EXPLANATORY NOTE

Hersha Hospitality Trust is filing this Amendment No. 1 to its Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2005 filed on August 9, 2005 (the Form 10-Q), to correct the following information contained in the initial filing:

Distributions in Excess of Net Earnings on the Consolidated Balance Sheet as of June 30, 2005 (unaudited) on page 4 was changed from \$(136,030) to \$(20,355);
the aggregate interest expense incurred under mortgages payable during the three months ended June 30, 2005 and the six months ended June 30, 2005, in Note 5 - Debt on page 17 was changed from \$2,268 to \$2,409 and \$4,087 to \$4,366, respectively;
the Percent Increase in RevPAR for the Six Months Ended June 30, 2005 and 2004 in the table on page 26 was changed from 15.185 to 15.18%; and
the presentation of general and administrative expense increase from 2004 to 2005 in the last paragraph following the heading Expenses on page 27 was changed from \$1,147,000 to \$1,147.

No other changes were made. This Amendment No.1 to the Form 10-Q, continues to speak as of the date of the original filing of the Form 10-Q, and we have not updated the disclosures therein to reflect any event that occurred at a later date. The filing of this Amendment No.1 to Form 10-Q shall not be deemed an admission that the original filing, when made, included any untrue statement of a material fact or omitted to state a material fact necessary to make the statements therein not misleading.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Hersha Hospitality Trust (we or the Company) was formed in May 1998 as a self-administered, Maryland real estate investment trust. The Company is structured to qualify as a real estate investment trust (REIT) for Federal income tax purposes.

The Company owns a controlling general partnership interest in Hersha Hospitality Limited Partnership (the Partnership), which owns a 99% limited partnership interest in various subsidiary partnerships. Hersha Hospitality, LLC (HHLLC), a Virginia limited liability company, owns a 1% general partnership interest in the subsidiary partnerships and the Partnership is the sole member of HHLLC.

The Partnership leases certain hotels to 44 New England Management Company (44 New England or TRS Lessee), a wholly owned taxable REIT subsidiary.

On April 21, 2003, May 21, 2003 and August 29, 2003, CNL Hospitality Partnership, LP (CNL) purchased \$10,000, \$5,000 and \$4,027, respectively, of convertible preferred units of limited partnership interest in the Partnership (the Series A Preferred Units). Net of offering expenses, the Partnership received proceeds of \$17,023. On April 16, 2004, CNL exercised its conversion right and redeemed all of its convertible preferred units in exchange for 2,816,460 shares of common stock.

On September 24, 2004, we completed a public offering of 3,500,000 common shares at \$9.37 per share. On September 30, 2004, the underwriter exercised its over-allotment option with respect to that offering, and we issued an additional 400,000 common shares at \$9.37 per share. Proceeds to the Company, net of underwriting discounts and commissions and expenses, were approximately \$36,317. Immediately upon closing the offering, the Company contributed all of the net proceeds of the offering to the Partnership in exchange for additional Partnership interests. Of the net offering proceeds, approximately \$5,000 was used to repay indebtedness. The remaining net proceeds have been principally allocated to fund secured development loans, acquisitions and for general corporate purposes.

As of June 30, 2005, the Company, through the Partnership and subsidiary partnerships, owned thirty-one limited and full service hotels and a joint venture interest in four properties. The Company terminated eight leases with Hersha Hospitality Management, LP (HHMLP), a Pennsylvania limited partnership, as of April 1, 2004. Subsequent to this termination, all of the owned hotel facilities are leased to the Company's taxable REIT subsidiary (TRS), 44 New England. The Hampton Inn, (Manhattan) Chelsea, NY, owned in a joint venture with CNL, is leased to Hersha/CNL TRS Inc., a TRS wholly-owned by that joint venture. The Hilton Garden Inn, Glastonbury, CT owned in a joint venture, is leased to Hersha PRA TRS, Inc., a TRS wholly-owned by that joint venture. The Four Points by Sheraton, Revere, MA owned in a joint venture, is leased to Revere Hotel Group, LLC, a TRS owned by that joint venture, and the Courtyard by Marriot in Ewing, NJ owned in the Logan Hospitality joint venture, is leased to Hersha Inn America TRS Inc., a TRS owned by that joint venture. We have consolidated the operations of the Logan Hospitality joint venture that owns the Four Points by Sheraton, Revere, MA because the Company owns a majority voting interest in the venture. The remaining joint ventures are voting interest entities accounted for under the equity method.

44 New England and the joint venture TRS lessees lease the hotel properties pursuant to separate percentage lease agreements (the Percentage Leases) that provide for percentage rents based on the revenues of the hotels. The hotels are located principally in the Mid-Atlantic region of the United States.

HHMLP serves as the manager for all of the owned assets and joint venture assets. HHMLP is owned in part by four of the Company's executive officers, two of its trustees and other third party investors.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)
Principles of Consolidation and Presentation

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles and include all of our accounts as well as accounts of the Partnership, subsidiary Partnerships and our wholly owned TRS Lessee. All significant inter-company amounts have been eliminated.

Consolidated entities are either wholly owned or owned less than 100% by the Partnership and are controlled by the Company as general partner of the Partnership. Properties owned in joint ventures are also consolidated if the determination is made that we maintain control of the asset through our voting interest in the entity. Control is demonstrated by the ability of the general partner to manage day-to-day operations, refinance debt and sell the assets of the partnerships without the consent of the limited partners and the inability of the limited partners to replace the general partner. The minority interest balance in the accompanying balance sheets represents the limited partners interest in the net assets of the Partnership and the joint venture partner's ownership interests in the consolidated net assets. Net operating results of the Partnership are allocated based on their respective partners' ownership interests. Our ownership interest in the Partnership as of June 30, 2005 and 2004 was 87.7% and 85.2%, respectively.

We own a 55% joint venture interest in Logan Hospitality Associates, LLC, the owner of the Sheraton Four Point, Revere, MA. We have determined that we have a majority voting interest in this joint venture and that it qualifies for consolidation as a voting interest entity.

The Financial Accounting Standards Board issued FASB Interpretation No. 46, (FIN 46) Consolidation of Variable Interest Entities (VIEs), an interpretation of Accounting Research Bulletin No. 51 (ARB No. 51), in January 2003 and a further interpretation of FIN 46 in December 2003 (FIN 46-R and FIN 46, collectively FIN 46). FIN 46 addresses how a business enterprise should evaluate whether it has a controlling financial interest in any variable interest entity (VIE) through means other than voting rights, and accordingly, should include the VIE in its consolidated financial statements. We have adopted FIN 46 effective as of March 31, 2004.

During the second quarter of 2005, we formed Hersha Statutory Trust I and Hersha Statutory Trust II, Delaware statutory trusts (collectively, the Hersha Statutory Trusts), to collectively issue \$50,000 of trust preferred securities in private placements. We acquired, for \$1,548, residual interests (common securities) in the Hersha Statutory Trusts. Preferred equity securities of \$25,000 issued by Hersha Statutory Trust I will mature on June 30, 2035, and the remaining \$25,000 preferred equity securities issued by Hersha Statutory Trust II will mature on July 30, 2035, at par. The preferred equity securities issued by Hersha Statutory Trust I and Hersha Statutory Trust II may be redeemed by the trusts beginning on June 30, 2010 and July 30, 2010, respectively. The holders of both the preferred equity and common securities will receive quarterly distributions from the Hersha Statutory Trusts, at a fixed rate of 7.34% per annum through June 30, 2010 for Hersha Statutory Trust I and 7.173% per annum through July 30, 2010 for Hersha Statutory Trust II. Subsequent to June 30, 2010, for Hersha Statutory Trust I and July 30, 2010 for Hersha Statutory Trust II, holders of the trusts preferred equity and common securities will receive quarterly distributions at a variable rate of LIBOR plus 3.0% per annum.

The Hersha Statutory Trusts used the proceeds from the issuance of the preferred and common securities to acquire \$51,548 of junior subordinated notes from HHLP pursuant to indenture agreements. The note acquired by Hersha Statutory Trust I will mature on June 30, 2035, but may be redeemed at our option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The note acquired by Hersha Statutory Trust II will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, beginning on July 30, 2010 in accordance with the provisions of the indenture agreement. The note acquired by Hersha Statutory Trust I bears interest at a fixed rate of 7.34% per annum through June 30, 2010 and the note acquired by Hersha Statutory Trust II bears interest at a fixed rate of 7.173% per annum through July 30, 2010. Subsequent to June 30, 2010 for

Hersha Statutory Trust I and July 30, 2010 for Hersha Statutory Trust II, holders the notes bear interest at a variable rate of LIBOR plus 3.0% pre annum.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Hersha Statutory Trusts are variable interest entities under FIN 46, because the equity holders at risk hold no substantial decision-making rights. The Company's investment is financed directly by HHLP and therefore it is not considered at risk. Because HHLP is not the primary beneficiary in the Hersha Statutory Trusts, the accounts of the trusts are not consolidated with and into HHLP. HHLP's investment in the Hersha Statutory Trusts is accounted for using the equity method of accounting and is presented on our consolidated balance sheet as an other asset.

