PROXY STATEMENT
FOR
2008 ANNUAL MEETING OF STOCKHOLDERS**

INFORMATION CONCERNING SOLICITATION AND VOTING

The enclosed proxy is solicited on behalf of the Board of Directors of Rambus Inc. (Rambus or we, us or the Company) for use at our 2008 Annual Meeting of Stockholders (the Annual Meeting) to be held on Friday, May 9, 2008 at 9:00 a.m. local time, and at any postponement or adjournment of the meeting. The purposes of the Annual Meeting are described in the accompanying Notice of Annual Meeting of Stockholders.

The Annual Meeting will be held at the Crowne Plaza Cabana Hotel located at 4290 El Camino Real, Palo Alto, California. Our principal executive offices are located at 4440 El Camino Real, Los Altos, California 94022, our telephone number is (650) 947-5000, and our Internet address is www.rambus.com.

These proxy solicitation materials and the enclosed Annual Report for the fiscal year ended December 31, 2007, including our Annual Report on Form 10-K for the year ended December 31, 2007 (the Form 10-K) were first mailed on or about March 24, 2008, to all stockholders entitled to vote at the meeting. Stockholders may obtain, for the cost of copying, a copy of any exhibits to the Form 10-K by writing to Rambus Inc., 4440 El Camino Real, Los Altos, California 94022, Attention: Secretary.

GENERAL INFORMATION ABOUT THE MEETING

Who May Attend

You may attend the Annual Meeting if you owned your shares, either as a stockholder of record or as a beneficial owner (as described below), as of the close of business on March 10, 2008 (the Record Date).

Stockholders of Record

If your shares are registered directly in your name, then you are considered to be the stockholder of record with respect to those shares, and we are sending these proxy materials directly to you. To attend the meeting as a stockholder of record, please bring with you proper identification.

Beneficial Owners

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and your broker or nominee is forwarding these proxy materials to you. Your broker or nominee is considered to be the stockholder of record with respect to those shares. To attend the meeting as a beneficial owner, please bring with you proper identification and a statement from the broker, bank or other nominee holding your shares that confirms your beneficial ownership of the shares as of the Record Date.

Who May Vote

You may vote at the Annual Meeting if you owned your shares, either as a stockholder of record or as a beneficial owner, as of the close of business on the Record Date. As of that date, we had a total of 104,059,454 shares of common stock outstanding, which were held of record by approximately 804 stockholders. As of the Record Date, we had no shares of preferred stock outstanding. You are entitled to one vote for each share of our common stock that you own.

Table of Contents

Voting Your Proxy

Stockholders of Record

If you hold your shares in your own name as a holder of record, you may instruct the proxy holders how to vote your common stock by:

voting via the internet at www.proxyvote.com,

voting by telephone at 1-800-690-6903, or

signing, dating and mailing the proxy card in the postage-paid envelope that we have provided.

Even if you vote your shares by proxy, you may also choose to attend the meeting and vote your shares in person. If you provide instructions in your completed proxy card, the proxy holders will vote your shares in accordance with those instructions. If you sign and return a proxy card without giving specific voting instructions, your shares will be voted FOR the two proposals to be voted on at the Annual Meeting.

Beneficial Owners

If you are the beneficial owner of shares held in street name, you have the right to direct your broker how to vote. Your broker or nominee has enclosed with these materials or provided voting instructions for you to use in directing the broker or nominee how to vote your shares.

You are invited to attend the meeting and vote your shares in person at the meeting. However, since you are not the stockholder of record, you must obtain and bring with you to the meeting a legal proxy from the broker, bank or other nominee holding your shares that confirms your beneficial ownership of the shares and gives you the right to vote your shares at the meeting.

**Discretionary Voting Power;
Matters to be Presented**

We are not aware of any matters to be presented at the Annual Meeting other than those described in this Proxy Statement. If any matters not described in this Proxy Statement are properly presented at the meeting, the proxy holders will use their own judgment to determine how to vote your shares. If the meeting is adjourned or postponed, the proxy holders can vote your shares on the new meeting date as well, unless you have subsequently revoked your proxy.

Changing Your Vote

Stockholders of Record

If you would like to change your vote you can do so in the following ways:

deliver written notice of your revocation to our corporate Secretary prior to the Annual Meeting;

deliver a properly executed, later dated proxy prior to the Annual Meeting; or

attend the Annual Meeting and vote in person.

Please note that your attendance at the meeting in and of itself is not enough to revoke your proxy.

Beneficial Owners

If you instructed a broker or nominee to vote your shares following the directions originally included with these materials or provided to you,

Table of Contents

you can change your vote only by following your broker or nominee's directions for doing so. You can only change your vote at the Annual Meeting if you have obtained a legal proxy from the broker, bank or other nominee holding your shares that confirms your beneficial ownership of the shares and gives you the right to vote your shares at the meeting.

Cost of this Proxy Solicitation

We will bear the cost of this proxy solicitation. In addition to soliciting proxies by mail, we expect that our directors, officers and employees may solicit proxies in person or by telephone or facsimile. None of these individuals will receive any additional or special compensation for doing this, but they may be reimbursed for reasonable out-of-pocket expenses. We have also hired MacKenzie Partners, Inc. to help us solicit proxies from brokers, bank nominees and other institutional owners. We expect to pay MacKenzie Partners a fee of up to approximately \$8,500 for its services, and we will reimburse certain out-of-pocket expenses.

Meeting Quorum

The Annual Meeting will be held if a majority of our outstanding shares of common stock entitled to vote at the meeting are represented in person or by proxy.

Our Voting Recommendations

When proxies are properly dated, executed and returned, the shares represented by such proxies will be voted at the Annual Meeting in accordance with the directions of the stockholder. However, if no specific instructions are given, the shares will be voted in accordance with the following recommendations of our Board of Directors:

FOR the election of Sunlin Chou, Ph.D., Bruce Dunlevie, Mark Horowitz, Ph.D., Harold Hughes and Abraham D. Sofaer as Class I directors; and

FOR the ratification of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

Abstentions, Withheld, and Broker Non-Votes

We treat shares that are voted **WITHHELD** or **ABSTAIN** in person or by proxy as being:

present for purposes of determining whether or not a quorum is present at the Annual Meeting; and

entitled to vote on a particular subject matter at the Annual Meeting; therefore a **WITHHELD** or **ABSTAIN** vote is the same as voting against a proposal that has a required, affirmative voting threshold, such as proposal 2, but will have no effect on proposal 1, the election of our Class I directors, who are elected by a plurality of votes.

