

GOODYEAR TIRE & RUBBER CO /OH/
Form 10-Q
October 29, 2013

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the Quarterly Period Ended September 30, 2013
Commission File Number: 1-1927

THE GOODYEAR TIRE & RUBBER COMPANY
(Exact Name of Registrant as Specified in Its Charter)

Ohio 34-0253240
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

200 Innovation Way, Akron, Ohio 44316-0001
(Address of Principal Executive Offices) (Zip Code)
(330) 796-2121
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Number of Shares of Common Stock,
Without Par Value, Outstanding at September 30, 246,897,295
2013:

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by The Goodyear Tire & Rubber Company (the "Company," "Goodyear," "we," "us" or "our") in accordance with Securities and Exchange Commission rules and regulations and generally accepted accounting principles in the United States of America ("US GAAP") and in the opinion of management contain all adjustments (including normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012 (the "2012 Form 10-K").

We are a party to shareholder agreements concerning certain of our less-than-wholly-owned consolidated subsidiaries. Under the terms of certain of these agreements, the minority shareholders have the right to require us to purchase their ownership interests in the respective subsidiaries if there is a change in control of Goodyear, a bankruptcy of Goodyear, or other circumstances. Accordingly, we have reported the minority equity in those subsidiaries outside of shareholders' equity.

Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results expected in subsequent quarters or for the year ending December 31, 2013.

Recently Issued Accounting Standards

In July 2013, the Financial Accounting Standards Board ("FASB") issued an accounting standards update requiring the presentation of an unrecognized tax benefit in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. This net presentation is required unless a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date or the tax law of the jurisdiction does not require, and the entity does not intend to use, the deferred tax asset to settle any additional income tax that would result from the disallowance of the unrecognized tax benefit. The standards update is effective for fiscal years beginning after December 15, 2013, with early adoption permitted. The adoption of this standards update will not have a material impact on our consolidated financial statements.

In March 2013, the FASB issued an accounting standards update providing guidance with respect to the release of cumulative translation adjustments into net income when a parent sells either a part or all of its investment in a foreign entity. The standards update also requires the release of cumulative translation adjustments when a company no longer holds a controlling financial interest in a subsidiary or group of assets that is a business within a foreign entity, and provides guidance for the acquisition in stages of a controlling interest in a foreign entity. The standards update is effective for fiscal years beginning after December 15, 2013, with early adoption permitted. The adoption of this standards update will not have a material impact on our consolidated financial statements.

In February 2013, the FASB issued an accounting standards update requiring an entity to record obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date. The standards update is effective for fiscal years beginning after December 15, 2013, with early adoption permitted. The adoption of this standards update will not have a material impact on our consolidated financial statements.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Recently Adopted Accounting Standards

Effective January 1, 2013, we adopted an accounting standards update with new guidance on the presentation of reclassifications from accumulated other comprehensive loss to net income. This standard requires an entity to present reclassifications from accumulated other comprehensive loss to net income either on the face of the statements or in the notes to the consolidated financial statements. Accordingly, we have presented such reclassifications in Note 14, Reclassifications Out Of Accumulated Other Comprehensive Loss, to the consolidated financial statements.

Effective January 1, 2013, we adopted accounting standards updates with new guidance on disclosures related to financial instruments and derivative instruments that are either offset by or subject to an enforceable master netting arrangement or similar agreement and have expanded our disclosure to discuss amounts eligible for offsetting under our master netting agreements.

Effective with our 2013 annual impairment test, we adopted an accounting standards update with new guidance on annual impairment testing of indefinite-lived intangible assets. The standards update allows an entity to first assess qualitative factors to determine if it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount. If based on its qualitative assessment an entity concludes it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, quantitative impairment testing is required. However, if an entity concludes otherwise, quantitative impairment testing is not required. We assess goodwill and intangible assets with indefinite useful lives for impairment annually as of July 31. The adoption of this standards update at July 31, 2013 did not have an impact on our consolidated financial statements.

Reclassifications and Adjustments

Certain items previously reported in specific financial statement captions have been reclassified to conform to the current presentation. In the first quarter of 2012, we recorded an out of period adjustment of \$13 million of additional interest expense to correct capitalized interest recorded in prior periods.

NOTE 2. COSTS ASSOCIATED WITH RATIONALIZATION PROGRAMS

In order to maintain our global competitiveness, we have implemented rationalization actions over the past several years to reduce high-cost manufacturing capacity and associate headcount. The following table shows the roll forward of our liability between periods:

(In millions)	Associate- Related Costs	Other Exit and Non-cancelable	
		Lease Costs	Total
Balance at December 31, 2012	\$229	\$23	\$252
2013 Charges	32	20	52
Reversed to the Statements of Operations	(6) (5) (11
Incurred, Net of Foreign Currency Translation of \$(2) million and \$(2) million, respectively	(37) (23) (60
Balance at September 30, 2013	\$218	\$15	\$233

Rationalization actions initiated in 2013 consisted primarily of manufacturing headcount reductions in Europe, Middle East and Africa (“EMEA”) and Latin America and selling, administrative and general expense (“SAG”) headcount reductions in Asia Pacific and EMEA.

The accrual balance of \$233 million at September 30, 2013 is expected to be substantially utilized within the next 12 months and includes \$177 million relating to plans associated with the announced closure of one of our manufacturing facilities in Amiens, France.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

The following table shows net rationalization charges included in Income before Income Taxes:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Current Year Plans				
Associate Severance and Other Related Costs	\$11	\$21	\$16	\$29
Other Exit and Non-Cancelable Lease Costs	2	—	2	10
Current Year Plans - Net Charges	\$13	\$21	\$18	\$39
Prior Year Plans				
Associate Severance and Other Related Costs	\$3	\$1	\$9	\$11
Other Exit and Non-Cancelable Lease Costs	5	4	14	17
Prior Year Plans - Net Charges	8	5	23	28
Total Net Charges	\$21	\$26	\$41	\$67
Asset Write-off and Accelerated Depreciation Charges	\$5	\$13	\$15	\$19

Substantially all of the new charges for the three and nine months ended September 30, 2013 and 2012 related to future cash outflows. Net charges for the three and nine months ended September 30, 2013 included reversals of \$4 million and \$11 million, respectively, and net charges for the nine months ended September 30, 2012 included reversals of \$2 million for actions no longer needed for their originally intended purposes.

Approximately 400 associates will be released under plans initiated in 2013, of which approximately 200 associates have been released as of September 30, 2013. In total, approximately 1,600 associates remain to be released under rationalization plans, including approximately 1,200 associates related to the announced plan to exit the farm tire business and close one of our facilities in Amiens, France.

Accelerated depreciation charges for the three and nine months ended September 30, 2013 related primarily to property and equipment in one of our facilities in Amiens, France. Accelerated depreciation charges for the three and nine months ended September 30, 2012 were primarily related to property and equipment in our Dalian, China manufacturing facility. Accelerated depreciation charges for all periods were recorded in cost of goods sold (“CGS”).

NOTE 3. OTHER (INCOME) EXPENSE

(In millions)	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Net foreign currency exchange (gains) losses	\$(2)	\$3	\$116	\$20
Financing fees and financial instruments	14	14	41	143
Royalty income	(10)	(10)	(39)	(29)
Interest income	(6)	(4)	(18)	(12)
General and product liability — discontinued products	3	3	12	5
Net (gains) losses on asset sales	(3)	(5)	(6)	(22)

Edgar Filing: GOODYEAR TIRE & RUBBER CO /OH/ - Form 10-Q

Miscellaneous	3	(2) 6	23
	\$—	\$(1) \$112	\$128

Net foreign currency exchange losses in the first nine months of 2013 were \$116 million, which included a net loss of \$115 million resulting from the devaluation of the Venezuelan bolivar fuerte against the U.S. dollar, compared to net losses of \$20 million in the first nine months of 2012. Foreign currency exchange also reflects net gains and losses resulting from the effect of exchange rate changes on various foreign currency transactions worldwide.

- 7-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Effective February 13, 2013, Venezuela's official exchange rate changed from 4.3 to 6.3 bolivares fuertes to the U.S. dollar for substantially all goods. In the first quarter of 2013, we recorded a \$115 million remeasurement loss on bolivar-denominated net monetary assets and liabilities, including deferred taxes, primarily related to cash deposits in Venezuela. We also recorded a one-time subsidy receivable of \$13 million related to certain U.S. dollar-denominated payables that are expected to be settled at the official subsidy exchange rate of 4.3 bolivares fuertes per U.S. dollar applicable to certain import purchases prior to the devaluation date. A portion of this subsidy will reduce cost of goods sold in periods when the related inventory is sold.

Financing fees in the first nine months of 2013 were \$41 million, compared to \$143 million in the first nine months of 2012. Financing fees in 2012 included charges of \$24 million for debt issuance costs primarily related to the amendment and restatement of our U.S. second lien term loan facility, and \$86 million related to the redemption of \$650 million in aggregate principal amount of our outstanding 10.5% senior notes due 2016, of which \$59 million related to cash premiums paid on the redemption and \$27 million related to the write-off of deferred financing fees and unamortized discount. Financing fees and financial instruments also include the amortization of deferred financing fees, commitment fees and other charges incurred in connection with financing transactions.

Royalty income in the nine months ended September 30, 2013 was \$39 million, compared to royalty income of \$29 million in the nine months ended September 30, 2012. Royalty income in 2013 includes a one-time royalty of \$8 million related to our chemical operations. Royalty income is derived primarily from licensing arrangements related to divested businesses.

Interest income consists primarily of amounts earned on cash deposits. General and product liability — discontinued products includes charges for claims against us related primarily to asbestos personal injury claims, net of probable insurance recoveries.

Net gains on asset sales were \$6 million for the first nine months of 2013, compared to net gains of \$22 million for the first nine months of 2012. Net gains on asset sales in 2013 include gains on the transfer of property in Dalian, China to the Chinese government and the sale of property in North America. Net gains on asset sales in 2012 included sales of property in North America, a gain on the sale of a minority interest in a retail business in EMEA and the sale of certain assets related to our bias tire business in Latin America.

Miscellaneous expense in the nine months ended September 30, 2013 and 2012 includes charges of \$6 million and \$20 million, respectively, related to labor claims in EMEA.

NOTE 4. INCOME TAXES

In the third quarter of 2013, we recorded tax expense of \$54 million on income before income taxes of \$249 million. For the first nine months of 2013, we recorded tax expense of \$136 million on income before income taxes of \$555 million. Income tax expense for the first nine months of 2013 was favorably impacted by \$5 million due primarily to recently enacted law changes. In the third quarter of 2012, we recorded tax expense of \$53 million on income before income taxes of \$186 million. Income tax expense in the third quarter of 2012 was unfavorably impacted by \$4 million due primarily to an enacted tax law change. For the first nine months of 2012, we recorded tax expense of \$164 million on income before income taxes of \$408 million. Income tax expense for the first nine months of 2012 was unfavorably impacted by \$10 million of various discrete items.

We record taxes based on overall estimated annual effective tax rates. In addition to the discrete items noted above, the difference between our effective tax rate and the U.S. statutory rate was primarily attributable to continuing to maintain a full valuation allowance against our net Federal and State deferred tax assets.

At January 1, 2013, we had unrecognized tax benefits of \$82 million that if recognized, would have a favorable impact on our tax expense of \$70 million. We had accrued interest of \$20 million as of January 1, 2013. If not favorably settled, \$24 million of the unrecognized tax benefits and all of the accrued interest would require the use of our cash. It is reasonably possible that our total amount of unrecognized tax benefits may change during the next 12

months. However, we do not expect these changes to have a significant impact on our financial position or results of operations.

Generally, years from 2007 onward are still open to examination by foreign taxing authorities. We are open to examination in Germany from 2006 onward and in the United States for 2012.

 (Unaudited)

NOTE 5. EARNINGS PER SHARE

Basic earnings per share are computed based on the weighted average number of common shares outstanding. Diluted earnings per share are calculated to reflect the potential dilution that could occur if securities or other contracts were exercised or converted into common stock.

Basic and diluted earnings per common share are calculated as follows:

(In millions, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Earnings per share — basic:				
Goodyear net income	\$173	\$117	\$394	\$205
Less: Preferred stock dividends	7	7	22	22
Goodyear net income available to common shareholders	\$166	\$110	\$372	\$183
Weighted average shares outstanding	246	245	246	245
Earnings per common share — basic	\$0.67	\$0.45	\$1.51	\$0.75
Earnings per share — diluted:				
Goodyear net income	\$173	\$117	\$394	\$205
Less: Preferred stock dividends	—	—	—	—
Goodyear net income available to common shareholders	\$173	\$117	\$394	\$205
Weighted average shares outstanding	246	245	246	245
Dilutive effect of mandatory convertible preferred stock	27	34	27	34
Dilutive effect of stock options and other dilutive securities	5	2	3	2
Weighted average shares outstanding — diluted	278	281	276	281
Earnings per common share — diluted	\$0.62	\$0.41	\$1.43	\$0.73

Weighted average shares outstanding - diluted for the three and nine months ended September 30, 2013 excludes approximately 4 million and 5 million equivalent shares, respectively, and for both the three and nine months ended September 30, 2012 excludes approximately 11 million equivalent shares related to options with exercise prices greater than the average market price of our common shares (i.e., “underwater” options).

NOTE 7. FINANCING ARRANGEMENTS AND DERIVATIVE FINANCIAL INSTRUMENTS

At September 30, 2013, we had total credit arrangements of \$9,250 million, of which \$2,374 million were unused. At that date, 37% of our debt was at variable interest rates averaging 5.36%.

Notes Payable and Overdrafts, Long Term Debt and Capital Leases due Within One Year and Short Term Financing Arrangements

At September 30, 2013, we had short term committed and uncommitted credit arrangements totaling \$424 million, of which \$380 million were unused. These arrangements are available primarily to certain of our international subsidiaries through various banks at quoted market interest rates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTES

\$900 million 6.5% Senior Notes due 2021

On February 25, 2013, we issued \$900 million aggregate principal amount of 6.5% senior notes due 2021. These notes were sold at 100% of the principal amount and will mature on March 1, 2021. These notes are unsecured senior obligations and are guaranteed by our U.S. and Canadian subsidiaries that also guarantee our obligations under our U.S. senior secured credit facilities described below.

We have the option to redeem these notes, in whole or in part, at any time on or after March 1, 2016 at a redemption price of 104.875%, 103.25%, 101.625% and 100% during the 12-month periods commencing on March 1, 2016, 2017, 2018 and 2019 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to March 1, 2016, we may redeem these notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. In addition, prior to March 1, 2016, we may redeem up to 35% of the original aggregate principal amount of these notes from the net cash proceeds of certain equity offerings at a redemption price equal to 106.5% of the principal amount plus accrued and unpaid interest to the redemption date.