The proceeds received by HHLP in exchange for the notes were used to fund acquisitions of hotel properties, pay down outstanding borrowings under our revolving credit facility and for general corporate purposes. The notes are presented on our consolidated balance sheet in Mortgages and Notes Payable.

In addition to our relationship with the Hersha Statutory Trusts, our investments and contractual relationships with the following entities have been evaluated to determine whether they meet the guidelines of consolidation in accordance with FIN 46: HHMLP; Logan Hospitality Associates, LLC; HT/CNL Metro Hotels, LP; PRA Glastonbury, LLC; Inn America Hospitality at Ewing, LLC; HPS Seaport LLC & BCM, LLC; 44 Fifth Avenue, LLC; 5444 Associates, LP; Brisam Hotel, LLC; Metro Ten Hotels, LLC; 44 Windsor Locks Hospitality, LLC; 44 Carlisle Associates, LP; PRA Suites at Glastonbury, LLC; and 44 Hersha Norwich Associates, LLC. Our examination consisted of reviewing the sufficiency of equity at risk, controlling financial interests, voting rights, obligation to absorb expected losses and expected gains, including residual returns. Based on our examination, none of these entities was determined to be a variable interest entity.

We will continue to evaluate each of our investments and contractual relationships to determine if consolidation is required based upon the provisions of FIN 46.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment in Hotel Properties

Investment in hotel properties is stated at cost. Depreciation for financial reporting purposes is principally based upon the straight-line method.

The estimated lives used to depreciate the hotel properties are as follows:

Building and Improvements	15 to 40 Years
Furniture and Fixtures	5 to 7 Years

Revenue Recognition

We directly recognize revenue and expense for all hotels leased through 44 New England as Hotel Operating Revenue and Hotel Operating Expense when earned and incurred.

Earnings Per Common Share

We compute earnings per share in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings Per Share.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Minority Interest

Minority Interest in the Partnership represents the limited partner's proportionate share of the equity of the Partnership. Income (Loss) is allocated to minority interest in accordance with the weighted average percentage ownership of the partnership during the period. At the end of each reporting period the appropriate adjustments to the income (loss) are made based upon the weighted average percentage ownership of the partnership during the period.

We also maintain minority interests for the 45% equity interest in Logan Hospitality Associates, LLC (Logan) owned by a third party. We purchased a 55% joint venture in Logan during March 2004 and have consolidated the operations of this entity. We allocate this joint venture's income (loss) to this minority interest account based upon the ownership of the entity.

Impairment of Long-Lived Assets

We review the carrying value of each hotel property in accordance with SFAS No. 144 to determine if circumstances exist indicating an impairment in the carrying value of the investment in the hotel property or if depreciation periods should be modified. Long-lived assets are reviewed for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. We perform undiscounted cash flow analyses to determine if impairment exists. If impairment is determined to exist, any related impairment loss is calculated based on fair value. Hotel properties held for sale are presented at the lower of carrying amount or fair value less cost to sell.

Income Taxes

The Company qualifies as a REIT under applicable provisions of the Internal Revenue Code, as amended, and intends to continue to qualify as a REIT. In general, under such provisions, a company which has made the required election and, in the taxable year, meets certain requirements and distributes to its shareholders at least 90% of its REIT taxable income will not be subject to Federal income tax to the extent of the income which it distributes. Earnings and profits, which determine the taxability of dividends to shareholders, differ from net income reported for financial reporting purposes due primarily to differences in depreciation of hotel properties for Federal income tax purposes.

Deferred income taxes relate primarily to the TRS Lessee and are accounted for using the asset and liability method. Under this method, deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities of the TRS Lessee and their respective tax bases and for their operating loss and tax credit carry forwards based on enacted tax rates expected to be in effect when such amounts are realized or settled. However, deferred tax assets are recognized only to the extent that it is more likely than not that they will be realized based on consideration of available evidence, including tax planning strategies and other factors. There were no income taxes recorded in the Statement of Operations.

Under the REIT Modernization Act (RMA), which became effective January 1, 2001, the Company is permitted to lease hotels to a wholly owned taxable REIT subsidiary (TRS) and may continue to qualify as a REIT provided the TRS enters into management agreements with an eligible independent contractor who will manage the hotels leased by the TRS. The Company formed the TRS Lessee in 2003. The TRS Lessee currently leases 26 properties from the Partnership. The TRS Lessee is subject to taxation as a C-Corporation. The TRS Lessee had an operating loss for financial reporting purposes for the period ended June 30, 2005. Although the TRS Lessee is expected to operate at a profit for Federal income tax purposes in future periods, the value of the deferred tax asset is not able to be quantified with certainty. Therefore, no deferred tax assets have been recorded as we have not concluded that it is more likely than not that these deferred tax assets will be realizable.

Derivatives

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. Interest rate caps limit the Company's exposure to increasing interest payments when interest rates increase. During 2005, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. As of June 30, 2005, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations.

The Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

Reclassification

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation.

All of the newly acquired hotels above are leased to the TRS Lessee and managed by HHMLP.

Included in the acquisition of the Courtyard by Marriott in Brookline, MA, was a prepaid land lease for the underlying land with a remaining term of approximately 90 years. This prepaid land lease is classified as an intangible asset with a value of \$3,570. It is recorded in other assets on the consolidated balance sheet and is being amortized over the remaining life of the prepaid lease.

The following condensed pro forma financial is presented as if the acquisitions of the Fairfield Inn, Laurel, MD; the McIntosh Portfolio; and the Courtyard by Marriott, Brookline, MA had been consummated as of January 1, 2005. The Hampton Inn, New York, NY, acquired on April 1, 2005, had no operations prior to the acquisition date and is excluded from the pro forma financial information because it was an asset acquisition. The condensed pro forma information is not necessarily indicative of what actual results of operations of the Company would have been assuming the acquisitions had been consummated at the beginning of the respective periods presented, nor does it purport to represent the results of operations for future periods.

NOTE 3 NOTES RECEIVABLE

On September 26, 2002, in connection with the sale of the Clarion Suites, Philadelphia, PA, we provided financing in the amount of \$200 of which \$57 and \$103 were outstanding as of June 30, 2005 and December 31, 2004, respectively. The note is unsecured and bears interest at 12%. On July 1, 2005 this note was extended to December 31, 2005 with all other terms remaining unchanged. For the three and six months ended June 30, 2005, we recorded interest income of \$2 and \$4, respectively, which is included in Interest Income on the statement of operations. On May 13, 2005, in connection with the sale of the Doubletree Club, Jamaica, NY, we provided financing in the amount of \$1,700 to the buyer. The note receivable bears interest at a rate of 12% per annum and is due on April 30, 2006. Interest payments are due quarterly with repayment of the principal due upon maturity. The balance as of June 30, 2005 was \$1,662. Interest income in the amount of \$27 was recognized for the period ended June 30, 2005, and was included in Interest Income on the statement of operations.

NOTE 4 INVESTMENT IN UNCONSOLIDATED JOINT VENTURES

On August 29, 2003, HT/CNL Metro Hotels, LP purchased the Hampton Inn, (Manhattan) Chelsea, NY. We own a one-third equity interest in this joint venture partnership while CNL Hospitality Partners LP owns the remaining equity interests. HT/CNL Metro Hotels purchased this asset for \$28,000 plus settlement costs of approximately \$480 and leased it to Hersha CNL TRS, Inc., a TRS wholly owned by HT/CNL Metro Hotels. In conjunction with this transaction, HT/CNL Metro Hotels executed mortgage indebtedness of approximately \$15,400 payable to the Partnership and paid cash of approximately \$14,080. HT/CNL Metro Hotels repaid the entire amount of the indebtedness to the Partnership in July 2004.

On November 13, 2003, we purchased a 40% joint venture interest in PRA Glastonbury, LLC. The only asset owned by PRA Glastonbury, LLC is the Hilton Garden Inn, Glastonbury, CT. We purchased our joint venture interest in this asset for \$2,680 including settlement costs of approximately \$250 and leased the hotel assets to Hersha PRA TRS, Inc., a TRS wholly owned by PRA Glastonbury, LLC. PRA Glastonbury, LLC assumed mortgage indebtedness of approximately \$9,900.

