(1) We own 23.85% of the economic interest in Trammell Crow Center through our ownership

of a 23.85% interest in the joint venture that holds fee simple title to the Office Property (subject to a ground lease and a leasehold estate regarding the building) and two mortgage notes encumbering the leasehold interests in the land and the building.

- (2) In addition, we own nine retail parcels and a land parcel under development located in Hughes Center.
- (3) Funding III owns nine of the ten office properties in the Greenway Plaza office portfolio and the Renaissance Houston Hotel; Funding IV owns the central heated and chilled water plant building located at Greenway Plaza; and Funding V owns 9 Greenway, the remaining Office Property in the Greenway

Plaza office  
portfolio.

- (4) For non wholly-owned assets, we receive a preferred return on our invested capital and return of our capital before cash flows are allocated to the partners.

See Note 4, *Discontinued Operations*, for a discussion of and tables including selected financial information related to certain Office, Resort Residential Development and Resort/Hotel Properties which are classified as held for sale as of March 31, 2007. Also see Note 17, *Subsequent Events*, for a discussion of assets sold subsequent to March 31, 2007.

See Note 7, *Investments in Unconsolidated Companies*, for a table that lists our ownership in significant unconsolidated joint ventures and investments as of March 31, 2007.

See Note 8, *Notes Payable and Borrowings Under Credit Facility*, for a list of certain other subsidiaries, all of which are consolidated in our financial statements and were formed primarily for the purpose of obtaining secured debt.

### **Segments**

Our assets and operations consisted of four investment segments at March 31, 2007, as follows:

Office Segment;

Resort Residential Development Segment;

Resort/Hotel Segment; and

Temperature-Controlled Logistics Segment.

Within these segments, we owned in whole or in part the following operating real estate assets, which we refer to as the Properties, as of March 31, 2007:

**Office Segment** consisted of 71 office properties, which we refer to as the Office Properties, located in 26 metropolitan submarkets in eight states, with an aggregate of approximately 27.6 million net rentable square feet. Fifty-four of the Office Properties are wholly-owned and 17 are owned through joint ventures, one of which is consolidated and 16 of which are unconsolidated.

**Table of Contents**

**CRESCENT REAL ESTATE EQUITIES COMPANY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

**Resort Residential Development Segment** consisted of our ownership of common stock representing interests of 98% to 100% in four Resort Residential Development Corporations and two limited partnerships, which are consolidated. These Resort Residential Development Corporations, through partnership arrangements, owned in whole or in part, have 31 active and planned upscale resort residential development properties, which we refer to as the Resort Residential Development Properties.

**Resort/Hotel Segment** consisted of five luxury and destination fitness resorts and spas with a total of 949 rooms/guest nights and three upscale business-class hotel properties with a total of 1,376 rooms, which we refer to as the Resort/Hotel Properties. Five of the Resort/Hotel Properties are wholly-owned, one is owned through a joint venture that is consolidated and two are owned through joint ventures that are unconsolidated.

**Temperature-Controlled Logistics Segment** consisted of our 31.7% interest in AmeriCold Realty Trust, or AmeriCold, a REIT. As of March 31, 2007, AmeriCold operated 105 facilities, of which 91 were wholly-owned or leased, one was partially-owned and 13 were managed for outside owners. The 92 owned or leased and partially-owned facilities, which we refer to as the Temperature-Controlled Logistics Properties, had an aggregate of approximately 497.8 million cubic feet (19.0 million square feet) of warehouse space. AmeriCold also owned one quarry and the related land.

See Note 3, Segment Reporting, for a table showing selected financial information for each of these investment segments for the three months ended March 31, 2007 and 2006, and total assets, consolidated property level financing, consolidated other liabilities and minority interests for each of these investment segments at March 31, 2007 and December 31, 2006.

**Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007.

Certain amounts in prior period financial statements have been reclassified to conform to the current year presentation. In accordance with Financial Accounting Standards Board, or FASB, Statement of Financial Accounting Standards, or SFAS, No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, certain assets and liabilities at December 31, 2006, and certain revenues and expenses for the three months ended March 31, 2006, were reclassified to conform to the presentation at and for the three months ended March 31, 2007. See Note 4,

Discontinued Operations, for a discussion of properties held for disposition. As a result, certain balances differ from the amounts reported in previously filed documents. This reclassification had no impact on net income, earnings per share or shareholders' equity in any period.

The consolidated balance sheet at December 31, 2006 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

You should read these consolidated financial statements in conjunction with the consolidated financial statements and footnotes thereto in our annual report on Form 10-K for the year ended December 31, 2006.

**Restatement of Financial Data**

In connection with the closing of our financial records for the year ended December 31, 2006, our management identified three accounting-related items discussed below that affected our historical financial statements. We reflected all required restatements in our Form 10-K for the year ended December 31, 2006; the impact to the three months ended March 31, 2006 is described below. See our Form 10-K for the year ended December 31, 2006 for further discussion of the restatements.

**Calculation of Minority Interest**

Our calculation of minority interest had incorrectly allocated net income between us and other limited partners of the Operating Partnership based on respective ownership percentages and then deducted dividends for our Series A and Series B Preferred Shares against the allocation to us. The impact of this adjustment for the three months ended March 31, 2006 was a reduction of \$1.3 million in minority interest expense, decreasing the Net Loss line item on both our Consolidated Statement of Operations and our Consolidated Statement of Cash Flows for the three months ended March 31, 2006, by \$1.3 million and

**Table of Contents**

**CRESCENT REAL ESTATE EQUITIES COMPANY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

earnings per share by \$0.01. In addition, the Minority interests line item on our Consolidated Statement of Operations and our Consolidated Statement of Cash Flows decreased by \$1.3 million for the three months ended March 31, 2006.

**Refundable Fees for Club Member Services**

We determined that the appropriate methodology associated with refundable fees for club member services is outlined in Staff Accounting Bulletin No. 104, *Revenue Recognition*, under which revenue related to refundable fees for services should not be recognized until the fee is fixed and determinable. For these memberships, member dues should not have been recognized as revenue until the dues paid exceeded the maximum refund amount available to the member. There was no impact to our results of operations associated with this item for the three months ended March 31, 2006.

**Classification of Club Membership Intangible Asset**

We determined that the right to sell a predetermined number of equity club memberships does not meet the criteria for the recording of an identifiable intangible asset. Instead the membership intangible asset should be recorded as goodwill at the time of acquisition and amortized until our adoption of SFAS, No. 142, *Goodwill and Other Intangible Assets*, then evaluated annually for impairment. There was no impact to our results of operations associated with this item for the three months ended March 31, 2006.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Adoption of New Accounting Standards**

**FASB Interpretation 48.** In July 2006, the FASB, issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109*, or FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The standard also provides guidance on derecognizing, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, and are to be applied to all tax positions upon initial adoption of this standard. Only tax positions that meet a more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption of FIN 48. We recognized a liability to record an unrecognized tax benefit and accrued interest of \$0.5 million, net of minority interests and federal tax benefit, due to the initial application of FIN 48. This charge was accounted for as a \$0.5 million increase to the January 1, 2007, balance of Accumulated Deficit in our Consolidated Statement of Shareholders' Equity.

**SFAS No. 157.** In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. The new FASB rule defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, or GAAP, and expands disclosures about fair value measurements. The statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We are currently evaluating the impact, if any, to our financial condition or results of operations upon the adoption of SFAS No. 157.

**EITF 06-8.** At its November 2006 meeting, the Emerging Issues Task Force, or EITF, ratified the consensus regarding Issue No. 06-8, or EITF 06-8, *Applicability of the Assessment of a Buyer's Continuing Investment under FASB Statement No. 66 for Sales of Condominiums*. EITF 06-8 is effective for annual periods beginning after March 15, 2007. The scope of EITF 06-8 is limited to the sale of individual units in a condominium project and requires an entity to evaluate the adequacy of the buyer's initial and continuing investment for purposes of determining whether the sales price is collectible as required to recognize profit using the percentage-of-completion method under paragraph 37 of SFAS No. 66. If the buyer does not meet the initial and continuing investment criteria, the guidance requires use of the deposit method to recognize profit. We anticipate there will be no impact to our financial condition or results of operations upon the adoption of EITF 06-8.

**SFAS No. 159.** In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which is effective for fiscal years beginning after November 15, 2007. Early adoption is

permitted in certain circumstances provided that the entity also elects to adopt the provisions of SFAS No. 157. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We are currently evaluating the impact, if any, to our financial condition or results of operations upon the adoption of SFAS No. 159.

**Significant Accounting Policies**

**SFAS No. 146 and SFAS No. 112.** We record a liability for severance and other related costs when incurred, at fair value, in accordance with SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 addresses the financial accounting and reporting for costs associated with exit or disposal activities, including, but not limited to, one-time involuntary termination benefits, certain contract termination costs and costs to consolidate facilities or relocate employees. We account for ongoing benefit arrangements under SFAS No. 112, *Employers Accounting for Postemployment Benefits*, which requires that a liability be recognized when the costs are probable and reasonably estimable.

**Earnings Per Share.** SFAS No. 128, *Earnings Per Share*, specifies the computation, presentation and disclosure requirements for earnings per share, or EPS.

Basic EPS is computed by dividing net income available to common shareholders by the weighted average number of shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, where such exercise or conversion would result in a lower EPS amount. We present both basic and diluted earnings per share.

The following tables present the reconciliation for the three months ended March 31, 2007 and 2006, of basic and diluted earnings per share from Loss before discontinued operations to Net loss available to common shareholders. The tables also include weighted average shares on a basic and diluted basis.

The effect of the conversion of the Series A Convertible Cumulative Preferred Shares and the exchange of Operating Partnership units are not included in the computation of diluted EPS for the three months ended March 31, 2007 and 2006, since the effect of the conversions are not dilutive.

**3. SEGMENT REPORTING**

For purposes of segment reporting as defined in SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, we have four major investment segments based on property type: the Office Segment; the Resort Residential Development Segment; the Resort/Hotel Segment and the Temperature-Controlled Logistics Segment. Management utilizes this segment structure for making operating decisions and assessing performance.

See Note 4, Discontinued Operations, for a discussion of properties held for disposition, including the majority of properties in both our Resort Residential Development and our Resort/Hotel segments.