The terms of the indenture for these notes, among other things, limit our ability and the ability of certain of our subsidiaries to (i) incur additional debt or issue redeemable preferred stock, (ii) pay dividends or make certain other restricted payments or investments, (iii) incur liens, (iv) sell assets, (v) incur restrictions on the ability of our subsidiaries to pay dividends to us, (vi) enter into affiliate transactions, (vii) engage in sale and leaseback transactions, and (viii) consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications. For example, if these notes are assigned an investment grade rating by Moody's and Standard & Poor's and no default has occurred or is continuing, certain covenants will be suspended. The indenture has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

CREDIT FACILITIES

\$2.0 billion Amended and Restated First Lien Revolving Credit Facility due 2017

Our amended and restated first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Subject to the consent of the lenders whose commitments are to be increased, we may request that the facility be increased by up to \$250 million. Our obligations under the facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries. Our obligations under the facility and our subsidiaries' obligations under the related guarantees are secured by first priority security interests in a variety of collateral. Amounts drawn under this facility will bear interest at LIBOR plus 150 basis points.

Availability under the facility is subject to a borrowing base, which is based primarily on eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries. To the extent that our eligible accounts receivable and inventory decline, our borrowing base will decrease and the availability under the facility may decrease below \$2.0 billion. As of September 30, 2013, our borrowing base, and therefore our availability, under this facility was \$487 million below the facility's stated amount of \$2.0 billion. The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our consolidated financial condition since December 31, 2011. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At September 30, 2013 and December 31, 2012, we had no borrowings outstanding under the first lien revolving credit facility. Letters of credit issued totaled \$392 million at September 30, 2013 and \$400 million at December 31, 2012.

\$1.2 billion Amended and Restated Second Lien Term Loan Facility due 2019

Our obligations under our amended and restated second lien term loan facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries and are secured by second priority security interests in the same collateral securing the \$2.0 billion first lien revolving credit facility. This facility may be increased by up to \$300 million at our request, subject to the consent of the lenders making such additional term loans. The term loan bears interest at LIBOR plus 375 basis points, subject to a minimum LIBOR rate of 100 basis points. At September 30, 2013 and December 31, 2012, this facility was fully drawn.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

€400 million Amended and Restated Senior Secured European Revolving Credit Facility due 2016

Our amended and restated €400 million European revolving credit facility consists of (i) a €100 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH (the “German borrower”) and (ii) a €300 million all-borrower tranche that is available to Goodyear Dunlop Tires Europe B.V. (“GDTE”), the German borrower and certain of GDTE's other subsidiaries. Up to €50 million in letters of credit are available for issuance under the all-borrower tranche. Amounts drawn under this facility will bear interest at LIBOR plus 250 basis points for loans denominated in U.S. dollars or pounds sterling and EURIBOR plus 250 basis points for loans denominated in euros. GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany provide guarantees to support the facility. The German guarantors secure the German tranche on a first-lien basis and the all-borrower tranche on a second-lien basis. GDTE and its other subsidiaries that provide guarantees secure the all-borrower tranche on a first-lien basis and do not provide collateral support for the German tranche. The Company and its U.S. subsidiaries and primary Canadian subsidiary that guarantee our U.S. senior secured credit facilities described above also provide unsecured guarantees in support of the facility.

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in either our or GDTE's consolidated financial condition since December 31, 2010. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At September 30, 2013 and December 31, 2012, there were no borrowings outstanding under the revolving credit facility. Letters of credit issued under the all-borrower tranche totaled \$8 million (€6 million) and \$10 million (€7 million) at September 30, 2013 and December 31, 2012, respectively.

International Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain of its subsidiaries are parties to a pan-European accounts receivable securitization facility that provides up to €450 million of funding and expires in 2015. Availability under this facility is based on eligible receivable balances. The facility is subject to the customary renewal of its back-up liquidity commitments, which expire on October 17, 2014.

The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries to a bankruptcy-remote French company controlled by one of the liquidity banks in the facility. These subsidiaries retain servicing responsibilities. At September 30, 2013, the amounts available and utilized under this program totaled \$394 million (€291 million). At December 31, 2012, the amounts available and utilized under this program totaled \$348 million (€264 million) and \$192 million (€145 million), respectively. The program does not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases. In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides up to \$89 million (95 million Australian dollars) of funding. Availability under this program is based on eligible receivable balances. At September 30, 2013, the amounts available and utilized under this program were \$52 million. At December 31, 2012, the amounts available and utilized under this program were \$99 million and \$40 million, respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long Term Debt and Capital Leases due Within One Year. For a description of the collateral securing the credit facilities described above as well as the covenants applicable to them, refer to the Note to the Consolidated Financial Statements No. 14, Financing Arrangements and Derivative Financial Instruments, in our 2012 Form 10-K.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

Various subsidiaries sold certain of their trade receivables under off-balance sheet programs. For these programs, we have concluded that there is generally no risk of loss to us from non-payment of the sold receivables. At September 30, 2013, the gross amount of receivables sold was \$270 million, compared to \$243 million at December 31, 2012.

- 14-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Other Foreign Credit Facilities

A Chinese subsidiary has several financing arrangements in China. At September 30, 2013, these non-revolving credit facilities were fully drawn and can only be used to finance the relocation and expansion of our manufacturing facility in China. Borrowings outstanding under these facilities were \$533 million and \$471 million at September 30, 2013 and December 31, 2012, respectively. The facilities mature in 2020 and principal amortization begins in 2015. The facilities contain covenants relating to the Chinese subsidiary and have customary representations and warranties and defaults relating to the Chinese subsidiary's ability to perform its obligations under the facilities. At September 30, 2013, restricted cash of \$22 million was related to funds obtained under these credit facilities. At December 31, 2012, there was no restricted cash related to funds obtained under these credit facilities.

OTHER DOMESTIC DEBT

Global and North America Headquarters

In 2011, we entered into agreements for the construction of a new Global and North America Headquarters facility in Akron, Ohio. We concurrently entered into an agreement to occupy the facility under a 27-year lease, including the two-year construction period, with multiple renewal options available at our discretion. Additionally, we entered into similar agreements for the construction and lease of a new parking deck adjacent to the Headquarters facility. Due to our continuing involvement with the financing during construction of the Headquarters facility and the parking deck, we recorded a non-cash increase to fixed assets and financing liabilities on our Consolidated Balance Sheets as costs were incurred during the construction period. The total financing liability of approximately \$150 million, including capitalized interest, has been recorded in Long Term Debt and Capital Leases at September 30, 2013.

DERIVATIVE FINANCIAL INSTRUMENTS

We utilize derivative financial instrument contracts and nonderivative instruments to manage interest rate, foreign exchange and commodity price risks. We have established a control environment that includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. We do not hold or issue derivative financial instruments for trading purposes.

Foreign Currency Contracts

We will enter into foreign currency contracts in order to manage the impact of changes in foreign exchange rates on our consolidated results of operations and future foreign currency-denominated cash flows. These contracts reduce exposure to currency movements affecting existing foreign currency-denominated assets, liabilities, firm commitments and forecasted transactions resulting primarily from trade purchases and sales, equipment acquisitions, intercompany loans and royalty agreements. Contracts hedging short term trade receivables and payables normally have no hedging designation.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

The following table presents fair values for foreign currency contracts not designated as hedging instruments:

(In millions)	September 30, 2013	December 31, 2012
Fair Values — asset (liability):		
Accounts receivable	\$8	\$2
Other current liabilities	(24) (24

At September 30, 2013 and December 31, 2012, these outstanding foreign currency derivatives had notional amounts of \$1,491 million and \$1,289 million, respectively, and were primarily related to intercompany loans. Other (Income) Expense included net transaction losses of \$28 million and \$21 million for the three and nine months ended September 30, 2013, respectively, compared to net transaction losses of \$1 million and \$4 million for the three and nine months ended September 30, 2012, respectively, on foreign currency derivatives. These amounts were substantially offset in Other (Income) Expense by the effect of changing exchange rates on the underlying currency exposures.

The following table presents fair values for foreign currency contracts designated as cash flow hedging instruments:

(In millions)	September 30, 2013	December 31, 2012
Fair Values — asset (liability):		
Accounts receivable	\$2	\$—
Other current liabilities	(3) (5

At September 30, 2013 and December 31, 2012, these outstanding foreign currency derivatives had notional amounts of \$156 million and \$138 million, respectively, and primarily related to intercompany transactions.

We enter into master netting agreements with counterparties. The amounts eligible for offset under the master netting agreements are not material and we have elected a gross presentation of foreign currency contracts in the Consolidated Balance Sheets.

The following table presents the classification of changes in fair values of foreign currency contracts designated as cash flow hedging instruments (before tax and minority):

(In millions) (Income) Expense	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Amounts deferred to Accumulated Other Comprehensive Loss ("AOCL")	\$5	\$4	\$(2) \$2
Amount of deferred (gain) loss reclassified from AOCL into CGS	1	(6) 3	(10
Amounts excluded from effectiveness testing	—	(1) —	(1

The counterparties to our foreign currency contracts were considered by us to be substantial and creditworthy financial institutions that are recognized market makers at the time we entered into those contracts. We seek to control our credit exposure to these counterparties by diversifying across multiple counterparties, by setting counterparty credit limits based on long term credit ratings and other indicators of counterparty credit risk such as credit default swap

spreads, and by monitoring the financial strength of these counterparties on a regular basis. We also enter into master netting agreements with counterparties when possible. By controlling and monitoring exposure to counterparties in this manner, we believe that we effectively manage the risk of loss due to nonperformance by a counterparty. However, the inability of a counterparty to fulfill its contractual obligations to us could have a material adverse effect on our liquidity, financial position or results of operations in the period in which it occurs.

Curtailments/settlements/termination benefits	2	11	4	11
Total defined benefit pension cost	\$24	\$38	\$86	\$88

During the first quarter of 2013, we made \$34 million of required contributions and \$834 million of discretionary contributions to fully fund our frozen U.S. pension plans. Following these contributions, the Company changed its target asset allocation for these plans to a portfolio of substantially all fixed income securities designed to offset the future impact of discount rate movements on the plans' funded status. As a result of the asset allocation change, we were required to remeasure the benefit obligations and assets of the affected plans at February 28, 2013, which resulted in a first quarter reduction to net actuarial losses included in Accumulated Other Comprehensive Loss of \$93 million. The weighted average discount rate used to measure the benefit obligations of the frozen U.S. pension plans at February 28, 2013 was 3.82% as compared to 3.61% at December 31, 2012. As a result of the change in target asset allocation for the frozen U.S. pension plans, the expected long term return on plan assets for these plans is 4.75% as of March 1, 2013. At February 28, 2013, these frozen U.S. pension plans had assets of \$2,072 million.

In addition to the \$834 million of discretionary contributions to our frozen U.S. pension plans in the first quarter of 2013, we expect to contribute approximately \$275 million to \$325 million to our funded U.S. and non-U.S. pension plans in 2013. For the three and nine months ended September 30, 2013, we contributed \$21 million and \$77 million, respectively, to our non-U.S. plans and for the three and nine months ended September 30, 2013, we contributed \$49 million and \$967 million, respectively, to our U.S. plans.

For the three months ended September 30, 2012, curtailments/settlements/termination benefits of \$11 million include a settlement charge of \$9 million related to the purchase of annuities from existing plan assets to settle obligations of

one of our U.K. pension plans.

The expense recognized for our contributions to defined contribution savings plans for the three months ended September 30, 2013 and 2012 was \$34 million and \$22 million, respectively, and for the nine months ended September 30, 2013 and 2012 was \$83 million and \$72 million, respectively.

- 18-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

We provide certain U.S. employees and employees at certain non-U.S. subsidiaries with health care benefits or life insurance benefits upon retirement. Postretirement benefit (credit) cost for the three months ended September 30, 2013 and 2012 was \$(3) million and \$0 million, respectively, and \$(7) million and \$3 million for the nine months ended September 30, 2013 and 2012, respectively. During the third quarter of 2012, we announced changes to our U.S. and Canadian salaried other postretirement benefit plans, effective January 1, 2013. The changes consisted primarily of eliminating coverage for participants who are or become at least age 65 and eligible for government subsidized programs and reduced our U.S. other postretirement benefit obligation by \$56 million and our Canadian other postretirement benefit obligation by \$18 million.

NOTE 10. STOCK COMPENSATION PLANS

Our Board of Directors granted 2.2 million stock options and 0.2 million performance share units during the nine months ended September 30, 2013 under our stock compensation plans. The weighted average exercise price per share and weighted average fair value per share of the stock option grants during the nine months ended September 30, 2013 were \$13.42 and \$6.11, respectively. We estimated the fair value of the stock options using the following assumptions in our Black-Scholes model:

Expected term: 6.25 years

Interest rate: 1.07%

Volatility: 46.79%

Dividend yield: Nil

We measure the fair value of grants of performance share units based primarily on the closing market price of a share of our common stock on the date of the grant, modified as appropriate to take into account the features of such grants. The weighted average fair value per share was \$13.65 for grants made during the nine months ended September 30, 2013.

We recognized stock-based compensation expense of \$8 million and \$16 million during the three and nine months ended September 30, 2013, respectively. At September 30, 2013, unearned compensation cost related to the unvested portion of all stock-based awards was approximately \$28 million and is expected to be recognized over the remaining vesting period of the respective grants, through September 2017. We recognized stock-based compensation expense of \$5 million and \$10 million during the three and nine months ended September 30, 2012, respectively.

Stock-based awards are made pursuant to stock compensation plans that are approved by our shareholders. The 2013 Performance Plan was adopted by our shareholders on April 15, 2013 and will expire on April 14, 2023 unless earlier terminated. The 2013 Performance Plan replaced the 2008 Performance Plan, which was terminated on April 15, 2013, except with respect to outstanding awards.

NOTE 11. COMMITMENTS AND CONTINGENT LIABILITIES

Environmental Matters

We have recorded liabilities totaling \$45 million and \$43 million at September 30, 2013 and December 31, 2012, respectively, for anticipated costs related to various environmental matters, primarily the remediation of numerous waste disposal sites and certain properties sold by us. Of these amounts, \$10 million and \$9 million were included in Other Current Liabilities at September 30, 2013 and December 31, 2012, respectively. The costs include legal and consulting fees, site studies, the design and implementation of remediation plans, post-remediation monitoring and related activities, and will be paid over several years. The amount of our ultimate liability in respect of these matters may be affected by several uncertainties, primarily the ultimate cost of required remediation and the extent to which other responsible parties contribute. We have limited potential insurance coverage for future environmental claims.

Since many of the remediation activities related to environmental matters vary substantially in duration and cost from site to site and the associated costs for each vary depending on the mix of unique site characteristics, in some cases we cannot reasonably estimate a range of possible losses. Although it is not possible to estimate with certainty the outcome of all of our environmental matters, management believes that potential losses in excess of current reserves for environmental matters, individually and in the aggregate, will not have a material adverse effect on our financial position, cash flows or results of operations.

- 19-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Workers' Compensation

We have recorded liabilities, on a discounted basis, totaling \$315 million and \$307 million for anticipated costs related to workers' compensation at September 30, 2013 and December 31, 2012, respectively. Of these amounts, \$83 million and \$57 million were included in Current Liabilities as part of Compensation and Benefits at September 30, 2013 and December 31, 2012, respectively. The costs include an estimate of expected settlements on pending claims, defense costs and a provision for claims incurred but not reported. These estimates are based on our assessment of potential liability using an analysis of available information with respect to pending claims, historical experience, and current cost trends. The amount of our ultimate liability in respect of these matters may differ from these estimates. We periodically, and at least annually, update our loss development factors based on actuarial analyses. At September 30, 2013 and December 31, 2012, the liability was discounted using a risk-free rate of return. At September 30, 2013, we estimate that it is reasonably possible that the liability could exceed our recorded amounts by approximately \$40 million.

