PART III**Item 10. Directors, Executive Officers and Corporate Governance**

Our Amended and Restated Bylaws provide that the number of directors shall be set by our Board of Directors, or the Board, but in any case shall not be less than five and not more than nine. The Board has set the number of directors at six. The Board is divided into three classes, with each class being as nearly equal in number of directors as possible. The term of a class expires, and their successors are elected for a term of three years, at each annual meeting of our stockholders.

The Class I directors, Robert L. Harris, II, and Fred A deBoom, are scheduled to serve until the Annual Meeting of Stockholders in 2013. The Class II directors, Edward W. Frykman, and William S. Anderson, are scheduled to serve until the Annual Meeting of Stockholders in 2011. The Class III directors, Paul R. Ryan, and G. Louis Graziadio, III, are scheduled to serve until the annual meeting of stockholders in 2012.

We believe Mr. Anderson's qualifications to serve on the Board include his legal training and experience and extensive business experience having held senior management positions at several different companies.

We believe that Mr. Ryan's qualifications to serve on the Board include his 14-year tenure as our Chief Executive Officer and his 16-year tenure as a member of the Board, during which time he has gained a unique and extensive understanding of our company, our business, our long term strategy and the industry in which we operate, and his extensive experience in the field of finance.

Family Relationships

There are no family relationships between any of our directors or executive officers.

Board Leadership Structure

Our Amended and Restated Bylaws provide our Board with flexibility to combine or separate the positions of Chairman of the Board and Chief Executive Officer in accordance with its determination that utilizing one or the other structure is in the best interests of our company. Currently, Mr. Ryan serves as both Chairman of the Board and Chief Executive Officer. Our Board does not currently have a lead independent director. Our Board has determined that this structure is the most effective leadership structure for our company at this time. The Board believes that Mr. Ryan is the director best situated to identify strategic opportunities for our company and focus the activities of the Board due to his full-time commitment to the business and long tenure with our company. The Board also believes that Mr. Ryan's service as both Chairman of the Board and Chief Executive Officer promotes effective execution of our business strategy and facilitates information flow between management and the Board. Our Board has determined that maintaining the independence of a majority of our directors helps maintain the Board's independent oversight of management. In addition, our Audit, Compensation and Nominating and Governance Committees, which oversee critical matters such as our accounting principles, financial reporting practices and system of disclosure controls and internal controls over financial reporting, our executive compensation program and the selection and evaluation of our directors and director nominees, each consist entirely of independent directors.

Audit Committee and Audit Committee Financial Expert

The Audit Committee currently consists of Messrs. deBoom, Frykman and Anderson, each of whom is independent under the listing standards of the Nasdaq Stock Market. The Audit Committee is responsible for retaining, evaluating and, if appropriate, recommending the termination of our independent registered public accounting firm and is primarily responsible for approving the services performed by our independent registered public accounting firm and for reviewing and evaluating our accounting principles, financial reporting practices and system of internal accounting controls. The Audit Committee held four meetings during the fiscal year ended December 31, 2010. The Audit Committee is also responsible for maintaining communication between the Board and our independent registered

public accounting firm.

Table of Contents

The Board has determined that Mr. deBoom is an audit committee financial expert as defined by Item 407(d)(5)(ii) of Regulation S-K.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers and holders of more than 10% of our common stock to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock. We believe that, based on the written representations of our directors and officers, and the copies of reports filed with the SEC during the fiscal year ended December 31, 2010, our directors, officers and holders of more than 10% of our common stock complied with the requirements of Section 16(a) except that Fred A. deBoom was delinquent in the filing of Form 4 relating to a sale of stock on August 10, 2010 and Edward W. Frykman was delinquent in the filing of his Form 4 relating to a stock option exercise on December 8, 2010.

Codes of Conduct

We have adopted a corporate Code of Conduct and a Board of Directors Code of Conduct, both of which may be viewed on our website at www.acaciaresearch.com. The corporate Code of Conduct applies to all of our officers, directors and employees, including our principal executive officer, principal financial and accounting officer and controller, or persons performing similar functions. The Board of Directors Code of Conduct specifically applies to the Board. Any waiver of these Codes of Conduct for any of our executive officers or directors may be made only by the Board and must be promptly disclosed to stockholders in the manner required by applicable law.

