EXPLANATORY NOTE

This Form 10-Q/A is being filed to amend and restate the financial statements and certain disclosure items related to the deconsolidation of a North American joint venture in response to comments raised by the Staff of the Securities and Exchange Commission and to provide certain disclosure items related to guarantor financial information in the Form 10-Q for the three and nine month periods ended June 30, 2005 (the 2005 Third Quarter Form 10-Q), which was originally filed with the Securities and Exchange Commission on August 9, 2005.

Revising the financial statements also requires Johnson Controls, Inc. (the Company) to restate certain information that is disclosed in the notes to the Consolidated Financial Statements, primarily Note 2 Inventories, Note 5 Research and Development, Note 8 Goodwill and Other Intangible Assets, Note 11 Segment Information and Note 12 Income Taxes. In addition, the Company has added Note 15 Deconsolidation of a Joint Venture (Restated) and Note 16 Guarantor Financial Statements (Restated). Management's Discussion and Analysis of Financial Condition and Results of Operations was also amended to reflect the revised financial statements.

The Company has determined that a control deficiency related to the Company's misapplication of SFAS 94,

Consolidation of All Majority-Owned Subsidiaries giving rise to the restatement constituted a material weakness in our internal control over financial reporting. The Company has also determined that a control deficiency over the Company's identification and reporting of the required guarantor subsidiary financial statement disclosures in the Company's financial statements as required by Rule 3-10 of Regulation S-X constituted a material weakness in our internal control over financial reporting. The Company rescinded all intercompany upstream guarantees and replaced them with alternative intercompany arrangements in November 2005. See Item 4. Controls and Procedures in Part I of this Form 10-Q/A for additional information.

The restatement related to the deconsolidation of the North American joint venture results in changes to certain financial statement line items as reported in the Consolidated Financial Statements. Revenues and expenses previously recorded in certain consolidated financial statement line items are now reported on a net basis as Equity income in the Consolidated Statement of Income and the Company's net investment in the joint venture is reported in the Investments in partially-owned affiliates line in the Consolidated Statement of Financial Position. Neither restatement impacts previously reported income from continuing operations, net income or earnings per share.

This amendment presents the 2005 Third Quarter Form 10-Q, as amended, in its entirety, but does not modify or update the disclosure in the 2005 Third Quarter Form 10-Q in any way other than as required to reflect the changes discussed above and does not reflect events occurring after the original filing of the 2005 Third Quarter Form 10-Q on August 9, 2005.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****1. Financial Statements**

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. These condensed financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Amended Annual Report on Form 10-K/A for the year ended September 30, 2004. The September 30, 2004 Consolidated Statement of Financial Position is derived from the audited financial statements, adjusted for discontinued operations (See Note 3). The results of operations for the three and nine month periods ended June 30, 2005 are not necessarily indicative of the results which may be expected for the Company's 2005 fiscal year because of seasonal and other factors. Certain prior period amounts have been reclassified to conform to the current period's presentation.

2. Inventories

Inventories are valued at the lower of cost or market. Cost is determined using the last-in, first-out (LIFO) method for most inventories at domestic locations. The cost of other inventories is determined on the first-in, first-out (FIFO) method. Finished goods and work-in-process inventories include material, labor and manufacturing overhead costs. Inventories were comprised of the following:

(in millions)	June 30, 2005	September 30, 2004	June 30, 2004
Raw materials and supplies	\$ 466.7	\$ 460.9	\$ 445.1
Work-in-process	143.6	136.7	116.0
Finished goods	332.9	288.5	283.1
FIFO inventories	943.2	886.1	844.2
LIFO reserve	(28.2)	(27.8)	(26.8)
Inventories	\$ 915.0	\$ 858.3	\$ 817.4

3. Discontinued Operations

In February 2005, the Company completed the sale of its engine electronics business, included in the Seating & Interiors Europe segment, to Valeo for approximately 323 million, or about \$427 million. This non-core business was acquired in fiscal 2002 from Sagem SA. The sale of the engine electronics business resulted in a gain of approximately \$90 million (\$57 million after tax), net of related costs and subject to certain adjustments. As part of the post-closing activities in the third quarter, the Company received a claim from Valeo seeking an adjustment to the above purchase price. The Company is in negotiations with Valeo regarding the claim; however the outcome cannot be determined at this time. To the extent the Company is required to

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

make an adjustment, it will be recognized as a charge, net of tax, in discontinued operations.