If you hold your common stock through a broker, the broker may be prevented from voting shares held in your brokerage account on some proposals (a broker non-vote) unless you have given the broker voting

instructions. Shares that are subject to a broker non-vote are counted for purposes of determining whether a quorum exists but do not count for or against any particular proposal.

Table of Contents

Deadline for Receipt of Stockholder Proposals

Stockholders may present proposals for action at a future annual meeting only if they comply with the requirements of the proxy rules established by the Securities and Exchange Commission (SEC). Stockholder proposals, including nominations for the election of directors, which are intended to be presented by such stockholders at our 2009 Annual Meeting of Stockholders must be received by us no later than November 24, 2008 to be considered for inclusion in the proxy statement and proxy card relating to that meeting.

In addition to the SEC rules and regulations, our bylaws establish an advance notice procedure for proposals that a stockholder does not want to have included in our proxy statement relating to a meeting. Generally for these proposals, including the nomination of a person for director, a stockholder must provide written notice to our corporate secretary at least 90 days in advance of the meeting; provided that in the event that less than 100 days notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be received not later than the close of business on the tenth day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made.

Moreover, your notice must contain specific information concerning the matters to be brought before the meeting. We urge you to read our bylaws in full in order to fully understand the requirements of bringing a proposal or nomination.

A copy of the full text of the bylaw provision relating to our advance notice procedure may be obtained by writing to our corporate Secretary or by accessing a copy of our bylaws, which are publicly available at <http://www.sec.gov>. All notices of proposals by stockholders, whether or not included in proxy materials, should be sent to Rambus Inc., 4440 El Camino Real, Los Altos, CA 94022, Attention: Secretary.

Communication With the Board of Directors

Our Board of Directors may be contacted by writing to them via regular mail at Board of Directors, Rambus Inc., 4440 El Camino Real, Los Altos, CA 94022. If you wish to contact our Board of Directors or any member of the Audit Committee to report questionable accounting or auditing matters you may do so anonymously by using this mailing address and designating the communication as confidential.

Our process for handling communications to our Board of Directors is as follows:

Any stockholder communications that our Board of Directors receives will first go to our Secretary/General Counsel, who will log the date of receipt of the communication as well as (for non-confidential communications) the identity of the correspondent in our stockholder communications log.

Unless the communication is marked confidential, our Secretary/General Counsel will review, summarize and, if appropriate, draft a response to the communication in a timely manner. The summary and response will be in the form of a memo, which will become part of the

Table of Contents

stockholder communications log that our Secretary/General Counsel maintains with respect to all stockholder communications.

Our Secretary/General Counsel will then forward the original stockholder communication along with the memo to the member(s) of our Board of Directors (or committee chair if the communication is addressed to a committee) for review.

Any stockholder communication marked confidential will be logged by our Secretary/General Counsel as received but will not be reviewed, opened or otherwise held by our Secretary/General Counsel. Such confidential correspondence will be immediately forwarded to the addressee(s) without a memo or any other comment by our Secretary/General Counsel.

Annual Meeting Attendance

Members of our Board of Directors are invited but not required to attend the Annual Meeting of Stockholders. The 2007 Annual Meeting of Stockholders was attended by the following members of our Board of Directors: Messrs. Hughes, Kennedy, Bentley, Sofaer, Dunlevie and Farmwald.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially provides extra convenience for stockholders and cost savings for companies. The Company and some brokers household proxy materials, delivering a single proxy. If your proxy statement is being householded and you would like to receive separate copies, or if you are receiving multiple copies and would like to receive a single copy, please write Rambus Inc., 4440 El Camino Real, Los Altos, California 94022, Attention: Secretary or call (650) 947-5000.

**PROPOSAL ONE:
ELECTION OF DIRECTORS**

Our Board of Directors is currently comprised of ten members who are divided into two classes with overlapping two-year terms. We currently have five Class I directors and five Class II directors. At each annual meeting of stockholders, a class of directors is elected for a term of two years to succeed those directors whose terms expire on the annual meeting date. A director serves in office until his or her respective successor is duly elected and qualified or until his or her death or resignation. Any additional directorships resulting from an increase in the number of directors will be distributed among the two classes so that, as nearly as possible, each class will consist of an equal number of directors. Any vacancy occurring mid-term will be filled by a person selected by a majority of the other current members of the Board of Directors. There is no family relationship between any of our directors.

Nominees

Five Class I directors are to be elected at the Annual Meeting for a two-year term ending in 2010. Based upon the recommendation of our Corporate Governance/Nominating Committee, our Board has nominated:

Edgar Filing: RAMBUS INC - Form DEF 14A

Sunlin Chou, Ph.D., Bruce Dunlevie, Mark Horowitz, Ph.D., Harold Hughes and Abraham D. Sofaer for election as Class I directors.

If any of Sunlin Chou, Ph.D., Bruce Dunlevie, Mark Horowitz, Ph.D., Harold Hughes and Abraham D. Sofaer is unable or declines to serve as a director at the time of the Annual Meeting, proxies will be voted

Table of Contents

for a substitute nominee or nominees designated by the Board of Directors.

Vote Required

Directors are elected by a plurality of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors. This means that the five nominees who receive the greatest number of votes will be elected. There are no cumulative voting rights in the election of directors. Stockholders as of the record date may vote their shares for some, all or none of the Class I nominees.

Corporate Governance Principles

We are committed to maintaining the highest standards of business conduct and corporate governance, which we believe are essential to running our business efficiently, serving our stockholders well and maintaining our integrity in the marketplace. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act requires our executive officers, directors and ten percent stockholders to file reports of ownership and changes in ownership with the SEC. The same persons are required to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of these forms, we believe that during fiscal 2007 all of our executive officers, directors and ten percent stockholders complied with the applicable filing requirements, except for late Forms 4 filed on behalf of Mr. Lavelle and Dr. Scott reporting grants of restricted stock units to each of the officers on October 17, 2007 that were inadvertently reported late by us on their behalf on October 22, 2007.