We use funds from operations, or FFO, as the measure of segment profit or loss. FFO, as used in this document, is based on the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT, and means:

Net Income (Loss) determined in accordance with GAAP;

excluding gains (losses) from sales of depreciable operating property;

excluding extraordinary items (as defined by GAAP);

plus depreciation and amortization of real estate assets; and

after adjustments for unconsolidated partnerships and joint ventures.

We calculate FFO available to common shareholders diluted in the same manner, except that Net Income (Loss) is replaced by Net Income (Loss) Available to Common Shareholders and we include the effect of Operating Partnership unitholder minority interests.

NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We consider FFO available to common shareholders diluted and FFO appropriate measures of performance for an equity REIT and for its investment segments. However, FFO available to common shareholders diluted and FFO should not be considered as alternatives to net income determined in accordance with GAAP as an indication of our operating performance.

Our measures of FFO available to common shareholders diluted and FFO may not be comparable to similarly titled measures of other REITs if those REITs apply the definition of FFO in a different manner than we apply it.

#### 4. DISCONTINUED OPERATIONS

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the results of operations for the assets sold or held for sale have been presented as Income from discontinued operations, net of minority interests and taxes and gain or loss on the assets sold has been presented as Gain on sale of real estate from discontinued operations, net of minority interests in the accompanying Consolidated Statements of Operations for the three months ended March 31, 2007 and 2006. The carrying value of the assets held for sale has been reflected as

Properties held for disposition, net in the accompanying Consolidated Balance Sheets as of March 31, 2007 and December 31, 2006. The carrying value of the liabilities held for sale has been reflected as Liabilities related to properties held for disposition in the Consolidated Balance Sheets as of March 31, 2007 and December 31, 2006.

On March 1, 2007, we announced that we had concluded the review of strategic alternatives first announced on November 1, 2006. Based on that review, we adopted a plan, the Strategic Plan, in which we will concentrate on our core Office Properties business. Key elements of the Strategic Plan include:

The opportunistic sale of virtually all suburban Office Properties in Dallas and all Austin properties, as well as our single assets in Phoenix, Arizona and Seattle, Washington;

The sale of certain Resort Residential Development Properties, including CRDI, Desert Mountain and the Sonoma Golf Club; and

The sale of our Resort/Hotel Properties portfolio, including our three luxury resorts and spas and our three upscale business-class hotels.

These sales are anticipated to occur within one year.

**Office Segment**

On March 21, 2007, we entered into an agreement for the sale of The Exchange Building, a wholly-owned Office Property located in Seattle, Washington. See Note 17, Subsequent Events, for a discussion of this sale transaction.

Also, on March 21, 2007, we entered into an agreement for the sale of our 90% partnership interest in Parkway at Oakhill, a consolidated Office development which we own through a joint venture with Champion Partners. See Note 17, Subsequent Events, for a discussion of this sale transaction.

On May 3, 2007, we entered into an agreement for the sale of our joint venture interest in an Office Property. As we consolidate this joint venture interest, the Office Property is classified as held for sale and included in discontinued operations as of March 31, 2007 and December 31, 2006. The closing of the sale, subject to customary closing conditions, is anticipated to occur in the second quarter of 2007.

**Resort/Hotel Segment**

On March 5, 2007, we and Walton TCC Hotel Investors V, L.L.C., the Purchaser, entered into a series of purchase and sale agreements which were amended on March 23, 2007 effective as of March 5, 2007 pursuant to which, among other things, we agreed to sell our rights, title and interest in the Fairmont Sonoma Mission Inn & Spa®, the Sonoma Golf Club, the Ventana Inn & Spa®, the Park Hyatt Beaver Creek Resort & Spa, the Omni Austin hotel, the Denver Marriott hotel and the Renaissance Houston hotel.

On April 2, 2007, Walton terminated the purchase agreements at the end of their due diligence period.

On April 6, 2007, the original purchase agreements were amended and reinstated to adjust the total gross purchase price and to include the Austin Centre office building adjacent to the Omni Austin hotel. The total gross purchase price is approximately \$620.5 million. Our share of the gross purchase price, determined after taking into account the interests of our partners in the sales and incentive payments due as a result of the sales, is approximately \$580.0 million. The Purchaser has paid a nonrefundable earnest money deposit of approximately \$11.0 million. The closing of the transaction, subject to the satisfaction of certain customary closing conditions, is anticipated to occur during the second quarter of 2007.

**5. OTHER TRANSACTIONS**

**Office Segment**

**Significant Tenant Lease Termination**

In June 2005, we entered into an agreement with our largest office tenant, El Paso Energy Services Company and certain of its subsidiaries, which terminated El Paso's leases totaling 888,000 square feet at Greenway Plaza in Houston, Texas, effective December 31, 2007. Under the agreement, El Paso is required to pay us \$65.0 million in termination fees in periodic installments through December 31, 2007, and \$62.0 million in rent according to the original lease terms from July 1, 2005 through December 31, 2007. As of March 31, 2007, we have collected \$35.0 million of the lease termination fee. For the three months ended March 31, 2007 and 2006, we recognized \$3.4 million and \$8.8 million, respectively, in net termination fees, which includes accelerated termination fees and contractual full-service rents resulting from the re-lease of approximately 483,000 square feet. As of March 31, 2007, El Paso was current on all rent obligations.

**6. MEZZANINE NOTES**

Mezzanine notes are reflected in the Notes receivable, net line item in the Consolidated Balance Sheets. Mezzanine notes are loans that are subordinate to a conventional first mortgage loan and senior to the borrower's equity in a transaction. These loans may be in the form of a junior participating interest in the senior debt or in the form of loans to the direct or indirect parent of the property owner secured by pledges of ownership interests in entities that directly or indirectly control the real property or subordinated loans secured by second mortgage liens on the property.

At March 31, 2007, we had approximately \$122.0 million of mezzanine notes outstanding which mature in 2007 through 2010 and had a weighted average interest rate of 14.08%. During the first quarter of 2007, we recorded an impairment charge of \$1.9 million associated with one of our mezzanine notes. On May 4, 2007, we sold this mezzanine note for approximately \$22.3 million.

**Fresh Choice**

On January 5, 2007, we entered into a recapitalization agreement whereby we sold a portion of our interests in Fresh Choice, LLC. The agreement called for a two-part close transaction due to restrictions in place related to the debt of Fresh Choice. Upon the first closing in January 2007, the buyer acquired an interest in the entities that own Fresh Choice for cash of \$3.0 million, of which we received approximately \$1.6 million. The second closing is expected to occur in the second quarter of 2007.

**Table of Contents**

**CRESCENT REAL ESTATE EQUITIES COMPANY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

- (1) The remaining outstanding balance of this note at maturity will be approximately \$223.4 million.
- (2) All or a portion of the balance outstanding is included in the Liabilities related to properties held for disposition line item in the Consolidated Balance Sheets as of March 31, 2007 and December 31, 2006. See Note 4, Discontinued Operations for further discussion of held for sale properties.
- (3) All or a portion of the interest expense related to this note is included in discontinued operations for the three months ended March 31, 2007 and 2006.
- (4) The outstanding principal balance of this loan at maturity

will be  
approximately  
\$33.7 million.

- (5) We assumed these loans in connection with the Hughes Center properties acquisitions. The following table lists the unamortized premium associated with the assumption of above market interest rate debt which is included in the balance outstanding at March 31, 2007, the effective interest rate of the debt including the premium and the outstanding principal balance at maturity:

(dollars in thousands)	Unamortized	Effective	Balance at
Loan	Premium	Rate	Maturity
Northwestern	\$ 99	3.80%	\$ 8,663
Allstate Note	878	5.19%	20,771
Metropolitan Life Note VI	998	5.68%	19,239
Total	\$ 1,975		\$ 48,673

The premium was recorded as an increase in the carrying amount of the underlying debt

and is being amortized using the effective interest rate method as a reduction of interest expense through maturity of the underlying debt.

(6) We purchased U.S. Treasuries and government sponsored agency securities, or defeasance investments, to substitute as collateral for these loans. The cash flow from defeasance investments (principal and interest) matches the debt service payment of the loans.

(7) To incur any additional debt, the indenture requires us to meet thresholds for a number of customary financial and other covenants including maximum leverage ratios, minimum debt service coverage ratios, maximum secured debt as a percentage of total

undepreciated  
assets, and  
ongoing  
maintenance of  
unencumbered  
assets.

Additionally, as  
long as the 2009  
Notes are not  
rated investment  
grade, there are  
restrictions on  
our ability to  
make certain  
payments,  
including  
distributions to  
shareholders  
and  
investments.

- (8) At our option,  
these notes can  
be called for a  
premium of  
2.3125% as of  
April 2007 and  
in April 2008  
for par.
- (9) This note  
consists of a  
\$110.0 million  
senior loan at  
LIBOR plus 108  
basis points, a  
\$40.0 million  
first mezzanine  
loan at LIBOR  
plus 225 basis  
points and a  
\$15.0 million  
second  
mezzanine loan  
at LIBOR plus  
225 basis points.  
This note has  
three one-year  
extension  
options.

- (10) This loan has one one-year extension option. The loan supporting this facility is subject to daily valuations by Morgan Stanley and we are subject to a margin call if the overall leverage of the facility exceeds certain thresholds.
- (11) This loan has three one-year extension options.
- (12) This loan has two one-year extension options. The rate on this loan, currently at LIBOR plus 180 basis points, decreases to LIBOR plus 170 basis points when the following are met: 85% leased and 75% occupied.
- (13) This loan has one six-month extension option.
- (14) This loan has one one-year extension option.
- (15)

Availability under the line of credit is subject to certain covenants including limitations on total leverage, fixed charge ratio, debt service coverage ratio, minimum tangible net worth, and a specific mix of office and hotel assets and average occupancy of Office Properties. At March 31, 2007, the borrowing capacity remaining under the credit facility was \$160.4 million. The outstanding balance excludes letters of credit issued under our credit facility of \$9.5 million which reduces our maximum borrowing capacity. As of March 31, 2007, the spread to LIBOR was 160 basis points. The spread to LIBOR on this loan decreases to 150 basis points if we reduce leverage below 45% and it increases to

175 basis points  
if we exceed  
55% leverage.

- (16) The securities are callable at no premium after June and July 2010.
- (17) The overall weighted average interest rate does not include the effect of our cash flow hedge agreements. Including the effect of these agreements, the overall weighted average interest rate would have been 7.23%.