Item 11. Executive Compensation

Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of these policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to, and earned by, (a) our principal executive officer and principal financial officer and (b) our three most highly compensated executive officers, other than the principal executive officer and principal financial officer, which we refer to herein collectively as our named executive officers.

Current Compensation Philosophy and Objectives

Objectives of Compensation Program

The objective of our compensation program for our named executive officers is to motivate and reward fairly those individuals who perform over time at or above the levels that we expect and to attract, as needed, individuals with the skills necessary to achieve our objectives. Our compensation program is also designed to reinforce a sense of ownership and urgency and to link rewards to measurable corporate performance goals.

Compensation Elements

Our compensation program currently has four primary components:

base salary;

cash bonuses;

equity awards granted under our stock incentive plans; and

employee benefits and perquisites.

Determination of Our Compensation Program

We have no public company peers with which to compare our compensation program. For our business, we rely on qualified, highly skilled and talented employees who have experience in the legal, intellectual property licensing and enforcement, and other technology-related industries to execute our business model. Thus, our compensation program is patterned in a manner similar to companies in these industries in order to attract and retain talented employees who may have other opportunities in these industry areas.

Determining the Elements of Our Compensation Program

Our compensation program consists of two general elements:

a fixed portion of compensation to retain and provide a base level of compensation to our named executive officers; and

a performance element to incentivize our named executive officers to achieve superior corporate performance.

The fixed portion of our compensation program consists of base salary, cash bonus and, in part, the grant of restricted stock awards. The performance element of our compensation program consists of the award of stock options and the grant of restricted stock awards.

Determining the Amounts of Each Element of Our Compensation Program

Table of Contents

In determining the total amount and mixture of the compensation for each of the named executive officers, the Compensation Committee and the Board subjectively consider the overall value to us of each named executive officer in light of numerous factors, including but not limited to the following:

our competitive position;

individual performance, including past and expected contribution to our goals of each named executive officer; and

our long-term needs and goals, including attracting and retaining key management personnel.

The Compensation Committee and, where applicable, the Chief Executive Officer review the performance of each named executive officer annually in light of the above factors and determine whether the named executive officer should receive any increase in base salary or receive a cash bonus or stock award based on such evaluation. Since we do not have a peer group of comparable public companies in our industry, we do not determine compensation based on surveys of other companies' compensation programs.

Role of Compensation Committee and Chief Executive Officer

The Compensation Committee has the responsibility for reviewing, approving and determining the compensation of the named executive officers. Annually, the Compensation Committee evaluates the performance of our Chief Executive Officer and determines the Chief Executive Officer's compensation in light of the goals and objectives of our compensation program. The Chief Executive Officer assists the Compensation Committee in reaching compensation decisions with respect to the named executive officers other than the Chief Executive Officer. The other named executive officers do not play a role in their own compensation determination, other than discussing individual performance objectives with the Chief Executive Officer. If the Compensation Committee considers it appropriate, it may increase the other named executive officers' base salary or provide for additional stock awards.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code, imposes a \$1.0 million limit on the amount that a public company may deduct for compensation paid to its chief executive officer or any of the company's four other most highly compensated executive officers who are employed as of the end of the year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for qualifying performance-based compensation, which is compensation paid only if the individual's performance meets pre-established objective goals based on performance criteria approved by the stockholders. For the 2010 fiscal year, none of our named executive officers received compensation in excess of \$1.0 million. Generally, while we seek to maximize the deduction for compensation paid to our named executive officers, because we compensate our named executive officers in a manner designed to promote our varying corporate goals, the Compensation Committee has not adopted a policy requiring all compensation to be deductible.

Base Salary

We pay base salaries to reward the named executive officers for performing the core responsibilities of their positions and to provide them with a level of security with respect to a portion of their compensation. The base salaries of all of the named executive officers are approved by the Compensation Committee. The primary factors considered by the Compensation Committee in establishing or adjusting base salaries are:

individual and company performance;

experience, position criticality and overall responsibility of the named executive officer;

internal equity among positions; and

changes in the named executive officer's duties and responsibilities.

In making salary decisions, the Compensation Committee exercises its discretion and judgment based on the above factors. No specific formula is applied to determine the weight of each of the above factors in determining base salary. During fiscal year 2010, as in the past several years, the Compensation Committee increased the base salaries of the

named executive

6

Table of Contents

officers based on the above factors, commensurate with their performance and our success. In light of such factors, in fiscal year 2010, the Compensation Committee increased the base salaries of each of Messrs. Ryan, Harris, Haynes, Lee and Treska by approximately 5% over their base salaries in effect in fiscal year 2010.

