PROXY STATEMENT QUESTIONS

WHO IS ENTITLED TO VOTE AT THE ANNUAL MEETING?

Stockholders who own shares of common stock as of March 14, 2008 may vote at the meeting. There were 170,976,657 shares of common stock outstanding on that date, however, due to the two-for-one stock split effected on March 25, 2008, 341,953,314 shares will actually be entitled to vote at the meeting.

WHEN WERE THE ENCLOSED SOLICITATION MATERIALS FIRST GIVEN TO STOCKHOLDERS?

This Proxy Statement and accompanying proxy are first being sent, or given, to stockholders on or about March 28, 2008. These materials are also available at www.edocumentview.com/swn.

WHAT AM I VOTING ON, AND WHAT ARE THE BOARD'S RECOMMENDATIONS?

You are voting on the following:

the election of six (6) directors; and

the ratification of PwC as the Company's independent registered public accounting firm for fiscal year 2008.

The Board recommends a vote **FOR** the election of six (6) directors and **FOR** the ratification of PwC as the Company's independent registered public accounting firm for 2008.

WHAT CONSTITUTES A QUORUM OF STOCKHOLDERS?

We must have a quorum to conduct the meeting. A quorum is the presence at the Annual Meeting in person or by proxy of stockholders entitled to cast a majority of all the votes entitled to be cast as of the record date. Since there were 341,953,314 shares of common stock outstanding on March 14, 2008 (as adjusted to give effect to the two-for-one stock split effected on March 25, 2008), the quorum for the Annual Meeting requires the presence at the meeting in person or by proxy of stockholders entitled to vote at least 170,976,657 shares. Broker non-votes, abstentions and withhold-authority votes COUNT for purposes of determining a quorum.

HOW MANY VOTES DOES IT TAKE TO ELECT DIRECTORS?

Directors are elected by a plurality of all the votes cast. Because six directors are being elected, this means that the six nominees who receive the highest number of votes will be elected.

HOW MANY VOTES DOES IT TAKE TO RATIFY THE APPOINTMENT OF PwC TO SERVE AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2008?

The proposal to ratify the appointment of PwC to serve as the Company's independent registered public accounting firm for fiscal year 2008 will be approved if a majority of the number of shares represented in person or by proxy vote in favor of its adoption. Abstentions are counted as shares voting on the proposal, thus having the effect as a vote against the proposal. Broker non-votes are not counted as shares voting on this proposal.

HOW DO I VOTE?

You may vote your shares in person at the Annual Meeting or by proxy. Since many of our stockholders are unable to attend the meeting in person, we send proxy cards and offer electronic and telephone voting to all of our stockholders to enable them to direct the voting of their shares. If your shares are held by your broker in street name, your broker will provide you with materials and instructions for voting your shares.

Table of Contents

IF MY SHARES ARE HELD IN STREET NAME BY MY BROKER, WILL MY BROKER VOTE FOR ME?

If your shares are held by your broker in street name and you do not vote your shares by following the instructions provided by your broker, your broker can vote your shares in the election of directors and the ratification of the appointment of PwC as the Company's independent registered public accounting firm for fiscal year 2008. If you do not provide instructions to your broker on how to vote your shares, and your broker is not permitted to vote on the proposals without instructions from you, then your shares will be counted as broker non-votes for those proposals.

WHAT IS A PROXY?

A proxy is a person you appoint to vote on your behalf. When you vote by completing and returning the enclosed proxy card, you will be designating Kenneth R. Mourton and Charles E. Scharlau as your proxies. We solicit proxies so that all common shares may be voted at the Annual Meeting. You must complete and return the enclosed proxy card or vote by phone or Internet to have your shares voted by proxy.

HOW WILL MY PROXY VOTE MY SHARES?

Your proxies will be voted in accordance with your instructions. If you complete and return your proxy card but do not provide instructions on how to vote, your proxies will vote FOR the six (6) director nominees and FOR each additional proposal set out above. Also, your proxy card or a vote by you via phone or Internet will give your proxies authority to vote, using their best judgment, on any other business that properly comes before the meeting.

HOW DO I VOTE USING MY PROXY CARD?

There are three steps:

Step 1

a. Proposal No. 1

Election of a board of six directors to serve until the next Annual Meeting or until their successors are duly elected and qualify.

To vote for a director, you check the box marked FOR opposite the name of the director. To withhold your vote from a director, mark the box WITHHELD opposite the name of the director.

b. Proposal No. 2

Ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for fiscal year 2008.

To vote for Proposal No. 2, you check the box marked FOR. If you are opposed to the proposal, check the box, AGAINST. If you are unsure how to vote, mark the box ABSTAIN.

Step 2

Sign and date your proxy card. IF YOU DO NOT SIGN AND DATE YOUR PROXY CARD, YOUR VOTES CANNOT BE COUNTED. EACH PROPERLY EXECUTED PROXY WILL BE VOTED IN THE MANNER DIRECTED. IF NO DIRECTION IS MADE, EACH SUCH PROXY WILL BE VOTED AS FOR ALL

PROPOSALS SET OUT ABOVE.

Step 3

Mail your proxy card in the pre-addressed, postage-paid envelope.

Table of Contents

HOW DO I VOTE BY TELEPHONE?

Record holders may submit proxies by following the Vote-by-Telephone instructions on their proxy cards.

Stockholders who hold shares beneficially in street name may vote by telephone by calling the number specified on the voting instruction card provided by their brokers, trustee or nominees. Please check the voting instruction card for telephone voting availability.

HOW DO I VOTE ON THE INTERNET?

Record holders with Internet access may submit proxies by following the Vote-by-Internet instructions on their proxy cards. Stockholders who hold shares beneficially in street name may vote by accessing the website specified on the voting instruction cards provided by their brokers, trustee or nominees. Please check the voting instruction card for Internet voting availability.

CAN I VOTE BY PROXY EVEN IF I PLAN TO ATTEND THE ANNUAL MEETING?

Yes. If you vote by proxy, you do not need to fill out a ballot at the Annual Meeting unless you want to change your vote.

WHO IS SOLICITING MY PROXY, HOW IS IT BEING SOLICITED, AND WHO PAYS THE COSTS?

Southwestern Energy Company, on behalf of the Board of Directors, through its officers and employees, is soliciting proxies primarily by mail. However, proxies may also be solicited in person, by telephone or facsimile. Morrow & Co., Inc., a proxy solicitation firm, will be assisting us for a fee of approximately \$7,500 plus out-of-pocket expenses. Southwestern Energy Company pays the cost of soliciting proxies and reimburses brokers and others for forwarding proxy materials to you.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

The shares represented by the enclosed proxy will be voted as instructed by the stockholders for the election of the nominees named below. If no direction is made, the proxy will be voted FOR the election of all of the nominees named below. If any nominee becomes unavailable for any reason or if a vacancy should occur before the election, the shares represented by the enclosed proxy may be voted for such other person as the Board of Directors may recommend. The Company has no knowledge that any nominee will be unavailable for election. Directors are elected by plurality vote.

Identifying and Evaluating Nominees for Director

The Nominating and Governance Committee of our Board of Directors has been delegated the responsibility of selecting candidates for Board membership and for extending invitations to join the Board of Directors. The Nominating and Governance Committee is responsible for screening candidates (in consultation with the Chief Executive Officer), for establishing criteria for nominees and for recommending to the Board a slate of nominees for election to the Board of Directors at the Annual Meeting of Stockholders. After a concurrent review of all candidates by the Committee and the Chief Executive Officer, the Chairman of the Board (who presently is also our CEO) interviews the potential candidates selected by the Committee and Chief Executive Officer, and reports his conclusions to the Committee, together with a recommendation of final candidates for interview by the members of the Committee. The Nominating and Governance Committee then interviews the final candidates and recommends to the full Board candidates for election based upon the results of the interview. Final approval of any candidate is

Table of Contents

made by the full Board of Directors. Candidates are selected for their character, judgment, business experience and specific areas of expertise, among other relevant considerations, such as the requirements of applicable law and listing standards.

The Board of Directors recognizes the importance of soliciting new candidates for membership on the Board of Directors and that the needs of the Board of Directors, in terms of the relative experience and other qualifications of candidates, may change over time. Candidates for membership on the Board may be suggested by any director or stockholder, and the Board may retain professional search firms. Stockholders may nominate candidates for directors by following the procedures described below under Stockholder Nominations.

Selection Criteria for Nominees for Directors

Each member of the Board is expected to bring a unique and valuable perspective to the governance of the Company. When these unique skill sets are combined in an environment of interaction and respect, they provide the overall skill set of the Board and provide a strong governance structure. Our Corporate Governance Guidelines, which are available on our website at www.swn.com under Corporate Governance, set forth certain criteria that apply to the selection of director candidates:

Each nominee director should be chosen without regard to sex, race, religion or national origin;

Each nominee director should be an individual of the highest character and integrity and have the ability to work well with others;

Each nominee director should have an inquiring mind, vision and good judgment;

Each nominee director should be free of any conflict of interest which would violate any applicable law or regulation or interfere with the proper performance of the responsibilities of a director;

Each nominee director should possess substantial and significant business experience in specific areas of expertise that would be important to the Company in the performance of the duties of a director;

Each nominee director's skill set should be complementary to the background and experience of other Board members;

Each nominee director should have sufficient time available to devote to the affairs of the Company in order to carry out the responsibilities of a director; and

Each nominee director should have the capacity and desire to represent the balanced, best interests of all stockholders and objectively appraise management performance.