General and Product Liability and Other Litigation

We have recorded liabilities totaling \$302 million and \$298 million, including related legal fees expected to be incurred, for potential product liability and other tort claims, including asbestos claims, presently asserted against us at September 30, 2013 and December 31, 2012, respectively. Of these amounts, \$43 million and \$40 million were included in Other Current Liabilities at September 30, 2013 and December 31, 2012, respectively. The amounts recorded were estimated based on an assessment of potential liability using an analysis of available information with respect to pending claims, historical experience and, where available, recent and current trends. Based upon that assessment, at September 30, 2013, we do not believe that estimated reasonably possible losses associated with general and product liability claims in excess of the amounts recorded will have a material adverse effect on our financial position, cash flows or results of operations. However, the amount of our ultimate liability in respect of these matters may differ from these estimates.

Asbestos. We are a defendant in numerous lawsuits alleging various asbestos-related personal injuries purported to result from alleged exposure to asbestos in certain products manufactured by us or present in certain of our facilities. Typically, these lawsuits have been brought against multiple defendants in state and Federal courts. To date, we have disposed of approximately 106,900 claims by defending and obtaining the dismissal thereof or by entering into a settlement. The sum of our accrued asbestos-related liability and gross payments to date, including legal costs, by us and our insurers totaled approximately \$424 million through September 30, 2013 and \$407 million through December 31, 2012.

A summary of recent approximate asbestos claims activity follows. Because claims are often filed and disposed of by dismissal or settlement in large numbers, the amount and timing of settlements and the number of open claims during a particular period can fluctuate significantly.

(Dollars in millions)	Nine Months Ended September 30, 2013	Year Ended December 31, 2012
Pending claims, beginning of period	73,200	78,500
New claims filed	2,100	2,200
Claims settled/dismissed	(1,300)	(7,500)
Pending claims, end of period	74,000	73,200
Payments (1)	\$ 15	\$ 18

(1) Represents cash payments made during the period by us and our insurers on asbestos litigation defense and claim resolution.

We periodically, and at least annually, review our existing reserves for pending claims, including a reasonable estimate of the liability associated with unasserted asbestos claims, and estimate our receivables from probable insurance recoveries. We had recorded gross liabilities for both asserted and unasserted claims, inclusive of defense costs, totaling \$141 million and \$139 million at September 30, 2013 and December 31, 2012, respectively.

- 20-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

We recorded a receivable related to asbestos claims of \$75 million and \$73 million as of September 30, 2013 and December 31, 2012, respectively. We expect that approximately 50% of asbestos claim related losses will be recoverable through insurance during the ten-year period covered by the estimated liability. Of these amounts, \$11 million and \$10 million were included in Current Assets as part of Accounts Receivable at September 30, 2013 and December 31, 2012, respectively. The recorded receivable consists of an amount we expect to collect under coverage-in-place agreements with certain primary carriers as well as an amount we believe is probable of recovery from certain of our excess coverage insurance carriers.

We believe that, at September 30, 2013, we had approximately \$160 million in limits of excess level policies potentially applicable to indemnity and defense costs for asbestos products claims. We also had coverage under certain primary policies for indemnity and defense costs for asbestos products claims under remaining aggregate limits, as well as coverage for indemnity and defense costs for asbestos premises claims on a per occurrence basis pursuant to a coverage-in-place agreement.

With respect to both asserted and unasserted claims, it is reasonably possible that we may incur a material amount of cost in excess of the current reserve; however, such amounts cannot be reasonably estimated. Coverage under insurance policies is subject to varying characteristics of asbestos claims including, but not limited to, the type of claim (premise vs. product exposure), alleged date of first exposure to our products or premises and disease alleged. Depending upon the nature of these characteristics, as well as the resolution of certain legal issues, some portion of the insurance may not be accessible by us.

Other Actions. We are currently a party to various claims and legal proceedings in addition to those noted above. If management believes that a loss arising from these matters is probable and can reasonably be estimated, we record the amount of the loss, or the minimum estimated liability when the loss is estimated using a range, and no point within the range is more probable than another. As additional information becomes available, any potential liability related to these matters is assessed and the estimates are revised, if necessary. Based on currently available information, management believes that the ultimate outcome of these matters, individually and in the aggregate, will not have a material adverse effect on our financial position or overall trends in results of operations.

Our recorded liabilities and estimates of reasonably possible losses for the contingent liabilities described above are based on our assessment of potential liability using the information available to us at the time and, where applicable, any past experience and recent and current trends with respect to similar matters. Our contingent liabilities are subject to inherent uncertainties, and unfavorable judicial or administrative decisions could occur which we did not anticipate. Such an unfavorable decision could include monetary damages, fines or other penalties or an injunction prohibiting us from taking certain actions or selling certain products. If such an unfavorable decision were to occur, it could result in a material adverse impact on our financial position and results of operations in the period in which the decision occurs, or in future periods.

Income Tax and Other Tax Matters

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for anticipated tax audit issues based on our estimate of whether, and the extent to which, additional taxes will be due. If we ultimately determine that payment of these amounts is unnecessary, we reverse the liability and recognize a tax benefit during the period in which we determine that the liability is no longer necessary. We also recognize income tax benefits to the extent that it is more likely than not that our positions will be sustained when challenged by the taxing authorities. We derecognize income tax benefits when based on new information we determine that it is no longer more likely than not that our position will be sustained. To the extent we prevail in matters for which liabilities have been established, or determine we need to derecognize tax benefits recorded in prior periods, our results of operations and effective tax rate in a given period could be materially affected. An unfavorable tax settlement would require use of our cash, and lead to recognition of expense to the extent the settlement amount exceeds recorded liabilities and, in the case of an income tax settlement, result in an increase in our effective tax rate

in the period of resolution. A favorable tax settlement would be recognized as a reduction of expense to the extent the settlement amount is lower than recorded liabilities and, in the case of an income tax settlement, would result in a reduction in our effective tax rate in the period of resolution.

While the Company applies consistent transfer pricing policies and practices globally, supports transfer prices through economic studies, seeks advance pricing agreements and joint audits to the extent possible and believes its transfer prices to be appropriate, such transfer prices, and related interpretations of tax laws, are occasionally challenged by various taxing authorities globally. We have received various tax assessments challenging our interpretations of applicable tax laws in various jurisdictions. Although we believe we have complied with applicable tax laws, have strong positions and defenses and have historically been successful in defending such claims, our results of operations could be materially adversely affected in the case we are unsuccessful in the defense of existing or future claims.

- 21-

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

In September 2011, the State of Sao Paulo, Brazil issued an assessment to us for allegedly improperly taking tax credits for value-added taxes paid to a supplier of natural rubber during the period from January 2006 to August 2008. The assessment, including interest and penalties, totals 92 million Brazilian real (approximately \$41 million). We have filed a response contesting this assessment and are defending the matter. In the event we are unsuccessful in defending the assessment, our results of operations could be materially affected.

Guarantees

We have off-balance sheet financial guarantees and other commitments totaling approximately \$20 million at September 30, 2013, compared to \$45 million at December 31, 2012, primarily related to our obligations in connection with the financing of the construction of our new Global and North America Headquarters facility. In addition, we will from time to time issue guarantees to financial institutions or other entities on behalf of certain of our affiliates, lessors or customers. Normally there is no separate premium received by us as consideration for the issuance of guarantees. We also generally do not require collateral in connection with the issuance of these guarantees. If our performance under these guarantees is triggered by non-payment or another specified event, we would be obligated to make payment to the financial institution or the other entity, and would typically have recourse to the affiliate, lessor or customer. The guarantees expire at various times through 2023. We are unable to estimate the extent to which our affiliates', lessors' or customers' assets would be adequate to recover any payments made by us under the related guarantees.

NOTE 12. CAPITAL STOCK

Mandatory Convertible Preferred Stock

At September 30, 2013, 10,000,000 shares of our 5.875% mandatory convertible preferred stock, without par value, were outstanding. Quarterly dividends on each share of the mandatory convertible preferred stock will accrue at a rate of 5.875% per year on the initial liquidation preference of \$50.00 per share. Dividends will accrue and accumulate from the date of issuance and, to the extent that we are legally permitted to pay a dividend and the Board of Directors declares a dividend payable, we will pay dividends in cash on January 1, April 1, July 1 and October 1 of each year, commencing on July 1, 2011 and ending on April 1, 2014.

Unless converted earlier, each share of the mandatory convertible preferred stock will automatically convert on April 1, 2014 into between 2.7454 and 3.4317 shares of common stock, depending on the market value of our common stock for the 20 consecutive trading day period ending on the third trading day prior to April 1, 2014, subject to customary anti-dilution adjustments (including in connection with the declaration of dividends on our common stock). At any time prior to April 1, 2014, holders may elect to convert shares of the mandatory convertible preferred stock at the minimum conversion rate of 2.7454 shares of common stock, subject to customary anti-dilution adjustments (including in connection with the declaration of dividends on our common stock).

Dividends

In the first nine months of 2013, we paid cash dividends of \$22 million on our mandatory convertible preferred stock. On August 26, 2013, the Company's Board of Directors (or a duly authorized committee thereof) declared cash dividends of \$0.7344 per share of mandatory convertible preferred stock or \$7 million in the aggregate. The dividend was paid on October 1, 2013 to stockholders of record as of the close of business of September 13, 2013.

On September 18, 2013, the Company's Board of Directors (or a duly authorized committee thereof) declared cash dividends of \$0.05 per share of common stock, or approximately \$12 million in the aggregate. The dividend will be paid on December 1, 2013 to stockholders of record as of the close of business of November 1, 2013.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 15. CONSOLIDATING FINANCIAL INFORMATION

Certain of our subsidiaries have guaranteed our obligations under the \$1.0 billion outstanding principal amount of 8.25% senior notes due 2020, the \$282 million outstanding principal amount of 8.75% notes due 2020, the \$900 million outstanding principal amount of 6.5% senior notes due 2021, and the \$700 million outstanding principal amount of 7% senior notes due 2022 (collectively, the “notes”). The following presents the condensed consolidating financial information separately for:

- (i) The Goodyear Tire & Rubber Company (the “Parent Company”), the issuer of the guaranteed obligations;
- (ii) Guarantor Subsidiaries, on a combined basis, as specified in the indentures related to Goodyear’s obligations under the notes;
- (iii) Non-guarantor Subsidiaries, on a combined basis;

Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions (iv) between the Parent Company, the Guarantor Subsidiaries and the Non-guarantor Subsidiaries, (b) eliminate the investments in our subsidiaries, and (c) record consolidating entries; and

(v) The Goodyear Tire & Rubber Company and Subsidiaries on a consolidated basis.

Each guarantor subsidiary is 100% owned by the Parent Company at the date of each balance sheet presented. The notes are fully and unconditionally guaranteed on a joint and several basis by each guarantor subsidiary. The guarantees of the guarantor subsidiaries are subject to release in limited circumstances only upon the occurrence of certain customary conditions. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use by the Parent Company and guarantor subsidiaries of the equity method of accounting to reflect ownership interests in subsidiaries which are eliminated upon consolidation. Changes in intercompany receivables and payables related to operations, such as intercompany sales or services charges, are included in cash flows from operating activities. Intercompany transactions reported as investing or financing activities include the sale of the capital stock of various subsidiaries, loans and other capital transactions between members of the consolidated group.

Certain non-guarantor subsidiaries of the Parent Company are limited in their ability to remit funds to it by means of dividends, advances or loans due to required foreign government and/or currency exchange board approvals or limitations in credit agreements or other debt instruments of those subsidiaries.

In 2013, we revised the presentation of eliminations of certain intercompany transactions solely between Non-guarantor Subsidiaries within the condensed consolidating balance sheet as of December 31, 2012 and within the consolidating statements of operations for the three and nine months ended September 30, 2012. The revision did not impact the presentation of amounts in previously issued consolidating financial statements for the Parent Company or Guarantor Subsidiaries columns, nor did it impact amounts previously reported in the Company’s Consolidated Statements of Operations or Consolidated Balance Sheets.

Certain eliminations solely between Non-guarantor Subsidiaries that were previously presented within the Consolidating entries and eliminations column are now presented within the Non-guarantor Subsidiaries column. Under the prior presentation, the Non-guarantor Subsidiaries column in the consolidating statement of operations was \$2,195 million and \$6,852 million higher for both net sales and cost of goods sold and was \$38 million and \$113 million higher for both interest expense and other (income) expense for the three and nine months ended September 30, 2012, respectively, and the Non-guarantor Subsidiaries column in the condensed consolidating balance sheet at December 31, 2012 was \$4,576 million higher for both investments in subsidiaries and Goodyear shareholders’ equity, with corresponding offsetting adjustments presented on the same line items in the Consolidating entries and eliminations column. We do not consider these changes in presentation to be material to any previously issued financial statements as the purpose of this footnote is to provide our noteholders with visibility into the entities that provide guarantees in support of the notes, which are disclosed in the Parent Company and Guarantor Subsidiaries columns and are not affected by the revisions described above.

Additionally, to conform to revisions in presentation made in the fourth quarter of 2012, certain intercompany loans for the nine months ended September 30, 2012, previously reported as cash flows from operating activities in the Parent Company and Non-guarantor Subsidiaries columns within the condensed consolidating statement of cash flows have been revised to be reported as investing and financing activities. Under the revised presentation, operating, investing and financing cash flows for the Parent Company increased (decreased) by \$(125) million, \$(25) million and \$150 million, respectively; operating, investing and financing cash flows for Non-guarantor Subsidiaries increased (decreased) by \$(69) million, \$(102) million and \$171 million, respectively; and amounts presented in the eliminations column for operating, investing and financing cash flows increased (decreased) by \$194 million, \$127 million and \$(321) million, respectively. This revision did not impact amounts previously reported in the Company's Consolidated Statement of Cash Flows.

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company will revise prior period condensed consolidating financial statements to reflect the revisions discussed above as such financial statements are included in future reports.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

All per share amounts are diluted and refer to Goodyear net income available to common shareholders.

OVERVIEW

The Goodyear Tire & Rubber Company is one of the world's leading manufacturers of tires, with one of the most recognizable brand names in the world and operations in most regions of the world. We have a broad global footprint with 52 manufacturing facilities in 22 countries, including the United States. We operate our business through four operating segments representing our regional tire businesses: North America; Europe, Middle East and Africa ("EMEA"); Latin America; and Asia Pacific.

In the third quarter of 2013, we continued to experience weak, but stabilizing, industry conditions in developed markets. Our tire unit shipments in the third quarter of 2013 increased 1.9% compared to the third quarter of 2012, with increases occurring in North America, EMEA and Asia Pacific. We also increased our total segment operating income and our segment operating income in each of our operating segments in the third quarter of 2013 compared to the third quarter of 2012. In the third quarter of 2013, we realized approximately \$69 million of cost savings, including raw materials cost saving measures of approximately \$59 million, and in the nine months ended September 30, 2013, we realized approximately \$275 million of cost savings, including raw materials cost saving measures of approximately \$169 million.

On August 22, 2013, members of the United Steelworkers ("USW") ratified a new four-year master labor contract with us. The new contract gives us the ability to freeze our U.S. hourly pension plans and replace them with a defined contribution plan at any time during the four-year contract term once those plans are fully funded. The agreement also reduces the percentage of North American earnings paid out under the Company's profit-sharing plan and reduces the maximum annual payouts. The contract provides flexibility to reduce staffing and continues medical benefit cost sharing, while keeping overall wages and benefits in line with the prior agreement.