Review, Approval or Ratification of Transactions with Related Persons

Our directors and executive officers are subject to our Code of Business Conduct and Ethics and our directors are guided in their duties by our Corporate Governance Guidelines. Our Code of Business Conduct and Ethics requires that our directors and executive officers avoid situations where a conflict of interest might occur or appear to occur. In general, our directors and executive officers should not have a pecuniary interest in transactions involving us or a customer, licensee, or supplier of us, unless such interest is solely a result of routine investments made by the individual in publicly traded companies.

In the event that a director or executive officer is going to enter into a related party transaction with a relative or significant other, or with a business in which a relative or significant other is associated in any significant role, the director or executive officer must fully disclose the nature of the related party transaction to our Chief Financial Officer. For directors and executive officers, such related party transaction then must be reviewed and approved in writing in advance by the Audit Committee. For other conflicts of interest that may arise, the Code of Business Conduct and Ethics advises our directors and executive officers to consult with our General Counsel.

In addition, on an annual basis and upon any new appointment of a director and executive officer, each is required to complete a Director and Officer Questionnaire, which requires disclosure of any related-party transactions pertaining to the director or executive officer. Our Board of Directors will consider such information in its determinations of independence with respect to our directors under NASD Rule 4200 and the applicable rules promulgated by the SEC.

The Board recommends that you vote FOR the election to the Board of Directors of each of the nominees proposed above.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

Under the proxy rules of the SEC, a person who directly or indirectly has or shares voting power or investment power with respect to a security is considered a beneficial owner of the security. Voting power is the power to vote or direct the voting of shares, and investment power is the power to dispose of or direct the disposition of shares. Shares as to which voting power or investment power may be acquired within 60 days are also considered as beneficially owned under the proxy rules.

The following table sets forth certain information as of March 10, 2008, regarding beneficial ownership of our Common Stock by: (i) each person who is known to us to own beneficially more than five percent (5%) of our Common Stock; (ii) each of our current directors; (iii) each of the named executive officers in the Summary Compensation Table of this annual report; and (iv) the total for our current directors and current executive officers as a group. The information on beneficial ownership in the table and the footnotes is based upon our records and the most recent Schedule 13D or 13G filed by each such person or entity and information supplied to us by such person or entity. Unless otherwise indicated, each person has sole voting power and sole investment power with respect to all shares beneficially owned, subject to community property laws where applicable. Shares subject to options which are exercisable within 60 days of March 10, 2008 are deemed to be outstanding and to be beneficially owned by the person holding such options for the purpose of computing the percentage ownership of such person, but are not deemed to be outstanding and to be beneficially owned for the purpose of computing the percentage ownership of any other person.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION & ANALYSIS

Overview of Compensation Program

We develop leading-edge chip interface technology years ahead of the market's needs. We provide this technology to our customers through both patent licenses and through licenses for our leadership (Rambus-proprietary) architectures and designs. As our innovations are often adopted into industry-standard solutions, we license industry-standard designs as a further service for our customers.

Our business model requires that we attract and retain the best scientific and engineering personnel in our field of focus in order to realize our fundamental competitive advantage and deliver the greatest value for our stockholders. Because our technology is foundational in the large and growing market for digital electronics, competition for qualified individuals remains intense. Thus, our compensation program is designed to attract and retain the best talent, especially leading scientists and engineers, in the industry.

Our guiding philosophy for all of our employees is that total compensation (i.e., base salary, annual incentive bonus, long-term equity grants and other employee benefits and arrangements) should directly correlate to the achievement of our financial and non-financial objectives. We refer to this approach as "pay for performance." We also grant equity compensation with multi-year vesting in order to more closely align the long-term interests of management with those of our stockholders. Total compensation is tied both to company and individual performance. We strive to reward all of our employees based on their contributions, sustained performance and value created. This philosophy reflects our key strategic compensation design priorities: employee retention, cost management, and continued focus on corporate governance. Our total compensation philosophy is posted on our website at http://investor.rambus.com/governance/total_comp.cfm.

Our Compensation Committee is responsible for annually reviewing and approving the CEO and other executive officers' compensation and the other duties reflected in our Compensation Committee Charter, which is posted on our website at <http://investor.rambus.com/governance/compensation.cfm>.

This Compensation Discussion and Analysis presents our compensation policies, programs, and practices for the named executive officers presented in the Summary Compensation Table appearing later in this report, and describes the basis for compensation decisions that we have made with respect to compensation of our named executive officers.

Setting Executive Compensation

To determine the appropriate levels of compensation for our executive officers, the Compensation Committee reviews in-depth analysis conducted by management and external consultants. Each year the Vice President of Human Resources works with independent consultants to provide analysis and recommendations in support of executive compensation. The Vice President of Human Resources and the CEO provide recommendations for executive officers other than the CEO to the Compensation Committee for their consideration and approval. The Vice President of Human Resources then presents analysis for determination of the CEO's compensation to the Compensation Committee, and the Compensation Committee deliberates in closed session.

Through November 2007, Compensia, a third party, independent consultant, assisted the Compensation Committee in evaluating the compensation program for our executive officers and directors. Compensia utilized publicly-available information from our Compensation Peer Group, as described below, and third-party benchmark surveys to assess the competitiveness and appropriateness of our compensation programs. Compensia's analysis included last fiscal year data and three-year average data evaluated against a variety of compensation utilization metrics including total equity compensation expense, equity expense as a percent of net income, and equity expense as a percent of revenue. Base and total cash compensation were also compared against the Compensation Peer Group and industry financial performance metrics, including revenue growth, net income growth, and total shareholder return.

Table of Contents

In September 2007, the Compensation Committee engaged Semler Brossy Consulting Group, referred to as SBCG, as its independent consultant to assist in evaluating executive and director compensation programs. SBCG was hired by and reports directly to the Compensation Committee, and works collaboratively with management and the Chairman of the Compensation Committee. SBCG has not performed and does not currently have any consulting engagements with management or the Company apart from this engagement by the Compensation Committee.