The following table shows information about our consolidated fixed and variable rate debt and does not take into account any extension options, hedging arrangements or our anticipated payoff dates.

(in thousands)	<b>Balance</b>	<b>Percentage of Debt<sup>(1)</sup></b>	<b>Weighted Average Rate</b>	<b>Weighted Average Maturity</b>
Fixed Rate Debt	\$ 1,493,792	62.2%	7.26%	2.6 years
Variable Rate Debt	906,458	37.8	7.14	3.1 years
Total Debt	\$ 2,400,250	100.0%	7.24% <sup>(2)</sup>	2.8 years

- (1) Balance excludes hedges. The percentages for fixed rate debt and variable rate debt, including the \$308.2 million of hedged variable rate debt, are 75.1% and 24.9%,

respectively.

- (2) Including the effect of hedge arrangements, the overall weighted average interest rate would have been 7.23%.

(1) Based on contractual maturity and does not include extension options on Bank of America III Loan, Societe Generale Loan, Guaranty Bank Loan, KeyBank I Construction Loan, California Bank & Trust Loan, US Bank I Loan, Morgan Stanley II Loan or German American Capital Corporation Note.

We are generally obligated by our debt agreements to comply with financial covenants, affirmative covenants and negative covenants, or some combination of these types of covenants. Failure to comply with covenants generally will result in an event of default under that debt instrument. Any uncured or unwaived events of default under our loans can trigger an increase in interest rates, an acceleration of payment on the loan in default, and for our secured debt, foreclosure on the property securing the debt. In addition, a default by us or any of our subsidiaries with respect to any indebtedness in excess of \$5.0 million generally will result in a default under the Credit Facility, the 2007 Notes, 2009 Notes, KeyBank I Loan, Morgan Stanley II Loan, Societe Generale I Construction Loan and KeyBank II Loan after the notice and cure periods for the other indebtedness have passed. As of March 31, 2007, no event of default had occurred. Our secured debt facilities generally prohibit loan prepayment for an initial period, allow prepayment with a penalty during a following specified period and allow prepayment without penalty after the expiration of that period.

During the three months ended March 31, 2007, there were no circumstances that required prepayment penalties or increased collateral related to our existing debt.

In addition to the subsidiaries listed in Note 1, Organization and Basis of Presentation, certain other of our subsidiaries were formed primarily for the purpose of obtaining secured and unsecured debt or joint venture financings. These entities, all of which are consolidated and are grouped based on the Properties to which they relate, are: Funding One Properties (CREF One Parent, L.P., CREF One Parent GP, LLC, CREF One Holdings, L.P., CRE Management One, LLC); Funding III Properties (CRE Management III Corp.); Funding IV Properties (CRE Management IV Corp.); Funding V Properties (CRE Management V Corp.); Funding VIII Properties (CRE Management VIII, LLC); Funding XII Properties (CREF XII Parent GP, LLC, CREF XII Parent, L.P., CREF XII Holding GP, LLC, CREF XII Holdings, L.P., CRE Management XII, LLC); Spectrum Center (Spectrum Mortgage Associates, L.P., CSC Holdings Management, LLC, Crescent SC Holdings, L.P., CSC Management, LLC); The BAC-Colonnade Building (CEI Colonnade Holdings, LLC); Crescent Finance Company, Crescent Real Estate Capital MS, L.P. and Crescent Real Estate Capital GS, L.P.

## **9. INTEREST RATE SWAPS AND CAPS**

We use derivative financial instruments to convert a portion of our variable rate debt to fixed rate debt and to manage the fixed to variable rate debt ratio. As of March 31, 2007, we had interest rate swaps and interest rate caps designated as cash flow hedges, which are accounted for in conformity with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities – an Amendment of FASB Statement No. 133* and SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*.

Our interest rate swaps and caps are designated as cash flow hedge agreements, which are included in the Other assets, net and Accounts payable, accrued expenses and other liabilities line items in the Consolidated Balance Sheets. Additional interest expense and unrealized gains (losses) are recorded in Accumulated other comprehensive income, or OCI, for the three months ended March 31, 2007. For the three months ended March 31, 2007, the fair value of our interest rate swaps and caps and the reduction to our interest expense recorded was not significant to our financial condition or results of operations. We recognized a change in unrealized gains (losses) in OCI which was not significant to our results of operations. In addition, one of our unconsolidated companies has an interest rate swap, which did not recognize a change in unrealized gains (losses) for the three months ended March 31, 2007.

We have designated our cash flow hedge agreements as cash flow hedges of LIBOR-based monthly interest payments on a designated pool of variable rate LIBOR indexed debt. The interest rate swaps for our consolidated entities have been and are

**Table of Contents**

**CRESCENT REAL ESTATE EQUITIES COMPANY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

expected to remain highly effective. Changes in the fair value of these highly effective hedging instruments are recorded in OCI. The effective portion that has been deferred in OCI will be recognized in earnings as interest expense when the hedged items impact earnings. If an interest rate swap falls outside 80%-125% effectiveness for a quarter, all changes in the fair value of the hedge for the quarter will be recognized in earnings during the current period. If it is determined based on prospective testing that it is no longer likely a hedge will be highly effective on a prospective basis, the hedge will no longer be designated as a cash flow hedge in conformity with SFAS No. 133, as amended. During the three months ended March 31, 2007, one of our unconsolidated companies recognized an amount of hedge ineffectiveness which was not significant to our financial condition or results of operations.

Over the next 12 months, we expect to recognize interest expense related to the effective portions of the cash flow hedge agreements which is not significant to our financial condition or results of operations.

**10. MARKETABLE SECURITIES**

Our marketable securities consist of two types of securities: held to maturity and trading. The following table presents the cost, fair value and unrealized gains and losses as of March 31, 2007 and December 31, 2006, of our held to maturity securities.

(in thousands)	<b>March 31, 2007</b>	<b>December 31, 2006</b>
Cost	\$ 113,601	\$ 115,371
Fair Value	115,058	114,657
Unrealized Gain/(Loss)	1,457	(714)

Held to maturity securities are carried at amortized cost and consist of \$109.2 million and \$111.0 million of defeasance investments at March 31, 2007 and December 31, 2006, respectively, included in Defeasance investments in the accompanying Consolidated Balance Sheets, which consist of U.S. Treasury and government sponsored agency securities purchased for the sole purpose of funding debt service payments on LaSalle Note I and the Nomura Funding VI note. The total cost of held to maturity securities includes \$4.4 million of bonds at March 31, 2007 and December 31, 2006, which is associated with properties classified as held for sale and has been included in the Properties held for disposition, net line item in our Consolidated Balance Sheets.

Trading securities primarily consist of marketable securities purchased in connection with our dividend incentive unit program. These securities are included in Other assets, net in the accompanying Consolidated Balance Sheets and are marked to market value on a monthly basis with the change in fair value recognized in earnings. The fair value of our trading securities was \$0.4 million and \$0.7 million at March 31, 2007 and December 31, 2006, respectively.

**11. COMMITMENTS AND CONTINGENCIES**

The FASB issued Interpretation No. 45, *Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, or FIN 45, requiring a guarantor to disclose its guarantees. For our guarantees on indebtedness, no triggering events or conditions are anticipated to occur that would require payment under the guarantees and management believes the assets associated with the loans that are guaranteed are sufficient to cover the maximum potential amount of future payments and therefore, would not require us to provide additional collateral to support the guarantees. We recorded a liability for the Fresh Choice and U.S. Bank National Association guarantees in an amount not significant to our operations. We have not recorded a liability associated with the other guarantees as they were entered into prior to the adoption of FIN 45. Our guarantees in place as of March 31, 2007, are listed in the table below.

(1) We entered into a Payment and Completion Guaranty with U.S. Bank National Association for the repayment of bonds that were issued by the Northstar Community Housing Corporation to fund construction of an employee housing project. The initial guaranty of \$20.4 million decreases to \$5.1 million once construction is complete and certain conditions are met and decreases further and is eventually released as certain debt service coverage ratios are achieved.

- (2) We provide a \$7.8 million letter of credit to support the payment of interest and principal of the Eagle Ranch Metropolitan District Revenue Development Bonds.
- (3) We provide a guarantee of up to \$1.0 million to GE Capital Franchise Financing Corporation as part of Fresh Choice's bankruptcy reorganization.
- (4) CRDI has been classified as held for sale and included in discontinued operations as of March 31, 2007.

**Other Commitments**

In July 2005, we purchased comprehensive insurance that covers us, contractors and other parties involved in the construction of the Ritz-Carlton hotel and condominium project in Dallas, Texas. Our insurance carrier, which will pay the associated claims as they occur under this program and will be reimbursed by us within our deductibles, requires us to provide a \$1.7 million letter of credit supporting payment of claims. We believe there is a remote likelihood that payment will be required under the letter of credit.

In January 2005, we and the Canyon Ranch founders contributed or sold our investments in certain Canyon Ranch branded entities and properties to two newly formed entities, CR Spa, LLC and CR Operating, LLC, in which we have a 48% common equity interest and the founders hold the remaining 52% interest. In connection with this transaction, we agreed to indemnify the founders regarding the tax treatment of the transaction, not to exceed \$2.5 million, and certain other matters. We believe there is a remote likelihood that payment will ever be required related to these indemnities.

**12. MINORITY INTERESTS**

Minority interests in the Operating Partnership represent the proportionate share of the equity in the Operating Partnership of limited partners other than Crescent. The ownership share of limited partners other than Crescent is evidenced by Operating Partnership units. Of the total outstanding amount of Operating Partnership units, 1,082,250 vested restricted units (2,164,500 common share equivalents) are subject to redemption for cash as part of the 2004 and 2005 Unit Plans. The Operating Partnership pays a regular quarterly distribution to the holders of Operating Partnership units.

Each Operating Partnership unit generally may be exchanged for either two common shares of Crescent or, at the election of Crescent, cash equal to the fair market value of two common shares at the time of the exchange. When a unitholder exchanges a unit, Crescent's percentage interest in the Operating Partnership increases. During the three months ended March 31, 2007, there were 11,878.5 unit options exercised; these units were exchanged for 23,757 common shares of Crescent.

Minority interests in real estate partnerships represent joint venture or preferred equity partners' proportionate share of the equity in certain consolidated real estate partnerships. Income in the real estate partnerships is allocated to minority interests based on weighted average percentage ownership during the year.