On September 20, 2013, we announced a shareholder return program as part of our capital allocation plan that includes the reinstatement of a \$0.05 per share quarterly cash dividend on our common stock. The first dividend is payable December 1, 2013, to shareholders of record on November 1, 2013. We last paid a common stock dividend in December 2002. Our shareholder return program also includes a \$100 million common stock repurchase program. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs. Our capital allocation plan also provides for capital expenditures, pension funding and debt repayments, and restructuring payments.

Net sales were \$5,002 million in the third quarter of 2013, compared to \$5,264 million in the third quarter of 2012. Net sales were \$14,749 million in the first nine months of 2013, compared to \$15,947 million in the first nine months of 2012. Net sales decreased for the quarter and the first nine months of 2013 due to lower sales in other tire-related businesses, primarily third-party sales of chemical products in North America, a decline in price and product mix, primarily in North America and EMEA as a result of the impact of lower raw material costs on pricing, and unfavorable foreign currency translation, primarily in Latin America. Although volumes increased in the third quarter, volumes declined over the first nine months of 2013 due to lower volumes in the first quarter of 2013.

In the third quarter of 2013, Goodyear net income was \$173 million, compared to \$117 million in the third quarter of 2012. In the third quarter of 2013, Goodyear net income available to common shareholders was \$166 million, or \$0.62 per share, compared to \$110 million, or \$0.41 per share, in the third quarter of 2012. Our total segment operating income for the third quarter of 2013 was \$431 million, compared to \$348 million in the third quarter of 2012. The \$83 million increase in segment operating income was due primarily to a decline in raw material costs of \$237 million, which more than offset the effects of lower price and product mix of \$91 million, higher selling, general and administrative ("SAG") expenses of \$40 million, and higher conversion costs of \$28 million. See "Results of Operations — Segment Information" for additional information.

In the first nine months of 2013, Goodyear net income was \$394 million, compared to \$205 million in the first nine months of 2012. In the first nine months of 2013, Goodyear net income available to common shareholders was \$372 million, or \$1.43 per share, compared to \$183 million, or \$0.73 per share, in the first nine months of 2012. Our total segment operating income for the first nine months of 2013 was \$1,161 million, compared to segment operating

income of \$976 million in the first nine months of 2012. The \$185 million increase in segment operating income was due primarily to a decline in raw material costs of \$754 million, which more than offset the effect of lower price and product mix of \$247 million, higher conversion costs of \$202 million, unfavorable foreign currency translation of \$39 million, and lower volume of \$35 million. See "Results of Operations — Segment Information" for additional information.

At September 30, 2013, we had \$2,500 million in Cash and cash equivalents as well as \$2,374 million of unused availability under our various credit agreements, compared to \$2,281 million and \$2,949 million, respectively, at December 31, 2012. Cash and cash equivalents increased by \$219 million from December 31, 2012 due primarily to borrowings in excess of cash needs for pension funding, working capital and capital expenditures. See "Liquidity and Capital Resources" for additional information.

- 33-

Our expectation for growth in the global tire industry remains essentially unchanged from the second quarter of 2013. For the full year of 2013 in North America, we continue to expect consumer replacement to be flat, consumer original equipment to be up approximately 5%, and commercial replacement and original equipment to be flat. For the full year in Europe, we now expect consumer replacement to be flat, consumer original equipment to be flat to down 5%, commercial replacement to be up approximately 5%, and commercial original equipment to be flat to up 5%. We expect that our tire unit volume in the fourth quarter of 2013 will be up between 2% and 4%.

For the fourth quarter of 2013, we expect to realize a net benefit from raw material costs and price and product mix. In order to mitigate some of the impact of raw material costs, we are continuing to focus on price and product mix, to substitute lower cost materials where possible and to work to identify additional substitution opportunities, to reduce the amount of material required in each tire, and to pursue alternative raw materials.

Consistent with higher third quarter 2013 production levels, we expect fourth quarter 2013 segment operating income to benefit from lower under-absorbed fixed overhead costs. We expect cost savings to more than offset general inflation for the fourth quarter of 2013.

See “Forward-Looking Information — Safe Harbor Statement” for a discussion of our use of forward-looking statements in this Form 10-Q.

RESULTS OF OPERATIONS

CONSOLIDATED

Three Months Ended September 30, 2013 and 2012

Net sales in the third quarter of 2013 were \$5,002 million, decreasing \$262 million, or 5.0%, from \$5,264 million in the third quarter of 2012. Goodyear net income was \$173 million in the third quarter of 2013, compared to \$117 million in the third quarter of 2012. Goodyear net income available to common shareholders was \$166 million, or \$0.62 per share, in the third quarter of 2013, compared to \$110 million, or \$0.41 per share, in the third quarter of 2012.

Net sales decreased in the third quarter of 2013, due primarily to lower sales in other tire-related businesses of \$178 million, primarily in North America due to a decrease in the price and volume of third-party sales of chemical products, a decline in price and product mix of \$89 million and unfavorable foreign currency translation of \$77 million. These declines were partially offset by higher tire volume of \$82 million. Consumer and commercial net sales in the third quarter of 2013 were \$2,861 million and \$1,070 million, respectively. Consumer and commercial net sales in the third quarter of 2012 were \$2,913 million and \$1,048 million, respectively.

Worldwide tire unit sales in the third quarter of 2013 were 42.6 million units, increasing 0.8 million units, or 1.9%, from 41.8 million units in the third quarter of 2012. Replacement tire volume increased 0.4 million units, or 1.2%. Original equipment (“OE”) tire volume increased 0.4 million units, or 3.8%. Consumer and commercial tire unit sales in the third quarter of 2013 were 38.8 million and 3.3 million, respectively. Consumer and commercial tire unit sales in the third quarter of 2012 were 38.1 million and 3.2 million, respectively.

Cost of goods sold (“CGS”) in the third quarter of 2013 was \$3,946 million, decreasing \$369 million, or 8.6%, from \$4,315 million in the third quarter of 2012. CGS decreased due to lower raw material costs of \$237 million, lower costs in other tire-related businesses of \$183 million and favorable foreign currency translation of \$55 million. These decreases were partially offset by higher volume of \$68 million, primarily in EMEA and Asia Pacific, and increased conversion costs of \$28 million, primarily in Latin America. Conversion costs were negatively impacted by higher wages and inflation, partially offset by lower under-absorbed fixed overhead costs of approximately \$18 million due to higher production volume. The third quarter of 2013 also included accelerated depreciation of \$5 million (\$4 million after-tax), related to the announced plan to close one of our manufacturing facilities in Amiens, France, compared to \$13 million (\$10 million after-tax) in the 2012 period, primarily related to the closure of our Dalian, China manufacturing facility. CGS in the third quarter of 2012 included \$9 million (\$6 million after-tax) in settlement charges related to a U.K. pension plan. CGS was 78.9% of sales in the third quarter of 2013 compared to 82.0% in the third quarter of 2012. CGS also included savings from rationalization plans of \$12 million.

Selling, administrative and general expense (“SAG”) in the third quarter of 2013 was \$686 million, increasing \$34 million, or 5.2%, from \$652 million in the third quarter of 2012. The increase in SAG was due primarily to higher incentive compensation costs of \$25 million, primarily driven by increases in the Company's stock price, higher advertising and marketing expenses of \$8 million and higher wages. SAG was 13.7% of sales in the third quarter of 2013, compared to 12.4% in the third quarter of 2012. SAG also included savings from rationalization plans of \$9 million.

- 34-

We recorded net rationalization charges of \$21 million (\$15 million after-tax) in the third quarter of 2013. Rationalization actions initiated in the third quarter of 2013 primarily consisted of manufacturing headcount reductions in EMEA and SAG headcount reductions in Asia Pacific and EMEA. We recorded net rationalization charges of \$26 million in the third quarter of 2012 (\$22 million after-tax), primarily related to SAG headcount reductions in EMEA, Asia Pacific and North America.

Interest expense in the third quarter of 2013 was \$100 million, increasing \$14 million, or 16.3%, from \$86 million in the third quarter of 2012. Interest expense increased due to higher average debt balances of \$6,536 million in the third quarter of 2013 compared to \$5,826 million in the third quarter of 2012 and higher average interest rates of 6.12% in the third quarter of 2013 compared to 5.91% in the third quarter of 2012.

Other (Income) Expense in both the third quarter of 2013 and 2012 included financing fees of \$14 million and royalty income of \$10 million. Other (Income) Expense also included net gains on asset sales of \$3 million (\$2 million after-tax) in the third quarter of 2013 compared to net gains on asset sales of \$5 million (\$5 million after-tax) in the third quarter of 2012. Net gains on asset sales in both the third quarter of 2013 and 2012 primarily related to the sale of properties in North America.

Tax expense in the third quarter of 2013 was \$54 million on income before income taxes of \$249 million. In the third quarter of 2012, we recorded tax expense of \$53 million on income before income taxes of \$186 million. Income tax expense in the third quarter of 2012 was unfavorably impacted by \$4 million (\$3 million after minority interest) due to an enacted tax law change. The difference between our effective tax rate and the U.S. statutory tax rate was primarily attributable to improved U.S. profitability while continuing to maintain a full valuation allowance against our net Federal and State deferred tax assets.

Minority shareholders' net income in the third quarter of 2013 was \$22 million, compared to \$16 million in 2012. The increase was due primarily to increased earnings in our joint venture in Europe.

Nine Months Ended September 30, 2013 and 2012

Net sales in the first nine months of 2013 were \$14,749 million, decreasing \$1,198 million, or 7.5%, from \$15,947 million in the first nine months of 2012. Goodyear net income was \$394 million in the first nine months of 2013, compared to \$205 million in the first nine months of 2012. Goodyear net income available to common shareholders was \$372 million, or \$1.43 per share, in the first nine months of 2013, compared to \$183 million, or \$0.73 per share, in the first nine months of 2012.

Net sales decreased in the first nine months of 2013 due to lower sales in other tire-related businesses of \$487 million, primarily due to a decrease in the price and volume of third-party sales of chemical products, unfavorable foreign currency translation of \$252 million, primarily in Latin America and Asia Pacific, lower tire volume of \$230 million, primarily in EMEA, and lower price and product mix of \$170 million, primarily in North America. Consumer and commercial net sales in the first nine months of 2013 were \$8,183 million and \$3,071 million, respectively. Consumer and commercial net sales in the first nine months of 2012 were \$8,621 million and \$3,176 million, respectively. Worldwide tire unit sales in the first nine months of 2013 were 121.6 million units, decreasing 2.4 million units, or 1.9%, from 124.0 million units in the first nine months of 2012. Replacement tire volume decreased 2.7 million units, or 3.1%, primarily due to weak industry volumes in EMEA and decreased sales of lower-end consumer products in North America. OE tire volume increased 0.3 million units, or 0.9%. Consumer and commercial tire unit sales in the first nine months of 2013 were 110.5 million and 9.5 million, respectively. Consumer and commercial tire unit sales in the first nine months of 2012 were 112.7 million and 9.7 million, respectively.

Cost of goods sold in the first nine months of 2013 was \$11,732 million, decreasing \$1,331 million, or 10.2%, from \$13,063 million in the first nine months of 2012. CGS decreased due to lower raw material costs of \$754 million, lower costs in other tire-related businesses of \$460 million, lower tire volume of \$212 million and favorable foreign currency translation of \$177 million, primarily in Latin America. These decreases were partially offset by increased conversion costs of \$202 million and product mix-related manufacturing cost increases of \$77 million. Conversion costs were negatively impacted by higher under-absorbed fixed overhead costs of approximately \$107 million due to lower production volume in North America and EMEA and inflationary cost increases. CGS in the first nine months of 2013 also included accelerated depreciation of \$15 million (\$12 million after-tax) related to the announced plan to close one of our manufacturing facilities in Amiens, France, compared to \$19 million (\$15 million after-tax) in the

2012 period, primarily related to the closure of our Dalian, China manufacturing facility. CGS in the first nine months of 2012 included \$3 million (\$3 million after-tax) in charges related to repairs for 2011 tornado damage at our manufacturing facility in Fayetteville, North Carolina and \$9 million (\$6 million after-tax) in settlement charges related to a U.K. pension plan. CGS was 79.5% of sales in the first nine months of 2013, compared to 82.0% in the first nine months of 2012. CGS also included savings from rationalization plans of \$21 million.

Selling, administrative and general expense in the first nine months of 2013 was \$2,022 million, increasing \$11 million, or 0.5%, from \$2,011 million in the first nine months of 2012. The increase in SAG was due primarily to higher incentive compensation costs of \$54 million, primarily driven by increases in the Company's stock price, partially offset by favorable foreign currency translation of \$36 million and lower advertising expenses of \$18 million. SAG was 13.7% of sales in the first nine months of 2013, compared to 12.6% in the first nine months of 2012. SAG also included savings from rationalization plans of \$26 million.

- 35-

We recorded net rationalization charges of \$41 million (\$30 million after-tax) related to current and prior year plans in the first nine months of 2013. Rationalization actions initiated in 2013 primarily consisted of manufacturing headcount reductions in EMEA and Latin America and SAG headcount reductions in Asia Pacific and EMEA. We recorded net rationalization charges of \$67 million (\$57 million after-tax) in the first nine months of 2012, which included \$20 million of charges related to the closure of our Union City, Tennessee manufacturing facility (“Union City”). Rationalization actions initiated in the first nine months of 2012 also consisted of SAG headcount reductions in EMEA, North America and Asia Pacific and manufacturing headcount reductions in EMEA.

Upon completion of the 2013 plans, we estimate that annual operating costs will be reduced by approximately \$23 million (\$7 million in CGS and \$16 million in SAG). For further information, refer to the Note to the Consolidated Financial Statements No. 2, Costs Associated with Rationalization Programs.

Interest expense in the first nine months of 2013 was \$287 million, increasing \$17 million, or 6.3%, from \$270 million in the first nine months of 2012. Interest expense in the first nine months of 2012 included an adjustment of \$13 million of expense to correct capitalized interest recorded in prior periods. Interest expense increased due to higher average debt balances of \$6,308 million in the first nine months of 2013 compared to \$5,631 million in the first nine months of 2012, which more than offset a slight decrease in average interest rates to 6.07% in the first nine months of 2013 compared to 6.09% in the first nine months of 2012.

Other (Income) Expense in the first nine months of 2013 was \$112 million of expense, compared to \$128 million of expense in the first nine months of 2012. Net foreign currency exchange losses in 2013 included a net loss of \$115 million (\$92 million after-tax) resulting from the devaluation of the Venezuelan bolivar fuerte against the U.S. dollar. Effective February 13, 2013, Venezuela's official exchange rate changed from 4.3 to 6.3 bolivares fuertes to the U.S. dollar for substantially all goods. For further discussion on Venezuela, refer to "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources."