In 2007, SBCG reviewed our overall compensation programs, and relied on the Compensia analyses outlined above to assist in the development of the compensation decisions discussed herein. SBCG also met individually with each named executive officer and member of the Compensation Committee during 2007 to help develop its understanding of our business and compensation objectives.

SBCG's ongoing responsibilities will include reviewing executive compensation recommendations for executives, consulting with respect to the structure of compensation plans, providing advice on executive compensation regulatory developments, providing information on best practices in executive compensation, developing and providing objective data on peer company compensation programs and industry trends, and reviewing and providing its opinion to the Compensation Committee on all recommendations provided to the Compensation Committee by management. In fulfilling these duties, SBCG will meet directly with executives on behalf of the Compensation Committee. However, the Compensation Committee and the Board retain all authority over their respective decisions.

In making compensation decisions, the Compensation Committee compares analysis of each element as well as the aggregation of all elements of total compensation against our peer group of publicly-traded companies, which we refer to as the Compensation Peer Group. The Compensation Peer Group consists of companies against which the Compensation Committee believes we compete for talent and represents similar benchmark attributes including revenue size, complexity, like industry, market capitalization, and number of employees. For fiscal year 2007, the Compensation Peer Group included: Actel Corporation; Altera Corporation; Applied Micro Circuits Corporation; Atheros Communications Incorporated; Cree, Inc.; Cymer, Inc.; DSP Group, Inc.; FormFactor, Inc.; Integrated Device Technology, Inc.; InterDigital, Inc.; MIPS Technologies, Inc.; Nvidia Corporation; OmniVision Technologies, Inc.; Pixelworks, Inc.; PMC-Sierra, Inc.; RF Micro Devices, Inc.; Semtech Corporation; Silicon Image, Inc.; Silicon Laboratories Inc.; SunPower Corporation; Synopsys, Inc.; and Tessera Technologies, Inc. The Compensation Committee reviews the Compensation Peer Group annually to ensure the appropriateness of the group for compensation comparisons.

The Compensation Committee also reviewed data from the Radford Select Executive Compensation Report in addition to the Compensation Peer Group data. The survey data used represented a selection of Radford-participating companies that are also in the Compensation Peer Group. The survey data is used to supplement the information that is publicly-available in proxy statements. The following Compensation Peer Group Companies are not included in the Radford Select Report: Actel Corporation; Altera Corporation; Atheros Communications Incorporated; Cymer, Inc.; DSP Group, Inc.; InterDigital, Inc.; Nvidia Corporation; and Pixelworks, Inc.

Base salary targets for executive officers are designed so that salary opportunities for a given office are positioned at approximately the 50th percentile of the Compensation Peer Group. Consistent with our Pay for Performance philosophy, the Compensation Committee targets our executive officers' total cash compensation and equity compensation at or near the 75th percentile of the Compensation Peer Group. The Compensation Committee believes that will allow us to maintain control over fixed compensation expense while affording competitive upside to the executives as a result of financial performance and shareholder value creation through stock price growth. Variable or incentive cash compensation is realized based on the achievement of our annual operating plan as approved by the Board and achievement of individual objectives as described in more detail below.

The Compensation Committee continued to collaborate with management in the effort to enhance corporate governance and align our compensation and benefit practices with the long term interests of our stockholders. In 2006, we implemented and obtained the approval from our stockholders of a new equity incentive plan that replaced our expiring 1997 Stock Option Plan, referred to as the 1997 Plan. Our 2006 Equity Incentive Plan, referred to as the 2006 Plan, eliminated a historic evergreen replenishment provision under which share replenishment was automatic on an annual basis. In addition to requiring shareholder approval for share replenishment, the 2006 Plan allows the

Table of Contents

Compensation Committee to grant performance-based awards using one or more shareholder-approved performance measures. In October 2006, the Compensation Committee also adopted stock ownership guidelines for our executive officers and directors, as described below.

We have also worked to reduce the issuance of equity as a percentage of overall compensation in-line with peer market trends. Equity award issuance per employee has declined over 70% from 2003 to 2007. However, over the same period, we generally have not increased any other forms of compensation to employees with the exception of our decision to expand the availability of the performance-based incentive plan to all employees. Our approach to burn rate, defined as the number of shares underlying equity awards issued annually as a percentage of our total outstanding shares, is to be near or below the median of the Compensation Peer Group. For the most recently-reported fiscal year, the median of the Compensation Peer Group was 3.5% of total shares outstanding. Our 2007 burn rate was 3.4% of total shares outstanding, which was slightly higher than our internal budget level due to unexpected turnover in several executive roles. We did however meet our goal of being below the median of our Compensation Peer Group. We expect our gross burn rate to decline or stay stable in 2008 based on our current hiring plans and expected turnover.

The Compensation Committee has no formal policy with respect to the adjustment or recovery of compensation as a result of material changes in our financial statements requiring an accounting restatement. However, the Compensation Committee retains discretion over all pay elements and reserves the right to reduce or forego future compensation based on any required restatement or adjustment.

The Compensation Committee considers the potential future effects of Section 162(m) of the Internal Revenue Code of 1986, as amended. Section 162(m) limits the deductibility by public companies of certain executive compensation in excess of \$1,000,000 per executive per year, but excludes from the calculation of the \$1,000,000 limit certain elements of compensation, including performance-based compensation, provided that certain requirements are met. Both our 1997 Plan and our 2006 Plan permit the Compensation Committee to grant equity awards that are performance-based and thus fully tax-deductible by us. All of the stock options granted to our executive officers are intended to qualify under Section 162(m) as performance-based compensation. However, during our stock option investigation we discovered that certain stock options granted to some of our executive officers were granted with an exercise price below the fair market value of the underlying shares on the date of grant and do not qualify as performance based compensation under Section 162(m). In addition, annual bonuses granted to our executive officers under our current annual incentive plan do not qualify as performance-based compensation for purposes of Section 162(m). The Compensation Committee intends to continue evaluating all of our executive compensation and will qualify such compensation as performance based compensation under Section 162(m) to the extent it determines doing so is in our best interests.