The Nominating and Governance Committee of the Board of Directors evaluates the qualifications of each director candidate against the foregoing criteria in connection with its recommendation to the Board concerning each nomination for election or re-election as a director, including members of the committee. The Nominating and Governance Committee, with direct input and advice from our CEO, is responsible for assessing the appropriate mix of skills and characteristics required of Board members based on the Board's perceived needs at a given point in time and periodically reviews and updates the foregoing criteria as deemed necessary.

Each director's continuation on the Board is reviewed before that director is considered for re-election at the expiration of his or her term. In connection with its annual recommendation of a slate of nominees, the Nominating and

Governance Committee, in consultation with the CEO in his capacity as Chairman of the Board, reviews and assesses the contributions of those directors selected for re-election. At the conclusion of this process, the Chairman of the Nominating and Governance Committee reports the Committee's conclusions to the full Board.

Stockholder Nominations

Our by-laws permit stockholders to nominate directors for consideration at an annual meeting of stockholders. Such nominations must be made pursuant to timely notice in writing to the Secretary of the Company, Mark K. Boling, Southwestern Energy Company, 2350 N. Sam Houston Parkway East, Suite 125, Houston, Texas 77032. To

Table of Contents

be timely, a stockholder's notice must be delivered to or mailed and received at the principal executive offices of the Company not less than 50 nor more than 75 days prior to the meeting date; provided, however, that in the event that less than 45 days' notice of the meeting date is given to stockholders, notice by the stockholder must be received no later than the close of business on the 15th day following the day on which notice of the meeting date was mailed. The written notice must set forth (a) as to each nominee whom the stockholder proposes to nominate for election or reelection as a director, (i) the name, age, business address and residence address of the nominee, (ii) the principal occupation or employment of the nominee, (iii) the class and number of shares of capital stock of the Company which are beneficially owned by the nominee and (iv) any other information relating to the nominee that is required to be disclosed in solicitations for proxies for election of directors pursuant to Schedule 14A under the Securities Exchange Act of 1934, as amended and the rules and regulations promulgated thereunder; and (b) as to the stockholder giving the notice, (i) the name and record address of the stockholder, (ii) the class and number of shares of capital stock of the Company that are beneficially owned by the stockholder, (iii) a description of all arrangements or understandings between such stockholder and each proposed nominee and any other person or persons (including their names) pursuant to which nominations are to be made by such stockholder and (iv) a representation that such stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in the notice. The Company may require any proposed nominee to furnish such other information as may reasonably be required by the Company to determine the eligibility of such proposed nominee to serve as a director of the Company.

It is the policy of the Nominating and Governance Committee to consider properly submitted stockholder nominations for directors as described above under "Identifying and Evaluating Nominees for Directors." In evaluating such nominations, the Nominating and Governance Committee seeks to address the criteria set forth above under "Selection Criteria for Nominees for Directors."

Director Independence

As set forth in the Company's Corporate Governance Guidelines, which are available on our website at www.swn.com under "Corporate Governance," it is the policy of the Board of Directors that a majority of the members of the Board be independent of the Company's management. For a director to be deemed independent, the Board must affirmatively determine that the director has no material relationship with the Company or its affiliates (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company or its affiliates) or any member of the senior management of the Company or his or her affiliates. Material relationships include commercial, banking, industrial, consulting, legal, accounting, charitable and familial relationships. For making this determination, the Board has adopted a set of director independence standards that are more stringent than the corporate governance standards adopted by the New York Stock Exchange. Under the Board's independence standards, a director will not be deemed independent if he or she:

is, or within the past five years has been, employed by the Company or any of its affiliates;

is, or within the past five years has been, affiliated with or employed by a present or former auditor of the Company or any of its affiliates;

currently participates, or within the past five years has participated, in an interlocking directorate in which an executive officer of the Company or any of its affiliates serves on the compensation committee of a company that concurrently employs the director;

is, or is a director, executive officer, general partner or significant equity holder (i.e., in excess of 10%) of an entity that is, a paid adviser, paid consultant or paid provider of other professional services to the Company, any of its affiliates, any member of senior management or any affiliates of a member of senior management, if the amount of such payments has exceeded \$60,000 during the current fiscal year of the Company;

is a director, executive officer, general partner or significant equity holder (i.e., in excess of 10%) of a significant purchaser of goods or nonprofessional services from, or supplier of goods or nonprofessional services to, the Company or any of its affiliates;

Table of Contents

is affiliated with or employed by a tax-exempt entity that receives significant contributions (i.e., more than 3% of the annual contributions received by the entity or more than \$100,000 in a single fiscal year, whichever amount is lower) from the Company, any of its affiliates, any member of senior management or any affiliate of a member of senior management; or

is a member of the immediate family of any person who would not qualify as independent under the foregoing standards; provided, that employment of an immediate family member of a director in a non-officer position will not preclude the Board from determining that the director is independent.

Our Board of Directors has determined that the following majority of directors Lewis E. Epley, Jr., Robert L. Howard, Vello A. Kuuskraa and Kenneth R. Mourton qualify as independent under the applicable NYSE standards as well as the Company's standards for director independence.

Presiding Director

One of the Company's non-employee directors serves as the Presiding Director of executive sessions of the non-employee directors of the Company, which are held at every meeting of the Board of Directors. The Presiding Director is appointed by the non-employee directors each year at the Annual Meeting of the Board of Directors, which is generally held in May. The Presiding Director acts as chair of all executive sessions and is responsible for coordinating the activities of the other non-employee directors, including the establishment of the agenda for executive sessions of the non-employee directors, as required by the Company's Corporate Governance Guidelines and applicable listing standards. The Presiding Director also acts as the liaison director for any informal, confidential communications with the Chief Executive Officer outside of the normal Committee and Board procedures. Mr. Robert L. Howard is the current Presiding Director.

Committees of the Board of Directors

The Board of Directors held eight meetings in 2007. The Board of Directors has four standing committees: the Audit Committee, the Compensation Committee, the Nominating and Governance Committee and the Retirement Committee. The Audit, Compensation, and Nominating and Governance committees are comprised solely of independent directors in accordance with NYSE corporate governance listing standards. The charter of each of these committees complies with requirements of the NYSE, the Sarbanes-Oxley Act of 2002 and applicable SEC rules.

Audit Committee The Audit Committee is composed entirely of non-employee members of the Board, each of whom satisfy the independence requirements for audit committee members under Rule 10A-3 promulgated under the Securities and Exchange Act of 1934, as amended (the Exchange Act), is independent and financially literate as defined by NYSE rules and meets the Company's independence standards. Members of the Audit Committee may not simultaneously serve on the audit committee of more than two (2) other public companies. In addition, the Board of Directors has determined that Mr. Kenneth R. COMPENSATION DISCUSSION AND ANALYSIS

Unless otherwise indicated, all restricted stock and option amounts have not been adjusted to reflect the two-for-one stock split effected on March 25, 2008.

Compensation Philosophy

Our compensation programs are designed and administered with the objectives of attracting, motivating and retaining the experienced and skilled professionals we need to grow our business and create value for our stockholders. The guiding principles of our compensation programs are:

Compensation is related to the value created for stockholders. We believe that a significant portion of an employee's compensation should relate to the value created for stockholders and be directly tied to the achievement of financial and non-financial performance goals and objectives and the executive's contribution to such achievement. When we surpass the targeted objectives, our employees should be paid more, and when we fail to achieve one or more key objectives, incentive compensation will be adjusted accordingly, at the Compensation Committee's discretion.

Incentive compensation is a substantial part of total compensation for senior management and balances short- and long-term performance. We believe that the proportion of total compensation that is at risk (i.e. that will vary based on employee, segment, team and Company performance objectives) should increase as the scope and level of the employee's decision-making responsibilities increase. The design of our incentive compensation program is intended to balance the focus of management on achieving strong annual results while also pursuing significant multi-year growth by achieving aggressive and challenging goals. Participation in the long-term incentive programs increases at higher levels of responsibility to reflect the influence that employees occupying leadership roles have on our business strategy. The equity component of long-term incentive compensation is designed to align management's interests with those of our stockholders and provides an incentive for achieving our long-term performance objectives.

Compensation levels are not merely competitive but reflect the complexity of our rapidly growing business and the challenges of retaining executive talent in a climate of high demand. As a rapidly growing mid-sized independent energy company, we strive to retain our executive talent by targeting total executive compensation between the 50th and 75th percentiles of compensation for comparable positions within a select group of peer small- to mid-sized public, independent energy companies, similar to us in terms of the complexity of their operations, that compete with us for executives. Targeted total executive compensation also reflects the maturity of the executive and the value of his or her expertise in the pursuit of our short- and long-term objectives.