At the end of fiscal year 2010, the base salaries of the named executive officers were:

Name of Executive:	Position	Base Salary:
Paul R. Ryan	Chief Executive Officer	\$387,447
Robert L. Harris, II	President	\$380,480
Clayton J. Haynes	Chief Financial Officer, Senior Vice President of Finance and Treasurer	\$290,090
Dooyong Lee	Executive Vice President	\$416,216
Edward J. Treska	Vice President, General Counsel and Secretary	\$288,750

Cash Bonuses

The employment agreements with each of the named executive officers were structured to provide for an annual discretionary cash bonus based on performance equal in value to up to 30% of his respective annual base salary. Such cash bonus is discretionary and is based upon personal performance, overall company performance and any other factors the Compensation Committee and, if applicable, the Chief Executive Officer elect to consider. With respect to fiscal year 2010, the Compensation Committee and, where applicable, the Chief Executive Officer, considered the following performance metrics when determining the amount of bonus to be paid to each of the named executive officers:

the number of licensing programs that have produced revenue;

the number of patent portfolios controlled by us; and

our twelve-month trailing revenue stream.

The above fiscal year 2010 performance metrics are referred to herein as the 2010 Performance Metrics.

The Compensation Committee was responsible for evaluating the individual performance of the Chief Executive Officer for the 2010 fiscal year. The Compensation Committee reviewed our performance and the Chief Executive Officer's individual performance in fiscal year 2010 with respect to the 2010 Performance Metrics, as well as other relevant factors considered in the discretion of the Compensation Committee. After consideration of such performance criteria, for fiscal year 2010, the Compensation Committee determined that Mr. Ryan should be awarded the maximum amount of bonus allowable pursuant to his employment agreement, which is equal to \$108,652, or 28% of his annual base salary.

The Chief Executive Officer was responsible for determining the bonuses payable to each of Messrs. Harris, Haynes and Lee. The Chief Executive Officer reviewed our performance and each other named executive officer's individual performance in fiscal year 2010 with respect to the 2010 Performance Metrics, as well as other relevant factors considered in the discretion of the Chief Executive Officer and the Compensation Committee. The Compensation Committee had the final authority to approve the Chief Executive Officer's recommendations regarding the amount of the discretionary cash bonus, if any, payable to each of Messrs. Harris, Haynes and Lee. After consideration of the performance criteria described above, for fiscal year 2010, the Chief Executive Officer and the Compensation Committee determined that Messrs. Harris, Haynes and Lee should each be awarded the maximum amount of bonus allowable pursuant to each of their respective employment agreements, which is equal to \$106,698, \$81,350 and \$239,865, respectively, or 28% of each of each of Messrs. Harris and Haynes annual base salaries and 58% of Mr. Lee's annual base salary.

The Chief Executive Officer was responsible for determining the discretionary cash bonus payable to Mr. Treska. The Chief Executive Officer reviewed our performance and Mr. Treska's quarterly performance in fiscal year 2010, as well as other relevant factors considered in the discretion of the Chief Executive Officer. After consideration of the performance criteria described above, for fiscal year 2010, the Chief Executive Officer determined that Mr. Treska should be awarded the maximum amount of bonus allowable pursuant to his employment agreement, which is equal to

\$108,906 or 38% of his annual base salary.

Table of Contents

In addition to the above discretionary bonuses, all of our employees, including each of our named executive officers, received a year-end bonus equal to one week's salary. Thus, Messrs. Ryan, Harris, Haynes, Lee and Treska each received an additional non-discretionary bonus of \$7,451, \$7,317, \$5,579, \$8,004, and \$5,553, respectively, with respect to fiscal year 2010.

Equity Compensation

We grant both stock options and restricted stock awards to the named executive officers. Both equity compensation awards vest over a one to three year period based on the award recipient's continued service to us. The Compensation Committee believes that the grant of stock options and restricted stock awards is essential to aligning the interests of our named executive officers with the interests of our stockholders in enhancing the value of our company. Additionally, the use of vesting schedules in our stock option and restricted stock award grants help us to retain our named executive officers.