Financing fees were \$41 million in the first nine months of 2013 compared to \$143 million in the first nine months of 2012. Financing fees for the first nine months of 2012 included \$86 million (\$86 million after-tax) in financing fees related to the redemption of \$650 million in aggregate principal amount of our outstanding 10.5% senior notes due 2016, of which \$59 million was a cash premium paid on the redemption and \$27 million related to the write-off of deferred financing fees and unamortized discount, and \$24 million (\$24 million after-tax) of debt issuance costs, primarily related to the amendment and restatement of our U.S. second lien term loan facility. Royalty income in the first nine months of 2013 was \$39 million, compared to royalty income of \$29 million in the first nine months of 2012. Royalty income in the first nine months of 2013 included a one-time royalty of \$8 million related to our chemical operations. Net gains on asset sales were \$6 million (\$5 million after-tax) in the first nine months of 2013 compared to net gains of \$22 million (\$18 million after-tax) in the 2012 period. Net gains on asset sales in 2013 related primarily to the transfer of property in Dalian, China to the Chinese government and the sale of property in North America. Net gains on asset sales in 2012 included gains on the sale of property in North America, the sale of a minority interest in a retail business in EMEA and the sale of certain assets related to our bias tire business in Latin America. Other (Income) Expense also included a charge relating to labor claims in EMEA of \$6 million (\$6 million after-tax) in the first nine months of 2013 compared to a charge of \$20 million (\$20 million after-tax) in the first nine months of 2012.

Tax expense in the first nine months of 2013 was \$136 million on income before income taxes of \$555 million.

Income tax expense in the first nine months of 2013 was favorably impacted by \$5 million (\$6 million after minority interest) due primarily to the enactment of tax law changes. In the first nine months of 2012, we recorded tax expense of \$164 million on income before income taxes of \$408 million. In the first nine months of 2012, income tax expense was unfavorably impacted by \$10 million (\$8 million after minority interest) due to various discrete items. We record taxes based on overall estimated annual effective tax rates. In addition to the discrete items noted above, in 2013 the difference between our effective tax rate and the U.S. statutory tax rate was primarily attributable to improved U.S. profitability while continuing to maintain a full valuation allowance against our net Federal and State deferred tax assets.

Our losses in various taxing jurisdictions in recent periods represented sufficient negative evidence to require us to maintain a full valuation allowance against certain of our net deferred tax assets. In certain foreign locations, it is

reasonably possible that sufficient positive evidence required to release all or a portion of these valuation allowances within the next 12 months will exist. However, we do not expect these possible one-time tax benefits to have a significant impact on our financial position or results of operations. For further information, refer to the Note to the Consolidated Financial Statements No. 4, Income Taxes.

Minority shareholders' net income in the first nine months of 2013 was \$25 million, compared to \$39 million in 2012. The decrease was due primarily to decreased earnings in our joint venture in Europe.

SEGMENT INFORMATION

Segment information reflects our strategic business units (“SBUs”), which are organized to meet customer requirements and global competition and are segmented on a regional basis.

Results of operations are measured based on net sales to unaffiliated customers and segment operating income. Each segment exports tires to other segments. The financial results of each segment exclude sales of tires exported to other segments, but include operating income derived from such transactions. Segment operating income is computed as follows: Net Sales less CGS (excluding asset write-off and accelerated depreciation charges) and SAG (including certain allocated corporate administrative expenses). Segment operating income also includes certain royalties and equity in earnings of most affiliates. Segment operating income does not include net rationalization charges (credits), asset sales and certain other items.

Total segment operating income in the third quarter of 2013 was \$431 million, increasing \$83 million from \$348 million in the third quarter of 2012. Total segment operating margin (segment operating income divided by segment sales) in the third quarter of 2013 was 8.6%, compared to 6.6% in the third quarter of 2012. Total segment operating income in the first nine months of 2013 was \$1,161 million, increasing \$185 million from \$976 million in the first nine months of 2012. Total segment operating margin in the first nine months of 2013 was 7.9%, compared to 6.1% in the first nine months of 2012.

Management believes that total segment operating income is useful because it represents the aggregate value of income created by our SBUs and excludes items not directly related to the SBUs for performance evaluation purposes. Total segment operating income is the sum of the individual SBUs’ segment operating income. Refer to the Note to the Consolidated Financial Statements No. 6, Business Segments, for further information and for a reconciliation of total segment operating income to Income before Income Taxes.

North America

(In millions)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2013	2012	Change	Percent Change	2013	2012	Change	Percent Change
Tire Units	15.8	15.6	0.2	1.2 %	45.4	46.8	(1.4)	(2.9)%
Net Sales	\$2,186	\$2,404	\$(218)	(9.1)%	\$6,553	\$7,352	\$(799)	(10.9)%
Operating Income	161	130	31	23.8 %	492	398	94	23.6 %
Operating Margin	7.4 %	5.4 %			7.5 %	5.4 %		

Three Months Ended September 30, 2013 and 2012

North America unit sales in the third quarter of 2013 increased 0.2 million units, or 1.2%, to 15.8 million units. The increase was due to an increase in OE tire volume of 0.2 million units, or 4.6%, primarily in our consumer business. Replacement tire volume remained flat.

Net sales in the third quarter of 2013 were \$2,186 million, decreasing \$218 million, or 9.1%, from \$2,404 million in the third quarter of 2012. The decrease was due primarily to lower sales in our other tire-related businesses of \$170 million, driven by a decrease in the price and volume of third-party sales of chemical products. In addition, net sales declined due to lower price and product mix of \$64 million, as a result of the impact of lower raw material costs on pricing. These decreases were partially offset by improved tire volume of \$21 million.

Operating income in the third quarter of 2013 was \$161 million, increasing \$31 million, or 23.8%, from \$130 million in the third quarter of 2012. The increase in operating income was due primarily to a decline in raw material costs of \$102 million, which more than offset the effect of lower price and product mix of \$66 million. Operating income was positively impacted by higher profits in other tire-related businesses of \$9 million, driven by an increase in profits from our chemical operations. Operating income also benefited from decreased conversion costs of \$7 million and increased tire volume of \$2 million. These improvements were partially offset by increased SAG expenses of \$15 million due primarily to increased advertising and incentive compensation costs, primarily driven by increases in the Company's stock price, and increased transportation costs of \$8 million. Lower conversion costs included reduced profit sharing of \$14 million and favorable pension costs of \$12 million, partially offset by one-time charges of \$20 million associated with the new USW agreement. Conversion costs and SAG expenses included net savings from

rationalization plans of \$9 million and \$3 million, respectively.

Operating income in the third quarter of 2013 excluded net gains on asset sales of \$2 million and rationalization charges of \$1 million. Operating income in the third quarter of 2012 excluded net rationalization charges of \$9 million, primarily related to costs associated with the closure of Union City, and net gains on asset sales of \$3 million.

- 37-

Nine Months Ended September 30, 2013 and 2012

North America unit sales in the first nine months of 2013 decreased 1.4 million units, or 2.9%, to 45.4 million units. The decrease was due to a reduction in replacement tire volume of 1.6 million units, or 4.8%, primarily in our consumer business, reflecting decreased sales of lower-end consumer products. OE tire volume increased 0.2 million units, or 1.8%.

Net sales in the first nine months of 2013 were \$6,553 million, decreasing \$799 million, or 10.9%, from \$7,352 million in the first nine months of 2012. The decrease was due primarily to lower sales in our other tire-related businesses of \$439 million, driven by a decline in the price and volume of third-party sales of chemical products. In addition, net sales decreased due to lower price and product mix of \$211 million, driven by the impact of raw material costs on pricing, and lower tire volume of \$141 million.

Operating income in the first nine months of 2013 was \$492 million, increasing \$94 million, or 23.6%, from \$398 million in the first nine months of 2012. The increase in operating income was due primarily to a decline in raw material costs of \$377 million, which more than offset the effect of lower price and product mix of \$189 million. Improvements in operating income were partially offset by higher conversion costs of \$54 million, decreased tire volume of \$21 million, increased transportation costs of \$11 million and a decrease in the profitability of our other tire-related businesses of \$3 million. Higher conversion costs were due primarily to \$82 million of increased under-absorbed overhead resulting from lower production volumes, one-time charges of \$20 million associated with the new USW agreement and inflation, partially offset by lower profit sharing of \$37 million and favorable pension costs of \$24 million. Conversion costs and SAG expenses included net savings from rationalization plans of \$18 million and \$11 million, respectively.

Operating income in the first nine months of 2013 excluded net rationalization charges of \$8 million and net gains on asset sales of \$4 million. Operating income in the first nine months of 2012 excluded net rationalization charges of \$28 million, primarily related to the closure of Union City, and net gains on asset sales of \$7 million.

Europe, Middle East and Africa

(In millions)	Three Months Ended September 30,			Percent Change	Nine Months Ended September 30,			Percent Change
	2013	2012	Change		2013	2012	Change	
Tire Units	16.7	16.3	0.4	2.6 %	46.4	48.5	(2.1)	(4.4)%
Net Sales	\$1,752	\$1,748	\$4	0.2 %	\$4,936	\$5,282	\$(346)	(6.6)%
Operating Income	115	105	10	9.5 %	197	214	(17)	(7.9)%
Operating Margin	6.6 %	6.0 %			4.0 %	4.1 %		

Three Months Ended September 30, 2013 and 2012

Europe, Middle East and Africa unit sales in the third quarter of 2013 increased 0.4 million units, or 2.6%, to 16.7 million units. OE tire volume increased 0.4 million units, or 10.6%, primarily in the consumer OE business, while replacement tire volume remained flat. Unit volume reflects a continued stabilization of industry volumes, at a low level, across EMEA during the quarter.

Net sales in the third quarter of 2013 were \$1,752 million, increasing \$4 million, or 0.2%, from \$1,748 million in the third quarter of 2012. Net sales increased due primarily to higher tire volume of \$44 million and favorable foreign currency translation of \$42 million. These increases were partially offset by unfavorable price and product mix of \$75 million, driven by the impact of lower raw material costs on pricing, and lower sales in our other tire-related businesses of \$7 million, primarily in our retail operations.

Operating income in the third quarter of 2013 was \$115 million, increasing \$10 million, or 9.5%, from \$105 million in the third quarter of 2012. Operating income increased due primarily to a decline in raw material costs of \$88 million, which more than offset the effect of lower price and product mix of \$80 million. Operating income was also positively impacted by higher tire volume of \$8 million and favorable foreign currency translation of \$7 million. These increases were partially offset by higher SAG expenses of \$8 million, due primarily to increased incentive compensation costs primarily driven by increases in the Company's stock price, higher conversion costs of \$3 million and lower profitability from our other tire-related businesses of \$3 million. Conversion costs and SAG expenses included net

savings from rationalization plans of \$3 million and \$4 million, respectively. Raw material costs in the third quarter of 2012 included a \$12 million charge for a contractual obligation under an offtake agreement.

- 38-

Operating income in the third quarter of 2013 excluded net rationalization charges of \$9 million, charges of \$5 million related to accelerated depreciation at one of our Amiens, France manufacturing facilities, and a charge of \$1 million related to labor claims with respect to a previously closed facility. Operating income in the third quarter of 2012 excluded net rationalization charges of \$8 million.

Nine Months Ended September 30, 2013 and 2012

Europe, Middle East and Africa unit sales in the first nine months of 2013 decreased 2.1 million units, or 4.4%, to 46.4 million units. Replacement tire volume decreased 2.3 million units, or 6.3%, primarily in the consumer replacement business, due to economic weakness and uncertainty in the region which slowed retail demand, aggressive competition, and high trade inventory levels following weak dealer seasonal tire sales, primarily in the first quarter. OE tire volume increased 0.2 million units, or 1.2%, due to continued stabilization of industry volumes, at a low level, across EMEA during the second and third quarters.

Net sales in the first nine months of 2013 were \$4,936 million, decreasing \$346 million, or 6.6%, from \$5,282 million in the first nine months of 2012. Net sales decreased due primarily to lower tire volume of \$205 million, unfavorable price and product mix of \$113 million, driven by the impact of lower raw material costs on pricing, and lower sales in our other tire-related businesses of \$34 million, primarily in our retail operations. These decreases were partially offset by favorable foreign currency translation of \$6 million.

Operating income in the first nine months of 2013 was \$197 million, decreasing \$17 million, or 7.9%, from \$214 million in the first nine months of 2012. Operating income decreased due primarily to higher conversion costs of \$52 million, lower tire volume of \$39 million, lower income from our other tire-related businesses of \$15 million, primarily in our retail operations, and higher transportation costs of \$6 million. These decreases were partially offset by a decline in raw material costs of \$246 million, which more than offset the effect of lower price and product mix of \$177 million. Operating income also benefited from lower SAG expenses of \$23 million, driven by lower advertising and marketing costs, partially offset by higher incentive compensation costs, primarily driven by increases in the Company's stock price. The increase in conversion costs was due primarily to higher under-absorbed fixed overhead of \$34 million on lower production volume. Conversion costs and SAG expenses included net savings from rationalization plans of \$4 million and \$7 million, respectively. Raw material costs in the first nine months of 2012 included a \$27 million charge for a contractual obligation under an offtake agreement.

Operating income in the first nine months of 2013 excluded charges of \$15 million related to accelerated depreciation at one of our Amiens, France manufacturing facilities, net rationalization charges of \$15 million, charges of \$6 million related to labor claims with respect to a previously closed facility, and a net loss on asset sales of \$2 million.

Operating income in the first nine months of 2012 excluded a charge of \$20 million related to labor claims with respect to a previously closed facility, net rationalization charges of \$18 million and net gains on asset sales of \$8 million.

The announced exit of our farm tire business in EMEA and closure of one of our Amiens, France manufacturing facilities are expected to improve EMEA operating income by approximately \$75 million annually following the closure. We have made significant progress in the consultation process, which is ongoing, and expect completion of the process in time to close the facility in the first quarter of 2014.

Latin America

(In millions)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2013	2012	Change	Percent Change	2013	2012	Change	Percent Change
Tire Units	4.5	4.7	(0.2)	(4.0)%	13.5	13.3	0.2	1.5 %
Net Sales	\$527	\$520	\$7	1.3 %	\$1,571	\$1,544	\$27	1.7 %
Operating Income	89	49	40	81.6 %	231	162	69	42.6 %
Operating Margin	16.9 %	9.4 %			14.7 %	10.5 %		

Three Months Ended September 30, 2013 and 2012

Latin America unit sales in the third quarter of 2013 decreased 0.2 million units, or 4.0%, to 4.5 million units. OE tire volume decreased 0.4 million units, or 21.2%, reflecting our selective fitment strategy in the consumer OE business. Replacement tire volume increased 0.2 million units, or 6.3%, due primarily to our volume improvements exceeding increased industry volumes.

Net sales in the third quarter of 2013 were \$527 million, increasing \$7 million, or 1.3%, from \$520 million in the third quarter of 2012. Net sales increased due primarily to improved price and product mix of \$90 million, including a favorable shift from OE to replacement products, and higher sales in other tire-related businesses of \$11 million. These increases were partially offset by unfavorable foreign currency translation of \$75 million, mainly in Brazil and Venezuela, and lower tire volume of \$19 million.

Operating income in the third quarter of 2013 was \$89 million, increasing \$40 million, or 81.6%, from \$49 million in the third quarter of 2012. Operating income increased primarily due to improved price and product mix of \$79 million, lower raw material costs of \$8 million, and higher profits on intersegment sales of \$5 million. These increases were partially offset by higher conversion costs of \$27 million, unfavorable foreign currency translation of \$10 million, higher SAG expenses of \$10 million, and lower tire volume of \$4 million. Conversion costs were negatively impacted by overall inflation, including wages and benefits, partially offset by lower under-absorbed fixed overhead costs of \$7 million due to higher production volume. The increase in SAG expenses is due primarily to overall inflation, including wages and benefits, and higher warehousing expenses. SAG expenses included savings from rationalization plans of \$3 million.