Factors Considered in Determining NEO Total Compensation

Each year the Compensation Committee engages an independent executive compensation consulting firm to provide comparative market data of compensation practices and programs based on analysis of peer competitors, which we refer to collectively as Survey Data, and the Committee directs our Human Resources department to conduct certain internal compensation analyses. Since 2002, the Compensation Committee has retained Ernst & Young, LLP, or E&Y, as its independent compensation consultant to advise it on all matters related to compensation

Table of Contents

of our senior management, including our principal executive officer, the Chief Executive Officer (CEO), our principal financial officer, the Executive Vice President and Chief Financial Officer (EVP & CFO or CFO), Executive Vice President and President-Exploration & Production (EVP & President-E&P), Executive Vice President and General Counsel (EVP & General Counsel or General Counsel) and the Senior Vice President of our E&P subsidiary, SEEEO, Inc., who reports to our EVP & President-E&P (SVP-SEEEO), who are the executives named in the Summary Compensation Table and referred to collectively as our Named Executive Officers, or NEOs. The analyses performed by us and E&Y include a peer group analysis, an analysis of all components of the NEOs' compensation, an internal pay equity analysis and, with respect to long-term equity incentives, a wealth accumulation analysis. In addition, the Compensation Committee requires E&Y to provide an objective opinion of the appropriateness of the mix of compensation and the total executive compensation levels relative to our executives' responsibilities.

At a meeting generally held in early December, which we refer to as the December Compensation Meeting, the Compensation Committee reviews the compensation of the Named Executive Officers and other members of our senior management and makes its compensation determinations for the upcoming fiscal performance cycle at that time. The Committee bases its decisions on the Survey Data provided by E&Y as well as its assessment of each executive's level of experience, tenure, position and responsibilities and the appropriate competitive pressures for his or her expertise and skills within the industry. The Compensation Committee balances the scope of the responsibilities and experience of the executive against the competitive compensation levels. With respect to compensation determinations for the Named Executive Officers other than the CEO, the Compensation Committee also takes into account the recommendations of the CEO based on his evaluation of each individual's contribution and performance over the past year, strengths, weaknesses, development plans and succession potential. With respect to our SVP-SEEEO, our CEO takes into account the recommendations of our EVP & President-E&P based on his evaluation of our SVP-SEEEO's contribution and performance. The Compensation Committee also discusses the CEO's proposed compensation package for his position with the CEO. Although post-retirement benefits for our Named Executive Officers, with the exception of a Supplemental Retirement Plan and a Non-Qualified Plan (each discussed below under Pension and Other Retirement Plans), are provided on the same basis as for other employees and are not taken into consideration in the determination of total compensation, the Compensation Committee also reviews those benefits as well as any perquisites paid to the NEOs at the December Compensation Meeting.

Peer Group Analysis. We target total compensation for our Named Executive Officers other than our SVP-SEEEO between the 50th and 75th percentiles of compensation for a select group of companies that are comparable to us in terms of size, complexity and industry, or the Peer Group. For our SVP-SEEEO, we utilize the Survey Data, adjusted to take into account his performance objectives, in order to determine his targeted compensation. The Peer Group is selected by the Compensation Committee with the assistance of E&Y based on a number of factors, including, but not limited to, geographic location and types of operations, total revenues, market capitalization and number of employees. The Peer Group is utilized to benchmark each component of compensation as well as total compensation for our Named Executive Officers, senior management and the Board of Directors and, to the extent applicable, for determinations of awards and performance targets under our compensation plans. The Peer Group utilized for 2007 compensation purposes was determined in December 2006 and was comprised of the following companies: Cabot Oil & Gas Corp., Chesapeake Energy Corp., Cimarex Energy, Denbury Resources, Energen Corp., EOG Resources, Inc., Forest Oil Corporation, Houston Exploration Co., Newfield Exploration Co., Noble Energy, Inc., Pioneer Natural Resources Co., Pogo Producing Company, Range Resources, Inc., St. Mary Land & Exploration Co., Ultra Petroleum Corporation and XTO Energy Inc., collectively, the 2007 Peer Group. The Peer Group utilized for 2008 was the same as for 2007, with the exception of the deletions of Energen Corp., Houston Exploration Co. (which was acquired by Forest Oil Corporation) and Pogo Producing Company (which was acquired by Plains Exploration & Production Company), and is referred to herein as the 2008 Peer Group. The Compensation Committee approved the annual base salaries and incentive award levels for the Named Executive Officers for 2007 and 2008 at meetings held on December 11, 2006 and December 13, 2007, respectively. The 2007 actual cash incentive awards for the Named Executive Officers were approved by the Committee on February 27, 2008.

Table of Contents

Components of Compensation. The Compensation Committee reviews tally sheets prepared by our Human Resources Department in order to determine whether the level of total compensation for our CEO's and the other Named Executive Officers' compensation is reasonable and not excessive. The tally sheets set forth the aggregate amounts and mix of all components including base salary, annual incentive compensation, long-term incentive compensation, accumulated (realized and unrealized) stock option and restricted stock gains, the value to the executive and cost to the Company of all perquisites and other personal benefits, the earnings and accumulated obligations under the Company's non-qualified deferred compensation plan, and the actual projected payout obligations under the Company's supplemental executive retirement plan under several potential severance and change-in-control scenarios.

Internal Pay Equity. The Compensation Committee monitors the relationship between the compensation of our executives and the compensation of our non-managerial employees. In addition to considering external market conditions and individual factors when establishing total executive compensation levels, the Compensation Committee reviews a ten-year historical comparison of the total compensation levels (including salary, cash bonus, long-term incentives and other items of compensation) within our Company between our CEO, our CFO, and our EVP & President-E&P, and certain lower paid employees.

Accumulated Wealth Analysis. The Compensation Committee recognizes that past equity grants may have limited ongoing retention value for executives and that retention value is a key attribute of current equity grants. Nonetheless, the Compensation Committee reviews a summary of the future wealth potential of a Named Executive Officer's prior awards under our stock incentive plans prior to determining long-term equity incentive compensation for that executive. We conduct the analysis utilizing three stock price scenarios to calculate the pre-tax value of the holdings. The Compensation Committee is also provided with summary information regarding each NEO's stock ownership position and exercise and hold behavior.

Tax Deductibility of Compensation Payments. Section 162(m) of the Internal Revenue Code could potentially limit our ability to deduct, for federal income tax purposes, certain compensation in excess of \$1,000,000 per year paid to individuals named in the summary compensation table. In recent years, the Compensation Committee's need for flexibility in designing effective compensation plans to meet our objectives and respond quickly to marketplace needs has typically outweighed our need to maximize the deductibility of compensation payments. Although the Compensation Committee will from time to time review the advisability of making changes in compensation plans to reflect changes in government-mandated policies, it will not do so unless it feels that such changes are in our best interests and those of our stockholders.

Total Compensation and Allocation Among Components

We do not have employment agreements with any of the Named Executive Officers and the Compensation Committee of our Board of Directors reviews and determines compensation for the NEOs on an annual basis. The Compensation Committee believes that total compensation for our Named Executive Officers should consist of:

- (i) cash compensation in the form of a base salary and a performance-based annual bonus payable under the 1993 Southwestern Energy Company Incentive Compensation Plan (as amended in 1999), the Incentive Plan or ICP, which we collectively refer to as "total cash compensation";
- (ii) equity incentive compensation in the form of option and restricted stock awards under our 2004 Stock Incentive Plan, or the Stock Plan;
- (iii) cash incentive compensation under our 2002 Performance Unit Plan (as amended in December 2005), or the PUP Plan, which is designed to compensate our NEOs and employees for achieving our long-term performance objectives;

(iv) retirement, health and welfare benefits; and

(v) perquisites and perquisite allowance payments.

Total compensation for each Named Executive Officer is targeted in the range of the 50th and 75th percentiles of total compensation paid to equally ranked executives in the Peer Group (based on total compensation as set forth

Table of Contents

in the proxy statements of such companies), with the exception of our SVP-SEECO whose total compensation is targeted based on Survey Data. Total compensation is determined by evaluating the analysis conducted by and recommendations of E&Y, the Committee's assessment of the executive's overall performance, the short-term strategic value of his expertise and skills and the extent of his decision-making responsibilities and, to the extent applicable, our CEO's recommendations. Consistent with our compensation philosophy that incentive compensation should be the substantial part of total compensation for senior management and balance short- and long-term performance, no more than 30% of each executive's compensation package is salary and the remainder is at risk and contingent upon company and individual performance.

Utilizing the Black-Scholes valuation for stock options, the grant date price for restricted stock (including the tax gross-up discussed below) and the target value of the performance units, the total compensation for 2007 of the Named Executive Officers was as set forth in the Summary Compensation Table. In the case of each of the NEOs, 2007 total compensation was above the target level that could be earned by him based on the Compensation Committee's targeted compensation for him under the relevant performance objectives. Consistent with the Company's compensation philosophy, total compensation for each of the NEOs placed them above the median of competitive total compensation for comparable positions in the 2007 Peer Group.

Utilizing the Black-Scholes valuation for stock options, the grant date price for restricted stock (including the tax gross-up) and the target value for performance units, the Compensation Committee established targeted total compensation for 2008 for our SVP-SEECO based on applicable Survey Data and for each of the other NEOs near the 75th percentile of competitive total compensation for comparably ranked positions in the 2008 Peer Group as follows:

	2008 Targeted Total Compensation
CEO	\$ 4,580,400
EVP & CFO	\$ 2,479,285
EVP & President-E&P	\$ 2,479,285
EVP & General Counsel	\$ 1,645,436
SVP-SEECO	\$ 1,134,958

Total Cash Compensation

Total cash compensation for each Named Executive Officer is targeted in the range of the 50th and 75th percentiles of total cash compensation paid to the comparable executives in the Peer Group and determined by evaluating the analysis conducted by and recommendations of E&Y, the Committee's assessment of the executive's overall performance, the short-term strategic value of his expertise and skills and the extent of his decision-making responsibilities and, to the extent applicable, our CEO's recommendations.