On July 1, 2004, we purchased a 50% joint venture interest in Inn America Hospitality at Ewing, LLC. The only asset owned by this entity is the Courtyard by Marriott, Ewing-Hopewell, NJ. We purchased our joint venture

Mortgages and Notes Payable

The total mortgages payable balance at June 30, 2005 and December 31, 2004 was \$246,213 and \$110,819, respectively, and consisted of mortgages with fixed and variable interest rates ranging from 4.0% to 9.43%. Of our total mortgages payable balance at December 31, 2004, \$13,058, related to mortgages on assets held for sale. The properties related to these mortgages were sold during the second quarter of 2005 and the related mortgages were assumed by the buyer or paid off at closing. The maturities for the outstanding mortgages ranged from May 2007, to July, 2015. Aggregate interest expense incurred under the mortgages payable totaled \$2,409 and \$1,529 during the three months ended June 30, 2005 and 2004, respectively and \$4,366 and \$2,994 during the six months ended June 30, 2005 and 2004, respectively.

In the second quarter of 2005, HHLP issued two junior subordinated notes payable in the aggregate amount of \$51,548 to the Hersha Statutory Trusts pursuant to indenture agreements. The \$25,774 note issued to Hersha Statutory Trust I will mature on June 30, 2035, but may be redeemed at HHLP's option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The \$25,774 note issued to Hersha Statutory Trust II will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, beginning on July 30, 2010 in accordance with the provisions of the indenture agreement. The note issued to Hersha Statutory Trust I bears interest at a fixed rate of 7.34% per annum through June 30, 2010, and the note issued to Hersha Statutory Trust II bears interest at a fixed rate of 7.173% per annum through July 30, 2010. Subsequent to June 30, 2010 for notes issued to Hersha Statutory Trust I and July 30, 2010 for notes issued to Hersha Statutory Trust II, holders the notes bear interest at a variable rate of LIBOR plus 3.0% pre annum. Interest expense in amount of \$401 was recorded during the three and six months ended June 30, 2005.

Revolving Line of Credit

The Company has a revolving line of credit from Sovereign Bank (the Line of Credit) in the maximum amount of \$35,000 that matures August 31, 2007. Outstanding borrowings under the Line of Credit bear interest at the bank's prime rate (which at June 30, 2005, was 6.25%) and the Line of Credit is collateralized by the Holiday Inn Express and Suites, Harrisburg, PA, the Mainstay Suites and Sleep Inn, King of Prussia, PA and the Fairfield Inn, Laurel, MD. The Company maintained a Line of Credit balance of \$1,945 and \$1,027 at June 30, 2005 and December 31, 2004, respectively. The Company recorded interest expense of \$63 and \$30 during the three months ended June 30, 2005 and 2004, respectively, and \$81 and \$115 for the six months ended June 30, 2005 and 2004, respectively.

Unsecured Line of Credit

The Company has obtained an unsecured revolving line of credit from Commerce Bank (the Unsecured Line of Credit) in the maximum amount of \$5,000 as of March 24, 2005. Outstanding borrowings under the Unsecured Line of

Credit bear interest at the bank's prime rate (which at June 30, 2005, was 6.25%). The Unsecured Line of Credit is scheduled to expire on March, 24 2007. The Company had no outstanding borrowings under the Unsecured Line of Credit at June 30, 2005.

Capital Lease Payable

The Company assumed a \$500 capital lease obligation as part of its acquisition of the Holiday Inn Express, Hartford, CT in January 2004. The six year lease is secured by furniture, fixtures and equipment and the hotel property and is amortized over a six year period from the acquisition at a fixed rate of 7.75%.

NOTE 6 COMMITMENTS AND CONTINGENCIES AND RELATED PARTY TRANSACTIONS

We are the sole general partner in the Partnership, which is indirectly the sole general partner of the subsidiary partnerships. The Company does not anticipate any losses as a result of our obligations as general partner.

Percentage Leases

In June 2004 we entered into an agreement effective April 1, 2004 with HHMLP to terminate the eight remaining leases for the following properties:

- Holiday Inn Express, Long Island City, NY
- Doubletree Club, Jamaica, JFK Airport, NY
- Mainstay Suites, Frederick, MD
- Hampton Inn & Suites, Hershey, PA
- Hampton Inn, Danville, PA
- Holiday Inn Express & Suites, Harrisburg, PA
- Sleep Inn and Mainstay Suites, King of Prussia, PA

All of these properties are now subject to leases with 44 New England effective as of April 1, 2004 and will continue to be managed by HHMLP. As part of the lease termination, the original sellers of the properties, HHLP and HHMLP agreed to waive any and all purchase price adjustment in the original purchase agreements for each of the properties. There is no potential liability for any future repricings with any of our owned properties as of March 31, 2005. We entered into management agreements with HHMLP for each of these hotels, but did not pay any other consideration in connection with the lease terminations.

For the three month and six months ended June 30, 2005 we did not earn any fixed or percentage rents. We did not earn any fixed or percentage rents for the three months ended June 30, 2004. Fixed and percentage rents earned for the six months ended June 30, 2004 were \$1,222 and \$662, respectively.

Management Agreements

Beginning in April 2003, 44 New England engaged HHMLP as the property manager for hotels it leased from us pursuant to management agreements. Each management agreement provides for a five-year term and is subject to early termination upon the occurrence of defaults and certain other events described therein. As required under the REIT qualification rules, HHMLP must qualify as an eligible independent contractor during the term of the management agreements. Under the management agreements, HHMLP generally pays the operating expenses of our hotels. All operating expenses or other expenses incurred by HHMLP in performing its authorized duties are reimbursed or borne by the TRS Lessee to the extent the operating expenses or other expenses are incurred within the limits of the applicable approved hotel operating budget. HHMLP is not obligated to advance any of its own funds for operating expenses of a hotel or to incur any liability in connection with operating a hotel.

As of June 30, 2005, HHMLP managed all 31 hotels leased to the TRS Lessee, and we consolidated the financial statements of these 31 hotels in these financial statements. HHMLP also managed one consolidated joint venture

hotel property and three unconsolidated joint venture hotel properties in which we maintain an investment. For its services, HHMLP receives a base management fee, and if a hotel meets and exceeds certain thresholds, an additional incentive management fee. The base management fee for a hotel is due monthly and is equal to 3% of gross revenues associated with each hotel managed for the related month. The incentive management fee, if any, for a hotel is due annually in arrears on the ninetieth day following the end of each fiscal year and is based upon the financial performance of the hotel. For the three months ended June 30, 2005 and 2004, management fees incurred totaled \$880 and \$505, respectively. For the six months ended June 30, 2005 and 2004, management fees incurred totaled \$1,424 and \$655, respectively. In addition the Company incurred \$104 for the early termination of management contracts related to the sale of two hotels. These fees are recorded as Hotel Operating Expenses.

Administrative Services Agreement

We have executed an administrative services agreement with HHMLP to provide accounting and securities reporting services for the Company. The terms of the agreement provide for us to pay HHMLP an annual fee of \$10 per property (prorated from the time of acquisition) for each hotel in our portfolio. For the three months ended June 30, 2005 and 2004, the Company incurred administrative services fees of \$65 and \$62 respectively. For the six months ended June 30, 2005 and 2004, administrative services fees were \$130 and \$122, respectively. Administrative services fees are included in General and Administrative expenses.

Franchise Agreements

The hotel properties are operated under franchise agreements assumed by the hotel property lessee. The franchise agreements have 10 to 20 year terms but may be terminated by either the franchisee or franchisor on certain anniversary dates specified in the agreements. The franchise agreements require annual payments for franchise royalties, reservation, and advertising services, and such payments are based upon percentages of gross room revenue. These payments are paid by the lessees and charged to expenses as incurred. The initial fees incurred to enter into the franchise agreements are amortized over the life of the franchise agreements.

Acquisitions from Affiliates

We have acquired from entities owned or controlled by certain of our executive officers and our related party trustees newly-developed or newly-renovated hotels that do not have an operating history that would allow us to make purchase price decisions based on historical performance. In buying these hotels, we previously utilized, a re-pricing methodology that, in effect, adjusted the initial purchase price for the hotel, one or two years after we initially purchased the hotel, based on the actual operating performance of the hotel during the twelve months prior to the repricing. As part of our lease termination agreement with HHMLP, the original sellers of all of these properties, HHMLP and the Company have waived their respective rights to any and all purchase price adjustments for all properties.

In the future, we do not intend to use any re-pricing methodology in acquisitions from entities controlled by our officers and trustees.

