EATON CORP Form 10-Q April 28, 2011

UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549 FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2011

Commission file number 1-1396

EATON CORPORATION

(Exact name of registrant as specified in its charter)

Ohio 34-0196300

(State or other jurisdiction of incorporation or organization)

(IRS Employer Identification Number)

Eaton Center, Cleveland, Ohio

44114-2584

(Address of principal executive offices)

(Zip Code)

(216) 523-5000

(Registrant s telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year if changed

since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes b No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes b No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large

Accelerated filer o

Non-accelerated filer o

Smaller reporting company o

accelerated filer b

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes o No by There were 341.2 million Common Shares outstanding as of March 31, 2011.

EATON CORPORATION

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Eaton Corporation (Eaton or Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring accruals) have been made that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods.

This Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in Eaton s 2010 Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year. Management has evaluated subsequent events through the date this Form 10-Q was filed with the SEC.

On January 27, 2011, Eaton s Board of Directors announced a two-for-one stock split of the Company s common shares effective in the form of a 100% stock dividend. The record date for the stock split was February 7, 2011, and the additional shares were distributed on February 28, 2011. Accordingly, all per share amounts, weighted-average shares outstanding, and equity-based compensation presented in the condensed consolidated financial statements and notes have been adjusted retroactively to reflect the stock split.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Note 2. ACQUISITIONS OF BUSINESSES

In 2011 and 2010, Eaton acquired businesses and entered into a joint venture in separate transactions. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions or formation. These transactions are summarized below:

Acquired business Eaton-SAMC (Shanghai) Aircraft Conveyance System Manufacturing Co., Ltd. A 49%-owned joint venture in China focusing on the design, development, manufacturing and support of fuel and hydraulic conveyance systems for the global civil aviation market.	Date of transaction March 8, 2011	Business segment Aerospace	Annual sales New joint venture
Tuthill Coupling Group A United States and France-based manufacturer of pneumatic and hydraulic quick coupling solutions and leak-free connectors used in industrial, construction, mining, defense, energy and power applications.	January 1, 2011	Hydraulics	\$35 for the year ended November 30, 2010
Chloride Phoenixtec Electronics A China manufacturer of uninterruptible power supply (UPS) systems. Eaton acquired the remaining shares to increase its ownership from 50% to 100%.	October 12, 2010	Electrical Rest of World	\$25 for the year ended September 30, 2010
CopperLogic, Inc. A United States-based manufacturer of electrical and electromechanical systems.	October 1, 2010	Electrical Americas	\$35 for the year ended September 30, 2010

Table of Contents

Acquired business Wright Line Holding, Inc. A United States provider of customized enclosures, rack systems, and air-flow management systems to store, power, and secure mission-critical IT data center electronics.	Date of	Business	Annual sales
	transaction	segment	\$101 for the year
	August 25,	Electrical	ended
	2010	Americas	June 30, 2010
EMC Engineers, Inc. A United States energy engineering and energy services company that delivers energy efficiency solutions for a wide range of governmental, educational, commercial and industrial facilities.	July 15, 2010	Electrical Americas	\$24 for 2009

On January 20, 2011, Eaton reached an agreement to acquire ACTOM (Pty) Limited s low-voltage electrical business in South Africa. This business is a manufacturer and supplier of motor control components, engineered electrical distribution systems, and uninterruptible power supply systems and had sales of \$58 for the year ended December 31, 2010. The terms of the agreement are subject to regulatory approvals and other customary closing conditions. The acquisition is expected to close during the second quarter of 2011. This business will be included in the Electrical Rest of World segment.

On March 14, 2011, Eaton reached an agreement to acquire Internormen Technology Group, a leading Germany-based manufacturer of hydraulic filtration and instrumentation. This business had sales of more than \$55 in 2010 and has sales and distribution subsidiaries in India, China, Brazil and the United States. The terms of the agreement are subject to customary closing conditions. The acquisition is expected to close during the second quarter of 2011. This business will be included in the Hydraulics segment.