The following table summarizes minority interests as of March 31, 2007 and December 31, 2006:

(in thousands)	<b>March 31, 2007</b>	<b>December 31, 2006</b>

(1) Represents one-half the amount of the distribution per unit because each unit is exchangeable for two common shares.

(2) Does not include dividends on unvested restricted units, which will be paid in arrears upon vesting.

**14. INCOME TAXES**

Deferred income taxes reflect the net tax effect of temporary differences between the financial reporting carrying amounts of assets and liabilities of the taxable consolidated entities and the income tax basis. For the three months

ended March 31, 2007, the taxable consolidated entities were comprised of our taxable REIT subsidiaries.

We intend to maintain our qualification as a REIT under Section 856 of the U.S. Internal Revenue Code of 1986, as amended (the Code). As a REIT, we generally will not be subject to federal corporate income taxes as long as we satisfy certain technical requirements of the Code, including the requirement to distribute 90% of our REIT taxable income to our shareholders. Accordingly, we do not believe that we will be liable for current income taxes on our REIT taxable income at the federal level or in most of the states in which we operate. We consolidate certain taxable REIT subsidiaries, which are subject to federal and state income tax. For the three months ended March 31, 2007 and 2006, our income tax expense from continuing operations was \$1.0 million and \$0.8 million, respectively. Our \$1.0 million income tax expense at March 31, 2007 consists primarily of tax expense for the Office Segment.

At March 31, 2007, we had a net current and deferred tax liability of \$7.4 million. SFAS No. 109, *Accounting for Income Taxes*, requires a valuation allowance to reduce the deferred tax assets reported if, based on the weight of the evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The change in the valuation allowance was not significant for the three months ended March 31, 2007.

#### **Adoption of FIN 48**

We adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109*, or FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*, on January 1, 2007. We file income tax returns in the U.S. federal jurisdiction, and various state jurisdictions. Our federal and state income tax returns for the year ended December 31, 2003 and subsequent years are currently subject to examination by the Internal Revenue Service or other

**Table of Contents**

**CRESCENT REAL ESTATE EQUITIES COMPANY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

taxing authorities. Certain of our state income tax returns for the year ended December 31, 2002 also are currently subject to examination.

We recognize accrued interest related to unrecognized tax benefits in the Interest expense line item and any related penalties in General and administrative expenses in our Consolidated Statements of Operations. During the three months ended March 31, 2007, we recognized an amount of interest expense and penalties that was not significant to our financial statements.

As a result of the adoption of FIN 48, we recognized liabilities of \$0.7 million for unrecognized tax benefits and \$0.1 million of related accrued interest (\$0.5 million, net of minority interests and federal tax benefit). This charge was accounted for as a \$0.5 million increase to the January 1, 2007 balance of Accumulated Deficit in our Consolidated Statement of Shareholders' Equity.

The total balance of unrecognized tax benefits was \$ 0.7 million at March 31, 2007. This amount, if recognized, would affect the annual effective tax rate. We do not expect that the total amount of unrecognized tax benefit will significantly increase or decrease over the next twelve months.

**15. RELATED PARTY TRANSACTIONS****Loans to Employees and Trust Managers of the Company for Exercise of Stock Options and Unit Options**

As of March 31, 2007, we had approximately \$37.9 million in loan balances outstanding reflected in the Additional paid-in capital line item in the Consolidated Balance Sheets, inclusive of current interest accrued of approximately \$0.2 million, to certain of our employees and trust managers on a recourse basis under stock and unit incentive plans pursuant to an agreement approved by our Board of Trust Managers and its Executive Compensation Committee. The employees and the trust managers used the loan proceeds to acquire common shares of Crescent pursuant to the exercise of vested stock and unit options. The loans bear interest at 2.52% per year, payable quarterly, mature on July 28, 2012, and may be repaid in full or in part at any time without premium or penalty. Mr. Goff had a loan representing \$26.4 million of the \$37.9 million total outstanding loans at March 31, 2007. No conditions exist at March 31, 2007 which would cause any of the loans to be in default.

**16. SEVERANCE AND OTHER RELATED COSTS**

During the first quarter of 2007, the Board of Trust Managers approved and we announced our intentions to implement a Strategic Plan to become a pure play office REIT. Key elements of this plan include selling our resort and hotel properties, certain resort residential developments, and certain office properties in Dallas, Austin, Phoenix and Seattle. These asset sales are expected to be completed by the end of 2007 and as a result of these sales, we will significantly reduce debt and general and administrative costs.

As part of this Strategic Plan, we expect to incur a total of approximately \$4.9 million severance and other related charges during 2007, of which \$4.3 million has been incurred and a liability recorded, for the three months ended March 31, 2007. The additional \$0.6 million charges associated primarily with retention costs, will be incurred and a liability recorded, during the period April 1, 2007 through September 30, 2007. The \$4.9 million of severance and other related charges, by segment, is as follows: Office Segment \$1.1 million; Resort Residential Development Segment \$0.2 million; Resort/Hotel Segment \$0.2 million; and Corporate and Other \$3.4 million.

The \$4.3 million of charges incurred are comprised of approximately \$3.1 million associated with an involuntary termination plan, primarily severance costs for headcount reductions in our Fort Worth corporate office and Houston and Dallas regional offices. The severance charges are based on factors including the employees' length of service, salary levels and bonus eligibility. We also incurred charges of approximately \$0.8 million associated with retention charges for employees related to specific Office Properties classified as held for sale. Additionally, legal and advisory costs associated with the Strategic Plan of approximately \$0.4 million were incurred.

We record a liability for severance and other related costs, at fair value, in accordance with SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 addresses the financial accounting and reporting for costs associated with exit or disposal activities, including, but not limited to, one-time involuntary termination benefits, certain contract termination costs and costs to consolidate facilities or relocate employees. We account for on-going benefit arrangements under SFAS No. 112, *Employers' Accounting for Postemployment*

*Benefits*, which requires that a liability be recognized when the costs are probable and reasonably estimable.

(1) These amounts are reflected in the Income from discontinued operations, net of minority interests and taxes line item in our Consolidated Statement of Operations for the three months ended March 31, 2007.

**17. SUBSEQUENT EVENTS****Office Segment****Property Dispositions**

On April 17, 2007, we completed the sale of The Exchange Building, a wholly-owned Office Property located in Seattle, Washington. The sale generated net proceeds of approximately \$78.2 million which were used to pay down our credit facility and we expect to recognize a gain of approximately \$28.0 million.

On April 23, 2007, we completed the sale of our 90% partnership interest in Parkway at Oakhill, a consolidated Office development joint venture with Champion Partners. The sale generated net proceeds of approximately \$12.7 million, which were used for short-term liquidity requirements. We expect to recognize a gain of approximately \$3.3 million, net of promoted interests due our partner and taxes.

On May 3, 2007, we entered into an agreement for the sale of our joint venture interest in an Office Property. As we consolidate this joint venture interest, the Office Property is classified as held for sale and included in discontinued operations as of March 31, 2007 and December 31, 2006. The closing of the sale, subject to customary closing conditions, is anticipated to occur in the second quarter of 2007.

**Other Segment**

On May 4, 2007, we only sold a mezzanine note for approximately \$22.3 million.

**Forward-Looking Statements**

You should read this section in conjunction with the consolidated interim financial statements and the accompanying notes in Item 1, Financial Statements, of this document and the more detailed information contained in our Form 10-K for the year ended December 31, 2006. In management's opinion, all adjustments (consisting of normal and recurring adjustments) considered necessary for a fair presentation of the unaudited interim financial statements are included. Capitalized terms used but not otherwise defined in this section have the meanings given to them in the notes to the consolidated financial statements in Item 1, Financial Statements.

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are generally characterized by terms such as believe, expect, anticipate, will and may.

Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, our actual results could differ materially from those described in the forward-looking statements.

The following factors might cause such a difference:

Risks associated with our Strategic Plan, including:

Our ability to effectively implement the plan, including our ability to achieve targeted reductions in general and administrative expenses;

Our ability to make divestitures called for by the plan on terms that are acceptable, or at all;

A loss of key personnel or highly skilled employees as a result of implementation of the plan or the uncertainty surrounding it;

The rate at which we will determine to make distributions to our shareholders; and

Our ability to effectively implement our ultimate strategy respecting our investment in the Canyon Ranch business;

Our ability to make the repayments and redemptions of our indebtedness and preferred equity contemplated by the plan together with our ability to reinvest available funds at anticipated returns and consummate anticipated office acquisitions and dispositions on favorable terms and within anticipated time frames;

Our ability, at our Office Properties, to timely lease unoccupied square footage and timely re-lease occupied square footage upon expiration or termination on favorable terms, which properties continue to be adversely affected by existing real estate conditions (including the vacancy levels in particular markets, decreased rental rates and competition from other properties) and which may also be adversely affected by general economic downturns;

Adverse changes in the financial condition of existing office customers and the ability of these office customers to pay rent;

Lack of control and limited flexibility in dealing with our jointly owned investments;

The ability of El Paso Energy to satisfy its obligations to pay rent and termination fees in accordance with the terms of its agreement with us;

The concentration of a significant percentage of our office assets in Texas;

Pending our sale of our resort and hotel properties and our resort residential development business, risks associated with owning and operating those properties and businesses, including:

**Table of Contents**

- o The ability of our Resort Residential Development Segment to develop, sell and deliver units and lots within anticipated time frames and within anticipated profit margins;
- o Deterioration in the market or in the economy generally and increases in construction cost associated with development of residential land or luxury residences, including single-family homes, town homes and condominiums; and
- o Deterioration in our resort/business-class hotel markets or in the economy generally and increase in construction cost associated with the development of resort/hotel properties;

Financing risks, such as our ability to generate revenue sufficient to service and repay existing or additional debt, increases in debt service associated with increased debt and with variable rate debt, our ability to meet financial and other covenants, liquidity risks related to the use of warehouse facilities governed by repurchase agreements to fund certain of our mezzanine notes, and our ability to consummate financings and refinancings on favorable terms and within any applicable time frames;

Reduced availability of insurance coverage on our owned properties for losses due to catastrophic events, such as windstorms and floods;

The inherent risk our mezzanine notes, which are structurally or contractually subordinated to senior debt, may become unsecured as a result of foreclosure by a senior lender on its collateral and are riskier than conventional mortgage loans;

Our failure to have effective internal control over financial reporting as a result of three incorrect accounting policies that constituted a material weakness, which have been described in more detail in our filings with the SEC;

The existence of complex regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, the effect of the new Texas franchise tax legislation on Texas real estate investment trusts and the adverse consequences of the failure to qualify as a REIT; and

Other risks detailed from time to time in our filings with the SEC.