Base Salary. In establishing the base salaries for our Named Executive Officers, the Compensation Committee examines the Peer Group analysis prepared by E&Y in order to determine whether base pay, together with total compensation, is competitive with compensation offered by those peer companies. In addition to the Peer Group analysis and Survey Data, base salaries are determined based upon consideration of each executive's performance, responsibilities, qualifications, experience and skills. The Compensation Committee recognizes that changes in base salary affect other elements of compensation including: (i) awards under the Incentive Compensation Plan, (ii) pension benefits, (iii) company matching portions of 401(k) and non-qualified plan contributions, and (iv) life insurance and disability benefits. As such, adjustments to base salary are only made after consideration of the impact

to the executive's entire package.

At the December Compensation Meeting in 2006, the Compensation Committee increased the 2007 salaries of our Named Executive Officers as shown in the Summary Compensation Table after consideration of a number of factors, including, but not limited to the results of the analysis conducted by E&Y with respect to the base salary paid at the 50th and 75th percentiles to comparable positions of the 2007 Peer Group, the objective recommendations of E&Y based on Survey Data, the Committee's assessment of the executive's overall performance, the short-term strategic value of his expertise and skills to us and the extent of his decision-making responsibilities as well as our

Table of Contents

CEO's recommendations. Utilizing the same decision-making criteria, at the December Compensation Meeting in 2007, the Compensation Committee established the 2008 base salaries for our Named Executive Officers as follows:

	2008 Base Salary
CEO	\$ 675,000
EVP & CFO	\$ 420,000
EVP & President-E&P	\$ 420,000
EVP & General Counsel	\$ 350,000
SVP-SEECO	\$ 280,000

Incentive Plan. Our Incentive Compensation Plan is designed to encourage the achievement of annual (short-term) performance goals by our executives and managers. These goals are designed to increase stockholder value, are determined at the beginning of each annual performance cycle and may be based on (1) production targets, (2) a defined reserve replacement ratio, (3) targeted PVI (which we define as present value added for each dollar of capital invested) on a project or aggregate basis, (4) a targeted return on equity, (5) goals for production, expenses and reserve additions, (6) an adequate financial return in our utility segment while maximizing utility throughput, and (7) operational goals in our midstream services business segment. The applicability of each of these criteria in determining awards to any particular executive depends on the Compensation Committee's assessment of the responsibilities of that executive. The Committee has selected these criteria because they are important indicators of increased shareholder value. The Company sets aggressive performance targets for these criteria and therefore does not publicly disclose the specific objectives. Disclosing specific objectives would provide competitors and other third parties with insights into the Company's planning process and would therefore cause competitive harm.

Although awards under the ICP may be made in cash, restricted shares of common stock, or a combination of cash and restricted shares of common stock, for the last ten years, the Compensation Committee has determined that all awards under the Incentive Plan would be made in cash. Determinations of the target award levels for each fiscal year are made at the December Compensation Meeting prior to the beginning of the fiscal year in order to coincide with our budget process and the culmination of the performance review process. The performance goals under the Incentive Compensation Plan for each fiscal performance cycle are determined at a meeting held in February of that fiscal year-end (the February Compensation Meeting) once the assessment as to whether the performance objectives have been attained for the prior fiscal performance cycle have been made by the Compensation Committee. The bonus opportunities under the Incentive Compensation Plan vary based on each executive officer's level of responsibility. A portion of each incentive award is an organizational performance award that is based upon the achievement of the corporate performance objectives pre-established for that executive.

During 2007, the corporate performance objectives for our CEO, CFO and General Counsel related to (1) production, (2) reserve replacement, (3) PVI and (4) return on equity versus a targeted level. These factors were weighted 27.5%, 27.5%, 30% and 15%, respectively, with a proportionate award opportunity for each performance goal that is met at the pre-established levels. For our EVP & President-E&P, 75% of his performance objectives specifically related to our E&P business and included (1) production, (2) reserve replacement, (3) PVI and (4) controlling expenses (operating and maintenance, or O&M, and direct general and administrative, or G&A, expenses per Mcf), which were weighted 30%, 30%, 30% and 10%, respectively, while the remaining 25% is based upon the overall corporate goals as discussed above for our CEO, CFO and General Counsel. For our SVP-SEECO, his performance goals for 2007 specifically related to the performance of Arkoma Basin operations, including the operations relating to our Fayetteville Shale project and were: (1) PVI, (2) production, (3) reserve additions, (4) controlling expenses (O&M and direct G&A expenses per Mcf), (5) dry hole cost ratio and (6) our overall E&P results, which were weighted 25%,

20%, 20%, 10%, 5% and 20%, respectively.

Each participant in the Incentive Compensation Plan is assigned minimum, target and maximum total award levels that are expressed as a percentage of his or her base salary. The target total award is typically benchmarked at the median for cash incentive bonuses of the Peer Group based on the relevant positions, except in the cases of our CFO and our EVP & President-E&P, who are each benchmarked against the average of the second and third highest

Table of Contents

paid executives of the Peer Group. The minimum target award typically represents one-half of that target while the maximum typically represents one and one-half times that target and assumes attainment of maximum performance objectives and the maximum discretionary amount.

If the actual level achieved for a specified corporate performance objective is not at least equal to the predetermined minimum level, then the proportionate amount of the award represented by that performance measure will not be paid. The remaining portion of each award is discretionary based on a subjective evaluation of the executive's individual performance by the Compensation Committee. Due to the discretionary component, the total award at the minimum level can also reach the target level. Additionally, the Committee may also issue special awards outside of the ICP based upon an executive's performance during the year that could result in a total bonus award above the maximum percentage. Minimum, target and maximum award levels are also subject to adjustment based on internal pay equity considerations among the Named Executive Officer group and the particular value of an individual Named Executive Officer to us.

At the December Compensation Meeting in 2006, the Compensation Committee established the following minimum, target and maximum incentive award levels for the organizational, discretionary and total annual incentives for 2007 related to the attainment of corporate performance objectives for the Named Executive Officers:

2007 Annual Incentive Compensation Bonus Percentages

	Organizational Performance			Discretionary			Total		
	Min. (%)	Target (%)	Max. (%)	Min. (%)	Target (%)	Max. (%)	Min. (%)	Target (%)	Max. (%)
CEO	45.0	90.0	170.0	105.0	60.0	55.0	150.0	150.0	225.0
EVP & CFO	33.0	66.0	125.0	77.0	44.0	40.0	110.0	110.0	165.0

SVP-SEECO	22.5	45.0	85.0	52.5	30.0	27.5	75.0	75.0	112.5

At the February Meeting in 2008, the Compensation Committee awarded our Named Executive Officers the following bonuses under the ICP based on the achievement of the applicable performance measures and the exercise of discretion by the Compensation Committee as well as certain other bonuses outside of the ICP:

	ICP		ICP	Supplemental	
	Performance	Discretionary	Total	Awards	Total
CEO	\$ 649,770	\$ 320,230	\$ 970,000	\$ 80,000	\$ 1,050,000
EVP & CFO	\$ 290,661	\$ 142,339	\$ 433,000	\$ 7,000	\$ 440,000
EVP & President-E&P	\$ 276,938	\$ 143,062	\$ 420,000	\$ 20,000	\$ 440,000
EVP & General Counsel	\$ 230,101	\$ 118,899	\$ 349,000	\$ 1,000	\$ 350,000
SVP-SEECO	\$ 116,833	\$ 71,167	\$ 188,000	\$ 2,000	\$ 190,000

In 2007, with respect to the ICP performance measures for our CEO, EVP & CFO and General Counsel and the overall corporate results component of the performance measures for our EVP & President-E&P, (i) production was between the minimum and targeted performance objectives, (ii) PVI and reserve replacement were above the targeted

performance objectives but below the maximum, and (iii) return on equity was above the maximum performance objective. For our EVP & President-E&P and SVP-SEECO, with respect to the E&P performance measures and overall E&P results, respectively, (i) production was above the minimum level but below target and (ii) PVI, the components of controlling expenses and reserve replacement were above the target levels but below the maximum levels. For our SVP-SEECO, with respect to (x) the Arkoma Basin performance measures, (i) PVI, production, the O&M & direct G&A components of controlling expenses and the dry hole cost ratio were at the maximum levels and (ii) reserve additions was below the minimum level, and (y) the Fayetteville Shale performance objectives, (i) PVI was at the maximum level, (ii) the O&M & direct G&A components of controlling expenses was above target but below the maximum level, (iii) production was above the minimum level but below target and (iv) both reserve additions and the dry hole cost ratio were below minimum levels. The amounts set forth

Table of Contents

in the table under ICP Performance reflect the amounts earned by the NEOs based on the achievement of the 2007 performance objectives.

In making its determination with respect to discretionary awards under and outside of the Incentive Compensation Plan, the Compensation Committee considered management's accomplishments for the year, which included further building the mid-stream gas distribution and marketing entity and significantly strengthening the geological, engineering and operations capability for aggressively developing the Fayetteville Shale project. Based on the Compensation Committee's recognition of the significant and successful efforts of management in building a solid foundation for the future growth and profitability of the Company and in achieving record levels of production, reserves and cashflow, the Compensation Committee evaluated the ICP calculations based on organizational performance and provided appropriate discretionary and supplemental awards to each of the NEOs as set forth below. Combined, the ICP awards and supplemental awards were less than the maximum award levels under the ICP for the Named Executive Officers.