Note 3. ACQUISITION INTEGRATION AND RESTRUCTURING CHARGES Acquisition Integration Charges

Eaton incurs charges related to the integration of acquired businesses. A summary of these charges follows:

	Three months ende March 31				
	2	2011		201	
Business segment					
Electrical Americas	\$	3	3 \$)	1
Electrical Rest of World					7
Aerospace					1
Total integration charges before income taxes	\$	3	3 \$	ı	9
After-tax integration charges	\$	2	2 \$)	6
Per common share	\$	0.01	\$	0.	.02

Charges in 2011 were related primarily to CopperLogic, Wright Line Holding and EMC Engineers. Charges in 2010 were related primarily to Moeller and Phoenixtec. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Note 11. Business Segment Information, the charges reduced Operating profit of the related business segment.

6

Workforce Reduction and Plant Closing Liabilities

The following table summarizes the liabilities related to acquisition integration, the 2009 workforce reduction action and plant closing charges:

			P	lant		
	Workt	Workforce		sing		
	reduct	reductions

Settlement loss		3		5									
Total expense	\$	37	\$	32	\$	18	\$	13	\$	17	\$	18	

Note 5. LEGAL CONTINGENCIES

In December 2010, a Brazilian court held that a judgment against a Brazilian company sold by Eaton in 2006 could be enforced against Eaton. At March 31, 2011, the Company has a total accrual of 62 Brazilian Reais related to this matter, comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$37 based on current exchange rates) and an additional 2 Brazilian Reais recognized in 2011 (\$1 based on current exchange rates) for penalties and interest. In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton will file an appeal to this decision in the Brazilian Superior Court.

On October 5, 2006, ZF Meritor LLC and Meritor Transmission Corporation (collectively, Meritor) filed an action against Eaton in the United States District Court for Delaware. The action sought damages, which would be trebled under United States antitrust laws, as well as injunctive relief and costs. The suit alleged that Eaton engaged in anti-competitive conduct against Meritor in the sale of heavy-duty truck transmissions in North America. Following a four week trial on liability only, on October 8, 2009, the jury returned a verdict in favor of Meritor. Eaton firmly believes that it competes fairly and honestly for business in the marketplace, and that at no time did it act in an anti-competitive manner. During an earlier stage in the case, the judge concluded that damage estimates contained in a report filed by Meritor were not based on reliable data and the report was specifically excluded from the case. On November 3, 2009, Eaton filed a motion for judgment as a matter of law and to set aside the verdict. That motion was

denied on March 10, 2011. Eaton has filed a motion for entry of final judgment of liability, zero damages and no injunctive relief. That motion is currently pending. Accordingly, an estimate of any potential loss related to this action cannot be made at this time.

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries (including asbestos claims), antitrust matters and employment-related matters. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements.

7

Note 6. INCOME TAXES

The effective income tax rate for the first quarter of 2011 was 14.5% compared to 16.4% for the first quarter in 2010. The lower tax rate in 2011 was primarily attributable to the absence of certain unfavorable net nonrecurring items incurred in 2010, including the impact of the Health Care Reform and Education Reconciliation Act on taxation associated with Medicare Part D. Additionally contributing to the lower effective tax rate in 2011 was the favorable impact of the renewal of the U.S. Research and Experimentation tax credit which was not signed into law until the last quarter of 2010. Partially offsetting these favorable items noted above for 2011 was increased tax expense associated with higher tax rates in the United States and other jurisdictions due to improved economic conditions.

Note 7. EQUITY

Eaton has a common share repurchase plan that authorizes the repurchase of 10 million common shares. The shares are expected to be repurchased over time, depending on market conditions, the market price of the Company s common shares, the Company s capital levels and other considerations. During the first quarter of 2011, 0.9 million common shares were repurchased in the open market at a total cost of \$50. No common shares were repurchased in the open market in the first quarter of 2010.