We have entered into an option agreement with each of our officers and our related party trustees such that we obtain a first right of refusal to purchase any hotel owned or developed in the future by these individuals or entities controlled by them regardless of proximity to our hotels. This right of first refusal would apply to each party until one year after such party ceases to be an officer or trustee of our Company. Of the 31 hotel properties purchased by us since our initial public offering, 15 were acquired from affiliates, 14 of which were newly-constructed or substantially renovated. Our Acquisition Committee of the Board of Trustees is comprised solely of independent trustees, and the purchase prices and all material terms of the purchase of hotels from related parties are negotiated with the

Acquisition Committee. In addition, we have hired an independent accounting firm to provide our Board of Trustees with an Agreed Upon Procedures report for all acquisitions from and dispositions to related parties.

Hotel Supplies

For the six months ended June 30, 2005 and 2004, we incurred expenses of \$718 and \$640, respectively, for hotel supplies from Hersha Hotel Supply, an unconsolidated related party, which are expenses included in Hotel Operating Expenses. For the three months ended June 30, 2005 and 2004, we incurred expenses of \$478 and \$399 for hotel supplies from Hersha Hotel Supply. Approximately \$270 and \$4 is included in accounts payable at June 30, 2005 and December 31, 2004, respectively.

Advances to/from Affiliates

As of June 30, 2005 and December 31, 2004, amounts due from related parties totaled \$48,545 and \$27,129, respectively. We have approved mortgage lending to entities in which our executive officers and trustees own an interest to enable such entities to construct hotels and conduct related improvements on specific hotel projects at interest rates ranging from 8.0% to 10.0% (Development Line Funding). As of June 30, 2005 and December 31, 2004, our due from related party balance consisted of Development Line Funding of \$42,082 and \$22,750, respectively. The June 30, 2005 balance includes a \$13,850 development loan to Metro Ten Hotels, LLC. During 2005, Hasu P. Shah, our Chief Executive Officer, has purchased a 50% interest in Metro Ten Hotels, LLC, and as a result, this loan was reclassified from Notes Receivable where it was classified as of December 31, 2004. We also maintained interest bearing deposits of \$3,500 at December 31, 2004 related to a letters of intent for the acquisition of the Hampton Inn Herald Square, which we purchased on April 1, 2005. Interest income from these advances included in Interest Secured Loans Related Party, was \$1,743 and \$711 for the six months ended June 30, 2005 and 2004, respectively and \$743 and \$358 for the three months ended June 30, 2005 and 2004, respectively. The remainder of the due from related party balance as of June 30, 2005 and December 31, 2004 included approximately \$6,463 and \$879, respectively, of operating cash provided to HHMLP and other related operating entities and accrued interest income. As of June 30, 2005 our development loans to related parties consist of the following:

Land Leases

During 2003, in conjunction with the acquisition of the Hilton Garden Inn, Edison, NJ, we assumed a land lease from a third party with an original term of 75 years. Monthly payments as determined by the lease agreement are due through the expiration in August 2074. The land lease for the Hilton Garden Inn, Edison, NJ provides rent increases at scheduled intervals. We record rent expense on a straight-line basis over the life of the lease from the beginning of the lease term.

NOTE 6 COMMITMENTS AND CONTINGENCIES AND RELATED PARTY TRANSACTIONS
(Continued)

During 2004, in conjunction with the acquisition of the Holiday Inn Express, Hartford, CT, we assumed a land lease from a third party with an original term of 99 years. Monthly payments as determined by the lease agreement are due through the expiration in September 2101.

NOTE 7 DERIVATIVE INSTRUMENTS

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. During 2005, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. As of June 30, 2005, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations.

The Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

At June 30, 2005, derivatives with a fair value of \$232 were included as liabilities. The change in net unrealized gains/losses of \$100 in the six months ended June 30, 2005 for derivatives designated as cash flow hedges is separately disclosed on our Balance Sheet as Other Comprehensive Income. Hedge ineffectiveness of \$7 on cash flow hedges was recognized in general and administrative expense during 2005. This interest rate derivative matures in July 2009.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The change in net unrealized gains/losses on cash flow hedges reflects a reclassification of \$80 of net unrealized gains/losses from accumulated other comprehensive income to interest expense during the six months ended June 30, 2005. During 2005, the Company estimates that an additional \$41 will be reclassified.

NOTE 8 SHARE-BASED PAYMENTS

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123 (revised 2004),

Share-Based Payment, (SFAS 123R) which is a revision of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, (SFAS 123). SFAS No. 123R supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, (APB Opinion No. 25) and its related implementation guidance. SFAS No. 123R requires companies to record compensation expense for share-based payments to employees, including grants of employee stock options and stock awards, at fair value. Effective April 1, 2005, the Company has adopted SFAS 123R. No stock-based payments were outstanding at the time SFAS 123R was adopted. In 2004, the Company established the Hersha Hospitality Trust 2004 Equity Incentive Plan which provides for the grant of stock options, stock appreciation rights, stock awards, performance shares and incentive awards. The maximum number of shares of common stock that can be issued under this plan is 1.5 million shares. No share-based payments were granted under this plan during the year ended December 31, 2004.

On June 1, 2005, the Compensation Committee of the Board of Directors granted 71,000 restricted share awards to executives. The restricted share awards vest 25% each year over four years and compensation expense is recognized ratably over the four year vesting period based on the fair value of the shares on the date of grant. The fair value of the restricted share awards on the grant date was \$9.60 per share. Compensation expense of \$14 was incurred during the three and six months ended June 30, 2005 related to the restricted share awards. Unearned compensation of \$667 is recorded in equity.

NOTE 11 DISCONTINUED OPERATIONS

In 2004, our Board of Trustees authorized management of the Company to sell the Doubletree Club, Jamaica, NY and the Holiday Inn Express, Long Island City, NY which are classified as held for sale on the Company's Consolidated Balance Sheet as of December 31, 2004. The operating results for these hotels have been reclassified to discontinued operations in the statements of operations for the three and six months ended June 30, 2005 and 2004.

On May 13, 2005, we completed the disposition of the Doubletree Club, Jamaica, NY and the Holiday Inn Express, Long Island City, NY in a sale of the land, improvements and certain personal property to unaffiliated buyers for \$20,500, plus transaction costs. Assets sold had a net book value of \$18,806 and were classified as assets held for sale on the balance sheet. Debt related to assets held for sale of \$12,952 was assumed by the buyers. A note receivable for \$1,700 was received as part of the proceeds from the sale of the Doubletree Club. The notes

receivable bears interest at a rate of 12% per annum and is due on April 30, 2006. Interest payments are due quarterly with repayment of the principal due upon maturity. Gain on the sale of the two properties was \$1,323 of which \$162 was allocated to minority interest in HHLP.

We allocate interest expense to discontinued operations for debt that is to be assumed or that is required to be repaid as a result of the disposal transaction. For the three months ended June 30, 2005 and 2004, we allocated \$95 and \$152 of interest expense to discontinued operations. For the six months ended June 30, 2005 and 2004, interest expense allocated to the discontinued operations was \$290 and \$306, respectively.

The following table sets forth the components of discontinued operations for the three and six months ended June 30, 2005 and 2004:

NOTE 12 RECENT ACCOUNTING PRONOUNCEMENTS

Investor's Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner and the Limited Partners Have Certain Rights

In July of 2005, the Emerging Issues task Force (EITF) agreed on a framework for evaluating whether a general partner or a group of general partners controls a limited partnership and therefore should consolidate it. EITF Issue 04-5, Investor's Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner

and the Limited Partners Have Certain Rights (EITF 04-5), amends the guidance in AICPA Statement of Position No. 78-9, Accounting for Investments in Real Estate Ventures (SOP 78-9) and states that the presumption of general-partner control would be overcome only when the limited partners have either of two types of rights. The first type referred to as kick-out rights is the right to dissolve or liquidate the partnership or otherwise remove the general partner without cause. The second type referred to as participating rights is the right to effectively participate in significant decisions made in the ordinary course of the partnership's business. The kick-out rights and the participating rights must be substantive in order to overcome the presumption of general-partner control. EITF 04-5's guidance is effective immediately for all newly formed limited partnerships

and for existing limited partnership agreements that are modified. The guidance will be effective for existing limited-partnership agreements that are not modified no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The Company intends to adopt EITF 04-5 immediately for newly formed or modified partnerships and on January 1, 2006 for all existing partnerships. The Company does not expect the adoption of EITF 04-5 to have a material effect on its consolidated financial statements.