The Compensation Committee also considers the effects of Section 409A of the Internal Revenue Code when granting or providing compensation. Section 409A imposes additional significant taxes in the event that an executive officer, director or service provider receives deferred compensation that does not meet the requirements of Section 409A. To assist in the avoidance of additional tax under Section 409A, we generally structure equity awards in a manner intended to comply with the applicable Section 409A requirements. However, in connection with the stock option investigation, certain stock options that were determined to have been granted at a discount to fair market value do not meet the requirements of Section 409A. On October 18, 2007, we commenced a tender offer to certain of our employees under which they would be allowed to increase the exercise price or choose a fixed period exercise term for certain options in order to avoid certain negative tax consequences under Section 409A and similar state law. A total of 164 eligible option holders participated in the tender offer. Rambus accepted for amendment options to purchase an aggregate of 3,959,225 shares of Common Stock, of which options to purchase 781,178 shares of Common Stock were amended by making a fixed date election. Rambus amended those options on the expiration date of the tender offer. Rambus did not pay or otherwise gross up current executives for any additional taxes imposed by

Section 409A with respect to the stock options subject to Section 409A, did not compensate any employees for the loss of economic value of amended options pursuant to the tender offer and there was no material incremental compensation expense recognized by Rambus as a result of the tender offer.

Table of Contents

In 2006 and 2007, as a result of our continuing efforts to enhance corporate governance and in response to the findings of our stock option investigation, we made many improvements to our policies and procedures for compensation and equity award grants, including the following:

We amended the charter of our Compensation Committee to, among other things, clearly delineate the Compensation Committee's authority to issue stock options and grant the Compensation Committee authority over all of the Company's significant benefit programs;

We implemented new policies regarding the approvals required for stock option grants, including:

All awards to vice presidents and above are approved by the Compensation Committee;

Below the vice president level, the Compensation Committee approves on an annual basis award ranges by organizational level for new hire and regular annual awards, and specific award determinations are made within these ranges by our Chief Executive Officer and Vice President of Human Resources, with review by our Chief Financial Officer;

The Compensation Committee reviews and approves all new hire and regular annual awards that are outside the approved guidelines for employees below the vice president level; and

Any off-cycle awards to employees below the vice president level (for example, awards due to promotion) are approved by the Compensation Committee;

We adopted policies to ensure that stock option grants reflect the appropriate grant price and date, including the following:

We changed our new hire grant procedures for executive officers and other employees to be made on the first trading day of the month following their date of hire; and

The Compensation Committee approved moving the annual performance equity grant date for all employees to the first trading day in February of each year to provide a date certain for all annual equity awards;

We believe that these grant policies and schedules will afford more transparency and improve the governance of our equity program;

We have standardized our vesting schedules;

We added improved internal controls to verify key elements of our policy and process compliance, including additional review and back-up audit requirements for both pre- and post-grant administration;

We have established a vacation and leave of absence policy with respect to the granting and vesting of stock options; and

We approved stock ownership guidelines for our officers and members of our Board of Directors, as discussed below under Executive Compensation Components Stock Ownership Guidelines.

Executive Compensation Components

Our principal components of compensation for named executive officers are:

Annual Base Salary;

Annual Variable Compensation;

Equity Based Compensation; and

All Other Compensation, which includes 401(k) match, health/welfare and other standard benefits.

Base Salary

We provide our named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. The annual base salary for executive officers is determined relative to job

Table of Contents

scope, past and present contributions, performance and compensation for similar positions within our Compensation Peer Group. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility by using the Compensation Peer Group and other industry market data.

We emphasize pay for performance in all components of compensation, and make salary adjustments based on individual employee performance relative to published compensation levels for incumbents of similar positions in the Compensation Peer Group. In 2007, annual salary represented 50% of our CEO's annual total target cash and less than 60% of the annual total target for the other named executive officers with the remainder of other total target in the form of bonus.

Our historical approach to CEO compensation was to pay total cash compensation at a lower level relative to the Compensation Peer Group, and to provide a higher level of equity award to provide a highly-leveraged, longer-term compensation opportunity to the CEO. In 2005, after the hiring of Mr. Hughes as our CEO, the Compensation Committee moved towards providing a compensation mix that is more in line with the Compensation Peer Group and consistent with our other executives. This change was driven by the rationale that a more balanced mix of annual and long-term compensation was necessary to promote the successful execution of the annual business plan. As part of this shift, the Compensation Committee approved a 15.4% increase in the CEO's base salary and total cash compensation effective February 1, 2007. Even with this increase, the CEO's total target cash compensation level remained slightly below our target of the 75th percentile of the Compensation Peer Group.

In January 2008, the Compensation Committee established the base salary for the Company's principal executive officer, principal financial officer and other named executive officers for 2008. The 2007 and 2008 base salaries and percentage increases are set forth below:

Name	2007 Salary	2008 Salary	Percentage Increase
Harold Hughes	\$ 420,000	\$ 440,000	4.8%
Satish Rishi	\$ 306,000	\$ 318,240	4.0%
Thomas R. Lavelle	\$ 300,000	\$ 312,000	4.0%
Sharon E. Holt	\$ 300,000	\$ 312,000	4.0%
Martin Scott	\$ 290,000	\$ 301,600	4.0%

Increases to individual salary levels for all named executive officers other than the CEO were based on the recommendation of the CEO and reflect an assessment of individual performance as well as each executive's positioning against the desired market positioning. The CEO's salary level was established by the Compensation Committee utilizing the same factors.

Performance-based Incentive Plan

The Compensation Committee rewards achievement at specified levels of financial and individual performance. Each officer has a target cash bonus level that is competitive with target bonuses for similar positions reported in our independent, third-party surveys and information from proxy statements. The Compensation Committee also reviews and ensures that the target bonus levels are competitive in comparison to the Compensation Peer Group. We have historically and continue to target the 75th percentile for total target cash bonus within these defined talent markets, reflecting the importance of variable compensation based on achievement of our operating plan.