The changes in Shareholders equity follow:

Balance at December 31, 2010	shar	Eaton reholders equity 7,362	Nonco into	Total equity \$7,403	
Net income		287		(1)	286
Other comprehensive income		231		1	232
Total comprehensive income		518			518
Cash dividends paid		(116)			(116)
Issuance of shares under equity-based compensation plans-net		69			69
Repurchase of shares		(50)			(50)
Balance at March 31, 2011	\$	7,783	\$	41	\$ 7,824
8					

Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) consists primarily of net income, foreign currency translation and related hedging instruments, changes in unrecognized costs of pension and other postretirement benefits, and changes in the effective portion of open derivative contracts designated as cash flow hedges. The following table summarizes the components of Accumulated other comprehensive income (loss):

	Three months ended						
	March 31						
	2	.011	2010				
Net income	\$	286	\$	156			
Foreign currency translation and related hedging instruments		217		(176)			
Pensions and other postretirement benefits		16		19			
Cash flow hedges		(1)		(4)			
Other comprehensive income (loss)		232		(161)			
Total comprehensive income (loss)		518		(5)			
Adjustment for comprehensive income attributable to noncontrolling interests				(1)			
Total Accumulated comprehensive income (loss) attributable to Eaton common							
shareholders	\$	518	\$	(6)			

Net Income per Common Share

A summary of the calculation of net income per common share attributable to common shareholders follows:

	Three months ended March 31					
(Shares in millions)	2011	2010				
Net income attributable to Eaton common shareholders	\$ 287	\$ 155				
Weighted-average number of common shares outstanding-diluted	345.7	339.2				
Less dilutive effect of stock options and restricted stock awards	5.6	5.0				
Weighted-average number of common shares outstanding-basic	340.1	334.2				
Net income per common share						
Diluted	\$ 0.83	\$ 0.46				
Basic	0.84	0.46				

In the first quarter of 2011 and 2010, 0.7 million and 7.2 million stock options, respectively, were excluded from the calculation of diluted net income per common share because the exercise price of the options exceeded the average market price of the common shares during the period and their effect, accordingly, would have been antidilutive.

Note 8. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

	Quoted prices		
	in active	Other	
		observable	Unobservable
	assets	inputs	inputs
Total	(Level 1)	(Level 2)	(Level 3)
\$201	\$ 201	\$	\$
496	496		
75		75	
36		36	
\$333	\$ 333	\$	\$
838	838		
69		69	
42		42	
	\$201 496 75 36 \$333 838 69	prices in active markets for identical assets Total (Level 1) \$201 496 75 36 \$333 \$338 838 69	prices in active markets for identical assets (Level 1) \$201 \$201 \$496 75 75 36 36 \$333 \$333 \$333 838 838 69 69

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were recognized using unobservable inputs.

Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$3,358 and fair value of \$3,744 at March 31, 2011 compared to \$3,386 and \$3,787, respectively, at December 31, 2010.

Note 9. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, foreign currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, foreign currency forward exchange contracts, foreign currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Condensed Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking all derivative

10

Table of Contents

financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.

Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive income (loss) and reclassified to income in the same period when the gain or loss on the hedged item is included in income. Hedges of the foreign currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive income (loss) and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a foreign currency and certain commodity contracts that arise in the normal course of business.

11

Table of Contents

Derivative Financial Statement Impacts

The fair value of derivative financial instruments recognized in the Condensed Consolidated Balance Sheets follows:

		О	ther	O	ther	Ot	her	Tuno	
	otional nount		rrent		g-term ssets		rent lities	Type of hedge	Term
March 31, 2011 Derivatives designated as hedges Fixed-to-floating interest rate swaps Foreign currency exchange	\$ 540	\$		\$	36	\$		Fair value Cash	2 to 23 years
contracts	312		5				7	flow	12 to 36 months
Commodity contracts	38		5					Cash flow Net	12 months
Cross currency swaps	25							investment	12 months
Total		\$	10	\$	36	\$	7		
Derivatives not designated as hedges Foreign currency exchange contracts Commodity contracts	\$ 3,088 128	\$	32 15			\$	11		12 months 12 months
Total		\$	47			\$	11		
December 31, 2010 Derivatives designated as hedges Fixed-to-floating interest								Fair	
rate swaps Foreign currency exchange	\$ 540	\$		\$	42	\$		value Cash	2 to 23 years
contracts	227		4				5	flow Cash	12 to 36 months
Commodity contracts	39		8					flow Net	12 months
Cross currency swaps	75		2					investment	12 months
Total		\$	14	\$	42	\$	5		

Derivatives not designated as hedges

Foreign currency exchange contracts Commodity contracts	\$ 2,777 102	\$ 20 17	\$ 19	12 months 12 months
Total		\$ 37	\$ 19	

The foreign currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage foreign currency volatility or exposure on intercompany sales and loans. While Eaton does not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these foreign currency exchange contracts.