Operating income in the third quarter of 2013 excluded net rationalization charges of \$2 million. Operating income in the third quarter of 2012 excluded gains on asset sales of \$1 million.

Nine Months Ended September 30, 2013 and 2012

Latin America unit sales in the first nine months of 2013 increased 0.2 million units, or 1.5%, to 13.5 million units. Replacement tire volume increased 0.7 million units, or 8.5%, due primarily to our volume improvements exceeding increased industry volumes. Replacement tire volume in the first nine months of 2012 included 0.4 million units from our bias truck tire business in certain countries, which was sold in May 2012. OE tire volume decreased 0.5 million units, or 10.6%, reflecting our selective fitment strategy in the consumer OE business.

Net sales in the first nine months of 2013 were \$1,571 million, increasing \$27 million, or 1.7%, from \$1,544 million in the first nine months of 2012. Net sales increased primarily due to improved price and product mix of \$219 million, including a favorable shift from OE to replacement products, higher tire volume of \$30 million, and higher sales in other tire-related businesses of \$25 million. These increases were partially offset by unfavorable foreign currency translation of \$187 million, mainly in Brazil and Venezuela, and \$60 million related to the sale of the bias truck tire business in certain countries in May 2012.

Operating income in the first nine months of 2013 was \$231 million, increasing \$69 million, or 42.6%, from \$162 million in the first nine months of 2012. Operating income increased due primarily to improved price and product mix of \$176 million, lower raw material costs of \$24 million, and higher tire volume of \$8 million. These increases were partially offset by higher conversion costs of \$82 million, unfavorable foreign currency translation of \$30 million, higher SAG expenses of \$20 million, and lower profits on intersegment sales of \$3 million. Conversion costs were negatively impacted by overall inflation, including wages and benefits, partially offset by lower under-absorbed fixed overhead costs of \$8 million due to higher production volume. The increase in SAG expenses is due primarily to

overall inflation, including wages and benefits, and higher warehousing expenses. SAG expenses included savings from rationalization plans of \$9 million.

Operating income in the first nine months of 2013 excluded net rationalization charges of \$4 million. In addition, a first quarter foreign currency exchange loss of \$115 million related to the devaluation of the Venezuelan bolivar fuerte is excluded from Latin America and total company segment operating income in 2013. Operating income in the first nine months of 2012 excluded net gains on asset sales of \$4 million and net rationalization charges of \$2 million.

- 40-

Goodyear Venezuela contributed a significant portion of Latin America's sales and operating income in 2012. Latin America's results in the first quarter of 2013 were negatively impacted by the February 2013 devaluation of the Venezuelan bolivar fuerte against the U.S. dollar. Our business has subsequently stabilized; however, the continuing economic uncertainty in Venezuela may adversely impact Latin America's segment operating income in future periods. For further information see "Note to the Consolidated Financial Statements No. 3, Other (Income) Expense," and "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources" in this Form 10-Q and "Item 1. Business — Recent Developments — Venezuelan Currency Devaluation," "Item 1A. Risk Factors," and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Overview" in our 2012 Form 10-K.

Asia Pacific

(In millions)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2013	2012	Change	Percent Change	2013	2012	Change	Percent Change
Tire Units	5.6	5.2	0.4	7.5 %	16.3	15.4	0.9	5.8 %
Net Sales	\$537	\$592	\$(55)	(9.3)%	\$1,689	\$1,769	\$(80)	(4.5)%
Operating Income	66	64	2	3.1 %	241	202	39	19.3 %
Operating Margin	12.3 %	10.8 %			14.3 %	11.4 %		

Three Months Ended September 30, 2013 and 2012

Asia Pacific unit sales in the third quarter of 2013 increased 0.4 million units, or 7.5%, to 5.6 million units.

Replacement tire volume increased 0.2 million units, or 5.0%, and OE tire volume increased 0.2 million units, or 11.1%. The increase in unit volume was primarily due to growth in China and India, partially offset by declines in consumer volume in Australia as a result of a continued weak economic environment.

Net sales in the third quarter of 2013 were \$537 million, decreasing \$55 million, or 9.3%, from \$592 million in the third quarter of 2012. Net sales decreased due to unfavorable price and product mix of \$40 million, driven primarily by the impact of lower raw material costs on pricing, unfavorable foreign currency translation of \$39 million primarily driven by the depreciation of Australian dollar and Indian rupee, and lower sales in other tire-related businesses of \$12 million, primarily in our retail operations. These decreases were partially offset by higher volumes of \$36 million.

Operating income in the third quarter of 2013 was \$66 million, increasing \$2 million, or 3.1%, from \$64 million in the third quarter of 2012. Operating income increased due primarily to lower raw material costs of \$39 million, which more than offset the effect of lower price and product mix of \$24 million, lower start-up expenses for our new manufacturing facility in Pulandian, China of \$13 million, and higher volume of \$8 million. The increases were partially offset by higher SAG expenses of \$7 million, primarily to support sales growth in China, unfavorable foreign currency translation of \$6 million, higher conversion costs of \$5 million, lower income from other tire-related businesses of \$4 million, primarily in our retail operations, and insurance recoveries recognized in 2012.

Operating income in the third quarter of 2013 excluded net rationalization charges of \$9 million, primarily in Australia, and net gains on asset sales of \$1 million. Operating income in the third quarter of 2012 excluded charges for accelerated depreciation of \$13 million, net rationalization charges of \$9 million and net gains on asset sales of \$1 million.

Nine Months Ended September 30, 2013 and 2012

Asia Pacific unit sales in the first nine months of 2013 increased 0.9 million units, or 5.8%, to 16.3 million units.

Replacement tire volume increased 0.5 million units, or 5.3%, and OE tire volume increased 0.4 million units, or 6.5%. The increase in unit volume throughout much of the region and recovery from the Thailand flooding, which negatively impacted 2012 volume, was partially offset by declines in consumer volume in Australia as a result of a continued weak economic environment.

Net sales in the first nine months of 2013 were \$1,689 million, decreasing \$80 million, or 4.5%, from \$1,769 million in the first nine months of 2012. Net sales decreased due to unfavorable price and product mix of \$65 million, driven primarily by the impact of lower raw material costs on pricing, unfavorable foreign currency translation of \$63 million, driven by the depreciation of the Australian dollar and Indian rupee, and lower sales in other tire-related

businesses of \$39 million, primarily in our retail operations. These decreases were partially offset by higher volume of \$86 million.

Operating income in the first nine months of 2013 was \$241 million, increasing \$39 million, or 19.3%, from \$202 million in the first nine months of 2012. Operating income increased due primarily to lower raw material costs of \$107 million, which more than offset the effect of lower price and product mix of \$57 million, lower start-up expenses related to our new manufacturing

- 41-

facility in China of \$25 million and higher volume of \$17 million. These increases were partially offset by higher conversion costs of \$14 million, unfavorable foreign currency translation of \$13 million, lower income from other tire-related businesses of \$11 million, primarily in our retail operations, and higher SAG of \$6 million, due primarily to increased incentive compensation costs, primarily driven by increases in the Company's stock price, and costs to support sales growth in China.

In the first nine months of 2013, on a consolidated basis, we recorded a \$9 million net benefit (\$6 million after-tax), which included \$7 million in Asia Pacific, due to insurance recoveries for the fourth quarter 2011 flood in Thailand. In the first nine months of 2012, on a consolidated basis, we recorded an \$11 million net benefit (\$9 million after-tax), which included \$3 million in Asia Pacific, due to insurance recoveries exceeding incurred expenses and lost profits on sales.

In 2013, start-up expenses at our new manufacturing facility in Pulandian, China are anticipated to be approximately \$35 million lower as compared to 2012.

Operating income in the first nine months of 2013 excluded net rationalization charges of \$14 million, primarily in Australia, and net gains on asset sales of \$4 million. Operating income in the first nine months of 2012 excluded net rationalization charges of \$19 million, charges for accelerated depreciation of \$19 million, and net gains on asset sales of \$1 million.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash generated from our operating and financing activities. Our cash flows from operating activities are driven primarily by our operating results and changes in our working capital requirements and our cash flows from financing activities are dependent upon our ability to access credit or other capital.

In the third quarter of 2013, we continued to experience weak, but stabilizing, industry conditions in developed markets.

Our new four-year master labor contract with the USW gives us the ability to freeze our U.S. hourly pension plans and replace them with a defined contribution plan at any time during the contract term once those plans are fully funded. We will evaluate the timing of fully funding our U.S. hourly pension plans, based on market conditions, beginning in 2014, and expect to use the proceeds of debt financing and available cash to make those contributions.

On September 20, 2013, we announced a shareholder return program as part of our capital allocation plan that includes the reinstatement of a \$0.05 per share quarterly cash dividend on our common stock. The first dividend is payable December 1, 2013, to shareholders of record on November 1, 2013. Our shareholder return program also includes a \$100 million common stock repurchase program. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs. Our capital allocation plan also provides for capital expenditures, pension funding and debt repayments, and restructuring payments.

In the first quarter of 2013, we completed the sale of our \$900 million 6.5% senior notes due 2021, generating net proceeds of approximately \$885 million after underwriting discounts, commissions and offering costs. We used substantially all of the net proceeds from the sale of those notes to fund contributions to our frozen U.S. pension plans. At September 30, 2013, we had \$2,500 million in Cash and cash equivalents, compared to \$2,281 million at December 31, 2012. For the nine months ended September 30, 2013, net cash used by operating activities was \$298 million due primarily to pension contributions and direct payments of \$1,072 million and cash used for working capital of \$505 million, which exceeded net income before depreciation expense and other non-cash charges. Net cash used by investing activities was \$725 million, driven primarily by capital expenditures of \$734 million. Net cash provided by financing activities was \$1,400 million primarily driven by net borrowings of \$1,433 million which included net proceeds of \$885 million from the first quarter 2013 issuance of \$900 million in aggregate principal amount of 6.5% senior notes due 2021.

At September 30, 2013, we had \$2,374 million of unused availability under our various credit agreements, compared to \$2,949 million at December 31, 2012. The table below presents unused availability under our credit facilities at those dates:

(In millions)	September 30, 2013	December 31, 2012
First lien revolving credit facility	\$1,121	\$1,239
European revolving credit facility	533	519
Chinese credit facilities	—	57
Pan-European accounts receivable facility	—	156
Other domestic and international debt	340	531
Notes payable and overdrafts	380	447
	\$2,374	\$2,949

We have deposited our cash and cash equivalents and entered into various credit agreements and derivative contracts with financial institutions that we considered to be substantial and creditworthy at the time of such transactions. We seek to control our exposure to these financial institutions by diversifying our deposits, credit agreements and derivative contracts across multiple financial institutions, by setting deposit and counterparty credit limits based on long term credit ratings and other indicators of credit risk such as credit default swap spreads, and by monitoring the financial strength of these financial institutions on a regular basis. We also enter into master netting agreements with counterparties when possible. By controlling and monitoring exposure to financial institutions in this manner, we believe that we effectively manage the risk of loss due to nonperformance by a financial institution. However, we cannot provide assurance that we will not experience losses or delays in accessing our deposits or lines of credit due to

the nonperformance of a financial institution. Our inability to access our cash deposits or make draws on our lines of credit, or the inability of a counterparty to fulfill its contractual obligations to us, could have a material adverse effect on our liquidity, financial position or results of operations in the period in which it occurs.

- 43-

During the first quarter of 2013, we made \$34 million of required contributions and \$834 million of discretionary contributions to fully fund our frozen U.S. pension plans. Following these contributions, the Company changed its target asset allocation for these plans to a portfolio of substantially all fixed income securities designed to offset the future impact of discount rate movements on the plans' funded status.

Changes in general interest rates and corporate (AA or better) credit spreads impact the discount rate used to determine our U.S. pension liability. In the first quarter of 2013, substantially all of our U.S. pension plans entered into short term zero cost interest rate option strategies in order to significantly reduce the volatility of our U.S. pension plan funded status. Following this, as noted above, we fully funded our frozen U.S. pension plans, changed their target asset allocation to a portfolio of substantially all fixed income securities and measured the liabilities and assets of those plans at February 28, 2013. December 31, 2012 remained the measurement date for our other U.S. pension plans. If general interest rates were to decrease in parallel (i.e., across all maturities) from these measurement points, the actions described above would mitigate a portion of the impact of the expected increase in our U.S. pension benefit obligation. For example, if general interest rates decreased by 0.50%, the actions described above would mitigate approximately 85% of the expected increase in the U.S. pension benefit obligation and, if general interest rates decreased by 1.00%, the actions described above would mitigate approximately 75% of the expected increase. If general interest rates were to increase in parallel from these measurement points, the actions described above would limit the benefit of higher interest rates on our U.S. pension benefit obligation to the extent those interest rates increase beyond specified levels. For example, if general interest rates increased by 0.50%, the actions described above would result in approximately a 35% offset to the expected decrease in the U.S. pension benefit obligation, if general interest rates increased by 1.00%, the actions described above would result in approximately a 40% offset and, if general interest rates increased by 1.50%, the actions described above would result in approximately a 50% offset. In the first quarter of 2013, we also entered into short term zero cost equity collars that cap upside benefits and limit downside risk on a portion of the pension plans' U.S. equity portfolio. These agreements initially covered 75% of our equity position and were designed to continue to cover approximately 75% of the equity positions of the plans not fully funded in the first quarter of 2013.

In 2013, we expect our operating cash flow to include global contributions to our funded pension plans of approximately \$275 million to \$325 million, in addition to discretionary contributions of \$834 million.

The Moving Ahead for Progress in the 21st Century Act (the "MAP-21 Act") contains provisions that stabilize the interest rates used to calculate required pension contributions in the United States. Minimum contribution requirements for our U.S. pension plans are determined under the provisions of the MAP-21 Act. Including the impact of the full funding of our frozen U.S. pension plans during the first quarter of 2013, the funding stabilization provisions of the MAP-21 Act are expected to reduce our total U.S. minimum required pension contributions by approximately \$375 million to \$425 million in the aggregate through 2016, with the greatest benefit coming in 2013 and 2014. We currently estimate that we will make contributions to our funded U.S. pension plans of approximately \$175 million to \$200 million in 2013, in addition to discretionary contributions of \$834 million, and \$250 million to \$300 million in 2014.

We expect our 2013 cash flow needs to include capital expenditures of approximately \$1.1 billion, interest expense to range between \$385 million to \$395 million, dividends on our mandatory convertible preferred stock to be \$29 million and dividends on our common stock to be \$12 million. We intend to operate the business in a way that allows us to address these needs with our existing cash and available credit if they cannot be funded by cash generated from operations.

