PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Business:

Portfolio Recovery Associates, LLC (PRA) was formed on March 20, 1996. Portfolio Recovery Associates, Inc. (PRA Inc) was formed in August 2002. On November 8, 2002, PRA Inc completed its initial public offering (IPO) of common stock. As a result, all of the membership units and warrants of PRA were exchanged on a one to one basis for warrants and shares of a single class of common stock of PRA Inc. PRA Inc owns all outstanding membership units of PRA, PRA Holding I, LLC (PRA Holding I), PRA Holding II, LLC (PRA Holding II), PRA Receivables Management, LLC (which formerly d/b/a Anchor Receivables Management) (Anchor), PRA Location Services, LLC (d/b/a IGS Nevada) (IGS), PRA Government Services, LLC (d/b/a Alatax and RDS) (RDS) and MuniServices, LLC (MuniServices). PRA Inc, a Delaware corporation, and its subsidiaries (collectively, the Company) are full-service providers of outsourced receivables management and related services. The Company is engaged in the business of purchasing, managing and collecting portfolios of defaulted consumer receivables, as well as offering a broad range of accounts receivable management services. The majority of the Company s business activities involve the purchase, management and collection of defaulted consumer receivables. These are purchased from sellers of finance receivables and collected by a highly skilled staff whose purpose is to locate and contact customers and arrange payment or resolution of their debts. The Company, through its Legal Recovery Department, collects accounts judicially, either by using its own attorneys, or by contracting with independent attorneys throughout the country through whom the Company takes legal action to satisfy consumer debts. The Company also services receivables on behalf of clients on either a commission or transaction-fee basis. Clients include entities in the financial services, auto, retail, utility, health care and government sectors. Services provided to these clients include standard collection services on delinquent accounts, obtaining location information for clients in support of their collection activities (known as skip tracing), and the management of both delinquent and non-delinquent tax receivables for government entities.

The consolidated financial statements of the Company include the accounts of PRA Inc, PRA, PRA Holding I, PRA Holding II, Anchor, IGS, RDS and MuniServices.

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with Rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission (SEC) and, therefore, do not include all information and disclosures required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of the Company, however, the accompanying unaudited consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the Company s consolidated balance sheet as of September 30, 2008, its consolidated income statements for the three and nine months ended September 30, 2008 and 2007, its consolidated statement of changes in stockholders equity for the nine months ended September 30, 2008, and its consolidated statements of cash flows for the nine months ended September 30, 2008 and 2007. The income statement of the Company for the three and nine months ended September 30, 2008 and 2007 may not be indicative of future results. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K/A, as filed for the year ended December 31, 2007.

2. Finance Receivables, net:

The Company s principal business consists of the acquisition and collection of pools of accounts that have experienced deterioration of credit quality between origination and the Company s acquisition of the accounts. The amount paid for any pool reflects the Company s determination that it is probable the Company will be unable to collect all amounts due according to an account s contractual terms. At acquisition, the Company reviews the portfolio both by account and aggregate pool to determine whether there is evidence of deterioration of credit quality since origination and if it is probable that the Company will be unable to collect all amounts due according to the account s contractual terms. If both conditions exist, the Company determines whether each such account is to be accounted for individually or whether such accounts will be assembled into pools based on common risk characteristics. The Company considers expected prepayments and estimates the amount and timing of undiscounted expected principal,

interest and other cash flows for each acquired portfolio and subsequently aggregates pools of accounts.

7

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The Company determines the excess of the pool's scheduled contractual principal and contractual interest payments over all cash flows expected at acquisition as an amount that should not be accreted (nonaccretable difference) based on the Company's proprietary acquisition models. The remaining amount, representing the excess of the account's cash flows expected to be collected over the amount paid, is accreted into income recognized on finance receivables over the remaining life of the account or pool (accretable yield).

Prior to January 1, 2005, the Company accounted for its investment in finance receivables using the interest method under the guidance of Practice Bulletin 6, Amortization of Discounts on Certain Acquired Loans. Effective January 1, 2005, the Company adopted and began to account for its investment in finance receivables using the interest method under the guidance of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) 03-3, Accounting for Loans or Certain Securities Acquired in a Transfer. For loans acquired in fiscal years beginning prior to December 15, 2004, Practice Bulletin 6 is still effective; however, Practice Bulletin 6 was amended by SOP 03-3 as described further in this note. For loans acquired in fiscal years beginning after December 15, 2004, SOP 03-3 is effective. Under the guidance of SOP 03-3 (and the amended Practice Bulletin 6), static pools of accounts may be established. These pools are aggregated based on certain common risk criteria. Each static pool is recorded at cost, which includes certain direct costs of acquisition paid to third parties, and is accounted for as a single unit for the recognition of income, principal payments and loss provision. Once a static pool is established for a quarter, individual receivable accounts are not added to the pool (unless replaced by the seller) or removed from the pool (unless sold or returned to the seller). SOP 03-3 (and the amended Practice Bulletin 6) requires that the excess of the contractual cash flows over expected cash flows not be recognized as an adjustment of revenue or expense or on the balance sheet. SOP 03-3 initially freezes the internal rate of return, referred to as IRR, estimated when the accounts receivable are purchased as the basis for subsequent impairment testing. Significant increases in actual, or expected future cash flows may be recognized prospectively through an upward adjustment of the IRR over a portfolio's remaining life. Any increase to the IRR then becomes the new benchmark for impairment testing. Effective for fiscal years beginning after December 15, 2004 under SOP 03-3 (and the amended Practice Bulletin 6), rather than lowering the estimated IRR if the collection estimates are not received or projected to be received, the carrying value of a pool would be written down to maintain the then current IRR and is shown as a reduction in revenue in the consolidated income statements with a corresponding valuation allowance offsetting the finance receivables, net, on the balance sheet. Income on finance receivables is accrued quarterly based on each static pool's effective IRR. Quarterly cash flows greater than the interest accrual will reduce the carrying value of the static pool. This reduction in carrying value is defined as payments applied to principal (also referred to as finance receivable amortization). Likewise, cash flows that are less than the accrual will accrete the carrying balance. The Company generally does not allow accretion in the first six to twelve months. The IRR is estimated and periodically recalculated based on the timing and amount of anticipated cash flows using the Company's proprietary collection models. A pool can become fully amortized (zero carrying balance on the balance sheet) while still generating cash collections. In this case, all cash collections are recognized as revenue when received. Additionally, the Company uses the cost recovery method when collections on a particular pool of accounts cannot be reasonably predicted. These pools are not aggregated with other portfolios. Under the cost recovery method, no revenue is recognized until the Company has fully collected the cost of the portfolio, or until such time that the Company considers the collections to be probable and estimable and begins to recognize income based on the interest method as described above. At September 30, 2008 and 2007, the Company had unamortized purchased principal (purchase price) in pools accounted for under the cost recovery method of \$3,546,509 and \$4,998,673, respectively.

The Company establishes valuation allowances for all acquired accounts subject to SOP 03-3 to reflect only those losses incurred after acquisition (that is, the present value of cash flows initially expected at acquisition that are no longer expected to be collected). Valuation allowances are established only subsequent to acquisition of the accounts. At September 30, 2008 and 2007, the Company had an allowance against its finance receivables of \$14,755,000 and \$2,935,000, respectively. Prior to January 1, 2005, in the event that a reduction of the yield to as low as zero in

conjunction with estimated future cash collections that were inadequate to amortize the carrying balance, an allowance charge would be taken with a corresponding write-off of the receivable balance.

8

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The Company capitalizes certain fees paid to third parties related to the direct acquisition of a portfolio of accounts. These fees are added to the acquisition cost of the portfolio and accordingly are amortized over the life of the portfolio using the interest method. The balance of the unamortized capitalized fees at September 30, 2008 and 2007 was \$3,013,671 and \$2,133,480, respectively. During the three and nine months ended September 30, 2008, the Company capitalized \$198,257 and \$1,065,786, respectively, of these direct acquisition fees. During the three and nine months ended September 30, 2007, the Company capitalized \$469,868 and \$1,263,578, respectively, of these direct acquisition fees. During the three and nine months ended September 30, 2008, the Company amortized \$153,391 and \$487,031, respectively, of these direct acquisition fees. During the three and nine months ended September 30, 2007, the Company amortized \$135,110 and \$452,819, respectively, of these direct acquisition fees.

The agreements to purchase the aforementioned receivables include general representations and warranties from the sellers covering account holder death or bankruptcy and accounts settled or disputed prior to sale. The representation and warranty period permitting the return of these accounts from the Company to the seller is typically 90 to 180 days. Any funds received from the seller of finance receivables as a return of purchase price are referred to as buybacks. Buyback funds are simply applied against the finance receivable balance received and are not included in the Company's cash collections from operations. In some cases, the seller will replace the returned accounts with new accounts in lieu of returning the purchase price. In that case, the old account is removed from the pool and the new account is added.

Changes in finance receivables, net for the three and nine months ended September 30, 2008 and 2007 were as follows (amounts in thousands):

	Three Months Ended September 30, 2008	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2008	Nine Months Ended September 30, 2007
Balance at beginning of period	\$ 515,367	\$ 288,648	\$ 410,297	\$ 226,447
Acquisitions of finance receivables, net of buybacks	50,333	56,868	214,172	159,131
Cash collections	(83,008)	(65,151)	(247,451)	(197,066)
Income recognized on finance receivables, net	52,738	46,111	158,412	137,964
Cash collections applied to principal	(30,270)	(19,040)	(89,039)	(59,102)
Balance at end of period	\$ 535,430	\$ 326,476	\$ 535,430	\$ 326,476

At the time of acquisition, the life of each pool is generally estimated to be between 84 to 96 months based on projected amounts and timing of future cash receipts using the proprietary models of the Company. As of September 30, 2008, the Company had \$535,430,442 in net finance receivables. Based upon current projections, cash collections applied to principal are estimated to be as follows for the twelve months in the periods ending (amounts in thousands):

September 30, 2009	\$ 121,285
September 30, 2010	128,292

Edgar Filing: PORTFOLIO RECOVERY ASSOCIATES INC - Form 10-Q

September 30, 2011	116,936
September 30, 2012	93,134
September 30, 2013	45,751
September 30, 2014	24,338
September 30, 2015	4,818
September 30, 2016	876
	\$ 535,430

During the three and nine months ended September 30, 2008, the Company purchased approximately \$857.2 million and \$3.28 billion, respectively, of face value of charged-off consumer receivables. During the three and nine months ended September 30, 2007, the Company purchased approximately \$2.61 billion and \$7.45 billion, respectively, of face value of charged-off consumer receivables.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

At September 30, 2008, the estimated remaining collections on the receivables purchased in the three and nine months ended September 30, 2008 were \$108.3 million and \$399.4 million, respectively. At September 30, 2008, the estimated remaining collections on the receivables purchased in the three and nine months ended September 30, 2007 were \$94.4 million and \$242.6 million, respectively.