Given these uncertainties, readers are cautioned not to place undue reliance on such statements. We are not obligated to update these forward-looking statements to reflect any future events or circumstances.

**Overview**

We are a REIT with assets and operations divided into four investment segments: Office, Resort Residential Development, Resort/Hotel and Temperature-Controlled Logistics. Our strategy, announced on March 1, 2007, whereby we adopted a plan, which we refer to as the Strategic Plan, is designed to simplify our business model by concentrating on our core Office Properties business. After executing our Strategic Plan, our remaining office portfolio is expected to consist of 22.6 million square feet, of which 11.7 million square feet, or 52%, will be owned in joint ventures. Our effective ownership will be 14.0 million square feet.

The key elements of the Strategic Plan include:

*Sale of our resort and hotel properties.* Properties to be sold include the Fairmont Sonoma Mission Inn & Spa®, Ventana Inn & Spa in Big Sur, California, the Park Hyatt Beaver Creek Resort & Spa, and three business-class hotels.

*Sale of resort residential developments.* Properties and assets to be sold include Crescent Resort Development, Inc., Desert Mountain Development Corporation and the Sonoma Golf Club.

*Opportunistic sale of office properties.* Properties to be sold include virtually all suburban Dallas properties and all Austin properties, as well as our single assets in Phoenix, Arizona, and Seattle, Washington.

*Reduction of general and administrative expenses.* Implementation of savings began immediately on March 1, 2007 and is expected to be fully phased in by the end of 2007.

*Use of sales proceeds to retire debt.* We plan to first use the proceeds from asset sales to retire debt. We expect that our balance sheet will be significantly strengthened and our cost of capital lowered, giving us capacity for growth.

*Alignment of dividend.* We intend to align our dividend with industry-accepted pay-out ranges to allow for retention of capital for growth.

In addition to the above elements, we are considering alternatives for our interest in Canyon Ranch® in conjunction with the founders of Canyon Ranch.

## **Table of Contents**

See the Recent Developments discussion below for our first quarter 2007 achievements in executing our Strategic Plan, including purchase and sales agreements associated with the sale of certain Resort/Hotel Properties, the sale of certain Office Properties and the implementation of general and administrative savings initiatives and associated severance and other related charges incurred. We have maintained our current dividend in first quarter 2007, and will communicate our dividend plans as we execute asset sales. Additionally, refer to the Liquidity and Capital Resources section in this Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, for a discussion of the use of proceeds associated with debt retirement resulting from executing our Strategic Plan.

### **Recent Developments**

#### **Office Segment**

##### **Property Dispositions**

On April 17, 2007, we completed the sale of The Exchange Building, a wholly-owned Office Property located in Seattle, Washington. The sale generated net proceeds of approximately \$78.2 million which were used to pay down our credit facility and we expect to recognize a gain of approximately \$28.0 million.

On April 23, 2007, we completed the sale of our 90% partnership interest in Parkway at Oakhill, a consolidated Office development joint venture with Champion Partners. The sale generated net proceeds of approximately \$12.7 million, which were used for short-term liquidity requirements. We expect to recognize a gain of approximately \$3.3 million, net of promoted interests due our partner and taxes.

On May 3, 2007, we entered into an agreement for the sale of our joint venture interest in an Office Property. As we consolidate this joint venture interest, the Office Property is classified as held for sale and included in discontinued operations as of March 31, 2007 and December 31, 2006. The closing of the sale, subject to customary closing conditions, is anticipated to occur in the second quarter of 2007.

##### **Significant Tenant Lease Termination**

In June 2005, we entered into an agreement with our largest office tenant, El Paso Energy Services Company and certain of its subsidiaries, which will terminate El Paso's leases relating to a total of 888,000 square feet at Greenway Plaza in Houston, Texas, effective December 31, 2007. Under the agreement, El Paso is required to pay us \$65.0 million in termination fees in periodic installments through December 31, 2007, and \$62.0 million in rent according to the original lease terms from July 1, 2005 through December 31, 2007. As of March 31, 2007, we have collected \$35.0 million of the lease termination fee. For the three months ended March 31, 2007 and 2006, we recognized \$3.4 million and \$8.8 million, respectively, in net termination fees, which includes accelerated termination fees and contractual full-service rents resulting from the re-lease of approximately 483,000 square feet. As of March 31, 2007, El Paso was current on all rent obligations.

##### **Resort/Hotel Segment**

On March 5, 2007, we and Walton TCC Hotel Investors V, L.L.C., the Purchaser, entered into a series of purchase and sale agreements which were amended on March 23, 2007 effective as of March 5, 2007 pursuant to which, among other things, we agreed to sell our rights, title and interest in the Fairmont Sonoma Mission Inn & Spa®, the Sonoma Golf Club, the Ventana Inn & Spa®, the Park Hyatt Beaver Creek Resort & Spa, the Omni Austin hotel, the Denver Marriott hotel and the Renaissance Houston hotel.

On April 2, 2007, Walton terminated the purchase agreements at the end of their due diligence period.

On April 6, 2007, the original purchase agreements were amended and reinstated to adjust the total gross purchase price and to include the Austin Centre office building adjacent to the Omni Austin hotel. The total gross purchase price is approximately \$620.5 million. Our share of the gross purchase price, determined after taking into account the interests of our partners in the sales and incentive payments due as a result of the sales, is approximately \$580.0 million. The Purchaser has paid a nonrefundable earnest money deposit of approximately \$11.0 million. The closing of the transaction, subject to the satisfaction of certain customary closing conditions, is anticipated to occur during the second quarter of 2007.

##### **General and Administrative Expense Reduction**

As part of this Strategic Plan, we expect to incur a total of approximately \$4.9 million severance and other related charges during 2007, of which \$4.3 million has been incurred and a liability recorded, for the three months

ended March 31, 2007. The \$4.9 million of severance and other related charges, by segment, is as follows: Office Segment \$1.1 million; Resort Residential Development Segment \$0.2 million; Resort/Hotel Segment \$0.2 million; and Corporate and Other \$3.4 million. The remaining \$0.6 million charges associated primarily with future retention costs, will be incurred and a liability recorded, during the period April 1, 2007 through September 30, 2007.

**Table of Contents**

The \$4.3 million of charges incurred are comprised of approximately \$3.1 million associated with an involuntary termination plan, primarily severance costs for headcount reductions in our Fort Worth corporate office and Houston and Dallas regional offices. The severance charges are based on factors including the employees' length of service, salary levels and bonus eligibility. We also incurred charges of approximately \$0.8 million associated with retention charges for employees related to specific Office Properties classified as held for sale. Additionally, legal and advisory costs associated with the Strategic Plan of approximately \$0.4 million were incurred.

We record a liability for severance and other related costs at fair value, in accordance with SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 addresses the financial accounting and reporting for costs associated with exit or disposal activities, including, but not limited to, one-time involuntary termination benefits, certain contract termination costs and costs to consolidate facilities or relocate employees. We account for on-going benefit arrangements under SFAS No. 112, *Employers' Accounting for Postemployment Benefits*, which requires that a liability be recognized when the costs are probable and reasonably estimable.

The liability balances for accrued severance and other related charges, by segment, were as follows as of March 31, 2007:

	<b>Office</b>	<b>Resort Residential Development</b>	<b>Resort/ Hotel</b>	<b>Corporate and Other</b>	<b>Total</b>
Balance as of December 31, 2006	\$	\$	\$	\$	\$

Balance as of March 31, 2007	\$ 960,566	\$ 170,995	\$ 190,737	\$ 2,076,435	\$ 3,398,733

<sup>(1)</sup> These amounts are reflected in the Income from discontinued operations, net of minority interests and taxes line item in our Consolidated Statement of Operations for the three months ended March 31, 2007.

**Other Segment****Mezzanine Notes**

Mezzanine loans are reflected in the Notes receivable, net line item in the consolidated financial statements. Mezzanine loans are loans that are subordinate to a conventional first mortgage loan and senior to the borrower's equity in a transaction. These loans may be in the form of a junior participating interest in the senior debt or in the form of loans to the direct or indirect parent of the property owner secured by pledges of ownership interests in entities that directly or indirectly control the real property or subordinated loans secured by second mortgage liens on the property.

At March 31, 2007, we had approximately \$122.0 million of mezzanine notes outstanding which mature in 2007 through 2010 and had a weighted average interest rate of 14.08%. During the first quarter of 2007, we recorded an impairment charge of \$1.9 million associated with one of our mezzanine notes. On May 4, 2007, we sold this mezzanine note for approximately \$22.3 million.

### 2007 Operating Performance

#### Office Segment

The following table shows the performance factors on stabilized properties<sup>(1)</sup>, excluding properties held for sale, used by management to assess the operating performance of the Office Segment:

	<b>2007</b>	<b>2006</b>
Economic Occupancy <sup>(2)</sup> (at March 31 and December 31)	90.6%	90.5%
Leased Occupancy <sup>(3)</sup> (at March 31 and December 31)	93.4%	93.7%

### Resort/Hotel Segment

The following table shows the performance factors used by management to assess the operating performance of our Resort/Hotel Properties. The Resort/Hotel Properties were classified as held for sale and included in discontinued operations as of March 31, 2007. See Recent Developments section above for a discussion of the current status of

these Properties.

(1) Same-Store NOI (net operating income) represents net income excluding depreciation and amortization, interest expense and rent expense for Resort/Hotel Properties owned for the entirety of the comparable periods.

(2) The decrease in Same-Store NOI is primarily related to Park Hyatt Beaver Creek Resort and Spa's conversion of 85 rooms into additional space in the Allegria Spa and 15 fractional units for sale in our Resort Residential Development Segment.

**Comparison of the three months ended March 31, 2007 to the three months ended March 31, 2006 (Restated).**

**Property Revenues**

Total property revenues increased \$0.4 million, or 0.5%, to \$79.1 million for the three months ended March 31, 2007, as compared to \$78.7 million for the three months ended March 31, 2006. The primary components of the increase in total property revenues are discussed below.

Office Property revenues increased \$0.2 million, or 0.2%, to \$77.4 million, primarily due to increased recovery revenue and other income, partially offset by a decrease in lease termination fees.