NOTE 13 SUBSEQUENT EVENTS

The quarterly dividend pertaining to the second quarter of 2005 was declared on May 27, 2005 and paid on July 15, 2005 at the rate of \$0.18 per share and limited partnership unit, which represents an annualized rate of \$0.72 per annum.

On January 6, 2005, we purchased land in Carlisle, PA for \$700 plus closing costs from a related party entity and leased the land to 44 Carlisle Associates, L.P., a related party. In July 2005, 44 Carlisle Associates, L.P. exercised their option to purchase the land from us. The purchase price consisted of \$700 for the land plus all fees and expenses. On February 18, 2005, we purchased land at the Bradley International Airport, Windsor Locks, CT for \$1,000 plus closing costs and leased the land to 44 Windsor Locks Associates, LLC, a related party. In addition to the purchase price, the terms of the lease required 44 Windsor Locks Associates, LLC to post a \$350 deposit which is included on the Balance Sheet in Due to Related Parties. In July 2005, 44 Windsor Locks Associates, LLC exercised their option to purchase the land from us. The purchase price consisted of \$1,000 for the land plus all fees and expenses, and the \$350 deposit was returned.

In June, 2005, the Company entered into an agreement to form a joint venture with Waterford Hospitality Group, LLC by creating a newly formed company, named Mystic Partners, LLC. Mystic Partners, LLC plans to acquire a portfolio consisting of nine Marriott and Hilton-branded hotels with 1,707 rooms in Connecticut and Rhode Island and an aggregate value of approximately \$250 million. Under the terms of the transaction, the Company will acquire a 66.7 percent preferred equity interest in the seven stabilized properties in the portfolio and a 50 percent preferred equity interest in the two newly developed properties in the portfolio. This joint venture plans to incur approximately \$160 million of debt on the individual hotels owned by the venture. The closing of the transaction is subject to certain conditions, including but not limited to the procurement of new franchise agreements (or satisfactory commitments) for each hotel; completion of the contemplated debt financings for the respective properties; and other customary conditions.

On July 1, 2005, the Company acquired a 50% interest in Hiren Boston LLC, which owns and operates the 164-room Courtyard by Marriott in South Boston, Massachusetts. The acquisition includes a 4,000-square-foot restaurant that will be leased to a national restaurant chain. Jiten Management will manage the property.

On July 1, 2005, the Company acquired an interest rate cap with a notional amount of \$34,230 to hedge against the variability in cash flows on a variable interest rate debt instrument. The principal of the variable interest rate debt being hedged equals the notional amount of the interest rate cap. The interest rate cap effectively fixes interest payments when LIBOR exceeds 5.0%.

On August 5, 2005, the Company completed a public offering of 2.4 million of its 8.00% Series A Cumulative Redeemable Preferred Shares of Beneficial Interest, liquidation preference \$25.00 per share. Net proceeds of the offering, less expenses and underwriters commissions, were approximately \$57,935.

All statements contained in this section that are not historical facts are based on current expectations. Words such as believes, expects, anticipates, intends, plans and estimates and variations of such words and similar words also identify forward-looking statements. Our actual results may differ materially, including the following: economic conditions generally and the real estate market specifically; the effect of threats of terrorism and increased security precautions on travel patterns and demand for hotels; the threatened or actual outbreak of hostilities and international political instability; governmental actions; legislative/regulatory changes, including changes to laws governing the taxation of REITs; level of proceeds from asset sales; cash available for capital expenditures; availability of capital; ability to refinance debt; rising interest rates; rising insurance premiums; competition; supply and demand for hotel rooms in our current and proposed market areas, including the existing and continuing weakness in business travel and lower-than expected daily room rates; other factors that may influence the travel industry, including health, safety and economic factors; and changes in generally accepted accounting principles, policies and guidelines applicable to REITs. Additional risks are discussed in the company's filings with the Securities and Exchange Commission. We caution you not to place undue reliance on any such forward-looking statements. We assume no obligation to update any forward-looking statements as a result of new information, subsequent events or any other circumstances.

General

As of June 30, 2005, we owned interests in 35 hotels in the eastern United States including four hotels owned through joint ventures. For purposes of the REIT qualification rules, we cannot directly operate any of our hotels. Instead, we must lease our hotels. In 2001, the REIT rules were modified, allowing a hotel REIT to lease its hotels to a taxable REIT subsidiary, or TRS, provided that the TRS engages an eligible independent contractor to manage the hotels. Accordingly, as of June 30, 2005, we have leased 31 of our hotels to a wholly-owned TRS, which will pay qualifying rent, and the TRS has entered into management contracts with HHMLP with respect to those hotels. We intend to lease all newly acquired hotels to a TRS. As of June 30, 2005, we also owned interests in four hotels through joint ventures, and those hotels are leased to TRSs that are wholly owned by those joint ventures. The hotels owned by the joint ventures are managed by HHMLP pursuant to the terms of certain management agreements.

As all of our hotels have been leased to the TRS Lessee or a joint venture TRS, we are participating more directly in the operating performance of our hotels. Rather than receiving base and percentage lease payments from HHMLP as we did prior to April 1, 2004, the TRS will directly receive all revenue from, and be required to fund all expenses relating to, hotel operations. The TRS will also be subject to income tax on its earnings.

Operating Results

The following table outlines operating results for the Company's full portfolio, including all wholly owned hotels and those owned through a joint venture interest, for the three and six months ended June 30, 2005 and 2004.

Comparison of the three month period ended June 30, 2005 to June 30, 2004.**Revenue**

Our total revenues for the three month period ended June 30, 2005 consisted substantially of hotel operating revenues for hotels leased to our wholly owned TRS, 44 New England. Our total revenues were approximately

\$21,071 representing an increase of \$7,478 or 55.0% compared to total revenues of \$13,593 for the three month period ended June 30, 2004. The increase in revenues is primarily attributable to the acquisitions consummated since the comparable period in 2004 and improved performance at certain of our hotels.

Since June 30, 2004, the Company has acquired nine hotels and one unconsolidated joint venture interest and has disposed of two properties. Revenues for all nine hotels were recorded from the date of acquisition as Hotel Operating Revenues. Further, the second quarter of 2005 included revenues for a full quarter related to one hotel that was purchased in May 2004. The income from our unconsolidated joint ventures are accounted for utilizing the equity method of accounting, and our portion of the net income from these three joint ventures is recorded as Income from Unconsolidated Joint Venture Investments in our Statement of Operations.

Interest and other revenue increased to approximately \$1,105 during the three month period ended June 30, 2005 from \$555 in 2004. The Company recorded interest revenue of \$911 on its secured development loans during the three month period ended June 30, 2005. Additionally, the Company earned interest on short term investments and escrow accounts of \$64 and had other revenue of \$130 during the period.

Expenses

Total operating expenses increased to approximately \$16,691 for the three month period ended June 30, 2005 from \$11,477 for the three month period ended June 30, 2004.

Hotel operating expenses increased primarily due to the acquisitions consummated since the comparable period in 2004 as mentioned above.

Depreciation and amortization increased from approximately \$1,719 in 2004 to \$2,410 in 2005, an increase of \$691 due to additional depreciation expense incurred for the properties acquired since the comparable period in 2004.

Interest expense increased approximately \$1,505 from \$1,377 in 2004 to \$2,882 in 2005. The increase is related to indebtedness for the properties acquired since the comparable period in 2004.

General and administrative expense increased by approximately \$467 from \$680 in 2004 to \$1,147 in 2005. General and administrative expenses increased primarily due to higher compensation expense, increased audit and legal expenses incurred during the period and costs associated with compliance work related to the Sarbanes-Oxley Act.

Net Income

Net Income for the three month period ending June 30, 2005 was approximately \$3,755 compared to Net Income of \$1,447 for the same period in 2004. Net income includes \$1,161 gain, net of gain allocated to minority interest, from the sale of two hotel properties included in hotel assets held for sale. Net income also includes \$111 of income from discontinued operations from the two hotel properties that were sold. In addition to the income from discontinued operations, net income was positively impacted due to our asset acquisitions and improved performance at certain of our hotels.

Comparison of the six month period ended June 30, 2005 to June 30, 2004.

Revenue

Our total revenues for the six month period ended June 30, 2005 consisted substantially of hotel operating revenues for hotels leased to our wholly owned TRS, 44 New England. Our total revenues were approximately \$33,871 representing an increase of \$13,616 or 67.2% compared to total revenues of \$20,255 for the six month period ended June 30, 2004. The increase in revenues is primarily attributable to the acquisitions consummated since the comparable period in 2004 and improved performance at certain of our hotels and a full six months of hotel operations revenue. Under the TRS structure

we recognize gross hotel operating revenues and gross hotel operating expenses for hotels leased to 44 New England. Under the percentage lease structure in place for a portion of the comparable period we previously recorded only percentage lease revenues that are calculated as a percentage of a hotel's revenues per the lease agreements.