Accretable yield represents the amount of income recognized on finance receivables the Company can expect to generate over the remaining life of its existing portfolios based on estimated future cash flows as of September 30, 2008 and 2007. Reclassifications from nonaccretable difference to accretable yield primarily result from the Company's increase in its estimate of future cash flows. Reclassifications to nonaccretable difference from accretable yield results from allowance charges that exceed the Company's increase in its estimate of future cash flows. Changes in accretable yield for the three and nine months ended September 30, 2008 and 2007 were as follows (amounts in thousands):

	Three Months Ended September 30, 2008	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2008	Nine Months Ended September 30, 2007
Balance at beginning of period	\$ 549,716	\$ 410,843	\$ 492,269	\$ 326,775
Income recognized on finance receivables, net	(52,738)	(46,111)	(158,412)	(137,964)
Additions	57,184	71,601	220,573	198,191
Reclassifications from/(to) nonaccretable difference	(4,592)	10,055	(4,860)	59,386
Balance at end of period	\$ 549,570	\$ 446,388	\$ 549,570	\$ 446,388

During the three and nine months ended September 30, 2008, the Company recorded \$3,985,000 and \$10,870,000, respectively, in allowance charges on pools that had underperformed the Company's most recent expectations as of September 30, 2008. During the three and nine months ended September 30, 2008, the Company also reversed \$205,000 and \$345,000, respectively, of allowance charges recorded in prior periods. During the three and nine months ended September 30, 2007, the Company recorded \$1,180,000 and \$1,880,000, respectively, in allowance charges on pools that had underperformed the Company's most recent expectations as of September 30, 2007. During the three and nine months ended September 30, 2007, the Company also reversed \$0 and \$245,000, respectively, of allowance charges recorded in prior periods. The change in the valuation allowance for the three and nine months ended September 30, 2008 and 2007 is as follows (amounts in thousands):

	Three Months Ended September 30, 2008	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2008	Nine Months Ended September 30, 2007
Balance at beginning of period	\$ 10,975	\$ 1,755	\$ 4,230	\$ 1,300

--------------------------	----	--------	----	-------	----	--------	----	-------

3. Line of Credit:

On November 29, 2005, the Company entered into a Loan and Security Agreement for a revolving line of credit jointly offered by Bank of America, N. A. and Wachovia Bank, National Association. The agreement was amended on May 9, 2006 to include RBC Centura Bank as an additional lender, again on May 4, 2007 to increase the line of credit to \$150,000,000 and incorporate a \$50,000,000 non-revolving fixed rate sub-limit, again on October 26, 2007 to increase the line of credit to \$270,000,000, again on March 18, 2008 to increase the non-revolving fixed rate sub-limit to \$100,000,000, again on May 2, 2008 to include SunTrust Bank as an additional lender and to increase the line of credit to \$340,000,000 and again on September 3, 2008 to include JP Morgan Chase Bank as an additional lender and to increase the line of credit to \$365,000,000. The agreement is a line of credit in an amount equal to the lesser of \$365,000,000 or 30% of the Company's estimated remaining collections of all its eligible asset pools. Borrowings under the revolving credit facility bear interest at a floating rate equal to the one month LIBOR Market Index Rate plus 1.40% and the facility expires on May 2, 2011. The loan is collateralized by substantially all the tangible and intangible assets of the Company.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The agreement provides as follows:

monthly borrowings may not exceed 30% of estimated remaining collections;

funded debt to EBITDA (defined as net income, less income or plus loss from discontinued operations and extraordinary items, plus income taxes, plus interest expense, plus depreciation, depletion, amortization (including finance receivable amortization) and other non-cash charges) ratio must be less than 2.0 to 1.0 calculated on a rolling twelve-month average;

tangible net worth must be at least 100% of prior quarter tangible net worth plus 25% of cumulative positive net income since the end of such fiscal quarter, plus 100% of the net proceeds from any equity offering without giving effect to reductions in tangible net worth due to repurchases of up to \$100,000,000 of the Company's common stock; and

restrictions on change of control.

As of September 30, 2008, outstanding borrowings under the facility totaled \$267,300,000, of which \$50,000,000 was part of the non-revolving fixed rate sub-limit which bears interest at 6.80% and expires on May 4, 2012. As of September 30, 2008, the Company is in compliance with all of the covenants of the agreement.

4. Property and Equipment, net:

Property and equipment, at cost, consist of the following as of the dates indicated (amounts in thousands):

	September 30, 2008	December 31, 2007
Software	\$ 12,767	\$ 6,147
Computer equipment	7,674	6,083
Furniture and fixtures	5,150	4,758
Equipment	5,212	4,742
Leasehold improvements	3,425	2,557
Building and improvements	5,931	5,123
Land	992	939
Accumulated depreciation and amortization	(17,797)	(14,178)
Property and equipment, net	\$ 23,354	\$ 16,171

Depreciation and amortization expense, relating to property and equipment, for the three and nine months ended September 30, 2008 was \$1,462,637 and \$3,715,492, respectively. Depreciation and amortization expense, relating to property and equipment, for the three and nine months ended September 30, 2007 was \$955,293 and \$2,631,211, respectively.

Beginning in July 2006 upon initiation of certain internally developed software projects, in accordance with the provisions of SOP 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use, the Company began capitalizing qualifying computer software costs incurred during the application development stage and amortizing them over their estimated useful life of three to seven years on a straight-line basis beginning when the project is completed. Costs associated with preliminary project stage activities, training, maintenance and all other post implementation stage activities are expensed as incurred. The Company's policy provides for the capitalization of certain direct payroll costs for employees who are directly associated with internal use computer software projects, as well as external direct costs of services associated with developing or obtaining internal use software. Capitalizable

personnel costs are limited to the time directly spent on such projects. As of September 30, 2008, the Company has incurred and capitalized \$703,292 of these direct payroll costs and external direct costs related to software developed for internal use. Of these costs, \$204,436 is for projects that are in the development stage and, therefore are a component of Other Assets. Once the projects are completed, the costs will be transferred to Software and amortized over their estimated useful life of three to seven years. Amortization expense for the three and nine months ended September 30, 2008 was \$22,136 and \$66,408, respectively. Amortization expense for the three and nine months ended September 30, 2007 was \$3,313 and \$9,938, respectively.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The remaining unamortized costs relating to internally developed software at September 30, 2008 and 2007 were \$410,995 and \$54,106, respectively.

5. Acquisitions:

On July 1, 2008, the Company acquired 100% of the membership interests of MuniServices. MuniServices was founded in 1978 and is a provider of revenue enhancement and related services to state and local governments. Although most of its clients are in California, it also serves clients in Texas, Florida, Pennsylvania, Georgia, Nevada and the District of Columbia. MuniServices has a workforce of approximately 115 employees. The President of MuniServices and three other members of the management team have entered into long-term employment agreements. The consolidated income statement includes the results of operations of MuniServices for the period from July 1, 2008 through September 30, 2008.

The transaction was completed at a price of \$24.6 million, consisting of \$22.5 million in cash and \$2.1 million in PRA Inc common stock. The total purchase price could increase by a total of \$4.5 million in stock through contingent payments in 2009 and 2010, related to specific operating goals. The common stock component of the purchase price resulted in the issuance of 163,622 shares of unregistered stock to the sellers of MuniServices of which 112,018 shares are being held in escrow and are subject to the earn out and target revenue provisions of the asset purchase agreement. The share count was determined by using a formula agreed to by both parties and contained within the purchase agreement.

On August 1, 2008, the Company acquired substantially all of the assets of Broussard Partners and Associates, Inc. (BPA), which is operating as a part of RDS. BPA, founded in 1995, is a provider of audit services to parishes in Louisiana, with 34 of the state's 64 parishes as clients. BPA has a workforce of approximately 25 employees. The President of BPA has entered into a long-term employment agreement with RDS. The consolidated income statement includes the results of operations of BPA for the period from August 1, 2008 through September 30, 2008.

Both of these acquisitions provided the Company additional clients and contracts in the government sector. These clients are located in geographic regions the Company had not previously been servicing. The following is an allocation of the purchase price to the assets acquired and liabilities assumed of MuniServices and BPA:

Purchase price, including acquisition costs and net of cash received	\$ 27,638,003
Accounts receivable and prepaid expenses (included in other assets)	(2,935,275)
Customer relationships	(7,497,997)
Non-compete agreements	(526,783)
Trademarks	(2,100,000)
Fixed assets	(6,856,872)
Accounts payable	549,463
Accrued expenses	256,385
Accrued payroll	911,009
Goodwill	\$ 9,437,933

6. Goodwill and Intangible Assets, net:

With the acquisition of IGS on October 1, 2004, RDS on July 29, 2005, The Palmer Group on July 25, 2007, MuniServices on July 1, 2008, and BPA on August 1, 2008, the Company purchased certain tangible and intangible assets. Intangible assets purchased included client and customer relationships, non-compete agreements, trademarks and goodwill. In accordance with the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standard (SFAS) No. 142, Goodwill and Other Intangible Assets (SFAS 142), the Company is amortizing the IGS client relationships over seven years, The Palmer Group customer relationship over 2.42 years, and the RDS, MuniServices, and BPA customer relationships over ten years.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The Company is amortizing the non-compete agreements over three years for the IGS, RDS and MuniServices acquisitions and 2.42 years for the BPA acquisition. The Company is amortizing trademarks over 14 years for the MuniServices acquisition. The combined original weighted average amortization period is 8.85 years. The Company reviews these relationships at least annually for impairment. Total amortization expense was \$699,598 and \$1,422,938 for the three and nine months ended September 30, 2008, respectively. Total amortization expense was \$499,752 and \$1,480,699 for the three and nine months ended September 30, 2007, respectively. In addition, goodwill, pursuant to SFAS 142, is not amortized but rather is reviewed at least annually for impairment. During the fourth quarter of 2007, the Company underwent its annual review of goodwill. Based upon the results of this review, which was conducted as of October 1, 2007, no impairment charges to goodwill or the other intangible assets were necessary as of the date of this review. The Company believes that nothing has occurred since the review was performed through September 30, 2008 that would necessitate an impairment charge to goodwill or the other intangible assets. The Company will undergo its annual goodwill review during the fourth quarter of 2008. At September 30, 2008 and December 31, 2007, the carrying value of goodwill was \$28,058,210 and \$18,620,277, respectively. The \$9,437,933 increase in the carrying value of goodwill during the three and nine months ended September 30, 2008 relates to the acquisition of MuniServices on July 1, 2008 and the acquisition of the assets of BPA on August 1, 2008.

7. Share-Based Compensation:

The Company has a stock option and nonvested share plan. The Amended and Restated Portfolio Recovery Associates 2002 Stock Option Plan and 2004 Restricted Stock Plan was approved by the Company's shareholders at its Annual Meeting of Shareholders on May 12, 2004, enabling the Company to issue to its employees and directors nonvested shares of stock, as well as stock options.