Other Property revenues increased \$0.2 million, or 13.3%, to \$1.7 million, primarily due to an increase in Resort Residential Development Property revenues related to an increase in lot sales at Houston Area Development Corporation.

**Property Expenses**

Total property expenses increased \$1.6 million, or 4.1%, to \$40.4 million for the three months ended March 31, 2007, as compared to \$38.8 million for the three months ended March 31, 2006. The primary components of the decrease in total property expenses are discussed below.

Office Property expenses increased \$1.0 million, or 2.7%, to \$38.2 million, primarily due to increased non-controllable expenses (utilities, insurance and taxes) for the three months ended March 31, 2007 compared to the same period in 2006.

Other Property expenses increased \$0.6 million, or 37.5%, to \$2.2 million, primarily due to an increase in Resort Residential Development Property expenses as a result of increased marketing costs related to the Ritz-Carlton Phase II development.

**Other Income/Expense**

Total expenses, net of other income, increased \$15.7 million, or 31.2%, to \$66.1 million for the three months ended March 31, 2007, compared to \$50.4 million for three months ended March 31, 2006. The primary components of the increase in total expenses are discussed below.

**Other Income**

Other income decreased \$10.5 million, or 61.8%, to \$6.5 million for the three months ended March 31, 2007, as compared to \$17.0 million for the three months ended March 31, 2006. The primary components of the decrease in other income are discussed below.

Interest and other income decreased \$8.3 million to \$7.3 million, primarily due to \$6.2 million in prepayment fees received on two mezzanine loans which were paid off during the three months ended March 31, 2006; and

Equity in net income of unconsolidated companies decreased \$2.1 million to a \$0.6 million loss, primarily due to:

- § A decrease of \$2.3 million in Temperature-Controlled Logistics equity in net income primarily attributable to:
  - o \$0.7 million increase in interest expense due to additional debt resulting from the refinancing in December 2006 and higher capital lease obligations resulting from the ConAgra facilities purchase;
  - o \$0.7 million increase in depreciation expense due to the purchase of the ConAgra facilities in fourth quarter of 2006 and improvements to existing facilities;
  - o \$0.6 million decrease in operating margins primarily due to additional corporate overhead costs; and
  - o \$0.6 million gain on condemned facility in the first quarter of 2006.

**Other Expenses**

Other expenses increased \$5.2 million, or 7.7%, to \$72.7 million for the three months ended March 31, 2007, compared to \$67.5 million for the three months ended March 31, 2006. The primary components of the increase in other expenses are discussed below.

Severance and other related costs increased \$3.0 million, primarily attributable to corporate severance and retention costs associated with the March 1, 2007 announcement of our Strategic Plan designed to simplify our business model and to become a pure play office REIT and reduce corporate general and administrative expenses;

**Table of Contents**

Depreciation expense increased \$1.9 million, primarily due to additions to leasehold and building improvements and lease commissions;

Impairment charges increased \$1.9 million associated with a mezzanine note; and

Interest expense increased \$1.8 million, primarily due to changes in the weighted average debt balance and in the hedged weighted average interest rate; partially offset by

A decrease in Corporate general and administrative costs of \$4.5 million, or 30.4%, to \$10.3 million due primarily to:

§ a decrease of \$3.3 million in compensation expense associated with restricted units granted under our long-term incentive compensation plans in December 2004 and May 2005; and

§ a decrease of \$0.7 million in expenses related to Sarbanes-Oxley compliance and travel and entertainment.

## **Table of Contents**

Income from discontinued operations on assets sold and held for sale increased \$11.4 million, or 265.1%, to \$15.7 million. The primary components of the increase are described below:

Resort Residential Development Property revenues decreased \$15.3 million, or 15.6%, to \$82.5 million, primarily attributable to:

- § a decrease of \$12.3 million in Crescent Resort Development, Inc. revenues primarily related to:
  - o a decrease of \$60.0 million primarily related to product mix and units available for sale in 2006 versus 2007 at Hummingbird Lodge in Bachelor Gulch, Colorado, Northstar Iron Horse Lake Tahoe, California, and Creekside Townhomes in Denver, Colorado, which had sales in the three months ended March 31, 2006, but no sales in the same period 2007; partially offset by
  - o an increase of \$42.8 million primarily related to product mix and units available for sale in 2007 versus 2006 at Village Walk and EW Hotel Residences in Beaver Creek, Colorado, Northstar Big Horn in Lake Tahoe, California, and Brownstones-Phase 1 in Denver, Colorado, which had sales in the three months ended March 31, 2007, but no sales in the same period 2006; and
  - o an increase of \$5.0 million primarily related to product mix, lots and units available for sale in 2007 versus 2006 at Old Greenwood and Gray s Crossing in Lake Tahoe, California, Delgany in Denver, Colorado, and Eagle Ranch in Eagle, Colorado, which had sales in the three months ended March 31, 2007, but reduced sales in the same period 2006; and
- § a decrease of \$2.9 million at Desert Mountain primarily related to a decrease of \$2.0 million in other revenue primarily resulting from reduced membership transfer fee income activity.

Resort Residential Development Property expense decreased \$22.0 million, or 24.5%, to \$68.0 million, primarily attributable to a decrease of \$20.8 million in Crescent Resort Development, Inc. expenses primarily related to:

- § a decrease of \$57.1 million primarily related to product mix and units available for sale in 2006 versus 2007 at Hummingbird Lodge in Bachelor Gulch, Colorado, Northstar Iron Horse in Lake Tahoe, California, and Creekside Townhomes in Denver, Colorado, which had sales in the months ended March 31, 2006, but no sales in the same period 2007; partially offset by
- § an increase of \$33.9 million primarily related to product mix and units available for sale in 2007 versus 2006 at Village Walk and EW Hotel Residences in Beaver Creek, Colorado, Northstar Big Horn in Lake Tahoe, California, and Brownstones-Phase 1 in Denver, Colorado, which had sales in the three months ended March 31, 2007, but no sales in the same period 2006; and
- § an increase of \$3.4 million primarily related to product mix, lots and units available for sale in 2007 versus 2006 at Old Greenwood and Gray s Crossing in Lake Tahoe, California, Delgany in Denver, Colorado, and Eagle Ranch in Eagle, Colorado, which had sales in the three months ended March 31, 2007, but reduced sales in the same period 2006.

Depreciation and amortization expense decreased \$4.9 million, or 29.2%, to \$11.8 million, primarily attributable to two months of depreciation expense on assets held for sale beginning March 1, 2007, compared to a three-month period for the same period in 2006.

### **Liquidity and Capital Resources**

#### **Overview**

Our primary sources of liquidity are cash flow from operations, our credit facility, construction loans and proceeds from asset sales and joint ventures. Our short-term liquidity requirements through March 31, 2008 consist primarily of our normal operating expenses, maturity of our 2007 Notes, maturity of certain secured debt, recurring principal and interest payments on our debt, Resort Residential Development capital expenditures, capital expenditures for operating properties, potential redemption of restricted units from our Operating Partnership and distributions to our shareholders. Our long-term liquidity requirements are substantially similar to our short-term

liquidity requirements other than the level of debt obligations maturing after March 31, 2008.

**Table of Contents**

We intend to use the proceeds from the substantial asset sales that we expect to make in accordance with our Strategic Plan which is discussed in the Overview section to this Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations to address many of our long-term liquidity requirements early, including: retiring our 9.25% senior notes due April 2009, the 2007 Notes, selected mortgage debt, our Series B Preferred Shares and outstanding borrowings under our revolving credit facility. Additionally, if and when we sell our Resort Residential Development Properties, we expect to eliminate all related construction debt as well as future Resort Residential capital expenditures.

**Short-Term Liquidity**

We believe that cash flow from operations will be sufficient to cover our normal operating expenses, interest payments on our debt, distributions on our preferred shares, non-revenue enhancing capital expenditures and revenue enhancing capital expenditures (including property improvements, tenant improvements and leasing commissions) in 2007. The cash flow from our Resort Residential Development Segment is cyclical in nature and primarily realized in the last quarter of each year. While we expect to sell virtually all of the investments comprising this segment in 2007, we may meet temporary shortfalls in operating cash flow caused by this cyclical nature through working capital draws under our credit facility, additional borrowings or asset sales in accordance with our Strategic Plan. As of March 31, 2007, we had up to \$160.4 million of borrowing capacity available under our credit facility. If our Board of Trust Managers continues to declare distributions on our common shares at current levels, our cash flow from operations, after payments discussed above, is not expected to fully cover such distributions on our common shares in 2007. However, as part of our Strategic Plan, we intend to align our distributions with industry-accepted pay-out ranges to allow for retention of capital for growth. We will communicate our distribution plans as we execute asset sales. In the meantime, we intend to use proceeds from any asset sales and joint ventures and borrowings under our credit facility to cover any distribution shortfall.

In addition, through March 31, 2008, we may make capital expenditures that are not in the ordinary course of operations of our business of approximately \$107.0 million, primarily relating to new developments of investment property. We anticipate funding these capital expenditures primarily through construction loans and borrowings under our credit facility, additional debt and any asset sales. As of March 31, 2007, we also had maturing debt obligations of \$1.0 billion through March 31, 2008 consisting of the following:

(in millions)

<b>Contractual</b>		<b>Balance</b>

**Table of Contents****Long-Term Liquidity**

Our long-term liquidity requirements as of March 31, 2007, consist primarily of \$1.4 billion of debt maturing after March 31, 2008, most of which we expect to repay in 2007 from asset sales as discussed above. We anticipate meeting these obligations, to the extent that these obligations remain outstanding after we have fully implemented our Strategic Plan, primarily through refinancing maturing debt with long-term secured and unsecured debt, construction loans and through other debt and equity financing alternatives, as well as cash proceeds from joint ventures.

We anticipate that long-term liquidity requirements will also include amounts required for future unidentified property acquisitions, mezzanine notes and capital expenditures. Property acquisitions and capital expenditures are expected to be funded with any cash reserves remaining from asset sales made in accordance with our Strategic Plan, available cash flow from operations, borrowings under our credit facility, construction and permanent secured financing, other debt and equity financing alternatives, as well as cash proceeds from future asset sales and joint ventures. Mezzanine notes are expected to be funded with borrowings under our credit facility and through the use of our warehouse facility governed by a repurchase agreement.

