Report of Independent Registered Public Accounting Firm

To the Plan Administrator
Camco Financial & Subsidiaries Salary Savings Plan
Cambridge, Ohio

We have audited the accompanying statement of net assets available for benefits of Camco Financial & Subsidiaries Salary Savings Plan as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009 and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Camco Financial & Subsidiaries Salary Savings Plan

**Notes to Financial Statements
December 31, 2010 and 2009**

Note 1 Description of the Plan

The following description of the Camco Financial & Subsidiaries Salary Savings Plan (the Plan) is provided for general information only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering all employees of Camco Financial & Subsidiaries (the Company). Employees are eligible to participate in the Plan on their first day of employment with the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions Each year, participants may contribute up to 92 percent of pretax annual compensation, subject to certain limitations. The Plan also allows any participant who has attained age 50 by the end of the plan year to make catch-up contributions in accordance with the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a matching contribution equal to 100 percent of 401(k) deferrals made up to the first 3 percent of base compensation and 50 percent of 401(k) deferrals from 3.01 percent to 5 percent of base compensation. The Company may make an additional employer discretionary contribution. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts Each participant's account is credited with the participant's own contribution and an allocation of the Company's contributions, plan earnings, and expenses. Allocation of the Company's contributions, plan earnings, and expenses is based upon participants' compensation and account balances, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts Forfeitures of terminated participants' nonvested employer profit-sharing accounts are used to reduce employer contributions.

Vesting Participants are immediately vested in their own 401(k) contributions, employer matching contributions made after December 31, 1997, and any pension plan rollovers, plus actual earnings thereon. Vesting in the remainder of their account is based on years of credited service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive payment of their vested benefits as a lump-sum payment.

Camco Financial & Subsidiaries Salary Savings Plan

**Notes to Financial Statements
December 31, 2010 and 2009**

Note 1 Description of the Plan (Continued)

Participant Notes Receivable The Plan allows participants to borrow money from the Plan, in amounts not to exceed one-half of the participant's vested account balance. Participants cannot have more than one note receivable from the Plan at any time and initial notes receivable must be for at least \$1,000, with a maximum of \$50,000, as determined by the Internal Revenue Service (IRS).

Party-in-interest Transactions The Plan invests in employer stock as well as certain investment funds managed by the custodian or its affiliates. Charles Schwab Trust Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 2 Summary of Accounting Policies

Investment Valuation The Plan's investments are stated at fair value, except for its benefit-responsive stable value common/collective trust fund investment, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common/collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. Interest-bearing cash is valued at outstanding balances, which approximate fair value. All other investments are valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Camco Financial & Subsidiaries Salary Savings Plan

**Notes to Financial Statements
December 31, 2010 and 2009**

Note 2 Summary of Accounting Policies (continued)

Administrative Expenses Various administrative expenses are paid by the Company on behalf of the Plan.

Benefit Payments Benefits are recorded when paid.

Risk and Uncertainties The Plan provides for various investment options including any combination of mutual funds, Camco Financial Corporation common stock, common/collective funds, and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Concentration of Credit Risk At December 31, 2010 and 2009, approximately 3 percent and 5 percent of the Plan's assets, respectively, were invested in Camco Financial Corporation common stock.

New Accounting Pronouncement During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as notes receivable from participants rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable and the 2009 interest income has been reclassified from investment income to interest from participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Note 3 Tax Status

The plan document has been restated for recent law changes. The plan sponsor adopted the restated version of a non-standardized prototype plan document. The Internal Revenue Service has determined and informed the prototype plan sponsor, by a letter dated June 5, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not individually sought its own determination letter.

The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

**Notes to Financial Statements
December 31, 2010 and 2009**

Note 5 Fair Value

Accounting standards require certain assets and liabilities be reported at fair value on the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level 1 In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