Effective January 1, 2002, the Company adopted the fair value recognition provisions of SFAS No. 123 (SFAS 123), Accounting for Stock-Based Compensation, prospectively to all employee awards granted, modified, or settled after January 1, 2002. All stock-based compensation measured under the provisions of APB 25 became fully vested during 2002. All stock-based compensation expense recognized thereafter was derived from stock-based compensation based on the fair value method prescribed in SFAS 123. Effective January 1, 2006, the Company adopted SFAS No. 123R (SFAS 123R), Share-Based Payment using the modified prospective approach. The adoption of SFAS 123R had no material impact on the Company's Consolidated Income Statement or on previously reported interim periods. As of September 30, 2008, total future compensation costs related to nonvested awards of stock options and nonvested shares (not including nonvested shares granted under the Long-Term Incentive Program) is estimated to be \$3,000 and \$3.7 million, respectively, with a weighted average remaining life of 1.4 years for stock options and 3.3 years for nonvested shares (not including nonvested shares granted under the Long-Term Incentive Programs). Based upon historical data, the Company used an annual forfeiture rate of 13.72% for stock options and 15-35% for nonvested shares for most of the employee grants. Grants made to key employee hires and directors of the Company were assumed to have no forfeiture rates associated with them due to the historically low turnover among this group. In addition, commensurate with the adoption of SFAS 123R, all previous references to restricted stock are now referred to as nonvested shares.

During the third quarter of 2008, the Company reversed all estimated compensation costs that had been accrued related to the 2007 Long Term Incentive Program because the achievement of the performance targets of the program was unlikely to be achieved. Due to this reversal of \$1.4 million of compensation expense, total share-based compensation expense (credit) was (\$720,587) and \$442,014 for the three and nine months ended September 30, 2008, respectively. Total share-based compensation expense was \$853,802 and \$2,218,168 for the three and nine months ended September 30, 2007, respectively. Tax benefits resulting from tax deductions in excess of share-based compensation expense recognized under the fair value recognition provisions of SFAS 123R (windfall tax benefits) are credited to additional paid-in capital in the Company's Consolidated Balance Sheets. Realized tax shortfalls are first offset against the cumulative balance of windfall tax benefits, if any, and then charged directly to income tax expense. The total tax benefit realized from share-based compensation was \$404,965 and \$857,782 for the three and

nine months ended September 30, 2008, respectively. The total tax benefit realized from share-based compensation was \$0.5 million and \$1.8 million for the three and nine months ended September 30, 2007, respectively.

Stock Options

The Company created the 2002 Stock Option Plan (the Plan) on November 7, 2002. The Plan was amended in 2004 (the Amended Plan) to enable the Company to issue nonvested shares of stock to its employees and directors. The Amended Plan was approved by the Company's shareholders at its Annual Meeting on May 12, 2004. Up to 2,000,000 shares of common stock may be issued under the Amended Plan. The Amended Plan expires November 7, 2012. With the exception of the Long-Term Incentive Program, all options and nonvested shares issued under the Amended Plan vest ratably over five years. Granted options expire seven years from grant date. Expiration dates range between November 7, 2009 and January 16, 2011. Options granted to a single person cannot exceed 200,000 in a single year. At September 30, 2008, 895,000 options have been granted under the Amended Plan, of which 118,655 have been cancelled.

The Company granted no options during the three or nine months ended September 30, 2008 and 2007. All of the stock options which have been granted under the Amended Plan were granted to employees of the Company except for 40,000 which were granted to non-employee directors. The total intrinsic value of options exercised during the three and nine months ended September 30, 2008 was approximately \$345,000 and \$895,000, respectively. The total intrinsic value of options exercised during the three and nine months ended September 30, 2007 was approximately \$0.2 million and \$2.8 million, respectively.

The following summarizes all option related transactions from December 31, 2006 through September 30, 2008 (amounts in thousands except per share amounts):

	Options Outstanding	Weighted-Average Exercise Price Per Share	Weighted Average Fair Value Per Share
December 31, 2006	301	\$ 16.43	\$ 3.27
Exercised	(130)	15.95	3.33
Cancelled	(8)	13.00	2.71
December 31, 2007	163	16.97	3.25
Exercised	(37)	15.95	3.33
Cancelled	(2)	22.80	4.88
September 30, 2008	124	\$ 17.19	\$ 3.20

The following information is as of September 30, 2008 (amounts in thousands except per share amounts):

Exercise Prices	Options Outstanding			Options Exercisable			
	Number Outstanding	Average Remaining Contractual Life	Weighted-Average Exercise Price Per Share	Aggregate Intrinsic Value	Number Exercisable	Weighted-Average Exercise Price Per Share	Aggregate Intrinsic Value
\$13.00	86	1.1	\$ 13.00	\$ 3,059	86	\$ 13.00	\$ 3,059
\$16.16	5	1.1	16.16	179	5	16.16	179
\$27.77 - \$29.79	33	2.0	28.28	671	30	28.22	612

Edgar Filing: PORTFOLIO RECOVERY ASSOCIATES INC - Form 10-Q

Total as of September 30, 2008	124	1.4	\$	17.19	\$	3,909	121	\$	16.91	\$	3,850
--------------------------------	-----	-----	----	-------	----	-------	-----	----	-------	----	-------

The Company utilizes the Black-Scholes option pricing model to calculate the value of the stock options when granted. This model was developed to estimate the fair value of traded options, which have different characteristics than employee stock options. In addition, changes to the subjective input assumptions can result in materially different fair market value estimates. Therefore, the Black-Scholes model may not necessarily provide a reliable single measure of the fair value of employee stock options.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Nonvested Shares

Prior to the approval of the Amended Plan, nonvested shares were permitted to be issued as an incentive to attract new employees and, effective commensurate with the adoption of the Amended Plan at the meeting of shareholders held on May 12, 2004, are permitted to be issued to directors and existing employees. With the exception of the awards made pursuant to the Long-Term Incentive Program, the terms of the nonvested share awards are similar to those of the stock option awards, wherein the nonvested shares vest ratably over five years and are expensed over their vesting period.

The following summarizes all nonvested share transactions from December 31, 2006 through September 30, 2008 (amounts in thousands except per share amounts):

	Nonvested Shares Outstanding	Weighted- Average Price at Grant Date
December 31, 2006	171	\$ 40.59
Granted	9	43.42
Vested	(41)	38.74
Cancelled	(16)	38.23
December 31, 2007	123	41.72
Granted	19	39.34
Vested	(32)	39.68
Cancelled	(15)	40.19
September 30, 2008	95	\$ 42.16

The total grant date fair value of shares vested during the three and nine months ended September 30, 2008 was \$598,382 and \$1,278,168, respectively. The total grant date fair value of shares vested during the three and nine months ended September 30, 2007 was \$692,630 and \$1,389,686, respectively.

Long-Term Incentive Programs

Pursuant to the Amended Plan, on March 30, 2007 and January 4, 2008, the Compensation Committee approved the grant of 96,550 and 80,000, respectively, of performance based nonvested shares. The shares were granted to key employees of the Company. The grants are performance based and cliff vest after the requisite service period of three years if certain financial goals are met. The goals are based upon cumulative diluted earnings per share (EPS) totals for the 2007, 2008 and 2009 years for the 2007 grant and EPS totals for the 2008, 2009 and 2010 years for the 2008 grant, as well as the return on invested capital for the same periods. The number of shares vested can double if the financial goals are exceeded or no shares can vest if the financial goals are not met. For both the 2007 and 2008 grants, the Company is expensing the nonvested shares over the requisite service period of three years beginning January 1, 2007 and 2008, respectively. If the Company believes that the number of shares granted will be more or less than originally projected, an adjustment to the expense will be made at that time based on the probable outcome. During the third quarter of 2008, the Company reversed all estimated compensation costs that had been accrued related to the 2007 Long Term Incentive Program because the achievement of the performance targets of the program was unlikely to be achieved. At September 30, 2008, total future compensation costs related to nonvested share awards granted under the Long-Term Incentive Programs are estimated to be approximately \$1.2 million. The Company assumed a 7.5% forfeiture rate for these grants and the shares have a weighted average life of 1.71 years at September 30, 2008.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2008	159	\$ 40.72

8. Income Taxes FIN 48:

On July 13, 2006, the FASB issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The evaluation of a tax position in accordance with FIN 48 is a two-step process. The first step is recognition: the enterprise determines whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. In evaluating whether a tax position has met the more-likely-than-not recognition threshold, the enterprise should presume that the position will be examined by the appropriate taxing authority that would have full knowledge of all relevant information. The second step is measurement: a tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met.

The Company adopted the provisions of FIN 48 with respect to all of its tax positions as of January 1, 2007. Total unrecognized tax benefits at September 30, 2008 and 2007 were \$0 and \$180,000, respectively. Due to the approval by the Internal Revenue Service of an application for a change in accounting method with respect to one of the Company's tax positions, the balance of unrecognized tax benefits at the date adoption was reduced from \$388,000 to \$180,000 at September 30, 2007. The reduction of \$208,000 did not have an impact on the annual effective rate since the ultimate deductibility of these benefits was highly certain, and only the timing of deductibility was uncertain. On September 15, 2008, the 2004 tax year closed and is no longer subject to examination by major taxing jurisdictions, including the Internal Revenue Service. As a result, the remaining unrecognized tax benefits balance of \$180,000 was

reversed. The reversal was an adjustment to additional paid-in-capital and did not affect the annual effective tax rate.

The Company was notified on June 21, 2007 that it is currently being examined by the Internal Revenue Service for the 2005 calendar year. At September 30, 2008, the tax years that remain subject to examination by the major taxing jurisdictions, including the Internal Revenue Service, are 2003 and 2005 and subsequent years. The 2003 tax year is still open to examination because of the net operating loss that originated in that year but was not fully utilized until the 2005 tax year.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

FIN 48 requires the recognition of interest, if the tax law would require interest to be paid on the underpayment of taxes, and recognition of penalties, if a tax position does not meet the minimum statutory threshold to avoid payment of penalties. Penalties and interest may be classified as either penalties and interest expense or income tax expense. Management has elected to classify accrued penalties and interest as income tax expense. Accrued penalties and interest as of January 1, 2007, in the amount of \$77,000, were recorded to beginning of year retained earnings at the date of adoption. Since January 1, 2007, the Company has accrued additional interest of approximately \$34,000. Due to the approved application for change in accounting method, the balance of accrued penalties and interest was reduced by \$67,000 during 2007. As a result of the lapse in the statute of limitations, the 2004 tax year closed as of September 15, 2008 resulting in the reversal of the remaining \$44,000 of accrued interest.

9. Earnings per Share:

Basic EPS are computed by dividing income available to common shareholders by weighted average common shares outstanding. Diluted EPS are computed using the same components as basic EPS with the denominator adjusted for the dilutive effect of stock options and nonvested share awards. Share-based awards that are contingent upon the attainment of performance goals are not included in the computation of diluted EPS until the performance goals have been attained. The following tables provide a reconciliation between the computation of basic EPS and diluted EPS for the three and nine months ended September 30, 2008 and 2007 (amounts in thousands except per share amounts):

	For the three months ended September 30,					
	2008			2007		
	Net Income	Weighted Average Common Shares	EPS	Net Income	Weighted Average Common Shares	EPS
Basic EPS	\$ 11,455	15,267	\$ 0.75	\$ 11,695	15,451	\$ 0.76
Dilutive effect of stock options and nonvested share awards		69			126	
Diluted EPS	\$ 11,455	15,336	\$ 0.75	\$ 11,695	15,577	\$ 0.75

	For the three months ended September 30,					
	2008			2007		
	Net Income	Weighted Average Common Shares	EPS	Net Income	Weighted Average Common Shares	EPS

There were no antidilutive options or nonvested shares outstanding for the three or nine months ended September 30, 2008 or 2007.