**Cash Flows**

Our cash flow from operations is primarily attributable to the operations of our Office, Resort Residential Development and Resort/Hotel Properties. The level of our cash flow depends on multiple factors, including rental rates and occupancy rates at our Office Properties, sales of lots and units at our Resort Residential Development Properties and room rates and occupancy rates at our Resort/Hotel Properties. Our net cash provided by operating activities is also affected by the level of our operating and other expenses, as well as Resort Residential capital expenditures for existing and committed projects.

During the three months ended March 31, 2007, our cash flow from operations was insufficient to fully cover the distributions on our common shares. We funded this shortfall primarily with borrowings under our credit facility.

*Operating Activities*

Our cash used in operating activities of \$17.6 million is attributable to Property operations.

*Investing Activities*

Our cash used in investing activities of \$39.8 million is primarily attributable to:

\$28.4 million for the development of investment properties, due to the development of the Ritz-Carlton hotel development and 3883 Hughes Parkway and Parkway at Oakhill office developments;

\$12.1 million for non-revenue enhancing tenant improvement and leasing costs for Office Properties;

\$8.8 million of property improvements for Office and Resort/Hotel Properties;

\$3.4 million for development of amenities at the Resort Residential Development Properties; and

\$1.3 million additional investment in unconsolidated companies, primarily related to our investment in Riverfront Village and Crescent Five Post Oak Park, L.P.

The cash used in investing activities is partially offset by:

\$9.3 million in proceeds from notes receivable, primarily due to \$6.5 million payoff of certain Resort Residential Development notes and a note secured by land in downtown Houston. The remaining amount relates to principal payments on various notes;

\$2.7 million proceeds from defeasance investment maturities and other securities, primarily due to the maturity of the securities securing the LaSalle Note I and the Nomura Note; and

\$2.1 million return of investment in unconsolidated companies, primarily due to the distributions received from Main Street Partners, L. P.

**Table of Contents***Financing Activities*

Our cash provided by financing activities of \$46.8 million is primarily attributable to:

\$70.5 million net proceeds from borrowings under our credit facility;

\$19.5 million proceeds from other borrowings, primarily due to distributions secured by construction draws on our Office developments and the Ritz-Carlton hotel development;

\$17.0 million net proceeds from borrowings for construction costs at the Resort Residential Development Properties;

\$1.9 million proceeds from capital contributions from our joint venture partners; and

\$0.7 million proceeds from the exercise of share and unit options.

The cash provided by financing activities is partially offset by:

\$45.8 million distributions to common shareholders and unitholders;

\$8.0 million distributions to preferred shareholders;

\$5.4 million payments under other borrowings, primarily due to scheduled principal amortization; and

\$3.6 million capital distributions to joint venture partners.

**Liquidity Requirements****Debt Financing Summary**

The following table shows summary information about our debt, including our pro rata share of unconsolidated debt, as of March 31, 2007. **Table of Contents****Significant Capital Expenditures**

As of March 31, 2007, we had unfunded capital expenditures of approximately \$107.0 million relating to capital investments that are not in the ordinary course of operations of our business segments. The table below specifies our requirements for capital expenditures not factoring in project level financing, the amounts funded as of March 31, 2007, and amounts committed to be funded (future funding classified between short-term and long-term capital requirements):

(1) All amounts are approximate.

(2) Reflects our estimate of the breakdown between short-term and long-term capital expenditures.

(3) We have committed to a first phase office development of 239,000 square

feet on land that we own within the Hughes Center complex. We closed a \$52.3 million construction loan in the third quarter of 2005. The building was completed and we received a certificate of occupancy in April 2007.

- (4) In March 2006, we entered into a joint venture agreement with Champion Partners. The joint venture has committed to develop a 145,475 square-foot, two-building office complex in Austin, Texas. The joint venture has an \$18.3 million construction loan to fund construction of this project. Amounts in the table represent our portion (90%) of total project costs. On April 24, 2007, we completed the sale of this development and we satisfied the remainder of our capital obligation concurrently

with the sale.  
See Recent  
Developments  
section above.

- (5) These projects are classified as held for sale and included in discontinued operations as of March 31, 2007.
- (6) We entered into agreements with Ritz-Carlton Hotel Company, L.L.C. for us to develop a 172 room luxury hotel in Lake Tahoe, California. The new luxury property will also include the Ritz-Carlton Residences.
- (7) The funding of future potential capital expenditures is dependent upon obtaining a certain level of unit pre-sales and construction financing. In the interim, we have committed up to an additional \$15.3 million in development costs on the project.
- (8) As of March 31, 2007, we had invested \$95.3 million in

Tahoe Mountain Club, which includes the acquisition of land and development of golf courses and club amenities. This table includes the development planned for 2007 only. We anticipate collecting membership deposits which will be utilized to fund a portion of the development costs.

- (9) We entered into agreements with Ritz-Carlton Hotel Company, L.L.C. for us to develop the first Ritz-Carlton hotel and condominium project in Dallas, Texas. The development plans include a Ritz-Carlton with approximately 218 hotel rooms and 70 residences. Construction on the development is anticipated to be completed in the third quarter of 2007. We have a \$169.0 million construction line

of credit from KeyBank for the construction of this project.

- (10) We entered into agreements with Ritz-Carlton Hotel Company, L.L.C. for us to develop an additional 96 Ritz-Carlton residences and 4 townhomes adjacent to the Phase I development.
- (11) The funding of future potential capital expenditures is dependent upon obtaining a certain level of unit pre-sales and construction financing.
- (12) In April 2006, we began renovations at the Park Hyatt Beaver Creek in Avon, Colorado, which consist of the addition of air conditioning, upgrades to the common areas and taking 30 rooms out of service to expand the Allegria Spa within the hotel. The spa expansion and common area upgrade were

completed in  
December 2006.

**Table of Contents****Units Subject to Redemption**

Restricted units granted under the 2004 and 2005 Unit Plans vest in 20% increments when the average closing price of Crescent common shares for the preceding 40 trading days achieves certain targets. Each vested restricted unit will be exchangeable, beginning on the second anniversary of the date of grant, for cash equal to the value of two Crescent common shares based on the closing price of the common shares on the date of exchange, and subject to a six-month hold period following vesting, unless, prior to the date of the exchange, Crescent requests and obtains shareholder approval authorizing it, at its discretion, to deliver instead two common shares in exchange for each such restricted unit. Regular quarterly distributions accrue on unvested restricted units and are payable upon vesting of the restricted units.

The following table presents the amount of restricted unit grants, vested restricted units and the redemption amount by year.

### Off-Balance Sheet Arrangements Guarantee Commitments

Our guarantees in place as of March 31, 2007, are listed in the table below. For the guarantees on indebtedness, no triggering events or conditions are anticipated to occur that would require payment under the guarantees and management believes the assets associated with the loans that are guaranteed are sufficient to cover the maximum potential amount of future payments and therefore, would not require us to provide additional collateral to support the guarantees.

(1) We entered into a Payment and Completion Guaranty with U.S. Bank National Association for the repayment of bonds that were issued by the Northstar Community Housing Corporation to fund construction of

an employee housing project. The initial guaranty of \$20.4 million decreases to \$5.1 million once construction is complete and certain conditions are met and decreases further and is eventually released as certain debt service coverage ratios are achieved.

- (2) We provide a \$7.8 million letter of credit to support the payment of interest and principal of the Eagle Ranch Metropolitan District Revenue Development Bonds.
- (3) We provide a guarantee of up to \$1.0 million to GE Capital Franchise Financing Corporation as part of Fresh Choice's bankruptcy reorganization.
- (4) CRDI has been classified as held for sale and

included in  
discontinued  
operations as of  
March 31, 2007.

**Other Commitments**

In July 2005, we purchased comprehensive insurance that covers us, contractors and other parties involved in the construction of the Ritz-Carlton hotel and condominium project in Dallas, Texas. Our insurance carrier, which will pay the associated claims as they occur under this program and will be reimbursed by us within our deductibles, requires us to provide a \$1.7 million letter of credit supporting payment of claims. We believe there is a remote likelihood that payment will be required under the letter of credit.

In January 2005, we and the Canyon Ranch founders contributed or sold our investments in certain Canyon Ranch branded entities and properties to two newly formed entities, CR Spa, LLC and CR Operating, LLC, in which we have a 48% common equity interest and the founders hold the remaining 52% interest. In connection with this transaction, we agreed to indemnify the founders regarding the tax treatment of the transaction, not to exceed \$2.5 million, and certain other matters. We believe there is a remote likelihood that payment will ever be required related to these indemnities.

these loans. The  
cash flow from  
defeasance  
investments  
(principal and  
interest)  
matches the  
total debt  
service payment

of the loans.

- (6) This loan has three one-year extension options.
- (7) The investments can be financed through March 2008, after which four equal payments are due quarterly. The loan has a provision for a one-year extension which is subject to Morgan Stanley's approval.
- (8) The loans supporting these facilities are subject to daily valuations by Morgan Stanley. We are subject to a margin call if the overall leverage of the facility exceeds certain thresholds.
- (9) This loan has two one-year extension options.
- (10) This loan has one six-month extension option.
- (11) This loan has one one-year extension

option.

- (12) The Credit Facility had borrowing capacity remaining of \$160.4 million. The \$188.5 million outstanding at March 31, 2006, excludes letters of credit issued under the facility of \$9.5 million. We are also subject to financial covenants, which include minimum debt service ratios, maximum leverage ratios and, in the case of the Operating Partnership, a minimum tangible net worth limitation and a fixed charge coverage ratio.

**Table of Contents**

- (13) The overall weighted average interest rate does not include the effect of our cash flow hedge agreements. Including the effect of these agreements, the overall weighted average interest rate would have been 7.23%.

We are generally obligated by our debt agreements to comply with financial covenants, affirmative covenants and negative covenants, or some combination of these types of covenants. The financial covenants to which we are subject include, among others, leverage ratios, debt service coverage ratios and limitations on total indebtedness. The affirmative covenants to which we are subject under our debt agreements include, among others, provisions requiring us to comply with all laws relating to operation of any Properties securing the debt, maintenance of those Properties in good repair and working order, maintaining adequate insurance and providing timely financial information. The negative covenants under our debt agreements generally restrict our ability to transfer or pledge assets or incur additional debt at a subsidiary level, limit our ability to engage in transactions with affiliates and place conditions on our or our subsidiaries' ability to make distributions.