In March 2005, the Company completed the sale of its Johnson Controls World Services, Inc. subsidiary (World Services), included in the Controls Group segment, to IAP Worldwide Services, Inc. for approximately \$260 million. This non-strategic business was acquired in fiscal 1989 from Pan Am Corporation. The sale of World Services resulted in a gain of approximately \$144 million (\$88 million after tax), net of related costs.

The following summarizes the revenues, expenses and related gain on sale of the discontinued operations:

(in millions)	Engine Electronics (1)				Johnson Controls World Services, Inc. (2)

- (1) Engine Electronics includes revenues and expenses through February 28, 2005, the effective date of the disposition.
- (2) World Services includes revenues and expenses through March 30, 2005, the effective date of disposition.

Assets of the engine electronics business as of the disposal date totaled \$427 million, which consisted of goodwill (\$154 million), accounts receivable (\$100 million), property, plant and equipment net (\$69 million), other intangible assets net (\$59 million) and other miscellaneous assets (\$45 million). Liabilities of the engine electronics business as of the disposal date totaled \$90 million, which consisted of accounts payable (\$82 million) and other miscellaneous liabilities (\$8 million).

Assets of World Services as of the disposal date totaled \$178 million, which consisted of accounts receivable (\$127 million), goodwill (\$30 million), property, plant and equipment net (\$10 million) and other miscellaneous assets (\$11

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

million). Liabilities of World Services as of the disposal date totaled \$62 million, which consisted of accounts payable (\$40 million) and other miscellaneous liabilities (\$22 million).

4. Product Warranties

The Company provides warranties to certain of its customers depending upon the specific product and terms of the customer purchase agreement. Most of the Company's product warranties are customer specific. The Company has been increasingly offering discounts in lieu of warranties resulting in a decline in the overall warranty liability. A typical warranty program requires replacement of defective products within a specified time period from the date of sale. The Company records an estimate for future warranty-related costs based on actual historical return rates. While warranty costs have historically been within calculated estimates, it is possible that future warranty costs could exceed those estimates. The Company's product warranty liability is included in Other current liabilities in the Consolidated Statement of Financial Position.

The changes in the carrying amount of total product warranty liability for the nine month period ended June 30, 2005 were as follows:

(in millions)

Balance as of September 30, 2004	\$ 65.2
Accruals for warranties issued during the period	26.0
Accruals related to pre-existing warranties (including changes in estimates)	(1.3)
Accruals from acquisition	0.8
Settlements made (in cash or in kind) during the period	(33.2)
Currency translation	(1.2)
Balance as of June 30, 2005	\$ 56.3

5. Research and Development

Expenditures for research activities relating to product development and improvement are charged against income as incurred and included within Selling, general and administrative expenses. Such expenditures amounted to approximately \$216 million and \$203 million for the three months ended June 30, 2005 and 2004, respectively. Expenditures of approximately \$633 million and \$655 million were recorded for the nine months ended June 30, 2005 and 2004, respectively.

A portion of the costs associated with these activities is reimbursed by customers, and totaled approximately \$101 million and \$69 million for the three months ended June 30, 2005 and 2004, respectively, and approximately \$274 million and \$222 million for the nine months ended June 30, 2005 and 2004, respectively.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****6. Stock-Based Compensation**

Effective October 1, 2002, the Company voluntarily adopted the fair value recognition provisions of SFAS No. 123,

Accounting for Stock-Based Compensation and adopted the disclosure requirements of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure an amendment of FAS 123. In accordance with SFAS No. 148, the Company has adopted the fair value recognition provisions on a prospective basis and, accordingly, the expense recognized in the three and nine month periods ended June 30, 2005 represents a pro rata portion of the fiscal 2005, 2004 and 2003 grants which are earned over a three-year vesting period.