Since June 30, 2004, the Company has acquired nine hotels and one unconsolidated joint venture interest and has disposed of two properties. Revenue for all nine hotels were recorded from the date of acquisition as Hotel Operating Revenues. Further, the second quarter of 2005 included revenues for a full quarter related to one hotel that was purchased in May 2004. The income from our unconsolidated joint ventures are accounted for utilizing the equity method of accounting, and our portion of the net income from these three joint ventures is recorded as Income from Unconsolidated Joint Venture Investments in our Statement of Operations.

Hotel operating revenues also increased as hotels previously leased to HHMLP through percentage leases were converted to a TRS structure and were subsequently leased to 44 New England. As of April 1, 2004, all of our owned hotels were leased to 44 New England, and all of our hotels owned in a joint venture were leased to a TRS owned by the joint venture.

Percentage lease revenue decreased from approximately \$1,192 during the period ended June 30, 2004 to \$0 in 2005. This decrease is due to the transfer of all of our existing leases with HHMLP to a TRS structure as of April 1, 2004, as mentioned above.

Interest and other revenue increased to approximately \$2,170 during the six month period ended June 30, 2005 from \$1,140 in 2004. The Company recorded interest revenue of \$1,911 on its secured development loans during the six month period ended June 30, 2005. Additionally, the Company earned interest on short term investments and escrow accounts of \$101 and had other revenue of \$158 during the period.

Expenses

Total operating expenses increased to approximately \$29,986 for the six month period ended June 30, 2005 from \$18,359 for the six month period ended June 30, 2004.

Hotel operating expenses increased due to the acquisitions consummated since the comparable period in 2004 as mentioned above and the direct recognition of hotel operating expenses for hotels leased to 44 New England. Under the TRS structure we recognize gross hotel operating revenues and gross hotel operating expenses for hotels leased to 44 New England. In addition, we recorded expenses for four acquisitions from the date of acquisition.

Depreciation and amortization increased from approximately \$3,149 in 2004 to \$4,373 in 2005, an increase of \$1,224, due to additional depreciation expense incurred for the properties acquired since the comparable period in 2004.

Interest expense increased approximately \$2,068 from \$2,688 in 2004 to \$4,756 in 2005. The increase is related to indebtedness for the properties acquired since the comparable period in 2004.

Real estate and personal property taxes and insurance increased by approximately \$164 from \$1,663 in 2004 to \$1,827 in 2005. The increase is primarily related to additional property taxes incurred at our hotels acquired since March 31, 2004.

General and administrative expense increased by approximately \$964 from \$1,174 in 2004 to \$2,138 in 2004. General and administrative expenses increased primarily due to higher compensation expense, increased audit and legal expenses incurred during the period and costs associated with compliance work related to the Sarbanes-Oxley Act.

Net Income

Net Income for the six month period ending June 30, 2005 was approximately \$2,779 compared to Net Income of \$578 for the same period in 2004. Net income includes \$1,161 gain, net of gain allocated to minority interests, from the sale of two hotel properties included in hotel assets held for sale. Net income also included \$131 of income from discontinued operations from the two hotel properties that were sold. In addition to the income from discontinued operations, net income was positively impacted due to our asset acquisitions and improved performance at certain of our hotels.

Liquidity and Capital Resources

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our line of credit. We believe that the net cash provided by operations will be adequate to fund the Company's operating requirements, debt service and the payment of dividends in accordance with REIT requirements of the federal income tax laws. We expect to meet our long-term liquidity requirements, such as scheduled debt maturities and property acquisitions, through long-term secured and unsecured borrowings, the issuance of additional equity securities or, in connection with acquisitions of hotel properties, the issuance of units of operating partnership interest in our operating partnership subsidiary. On September 24, 2004, we completed a public offering of 3,500,000 common shares at \$9.37 per share. On September 30, 2004, the underwriter exercised its over-allotment option with respect to this offering, and we issued an additional 400,000 common shares at \$9.37 per share. Proceeds to the Company, net of underwriting discounts and commissions and expenses, were approximately \$36,317. Immediately upon closing the offering, the Company contributed all of the net proceeds of the offering to the Partnership in exchange for additional Partnership interests. Of the net offering proceeds, approximately \$5,000 was used to repay indebtedness. The remaining net proceeds have been principally allocated to fund secured development loans, acquisitions and for general corporate purposes. In the second quarter of 2005, HHLP issued two junior subordinated notes payable in the aggregate amount of \$51,548 to the Hersha Statutory Trusts, pursuant to indenture agreements. The \$25,774 note issued to Hersha Statutory Trust I will mature on June 30, 2035, but may be redeemed at HHLP's option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The \$25,774 note issued to Hersha Statutory Trust II will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, beginning on July 30, 2010 in accordance with the provisions of the indenture agreement. The note issued to Hersha Statutory Trust I bears interest at a fixed rate of 7.34% per annum through June 30, 2010 and the note issued to Hersha Statutory Trust II bears interest at a fixed rate of 7.173% per annum through July 30, 2010. Subsequent to June 30, 2010 for notes issued to Hersha Statutory Trust I and July 30, 2010 for notes issued to Hersha Statutory Trust II, holders the notes bear interest at a variable rate of LIBOR plus 3.0% pre annum. Interest expense in amount of \$401 was recorded for the period ended June 30, 2005. Our cash and cash equivalents balance of \$8,058 at June 30, 2005, was primarily due to the unused proceeds from the issuance of these junior subordinated notes.

We currently maintain a \$35,000 line of credit with Sovereign Bank. We may use the line of credit to fund future acquisitions and for working capital. Outstanding borrowings under the line of credit bear interest at the bank's prime rate and are collateralized by certain of our properties. In the future, we may seek to increase the amount of the line of credit, negotiate additional credit facilities or issue corporate debt instruments. Any debt incurred or issued by us may be secured or unsecured, long-term or short-term, fixed or variable interest rate and may be subject to such other terms as we deem prudent. As of June 30, 2005, we maintained an outstanding balance on our Line of Credit of \$1,945 and the interest rate on the line of credit was 6.25%.

We intend to repay indebtedness incurred under the line of credit from time to time, for acquisitions or otherwise, out of cash flow and from the proceeds of issuances of additional common shares and other securities.

We intend to invest in additional hotels only as suitable opportunities arise and adequate sources of financing are available. Our bylaws require the approval of a majority of our Board of Trustees, including a majority of the independent trustees, to acquire any additional hotel in which one of our trustees or officers, or any of their affiliates, has an interest (other than solely as a result of his status as our trustee, officer or shareholder). We expect that future investments in hotels will depend on and will be financed by, in whole or in part, our existing

cash, the proceeds from additional issuances of common shares, issuances of operating partnership units or other securities or borrowings.

We make available to the TRS of our hotels 4% (6% for full service properties) of gross revenues per quarter, on a cumulative basis, for periodic replacement or refurbishment of furniture, fixtures and equipment at each of our hotels. We believe that a 4% (6% for full service hotels) reserve is a prudent estimate for future capital expenditure requirements. We intend to spend amounts in excess of the obligated amounts if necessary to comply with the reasonable requirements of any franchise license under which any of our hotels operate and otherwise to the extent we deem such expenditures to be in our best interests. We are also obligated to fund the cost of certain capital improvements to our hotels. We will use undistributed cash or borrowings under credit facilities to pay for the cost of capital improvements and any furniture, fixture and equipment requirements in excess of the set aside referenced above.

Cash Flow Analysis

Net cash provided by operating activities for the six month period ended June 30, 2004 was \$5,052 and \$6,573, respectively. The decrease in net cash provided by operating activities was primarily the result of an increase escrow and lease deposits and an increase in other assets in the six months ended June 30, 2005. This was offset by an increase in net income, net of the gain on disposition of hotel assets held for sale, and an increase in depreciation expense.

Net cash used in investing activities for the six months ended June 30, 2005 and 2004 increased \$120,076, from \$36,576 in the six months ended June 30, 2004 compared to \$156,652 for the six months ended June 30, 2004. Net cash used for the purchase of hotel properties increased \$111,201 in the six months ended June 30, 2005 over the same period in 2004. Also, cash used to invest in development loans to related parties increased \$17,032 and cash used for deposits on purchase of hotels increased \$6,700 in the six months ended June 30, 2005 over the same period in 2004. These uses of cash were offset by cash provided by the disposition of hotel assets held for sale of \$5,570 received during the six months ended June 30, 2005.