At the December Compensation Meeting in 2007, the Compensation Committee established the following minimum, target and maximum incentive award levels for the organizational, discretionary and total annual incentives for 2008 related to the attainment of corporate performance objectives for the Named Executive Officers:

2008 Annual Incentive Compensation Bonus Percentages

Long-Term Incentives

The long-term incentives for the Named Executive Officers are awarded pursuant to two plans: (1) a stock incentive plan, our 2004 Stock Incentive Plan, or the Stock Plan, and (2) a goal driven plan, the Southwestern Energy Company 2002 Performance Unit Plan, or the Performance Unit Plan. Our long-term incentive program is designed to provide incentives for key employees to focus on the long-term strategic goals of our business and to attract and retain key employees through share ownership. In order to achieve these objectives, long-term incentives for each fiscal year are awarded at the December Compensation Meeting prior to the commencement of the fiscal year. The total long-term incentive compensation for the Named Executive Officers is typically compared to information provided regarding total long-term incentive compensation at the 50th and 75th percentiles in the Peer Group based on the relevant positions, except in the case of (i) each of our CFO and our EVP & President-E&P, who are compared to the average of the second and third highest paid executives of the Peer Group at those percentiles and (ii) our SVP-SEECO, whose long-term incentives are established based on the Survey Data. It is the Compensation Committee's practice to determine the overall dollar amount of the long-term incentives and then make the allocations among the three award types: restricted stock, stock options and performance units. Based upon discussions with E&Y, long-term incentive compensation for the Named Executive Officers is allocated approximately on a one-third basis between restricted

stock, stock options and performance units, with variations attributable to the valuation of the options using the Black Scholes model and the restricted stock component (including the related tax gross-up) being based on the grant date stock price.

Stock Plan. Under the Stock Plan, the Compensation Committee may grant options to purchase common stock and award shares of restricted stock, restricted stock units and stock appreciation rights, each in such amounts as determined by the Compensation Committee. The Stock Plan also allows the Compensation Committee to award cash bonuses (a tax gross-up) when a participant elects to recognize income for federal or state income tax purposes with respect to awards of restricted stock or restricted stock units at the grant date. It is the Compensation Committee's practice to only award tax gross-ups as part of the total value of any restricted stock or restricted stock

Table of Contents

unit award. The Compensation Committee believes that stock options and other equity-based compensation align the interests of executives and other managers with those of our stockholders because the value of such compensation is directly related to appreciation of our stock price. We have not adopted any stock ownership requirements for our executives because the Compensation Committee, after reviewing current stock ownership levels and the selling history of the Named Executive Officers, believes that equity incentives have been effective in keeping the interests of management and the stockholders aligned. We have, however, implemented a policy that prohibits all employees, including the Named Executive Officers, their spouses and members of their household, from hedging the economic risk of ownership of our stock. Specifically, short selling and buying or selling puts, calls or options in respect of our securities are prohibited under our Business Conduct Guidelines. Our Business Conduct Guidelines also prohibit employees, including the NEOs, from engaging in transactions involving our securities when they are in possession of material, non-public information about us or during certain designated black-out periods. It is our policy not to issue stock options during earnings related black-out periods but it is our practice to issue options during such periods to newly hired employees and at the December Compensation Meeting whether or not employees may be in possession of material, non-public information.

The determinations of equity incentive awards are made at the December Compensation Meeting prior to the beginning of the fiscal year in order to coincide with the culmination of our performance review process and the establishment of the other components of compensation for the upcoming fiscal year. At the December Compensation Meetings in 2006 and 2007, the Compensation Committee granted stock options and shares of restricted stock (including related tax-gross-ups) under the Stock Plan for fiscal years 2007 and 2008, respectively. All stock options given to the Named Executive Officers in 2006 and 2007 had an exercise price based on the fair market value (as defined in the Stock Plan) of our common stock on the date prior to the applicable date of grant, had terms of seven years commencing from the grant date and vest over a period of three years from the grant date. All shares of restricted stock given to the Named Executive Officers for fiscal years 2007 and 2008 vest over a four-year period from the date of grant, with the exception of a special award granted to Mr. Thaeler in 2007 which vests over a period of two years. All restricted stock grants were accompanied by tax gross-ups. The stock options and restricted stock awards are forfeited upon termination of employment other than a change in control (discussed more fully below), or a termination of employment due to death, disability or retirement at age 65 with at least five (5) years of service with us.

Performance Unit Plan. Our Performance Unit Plan is used to provide long-term cash incentives for our executives and certain employees. The Performance Unit Plan is designed to insure that our long-term strategy is competitive with our peers and that our executives are rewarded with cash for actual long-term performance and not just stock price appreciation. The Plan also complements the equity-based compensation awarded under the Stock Plan by providing additional awards for enhancing our long-term value and mitigating the effect of stockholder dilution. The determinations of performance unit awards are made at the December Compensation Meeting prior to the beginning of the fiscal year in order to coincide with the culmination of our performance review process and the establishment of the other components of compensation for the upcoming fiscal year. Because the Performance Unit Plan is tied to operating performance success metrics over a three-year period, it also provides a supplementary long-term retention component. Actual payout occurs more than three years after the awards are given and is determined by the attainment of certain threshold, target, and maximum performance objectives, which pay \$500 per unit at the threshold level, \$1,000 per unit at the target level and \$2,000 per unit at the maximum level, at the end of the three-year period. Performance objectives are calculated weighing three-year total stockholder return versus the Peer Group at the time of the award and a performance measure known as a reserve replacement efficiency ratio (determined by dividing pre-tax operating cash flow by finding and development costs) versus the target and the Peer Group at the time of the award. The assessment as to whether the performance objectives have been attained for the performance units awarded in any given fiscal year are made by the Compensation Committee when the Peer Group results are finalized, approximately three years following the year in which the award was made. At the December Compensation Meetings in 2006 and 2007, the Compensation Committee granted performance units to the Named Executive Officers for fiscal

years 2007 and 2008, respectively. In March 2008, the Compensation Committee calculated the amounts payable to the NEOs under performance units relating to the three-year period ended December 31, 2007 and authorized the payment of the following amounts: \$1,734,000 for our CEO; \$700,000 for our CFO; \$700,000 for our EVP & President-E&P; \$340,000 for our EVP & General Counsel; and \$170,000 for our SVP-SEECO.

At the December Compensation Meeting in 2007, the Compensation Committee awarded total long term incentive compensation to our Named Executive Officers for 2008, (utilizing the Black-Scholes valuation for stock options, the grant date price for restricted stock and the target value of the performance units) as follows:

	2008 Total Long-Term Incentives

Health, Welfare and Retirement Benefits

We have competitive health, welfare and retirement programs for our eligible employees. Our Named Executive Officers generally are eligible for the benefit programs on the same basis as all other employees. Our health and welfare programs include medical, pharmacy, dental, life insurance and disability. We also offer a charitable gift matching program. Coverage under the life insurance and disability programs provide higher benefit amounts for our Named Executive Officers due to their higher base salaries. Our executives have disability coverage that applies if they are unable to perform in their own occupation while disability coverage for all other employees applies only if they are unable to perform any occupation. In addition, monthly disability benefits for our officers are capped at

\$16,000, as opposed to \$7,500 for all other employees.

We offer retirement programs that are intended to supplement our employees' social security benefits and personal savings. The programs include:

- the Southwestern Energy Company 401(k) Savings Plan, or the 401(k) Plan;

- a defined benefit plan, or the Pension Plan;

- a supplemental retirement plan, or the SERP; and

- a non-qualified deferred compensation plan, or the Non-Qualified Plan.

Table of Contents

All employees are generally eligible for the 401(k) Plan and the Pension Plan and the Named Executive Officers participate in those plans on the same basis as other employees. The 401(k) Plan allows a participant to elect to contribute a percentage of their eligible compensation, generally salary and wages, to an investment trust. Employee contributions are matched by us 100% for the first 3% of the employee's eligible compensation and 50% for the next 3% and such matching contributions immediately vest. The 401(k) plan provides a number of different investment options, including our common stock, for which a participant has sole discretion in determining the allocation of their and our contributions among the investment options.

The Internal Revenue Code, or the Code, limits both the amount of compensation that may be used for purposes of calculating a participant's benefit under our Pension Plan and the maximum annual benefit payable to a participant under the Pension Plan. For the 2007 plan year, (i) a participant's compensation in excess of \$225,000 is disregarded for purposes of determining average compensation and (ii) the maximum annual Pension Plan benefit permitted under the Code was \$180,000. Until December 31, 1997, our Pension Plan had benefits payable based upon average final compensation and years of service. Effective January 1, 1998, we amended our Pension Plan to become a cash balance plan on a prospective basis. A cash balance plan provides benefits based upon a fixed percentage of an employee's annual compensation. Eligible officers and employees who were participants in the Pension Plan as of January 1, 1998 are entitled to annual benefits payable upon retirement based upon years of service through December 31, 1997 and average compensation during the five years of highest pay in the last ten years of service before termination.

