PROSPECTUS

10,000,000 Common Units

Navios Maritime Partners L.P.

Representing Limited Partner Interests

We are a Marshall Islands limited partnership recently formed by Navios Maritime Holdings Inc. This is the initial public offering of our common units. Concurrently with this offering, we are offering 500,000 of our common units, at the public offering price, directly to a corporation owned by Angeliki Frangou, our Chairman and Chief Executive Officer.

Although we are organized as a partnership, we have elected to be treated as a corporation solely for U.S. federal income tax purposes. Prior to this offering, no public market existed for the common units. Our common units have been approved for listing on the New York Stock Exchange, subject to official notice of issuance, under the symbol "NMM."

Investing in our common units involves risks that are described in the "Risk Factors" section beginning on page 18 of this prospectus.

These risks include the following:

- We may not have sufficient cash from operations to enable us to pay the minimum quarterly distribution on our common units following the establishment of cash reserves and payment of fees and expenses.
-

Edgar Filing: Navios Maritime Partners L.P. - Form 424B4

Charter rates for drybulk carriers may fluctuate substantially over time, due to the cyclical nature of the international drybulk shipping industry, and may be lower when we are attempting to recharter our vessels, which could materially adversely affect our operating results and cash available for distribution.

We must make substantial capital expenditures to maintain and expand our fleet, which will reduce our cash available for distribution.

Our debt levels may limit our flexibility in obtaining additional financing and in pursuing other business opportunities.

The loss of a customer or charter or vessel could result in a loss of revenues and cash flow in the event we are unable to replace such customer, charter or vessel.

Historically high numbers of newbuildings are currently under construction in the drybulk industry, which could have a material adverse effect on our future results of operations.

We depend on Navios Maritime and its affiliates to assist us in operating and expanding our business.

Navios Maritime and its affiliates may compete with us.

Unitholders have limited voting rights and our partnership agreement restricts the voting rights of unitholders owning more than 4.9% of our common units.

Our general partner and its affiliates, including Navios Maritime, own a significant interest in us and have conflicts of interest and limited fiduciary and contractual duties, which may permit them to favor their own interests to your detriment.

Fees and cost reimbursements, which our manager will determine for services provided to us, will be significant, will be payable regardless of profitability and will reduce our cash available for distribution.

Our partnership agreement contains provisions that may have the effect of discouraging a person or group from attempting to remove our current management or our general partner, and even if public unitholders are dissatisfied, they will be unable to remove our general partner without Navios Maritime's consent, unless Navios Maritime's ownership share in us is decreased.

You will experience immediate and substantial dilution of \$21.30 per common unit.

Per Common Unit	Total Public offering price	\$20.00	\$200,000,000	Underwriting discount(1)	\$1.28
	\$12,800,000 Proceeds, before expenses, to Navios Maritime Partners L.P.	\$18.72	\$187,200,000		

(1) Excludes a financial advisory fee in an aggregate amount of \$700,000, or \$805,000 if the underwriters exercise their overallotment option in full, payable to Merrill Lynch & Co. and S. Goldman Advisors LLC.

The underwriters also may purchase up to an additional 1,500,000 common units from us at the public offering price, less the underwriting discount, within 30 days from the date of this prospectus to cover overallotments.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a

criminal offense.

The common units will be ready for delivery on or about November 16, 2007.

### Navios Maritime Partners L.P.

We are an international owner and operator of drybulk carriers newly formed by Navios Maritime Holdings Inc. (NYSE: NM), a vertically integrated seaborne shipping company with over 50 years of operating history in the drybulk shipping industry. Our vessels are chartered out under long-term time charters with an average remaining term of approximately 5.2 years to a strong group of counterparties consisting of Cargill International SA, COSCO Bulk Carrier Co., Ltd., Mitsui O.S.K. Lines, Ltd., Rio Tinto Shipping Pty Ltd., Augustea Atlantica SrL Charterers, The Sanko Steamship Co., Ltd. and Daiichi Chuo Kisen Kaisha. Upon the closing of this offering, Navios Maritime will own a 43.2% interest in us, including a 2.0% interest through our general partner which Navios Maritime owns and controls.

Following this offering, our fleet will consist of six modern, active Panamax vessels, one modern Capesize vessel, one newbuild Panamax vessel that is contracted to be chartered to us, or chartered-in, under a long-term charter in 2008, and one newbuild Capesize vessel, Navios TBN I, which we are scheduled to acquire when it is delivered to Navios Maritime in June 2009. We also have an option to acquire an additional Capesize vessel, Navios TBN II, from Navios Maritime upon delivery of such vessel to Navios Maritime, which is expected in October 2009. Assuming delivery of Navios TBN I in June 2009, our fleet of high-quality Panamax and Capesize vessels will have an average age of approximately 5.5 years in June 2009, which is significantly younger than the current industry average of 15.0 years.

Panamax vessels are highly flexible vessels capable of carrying a wide range of drybulk commodities, including iron ore, coal, grain and fertilizer and of being accommodated in most major discharge ports, while Capesize vessels are primarily dedicated to the carriage of iron ore and coal.

## Table of Contents

We plan to use the expertise and reputation of Navios Maritime to pursue additional growth opportunities in the Panamax and Capesize markets and in other drybulk shipping markets. We will seek to grow our fleet through purchasing additional vessels from Navios Maritime, selectively pursuing open market acquisition opportunities and entering into long-term charter-in contracts. Pursuant to the omnibus agreement we will enter into with Navios Maritime, we will have the right to purchase additional Panamax and Capesize vessels from Navios Maritime when those vessels are fixed under charters of three or more years upon the expiration of their current charters or upon completion of their construction. We believe that current conditions in our industry will present us with opportunities to make third-party acquisitions and enter into long-term charter-in contracts.

Navios Maritime will manage the commercial and technical operation of our fleet through its wholly-owned subsidiary, Navios ShipManagement. Navios Maritime has an experienced management team with a long track record, a reputation for technical expertise in managing and operating vessels, and strong relationships with leading charterers and shipyards. We believe we will have stable and growing cash flows through the combination of the long-term nature of our charters and our commercial and technical management agreement with Navios ShipManagement, which provides for a fixed management fee for two years from the closing of this offering.