The incentive plan is funded based on achievement of an adjusted pre-tax income target, which excludes stock-based compensation expense and other one time charges deemed by the Compensation Committee to be extraordinary and outside of management control. Pre-tax income was chosen as our financial performance metric because it is a function of both the top-line revenue performance and expense management efficiency. The Compensation Committee retains the discretion to exclude the one-time charges from the pre-tax income calculation. The incentive plan is designed to be funded beginning at a threshold of 80% attainment of the pre-approved plan and rises to a potential 350% of target funding based on the achievement exceeding the adjusted pre-tax income target. Named executive officers participating in the plan are also measured against individual objectives that tie directly to our overall operating plan objectives. For fiscal year 2007, these objectives included specific customer goals, licensing objectives, specific technology development milestones, internal control and process improvements and

Table of Contents

productivity initiatives. Final payout of these cash incentive awards, if any, is determined by the funding level achieved and each individual's performance against their key objectives or management by objectives.

For fiscal year 2007, the adjusted pre-tax achievement under the incentive plan excluded expenses incurred as a result of the stock option investigation and a one-time severance payment to a former employee in addition to stock-based compensation expenses. The adjusted pre-tax income target was approximately 40% of the target level and also below the threshold amount required for funding of the bonus pool. However, the Compensation Committee exercised its discretion to fund the incentive plan for the executives at 40% and employees at 50% of this pre-approved target funding level for fiscal year 2007. The Compensation Committee considered the progress made by us in the development of key technologies, the unique corporate challenges and improvements in our corporate governance and the actual adjusted pre-tax income achieved by us as a percentage of target. The Compensation Committee also considered market conditions, the impact of the FTC Remedy Order and increased litigation expenses in the second half of the year in assessing the ability to meet the target. The target itself was not adjusted based on these material unforeseen adverse events that occurred during 2007. Each individual received a 40% payment of the target; no adjustments were made to individual awards based on the assessment of individual objectives and achievement in 2007.

The Compensation Committee has established cash bonus target amounts under the incentive plan for the Company's principal executive officer, principal financial officer and other named executive officers for 2008. The 2008 target amounts set forth below are based on the desired 75th percentile total cash positioning as discussed above:

Name	2008 Bonus Target Amount	Percentage of 2008 Base Salary
Harold Hughes	\$ 440,000	100.0%
Satish Rishi	\$ 240,000	75.4%
Thomas R. Lavelle	\$ 240,000	76.9%
Sharon E. Holt	\$ 275,000	88.3%
Martin Scott	\$ 205,000	68.0%

Long-term Equity Incentive Compensation – Stock Awards and Option Grants

Our named executive officers are eligible to participate in the 2006 Plan and our 2006 Employee Stock Purchase Plan. The 2006 Plan permits the Board or the Compensation Committee to grant restricted stock, stock options, stock appreciation rights, restricted stock units and other stock-based equity awards to employees, including named executive officers, on such terms as the Board or the Compensation Committee may determine. The 2006 Stock Purchase Plan permits employees to acquire our Common Stock through payroll deductions and promote broad-based equity participation throughout our company.

We use equity compensation to align our named executive officers with the long-term interest of our stockholders and as a retention tool. The targeted value for these awards is at or above the 75th percentile of the Compensation Peer Group for each named executive officer. The Compensation Committee has established this positioning to reflect the strong desire for a significant portion of compensation to be based on our achievement of long-term shareholder value creation. To further encourage retention, we generally apply a 5-year vesting schedule on stock option grants, compared to the more standard 3-year or 4-year vesting period used by most of the Compensation Peer Group.

The Compensation Committee evaluates on an ongoing basis the proper mix of stock options, restricted stock or restricted stock units, and other equity awards to ensure that the goals of the program are being met. Equity awards to named executive officers in 2007 generally consisted of stock options, based on an assessment of Compensation Peer Group practices and a belief that value in equity compensation should be earned based on growth in our share price. On October 18, 2007, the Company granted 100,000 restricted stock units to Satish Rishi. This grant was part of Mr. Rishi's annual performance grant from February 2007, which had a contingency that it would be granted upon Rambus filing its S-8 registration statement and was made to compensate Mr. Rishi for his time and efforts in connection with our stock option investigation and other related matters. The first 25,000

Table of Contents

restricted stock units vested on February 1, 2008. The remaining restricted stock units are scheduled to vest in equal installments of 25,000 units on each one-year anniversary or the first trading day after February 1 thereafter.

In determining the amount of equity granted to named executive officers, the Compensation Committee reviews the number of shares and the grant date fair value of equity grants within the Compensation Peer Group and as reported in third party industry survey data. The Compensation Committee also takes into account equity participation by comparable employees, external competitive circumstances and existing equity held by executives, in addition to each named executive officer's performance and contribution during the fiscal year.

For 2008, the Compensation Committee decided to make annual equity grants of restricted stock units and stock options to the named executive officers other than the CEO, with 25% of the grant date value of awards delivered in restricted stock units and 75% in stock options. This shift in our equity grant practice was based on the trend observed in the Compensation Peer Group and in the broader technology industry away from 100% stock options and towards a blend of options and full-value awards. This blended approach also reduces overall share usage. These awards were effective February 1, 2008 pursuant to the Company's policy regarding equity awards. These grants were made under the Company's 2006 Plan.

The value of the CEO's 2008 equity award consisted of 25% stock options, 25% time-vested restricted stock units, and 50% performance-vested restricted stock units. The Compensation Committee moved to a higher proportion of full-value shares for the CEO based on his high concentration of near-the-money stock options in his equity holdings. To reinforce the pay for performance philosophy, 50% of the overall award (and two-thirds of the full-value portion) will vest based on achievement of 2008 financial and strategic targets. If the targets, which reflect revenue and licensing activity goals, are exceeded or met, the performance-vested restricted stock units vest over the following one-two years, depending on the target met. If the targets are not met, the performance portion of the award will be forfeited.