The following table illustrates the pro forma effect on net income and earnings per share as if the fair value based method had been applied to all outstanding and unvested awards in each period:

(in millions)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2005	2004	2005	2004
Net income, as reported	\$ 254.7	\$ 222.3	\$ 625.6	\$ 544.5
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	5.0	3.7	11.7	11.1
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects	(5.0)	(5.1)	(12.4)	(15.9)
Pro forma net income	\$ 254.7	\$ 220.9	\$ 624.9	\$ 539.7
Earnings per share				
Basic as reported	\$ 1.33	\$ 1.17	\$ 3.27	\$ 2.90
Basic pro forma	\$ 1.33	\$ 1.16	\$ 3.27	\$ 2.88
Diluted as reported	\$ 1.31	\$ 1.15	\$ 3.22	\$ 2.83
Diluted pro forma	\$ 1.31	\$ 1.15	\$ 3.22	\$ 2.80

During December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123R, Share-Based Payment (SFAS 123R), which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions under other Company stock plans. The Company grants options to purchase common stock to some of its employees under various plans at prices equal to the market value of the stock on the dates the options were granted. In April 2005, the Securities and Exchange Commission amended the effective date of SFAS 123R to the first interim period of the first fiscal year beginning after June 15, 2005.

The Company has historically applied a nominal vesting approach for employee stock-based compensation awards with retirement eligible provisions. Under the nominal vesting approach, the Company recognizes compensation cost over the

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

vesting period and, if the employee retires before the end of the vesting period, the Company recognizes any remaining unrecognized compensation cost at the date of retirement. Upon adoption of SFAS 123R, the Company will be required to apply a non-substantive vesting period approach whereby expense is accelerated for those employees that receive awards and are eligible to retire prior to the award vesting. Had the Company applied the non-substantive vesting period approach under SFAS 123, an approximate \$4 million and \$1 million reduction of pre-tax compensation cost would have been realized for the three months ended June 30, 2005 and 2004, respectively. For the nine months ended June 30, 2005 and 2004, additional pre-tax compensation cost of \$2 million and \$14 million, respectively, would have been recognized.

7. Earnings Per Share

The following table reconciles the numerators and denominators used to calculate basic and diluted earnings per share:

(in millions)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2005	2004	2005	2004

Amortization of other intangible assets for the nine month periods ended June 30, 2005 and 2004 was \$17 million and \$14 million, respectively. Excluding the impact of any future acquisitions, the Company anticipates annual amortization of other intangible assets will average \$21 million per year over the next five years.

9. Guarantees

The Company has guaranteed the residual value related to the Company aircraft accounted for as synthetic leases. The guarantees extend through the lease maturity dates of September 2006. In the event the Company exercised its option not to purchase the aircraft for the remaining obligations at the scheduled maturity of the leases, the Company has guaranteed the majority of the residual values, not to exceed \$53 million in aggregate. The Company has recorded a liability of approximately \$2

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

million within Other noncurrent liabilities and a corresponding amount within Other noncurrent assets in the Consolidated Statement of Financial Position relating to the Company's obligation under the guarantees. These amounts are being amortized over the lives of the guarantees.