Historically, we have awarded both stock options and restricted stock awards to our named executive officers and other employees. As in fiscal years 2009 and 2008, in fiscal year 2010, we placed increased emphasis on grants of restricted stock awards in lieu of stock option grants after consideration of the following factors:

the potential dilution of shares given the growth in the number of our employees;

the volatility of our common stock, which causes a high expense value for a stock option, which could then create a situation in which the cost to us of issuing an option could exceed the value ultimately delivered to our employees;

restricted stock has more retentive value in the event of a downturn in stock markets, and helps align our employees' goals with maximizing stockholder value so that our employees not only have an interest in increasing the value of our common stock, but also have an interest in avoiding price declines; and

the competitive marketplace is beginning to use restricted stock as at least a portion of the long-term incentive award and we want to ensure that our long-term incentive package remains competitive with the market.

Decisions regarding the size of equity compensation awards for the Chief Executive Officer are made by the Compensation Committee, after careful consideration of the following factors:

our performance and the Chief Executive Officer's individual performance; and

retention considerations.

Decisions regarding the size of equity compensation awards for the other named executive officers are made by the Compensation Committee after careful consideration of the following factors:

recommendations of the Chief Executive Officer;

our performance and the individual performance of each other named executive officer;

retention considerations;

internal equity; and

executive potential.

In fiscal year 2010, we did not grant any stock options to our named executive officers. In fiscal year 2010, we granted 90,000 restricted stock awards to the Chief Executive Officer, and the other named executive officers received restricted stock awards ranging from 45,000 to 120,000.

Table of Contents

Benefits and Perquisites

The named executive officers participate in the employee benefits that are available to all of our employees.

Severance and Change of Control Payments

The Board is determined to provide our named executive officers with severance and change of control arrangements in order to mitigate some of the risk that exists for the named executive officers. These arrangements are intended to attract and retain qualified executives who have alternatives that may appear to them to be less risky absent these arrangements, and mitigate a potential disincentive for the named executive officers to pursue and execute an acquisition of our company, particularly where the services of these named executive officers may not be required by a potential acquirer.

Employment Agreements

We have entered into employment agreements with each of the named executive officers. The employment agreements with Messrs. Ryan, Harris and Haynes commenced on March 31, 2008, the employment agreement with Mr. Treska commenced in April 2004 and the employment agreement with Mr. Lee commenced in January 2005.

All employment agreements with the named executive officers may be terminated by either party for any reason upon thirty-days advance notice. Upon termination without cause, the named executive officer will be eligible for payment pursuant to our then effective severance plan, if any. The current severance plan is described below under the heading Potential Payments Upon Termination or Change in Control. In addition, the named executive officer is eligible for an annual discretionary cash bonus of up to 30% of his base salary. The cash bonus is based upon personal performance, overall company performance and any other factors the Compensation Committee and, if applicable, the Chief Executive Officer elect to consider.

Effective December 17, 2008, we amended the employment agreements with Messrs. Ryan, Harris, Haynes and Lee for the purpose of bringing their employment agreements into compliance with the applicable provisions of Section 409A of the Code, or Section 409A, and the Treasury Regulations issued thereunder. Section 409A governs nonqualified deferred compensation arrangements. Section 409A imposes penalties and additional tax on service providers (including employees and directors) if a nonqualified deferred compensation arrangement does not comply with its provisions. The amendments provide, among other things, that discretionary bonus payments to the above-named officers will be made only at such times and in such manner as is permissible without triggering tax penalties under Section 409A.

On April 20, 2010, the Compensation Committee adopted a supplemental cash bonus plan for Dooyong Lee to provide a cash incentive for Mr. Lee to acquire patent portfolios for the Company. Under the terms of the Lee Bonus Plan, Mr. Lee is entitled to receive quarterly cash bonus awards of up to 7.5% of his annual base salary based upon Mr. Lee's business development activities and acquisition of patent portfolios for our company during each fiscal quarter.

We do not have any agreement or arrangement with any named executive officer relating to a change in control of our company other than any provisions for the accelerated vesting of stock awards in their respective stock award agreements and the executive severance policy described below, which we refer to herein as the Executive Severance Policy. The agreements and arrangements are described in greater detail under the section Potential Payments Upon Termination or Change in Control below.