10. Commitments and Contingencies:

Employment Agreements:

The Company has employment agreements with all of its executive officers and with several members of its senior management group, most of which expire on December 31, 2008. Such agreements provide for base salary payments

as well as bonus entitlement, based on the attainment of specific personal and Company goals. Estimated future compensation under these agreements is approximately \$4.7 million and is expected to be paid through December 31, 2011. The agreements also contain confidentiality and non-compete provisions.

Leases:

The Company is party to various operating and capital leases with respect to its facilities and equipment. For further discussion of these leases please refer to the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K/A, as filed for the year ended December 31, 2007.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Forward Flow Agreements:

The Company is party to several forward flow agreements that allow for the purchase of defaulted consumer receivables at pre-established prices. The maximum remaining amount to be purchased under forward flow agreements at September 30, 2008 is approximately \$71.2 million.

Litigation:

The Company is from time to time subject to routine legal proceedings which are incidental to the ordinary course of our business. The Company initiates lawsuits against consumers and is occasionally countersued by them in such actions. Also, consumers initiate litigation against the Company, in which they allege that the Company has violated a state or federal law in the process of collecting on an account. The Company believes that the results of any pending legal proceedings will not have a material adverse effect on the financial condition, results of operations or liquidity of the Company.

11. Recent Accounting Pronouncements:

On September 15, 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 establishes a framework for measuring fair value and expands disclosures about fair value measurements. The changes to current practice resulting from the application of SFAS 157 relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. SFAS 157 was originally effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years but was amended on February 6, 2008 to defer the effective date for one year for certain nonfinancial assets and liabilities. The Company adopted SFAS 157 on January 1, 2008, which had no material impact on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 is effective for fiscal years beginning after November 15, 2007. SFAS 159 allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. SFAS 159 also establishes presentation and disclosure requirements designed to draw comparison between entities that elect different measurement attributes for similar assets and liabilities. The Company adopted SFAS 159 on January 1, 2008, which had no material impact on its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination, recognizing assets acquired and liabilities assumed arising from contingencies, and determining what information to disclose to enable users of the financial statement to evaluate the nature and financial effects of the business combination. SFAS 141R is effective for acquisitions consummated in fiscal years beginning after December 15, 2008. The Company expects SFAS 141R will have an impact on its consolidated financial statements when effective, but the nature and magnitude of the specific effects will depend upon the nature, terms and size of the acquisitions that the Company consummates after the effective date.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160). SFAS 160 changes the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity. This new consolidation method significantly changes the accounting for transactions with minority interest holders. SFAS 160 is effective for fiscal years beginning after December 15, 2008 with early application prohibited. The Company believes SFAS 160 will have no material impact on its consolidated financial statements.

PORTFOLIO RECOVERY ASSOCIATES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

In March 2008, the FASB issued SFAS 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS 161). SFAS 161 requires expanded disclosures regarding the location and amounts of derivative instruments in an entity's financial statements, how derivative instruments and related hedged items are accounted for under SFAS 133, Accounting for Derivative Instruments and Hedging Activities, and how derivative instruments and related hedged items affect an entity's financial position, operating results and cash flows. SFAS 161 is effective for periods beginning on or after November 15, 2008. The Company believes SFAS 161 will have no material impact on its consolidated financial statements.

In April 2008, the FASB issued Staff Position (FSP) 142-3, Determination of the Useful Life of Intangible Assets, (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets. FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company believes FSP 142-3 will have no material impact on its consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations. Cautionary Statements Pursuant to Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995:

This report contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements involve risks, uncertainties and assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. All statements, other than statements of historical fact, are forward-looking statements, including statements regarding overall trends, gross margin trends, operating cost trends, liquidity and capital needs and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. The risks, uncertainties and assumptions referred to above may include the following:

our ability to purchase defaulted consumer receivables at appropriate prices;

changes in the business practices of credit originators in terms of selling defaulted consumer receivables or outsourcing defaulted consumer receivables to third-party contingent fee collection agencies;

changes in government regulations that affect our ability to collect sufficient amounts on our acquired or serviced receivables;

changes in income tax laws or challenges by taxing authorities could have an adverse effect on our financial condition and results of operations;

changes in bankruptcy laws that could negatively affect our business;

our ability to employ and retain qualified employees, especially collection and information technology personnel;

changes in the credit or capital markets, which affect our ability to borrow money or raise capital to purchase or service defaulted consumer receivables;

the degree and nature of our competition;

our ability to comply with the provisions of the Sarbanes-Oxley Act of 2002 and the rules and regulations promulgated thereunder;

our ability to secure sufficient levels of placements for our fee-for-service businesses;

the sufficiency of our funds generated from operations, existing cash and available borrowings to finance our current operations; and

the risk factors listed from time to time in our filings with the SEC.

You should assume that the information appearing in this quarterly report is accurate only as of the date it was issued. Our business, financial condition, results of operations and prospects may have changed since that date.

For a discussion of the risks, uncertainties and assumptions that could affect our future events, developments or results, you should carefully review the following Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as the discussion of Business and Risk Factors described in our 2007 Annual Report on Form 10-K/A, filed on March 12, 2008.

Our forward-looking statements could be wrong in light of these and other risks, uncertainties and assumptions. The future events, developments or results described in this report could turn out to be materially different. We have no obligation to publicly update or revise our forward-looking statements after the date of this report and you should

not expect us to do so.

Investors should also be aware that while we do, from time to time, communicate with securities analysts and others, we do not, by policy, selectively disclose to them any material nonpublic information or other confidential commercial information. Accordingly, stockholders should not assume that we agree with any statement or report issued by any analyst regardless of the content of the statement or report. We do not, by policy, confirm forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not our responsibility.

Results of Operations

The following table sets forth certain operating data as a percentage of total revenues for the periods indicated:

	For the Three Months		For the Nine Months Ended September 30,	
	Ended September 30, 2008	2007	2008	2007
Revenues:				
Income recognized on finance receivables, net	76.9%	84.4%	80.7%	84.4%
Commissions	23.1%	15.6%	19.3%	15.6%
Total revenues	100.0%	100.0%	100.0%	100.0%
Operating expenses:				
Compensation and employee services	33.5%	31.7%	33.1%	30.9%
Outside legal and other fees and services	24.4%	21.7%	23.7%	21.1%
Communications	3.3%	3.7%	3.8%	3.6%
Rent and occupancy	1.6%	1.5%	1.4%	1.4%
Other operating expenses	2.8%	2.9%	2.5%	2.7%
Depreciation and amortization	3.2%	2.7%	2.6%	2.5%
Total operating expenses	68.8%	64.2%	67.1%	62.2%
Income from operations	31.2%	35.8%	32.9%	37.8%
Other income and (expense):				
Interest income	0.1%	0.1%	0.0%	0.2%
Interest expense	(4.5%)	(2.1%)	(4.2%)	(0.9%)
Income before income taxes	26.8%	33.8%	28.7%	37.1%
Provision for income taxes	10.1%	12.4%	11.0%	14.1%
Net income	16.7%	21.4%	17.7%	23.0%

We use the following terminology throughout our reports: **Cash Receipts** refers to all collections of cash, regardless of the source. **Cash Collections** refers to collections on our owned portfolios only, exclusive of commission income and sales of finance receivables. **Cash Sales of Finance Receivables** refers to the sales of our owned portfolios.

Commissions refers to fee income generated from our wholly-owned contingent fee and fee-for-service subsidiaries.
Three Months Ended September 30, 2008 Compared To Three Months Ended September 30, 2007

Revenues

Total revenues were \$68.6 million for the three months ended September 30, 2008, an increase of \$14.0 million or 25.6% compared to total revenues of \$54.6 million for the three months ended September 30, 2007.

Income Recognized on Finance Receivables, net

Income recognized on finance receivables, net was \$52.7 million for the three months ended September 30, 2008, an increase of \$6.6 million or 14.3% compared to income recognized on finance receivables, net of \$46.1 million for the three months ended September 30, 2007. The majority of the increase was due to an increase in our cash collections on our owned defaulted consumer receivables to \$83.0 million from \$65.2 million, an increase of 27.3%. Our finance receivables amortization rate, including the allowance charge, on our owned portfolio for the three months ended September 30, 2008 was 36.5% while for the three months ended September 30, 2007 it was 29.2%. During the three months ended September 30, 2008, we acquired defaulted consumer receivables portfolios with an

aggregate face value amount of \$857.2 million at a cost of \$52.3 million. During the three months ended September 30, 2007, we acquired defaulted consumer receivable portfolios with an aggregate face value of \$2.61 billion at a cost of \$57.4 million. In any period, we acquire defaulted consumer receivables that can vary dramatically in their age, type and ultimate collectibility. We may pay significantly different purchase rates for purchased receivables within any period as a result of this quality fluctuation. In addition, market forces can drive pricing rates up or down in any period, irrespective of other quality fluctuations. As a result, the average purchase rate paid for any given period can fluctuate dramatically based on our particular buying activity in that period. However, regardless of the average purchase price, we intend to target a similar internal rate of return in pricing our portfolio acquisitions; therefore, the absolute rate paid is not necessarily relevant to estimated profitability of a period's buying.

Income recognized on finance receivables, net is shown net of changes in valuation allowances recognized under SOP 03-3, which requires that a valuation allowance be taken for decreases in expected cash flows or change in timing of cash flows which would otherwise require a reduction in the stated yield on a pool of accounts. For the three months ended September 30, 2008, we recorded net allowance charges of \$3,780,000. For the three months ended September 30, 2007, we recorded net allowance charges of \$1,180,000.

Commissions

Commissions were \$15.8 million for the three months ended September 30, 2008, an increase of \$7.3 million or 85.9% compared to commissions of \$8.5 million for the three months ended September 30, 2007. Commissions grew as a result of the acquisition of MuniServices, LLC (MuniServices) on July 1, 2008, as well as increases in revenue generated by our IGS fee-for-service business and RDS government processing and collection business, partially offset by a decrease in our Anchor contingent fee business compared to the prior year period.

Operating Expenses

Total operating expenses were \$47.2 million for the three months ended September 30, 2008, an increase of \$12.1 million or 34.5% compared to total operating expenses of \$35.1 million for the three months ended September 30, 2007. Total operating expenses, including compensation and employee services expenses, were 47.7% of cash receipts for the three months ended September 30, 2008 compared to 47.6% for the same period in 2007.

Compensation and Employee Services

Compensation and employee services expenses were \$23.0 million for the three months ended September 30, 2008, an increase of \$5.7 million or 32.9% compared to compensation and employee services expenses of \$17.3 million for the three months ended September 30, 2007. This increase is mainly due to the acquisition of MuniServices as well as an overall increase in our owned portfolio collection staff. During the third quarter of 2008, we reversed \$1.4 million of estimated share-based compensation costs that had been accrued in 2007 and 2008 related to the 2007 Long Term Incentive Program because the achievement of the performance targets of the program was unlikely to be achieved. Compensation and employee services expenses increased as total employees grew 23.5% to 1,937 as of September 30, 2008 from 1,569 as of September 30, 2007. Compensation and employee services expenses as a percentage of cash receipts decreased to 23.3% for the three months ended September 30, 2008 from 23.5% of cash receipts for the same period in 2007.