10. Comprehensive Income

A summary of comprehensive income is shown below:

(in millions)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2005	2004	2005	2004
Net income	\$ 254.7	\$ 222.3	\$ 625.6	\$ 544.5
Realized and unrealized gains (losses) on derivatives	7.7	(0.5)	3.4	2.6
Foreign currency translation adjustments	(151.7)	(61.2)	(43.8)	121.8
Other comprehensive (loss) income	(144.0)	(61.7)	(40.4)	124.4
Comprehensive income	\$ 110.7	\$ 160.6	\$ 585.2	\$ 668.9

The unfavorable foreign currency translation adjustments (CTA) for the three months ended June 30, 2005 compared to the prior period was primarily due to the approximate 7% decrease in the euro compared to a 2% decrease in the euro for the same three month period a year ago. CTA for the nine months ended June 30, 2005 was unfavorable compared to the prior period primarily due to the approximate 1% decrease in the euro in the current period compared to an approximate 6% increase in the euro for the nine month period a year ago.

The Company has foreign currency-denominated debt obligations and cross-currency interest rate swaps which are designated as hedges of net investments in foreign subsidiaries. Gains and losses, net of tax, attributable to these hedges are deferred as CTA within the Accumulated other comprehensive income account. A net gain of approximately \$29 million and \$13 million was recorded for the three month periods ending June 30, 2005 and 2004, respectively. Net losses of approximately \$1 million and \$31 million were recorded for the nine month periods ending June 30, 2005 and 2004, respectively.

11. Segment Information

In the current quarter, the Company has revised its segment disclosure from two reportable segments to five reportable segments and has revised the prior periods to conform to the current period presentation. Due to this segment revision, the Company has also revised the previously reported amounts in Note 8 Goodwill and Other Intangible Assets to conform to the new segment presentation.

The Company operates in three primary businesses, the Controls Group, the Seating & Interiors Group, and the Battery Group. The Controls Group provides facility systems and services including comfort, energy and security management for the non-residential buildings market. The Seating & Interiors Group designs and

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

manufactures interior systems and products for passenger cars and light trucks, including vans, pick-up trucks and sport utility vehicles. The Battery Group designs and manufactures automotive batteries for the replacement and original equipment markets.

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, (SFAS 131) establishes the standards for reporting information about operating segments in financial statements. In applying the criteria set forth in SFAS 131, the Company has determined that it operates in six operating segments, two within the Battery Group are aggregated under the accounting standard to arrive at the Company's five reportable segments for financial reporting purposes.

Management's evaluation of the performance of the Company's reportable segments excludes discontinued operations, significant restructuring costs and other significant non-recurring gains or losses. Financial information relating to the Company's reportable segments were as follows:

(in millions)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2005	2004	2005	2004
Net Sales				
Controls Group	\$ 1,406.6	\$ 1,320.8	\$ 4,216.4	\$ 3,892.7

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

12. Income Taxes

The Company's estimated annualized base effective income tax rate for continuing operations for the three months ended June 30, 2005, declined to 26.5% from 27.1% for the prior year period primarily due to continuing global tax planning initiatives. The Company's base effective tax rate for the nine month period ended June 30, 2005 benefited from an \$11.5 and \$69 million tax benefit in the first and second quarters, respectively, due to a change in tax status of a French and a German subsidiary. The change in tax status resulted from a voluntary tax election that produced a deemed liquidation of the French and German subsidiaries for US federal income tax purposes. The US shareholder received a tax benefit for the loss from the decrease in value from the original tax basis of these investments. This election changed the tax status of the German and French entities from controlled foreign corporations (i.e. taxable entities) to branches (i.e. flow through entities similar to a partnership) for US federal income tax purposes and is thereby reported as a discrete period tax benefit in accordance with the provisions of SFAS No. 109, Accounting for Income Taxes. These benefits were partially offset by an increase in the tax valuation allowance of \$28 million related to second quarter restructuring charges for which no tax benefits were recorded in certain countries (primarily Germany and the United Kingdom) given the uncertainty of its realization due to restrictive tax loss rules or a lack of sustained profitability in that country. The prior year nine month period ended June 30, 2004 benefited from a \$17 million favorable tax settlement related to prior periods.

The estimated annualized effective tax rate for income from discontinued operations was 39% and 35.4% for World Services and the engine electronics business, respectively. These effective tax rates approximate the local statutory rate adjusted for permanent differences. The Company's income taxes for the gain on the sale of discontinued operations resulted in an effective tax rate of 38.1%.