12

Table of Contents

Amounts recognized in Accumulated other comprehensive income (loss) follow:

Gains and losses described above were recognized in Interest expense.

Note 10. INVENTORY

The components of inventory follow:

	March 3 2011	1,	December 31, 2010
Raw materials	\$ 69	92 \$	651
Work-in-process	24	45	229
Finished goods	84	49	800
Inventory at FIFO	1,78	36	1,680
Excess of FIFO over LIFO cost	(1)	19)	(116)

Total inventory \$ 1,667 \$ 1,564

Note 11. BUSINESS SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance. Eaton soperating segments are Electrical Americas, Electrical Rest of World, Hydraulics, Aerospace, Truck and Automotive. For additional information regarding Eaton sobusiness segments, see Note 14 to the Consolidated Financial Statements contained in the 2010 Form 10-K.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Amounts are in millions of dollars or shares unless indicated otherwise (per share data assume dilution).

TWO-FOR-ONE STOCK SPLIT

On January 27, 2011, Eaton s Board of Directors announced a two-for-one split of the Company s common shares effective in the form of a 100% stock dividend. The record date for the stock split was February 7, 2011, and the additional shares were distributed on February 28, 2011. Accordingly, all share and per share data have been adjusted retroactively to reflect the stock split.

COMPANY OVERVIEW

Eaton Corporation is a diversified power management company with 2010 sales of \$13.7 billion. The Company is a global technology leader in electrical components and systems for power quality, distribution and control; hydraulics components, systems and services for industrial and mobile equipment; aerospace fuel, hydraulics and pneumatic systems for commercial and military use; and truck and automotive drivetrain and powertrain systems for performance, fuel economy and safety. Eaton has approximately 70,000 employees in over 50 countries, and sells products to customers in more than 150 countries.

Eaton acquired certain businesses that affect comparability on a year over year basis. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions or formation. For a list of business acquisitions and joint ventures impacting the comparative periods, see Note 2 to the Condensed Consolidated Financial Statements.

A summary of Eaton s Net sales, Net income attributable to Eaton common shareholders, and Net income per common share-diluted follows:

	Three months ended			
	\mathbf{N}	Iarch 31		
	2011	2010		
Net sales	\$3,803	\$3,103		
Net income attributable to Eaton common shareholders	287	155		
Net income per common share-diluted	\$ 0.83	\$ 0.46		

RESULTS OF OPERATIONS

The following discussion of Consolidated Financial Results and Business Segment Results of Operations includes certain non-GAAP financial measures. These financial measures include operating earnings, operating earnings per common share, and operating profit before acquisition integration charges for each business segment, each of which excludes amounts that differ from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of each of these financial measures to the most directly comparable GAAP measure is included in the table below and in the discussion of the operating results of each business segment. Management believes that these financial measures are useful to investors because they exclude transactions of an unusual nature, allowing investors to more easily compare Eaton s financial performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment.

15

Consolidated Financial Results

	Three months ended				
	Marc	h 31			
	2011	2010	Increase		
Net sales	\$ 3,803	\$ 3,103	23%		
Gross profit	1,121	902	24%		
Percent of net sales	29.5%	29.1%			
Income before income taxes	335	187	79%		
Net income	\$ 286	\$ 156	83%		
Adjustment for net income (loss) for noncontrolling interests	1	(1)			
Net income attributable to Eaton common shareholders	287	155	85%		
Excluding acquisition integration charges (after-tax)	2	6			
Operating earnings	\$ 289	\$ 161	80%		
Net income per common share-diluted Excluding per share impact of acquisition integration charges (after-tax)	\$ 0.83 0.01	\$ 0.46 0.02	80%		
Operating earnings per common share	\$ 0.84	\$ 0.48	75%		

Net Sales

Net sales in the first quarter of 2011 increased by 23% compared to the first quarter of 2010 due to 19% from higher core sales, an increase of 2% from the favorable impact of foreign exchange, and an increase of 2% from acquisitions of businesses. End markets grew 14% in the first quarter of 2011 compared to the same period in 2010, reflecting a continuing rebound from the depressed end market levels of 2009. Eaton now anticipates its end markets for all of 2011 will grow by 10%.