Stock Ownership Guidelines

In October 2006, our Board approved stock ownership and retention guidelines for executives and directors. Under these guidelines, our executive officers are expected to accumulate and hold an equivalent value of our Common Stock that is equal or greater than two to five times of their annual base salary, and to maintain this minimum amount throughout their tenure as an executive officer. The CEO will be expected to accumulate and hold an equivalent value of five times his/her annual base salary, all other Section 16 executive officers will be expected to accumulate and hold an equivalent value of three times their annual base salaries, and all other executives will be expected to accumulate and hold an equivalent value of two times their annual base salaries. All executive officers have five years to achieve this accumulated value requirement from January 1, 2007, or the date that the executive officer assumes his or her position, whichever is later. These targets were determined and set as the result of benchmark surveys conducted against industry survey data. Elements that will qualify towards ownership goals will include: vested and unvested restricted stock and restricted stock units, vested and unexercised stock options, stock purchase plan holdings and any other shares of Common Stock owned outright. As of December 31, 2007, three of five of our named executive officers met their ownership requirements.

401(k) Plan and Other Health and Life Insurance Premium

Our named executive officers, like other employees, are eligible to participate in our 401(k) plan. In any plan year, we will contribute to each participant a matching contribution equal to 50% of the first 6% of the participant's eligible compensation that has been contributed to the plan. In addition, all named executive officers and other employees are eligible to participate in all health and welfare benefits offered by us in accordance with the terms and conditions of such plans or arrangements.

We do not provide pension arrangements or post-retirement health coverage for our named executive officers or other employees.

Other Compensation

From time to time, primarily as a recruitment tool, the Compensation Committee has approved certain other compensation in the form of reimbursement or payment of relocation costs. We also have a policy of paying for or reimbursing various living expenses in connection with our executive officers whose job duties require them to work for us abroad. Rambus will also make tax gross-up payments on this relocation, expatriate and related other compensation. No such payments were made to named executive officers under this policy in 2007.

Rambus does not provide any other perquisites or other compensation to its named executive officers.

Employment and Retention Agreements

All of our employees, including our named executive officers, are employees-at-will and as such typically do not have employment contracts with us, except in the case of some employees of our foreign subsidiaries and as discussed below. We also do not provide post-employment health coverage or other benefits, except in connection with the retention agreements, details of which are included below.

The Compensation Committee periodically evaluates the need for such agreements with respect to market practices in order to remain competitive and attract and retain executive officers. For instance, individual circumstances may arise which lead to entering into such agreements to attract executive officers to join our company.

During a portion of 2007, the terms of employment for Thomas Lavelle, our Senior Vice President and General Counsel, as set forth in his offer letter, included a severance arrangement that became effective upon his start date on December 1, 2006. Under the severance arrangement, if Mr. Lavelle's employment had been involuntarily terminated prior to December 1, 2007 by us other than for Cause (as defined in the offer letter) or other than due to Mr. Lavelle's death or Disability (as defined in the offer letter), or in the event that before December 1, 2007 and following a Change of Control (as defined in the offer letter) Mr. Lavelle had voluntarily terminated his employment following an Involuntary Termination (as defined in the Company's 1997 Stock Plan), then subject to Mr. Lavelle entering into a release of claims in favor of us, Mr. Lavelle would be entitled to severance from us including one year's base salary and target bonus and 100% reimbursement for twelve months of COBRA premiums. The Compensation Committee entered into this agreement as a requirement to secure his service and considered the total target cash benefit and defined one-year timeframe to be modest levels of protection. The severance arrangement lapsed on December 1, 2007, and Mr. Lavelle has no further severance or termination agreement.

COMPENSATION COMMITTEE REPORT

Our Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this report.

Each of the options and other equity awards reflected on the table above were issued under the 1997 Plan, the 1999 Plan or the 2006 Plan, which are plans that were or are available to all of our employees.

In the case of the 1997 Plan and the 1999 Plan, if a merger of the Company occurs, as defined in the relevant plan, each outstanding option or equity award will be assumed or an equivalent option or right substituted by the successor company. Following such assumption or substitution, if the participant's status as a service provider is terminated by the successor corporation as a result of an involuntary termination other than for cause, each as defined in the relevant plan, within twelve months following the merger, then the participant will fully vest and have the right to exercise all of his or her options and will convert any other equity awards into shares of Common Stock. In the event that the successor company refuses to assume or substitute for the equity award the participant will fully vest in and have the right to exercise all of his or her options or stock appreciation rights, including shares as to which such awards would not otherwise be vested or exercisable, all restrictions on restricted stock will lapse, and, with respect to restricted stock units, performance shares and performance units, all performance goals or other vesting criteria will be deemed achieved at target levels and all other terms and conditions met immediately prior to the merger.

In the case of the 2006 Plan, in the event of a change of control of the Company, as defined in the plan, each outstanding option or equity award will be assumed or an equivalent option or right substituted by the successor

company. In the event that the successor company refuses to assume or substitute for the option or equity award, the participant will fully vest in and have the right to exercise all of his or her options or stock appreciation rights, including shares as to which such awards would not otherwise be vested or exercisable, all restrictions on restricted stock will lapse, and, with respect to restricted stock units, performance shares and performance units, all performance goals or other vesting criteria will be deemed achieved at target levels and all other terms and conditions met. In addition, if an option or stock appreciation right becomes fully vested and exercisable in lieu of assumption or substitution in the event of a change of control, the administrator of the 2006 Plan will notify the participant that the option or stock appreciation right will be fully vested and exercisable for a period of time determined by the administrator, and the option or stock appreciation right will terminate upon the expiration of such period.

Table of Contents

The form of option agreement for the 2006 Plan provides that if a successor company assumes outstanding options or substitutes for options with an equivalent award, then if following such assumption or substitution the participant's status as an employee or employee of the successor company, as applicable, is terminated by the successor company as a result of an Involuntary Termination (as defined below) other than for Cause (as defined below) within twelve months following the change in control, the option will immediately vest and become exercisable as to 100% of the shares subject to the option.

For purposes of the 2006 Plan form option agreement, Cause will mean (i) any act of personal dishonesty taken by the participant in connection with his or her responsibilities as an employee and intended to result in substantial personal enrichment of the participant, (ii) the participant's conviction of a felony, (iii) a willful act by the participant which constitutes gross misconduct and which is injurious to the successor company, and (iv) following delivery to the participant of a written demand for performance from the successor company which describes the basis for the successor company's belief that the participant has not substantially performed his or her duties, continued violations by the participant of the participant's obligations to the successor company which are demonstrably willful and deliberate on the participant's part.