Under the cash balance provisions of our Pension Plan, each participant has, for recordkeeping purposes only, a hypothetical account to which credits are allocated annually based upon a percentage of the participant's base salary. The applicable percentage is equal to 6% plus an additional percentage for participants in the Pension Plan as of January 1, 1998. The additional percentage is based upon a participant's age, and is designed to approximate any lost benefits due to the change to a cash balance plan. The additional percentage is equal to 6.3% for our CEO and 3.7% for our CFO, who were both participants in the plan as of January 1, 1998. All employee balances in the cash balance account also earn a fixed rate of interest that is credited annually. The interest rate for a particular year is the annual rate of interest of the 30-year treasury securities for November of the prior year with a minimum of 6%. Interest is credited as long as the participant's balance remains in the Pension Plan. Additional information about the Pension Plan is provided below following the Pension Plan Table.

The SERP allows certain employees at the level of vice president and above to continue to earn pension benefits for retirement once they reach the limits imposed by the Internal Revenue Service. The SERP provides benefits equal to the amount that would be payable under the Pension Plan in the absence of certain limitations of the Code, less the amount actually paid under the Pension Plan. In the event of a change in control as defined under Severance and Other Change in Control Benefits, the benefits of a Named Executive Officer under the SERP would be determined as if the participant had credit for three additional years of service. The credit of three additional years of service is designed to ensure that the pension benefits in the event of a change in control are consistent with the other change in control arrangements between us and the NEOs. An executive's benefits under the SERP do not vest until the executive has completed five years of service with us and the credit of the additional three years may be utilized to satisfy this requirement. At retirement or termination of employment, the vested amount credited to a participant is payable to the participant in the form of a lump sum or in lifetime monthly payments. The remuneration covered by the Pension Plan includes wages and salaries but excludes incentive awards, bonuses, and fees. Additional information about the SERP is provided below following the Pension Plan Table.

Our Named Executive Officers and other highly compensated employees are also eligible to participate in the Non-Qualified Plan, which allows any participant to defer income and receive a match on the same basis as the 401(k) Plan, subject to the same total cap as for all employees. In addition, participants can defer all or a portion of their annual incentive payments until termination of employment under the Non-Qualified Plan. The Non-Qualified Plan is

not funded and participants are our general creditors. All amounts deferred in the Non-Qualified Plan increase or decrease based on the investment results of the executive s requested investment alternatives, and executives do not earn or accrue above-market or preferential earnings on their accounts. Plan distributions after employment ends are paid out of our funds rather than from a dedicated investment portfolio.

Table of Contents

Perquisites, Allowances and Other Benefits

The type and amount of perquisites for our NEOs is reviewed and approved by the Compensation Committee as part of its compensation decision-making. In 2007, the primary perquisites for our Named Executive Officers at or above the level of executive vice president (or the president level if the position is held at the subsidiary level) are the payment of dues for one social club designated by us, a \$7,380 annual car allowance, estate and financial planning expenses for each NEO up to \$18,500 per year (except in the case of our SVP-SEECO who receives reimbursement of up to \$10,000 per year), a medical reimbursement plan that covers all out-of-pocket expenses and an annual complete personal physical exam. We pay the fees for one local social club to provide our executives with a forum for business entertainment and for appropriate interaction with members of the business community. We reimburse our NEOs for expenses incurred with respect to estate and financial planning because we believe the utilization of experts will reduce the amount of time our executives will have to devote to those matters while also maximizing the net value of the compensation we provide.

We permit our NEOs and members of senior management to use our corporate aircraft for business-associated personal use on limited occasions. This use typically consists of permitting family members to accompany the executive when traveling for business and is limited to situations where the presence of the family member will not conflict with the business purpose of the travel. We also may permit personal use of the aircraft in very limited situations where, absent such use, the executive's work obligations create a significant and inappropriate imposition on personal plans or obligations. The cost to us of this benefit, if used by a Named Executive Officer, is reflected in All Other Compensation in the Summary Compensation Table.

Finally, we have also entered into indemnity agreements with our senior management, including the NEOs, and certain key employees where we have agreed to indemnify them against all liabilities and losses incurred in connection with any threatened, pending, or completed action, suit or proceeding, whether civil, criminal, administrative, investigative or other matter involving them in their capacity as our officer, employee, trustee or agent (including a fiduciary) and to pay any amount which they are legally obligated to pay because of any claim or claims made against them because of any act or omission or neglect or breach of duty, including any actual or alleged error or misstatement or misleading statement committed by them or occurring while they are acting in such capacity. Under the indemnity agreements, we have agreed to advance reasonable expenses subject to an undertaking that such advances will promptly be reimbursed if the employee is found not to have been entitled to indemnification. Subject to certain exceptions, for a period of time following termination of service (but in no event longer than four (4) years), we have also agreed to maintain the existing directors' and officers' insurance policies covering our executives for so long as they shall continue to serve as our director, officer, employee, trustee or agent (including a fiduciary) or as a director, officer, employee, trustee or agent (including a fiduciary) of any subsidiary (or shall continue at our request to serve as a director, officer, employee, trustee or agent (including a fiduciary) of another corporation, partnership, joint venture, trust or other enterprise).

Severance and Other Change in Control Benefits

We believe that our senior management and other key employees are the primary reason for our success and that it is important to protect them in the event they are terminated or elect in certain circumstances to leave us following a change in control. Therefore, we have entered into severance agreements with each of our Named Executive Officers that entitles them to receive a payment if within three years after a change in control, (i) the executive's employment is terminated without cause or (ii) they voluntarily terminate employment with us for good reason. Cause, when used in connection with the termination of an executive's employment, means (a) a willful and continued failure by the executive substantially to perform his duties and obligations to us (other than any such failure resulting from his

disability) that continues after we have given notice thereof or (b) the willful engaging in misconduct which is materially injurious to us. For purposes of this definition, no act, or failure to act, on an executive's part shall be considered willful unless done, or omitted to be done, by the executive in bad faith and without reasonable belief that his action or omission was in our best interests. Good reason includes (i) a reduction in the executive's employment status or responsibilities, (ii) a reduction in the executive's base salary, (iii) a change in the executive's principal work location of more than 40 miles, and (iv) certain adverse changes in our incentive or other benefit plans.

Table of Contents

The severance agreements do not provide severance benefits outside the context of a change in control. The severance payment for (i) our SVP-SEECO is equal to the product of 2.0 and the sum of base salary plus the maximum bonus opportunity available to him under the Incentive Compensation Plan and (ii) each of the other Named Executive Officers is equal to the product of 2.99 and the sum of base salary as of the executive's termination date plus the maximum bonus opportunity available to the executive under the Incentive Compensation Plan, and we have agreed to reimburse our Named Executive Officers for any taxes imposed as a result of the change in control benefits under the so-called parachute tax imposed by Section 280G of the Code. In addition, each executive will be entitled to continued participation in certain health and welfare benefits and perquisites from the date of the termination of employment until the earliest of (a) the expiration of three years, (b) death, or (c) the date he is afforded a comparable benefit at comparable cost by a subsequent employer. As previously discussed under Health, Welfare and Retirement Benefits and Perquisites, Allowances and Other Benefits, each officer will also be credited with three additional years of service for pension benefit purposes upon a change in control and will continue to have coverage under our Directors and Officers insurance policies for a period of up to four years.

Our various long-term incentive plans and option agreements provide that all outstanding stock options and all rights become exercisable immediately upon a change in control. The plans and other option agreements also provide that all performance units and shares of restricted stock which have not previously vested or been cancelled or forfeited shall vest immediately upon a change in control. Our Incentive Compensation Plan also provides that upon a participant's termination of employment under certain conditions on or after a change in control all determined but unpaid incentive awards shall be paid immediately, and any undetermined awards shall be determined and paid based on projected performance factors calculated in accordance with the plan.

For purposes of the severance agreements and our plans, a change in control includes (i) the acquisition by any person (other than, in certain cases, one of our employees) of 20% or more of our voting securities, (ii) approval by our stockholders of an agreement to merge or consolidate us with another corporation (other than certain corporations controlled by or under common control with us), (iii) certain changes in the composition of our Board of Directors, (iv) any change in control which would be required to be reported to the stockholders of the Company in a proxy statement and (v) a determination by a majority of the Board of Directors that there has been a change in control or that there will be a change in control upon the occurrence of certain specified events and such events occur.

The estimated amounts that would have been paid to our Named Executive Officers if the change in control payments described above had been triggered as of December 31, 2007 is disclosed under Executive Compensation Potential Payouts Upon Change in Control and Termination.

Recoupment Policy Relating to Unearned Incentive Compensation

If the Board, or an appropriate committee thereof, has determined that any fraud, negligence, or intentional misconduct by a Named Executive Officer and certain other officers was a significant contributing factor to us having to restate all or a portion of our financial statement(s), the Board or committee shall take, in its discretion, such action as it deems necessary to remedy the misconduct and prevent its recurrence. In determining what remedies to pursue, the Board or committee will take into account all relevant factors, including whether the restatement was the result of fraud, negligence, or intentional misconduct. The Board will, to the extent permitted by applicable law, in all appropriate cases, require reimbursement of any bonus or incentive compensation paid to the officer after January 1, 2007, cause the cancellation of restricted or deferred stock awards and outstanding stock options, and seek reimbursement of any gains realized on the exercise of stock options attributable to such awards, if and to the extent that (a) the amount of incentive compensation was calculated based upon the achievement of certain financial results that were subsequently reduced due to a restatement, (b) the officer engaged in any fraud or misconduct that caused or contributed to the need for the restatement, and (c) the amount of the bonus or incentive compensation that would have been awarded to the officer had the financial results been properly reported would have been materially lower

than the amount actually awarded. In addition, the Board may dismiss the officer, authorize legal action, or take such other action to enforce the officer's obligations to us as it may deem appropriate in view of all the facts surrounding the particular case.