Outside Legal and Other Fees and Services

Outside legal and other fees and services expenses were \$16.7 million for the three months ended September 30, 2008, an increase of \$4.9 million or 41.5% compared to outside legal and other fees and services expenses of \$11.8 million for the three months ended September 30, 2007. Of the \$4.9 million increase, \$1.7 million was attributable to increases in agency fees mainly incurred by our IGS subsidiary, \$0.3 million was attributable to an increase in corporate legal and accounting fees, \$0.6 million was attributable to an increase in other outside fees and services and a \$0.3 million decrease in credit bureau fees. Of the remaining \$2.6 million increase, \$1.3 million was attributable to incremental legal costs advanced to our third party collection attorneys. Based on an analysis of our legal accounts and their liquidation potential, it was determined that we were underinvested in terms of costs advanced to attorneys. The remaining \$1.3 million was attributable to the increased legal fees and costs incurred resulting from the increased number of accounts referred to both our in house attorneys and outside independent contingent fee attorneys. Total outside legal expenses paid to independent contingent fee attorneys for the three months ended September 30, 2008 were 43.0% of legal cash collections generated by independent contingent fee attorneys compared to 33.9% for the three months ended September 30, 2007. Outside legal fees and costs paid to independent contingent fee attorneys increased from \$7.2 million for the three months ended September 30, 2007 to \$9.3 million, an increase of \$2.1 million or 29.2%, for the three months ended September 30, 2008. Additionally, as disclosed previously, we also effectuate legal collections using our own in house attorneys. Total legal expenses incurred by our in house attorneys for the three months ended September 30, 2008 were 45.8% of legal cash collections generated by our in house attorneys compared to 32.9% for the three months ended September 30, 2007. Legal fees and costs incurred by our in house attorneys increased from \$0.5 million for the three months ended September 30, 2007 to \$1.0 million, an increase of \$0.5 million or 100%, for the three months ended September 30, 2008.

Communications

Communications expenses were \$2.3 million for the three months ended September 30, 2008, an increase of \$0.3 million or 15.0% compared to communications expenses of \$2.0 million for the three months ended September 30, 2007. The increase was attributable to higher telephone expenses driven by a greater number of defaulted consumer receivables to work, as well as a significant expansion of our automated dialer seats and related calls that are generated by the dialer.

Rent and Occupancy

Rent and occupancy expenses were \$1,123,000 for the three months ended September 30, 2008, an increase of \$304,000 or 37.1% compared to rent and occupancy expenses of \$819,000 for the three months ended September 30, 2007. The increase was primarily due to the expansion of space in our Norfolk, Virginia administrative and executive facility and the acquisition of MuniServices, as well as increased utility charges.

Other Operating Expenses

Other operating expenses were \$1.9 million for the three months ended September 30, 2008, an increase of \$0.3 million or 18.8% compared to other operating expenses of \$1.6 million for the three months ended September 30, 2007. The increase was due to increases in taxes (non-income), fees and licenses, repairs and maintenance, travel and meals, insurance, and dues and subscriptions, as well as decreases in hiring, advertising and marketing and other miscellaneous expenses. Taxes (non-income), fees and licenses expenses increased by \$42,000, repairs and maintenance expenses increased by \$204,000, travel and meals expenses increased by \$75,000, insurance expenses increased \$14,000 and dues and subscriptions expenses increased by \$41,000. Hiring expenses decreased by \$37,000, advertising and marketing expenses decreased by \$9,000 and other miscellaneous expenses decreased by \$23,000.

Depreciation and Amortization

Depreciation and amortization expenses were \$2.2 million for the three months ended September 30, 2008, an increase of \$0.7 million or 46.7% compared to depreciation and amortization expenses of \$1.5 million for the three months ended September 30, 2007. The increase is mainly due to capital purchases in our administrative and executive facility in Norfolk, Virginia as well as additional expense incurred related to the amortization of intangible assets acquired in the acquisition of MuniServices and the acquisition of the assets of Broussard Partners and Associates, Inc. (BPA). Additional increases are the result of continued capital expenditures on equipment, software and computers related to our growth and systems upgrades.

Interest Income

Interest income was \$17,000 for the three months ended September 30, 2008, a decrease of \$48,000 compared to interest income of \$65,000 for the three months ended September 30, 2007. This decrease is the result of lower average invested cash and cash equivalents balances during the three months ended September 30, 2008 compared to the same period in 2007.

Interest Expense

Interest expense was \$3.1 million for the three months ended September 30, 2008, an increase of \$2.0 million compared to interest expense of \$1.1 million for the three months ended September 30, 2007. The increase is mainly due to a significant increase in outstanding borrowings on our line of credit during the three months ended September 30, 2008 compared to the same period in 2007. This increase was offset by a decrease in our weighted average interest rate which decreased to 4.57% for the three months ended September 30, 2008 as compared to 6.80% for the three months ended September 30, 2007.

Provision for Income Taxes

Income tax expense was \$6.9 million for the three months ended September 30, 2008, an increase of \$0.1 million or 1.5% compared to income tax expense of \$6.8 million for the three months ended September 30, 2007.

The increase is mainly due to an increase in the effective tax rate to 37.7% for the three months ended September 30, 2008, as compared to 36.7% for the three months ended September 30, 2007.

Nine Months Ended September 30, 2008 Compared To Nine Months Ended September 30, 2007

Revenues

Total revenues were \$196.3 million for the nine months ended September 30, 2008, an increase of \$32.9 million or 20.1% compared to total revenues of \$163.4 million for the nine months ended September 30, 2007.

Income Recognized on Finance Receivables, net

Income recognized on finance receivables, net was \$158.4 million for the nine months ended September 30, 2008, an increase of \$20.4 million or 14.8% compared to income recognized on finance receivables, net of \$138.0 million for the nine months ended September 30, 2007. The majority of the increase was due to an increase in our cash collections on our owned defaulted consumer receivables to \$247.5 million from \$197.1 million, an increase of 25.6%. Our finance receivables amortization rate, including the allowance charge, on our owned portfolio for the nine months ended September 30, 2008 was 36.0% while for the nine months ended September 30, 2007 it was 30.0%. During the nine months ended September 30, 2008, we acquired defaulted consumer receivables portfolios with an aggregate face value amount of \$3.28 billion at a cost of \$218.8 million. During the nine months ended September 30, 2007, we acquired defaulted consumer receivable portfolios with an aggregate face value of \$7.45 billion at a cost of \$160.4 million. In any period, we acquire defaulted consumer receivables that can vary dramatically in their age, type and ultimate collectibility. We may pay significantly different purchase rates for purchased receivables within any period as a result of this quality fluctuation. In addition, market forces can drive pricing rates up or down in any period, irrespective of other quality fluctuations. As a result, the average purchase rate paid for any given period can fluctuate dramatically based on our particular buying activity in that period. However, regardless of the average purchase price, we intend to target a similar internal rate of return in pricing our portfolio acquisitions; therefore, the absolute rate paid is not necessarily relevant to estimated profitability of a period's buying.

Income recognized on finance receivables, net is shown net of valuation allowances recognized under SOP 03-3, which requires that a valuation allowance be taken for decreases in expected cash flows or change in timing of cash flows which would otherwise require a reduction in the stated yield on a pool of accounts. For the nine months ended September 30, 2008, we recorded net allowance charges of \$10,525,000. For the nine months ended September 30, 2007, we recorded net allowance charges of \$1,635,000.

Commissions

Commissions were \$37.9 million for the nine months ended September 30, 2008, an increase of \$12.4 million or 48.6% compared to commissions of \$25.5 million for the nine months ended September 30, 2007. Commissions grew as a result of the acquisition of MuniServices on July 1, 2008, as well as increases in revenue generated by our IGS fee-for-service business and RDS government processing and collection business, partially offset by a decrease in our Anchor contingent fee business compared to the prior year period.

Operating Expenses

Total operating expenses were \$131.7 million for the nine months ended September 30, 2008, an increase of \$30.0 million or 29.5% compared to total operating expenses of \$101.7 million for the nine months ended September 30, 2007. Total operating expenses, including compensation and employee services expenses, were 46.2% of cash receipts for the nine months ended September 30, 2008 compared to 45.7% for the same period in 2007.

Compensation and Employee Services

Compensation and employee services expenses were \$65.0 million for the nine months ended September 30, 2008, an increase of \$14.6 million or 29.0% compared to compensation and employee services expenses of \$50.4 million for the nine months ended September 30, 2007.

This increase is mainly due to the acquisition of MuniServices as well as an overall increase in our owned portfolio collection staff. During the third quarter of 2008, we reversed \$1.4 million of estimated compensation costs that had been accrued in 2007 and 2008 related to the 2007 Long Term Incentive Program because the achievement of the performance targets of the program was unlikely to be achieved. Compensation and employee services expenses increased as total employees grew 23.5% to 1,937 as of September 30, 2008 from 1,569 as of September 30, 2007. Compensation and employee services expenses as a percentage of cash receipts increased to 22.8% for the nine months ended September 30, 2008 from 22.7% of cash receipts for the same period in 2007.

Outside Legal and Other Fees and Services

Outside legal and other fees and services expenses were \$46.4 million for the nine months ended September 30, 2008, an increase of \$11.9 million or 34.5% compared to outside legal and other fees and services expenses of \$34.5 million for the nine months ended September 30, 2007. Of the \$11.9 million increase, \$1.3 million was attributable to increases in outside fees and services, \$5.3 million was attributable to increases in agency fees mainly incurred by our IGS subsidiary, \$0.7 million was attributable to an increase in corporate legal and accounting fees and a \$0.3 million decrease in credit bureau fees. Of the remaining \$4.9 million increase, \$1.3 million was attributable to incremental legal costs advanced to our third party collection attorneys. Based on an analysis of our legal accounts and their liquidation potential, it was determined that we were underinvested in terms of costs advanced to attorneys. The remaining \$3.6 million was attributable to the increased legal fees and costs incurred resulting from the increased number of accounts referred to both our in house attorneys and outside independent contingent fee attorneys. Total outside legal expenses paid to independent contingent fee attorneys for the nine months ended September 30, 2008 were 38.5% of legal cash collections generated by independent contingent fee attorneys compared to 34.3% for the three months ended September 30, 2007. Outside legal fees and costs paid to independent contingent fee attorneys increased from \$21.7 million for the nine months ended September 30, 2007 to \$25.4 million, an increase of \$3.7 million or 17.1%, for the nine months ended September 30, 2008. Additionally, as disclosed previously, we also effectuate legal collections using our own in house attorneys. Total legal expenses incurred by our in house attorneys for the nine months ended September 30, 2008 were 40.6% of legal cash collections generated by our in house attorneys compared to 28.9% for the nine months ended September 30, 2007. Legal fees and costs incurred by our in house attorneys increased from \$1.2 million for the nine months ended September 30, 2007 to \$2.4 million, an increase of \$1.2 million or 100.0%, for the nine months ended September 30, 2008.