Gross Profit

Gross profit increased by 24% in the first quarter of 2011 compared to the first quarter of 2010, improving to 29.5% of net sales, up 0.4 percentage points from the first quarter of 2010. The increase in the gross profit margin was primarily due to higher sales volumes and the benefits of substantial changes in the Company s cost structure implemented in the past two years, partially offset by higher raw materials and commodity costs.

Income Taxes

The effective income tax rate for the first quarter of 2011 was 14.5% compared to 16.4% for the first quarter in 2010. The lower tax rate in 2011 was primarily attributable to the absence of certain unfavorable net nonrecurring items incurred in 2010, including the impact of the Health Care Reform and Education Reconciliation Act on taxation associated with Medicare Part D. Additionally contributing to the lower effective tax rate in 2011 was the favorable impact of the renewal of the U.S. Research and Experimentation tax credit which was not signed into law until the last quarter of 2010. Partially offsetting these favorable items noted above for 2011 was increased tax expense associated with higher tax rates in the United States and other jurisdictions due to improved economic conditions.

Net Income

Net income attributable to Eaton common shareholders of \$287 in the first quarter of 2011 increased 85% compared to net income of \$155 in the first quarter of 2010, and Net income per common share of \$0.83 in the first quarter of 2011 increased 80% over Net income per common share of \$0.46 in the first quarter of 2010. The increase was primarily due to higher sales in the first quarter of 2011 and the factors noted above that affected gross profit.

Business Segment Results of Operations

The following is a discussion of net sales, operating profit and operating profit margin by business segment which includes a discussion of operating profit and operating profit margin before acquisition integration charges. For additional information related to integration charges see Note 3 to the Condensed Consolidated Financial Statements. For additional information related to acquired businesses see Note 2 to the Condensed Consolidated Financial Statements.

Electrical Americas

	Three months ended					
	March 31					
	2011	2010	Increase			
Net sales	\$ 964	\$ 802	20%			
Operating profit	132	105	26%			
Operating margin	13.7%	13.1%				
Acquisition integration charges	\$ 3	\$ 1				
Before acquisition integration charges						
Operating profit	\$ 135	\$ 106	27%			
Operating margin	14.0%	13.2%				

Net sales increased 20% in the first quarter of 2011 compared to the first quarter of 2010 due to an increase of 15% in core sales, an increase of 4% from the acquisitions of businesses, and an increase of 1% from the favorable impact of foreign exchange. End markets increased 14% in the first quarter of 2011 compared to the same period in 2010, with particular strength in the industrial electric markets. Eaton now anticipates that its Electrical Americas markets will grow by 7% for all of 2011.

Operating profit before acquisition integration charges in the first quarter of 2011 increased 27% from the first quarter of 2010 largely due to higher net sales as noted above, partially offset by higher raw materials and commodity costs and increased support costs.

Electrical Rest of World

	Three mon Marc		
Net sales	2011 \$743	2010 \$608	Increase 22%
Operating profit Operating margin	70 9.4%	42 6.9%	67%
Acquisition integration charges	\$	\$ 7	
Before acquisition integration charges Operating profit Operating margin	\$ 70 9.4%	\$ 49 8.1%	43%

Net sales increased 22% in the first quarter of 2011 compared to the first quarter of 2010 due to an increase in core sales of 18%, an increase of 3% from the favorable impact of foreign exchange, and an increase of 1% from the acquisition of a business. End markets grew 9% in the first quarter of 2011 compared to the first quarter of 2010.

Operating profit before acquisition integration charges in the first quarter of 2011 increased 43% from the first quarter of 2010 primarily due to higher sales volumes in the first quarter of 2011, partially offset by higher raw

materials and commodity costs and increased support costs.

17

Hydraulics

	Three months ended March 31		
	2011	2010	Increase
Net sales	\$ 685	\$ 490	40%
Operating profit	106	54	96%
Operating margin	15.5%	11.0%	

Net sales in the first quarter of 2011 increased 40% compared to the first quarter of 2010 due to higher core sales of 35%, an increase of 3% from the favorable impact of foreign exchange, and an increase of 2% from the acquisition of a business. Global hydraulics markets grew 27% over the first quarter of 2010. Eaton now anticipates that hydraulics markets will grow by 18%.