Table of Contents**Board Process**

The Compensation Committee has reviewed the aggregate amounts and mix of all components of the CEO's and the other Named Executive Officers' compensation, including base salary, annual incentive compensation, long-term incentive compensation, accumulated (realized and unrealized) stock option and restricted stock gains, the value to the executive and cost to the Company of all perquisites and other personal benefits, the earnings and accumulated obligations under the Company's non-qualified deferred compensation plan, and the actual projected payout obligations under the Company's supplemental executive retirement plan under several potential severance and change-in-control scenarios. A tally sheet setting forth all the above components was prepared and reviewed affixing dollar amounts under the various payout scenarios for the CEO and the other Named Executive Officers.

Based on the review process set out above, the Compensation Committee finds the CEO's and other Named Executive Officers' total compensation (and, in the case of the severance and change-in-control scenarios, the potential payouts) in the aggregate to be reasonable and not excessive.

- (3) The amounts relate to restricted stock and options awarded to each Named Executive Officer pursuant to the Stock Plan, as described in more detail under the heading Compensation Discussion and Analysis Total Compensation and Allocation Among Components Long-Term Incentives Stock Plan and predecessor plans as detailed under Equity Compensation Plans. The dollar amounts stated for the restricted stock and options reflect the expense recognized for financial statement reporting purposes for the year ended December 31, 2007, in accordance with SFAS 123(R) and thus includes amounts from awards granted in and prior to 2007. The assumptions utilized in the calculation of these amounts are set forth in Footnote 10 to the Company's consolidated financial statements included in the Annual Report on Form 10-K for the year-ended December 31, 2007. Additional information regarding restricted stock and option awards made in 2007 can be found below in the table entitled Grants of Plan-Based Awards.
- (4) The amounts stated in this column represent, (a) the portion of the annual incentive compensation bonus based upon performance measures as discussed above, and (b) the total estimated payout earned during 2007 on the performance units awarded to each NEO in 2004 pursuant to the Performance Unit Plan. The PUP Plan is described in more detail under the heading Compensation Discussion and Analysis Total Compensation and Allocation Among Components Long-Term Incentives Performance Unit Plan.
- (5) The amounts stated in this column represent the aggregate increase in actuarial value for each NEO for the period from December 31, 2006 through December 31, 2007 under both the Pension Plan and the SERP. As discussed in the Pension Benefits table below, executives do not earn or accrue above-market or preferential earnings on their accounts under the Non-Qualified Plan. The Pension Plan, the SERP and the Non-Qualified Plan are described in more detail under the heading Compensation Discussion and Analysis Total Compensation and Allocation Among Components Health, Welfare and Retirement Benefits.
- (6) The amounts stated in this column include Company matching funds for the 401(k) and Non-Qualified Plans, life insurance premiums, car allowance, tax gross-up payments relating to restricted stock received in 2007 and moving and relocation expenses. The amounts also include supplemental medical payments, executive physical, financial and estate planning, club membership fees, personal and spousal travel, and other perquisites received in 2007, none of which individually exceeded \$25,000. The following table provides additional detail regarding the amounts in this column:

- (1) As discussed in more detail below and (a) as discussed above under Compensation Discussion and Analysis Total Compensation and Allocation Among Components Long-Term Incentives, on December 13, 2007, the Compensation Committee granted each NEO long-term incentives which were split between restricted stock, options, and performance units; and, (b) as discussed above under Compensation Discussion and Analysis Total Compensation and Allocation Among Components Total Cash Compensation Incentive Plan, short-term cash incentives through the Incentive Compensation Plan.
- (2) All stock options granted in 2007 have an exercise price based on the Fair Market Value of the Company's common stock on the date of grant. The Fair Market Value, as defined in the Stock Plan, is the closing sales price on the immediately preceding business day of a share of common stock as reported on the principal securities exchange on which shares of common stock are then listed or admitted to trading. The exercise or base prices reflected in this table do not reflect the adjusted prices as a result of the two-for-one stock split effected by the Company on March 25, 2008.
- (3) The dollar value stated for the restricted stock and options reflect the number of shares granted in 2007 multiplied by the fair market value in accordance with SFAS 123(R). The assumptions utilized in the calculation of these amounts are set forth in Footnote 10 to the Company's consolidated financial statements included in the Annual Report on Form 10-K for the year-ended December 31, 2007.
- (4) The performance units were issued under the PUP Plan. Each performance unit has a threshold (\$500/unit), target (\$1,000/unit), and maximum (\$2,000/unit) payout amount based on the attainment of certain performance objectives. The performance units awarded in 2007 will vest ratably over a period of three years from the date of grant, and payout occurs at the end of the three-year period.
- (5) The amounts reflect the number of shares of restricted stock granted to each NEO under the Stock Plan. The shares of restricted stock vest ratably over a period of four years from the date of grant, or immediately upon death, disability, normal retirement, or a change in control.

Table of Contents

- (6) The stock options were granted under the Stock Plan. All options vest and become exercisable ratably over three years beginning one year from the date of grant or immediately upon death, disability, normal retirement or a change in control. Options expire seven years from the date of grant, but may expire earlier upon termination of employment.
- (7) Pursuant to the Incentive Compensation Plan, the Compensation Committee determined the annual target bonus level on each NEO for the 2008 fiscal year on December 13, 2007. The incentive bonus awards are paid annually based on the attainment of corporate organization performance measures and the performance of the NEO, and are calculated as a percentage amount of each NEO's annual salary. The incentive bonus awards are discussed in further detail under the heading Compensation Discussion and Analysis Total Compensation and Allocation Among Components Total Cash Compensation Incentive Plan.
- (8) The amount reflects the number of shares of restricted stock granted to said NEO under the Stock Plan. The special award was granted based on the performance of the Fayetteville Shale Project and vests ratably over a period of two years from the date of grant, or immediately upon death, disability, normal retirement, or a change in control.

Pension Benefits

As noted above in Health, Welfare and Retirement Benefits in Compensation Discussion and Analysis, the Company sponsors the Southwestern Energy Company Pension Plan (the Pension Plan) and the Southwestern Energy Supplemental Retirement Plan (the SERP). The purpose of the Pension Plan is to provide participants with benefits when they separate from employment through termination, retirement, death or disability. The purpose of the SERP is to provide employees with the pension benefits they would have received if the Pension Plan were not subject to certain IRS limitations. Executives do not earn or accrue above-market or preferential earnings on their accounts.

Benefits under the Pension Plan and SERP are earned based upon (a) 1.5% of the compensation earned multiplied by the number of years of credit service, frozen as of January 1, 1998, and (b) an additional monthly benefit equal to the amount provided by the cash balance provision of the Pension Plan as discussed in Health, Welfare and Retirement Benefits. Employees are required to complete at least 1,000 hours of service per year and

Table of Contents

are vested in the Pension Plan and SERP after five years. Participants in the SERP will receive credit for three additional years of service upon a change in control.

For purposes of determining benefits under the Pension Plan and the SERP, the employee's base salary or wages are utilized. No bonus payments or other forms of compensation are factored in when determining benefits. Early retirement is available for employees who attain age 55 and have completed five years of service. However, since the accumulated benefits in the table above can be paid via a lump sum, the practical effect is that any employee who completes five years of service may leave the Company and take their pension benefit in a lump sum.

The following table sets forth the pension benefits for each of the Named Executive Officers as of December 31, 2007:

(a)	(b)	(c) Number of Years Credited Service (#)	(d) Present Value of Accumulated Benefit (\$(1)	(e) Payments During Last Fiscal Year (\$)

- (1) The change in the actuarial present value of the NEO's accumulated benefit from the prior year is included in Column h of the Summary Compensation Table and calculated utilizing a discount rate of 6.00% and the 1994 Group Annuity Monthly Tables.

Non-Qualified Deferred Compensation

As noted above in Health, Welfare and Retirement Benefits in Compensation Discussion and Analysis, the Southwestern Energy Company Non-Qualified Retirement Plan (the Non-Qualified Plan) was established to allow eligible employees to defer income and receive a match on the same basis as the 401(k) Plan. Participants in the Non-Qualified Plan may defer all or a portion of their annual salary or annual incentive payments. The Non-Qualified Plan is not considered to be a funded plan under IRS rules, and as such, the participants are deemed to be general creditors of the Company.

Investment selections are requested by the participants and generally mirror the investment choices and timing of any investment changes as in the 401(k) Plan. No above-market or preferential earnings are paid on any of the balances.

Withdrawals may only be made upon the participant's termination, retirement, death or disability.

Table of Contents

The following table sets forth information regarding the contributions, earnings and withdrawals/distributions during 2007 and the balance at year-end 2007 under the Non-Qualified Plan for each of the Named Executive Officers:

Potential Payouts Upon Change in Control and Termination

The following table sets forth the change in control payments that would have been made to our Named Executive Officers based on a hypothetical termination date of December 31, 2007:

	Total Potential Change-in-Control Payments				
	Mr. Korell	Mr. Kerley	Mr. Lane	Mr. Boling	Mr. Thaeler
Base Salary	\$ 1,644,500	\$ 1,001,650	\$ 1,001,650	\$ 888,030	\$ 480,000

Tax gross-up				1,128,551	640,455
TOTAL	\$ 12,100,624	\$ 5,632,859	\$ 5,589,762	\$ 5,371,908	\$ 3,083,051

(1) Includes the current year discretionary portion of the ICP target bonus plus the portion of the ICP payable in the event the payment provisions of the Severance Agreement are triggered.