Communications

Communications expenses were \$7.5 million for the nine months ended September 30, 2008, an increase of \$1.6 million or 27.1% compared to communications expenses of \$5.9 million for the nine months ended September 30, 2007. The increase was attributable to growth in mailings and higher telephone expenses driven by a greater number of defaulted consumer receivables to work, as well as a significant expansion of our automated dialer seats and related calls that are generated by the dialer. Mailing expenses were responsible for 54.9% of this increase, while the remaining 45.1% was attributable to higher telephone expenses.

Rent and Occupancy

Rent and occupancy expenses were \$2.8 million for the nine months ended September 30, 2008, an increase of \$0.6 million or 27.3% compared to rent and occupancy expenses of \$2.2 million for the nine months ended September 30, 2007. The increase was primarily due to the expansion of space in our Norfolk, Virginia administrative and executive facility and the acquisition of MuniServices, as well as increased utility charges.

Other Operating Expenses

Other operating expenses were \$4.9 million for the nine months ended September 30, 2008, an increase of \$0.4 million or 8.9% compared to other operating expenses of \$4.5 million for the nine months ended September 30, 2007. The increase was due to increases in taxes (non-income), fees and licenses, repairs and maintenance, travel and meals, dues and subscriptions, advertising and marketing, and other miscellaneous expenses, as well as decreases in hiring and insurance. Taxes (non-income), fees and licenses expenses increased by \$24,000, repairs and maintenance expenses increased by \$259,000, travel and meals expenses increased by \$19,000, dues and subscriptions expenses increased by \$70,000, advertising and marketing expenses increased by \$2,000 and other miscellaneous expenses increased by \$61,000. Hiring expenses decreased by \$27,000 and insurance expenses decreased by \$13,000.

Depreciation and Amortization

Depreciation and amortization expenses were \$5.1 million for the nine months ended September 30, 2008, an increase of \$1.0 million or 24.4% compared to depreciation and amortization expenses of \$4.1 million for the nine months ended September 30, 2007. The increase is mainly due to capital purchases in our administrative and executive facility in Norfolk, Virginia as well as additional expense incurred related to the amortization of intangible assets acquired in the acquisition of MuniServices and the acquisition of the assets of BPA. Additional increases are the result of continued capital expenditures on equipment, software and computers related to our growth and systems upgrades.

Interest Income

Interest income was \$50,000 for the nine months ended September 30, 2008, a decrease of \$314,000 compared to interest income of \$364,000 for the nine months ended September 30, 2007. This decrease is the result of lower average invested cash and cash equivalents balances during the nine months ended September 30, 2008 compared to the same period in 2007.

Interest Expense

Interest expense was \$8.2 million for the nine months ended September 30, 2008, an increase of \$6.7 million compared to interest expense of \$1.5 million for the nine months ended September 30, 2007. The increase is due to a higher average outstanding balance on our line of credit during the nine months ended September 30, 2008 compared to the same period in 2007. This increase was offset by a decrease in our weighted average interest rate which decreased to 4.77% for the nine months ended September 30, 2008 as compared to 6.79% for the nine months ended September 30, 2007.

Provision for Income Taxes

Income tax expense was \$21.6 million for the nine months ended September 30, 2008, a decrease of \$1.4 million or 6.1% compared to income tax expense of \$23.0 million for the nine months ended September 30, 2007. The decrease is mainly due to a 6.9% decrease in pre-tax income, partially offset by a slight increase in the effective tax rate to 38.4% for the nine months ended September 30, 2008, as compared to 38.0% for the nine months ended September 30, 2007.

Supplemental Performance Data*Owned Portfolio Performance:*

The following tables show certain data related to our owned portfolio. These tables describe the purchase price, cash collections and related multiples. Further, these tables disclose our entire portfolio, the portfolio of purchased bankrupt accounts and our entire portfolio less the impact of our purchased bankrupt accounts. The accounts represented in the purchased bankruptcy tables are those portfolios of accounts that were bankrupt at the time of purchase. This contrasts with accounts that file bankruptcy after we purchase them.

- (1) Purchase price refers to the cash paid to a seller to acquire defaulted consumer receivables, plus certain capitalized costs, less the purchase price refunded by the seller due to the return of non-compliant accounts (also defined as buybacks). Non-compliant refers to the contractual representations and warranties provided for in the purchase and sale contract between the seller and us. These representations and warranties from the sellers generally cover account holders death or bankruptcy and accounts settled or disputed prior to sale. The seller can replace or repurchase these accounts.
- (2) Unamortized purchase price balance refers to

the purchase
price less
finance
receivable
amortization
over the life of
the portfolio.

(3) Percentage of
purchase price
remaining
unamortized
refers to the
amount of
unamortized
purchase price
divided by the
purchase price.

(4) Estimated
remaining
collections
refers to the sum
of all future
projected cash
collections on
our owned
portfolios.

(5) Total estimated
collections
refers to the
actual cash
collections,
including cash
sales, plus
estimated
remaining
collections.

(6) Total estimated
collections to
purchase price
refers to the
total estimated
collections
divided by the
purchase price.

The following graph shows the purchase price of our owned portfolios by year beginning in 1996 and includes the year to date acquisition amount for the nine months ended September 30, 2008 and 2007. The purchase price number represents the cash paid to the seller to acquire defaulted consumer receivables, plus certain capitalized costs, less the

purchase price refunded by the seller due to the return of non-compliant accounts.

28

We utilize a long-term approach to collecting our owned pools of receivables. This approach has historically caused us to realize significant cash collections and revenues from purchased pools of finance receivables years after they are originally acquired. As a result, we have in the past been able to reduce our level of current period acquisitions without a corresponding negative current period impact on cash collections and revenue.

The following table, which excludes any proceeds from cash sales of finance receivables, demonstrates our ability to realize significant multi-year cash collection streams on our owned pools:

Cash Collections By Year, By Year of Purchase Entire Portfolio

Purchase Year	Cash Collection Period												YTD 2008

When we acquire a new pool of finance receivables, our estimates typically result in an 84 - 96 month projection of cash collections. The following chart shows our historical cash collections (including cash sales of finance receivables) in relation to the aggregate of the total estimated collection projections made at the time of each respective pool purchase, adjusted for buybacks.

Owned Portfolio Personnel Performance:

We measure the productivity of each collector each month, breaking results into groups of similarly tenured collectors. The following two tables display various productivity measures that we track.

Collector by Tenure

Collector FTE at:	12/31/04	12/31/05	12/31/06	12/31/07	09/30/07	09/30/08
One year + ¹	298	327	340	327	397	410
Less than one year ²	349	364	375	553	475	631
Total ²	647	691	715	880	872	1,041

¹ Calculated based on actual employees (collectors) with one year of service or more.

² Calculated using total hours worked by all collectors, including those in training to produce a full time equivalent FTE .

Monthly Cash Collections by Tenure

Effective beginning in the third quarter of 2007, we are no longer able to produce this data. Changes in our collection processes and call flows would create data statistics that would be historically inconsistent.

YTD Cash Collections per Hour Paid ¹

Average performance YTD	12/31/04	12/31/05	12/31/06	12/31/07	09/30/07	09/30/08
Total cash collections	\$ 117.59	\$ 133.39	\$ 146.03	\$ 135.77	\$ 142.26	\$ 134.23
Non-legal cash collections ²	\$ 82.06	\$ 89.25	\$ 99.06	\$ 91.93	\$ 96.45	\$ 98.10
Non-bk cash collections ³		\$ 128.02	\$ 132.15	\$ 123.10	\$ 129.35	\$ 114.37

¹ Cash collections (assigned and unassigned) divided by total hours paid (including holiday, vacation and sick time) to all

collectors
(including those
in training).

² Represents total
cash collections
less legal cash
collections.

³ Represents total
cash collections
less bankruptcy
cash collections.
Although we
began
bankruptcy
portfolio
purchasing in
2004, we began
calculating this
metric in 2005.

Cash collections have substantially exceeded revenue in each quarter since our formation. The following chart illustrates the consistent excess of our cash collections on our owned portfolios over the income recognized on finance receivables, net on a quarterly basis. The difference between cash collections and income recognized is referred to as payments applied to principal. It is also referred to as finance receivable amortization. This finance receivable amortization is the portion of cash collections that is used to recover the cost of the portfolio investment represented on the balance sheet.

- (1) Includes cash collections on finance receivables only. Excludes commission fees and cash proceeds from sales of defaulted consumer receivables.

Seasonality

We depend on the ability to collect on our owned and serviced defaulted consumer receivables. Cash collections tend to be higher in the first and second quarters of the year and lower in the third and fourth quarters of the year, due to consumer payment patterns in connection with seasonal employment trends, income tax refunds and holiday spending habits. Historically, our growth has partially masked the impact of this cash collections seasonality.

- (1) Includes cash collections on finance receivables only. Excludes commission fees and cash proceeds from sales of defaulted consumer receivables.

The following table displays our quarterly cash collections by source, for the periods indicated.

Cash Collection Source (\$ in thousands)	Q32008	Q22008	Q12008	Q42007	Q32007	Q22007	Q12007	Q42006	Q32006

External Legal Collections	21,590	22,471	21,880	20,861	21,384	20,911	20,844	19,762	19,607
Internal Legal Collections	2,106	1,947	1,819	1,443	1,449	1,357	1,400	1,171	1,056
Purchased Bankruptcy	15,362	13,732	10,820	7,245	6,317	6,231	7,223	6,581	7,390

The following table shows the changes in finance receivables, including the amounts paid to acquire new portfolios (amounts in thousands).

	Three Months Ended September 30, 2008	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2008	Nine Months Ended September 30, 2007
Balance at beginning of period	\$ 515,367	\$ 288,648	\$ 410,297	\$ 226,447
Acquisitions of finance receivables, net of buybacks ⁽¹⁾	50,333	56,868	214,172	159,131
Cash collections applied to principal on finance receivables ⁽²⁾	(30,270)	(19,040)	(89,039)	(59,102)
Balance at end of period	\$ 535,430	\$ 326,476	\$ 535,430	\$ 326,476
Estimated Remaining Collections (ERC ⁽³⁾)	\$ 1,085,000	\$ 772,877	\$ 1,085,000	\$ 772,877

(1) Agreements to purchase receivables typically include general representations and warranties from the sellers covering account holders death or bankruptcy and accounts settled or disputed prior to sale. The seller can replace or repurchase these accounts. We

refer to repurchased accounts as buybacks. We also capitalize certain acquisition related costs.

- (2) Cash collections applied to principal (also referred to as finance receivable amortization) on finance receivables consists of cash collections less income recognized on finance receivables, net.

- (3) Estimated Remaining Collections refers to the sum of all future projected cash collections on our owned portfolios. ERC is not a balance sheet item; however, it is provided here for informational purposes.