Operating profit in the first quarter of 2011 increased 96% from the first quarter of 2010, primarily due to higher sales volumes, partially offset by higher raw materials and commodity costs and increased support costs.

Aerospace

	Three mor	ths ended	
	March 31		Increase
	2011	2010	(decrease)
Net sales	\$ 389	\$ 376	3%
Operating profit	45	49	(8)%
Operating margin	11.6%	13.0%	
Acquisition integration charges	\$	\$ 1	
Before acquisition integration charges			
Operating profit	\$ 45	\$ 50	(10)%
Operating margin	11.6%	13.3%	

Net sales in the first quarter of 2011 increased 3% compared to the first quarter of 2010. End markets grew 2% in 2011 compared to the first quarter of 2010. Growth was primarily driven by higher customer demand in commercial OEM markets and commercial aftermarkets.

Operating profit before acquisition integration charges in the first quarter of 2011 decreased 10% from the first quarter of 2010 primarily due to increased expenses stemming from program delays and changes in scope, and execution of new customer programs.

Truck

	Three months ended			
	Marc	March 31		
	2011	2010	Increase	
Net sales	\$ 576	\$ 453	27%	
Operating profit	90	46	96%	
Operating margin	15.6%	10.2%		

Net sales increased 27% in the first quarter of 2011 compared to the first quarter of 2010 due to an increase in core sales of 22% and an increase of 5% from the favorable impact of foreign exchange. The increase in core sales reflects the sharp rebound in global end markets that grew 20% in 2011 compared to the first quarter of 2010. U.S. truck markets accelerated in the first quarter of 2011, growing 36% compared to the first quarter in 2010. Non-U.S. markets

grew 9% in 2011. Eaton now anticipates that markets for the Truck segment for all of 2011 will grow by 22%.

18

Table of Contents

Operating profit in the first quarter of 2011 increased 96% from the first quarter of 2010 primarily due to higher sales volumes in 2011 and the resulting manufacturing efficiencies.

Automotive

	Three months ended March 31		
	2011	2010	Increase
Net sales	\$ 446	\$ 374	19%
Operating profit	50	42	19%
Operating margin	11.2%	11.2%	

Net sales increased 19% in the first quarter of 2011 compared to the first quarter of 2010 due to an increase in core sales of 17% and an increase of 2% from the favorable impact of foreign exchange. The increase in core sales reflects the continued rebound in global automotive markets which grew 13% in 2011 compared to the first quarter of 2010. U.S. markets grew 17% in 2011 while markets outside the U.S. grew 12%.

Operating profit in the first quarter of 2011 increased 19% from the first quarter of 2010 primarily due to higher sales volumes.

LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION Financial Condition and Liquidity

Eaton s objective is to finance its business through operating cash flow and an appropriate mix of equity and long-term and short-term debt. By diversifying its debt maturity structure, Eaton reduces liquidity risk. The Company maintains access to the commercial paper markets through credit facilities that support Eaton s commercial paper borrowings. There were no borrowings outstanding under these revolving credit facilities at March 31, 2011. Over the course of a year, cash, short-term investments and short-term debt may fluctuate in order to manage global liquidity. Eaton believes it has the operating flexibility, cash flow, cash and short-term investment balances, and access to capital markets in excess of the liquidity necessary to meet future operating needs of the business.

Eaton was in compliance with each of its debt covenants as of March 31, 2011 and for all periods presented.

Sources and Uses of Cash Flow

Operating Cash Flow

Net cash used in operating activities was \$304 in the first quarter of 2011, an increase of \$142 compared to a use of cash of \$162 in the first quarter of 2010. Operating cash flows in 2011 were primarily impacted by higher working capital requirements compared to 2010. Partially offsetting these uses of cash were higher net income in 2011, which resulted from increased sales due to the global economic recovery that continued in 2011 and the positive effect of recent changes in the Company s cost structure. Additionally, cash flow was favorably impacted by slightly lower contributions to pension plans compared to the first quarter of 2010.