(1) This amount reflects grants of restricted stock under our 2002 Acacia Technologies Stock Incentive Plan and 2007 Acacia Technologies Stock Incentive Plan. One-sixth of the shares vest every six months for a three year period.

(2) Only restricted stock awards were granted to employees in 2010. The fair value of restricted stock awards is determined by the product obtained by multiplying the number of shares granted by the grant date market price of the underlying common stock. Regardless of the value placed on restricted stock awards on the grant date, the actual value of the award will depend on the market value of our common stock on such date in the future when the restricted stock award vests.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

Under our Executive Severance Policy, full-time employees with the title of Senior Vice President and higher, which we refer to herein as the Officers, are entitled to receive certain benefits upon termination of employment. If we terminate the employment of an Officer for other than cause or other than on account of death or disability, we will (i) promptly pay to the Officer a lump sum amount equal to the aggregate of (a) accrued obligations (i.e., the Officer's annual base salary through the date of termination to the extent not theretofore paid and any compensation previously deferred by the Officer (together with any accrued interest or earnings thereon) and any accrued vacation pay, and reimbursable expenses, in each case to the extent not theretofore paid) and (b) three months of the Officer's base salary for each full year that the Officer was employed by us, which we refer to herein as the Severance Period, up to a maximum of twelve months of the Officer's base salary and (ii) provide to the Officer, COBRA coverage, paid by us, for the medical and dental benefits selected by the Officer in the year in which the termination occurs, for the duration of the Severance Period.

On December 17, 2008, we amended the Executive Severance Policy for the purpose of bringing the policy into compliance with the applicable provisions of Section 409A. The amendment to the Executive Severance Policy clarifies that any severance payments which are treated as non-qualified deferred compensation must be made upon a separation of service with us and that, subject to certain exceptions, such payments may be delayed for a period of six months if an employee is deemed to be a specified employee at the time of his or her termination of employment.

If we had terminated Messrs. Ryan, Harris, Haynes or Lee without cause on December 31, 2010, each of them would have received a lump sum payment equal to 12 months of their respective base salaries, in addition to the accrued obligations and COBRA coverage described above. The respective base salaries would have been \$387,447 for Mr. Ryan, \$380,480 for Mr. Harris, \$290,090 for Mr. Haynes and \$416,216 for Mr. Lee. In fiscal year 2010, Mr. Treska was not eligible to participate in our Executive Severance Policy. There is no acceleration of the vesting of any outstanding restricted stock awards or stock options upon termination of employment that would be triggered by any agreement or in accordance with the Executive Severance Policy. The named executive officers do not receive severance or other payments in any other circumstances, including death or disability.

Upon a change in control or hostile takeover (each as defined in our 2002 Acacia Technologies Stock Incentive Plan and 2007 Acacia Technologies Stock Incentive Plan), all outstanding unvested stock awards, including outstanding unvested options, will fully vest on the close of the change in control or hostile takeover. If the closing of a change in control had occurred as of December 31, 2010, the following stock awards, including options, would have vested with respect to each named executive officer:

Table of Contents

Name	Stock Option Awards		Restricted Stock Awards		Total Value(\$)
	Number of Shares	Value(\$)	Number of Shares	Value(\$)	
Paul R. Ryan			120,000	3,112,800	3,112,800
Robert L. Harris, II			120,000	3,112,800	3,112,800
Clayton J. Haynes			60,000	1,556,400	1,556,400
Dooyong Lee			145,000	3,761,300	3,761,300
Edward J. Treska			60,000	1,556,400	1,556,400

The determination of the value of the restricted stock that vested on this hypothetical change in control is determined by multiplying the shares that vested against the closing sales price of our common stock on the last trading day prior to December 31, 2010. The fair market value of a share of our common stock is assumed to be \$25.94 which was the closing price of the stock on December 31, 2010, the last trading day in 2010. We are not required to make any other payments in connection with a change in control of our company.

DIRECTOR COMPENSATION

Directors who are also our employees receive no separate compensation from us for their service as members of the Board. Each non-employee director receives an annual grant of restricted stock units that entitles the non-employee director to receive, upon vesting as described below, a number of shares determined by dividing the annual amount of such director's retainer, as described below, by the closing price of the common stock on the grant date, provided that such individual has served as a non-employee director for at least 6 months. In addition, each new non-employee director receives a one time grant of restricted stock units upon becoming a director for the number of shares determined by dividing the annual amount of such director's retainer by the closing price of the common stock on the grant date. The restricted stock units vest in a series of twelve quarterly installments over the three year period following the grant date, subject to immediate acceleration upon a change in control.