The Company's Federal income tax returns and certain foreign income tax returns for fiscal years 1997-2003 are currently under various stages of audit by the Internal Revenue Service (IRS) and respective foreign tax authorities. Although the outcome of tax audits is always uncertain, management believes that its annual tax provisions included amounts sufficient to pay assessments, if any, which may be proposed by the taxing authorities. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the IRS may differ materially from the amounts accrued for each year.

On October 22, 2004, the President signed the American Jobs Creation Act of 2004 (Act). The Act creates a temporary incentive for U.S. corporations to repatriate accumulated income earned abroad by providing an 85 percent dividends received deduction for certain dividends from controlled foreign operations. The deduction is subject to a number of limitations and, as of today, uncertainty remains as to how to interpret numerous provisions in the Act. As such, the Company is not yet in a

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

position to decide on whether, and to what extent, the Company might repatriate foreign earnings that have not yet been remitted to the U.S. The Act allows the Company to repatriate an amount up to \$560 million, which represents the cumulative undistributed earnings of foreign subsidiaries subject to the Act. The respective tax liability if the \$560 million was repatriated would be approximately \$30 million. The Company expects to be in a position to finalize its assessment by December 2005.

13. Restructuring Costs

In the second quarter of fiscal year 2005, the Company executed a restructuring plan (2005 Plan) involving cost reduction actions and recorded a \$210 million restructuring charge included in Restructuring costs in the Consolidated Statement of Income. These restructuring charges include workforce reductions of approximately 3,100 within Seating & Interiors and the Battery Group and 800 employees in the Controls Group. The charges associated with employee severance and termination benefits are paid over the severance period granted to each employee and on a lump sum basis when required in accordance with individual severance agreements. As of June 30, 2005, approximately 150 employees within Seating & Interiors and the Battery Group and 400 employees in the Controls Group have been separated from the Company. In addition, the 2005 Plan includes eight plant closures within the Seating & Interiors and the Battery Group and four plant closures within the Controls Group. The write downs of the long-lived assets associated with the plant closures were determined using a discounted cash flow analysis. The Seating & Interiors and the Battery Group actions are primarily concentrated in Europe, while the Controls Group restructuring actions involve activities in both North America and Europe. The Company expects to incur other related and ancillary costs associated with some of these restructuring initiatives. These costs are not expected to be material and will be expensed as incurred. The majority of the restructuring activities are expected to be completed by the end of the second quarter of fiscal year 2006.

The Company recorded the restructuring charge as a result of management's ongoing review of the Company's cost structure, the sharp increase in commodity costs, and the current economic difficulties facing some of our most significant customers. Company management is continually analyzing our businesses for opportunities to consolidate current operations and to locate our facilities in low cost countries in close proximity to our customers. This ongoing analysis includes the review of our manufacturing, engineering and purchasing operations as well as our overall company footprint. As a result of the 2005 Plan, the Company anticipates annual savings of approximately \$135 million beginning in fiscal year 2006.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

The following table summarizes the Company's 2005 Plan reserve, included within Other current liabilities in the Consolidated Statement of Financial Position:

(in millions)	Original Reserve	Utilized		Balance at June 30, 2005
		Cash	Noncash	
Employee severance and termination benefits	\$ 139.3	(\$ 20.5)		\$ 118.8
Write down of long-lived assets (1)	45.8		(\$ 45.8)	
Other	24.9	(9.0)	(0.2)	15.7
Currency translation			(9.3)	(9.3)
	\$ 210.0	(\$ 29.5)	(\$ 55.3)	\$ 125.2

- (1) Write down of long-lived assets includes \$36.6 million related to Seating & Interiors Europe, \$7.1 million related to the Battery Group, and \$2.1 million related to the Controls Group.

Included within Other are exit costs related to terminating supply contracts associated with changes in the Company's manufacturing footprint and strategies, lease termination costs and other direct costs of the restructuring plan.