The following table categorizes our life to date owned portfolios at September 30, 2008 into the major asset types represented (amounts in thousands):

Asset Type	No. of Accounts	%	Life to Date Purchased Face Value of Defaulted Consumer	
			Receivables ⁽¹⁾	%

Edgar Filing: PORTFOLIO RECOVERY ASSOCIATES INC - Form 10-Q

Visa/MasterCard/Discover	10,614	57.4%	\$ 28,434,858	73.7%

Total:	18,501	100.0%	\$ 38,610,247	100.0%

(1) The Life to Date Purchased Face Value of Defaulted Consumer Receivables represents the original face amount purchased from sellers and has not been decremented by any adjustments including payments and buybacks (buybacks are defined as purchase price refunded by the seller due to the return of non-compliant accounts).

We also review the geographic distribution of accounts within a portfolio because we have found that certain states have more debtor-friendly laws than others and, therefore, are less desirable from a collectibility perspective. In addition, economic factors and bankruptcy trends vary regionally and are factored into our maximum purchase price equation.

Edgar Filing: PORTFOLIO RECOVERY ASSOCIATES INC - Form 10-Q

The following chart sets forth our overall life to date portfolio of defaulted consumer receivables geographically at September 30, 2008 (amounts in thousands):

(1) The Life to Date Purchased Face Value of Defaulted Consumer Receivables represents the original face amount purchased from sellers and has not been decremented by any adjustments including payments and buybacks (buybacks are defined as purchase price

refunded by the seller due to the return of non-compliant accounts).

(2) The Original Purchase Price of Defaulted Consumer Receivables represents the cash paid to sellers to acquire portfolios of defaulted consumer receivables.

(3) Each state included in Other represents less than 2% of the face value of total defaulted consumer receivables.

Liquidity and Capital Resources

Historically, our primary sources of cash have been cash flows from operations, bank borrowings and equity offerings. Cash has been used for acquisitions of finance receivables, corporate acquisitions, repurchase of our common stock, payment of cash dividends, repayments of bank borrowings, purchases of property and equipment and working capital to support our growth.

We believe that funds generated from operations, together with existing cash and available borrowings under our credit agreement will be sufficient to finance our current operations, planned capital expenditure requirements, and internal growth at least through the next twelve months. However, we could require additional debt or equity financing if we were to make any significant acquisitions requiring cash during that period.

Cash generated from operations is dependent upon our ability to collect on our defaulted consumer receivables. Many factors, including the economy and our ability to hire and retain qualified collectors and managers, are essential to our ability to generate cash flows. Fluctuations in these factors that cause a negative impact on our business could have a material impact on our expected future cash flows.

Our operating activities provided cash of \$66.1 million and \$61.3 million for the nine months ended September 30, 2008 and 2007, respectively. In these periods, cash from operations was generated primarily from net income earned through cash collections and commissions received for the period. The increase was due mostly to changes in deferred taxes offset by a decrease in net income from \$37.6 million for the nine months ended September 30, 2007 to \$34.8 million for the nine months ended September 30, 2008. The remaining changes were due to net changes in other accounts related to our operating activities.

Our investing activities used cash of \$155.0 million and \$107.1 million during the nine months ended September 30, 2008 and 2007, respectively. Cash provided by investing activities is primarily driven by cash collections applied to principal on finance receivables. Cash used in investing activities is primarily driven by acquisitions of defaulted consumer receivables, purchases of property and equipment and company acquisitions. The majority of the increase was due to acquisitions of finance receivables which increased from \$159.1 million for the nine months ended September 30, 2007, to \$214.2 million for the nine months ended September 30, 2008.

Our financing activities provided cash of \$100.2 million and \$35.2 million during the nine months ended September 30, 2008 and 2007, respectively. Cash used in financing activities is primarily driven by payments on our line of credit, principal payments on long-term debt and capital lease obligations, repurchases of our common stock and cash dividends paid on our common stock. Cash is provided by proceeds from debt financing and stock option exercises. The majority of the change was due to cash dividends paid on our common stock of \$16.1 million and repurchases of our common stock of \$50.6 million during the nine months ended September 30, 2007. There were no cash dividends paid or repurchases of our common stock during the nine months ended September 30, 2008.

Cash paid for interest was \$8,271,790 and \$1,095,820 for the nine months ended September 30, 2008 and 2007, respectively. Interest was paid on our line of credit and capital lease obligations. The increase was caused by higher average balances on our line of credit for the nine months ended September 30, 2008 when compared to the nine months ended September 30, 2007. This increase was offset by a decrease in our weighted average interest rate which decreased to 4.77% for the nine months ended September 30, 2008 as compared to 6.79% for the nine months ended September 30, 2007.

On November 29, 2005, we entered into a Loan and Security Agreement for a revolving line of credit jointly offered by Bank of America, N. A. and Wachovia Bank, National Association. The agreement was amended on May 9, 2006 to include RBC Centura Bank as an additional lender, again on May 4, 2007 to increase the line of credit to \$150,000,000 and incorporate a \$50,000,000 non-revolving fixed rate sub-limit, again on October 26, 2007 to increase the line of credit to \$270,000,000, again on March 18, 2008 to increase the non-revolving fixed rate sub-limit to \$100,000,000, again on May 2, 2008 to include SunTrust Bank as an additional lender and to increase the line of credit to \$340,000,000 and again on September 3, 2008 to include JP Morgan Chase Bank as an additional lender and to increase the line of credit to \$365,000,000. The agreement is a line of credit in an amount equal to the lesser of \$365,000,000 or 30% of our estimated remaining collections of all our eligible asset pools. Borrowings under the revolving credit facility bear interest at a floating rate equal to the one month LIBOR Market Index Rate plus 1.40% and the facility expires on May 2, 2011. The loan is collateralized by substantially all of our tangible and intangible

assets.

The agreement provides as follows:

monthly borrowings may not exceed 30% of estimated remaining collections;

funded debt to EBITDA (defined as net income, less income or plus loss from discontinued operations and extraordinary items, plus income taxes, plus interest expense, plus depreciation, depletion, amortization (including finance receivable amortization) and other non-cash charges) ratio must be less than 2.0 to 1.0 calculated on a rolling twelve-month average;

tangible net worth must be at least 100% of prior quarter tangible net worth plus 25% of cumulative positive net income since the end of such fiscal quarter, plus 100% of the net proceeds from any equity offering without giving effect to reductions in tangible net worth due to repurchases of up to \$100,000,000 of the Company's common stock; and

restrictions on change of control.

As of September 30, 2008, outstanding borrowings under the facility totaled \$267,300,000, of which \$50,000,000 was part of the non-revolving fixed rate sub-limit which bears interest at 6.80% and expires on May 4, 2012. As of September 30, 2008, we are in compliance with all of the covenants of the agreement.

Contractual Obligations

Our contractual obligations at September 30, 2008 are as follows (amounts in thousands):

Contractual Obligations	Total	Payments due by period			
		Less than 1 year	1 - 3 years	4 - 5 years	More than 5 years
Operating Leases	\$ 16,943	\$ 2,931	\$ 5,772	\$ 4,625	\$3,615
Line of Credit ⁽¹⁾	281,297	4,750	224,564	51,983	
Capital Lease Obligations	23	23			
Purchase Commitments ⁽²⁾	74,368	73,794	549	25	
Employment Agreements	4,711	2,577	2,134		
Total	\$377,342	\$84,075	\$233,019	\$56,633	\$3,615

(1) To the extent that a balance is outstanding on our line of credit, the revolving portion would be due in May 2011 and the non-revolving fixed rate sub-limit portion would be due in

May 2012.

- (2) This amount includes the maximum remaining amount to be purchased under forward flow contracts for the purchase of charged-off consumer debt in the amount of approximately \$71.2 million.

Off Balance Sheet Arrangements

We do not have any off balance sheet arrangements as defined by Regulation S-K 303(a)(4) promulgated under the Securities Exchange Act of 1934 (the Exchange Act).

Recent Accounting Pronouncements

On September 15, 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 establishes a framework for measuring fair value and expands disclosures about fair value measurements. The changes to current practice resulting from the application of SFAS 157 relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. SFAS 157 was originally effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years but was amended on February 6, 2008 to defer the effective date for one year for certain nonfinancial assets and liabilities. We adopted SFAS 157 on January 1, 2008, which had no material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 is effective for fiscal years beginning after November 15, 2007. SFAS 159 allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value.

If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. SFAS 159 also establishes presentation and disclosure requirements designed to draw comparison between entities that elect different measurement attributes for similar assets and liabilities. We adopted SFAS 159 on January 1, 2008, which had no material impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141R Business Combinations, (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination, recognizing assets acquired and liabilities assumed arising from contingencies, and determining what information to disclose to enable users of the financial statement to evaluate the nature and financial effects of the business combination. SFAS 141R is effective for acquisitions consummated in fiscal years beginning after December 15, 2008. We expect SFAS 141R will have an impact on our consolidated financial statements when effective, but the nature and magnitude of the specific effects will depend upon the nature, terms and size of the acquisitions we consummate after the effective date.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160). SFAS 160 changes the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity. This new consolidation method significantly changes the accounting for transactions with minority interest holders. SFAS 160 is effective for fiscal years beginning after December 15, 2008 with early application prohibited. We believe that SFAS 160 will have no material impact on our consolidated financial statements.

In March 2008, the FASB issued SFAS 161, Disclosures about Derivative Instruments and Hedging Activities"(SFAS 161). SFAS 161 requires expanded disclosures regarding the location and amounts of derivative instruments in an entity's financial statements, how derivative instruments and related hedged items are accounted for under SFAS 133, Accounting for Derivative Instruments and Hedging Activities , and how derivative instruments and related hedged items affect an entity's financial position, operating results and cash flows. SFAS 161 is effective for periods beginning on or after November 15, 2008. We believe SFAS 161 will have no material impact on our consolidated financial statements.

In April 2008, the FASB issued FSP 142-3, Determination of the Useful Life of Intangible Assets , (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets . FSP 142-3 is effective for fiscal years beginning after December 15, 2008. We believe FSP 142-3 will have no material impact on our consolidated financial statements.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with U.S. generally accepted accounting principles and our discussion and analysis of our financial condition and results of operations require our management to make judgments, assumptions, and estimates that affect the amounts reported in our consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates and such differences may be material.

Management believes our critical accounting policies and estimates are those related to revenue recognition, valuation of acquired intangibles and goodwill and income taxes. Management believes these policies to be critical because they are both important to the portrayal of our financial condition and results, and they require management to make judgments and estimates about matters that are inherently uncertain. Our senior management has reviewed these critical accounting policies and related disclosures with the Audit Committee of our Board of Directors.

Revenue Recognition

We acquire accounts that have experienced deterioration of credit quality between origination and our acquisition of the accounts. The amount paid for an account reflects our determination that it is probable we will be unable to collect all amounts due according to the account's contractual terms. At acquisition, we review each account to determine whether there is evidence of deterioration of credit quality since origination and if it is probable that we will be unable to collect all amounts due according to the account's contractual terms. If both conditions exist, we determine whether each such account is to be accounted for individually or whether such accounts will be assembled into pools based on common risk characteristics. We consider expected prepayments and estimate the amount and timing of undiscounted expected principal, interest and other cash flows for each acquired portfolio and subsequently aggregated pools of accounts. We determine the excess of the pool's scheduled contractual principal and contractual interest payments over all cash flows expected at acquisition as an amount that should not be accreted (nonaccretable difference) based on our proprietary acquisition models. The remaining amount, representing the excess of the account's cash flows expected to be collected over the amount paid, is accreted into income recognized on finance receivables over the remaining life of the account or pool (accretable yield).