Net cash provided by financing activities for the six months ended June 30, 2005 was \$138,594 compared to cash provided by financing activities of \$8,788 for the six month period ended June 30, 2004. This was primarily the result of an increase of \$95,028 in proceeds from mortgages related to hotels acquired during the six months ended June 30, 2005 over the same period in 2004. Also, cash proceeds of \$51,448 were received during the six months ended June 30, 2005 from the issuance of junior subordinated notes.

Funds From Operations

The National Association of Real Estate Investment Trusts (NAREIT) developed Funds From Operations (FFO) as a relative non-GAAP financial measure of performance and liquidity of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO as defined by NAREIT is net income (loss) (computed in accordance with GAAP) excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated assets, plus certain non-cash items, such as depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

FFO does not represent cash flows from operating activities in accordance with GAAP and should not be considered an alternative to net income as an indication of Hersha's performance or to cash flow as a measure of liquidity or ability to make distributions. We consider FFO to be meaningful, additional measures of operating performance because they excludes the effects of the assumption that the value of real estate assets diminishes predictably over time, and because they are widely used by industry analysts as a performance measure. Comparison of our presentation of FFO to similarly titled measures for other REITs is not necessarily meaningful due to the differences in the calculations used by us and other REITs.

The following table reconciles FFO for the periods presented to the most directly comparable GAAP measure, net income, for the same periods.

(in thousands, except per share data)

	Three Months Ending		Six Months Ending	
	06/30/05	06/30/04	06/30/05	06/30/04
Net Income applicable to common shares	\$ 3,755	\$ 1,447	\$ 2,779	\$ 578
Less: Gain on sale of assets	(1,161)		(1,161)	
Add:				
Depreciation and amortization	2,410	1,719	4,373	3,149
Adjustments for Unconsolidated Joint Ventures	259	162	516	322
Funds from Operation	\$ 5,263	\$ 3,328	\$ 6,507	\$ 4,049

FFO was \$5,263 for the three month period ended June 30, 2005, which was an increase of \$1,935, over FFO in the comparable period in 2004, which was \$3,328. FFO was \$6,507 for the six month period ended June 30, 2005, which was an increase of \$2,458, over FFO in the comparable period in 2004, which was \$4,049. The increase in FFO was primarily a result of a strengthened economy; the benefits of asset acquisitions since June 30, 2004; the conversion of fixed and percentage leases with HHMLP to leases with the TRS Lessee since April 1, 2004; continued stabilization and maturation of the existing portfolio; an increase in business travel and continued attention to the average daily rate. Under the REIT Modernization Act (RMA), which became effective January 1, 2001, the Company is permitted to lease hotels to a wholly owned taxable REIT subsidiary (TRS) and may continue to qualify as a REIT provided the TRS enters into management agreements with an eligible independent contractor who will manage the hotels leased by the TRS. The Company formed the TRS Lessee in 2003. As of June 30, 2005, the TRS leased 31 properties from the Partnership, and is subject to taxation as a c-corporation. During 2004, all of our fixed and percentage leases have either expired or been terminated, and the Company now records the hotel operating revenues and expenses directly on its books.

FFO was negatively impacted by start up costs at hotels that were recently acquired and are still in the ramp up or stabilization phase. FFO was also negatively impacted by increases in our general and administrative expenses during the period ended June 30, 2005 as a result of additional compensation, legal and accounting expenses incurred during the period.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

On an on-going basis, all estimates are evaluated by us, including those related to carrying value of investments in hotel properties. All estimates are based upon historical experience and on various other assumptions we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

Revenue Recognition

We directly recognize revenue and expense for all hotels leased through 44 New England as Hotel Operating Revenue and Hotel Operating Expense when earned and incurred.

Stock Compensation

We apply SFAS 123, Accounting for Stock-Based Compensation, and SFAS 123R, Share-Based Payments whereby we measure the cost of employee service received in exchange for an award of equity instruments based on the grant date fair value of the award. The cost is recognized over the period during which an employee is required to provide service in exchange for the award. We granted 71,000 shares of Stock Awards in the second quarter of 2005, at fair value of \$9.60 per share vesting over four years. This resulted in \$14 in compensation expense for the three and six month periods ended June 30, 2005. There were no options issued during the six month period ending June 30, 2005 or 2004.

Allowance for Doubtful Accounts

Accounts receivable are charged to bad debt expense when they are determined to be uncollectible based upon a periodic review of the accounts by management. Accounting principles generally accepted in the United States of America require that the allowance method be used to recognize bad debts.

Derivatives

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. During 2005, the derivative was used to hedge the variable cash flows associated with existing variable-rate debt. As of June 30, 2005, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations.

The Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

Impairment of Long-Lived Assets.

We review the carrying value of each hotel property in accordance with Statement of Financial Accounting Standards (SFAS) No. 144 to determine if circumstances exist indicating an impairment in the carrying value of the investment in the hotel property or if depreciation periods should be modified. Long-lived assets are reviewed for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. We perform undiscounted cash flow analyses to determine if an impairment exists. If an impairment is determined to exist, any related impairment loss is calculated based on fair value. Hotel properties held for sale are presented at the lower of carrying amount or fair value less cost to sell.

We would record an impairment charge if we believe an investment in hotel property has been impaired such that future undiscounted cash flows would not recover the book basis of the investment in the hotel property. Future adverse changes in market conditions or poor operating results of underlying investments could result in losses or an inability to recover the carrying value of the investments that may not be reflected in an investment's carrying value, thereby possibly requiring an impairment charge in the future.

Impact of FIN 46

The Financial Accounting Standards Board issued FASB Interpretation No. 46, (FIN 46) Consolidation of Variable Interest Entities (VIE's), an interpretation of Accounting Research Bulletin No. 51 (ARB No. 51), in January 2003 and a further interpretation of FIN 46 in December 2003 (FIN 46-R and FIN 46, collectively FIN 46). FIN 46 addresses how a business enterprise should evaluate whether it has a controlling financial interest in any variable interest entity (VIE) through means other than voting rights, and accordingly, should include the VIE in its consolidated financial statements. We have adopted FIN 46 effective as of March 31, 2004.

During the second quarter of 2005, we formed Hersha Statutory Trust I and Hersha Statutory Trust II, Delaware statutory trusts (collectively, the Hersha Statutory Trusts), to collectively issue \$50,000 of trust preferred securities in private placements. We acquired, for \$1,548, residual interests (common securities) in the Hersha Statutory Trusts. Preferred equity securities of \$25,000 issued by Hersha Statutory Trust I will mature on June 30, 2035 and the remaining \$25,000 preferred equity securities issued by Hersha Statutory Trust II will mature on July 30, 2035 at par. The preferred equity securities issued by Hersha Statutory Trust I and Hersha Statutory Trust II may be redeemed by the trusts beginning on June 30, 2010 and July 30, 2010, respectively. The holders of both the preferred equity and common securities will receive quarterly distributions from the Hersha Statutory Trusts, at a fixed rate of 7.34% per annum through June 30, 2010 for Hersha Statutory Trust I and 7.173% per annum through July 30, 2010 for Hersha Statutory Trust II. Subsequent to June 30, 2010 for Hersha Statutory Trust I and July 30, 2010 for Hersha Statutory Trust II, holders of the trusts preferred equity and common securities will receive quarterly distributions at a variable rate of LIBOR plus 3.0% pre annum.

The Hersha Statutory Trusts used the proceeds from the issuance of the preferred and common securities to acquire \$51,548 of junior subordinated notes from HHLP pursuant to indenture agreements. The note acquired by Hersha Statutory Trust I will mature on June 30, 2035, but may be redeemed at our option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The note acquired by Hersha Statutory Trust II will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, beginning on July 30, 2010 in accordance with the provisions of the indenture agreement. The note acquired by Hersha Statutory Trust I bears interest at a fixed rate of 7.34% per annum through June 30, 2010 and the note acquired by Hersha Statutory Trust II bears interest at a fixed rate of 7.173% per annum through July 30, 2010. Subsequent to June 30, 2010 for Hersha Statutory Trust I and July 30, 2010 for Hersha Statutory Trust II, holders the notes bear interest at a variable rate of LIBOR plus 3.0% per annum.

The Hersha Statutory Trusts are variable interest entities under FIN 46, because the equity holders at risk hold no substantial decision-making rights. The Company's investment is financed directly by HHLP and therefore it is not considered at risk. Because HHLP is not the primary beneficiary in the Hersha Statutory Trusts, the accounts of the trusts are not consolidated with and into HHLP. HHLP's investment in the Hersha Statutory Trusts is accounted for using the equity method of accounting and is presented on our consolidated balance sheet as an other asset.