Investing Cash Flow

Net cash provided by investing activities was \$266 in the first quarter of 2011, an increase of \$200 compared to \$66 in the first quarter of 2010. The increase in 2011 was due to cash proceeds of \$348 from the sale of short-term investments compared to \$96 in the first quarter of 2010, partially offset by an increase in capital expenditures to \$88 in 2011 from \$38 in the first quarter of 2010. Higher capital expenditures were due to increased investments in property, plant and equipment as the Company returned to normal levels of capital spending.

Financing Cash Flow

Net cash used in financing activities was \$106 in the first quarter of 2011, an increase of \$24 compared to a use of cash of \$82 in the first quarter of 2010. The increase was primarily due to the repurchase of 0.9 million common shares for \$50 in the first quarter of 2011 and an increase of \$32 in cash dividends paid in 2011 to Eaton common

Table of Contents

shareholders. Higher cash dividends paid was due to an increase in the quarterly cash dividend paid per common share from \$0.25 to \$0.34 per share.

OTHER MATTERS

In December 2010, a Brazilian court held that a judgment against a Brazilian company sold by Eaton in 2006 could be enforced against Eaton. At March 31, 2011, the Company has a total accrual of 62 Brazilian Reais related to this matter, comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$37 based on current exchange rates) and an additional 2 Brazilian Reais recognized in 2011 (\$1 based on current exchange rates) for penalties and interest. In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton will file an appeal to this decision in the Brazilian Superior Court.

On October 5, 2006, ZF Meritor LLC and Meritor Transmission Corporation (collectively, Meritor) filed an action against Eaton in the United States District Court for Delaware. The action sought damages, which would be trebled under United States antitrust laws, as well as injunctive relief and costs. The suit alleged that Eaton engaged in anti-competitive conduct against Meritor in the sale of heavy-duty truck transmissions in North America. Following a four week trial on liability only, on October 8, 2009, the jury returned a verdict in favor of Meritor. Eaton firmly believes that it competes fairly and honestly for business in the marketplace, and that at no time did it act in an anti-competitive manner. During an earlier stage in the case, the judge concluded that damage estimates contained in a report filed by Meritor were not based on reliable data and the report was specifically excluded from the case. On November 3, 2009, Eaton filed a motion for judgment as a matter of law and to set aside the verdict. That motion was denied on March 10, 2011. Eaton has filed a motion for entry of final judgment of liability, zero damages and no injunctive relief. That motion is currently pending. Accordingly, an estimate of any potential loss related to this action cannot be made at this time.

FORWARD-LOOKING STATEMENTS

This Form 10-Q Report contains forward-looking statements concerning the performance in 2011 of Eaton s worldwide end markets. These statements may discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to Eaton, based on current beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking statements generally will be accompanied by words such as anticipate, believe, estimate, guidance, project or other similar words, p expect, forecast, intend, may, possible, potential, predict, expressions. These statements should be used with caution and are subject to various risks and uncertainties, many of which are outside Eaton s control. The following factors could cause actual results to differ materially from those in the forward-looking statements: unanticipated changes in the markets for the company s business segments; unanticipated downturns in business relationships with customers or their purchases from us; competitive pressures on sales and pricing; increases in the cost of material and other production costs, or unexpected costs that cannot be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected claims, charges, litigation or dispute resolutions; strikes or other labor unrest; the impact of acquisitions and divestitures; unanticipated difficulties integrating acquisitions; new laws and governmental regulations; interest rate changes; stock market and currency fluctuations; and unanticipated deterioration of economic and financial conditions in the United States and around the world. Eaton does not assume any obligation to update these forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in exposures to market risk since December 31, 2010.

ITEM 4. CONTROLS AND PROCEDURES.

Pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 (the Exchange Act), an evaluation was performed, under the supervision and with the participation of Eaton's management, including Alexander M. Cutler Chairman, Chief Executive Officer and President; and Richard H. Fearon Vice Chairman and Chief Financial and Planning Officer, of the effectiveness of the design and operation of Eaton's disclosure controls and procedures. Based on that evaluation, management concluded that Eaton's disclosure controls and procedures were effective as of March 31, 2011.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Eaton s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time 20

Table of Contents

periods specified in the Securities and Exchange Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Eaton s reports filed under the Exchange Act is accumulated and communicated to management, including Eaton s Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Eaton s internal control over financial reporting that materially affected, or is reasonably likely to materially affect, Eaton s internal control over financial reporting.