Prior to January 1, 2005, we accounted for our investment in finance receivables using the interest method under the guidance of Practice Bulletin 6, *Amortization of Discounts on Certain Acquired Loans*. Effective January 1, 2005, we adopted and began to account for our investment in finance receivables using the interest method under the guidance of AICPA SOP 03-3, *Accounting for Loans or Certain Securities Acquired in a Transfer*. For loans acquired in fiscal years beginning prior to December 15, 2004, Practice Bulletin 6 is still effective; however, Practice Bulletin 6 was amended by SOP 03-3 as described further in this note. For loans acquired in fiscal years beginning after December 15, 2004, SOP 03-3 is effective. Under the guidance of SOP 03-3 (and the amended Practice Bulletin 6), static pools of accounts may be established. These pools are aggregated based on certain common risk criteria. Each static pool is recorded at cost, which includes certain direct costs of acquisition paid to third parties, and is accounted for as a single unit for the recognition of income, principal payments and loss provision. Once a static pool is established for a quarter, individual receivable accounts are not added to the pool (unless replaced by the seller) or removed from the pool (unless sold or returned to the seller). SOP 03-3 (and the amended Practice Bulletin 6) requires that the excess of the contractual cash flows over expected cash flows not be recognized as an adjustment of revenue or expense or on the balance sheet. The SOP initially freezes the internal rate of return, referred to as IRR, estimated when the accounts receivable are purchased as the basis for subsequent impairment testing. Significant increases in expected future cash flows may be recognized prospectively through an upward adjustment of the IRR over a portfolio's remaining life. Any increase to the IRR then becomes the new benchmark for impairment testing. Effective for fiscal years beginning after December 15, 2004 under SOP 03-3 and the amended Practice Bulletin 6, rather than lowering the estimated IRR if the collection estimates are not received, the carrying value of a pool would be written down to maintain the then current IRR. Income on finance receivables is accrued quarterly based on each static pool's effective IRR. Quarterly cash flows greater than the interest accrual will reduce the carrying value of the static pool. This reduction in carrying value is defined as payments applied to principal (also referred to as finance receivable amortization). Likewise, cash flows that are less than the accrual will accrete the carrying balance. Generally, we do not allow accretion in the first six to twelve months. The IRR is estimated and periodically recalculated based on the timing and amount of anticipated cash flows using our proprietary collection models. A pool can become fully amortized (zero carrying balance on the balance sheet) while still generating cash collections. In this case, all cash collections are recognized as revenue when received. Additionally, we use the cost recovery method when collections on a particular pool of accounts cannot be reasonably predicted. These pools are not aggregated with other portfolios. Under the cost recovery method, no revenue is recognized until we have fully collected the cost of the portfolio, or until such time that we consider the collections to be probable and estimable and begin to recognize income based on the interest method as described above.

We establish valuation allowances for all acquired accounts subject to SOP 03-3 to reflect only those losses incurred after acquisition (that is, the present value of cash flows initially expected at acquisition that are no longer expected to be collected). Valuation allowances are established only subsequent to acquisition of the accounts. At September 30, 2008, we had a \$14,755,000 valuation allowance on our finance receivables. Prior to January 1, 2005,

in the event that a reduction of the yield to as low as zero in conjunction with estimated future cash collections that were inadequate to amortize the carrying balance, an allowance charge would be taken with a corresponding write-off of the receivable balance.

We utilize the provisions of Emerging Issues Task Force 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent (EITF 99-19) to commission revenue from our contingent fee, skip-tracing and government processing and collection subsidiaries. EITF 99-19 requires an analysis to be completed to determine if certain revenues should be reported gross or reported net of their related operating expense. This analysis includes an assessment of who retains inventory/credit risk, who controls vendor selection, who establishes pricing and who remains the primary obligor on the transaction. Each of these factors was considered to determine the correct method of recognizing revenue from our subsidiaries.

For our contingent fee subsidiary, the portfolios which are placed for servicing are owned by our clients and are placed under a contingent fee commission arrangement. Our subsidiary is paid to collect funds from the client's debtors and earns a commission generally expressed as a percentage of the gross collection amount. The Commissions line of our income statement reflects the contingent fee amount earned, and not the gross collection amount.

Our skip tracing subsidiary utilizes gross reporting under EITF 99-19. We generate revenue by working an account and successfully locating a customer for our client. An investigative fee is received for these services. In addition, we incur agent expenses where we hire a third-party collector to effectuate repossession. In many cases we have an arrangement with our client which allows us to bill the client for these fees. We have determined these fees to be gross revenue based on the criteria in EITF 99-19 and they are recorded as such in the line item Commissions, primarily because we are primarily liable to the third party collector. There is a corresponding expense in Outside legal and other fees and services for these pass-through items.

Our government processing and collection business's primary source of income is derived from servicing taxing authorities in several different ways: processing all of their tax payments and tax forms, collecting delinquent taxes, identifying taxes that are not being paid and auditing tax payments. The processing and collection pieces are standard commission based billings or fee for service transactions. When audits are conducted, there are two components. The first is a charge for the hours incurred on conducting the audit. This charge is for hours worked. This charge is up-charged from the actual costs incurred. The gross billing is a component of the line item Commissions and the expense is included in the line item Compensation and employee services. The second item is for expenses incurred while conducting the audit. Most jurisdictions will reimburse us for direct expenses incurred for the audit including such items as travel and meals. The billed amounts are included in the line item Commissions and the expense component is included in its appropriate expense category, generally, Other operating expenses.

We account for our gain on cash sales of finance receivables under SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. Gains on sale of finance receivables, representing the difference between the sales price and the unamortized value of the finance receivables sold, are recognized when finance receivables are sold.

We apply a financial components approach that focuses on control when accounting and reporting for transfers and servicing of financial assets and extinguishments of liabilities. Under that approach, after a transfer of financial assets, an entity recognizes the financial and servicing assets it controls and the liabilities it has incurred, eliminates financial assets when control has been surrendered, and eliminates liabilities when extinguished. This approach provides consistent standards for distinguishing transfers of financial assets that are sales from transfers that are secured borrowings.

Valuation of Acquired Intangibles and Goodwill

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, we are required to perform a review of goodwill for impairment annually or earlier if indicators of potential impairment exist. The review of goodwill for potential impairment is highly subjective and requires that: (1) goodwill is allocated to various reporting units of our business to which it relates; and (2) we estimate the fair value of those reporting units to which the goodwill relates and then determine the book value of those reporting units. If the estimated fair value of reporting units with allocated goodwill is determined to be less than their book value, we are required to estimate the fair value of all identifiable assets and liabilities of those reporting units in a manner similar to a purchase price allocation for an acquired business. This requires independent valuation of certain unrecognized assets. Once this process is complete, the amount of goodwill impairment, if any, can be determined.

We believe that, at September 30, 2008, there was no impairment of goodwill or other intangible assets. However, changes in various circumstances including changes in our market capitalization, changes in our forecasts and changes in our internal business structure could cause one of our reporting units to be valued differently thereby causing an impairment of goodwill. Additionally, in response to changes in our industry and changes in global or regional economic conditions, we may strategically realign our resources and consider restructuring, disposing or otherwise exiting businesses, which could result in an impairment of some or all of our identifiable intangibles or goodwill.

Income Taxes

We record a tax provision for the anticipated tax consequences of the reported results of operations. In accordance with SFAS No. 109, *Accounting for Income Taxes*, the provision for income taxes is computed using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carry-forwards. Deferred tax assets and liabilities are measured using the currently enacted tax rates that apply to taxable income in effect for the years in which those tax assets are expected to be realized or settled.

We believe it is more likely than not that forecasted income, including income that may be generated as a result of certain tax planning strategies, together with the tax effects of the deferred tax liabilities, will be sufficient to fully recover the remaining deferred tax assets. In the event that all or part of the deferred tax assets are determined not to be realizable in the future, a valuation allowance would be established and charged to earnings in the period such determination is made. Similarly, if we subsequently realize deferred tax assets that were previously determined to be unrealizable, the respective valuation allowance would be reversed, resulting in a positive adjustment to earnings or a decrease in goodwill in the period such determination is made. In addition, the calculation of tax liabilities involves significant judgment in estimating the impact of uncertainties in the application of complex tax laws. Resolution of these uncertainties in a manner inconsistent with our expectations could have a material impact on our results of operations and financial position.

FIN 48, *Accounting for Uncertainty in Income Taxes* an interpretation of SFAS No. 109, clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. We adopted the provisions of FIN 48 on January 1, 2007.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

Our exposure to market risk relates to interest rate risk with our variable rate credit line. The average borrowings on our variable rate credit line were \$205.8 million for the three months ended September 30, 2008. Assuming a 200 basis point increase in interest rates, interest expense would have increased by \$1.0 million for the three months ended September 30, 2008. At September 30, 2008, we had \$217.3 million of variable rate debt outstanding on our credit line. We do not have any other variable rate debt outstanding at September 30, 2008. Significant increases in future interest rates on the variable rate credit line could lead to a material decrease in future earnings assuming all other factors remained constant.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. We maintain disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, controls may become inadequate because of changes in conditions and the degree of compliance with the policies or procedures may deteriorate. We conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the principal executive officer and principal financial officer have concluded that, as of September 30, 2008, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting that occurred during the quarter ended September 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in various legal proceedings which are incidental to the ordinary course of our business. We regularly initiate lawsuits against consumers and are occasionally countersued by them in such actions. Also, consumers initiate litigation against us, in which they allege that we have violated a state or federal law in the process of collecting on an account. We do not believe that these routine matters represent a substantial volume of our accounts or that, individually or in the aggregate, they are material to our business or financial condition. We are not a party to any material legal proceedings and we are unaware of any contemplated material actions against us.

Item 1A. Risk Factors

An investment in our common stock involves a high degree of risk. You should carefully consider the specific risk factors listed under Part I, Item 1A of our Annual Report on Form 10-K/A filed on March 12, 2008, together with all other information included or incorporated in our reports filed with the SEC. Any such risks may materialize, and additional risks not known to us, or that we now deem immaterial, may arise. In such event, our business, financial condition, results of operations or prospects could be materially adversely affected. If that occurs, the market price of our common stock could fall, and you could lose all or part of your investment.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of the Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits

10.1 Fourth amendment to the Amended and Restated Loan and Security Agreement, dated as of September 3, 2008, by and between Portfolio Recovery Associates, Inc, Bank of America, N.A., Wachovia Bank, N.A., RBC Centura Bank, SunTrust Bank and JP Morgan Chase Bank N.A. (Incorporated by reference to Exhibit 10.1 of the Form 8-K filed September 8, 2008).

31.1 Section 302 Certifications of Chief Executive Officer.

31.2 Section 302 Certifications of Chief Financial Officer.

32.1 Section 906 Certifications of Chief Executive Officer and Chief Financial Officer.