The proceeds received by HHLP in exchange for the notes were used to fund acquisitions of hotel properties, pay down outstanding borrowings under our revolving credit facility and for general corporate purposes. The notes are presented on our consolidated balance sheet in Mortgages and Notes Payable.

In addition to our relationship with the Hersha Statutory Trusts, our investments and contractual relationships with the following entities have been evaluated to determine whether they meet the guidelines of consolidation in accordance with FIN 46: HHMLP; Logan Hospitality Associates, LLC; HT/CNL Metro Hotels, LP; PRA Glastonbury, LLC; Inn America Hospitality at Ewing, LLC; HPS Seaport LLC & BCM, LLC; 44 Fifth Avenue, LLC; 5444 Associates, LP; Brisam Hotel, LLC; Metro Ten Hotels, LLC; 44 Windsor Locks Hospitality, LLC; 44 Carlisle Associates, LP; PRA Suites at Glastonbury, LLC; and 44 Hersha Norwich Associates, LLC. Our examination consisted of reviewing the sufficiency of equity at risk, controlling financial interests, voting rights, obligation to absorb expected losses and expected gains, including residual returns. Based on our examination, none of these entities was determined to be a variable interest entity.

We will continue to evaluate each of our investments and contractual relationships to determine if consolidation is required based upon the provisions of FIN 46.

Inflation

Operators of hotels in general possess the ability to adjust room rates. However, competitive pressures may limit the Lessee's ability to raise room rates in the face of inflation, and annual increases in average daily rates have failed to keep pace with inflation.

Seasonality

Our hotels operations historically have been seasonal in nature, reflecting higher occupancy rates during the second and third quarters. This seasonality can be expected to cause fluctuations in our hotel operating revenues earned and cash flows received from operations.

Subsequent Events

The quarterly dividend pertaining to the second quarter of 2005 was declared on May 27, 2005 and paid on July 15, 2005 at the rate of \$0.18 per share and limited partnership unit, which represents an annualized rate of \$0.72 per annum.

On July 1, 2005, the Company acquired a 50% interest in Hiren Boston LLC, which owns and operates the 164-room Courtyard by Marriott in South Boston, Massachusetts. The acquisition includes a 4,000-square-foot restaurant that will be leased to a national restaurant chain. Jiten Management will manage the property.

On January 6, 2005, we purchased land in Carlisle, PA for \$700 plus closing costs from a related party entity and leased the land to 44 Carlisle Associates, L.P., a related party. In July 2005, 44 Carlisle Associates, L.P. exercised their option to purchase the land from us. This purchase price consisted of \$700 for the land plus all fees and expenses.

On February 18, 2005, we purchased land at the Bradley International Airport, Windsor Locks, CT for \$1,000 plus closing costs and leased the land to 44 Windsor Locks Associates, LLC, a related party. In addition to the purchase price, the terms of the lease required 44 Windsor Locks Associates, LLC to post a \$350 deposit which is included on the Balance Sheet in Due to Related Parties. In July 2005, 44 Windsor Locks Associates, LLC exercised their option to purchase the land from us. This purchase price consisted of \$1,000 for the land plus all fees and expenses, and the \$350 deposit was returned.

In June, 2005, the Company entered into a joint venture with Waterford Hospitality Group, LLC to create a newly formed company, named Mystic Partners, LLC. Mystic Partners, LLC, plans to acquire a portfolio consisting of nine Marriott and Hilton-branded hotels with 1,707 rooms in Connecticut and Rhode Island and an aggregate value of approximately \$250 million. Under the terms of the transaction, the Company will acquire a 66.7 percent preferred equity interest in the seven stabilized properties in the portfolio and a 50 percent preferred equity interest in the two newly developed properties in the portfolio. This joint venture plans to incur approximately \$160 million of debt on the individual hotels owned by the venture. The closing of the transaction is subject to certain conditions, including but not limited to the procurement of new franchise agreements (or satisfactory commitments) for each hotel; completion of the contemplated debt financings for the respective properties; and other customary conditions.

On July 1, 2005, the Company acquired an interest rate cap with a notional amount of \$34,230 to hedge against the variability in cash flows on a variable interest rate debt instrument. The principal of the variable interest rate debt being hedged equals the notional amount of the interest rate cap. The interest rate cap effectively fixes interest payments when LIBOR exceeds 5.0%.

On August 5, 2005, the Company completed a public offering of 2.4 million of its 8.00% Series A Cumulative Redeemable Preferred Shares of Beneficial Interest, liquidation preference \$25.00 per share. Net proceeds of the offering, less expenses and underwriters commissions, were approximately \$57,935.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our primary market risk exposure is to changes in interest rates on our variable rate Line of Credit and other floating rate debt. At June 30, 2005, we maintained a balance of \$1,945,000 under our Line of Credit. The total floating rate mortgages payable of \$69,768,820 had a current weighted average interest rate of 6.34%. The total fixed rate mortgages payable of \$176,443,904 had a current weighted average interest rate of 6.84%. The carrying value of all of our fixed rate debt approximates fair value.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates for a portion of our borrowings through the use of fixed rate debt instruments to the extent that

reasonably favorable rates are obtainable with such arrangements. We may enter into derivative financial instruments such as interest rate swaps or caps and treasury options or locks to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. Currently, we have one interest rate swap related to debt on the Four Points by Sheraton, Revere. We do not intend to enter into derivative or interest rate transactions for speculative purposes.

Approximately 71.7% of our outstanding mortgages payable are subject to fixed rates, including the debt whose rate is fixed through a derivative instrument, while approximately 28.3% of our outstanding mortgages payable are subject to floating rates. The total weighted average interest rate on our debt and Line of Credit as of June 30, 2005 was approximately 6.70%. If the interest rate for our Line of Credit and other variable rate debt was 100 basis points higher or lower during the period ended June 30, 2005, our interest expense for the three month and six month period ended June 30, 2005 would have been increased or decreased by approximately \$167 and \$227, respectively.

We regularly review interest rate exposure on our outstanding borrowings in an effort to minimize the risk of interest rate fluctuations. For debt obligations outstanding at June 30, 2005, the following table presents expected principal repayments and related weighted average interest rates by expected maturity dates (in thousands):

	2005	2006	2007	2008	2009	Thereafter	Total
Fixed Rate Debt	\$ 1,074	\$ 1,773	\$ 4,494	\$ 18,833	\$ 13,983	\$ 136,286	\$ 176,444
Average Interest Rate	6.79%	6.79%	6.75%	6.80%	6.83%	6.83%	6.80%
Floating Rate Debt	\$ 229	\$ 640	\$ 761	\$ 35,029	\$ 840	\$ 32,271	\$ 69,769
Average Interest Rate	6.16%	6.17%	6.17%	6.08%	6.08%	6.08%	6.12%

The table incorporates only those exposures that existed as of June 30, 2005 and does not consider exposure or positions that could arise after that date. As a result, our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the future period, prevailing interest rates, and our hedging strategies at that time.

At June 30, 2005, derivatives with a fair value of \$231,853 were included as liabilities. The change in net unrealized gains for the three month and six month periods ending June 30, 2005 for derivatives designated as cash flow hedges was approximately \$3,000 and \$7,000, respectively, and is separately disclosed in the statement of operations. This interest rate derivative matures in July 2009.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

The Company's management, under the supervision of and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective and reasonably designed to ensure that all material information relating to the Company required to be included in the Company's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

Changes in Internal Control Over Financial Reporting

In response to the material weaknesses described in the Company's Annual Report of Form 10-K/A filed on May 2, 2004, subsequent to December 31, 2004, the Company has taken, and intends to take further, remedial measures in response to these identified material weaknesses. To date, those remedial measures include the following:

The Company has hired additional qualified accounting personnel with experience in applying U.S. GAAP, including a Chief Accounting Officer whose responsibilities were previously performed by the Chief Financial Officer and Treasurer.

The establishment of additional procedures to more thoroughly prepare and review its financial statements prior to release of financial information.

The Company has changed third party payroll service providers, and the new provider is able to provide a report known as a Type II SAS 70 Report, which evaluates and tests design and operating effectiveness of certain internal controls allowing management to better evaluate the controls over the payroll process.

The Company is taking steps to better inform and train hotel level accounting employees of its management company regarding the internal control activities associated with revenue accounting.

The Company has hired a nationally recognized accounting firm to assist us with implementing and monitoring these remedial actions and to assess their sufficiency and the need for any additional remedial actions.

The Company installed a new accounting information system to process accounting information for its hotel properties.