Sumitomo Rubber Industries, Ltd. ("SRI") has minority exit rights upon the occurrence of certain events enumerated in the global alliance agreements, including certain bankruptcy events, changes in our control or breaches (subject to notice and the opportunity to cure) of the global alliance agreements. SRI's exit rights, if triggered and exercised, could require us to make a substantial payment to acquire SRI's interests in Goodyear Dunlop Tires Europe B.V. ("GDTE") and Goodyear Dunlop Tires North America, Ltd. ("GDTNA") following the determination of the fair value of SRI's interests. For further information regarding our global alliance with SRI, including the events that could trigger SRI's exit rights, see "Item 1. Business. Description of Goodyear's Business — Global Alliance" in our 2012 Form 10-K. As of the date of this filing, SRI has not provided us notice of any exit rights that have become exercisable.

Our ability to service debt and operational requirements is also dependent, in part, on the ability of our subsidiaries to make distributions of cash to various other entities in our consolidated group, whether in the form of dividends, loans or otherwise. In certain countries where we operate, such as China, Venezuela, and South Africa, transfers of funds into or out of such countries by way of dividends, loans, advances or payments to third-party or affiliated suppliers are generally or periodically subject to certain requirements, such as obtaining approval from the foreign government and/or currency exchange board before net assets can be transferred out of the country. In addition, certain of our credit agreements and other debt instruments limit the ability of foreign subsidiaries to make distributions of cash. Thus, we would have to repay and/or amend these credit agreements and other debt instruments in order to use this cash to service our consolidated debt. Because of the inherent uncertainty of satisfactorily meeting these requirements or limitations, we do not consider the net assets of our subsidiaries, including our Chinese, Venezuelan

and South African subsidiaries, that are subject to such requirements or limitations to be integral to our liquidity or our ability to service our debt and operational requirements. At September 30, 2013, approximately \$637 million of net assets, including \$491 million of cash and cash equivalents, were subject to such requirements, including \$397 million of cash in Venezuela. The requirements we must comply with to transfer funds out of China and South Africa have not adversely impacted our ability to make transfers out of those countries.

Since Venezuela's economy is considered to be highly inflationary under U.S. generally accepted accounting principles, the U.S. dollar is the functional currency of our Venezuelan subsidiary. All gains and losses resulting from the remeasurement of its financial statements are determined using official exchange rates and are reported in Other (Income) Expense. Effective February 13, 2013, Venezuela's official exchange rate changed from 4.3 to 6.3 bolivares fuertes to the U.S. dollar for substantially all goods. As a result of the devaluation, we recorded a \$115 million remeasurement loss on bolivar-denominated net monetary assets and liabilities including deferred taxes, primarily related to cash deposits in Venezuela. We also recorded a one-time subsidy receivable of \$13 million related to certain U.S. dollar-denominated payables that are expected to be settled at the official subsidy exchange rate of 4.3 bolivares fuertes per U.S. dollar applicable to certain import purchases prior to the devaluation date. A portion of this subsidy will reduce cost of goods sold in future periods when the related inventory is sold. We have received \$2 million of the subsidy to date and will continue to periodically update our assessment of our ability to realize the benefit of the subsidy receivable.

Beginning February 13, 2013, we have used the official exchange rate of 6.3 bolivares fuertes to the U.S. dollar to settle substantially all foreign currency transactions in Venezuela. If in the future we convert bolivares fuertes at a rate other than the official exchange rate or the official exchange rate is revised, we may realize additional losses that would be recorded in the Statements of Operations. At September 30, 2013, we had bolivar fuerte denominated monetary assets of \$459 million which consisted primarily of \$397 million of cash, \$25 million of accounts receivable and \$21 million of deferred tax assets, and bolivar fuerte denominated monetary liabilities of \$176 million which consisted primarily of \$92 million of intercompany payables, including \$41 million of dividends, \$25 million of accounts payable - trade, \$24 million of compensation and benefits, and \$22 million of long term benefits. At December 31, 2012, we had bolivar fuerte denominated monetary assets of \$446 million which consisted primarily of \$398 million of cash, \$22 million of deferred tax assets and \$10 million of accounts receivable, and bolivar fuerte denominated monetary liabilities of \$202 million which consisted primarily of \$112 million of intercompany payables, including \$59 million of dividends, \$37 million of accounts payable - trade, \$24 million of long term benefits, \$10 million of compensation and benefits and \$4 million of income taxes payable. All monetary assets and liabilities were remeasured at 6.3 and 4.3 bolivares fuertes to the U.S. dollar at September 30, 2013 and December 31, 2012, respectively.

Goodyear Venezuela's sales were 2.5% and 2.0% of our net sales for the three months ended September 30, 2013 and 2012, respectively, and were 2.2% and 1.7% of our net sales for the nine months ended September 30, 2013 and 2012, respectively. Goodyear Venezuela's cost of goods sold were 2.1% and 1.7% of our cost of goods sold for the three months ended September 30, 2013 and 2012, respectively, and were 2.0% and 1.4% of our cost of goods sold for the nine months ended September 30, 2013 and 2012, respectively. Goodyear Venezuela's sales are bolivar fuerte denominated and cost of goods sold are approximately 66% bolivar fuerte denominated and approximately 34% U.S. dollar denominated. A further 10% decrease in the bolivar fuerte against the U.S. dollar would decrease Goodyear Venezuela's sales and cost of goods sold by approximately \$39 million and approximately \$16 million, respectively, on an annual basis, before any potential offsetting actions.

During the nine months ended September 30, 2013, Goodyear Venezuela settled \$61 million and \$2 million, respectively, of U.S. dollar-denominated intercompany payables and accounts payable - trade. For the nine months ended September 30, 2013, approximately 28% and 72% of those payables were settled at the official exchange rate of 4.3 and 6.3 bolivares fuertes to the U.S. dollar, respectively. At September 30, 2013, settlements of U.S. dollar-denominated liabilities pending before the currency exchange board were approximately \$164 million, of which approximately \$35 million are expected to be settled at 4.3 bolivares fuertes to the U.S. dollar and approximately \$129 million are expected to be settled at 6.3 bolivares fuertes to the U.S. dollar. At September 30, 2013, approximately \$32 million of the requested settlements were pending up to 180 days, approximately \$46 million were pending from

180 to 360 days and approximately \$86 million were pending over one year. Amounts pending up to 180 days include imported tires and raw materials of \$30 million, amounts pending from 180 to 360 days include imported tires and raw materials of \$44 million, and amounts pending over one year include dividends payable of \$41 million, intercompany charges for royalties of \$12 million, and imported tires of \$10 million. Currency exchange controls in Venezuela continue to limit our ability to remit funds from Venezuela.

We believe that our liquidity position is adequate to fund our operating and investing needs and debt maturities in 2013 and to provide us with flexibility to respond to further changes in the business environment. If market opportunities exist, we may choose to undertake additional financing actions in order to further enhance our liquidity position, which could include obtaining new bank debt or capital markets transactions. However, the challenges we face may cause a material reduction in our liquidity as a result of an adverse change in our cash flow from operations or our access to credit or other capital. See "Item 1A. Risk Factors" in our 2012 Form 10-K for a more detailed discussion of these challenges.

Operating Activities

Net cash used in operating activities was \$298 million in the first nine months of 2013, compared to \$329 million in the first nine months of 2012. Operating cash flows were favorably impacted by a reduction in the cash used to fund seasonal working capital needs of \$399 million and increased earnings of \$175 million, despite a first quarter 2013 charge of \$115 million for the devaluation of the Venezuelan bolivar fuerte. These increases in operating cash flows were partially offset by higher pension contributions of \$582 million. The decrease in cash used for working capital in 2013 was primarily due to improved payment terms from vendors, primarily in North America and EMEA. The increase in pension contributions was due primarily to first quarter 2013 discretionary contributions of \$834 million to fully fund our frozen U.S. pension plans.

Investing Activities

Net cash used in investing activities was \$725 million in the first nine months of 2013, compared to \$800 million in the first nine months of 2012. Capital expenditures were \$734 million in the first nine months of 2013, compared to \$788 million in the first nine months of 2012. Beyond expenditures required to sustain our facilities, capital expenditures in 2013 primarily related to expansion of manufacturing capacity in Japan, Brazil and Chile. Expenditures in 2012 primarily related to expansion of manufacturing capacity in China and Chile.

Financing Activities

Net cash provided by financing activities was \$1,400 million in the first nine months of 2013, compared to \$598 million in the first nine months of 2012. Financing activities in 2013 included net borrowings of \$1,433 million used to fully fund our frozen U.S. pension plans and to fund working capital needs and capital expenditures. Net borrowings in 2013 included net proceeds of \$885 million from the first quarter issuance of \$900 million in aggregate principal amount of 6.5% senior notes due 2021 and net borrowings of \$548 million under various other credit facilities.

Credit Sources

In aggregate, we had total credit arrangements of \$9,250 million available at September 30, 2013, of which \$2,374 million were unused, compared to \$8,387 million available at December 31, 2012, of which \$2,949 million were unused. At September 30, 2013, we had long term credit arrangements totaling \$8,826 million, of which \$1,993 million were unused, compared to \$7,837 million and \$2,501 million, respectively, at December 31, 2012. At September 30, 2013, we had short term committed and uncommitted credit arrangements totaling \$424 million, of which \$380 million were unused, compared to \$550 million and \$447 million, respectively, at December 31, 2012. The continued availability of the short term uncommitted arrangements are at the discretion of the relevant lender and may be terminated at any time.

See Note 7, Financing Arrangements and Derivative Financial Instruments, for a discussion of the issuance of our \$900 million 6.5% senior notes due 2021 in the first quarter of 2013.

Outstanding Notes

At September 30, 2013, we had \$3,349 million of outstanding notes, compared to \$2,440 million at December 31, 2012.

For additional information on our outstanding notes, refer to the Note to Consolidated Financial Statements, No. 14, Financing Arrangements and Derivative Financial Instruments, in our 2012 Form 10-K and Note 7, Financing Arrangements and Derivative Financial Instruments, in this Form 10-Q.

\$2.0 Billion Amended and Restated First Lien Revolving Credit Facility due 2017

Our amended and restated \$2.0 billion first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Loans under this facility initially bear interest at LIBOR plus 150 basis points, based on our current liquidity. Subject to the consent of the lenders whose commitments are to be increased, we may request that the facility be increased by up to \$250 million. Availability under the facility is subject to a borrowing base, which is based on eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries, after adjusting for customary factors that are subject to modification from time to time by the administrative agent or the majority lenders at their discretion (not to be exercised unreasonably). Modifications are based on the results of periodic collateral and borrowing base evaluations and appraisals. To the extent that our eligible accounts receivable and inventory decline, our borrowing

base will decrease and the availability under the facility may decrease below \$2.0 billion. In addition, if the amount of outstanding borrowings and letters of credit under the facility exceeds the borrowing base, we are required to prepay borrowings and/or cash collateralize letters of credit sufficient to eliminate the excess. As of September 30, 2013, our borrowing base, and therefore our availability, under the facility was \$487 million below the facility's stated amount of \$2.0 billion.

At September 30, 2013 and December 31, 2012, we had no borrowings outstanding under the first lien revolving credit facility. Letters of credit issued totaled \$392 million at September 30, 2013 and \$400 million at December 31, 2012.

\$1.2 Billion Amended and Restated Second Lien Term Loan Facility due 2019

Our obligations under this facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries and are secured by second priority security interests in the same collateral securing the \$2.0 billion first lien revolving credit facility. Subject to the consent of the lenders making additional term loans, we may request that the facility be increased by up to \$300 million. At September 30, 2013 and December 31, 2012, this facility was fully drawn.

€400 Million Amended and Restated Senior Secured European Revolving Credit Facility due 2016

Our amended and restated €400 million revolving credit facility consists of a €100 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH (the “German borrower”) and a €300 million all-borrower tranche that is available to GDTE, the German borrower and certain of GDTE’s other subsidiaries. Up to €50 million in letters of credit are available for issuance under the all-borrower tranche. GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany provide guarantees to support the facility. GDTE’s obligations under the facility and the obligations of its subsidiaries under the related guarantees are secured by security interests in a variety of collateral. Goodyear and its U.S. subsidiaries and primary Canadian subsidiary that guarantee our U.S. senior secured credit facilities described above also provide unsecured guarantees to support the facility.

At September 30, 2013 and December 31, 2012, there were no borrowings outstanding under the revolving credit facility. Letters of credit issued under the all-borrower tranche totaled \$8 million (€6 million) and \$10 million (€7 million) at September 30, 2013 and December 31, 2012, respectively.

Each of our first lien revolving credit facility and our European revolving credit facility have customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in financial condition since December 31, 2011 under the first lien facility and December 31, 2010 under the European facility. Each of the facilities described above have customary defaults, including cross-defaults to material indebtedness of Goodyear and our subsidiaries. For a description of the collateral securing the above facilities as well as the covenants applicable to them, please refer to “Covenant Compliance” below, the Note to the Consolidated Financial Statements No. 14, Financing Arrangements and Derivative Financial Instruments, in our 2012 Form 10-K and Note 7, Financing Arrangements and Derivative Financial Instruments, in this Form 10-Q.

International Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain of its subsidiaries are parties to a pan-European accounts receivable securitization facility that provides up to €450 million of funding and expires in 2015. Availability under this facility is based on eligible receivable balances. The facility is subject to the customary renewal of its back-up liquidity commitments, which expire on October 17, 2014.

The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries to a bankruptcy-remote French company controlled by one of the liquidity banks in the facility. These subsidiaries retain servicing responsibilities. At September 30, 2013, the amounts available and utilized under this program totaled \$394 million (€291 million). At December 31, 2012, the amounts available and utilized under this program totaled \$348 million (€264 million) and \$192 million (€145 million), respectively. The program did not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases.

In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides up to \$89 million (95 million Australian dollars) of funding. Availability under this program is based on eligible receivable balances. At September 30, 2013, the amounts available and utilized under this program were \$52 million. At December 31, 2012, the amounts available and utilized under this program were \$99 million and \$40 million, respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long Term Debt and Capital Leases due Within One Year.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

Various subsidiaries sell certain of their trade receivables under off-balance sheet programs. For these programs, we have concluded that there is no risk of loss to us from non-payment of the sold receivables. At September 30, 2013, the gross amount of receivables sold was \$270 million, compared to \$243 million at December 31, 2012.

Vendor Financing

We have entered into payment processing agreements with several financial institutions. Under these agreements, the financial institution acts as our paying agent with respect to accounts payable due to our suppliers. These agreements also allow our suppliers to sell their receivables to the financial institutions at the sole discretion of both the supplier and the financial institution on terms that are negotiated between them. We are not notified when our suppliers sell receivables under these programs. Our obligations to our suppliers, including the amounts due and scheduled payment dates, are not impacted by our suppliers' decisions to sell their receivables under the programs. At September 30, 2013 and December 31, 2012, agreements for such vendor financing programs totaled approximately \$400 million.

Covenant Compliance

Our amended and restated first lien revolving and second lien credit facilities and some of the indentures governing our notes contain certain covenants that, among other things, limit our ability to incur additional debt or issue redeemable preferred stock, make certain restricted payments or investments, incur liens, sell assets, incur restrictions on the ability of our subsidiaries to pay dividends to us, enter into affiliate transactions, engage in sale and leaseback transactions, and consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications.

