the Directors who have no direct or indirect interest in the investment advisory agreement and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Board Members), are required to annually review and re-approve the terms of the Fund's existing investment advisory agreement and approve any newly proposed terms therein. In this regard, the Board reviewed and re-approved, during the most recent six month period covered by this report, the Investment Advisory Agreement (the Advisory Agreement) with Gabelli Funds, LLC (the Adviser) for the Fund. More specifically, at a meeting held on May 19, 2010, the Board, including the Independent Board Members, considered the factors and reached the conclusions described below relating to the selection of the Adviser and the re-approval of the Advisory Agreement.

Nature, Extent, and Quality of Services. The Independent Board Members considered the nature, quality, and extent of administrative and shareholder services performed by the Adviser, including portfolio management, supervision of Fund operations and compliance and regulatory filings and disclosures to shareholders, general oversight of other service providers, review of Fund legal issues, assisting the Independent Board Members in their capacity as directors, and other services. The Independent Board Members concluded that the services are extensive in nature and that the Adviser consistently delivered a high level of service.

Investment Performance of the Fund and Adviser. The Independent Board Members considered short-term and long-term investment performance for the Fund over various periods of time as compared with relevant equity indices and the performance of other equity closed-end funds. The Independent Board Members noted that the Fund's total return performance was above the peer average for one, five, and ten year periods ended March 31, 2010 and below the average for the three year period. The Independent Board Members concluded that the Adviser was delivering satisfactory performance results consistent with the investment strategies being pursued by the Fund.

Costs of Services and Profits Realized by the Adviser.

(a) Costs of Services to Fund: Fees and Expenses. The Independent Board Members considered the Fund's management fee rate and expense ratio relative to industry averages for the Fund's peer group category and the advisory fees charged by the Adviser and its affiliates to other fund and non-fund clients. The Independent Board Members noted that the mix of services under the Advisory Agreement is much more extensive than those under the advisory agreements for non-fund clients. The Independent Board Members noted that the other expenses paid by the Fund and the Fund's overall expense ratio are below the average for its peer group but that the advisory fee was above the average at the high end of advisory fees for peer funds. They took note of the fact that the use of leverage impacts comparative expenses. The Independent Board Members were aware that the Adviser waives its fee on the incremental liquidation value of the Fund's preferred stock if the total return on net asset value of the common stock does not exceed the stated dividend rate or net swap expense for the preferred stock for the year after consideration of the reinvestment of distributions and the management fees attributable to the incremental value of the preferred stock, and that the comparative total expense ratio and other expense information reflected these waivers. The Independent Board Members concluded that the fee is acceptable based upon the qualifications, experience, reputation, and performance of the Adviser.

(b) Profitability and Costs of Services to Adviser. The Independent Board Members considered the Adviser's overall profitability and costs, and pro forma estimates of the Adviser's profitability and costs attributable to the Fund: (i) as part of the Gabelli/GAMCO fund complex; and (ii) assuming the Fund constituted the Adviser's only investment company under its management. The Independent Board Members also considered whether the amount of profit is a fair entrepreneurial profit for the management of the Fund, and noted that the Adviser has substantially increased its resources devoted to Fund matters in response to regulatory requirements and new or enhanced Fund policies and procedures. The Independent Board Members concluded that the Adviser's profitability was at an acceptable level.

Extent of Economies of Scale as Fund Grows. The Independent Board Members considered whether there have been economies of scale with respect to the management of the Fund and whether the Fund has appropriately benefited from any economies of scale. The Independent Board Members noted that economies of scale may develop for certain funds as their assets increase and their fund level expenses decline as a percentage of assets, but that fund level economies of scale may not necessarily result in Adviser level economies of scale. They also recognized that the Adviser has agreed to reduce the management fee on incremental assets attributable to the preferred shares if the total return of the common shares does not exceed a specified amount, e.g., the dividend rate paid on preferred shares or net swap expenses for the year after consideration of reinvestment of distributions and the management fees attributable to the increment of liquidation value of the preferred stock. The Independent Board Members concluded that there was an appropriate sharing of economies of scale.

Whether Fee Levels Reflect Economies of Scale. The Independent Board Members also considered whether the management fee rate is reasonable in relation to the asset size of the Fund and any economies of scale that may exist, and concluded that the Fund's current fee schedule (without breakpoints) was considered reasonable.

Other Relevant Considerations.

(a) Adviser Personnel and Methods. The Independent Board Members considered the size, education, and experience of the Adviser's staff, the Adviser's fundamental research capabilities, and the Adviser's approach to recruiting, training, and retaining portfolio managers and other research and management personnel, and concluded that in each of these areas the Adviser was structured in such a way to support the high level of services being provided to the Fund.

(b) Other Benefits to the Adviser. The Independent Board Members also considered the character and amount of other incidental benefits received by the Adviser and its affiliates from its association with the Fund. The Independent Board Members considered the brokerage commissions paid to an affiliate of the Adviser. The Independent Board Members concluded that potential fall-out benefits that the Adviser and its affiliates may receive, such as affiliated brokerage commissions, greater name recognition, or increased ability to obtain research services, appear to be reasonable, and may in some cases benefit the Fund.

Conclusions. In considering the Advisory Agreement, the Independent Board Members did not identify any factor as all important or all controlling, and instead considered these factors collectively in light of the Fund's surrounding circumstances. Based on this review, it was the judgment of the Independent Board Members that shareholders had received satisfactory absolute and relative performance consistent with the investment strategies being pursued by the Fund at reasonable fees and, therefore, re-approval of the Advisory Agreement was in the best interests of the Fund and its shareholders. As a part of its decision making process, the Independent Board Members noted that the Adviser has managed the Fund since its inception, and the Independent Board Members believe that a long-term relationship with a capable, conscientious adviser is in the best interests of the Fund. The Independent Board Members considered, generally, that shareholders invested in the Fund knowing that the Adviser managed the Fund and knowing its investment management fee schedule. As such, the Independent Board Members considered, in particular, whether the Adviser managed the Fund in accordance with its investment objectives and policies as disclosed to shareholders. The Independent Board Members concluded that the Fund was managed by the Adviser consistent with its investment objectives and policies.

**AUTOMATIC DIVIDEND REINVESTMENT
AND VOLUNTARY CASH PURCHASE PLANS**

Enrollment in the Plan

It is the policy of The Gabelli Equity Trust Inc. (the Fund) to automatically reinvest dividends payable to common shareholders. As a registered shareholder you automatically become a participant in the Fund's Automatic Dividend Reinvestment Plan (the Plan). The Plan authorizes the Fund to credit shares of common stock to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their stock certificates to Computershare Trust Company, N.A. (Computershare) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

The Gabelli Equity Trust Inc.
c/o Computershare
P.O. Box 43010
Providence, RI 02940-3010

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan, may contact Computershare at (800) 336-6983.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of street name and re-registered in your own name. Once registered in your own name your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in street name at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of shares of common stock distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund's common stock is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued shares of common stock valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund's common stock. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange (NYSE) trading day, the next trading day. If the net asset value of the common stock at the time of valuation exceeds the market price of the common stock, participants will receive shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, Computershare will buy common stock in the open market, or on the NYSE or elsewhere, for the participants' accounts, except that Computershare will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common stock exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to Computershare for investments in the Fund's shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. Computershare will use these funds to purchase shares in the open market on or about the 1st

and 15th of each month. Computershare will charge each shareholder who participates \$0.75, plus a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to Computershare, P.O. Box 43010, Providence, RI 02940 3010 such that Computershare receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by Computershare at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at Computershare must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$2.50 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by Computershare on at least 90 days written notice to participants in the Plan.