As discussed above in Severance and Other Change in Control Benefits, the Company has severance agreements in place with the NEOs that provide severance benefits in the event of a change in control. The table above is based upon a change in control and the employee is terminated for cause or voluntarily leaves for good reason (a double trigger) as of the last day of 2007. The base salary and ICP bonus are calculated based on (i) for our SVP-SEECO, the product of 2.0 and the sum of base salary as of the termination date plus the maximum bonus opportunity available to him under the Incentive Compensation Plan and (ii) for each of the other Named Executive Officers, the product of 2.99 and the sum of base salary as of the executive's termination date plus the maximum bonus opportunity under the Incentive Compensation Plan. The health and welfare benefits, additional retirement benefits and perquisites, are assumed to continue for three years as provided in the severance agreement and are calculated using 2007 amounts. The calculation of the fair market value of accelerated equity compensation utilizes the Company's stock price as December 31, 2007 for stock options and restricted stock, and includes the unpaid performance units at their target level. The tax gross-up amount is an estimate of what would be reimbursed to the NEO for the so-called parachute tax of Section 280G of the Internal Revenue Code. The provisions of Section 280G of the Internal Revenue Code are complex and the resulting tax is heavily fact-dependent. Proper tax planning may be available to reduce or eliminate the amounts owed in the event of a change in control.

Table of Contents

- (1) Included in this column are an annual retainer fee, lead director fee, committee chairman fees, committee meeting fees, and regular Board meeting fees. Additional details regarding these payments can be found in the table above entitled "Fees Earned or Paid in Cash to Outside Directors in 2007."
- (2) The dollar amounts stated for the restricted stock and options reflect the expense recognized for financial statement reporting purposes for the year ended December 31, 2007, in accordance with SFAS 123(R) and thus may include amounts from awards granted in and prior to 2007. The assumptions utilized in the calculation of these amounts are set forth in Footnote 10 to the Company's consolidated financial statements included in the Annual Report on Form 10-K for the year-ended December 31, 2007.
- (3) The amounts indicated in this column include director and spouse travel expenses and tax gross-up payments relating to restricted stock received in 2007 by all outside directors, health insurance provided by the Company for Messrs. Epley, Mourton, and Scharlau, and the use of an office, computer and telephone provided to Mr. Scharlau.

The total annual compensation (i.e. total cash compensation plus long-term incentive compensation) paid to each outside director in 2007 was based upon total compensation received by outside directors in the 2007 Peer Group as determined by the independent compensation consultants and was above the 65th percentile ("Baseline Compensation"). The amount of the long-term incentive compensation payable each year is equal to the difference between (i) Baseline Compensation and (ii) the total cash payable to outside directors for such year. The value of the total long-term incentive compensation payable in 2007 was allocated 50% to stock option awards and 50% to restricted stock awards, with the number of options and shares awarded being determined by reference to the market value of the Company's stock on the date of the award. Each director serving as of December 13, 2007 was granted 800 shares of restricted stock and options to purchase 3,000 shares of the Company's common stock at an exercise price of \$54.36 per share. The shares will vest at the rate of 25% on the anniversary of the grant date over a period of four years, except in the cases of Messrs. Epley, Howard and Scharlau, whose shares are subject to immediate full vesting if they should elect to retire from the Board of Directors. All of the restricted stock grants will immediately fully vest upon a change in control or the death or disability of a director. The stock options will vest at the rate of 33 1/3% on the anniversary of the grant date over a period of three years, except in the cases of Messrs. Epley, Howard and Scharlau, whose shares are subject to immediate full vesting if they should elect to retire from the Board of Directors. All of the option grants will immediately fully vest upon a change in control or the death or disability of a director.

Outstanding Equity Awards at Fiscal Year-End

The aggregate number of option awards and stock awards outstanding at fiscal year-end 2007 for each director is set out in the table below:

Name	Number of Securities Underlying Unexercised Options Exercisable (#)(1)	Number of Securities Underlying Unexercised Options Unexercisable (#)(1)	Number of Shares or Units of Stock that Have Not Vested (#)(1)

Charles E. Scharlau	185,713	5,917	2,315
---------------------	---------	-------	-------

EXHIBIT A

AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY

I. Statement of Principles

The Audit Committee of the Board of Directors (the "Audit Committee") is responsible for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence from the Company. The Securities and Exchange Commission (the "SEC") has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. Accordingly, the Audit Committee has adopted, and the Board of Directors has ratified, this Audit and Non-Audit Services Pre-Approval Policy (the "Policy"), which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditor may be pre-approved. As set forth in this Policy, unless a type of service has received the pre-approval of the Audit Committee as set forth in the appendices to this Policy, it will require separate pre-approval by the Audit Committee if it is to be provided by the independent auditor.

In making its pre-approval determinations, the Audit Committee will consider whether the applicable services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Company's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Company's ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine, for each fiscal year, the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax services and the total amount of fees for certain permissible non-audit services classified as All Other services.

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the pre-approval of the Audit Committee. The term of any pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers a different period and states otherwise. The Audit Committee may add or subtract to the list of pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the independent auditor to management.

The independent auditor has reviewed this Policy and believes that implementation of the policy will not adversely affect the auditor's independence.

II. Delegation

As provided in the SEC's rules, the Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee does not delegate

its responsibilities to pre-approve services performed by the independent auditor to management.

III. Audit Services

Although the fee levels for the annual Audit services engagement are included as items 1 and 2 on Appendix A to this Policy, the actual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee as set forth in an engagement letter executed by the chairman of the Audit Committee and the independent auditor. Audit services shall include the annual financial statement audit (including required quarterly reviews) and other procedures required to be performed by the independent auditor to be able to form an opinion on

A-1

Table of Contents

the Company's consolidated financial statements and on the Company's internal controls for financial reporting, and may include subsidiary audits and equity investment audits. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit or quarterly reviews. The Audit Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Company structure or other items.

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant pre-approval to other Audit services, which are those services that only the independent auditor reasonably can provide. Other Audit services may include statutory audits or financial audits for subsidiaries or affiliates of the Company and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Audit Committee has pre-approved the Audit services identified as items 3, 4 and 5 on Appendix A. All other Audit services not listed on Appendix A must be separately pre-approved by the Audit Committee.

IV. Audit-related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and that are traditionally performed by the independent auditor. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Audit Committee may grant pre-approval to Audit-related services. Audit-related services include, among others, due diligence services pertaining to potential business acquisitions/dispositions; accounting consultations related to accounting, financial reporting or disclosure matters not classified as Audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; financial audits of employee benefit plans; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements.

The Audit Committee has pre-approved the Audit-related services on Appendix B. All other Audit-related services not listed on Appendix B must be separately pre-approved by the Audit Committee.

V. Tax Services

The Audit Committee believes that the independent auditor can provide Tax services to the Company such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the independent auditor may provide such services. Therefore, the Audit Committee believes it may grant pre-approval to those Tax services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee will consult with the Controller or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the Tax services on Appendix C. All Tax services involving large and complex transactions not listed on Appendix C must be separately pre-approved by the Audit Committee, including: tax services proposed to be provided by the independent auditor to any executive officer or director of the Company, in his or her individual capacity, where such services are paid for by the Company.

VI. All Other Services

The Audit Committee believes, based on the SEC's rules prohibiting the independent auditor from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has not yet pre-approved any services in the All Other category. At such time (if ever) that the Audit Committee elects to pre-approve any such services by the independent auditor, the same shall be described on Appendix D. Permissible All Other services not listed on Appendix D must be separately pre-approved by the Audit Committee.

A list of the SEC's prohibited non-audit services is attached to this policy as Exhibit 1. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

VII. Pre-Approval Fee Levels or Budgeted Amounts

Pre-approval fee levels or budgeted amounts for all services to be provided by the independent auditor will be established periodically by the Audit Committee. Any proposed services exceeding these levels or amounts by more than ten percent (10%) will require specific pre-approval by the Audit Committee. The pre-approved fee levels set forth in the Appendices to this Policy do not include out-of-pocket expenses incurred by the independent auditor.

The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax services, and the total amount of fees for services classified as All Other services.

VIII. Procedures

All requests or applications for services to be provided by the independent auditor that do not require separate approval by the Audit Committee will be submitted to the Company's Controller and must include a detailed description of the services to be rendered. The Controller will determine whether such services are included within the list of services that have received the pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the independent auditor.

Requests or applications to provide services that require separate approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Controller, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the internal auditor to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with this Policy. The internal auditor will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the internal auditor and management will immediately report to the chairman of the Audit Committee any breach of this Policy that comes to the attention of the internal auditor or any member of management.

The Audit Committee will also review the internal auditor's annual internal audit plan to determine that the plan provides for the monitoring of the independent auditor's services.

IX. Additional Requirements

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the independent auditor and to assure the auditor's independence from the Company, such as reviewing a formal written statement from the independent auditor delineating all relationships between the independent auditor and the Company, consistent with Independence Standards Board Standard No. 1, and discussing with the independent auditor its methods and procedures for ensuring independence.