For purposes of the 2006 Plan form option agreement, any of the following events shall constitute an Involuntary Termination: (i) without the participant's express written consent, a significant reduction of the participant's duties, authority or responsibilities, relative to the participant's duties, authority or responsibilities as in effect immediately prior to the change in control, or the assignment to the participant of such reduced duties, authority or responsibilities; (ii) without the participant's express written consent, a substantial reduction, without good business reasons, of the facilities and perquisites (including office space and location) available to the participant immediately prior to the change in control; (iii) a reduction by the successor company in the base salary of the participant as in effect immediately prior to the change in control; (iv) a material reduction by the successor company in the kind or level of employee benefits, including bonuses, to which the participant was entitled immediately prior to the change in control with the result that the participant's overall benefits package is significantly reduced; (v) the relocation of the participant to a facility or a location more than fifty miles from the participant's then present location, without the participant's express written consent; (vi) any purported termination of the participant by the successor company which is not effected for disability or for Cause, or any purported termination for which the grounds relied upon are not valid; or (vii) any act or set of facts or circumstances which would, under California case law or statute constitute a constructive termination of the Participant.

Table of Contents**Potential Payments Upon Termination or Change-in-Control**

We have no contractual arrangements with our named executive officers that would provide payments upon termination or change-in-control. Outstanding equity awards may vest upon a double-trigger termination in the event of a change-in-control, as described under the Outstanding Equity Awards at Fiscal 2007 Year-End table. This accelerated vesting applies to all awards made under the plans and is not specific to awards made to our named executive officers. The following table summarizes the value of the potential accelerated vesting to each named executive officer.

Martin Scott	356,000	418,800	774,800

The terms of employment for Mr. Lavelle, as set forth in his offer letter, included a severance arrangement providing for payment upon certain termination events which has now lapsed, and is described in detail under Compensation Discussion & Analysis Employment and Retention Agreements above.

Stock compensation expense calculations for financial statement purposes spread the grant date cost of those awards over the vesting period. Therefore, amounts in this column include the unadjusted period expense for awards granted in fiscal year 2007. Overview of Compensation and Procedures

The Compensation Committee reviews the compensation program for our independent directors on an annual basis. To determine the appropriate level of compensation for independent directors we have historically obtained data from a number of different sources including:

publicly available data describing director compensation in Compensation Peer Group companies and

Table of Contents

survey data collected by our human resources department.

We compensate non-employee members of the Board through a mixture of cash and equity-based compensation. After reviewing market data against our Compensation Peer Group, multiple surveys and public sources, and considering the time commitment that frequent meetings required of our directors, the Compensation Committee recommended and the Board considered and approved a proposal to raise our cash compensation for non-employee independent directors in November of 2006. In 2007, we paid each of our independent directors an annual retainer of \$40,000, our Chairperson and the Audit Committee Chairperson each received an annual retainer of \$65,000, and our Compensation Committee and all other committee chairs received an annual retainer of \$50,000, all paid in quarterly installments. In addition, as a result of the effort and time expended by our independent directors on the investigation of historical stock option grants and related matters in 2007, after we became current with our SEC filing obligations, we paid each member of the Special Litigation Committee a one-time payment of \$75,000 and each of our other independent directors serving on the Audit Committee and the Compensation Committee a one-time payment of \$35,000. Again in 2008, we will pay each of our independent directors an annual retainer of \$40,000, our Chairperson and the Audit Committee Chairperson will each receive an annual retainer of \$65,000, and our Compensation Committee and all other committee chairs will receive an annual retainer of \$50,000.

Each independent director is granted an initial option to purchase 40,000 shares of Common Stock when he or she is first elected as a member of our Board of Directors. On the first trading day of October each year, each independent director receives an annual stock option grant to purchase 20,000 shares of our Common Stock at a price equal to the fair market value of our Common Stock on the date of grant, so long as that director has been serving on the Board for at least six months on such date. The term of such options may not exceed ten years. The automatic option grants vest over a four-year period, with one-eighth of shares subject to the option vesting six months after the date of grant and the remaining shares vesting ratably each month thereafter, subject to the independent director continuing to provide services to us through each applicable vesting date. The automatic grants do not limit the ability of the administrator of the 2006 Plan to grant other discretionary awards to independent directors under the plan, and the administrator has the discretion to change the terms of the automatic grants prospectively.

Awards granted to the independent directors under the 2006 Plan are generally not transferable, and all rights with respect to an award granted to a director or participant generally will be available during a director or participant's lifetime only to the director or participant.

Each of the options granted to our independent directors was issued under the 1997 Plan or the 2006 Plan, which are plans that are available to all of our employees. As described under Outstanding Equity Awards at Fiscal Year-End, the 1997 Plan provides for certain acceleration upon a merger of the Company, as defined under the 1997 Plan, and the 2006 Plan provides for certain acceleration upon a change of control of the Company, as defined under the 2006 Plan. In addition, with respect to options and any other equity awards granted to non-employee directors that are assumed or substituted for upon a change of control under the 2006 Plan, if the non-employee director is terminated other than upon a voluntary resignation, the options and other equity awards granted to such non-employee director will fully vest and be exercisable with respect to 100% of the shares subject to such options and other equity awards.

Pursuant to stock ownership guidelines adopted by the Board in October 2006, each independent director will be expected to accumulate and hold an equivalent value of our Common Stock of two times their annual total cash compensation and to achieve this within five years from January 1, 2007 or the date that the director joined the Board, whichever is later. Directors are expected to maintain this minimum amount of stock ownership throughout their tenure on the Board. As of December 31, 2007, all of our directors met their ownership requirements.

Compensation Committee Interlocks and Insider Participation

During fiscal year 2007, no interlocking relationship existed between any member of our Compensation Committee and any member of any other company's board of directors or compensation committee, nor has any such interlocking relationship existed in the past. During fiscal year 2007, no member of the Compensation Committee was, or was formerly, an officer or an employee of us.