We have additional financial covenants in our first lien revolving and second lien credit facilities that are currently not applicable. We only become subject to these financial covenants when certain events occur. These financial covenants and related events are as follows:

We become subject to the financial covenant contained in our first lien revolving credit facility when the aggregate amount of our Parent Company (The Goodyear Tire & Rubber Company) and guarantor subsidiaries cash and cash equivalents ("Available Cash") plus our availability under our first lien revolving credit facility is less than \$200 million. If this were to occur, our ratio of EBITDA to Consolidated Interest Expense may not be less than 2.0 to 1.0 for any period of four consecutive fiscal quarters. As of September 30, 2013, our availability under this facility of \$1,121 million, plus our Available Cash of \$1,152 million, totaled \$2.3 billion, which is in excess of \$200 million.

We become subject to a covenant contained in our second lien credit facility upon certain asset sales. The covenant provides that, before we use cash proceeds from certain asset sales to repay any junior lien, senior unsecured or subordinated indebtedness, we must first offer to use such cash proceeds to prepay borrowings under the second lien credit facility unless our ratio of Consolidated Net Secured Indebtedness to EBITDA (Pro Forma Senior Secured Leverage Ratio) for any period of four consecutive fiscal quarters is equal to or less than 3.0 to 1.0.

In addition, our amended and restated European revolving credit facility contains non-financial covenants similar to the non-financial covenants in our first and second lien credit facilities that are described above and a financial covenant applicable only to GDTE and its subsidiaries. This financial covenant provides that we are not permitted to allow GDTE's ratio of Consolidated Net J.V. Indebtedness to Consolidated European J.V. EBITDA for a period of four consecutive fiscal quarters to be greater than 3.0 to 1.0 at the end of any fiscal quarter. Consolidated Net J.V. Indebtedness is determined net of the sum of cash and cash equivalents in excess of \$100 million held by GDTE and its subsidiaries, cash and cash equivalents in excess of \$150 million held by the Parent Company and its U.S. subsidiaries and availability under our first lien revolving credit facility if the ratio of EBITDA to Consolidated Interest Expense described above is not applicable and the conditions to borrowing under the first lien revolving credit facility are met. Consolidated Net J.V. Indebtedness also excludes loans from other consolidated Goodyear entities. This financial covenant is also included in our pan-European accounts receivable securitization facility. At September 30, 2013, we were in compliance with this financial covenant.

Our amended and restated credit facilities also state that we may only incur additional debt or make restricted payments that are not otherwise expressly permitted if, after giving effect to the debt incurrence or the restricted payment, our ratio of EBITDA to Consolidated Interest Expense for the prior four fiscal quarters would exceed 2.0 to 1.0. Certain of our senior note indentures have substantially similar limitations on incurring debt and making restricted payments. Our credit facilities and indentures also permit the incurrence of additional debt through other provisions in those agreements without regard to our ability to satisfy the ratio-based incurrence test described above. We believe that these other provisions provide us with sufficient flexibility to incur additional debt necessary to meet our operating, investing and financing needs without regard to our ability to satisfy the ratio-based incurrence test.

There are no known future changes to, or new covenants in, any of our existing debt obligations at September 30, 2013 other than as described above. Covenants could change based upon a refinancing or amendment of an existing facility, or additional covenants may be added in connection with the incurrence of new debt.

At September 30, 2013, we were in compliance with the currently applicable material covenants imposed by our principal credit facilities and indentures.

- 48-

The terms "Available Cash," "EBITDA," "Consolidated Interest Expense," "Consolidated Net Secured Indebtedness," "Pro Forma Senior Secured Leverage Ratio," "Consolidated Net J.V. Indebtedness" and "Consolidated European J.V. EBITDA" have the meanings given them in the respective credit facilities.

Potential Future Financings

In addition to our previous financing activities, we may seek to undertake additional financing actions which could include restructuring bank debt or capital markets transactions, possibly including the issuance of additional debt or equity. Given the challenges that we face and the uncertainties of the market conditions, access to the capital markets cannot be assured.

Our future liquidity requirements may make it necessary for us to incur additional debt. However, a substantial portion of our assets are already subject to liens securing our indebtedness. As a result, we are limited in our ability to pledge our remaining assets as security for additional secured indebtedness. In addition, no assurance can be given as to our ability to raise additional unsecured debt.

Dividends

Under our primary credit facilities and some of our note indentures, we are permitted to pay dividends on our common stock as long as no default will have occurred and be continuing, additional indebtedness can be incurred under the credit facilities or indentures following the payment, and certain financial tests are satisfied.

So long as any of our mandatory convertible preferred stock is outstanding, no dividend, except a dividend payable in shares of our common stock, or other shares ranking junior to the mandatory convertible preferred stock, may be paid or declared or any distribution be made on shares of our common stock unless all accrued and unpaid dividends on the then outstanding mandatory convertible preferred stock payable on all dividend payment dates occurring on or prior to the date of such action have been declared and paid or sufficient funds have been set aside for that payment.

During the third quarter, our Board of Directors declared a cash dividend of \$0.05 per share of common stock. The dividend is payable December 1, 2013, to shareholders of record November 1, 2013. Future quarterly dividends are subject to Board approval.

The restrictions imposed by our credit facilities and indentures and our mandatory convertible preferred stock did not affect our ability to declare the dividend on our common stock described above, and are not expected to affect our ability to declare similar dividends in the future.

Asset Dispositions

The restrictions on asset sales imposed by our material indebtedness have not affected our strategy of divesting non-core businesses, and those divestitures have not affected our ability to comply with those restrictions.

Recoverability of Goodwill

Guidance under Accounting Standards Codification ("ASC") 350, Intangibles - Goodwill and Other, requires an entity to test goodwill for impairment on at least an annual basis, with the option to perform a qualitative assessment to determine whether further impairment testing is necessary or to perform a quantitative assessment by comparing the fair value of a reporting unit to its carrying amount, including goodwill. Under the qualitative assessment, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. If under the quantitative assessment the fair value of a reporting unit is less than its carrying amount, then the second step of the test must be performed to measure the amount of the impairment loss, if any.

Goodyear conducts its annual impairment test of goodwill and other indefinite lived intangible assets as of July 31. Goodwill balances at September 30, 2013 were \$93 million, \$497 million and \$70 million for North America, EMEA and Asia Pacific, respectively. After considering changes to assumptions used in our most recent quantitative annual testing, including the capital markets environment, economic conditions, tire industry competition and trends, changes in our results of operations, the magnitude of the excess of fair value over the carrying amount of each reporting unit as determined in our most recent quantitative annual testing, and other factors, we concluded it is more likely than not that the fair value of our North America and Asia Pacific reporting units is not less than its respective carrying value and, therefore, did not perform a quantitative analysis.

Given the continued weak economic conditions in Europe and the segment operating results of our EMEA reporting unit, we concluded that it was necessary to complete a quantitative analysis in connection with our 2013 annual goodwill impairment assessment for that reporting unit. We determined the estimated fair value of our EMEA reporting unit using a discounted cash flow approach consistent with the methodology used in our most recent quantitative annual testing. The key assumptions incorporated in the discounted cash flow approach include a growth rate, projected segment operating income, changes in working capital, our plan for capital expenditures, anticipated funding for pensions, and a discount rate equal to our assumed long-term cost of capital. Based on the testing performed in accordance with ASC 350, the annual impairment test indicated there is no impairment of goodwill in our EMEA reporting unit since the fair value exceeded the carrying value. Fair value would have to decline over 60% for fair value to fall below carrying value. A 500 basis points increase in the discount rate would not indicate impairment.

FORWARD-LOOKING INFORMATION — SAFE HARBOR STATEMENT

Certain information in this Form 10-Q (other than historical data and information) may constitute forward-looking statements regarding events and trends that may affect our future operating results and financial position. The words “estimate,” “expect,” “intend” and “project,” as well as other words or expressions of similar meaning, are intended to identify forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this Form 10-Q. Such statements are based on current expectations and assumptions, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including:

- if we do not successfully implement our strategic initiatives, our operating results, financial condition and liquidity may be materially adversely affected;
- our pension plans are significantly underfunded and further increases in the underfunded status of the plans could significantly increase the amount of our required contributions and pension expense;
- we face significant global competition, increasingly from lower cost manufacturers, and our market share could decline;
- deteriorating economic conditions in any of our major markets, or an inability to access capital markets or third-party financing when necessary, may materially adversely affect our operating results, financial condition and liquidity;
- higher raw material and energy costs may materially adversely affect our operating results and financial condition;
- if we experience a labor strike, work stoppage or other similar event our financial position, results of operations and liquidity could be materially adversely affected;
- work stoppages, financial difficulties or supply disruptions at our major OE customers, dealers or suppliers could harm our business;
- our capital expenditures may not be adequate to maintain our competitive position and may not be implemented in a timely or cost-effective manner;
- our long term ability to meet current obligations, to repay maturing indebtedness or to implement strategic initiatives is dependent on our ability to access capital markets in the future and to improve our operating results;
- we have a substantial amount of debt, which could restrict our growth, place us at a competitive disadvantage or otherwise materially adversely affect our financial health;
- any failure to be in compliance with any material provision or covenant of our secured credit facilities could have a material adverse effect on our liquidity and our results of operations;
- our international operations have certain risks that may materially adversely affect our operating results;
- we have foreign currency translation and transaction risks that may materially adversely affect our operating results, financial condition and liquidity;
- our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly;
- we have substantial fixed costs and, as a result, our operating income fluctuates disproportionately with changes in our net sales;
- we may incur significant costs in connection with our contingent liabilities and tax matters;
- our reserves for contingent liabilities and our recorded insurance assets are subject to various uncertainties, the outcome of which may result in our actual costs being significantly higher than the amounts recorded;
- we may be required to provide letters of credit or post cash collateral if we are subject to a significant adverse judgment or if we are unable to obtain surety bonds, which may have a material adverse effect on our liquidity;
- we are subject to extensive government regulations that may materially adversely affect our operating results;
- the terms and conditions of our global alliance with SRI provide for certain exit rights available to SRI upon the occurrence of certain events, which could require us to make a substantial payment to acquire SRI’s minority interests in GDTE and GDTNA following the determination of the fair value of those interests;
- we may be adversely affected by any disruption in, or failure of, our information technology systems;
- if we are unable to attract and retain key personnel, our business could be materially adversely affected; and
- we may be impacted by economic and supply disruptions associated with events beyond our control, such as war, acts of terror, political unrest, public health concerns, labor disputes or natural disasters.

It is not possible to foresee or identify all such factors. We will not revise or update any forward-looking statement or disclose any facts, events or circumstances that occur after the date hereof that may affect the accuracy of any forward-looking statement.

- 51-

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We utilize derivative financial instrument contracts and nonderivative instruments to manage interest rate, foreign exchange and commodity price risks. We have established a control environment that includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. We do not hold or issue derivative financial instruments for trading purposes.

Commodity Price Risk

The raw material costs to which our operations are principally exposed include the cost of natural rubber, synthetic rubber, carbon black, fabrics, steel cord and other petrochemical-based commodities. Approximately two-thirds of our raw materials are oil-based derivatives, the cost of which may be affected by fluctuations in the price of oil. We currently do not hedge commodity prices. We do, however, use various strategies to partially offset cost increases for raw materials, including centralizing purchases of raw materials through our global procurement organization in an effort to leverage our purchasing power, expanding our capabilities to substitute lower cost raw materials and reducing the amount of material required in each tire.

Interest Rate Risk

We continuously monitor our fixed and floating rate debt mix. Within defined limitations, we manage the mix using refinancing. At September 30, 2013, 37% of our debt was at variable interest rates averaging 5.36%.

The following table presents information about long term fixed rate debt, excluding capital leases, at September 30, 2013:

(In millions)

Carrying amount — liability	\$4,087
Fair value — liability	4,352
Pro forma fair value — liability	4,477

The pro forma information assumes a 100 basis point decrease in market interest rates at September 30, 2013, and reflects the estimated fair value of fixed rate debt outstanding at that date under that assumption. The sensitivity of our fixed rate debt to changes in interest rates was determined using current market pricing models.

Foreign Currency Exchange Risk

We enter into foreign currency contracts in order to reduce the impact of changes in foreign exchange rates on our consolidated results of operations and future foreign currency-denominated cash flows. These contracts reduce exposure to currency movements affecting existing foreign currency-denominated assets, liabilities, firm commitments and forecasted transactions resulting primarily from trade purchases and sales, equipment acquisitions, intercompany loans and royalty agreements. Contracts hedging short term trade receivables and payables normally have no hedging designation.

The following table presents foreign currency contract information at September 30, 2013:

(In millions)

Fair value — asset (liability)	\$(17)
Pro forma decrease in fair value	158
Contract maturities	10/13-9/14

The pro forma decrease in fair value assumes a 10% adverse change in underlying foreign exchange rates at September 30, 2013, and reflects the estimated change in the fair value of contracts outstanding at that date under that assumption. The sensitivity of our foreign currency positions to changes in exchange rates was determined using current market pricing models.

Fair values are recognized on the Consolidated Balance Sheet at September 30, 2013 as follows:

(In millions)

Accounts receivable	\$10	
Other Current Liabilities	(27)

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources” for a discussion of our management of counterparty risk.

ITEM 4. CONTROLS AND PROCEDURES.

Management’s Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures” which, consistent with Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, we define to mean controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and to ensure that such information is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of September 30, 2013 (the end of the period covered by this Quarterly Report on Form 10-Q).

Changes in Internal Control Over Financial Reporting

We are undertaking a phased implementation of enterprise resource planning systems in our Latin America SBU, which are expected to be completed in 2014. We believe we are maintaining and monitoring appropriate internal controls during the implementation period. There have been no other changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Asbestos Litigation

As reported in our Form 10-Q for the period ended June 30, 2013, we were one of numerous defendants in legal proceedings in certain state and Federal courts involving approximately 74,000 claimants relating to their alleged exposure to materials containing asbestos in products allegedly manufactured by us or asbestos materials present in our facilities. During the third quarter of 2013, approximately 500 new claims were filed against us and approximately 500 were settled or dismissed. The amount expended on asbestos defense and claim resolution by Goodyear and its insurance carriers during the third quarter and first nine months of 2013 was \$5 million and \$15 million, respectively. At September 30, 2013, there were approximately 74,000 asbestos claims pending against us. The plaintiffs are seeking unspecified actual and punitive damages and other relief. See Note 11, "Commitments and Contingent Liabilities" in this Form 10-Q for additional information on asbestos litigation.

Reference is made to Item 3 of Part I of our 2012 Form 10-K and to Item 1 of Part II of our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2013 and our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2013 for additional discussion of legal proceedings.

ITEM 1A. RISK FACTORS

See "Item 1A. Risk Factors" in our 2012 Form 10-K for a discussion of our risk factors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents information with respect to repurchases of common stock made by us during the three months ended September 30, 2013.

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
7/1/13-7/31/13	2,125	\$ 18.65	—	—
8/1/13-8/31/13	3,106	18.86	—	—
9/1/13-9/30/13	23,497	22.09	—	\$ 100,000,000
Total	28,728	\$ 21.48	—	

(1) These shares were delivered to us by employees as payment for the exercise price of stock options as well as the withholding taxes due upon the exercise of the stock options or the vesting or payment of stock awards.

(2) On September 18, 2013, the Board of Directors authorized \$100 million for use in the Company's common stock repurchase program. That authorization expires on September 20, 2016. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs.

ITEM 6. EXHIBITS.

See the Index of Exhibits at page E-1, which is by specific reference incorporated into and made a part of this Quarterly Report on Form 10-Q.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