Failure to comply with covenants generally will result in an event of default under that debt instrument. Any uncured or unwaived events of default under our loans can trigger an increase in interest rates, an acceleration of payment on the loan in default, and for our secured debt, foreclosure on the property securing the debt, and could cause the credit facility to become unavailable to us. In addition, an event of default by us or any of our subsidiaries with respect to any indebtedness in excess of \$5.0 million generally will result in an event of default the Credit Facility, the 2007 Notes, 2009 Notes, KeyBank I Loan, Morgan Stanley II Loan, Societe Generale I Construction Loan and KeyBank II Loan, after the notice and cure periods for the other indebtedness have passed. As a result, any uncured or unwaived event of default could have an adverse effect on our business, financial condition, or liquidity.

As of March 31, 2007, no event of default had occurred. Our secured debt facilities generally prohibit loan prepayment for an initial period, allow prepayment with a penalty during a following specified period and allow prepayment without penalty after the expiration of that period. During the three months ended March 31, 2007, there were no circumstances that required prepayment penalties or increased collateral related to our existing debt.

**Unconsolidated Debt Arrangements**

As of March 31, 2007, the total debt of the unconsolidated joint ventures and investments in which we have ownership interests was \$2.4 billion, of which our share was \$710.6 million. We guaranteed \$1.0 million of this debt as of March 31, 2007. Additional information relating to our unconsolidated debt financing arrangements is contained in Note 7, Investments in Unconsolidated Companies, of Item 1, Financial Statements.

**Derivative Instruments and Hedging Activities**

We use derivative financial instruments to convert a portion of our variable rate debt to fixed rate debt and to manage the fixed to variable rate debt ratio. As of March 31, 2007, we had interest rate swaps and interest rate caps designated as cash flow hedges, which converted \$308.2 million of our variable rate debt to fixed rate debt.

Rainwater, our Chairman of our Board of Trust Managers, of which approximately 6% is owned by Darla Moore, who is married to

Mr. Rainwater. Approximately 6% general partner interest is owned by John C. Goff, our Vice-Chairman of our Board of Trust Managers and Chief Executive Officer. The remaining approximately 2% general partnership interest is owned by unrelated parties.

**Table of Contents****Significant Accounting Policies****Critical Accounting Policies**

A summary of our critical accounting policies is included in our Annual Report on Form 10-K for the year ended December 31, 2006, in Management's Discussion and Analysis of Financial Condition and Results of Operations. There have been no significant changes to these policies during 2006, except as described below.

**SFAS No. 146 and SFAS No. 112.** We record a liability for severance and other related costs when incurred, at fair value, in accordance with Financial Accounting Standards Board, or FASB, Statement No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS No. 146 addresses the financial accounting and reporting for costs associated with exit or disposal activities, including, but not limited to, one-time involuntary termination benefits, certain contract termination costs and costs to consolidate facilities or relocate employees. We account for ongoing benefit arrangements under SFAS No. 112, *Employers' Accounting for Postemployment Benefits* which requires that a liability be recognized when the costs are probable and reasonably estimable.

**Adoption of New Accounting Standards**

**FASB Interpretation 48.** In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109*, or FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The standard also provides guidance on derecognizing, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, and are to be applied to all tax positions upon initial adoption of this standard. Only tax positions that meet a more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption of FIN 48. We recognized a liability to record an unrecognized tax benefit and accrued interest of \$0.5 million, net of minority interest and federal tax benefit, due to the initial application of FIN 48. This charge was accounted for as a \$0.5 million increase to the January 1, 2007 balance of Accumulated Deficit in our Consolidated Statement of Shareholders' Equity.

**SFAS No. 157.** In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. The new FASB rule defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, or GAAP, and expands disclosures about fair value measurements. The statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We are currently evaluating the impact, if any, to our financial condition or results of operations upon the adoption of SFAS No. 157.

**EITF 06-8.** At its November 2006 meeting, the Emerging Issues Task Force, or EITF, ratified the consensus regarding Issue No. 06-8, or EITF 06-8, *Applicability of the Assessment of a Buyer's Continuing Investment under FASB Statement No. 66 for Sales of Condominiums*. EITF 06-8 is effective for annual periods beginning after March 15, 2007. The scope of EITF 06-8 is limited to the sale of individual units in a condominium project and requires an entity to evaluate the adequacy of the buyer's initial and continuing investment for purposes of determining whether the sales price is collectible as required to recognize profit using the percentage-of-completion method under paragraph 37 of Statement 66. If the buyer does not meet the initial and continuing investment criteria, the guidance requires use of the deposit method to recognize profit. We anticipate there will be no impact to our financial condition or results of operations upon the adoption of EITF 06-8.

**SFAS No. 159.** In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS 159, which is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted in certain circumstances provided that the entity also elects to adopt the provisions of SFAS 157. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We are currently evaluating the impact, if any, to our financial condition or results of operations upon the adoption of SFAS 159.

**Funds from Operations**

FFO, as used in this document, means:

Net Income (Loss) determined in accordance with GAAP;

excluding gains (or losses) from sales of depreciable operating property;

excluding extraordinary items (as defined by GAAP);

plus depreciation and amortization of real estate assets; and

after adjustments for unconsolidated partnerships and joint ventures.

We calculate FFO available to common shareholders diluted in the same manner, except that Net Income (Loss) is replaced by Net Income (Loss) Available to Common Shareholders and we include the effect of operating partnership unitholder minority interests.

The National Association of Real Estate Investment Trusts, or NAREIT, developed FFO as a relative measure of performance and liquidity of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We consider FFO available to common shareholders diluted and FFO appropriate measures of performance for an equity REIT and for its investment segments. However, FFO available to common shareholders - diluted and FFO should not be considered an alternative to net income determined in accordance with GAAP as an indication of our operating performance.

Accordingly, we believe that to facilitate a clear understanding of our consolidated historical operating results, FFO available to common shareholders diluted should be considered in conjunction with our net income and cash flows reported in the consolidated financial statements and notes to the financial statements. However, our measure of FFO available to common shareholders diluted may not be comparable to similarly titled measures of other REITs because these REITs may apply the definition of FFO in a different manner than we apply it.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

No material changes in our market risk occurred from December 31, 2006 through March 31, 2007. Information regarding our market risk at March 31, 2007, is contained in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Item 4. Controls and Procedures**

**Disclosure Controls and Procedures.** We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports under the Securities Exchange Act of 1934, or the Exchange Act, such as this report on Form 10-Q, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. These controls and procedures are based closely on the definition of disclosure controls and procedures in Rule 13a-15(e) promulgated under the Exchange Act. Rules adopted by the SEC require that we present the conclusions of the Chief Executive Officer and Chief Financial Officer about the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report.

**Internal Control Over Financial Reporting.** Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer, using their cumulative knowledge, experience and judgment as appropriate, and effected by our employees, including management and our Board of Trust Managers, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. This process includes policies and procedures that:

- pertain to the maintenance of records that accurately and fairly reflect the transactions and dispositions of our assets in reasonable detail;

- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are made only in accordance with the authorization procedures we have established; and

- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of any of our assets in circumstances that could have a material adverse effect on our financial statements.

**Limitations on the Effectiveness of Controls.** Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or internal control over financial reporting will prevent all errors and fraud. In designing and evaluating our control system, management recognizes that any control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. Further, the design of a control system must reflect the fact that there are resource constraints, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any that may affect our operations have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that our design will succeed in achieving its stated goals under all potential future conditions. Over time, our current controls may become inadequate because of changes in conditions that cannot be anticipated at the present time, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**Scope of the Evaluation.** The evaluations by our Chief Executive Officer and our Chief Financial Officer of our disclosure controls and procedures and our internal control over financial reporting included a review of procedures and our internal audit, as well as discussions with our Disclosure Committee, independent public accountants and others in our organization, as appropriate. In conducting the evaluation, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*. In the course of the evaluation, we sought to identify data errors, control problems or acts of fraud and to confirm that appropriate corrective action, including process improvements, were being undertaken. The evaluation of our disclosure controls and procedures and our internal control over financial reporting is done on a quarterly basis, so that the conclusions concerning the effectiveness of such controls can be reported in our Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K. Our internal control over financial reporting is also assessed on an ongoing basis by personnel in our accounting department and by our independent auditors in connection with their audit and review activities.

**Table of Contents**

The overall goals of these various evaluation activities are to monitor our disclosure controls and procedures and our internal control over financial reporting and to make modifications as necessary. Our intent in this regard is that the disclosure controls and procedures and internal control over financial reporting will be maintained and updated (including with improvements and corrections) as conditions warrant. Among other matters, we sought in our evaluation to determine whether there were any significant deficiencies or material weaknesses in our internal control over financial reporting, or whether we had identified any acts of fraud involving personnel who have a significant role in our internal control over financial reporting. This information is important both for the evaluation generally and because the Section 302 certifications require that our Chief Executive Officer and our Chief Financial Officer disclose that information to the Audit Committee of our Board of Trust Managers and our independent auditors and also require us to report on related matters in this section of the Annual Report on Form 10-K. In the Public Company Accounting Oversight Board's Auditing Standard No. 2, a significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the ability to initiate, authorize, record, process or report external financial data reliably in accordance with GAAP such that there is more than a remote likelihood that a misstatement of the annual or interim financial statements that is more than inconsequential will not be prevented or detected.

**Periodic Evaluation and Conclusion of Disclosure Controls and Procedures.** Our Chief Executive Officer and Chief Financial Officer have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that such controls and procedures were effective as of the end of the period covered by this report.

**Changes in Internal Control Over Financial Reporting.** Except as described below, we made no changes to our internal controls over financial reporting during the three months ended March 31, 2007, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

As of December 31, 2006, we completed an evaluation of the effectiveness of our internal controls over financial reporting, noting material weaknesses related to three accounting items: calculation of minority interest, refundable fees for club member services, and classification of club membership intangible asset. We have remediated each of these three items through strengthened review procedures and improved training at our corporate office and our consolidated subsidiary to ensure the correct application of generally accepted accounting principles. As a result, management believes that these deficiencies no longer constitute a material weakness in our internal control over financial reporting.

**PART II****Item 1A. Risk Factors**

There have been no material changes in the risk factors previously disclosed in Item 1A of our Form 10-K for the year ended December 31, 2006.

**Item 6. Exhibits**

The exhibits required by this item are set forth on the Exhibit Index attached hereto.