We will deliver shares corresponding to the vested restricted stock units within thirty (30) days after the first to occur of the following events: (i) the fifth (5th) anniversary of the grant date; or (ii) termination of the non-employee director's service as a member of the Board. The non-employee director may elect, in writing at least twelve (12) months prior to a delivery date, to defer the delivery date until any later date (which such date is at least five years after the original delivery date). The non-employee directors do not have any rights, benefits or entitlements with respect to any shares unless and until the shares have been delivered. On or after delivery of the shares, the non-employee director shall have, with respect to the shares delivered, all of the rights of a stockholder, including the right to vote the shares and the right to receive all dividends, if any, as may be declared on the shares from time to time. We, in our sole discretion, and in compliance with any applicable legal conditions or restrictions, may withhold from shares otherwise deliverable a number of whole shares having a fair market value, as determined by us as of the date of delivery, not in excess of the amount of tax required to be withheld by law (or such lower amount as may be necessary to avoid adverse financial accounting treatment). Any adverse consequences to the non-employee director arising in connection with such share withholding procedure shall be the non-employee director's sole responsibility. Unless our tax withholding obligations are satisfied, we shall have no obligation to issue a certificate for such shares.

Prior to May 18, 2010, our non-employee directors received compensation in the amount of \$3,000 per month for their service as members of the Board. In addition, the chairman of the Audit Committee received compensation in the amount of \$500 per month for his services. On May 18, 2010, the compensation for non-employee directors was increased to \$4,166.67 per month and the additional compensation for the chairman of the Audit Committee was increased to \$694.42 per month. The monthly retainer is subject to a pro rata deduction if a director fails to attend at least 75% of our Board meetings. Directors are also reimbursed for expenses incurred in connection with attendance at meetings of the Board and committees of the Board and in connection with the performance of Board duties.

The closing price of our common stock on the Nasdaq Global Select Market on January 4, 2010 was \$9.75.

(2) On May 18, 2010, the Board of Directors increased the annual retainer for non-employee directors to \$50,000. Item 13. Certain Relationships and Related Transactions, and Director Independence
Certain Relationships and Related Transactions

We do not have a formal policy for review, approval or ratification of related party transactions required to be reported in this Amendment No. 1 to Form 10-K. However, we have adopted a corporate Code of Conduct which applies to all of our employees, officers, and directors and a Board of Directors Code of Conduct which applies only to our directors. Each Code of Conduct provides obligations and prohibitions on any related party transactions which cause our employees, officers or directors to face a choice between what is in their personal interest and what is in our interest. The corporate Code of Conduct requires conflicts of interest which result from investments in companies doing business with us or in one of our competitors to be disclosed to our General Counsel and approved by our Board. The corporate Code of Conduct requires employees, officers, and directors that are conducting our business with family members to disclose such transactions to our General Counsel. Such transactions are generally prohibited unless approved by the Board. The Board of Directors Code of Conduct provides further obligations for director conflicts of interest. The Board of Directors Code of Conduct requires directors to disclose material conflicts of interest to our General Counsel. Our General Counsel must notify the Board, and the disinterested Board members must determine whether the situation represents a material conflict of interest. If the Board determines there is a material conflict of interest, the Board must determine the appropriate manner to address the conflict and may prohibit the interested director from approving the transaction, have the transaction approved by our Audit Committee, or have the transaction approved by another disinterested body of the Board.

We review the questionnaires completed by our directors and executive officers annually. If any related party transactions are reported, management reviews the transactions and consults with the Board. Since January 1, 2010, there has not been any transaction or series of similar transactions to which we were or are a party in which the amount involved exceeded or exceeds \$120,000 and in which any director, executive officer, holder of more than 5% of any class of our voting securities, or any member of the immediate family of any of the foregoing persons, had or will have a direct or indirect material interest.

Director Independence

Our securities are listed on The Nasdaq Global Select Market and are governed by its listing standards. Our Board has determined that the following directors satisfy the current independent director standards established by the Listing Rules of the Nasdaq Stock Market: William S. Anderson, Fred A. deBoom, Edward W. Frykman and G. Louis Graziadio, III.