In the second quarter of fiscal year 2004, the Company executed a restructuring plan (2004 Plan) involving cost structure improvement actions and recorded an \$82.4 million restructuring charge included in Restructuring costs in the Consolidated Statement of Income. These charges primarily related to workforce reductions of approximately 1,500 employees within Seating & Interiors and the Battery Group and 470 employees in the Controls Group. In addition, the 2004 Plan called for four plants within Seating & Interiors to be consolidated. Through June 30, 2005, approximately 1,375 employees within Seating & Interiors and the Battery Group and all employees from the Controls Group have been separated from the Company. A significant portion of the Seating & Interiors and the Battery Group actions were concentrated in Europe. The Controls Group restructuring actions involved activities in both North America and Europe. The remaining restructuring activities are expected to be completed in the fourth quarter of fiscal year 2005.

The following table summarizes the Company's 2004 Plan reserve, included within Other current liabilities in the Consolidated Statement of Financial Position:

Balance at	Utilized	Balance at June 30,

15. Deconsolidation of a Joint Venture (Restated)

On April 1, 2005, the Company deconsolidated a North American Seating & Interiors joint venture as it was determined the Company no longer had effective control over the venture's operating activities. Subsequent to April 1,

2005, the Company determined that based on SFAS 94, Consolidation of All Majority-Owned Subsidiaries, the joint venture should not have been consolidated in prior periods. As such, the Company's financial statements have been restated to account for the joint venture on an equity basis in accordance with APB 18, The Equity Method of Accounting for Investments in Common Stock for all periods prior to April 1, 2005. Due to this deconsolidation, the Company has also revised the previously reported amounts in Note 2 Inventories, Note 5 Research and development, Note 8 Goodwill and other intangible assets, Note 11 Segment information and Note 12 Income taxes.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

The deconsolidation of this joint venture had no impact on income from continuing operations, net income or earnings per share in the respective periods and its impact on the consolidated statement of cash flows was not significant. Revenues and expenses previously recorded in certain consolidated financial statement line items are now reported on a net basis as Equity income in the Consolidated Statement of Income and the Company's net investment in the joint venture is reported in the Investments in partially-owned affiliates line in the Consolidated Statement of Financial Position. The following table summarizes the impact of this restatement on key financial statement line items (the impact on other individual financial statement line items is not material):

	Three Months Ended		Nine Months Ended		Nine Months Ended	
	June 30, 2004		June 30, 2005		June 30, 2004

Minority interests in equity of subsidiaries	248.6	109.4				

16. Guarantor Financial Statements (Restated)

Subsequent to September 30, 2005, the Company identified intercompany subsidiary upstream guarantees, issued March 21, 2001, applicable to certain third-party debt of the Company. Based upon the nature of these guarantees, the Company has determined that condensed guarantor subsidiary financial statement information should have been disclosed in its previously filed interim and annual financial statements since the issuance of the guarantees. As a result, the Company has restated its fiscal 2005 and fiscal 2004 consolidated financial statements to include these required disclosures.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

Certain of the Company's wholly-owned subsidiaries (the Guarantors) had unconditionally guaranteed (the guarantees), on a joint and several basis, any and all liabilities of Johnson Controls, Inc. (the Parent) for money borrowed, when due, whether at stated maturity, by acceleration, or otherwise. The guarantees did not have a stated maturity; however, the guarantees were rescinded in November 2005 and replaced with alternative intercompany arrangements. The guarantees covered the majority of the Parent's short-term and long-term debt, as follows:

(In millions)	June 30, 2005	September 30, 2004	June 30, 2004
Short-term debt	\$ 392.7	\$ 813.3	\$ 418.8
Less bank borrowings not subject to guarantees	(98.7)	(96.3)	(80.8)
Total short-term debt of Parent subject to guarantees	\$ 294.0	\$ 717.0	\$ 338.0
Long-term debt	\$ 1,853.0	\$ 1,857.3	\$ 1,856.4
Less debt not subject to guarantees:			
Industrial revenue bonds		(9.7)	(9.5)
Capital lease obligations	(92.8)	(89.0)	(88.0)
Euro denominated debt	(99.6)	(142.2)	(135.5)
Yen denominated debt	(0.9)		(0.9)
Other long-term debt	(88.7)	(39.9)	(46.3)
Total debt subject to guarantees	1,571.0	1,576.5	1,576.2
Less current portion of Parent subject to guarantees	(200.0)	(200.0)	
Total long-term debt of Parent subject to guarantees	\$ 1,371.0	\$ 1,376.5	\$ 1,576.2

The Guarantors included Hoover Universal, Inc., Johnson Controls Battery Group, Inc., JC Interiors, LLC and Johnson Controls Beteiligungs GmbH. Pursuant to Rule 3-10 of Regulation S-X, in lieu of providing separate audited financial statements for each of the Guarantors, or the Guarantors as a group, the Company has disclosed the condensed supplemental consolidating financial information below.

17. Contingencies

The Company is involved in a number of proceedings relating to environmental matters. Although it is difficult to estimate the liability related to these environmental matters, the Company believes that these matters will not have a materially adverse effect upon its capital expenditures, earnings or competitive position. Costs related to such matters were not material to the periods presented.

In 1989, Johnson Controls initiated an action in the Milwaukee County, Wisconsin Circuit Court, *Johnson Controls, Inc. v. Employers Insurance of Wausau*, which

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

sought reimbursement under comprehensive general liability insurance policies dating from 1954 through 1985 for costs relating to certain environmental matters. In 1995, the Circuit Court dismissed the action based on the Wisconsin Supreme Court's decision in *City of Edgerton v. General Casualty Co. of Wisconsin*. The Company twice appealed the case to the Court of Appeals and then petitioned the Wisconsin Supreme Court to review the lower courts' decisions. The Supreme Court granted the petition and on July 11, 2003, overruled its decision in the *Edgerton* case, and found that the comprehensive general liability insurance policies may provide coverage for environmental damages. The Supreme Court's decision remanded the case to the Circuit Court for further consideration. During the third quarter of 2005, the Company filed a motion for declaratory judgment, in which it seeks a ruling that one of its insurers breached its duty to defend, thus waiving its defenses against the Company's environmental claims. The ultimate outcome cannot be determined at this time, however, the Company expects a decision on its motion within approximately six months.

Additionally, the Company is involved in a number of product liability and various other suits incident to the operation of its businesses. Insurance coverages are maintained and estimated costs are recorded for claims and suits of this nature. It is management's opinion that none of these will have a materially adverse effect on the Company's financial position, results of operations or cash flows. Costs related to such matters were not material to the periods presented.

18. Subsequent Event

On July 1, 2005, the Company completed a transaction with Delphi to purchase their global battery business for approximately \$202.5 million. In conjunction with the acquisition, the Company has received a global long-term contract to supply General Motors.

To the Board of Directors and Shareholders
of Johnson Controls, Inc.

We have reviewed the accompanying condensed consolidated statements of financial position of Johnson Controls, Inc. and its subsidiaries as of June 30, 2005 and 2004, and the related consolidated statements of income and cash flows for each of the three- and nine-month periods ended June 30, 2005 and 2004. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial position as of September 30, 2004, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein), and in our report dated December 2, 2005, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated statement of financial position as of September 30, 2004, is fairly stated in all material respects in relation to the consolidated statement of financial position from which it has been derived.

As discussed in Notes 11, 15 and 16 to the condensed consolidated financial statements, the Company has restated its fiscal 2005 and 2004 consolidated interim financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In the current quarter, Johnson Controls, Inc. (the Company) has revised its segment disclosure included in Note 11 to the Consolidated Financial Statements from two reportable segments to five reportable segments. The prior periods have been revised to conform to the current period presentation.

On April 1, 2005, the Company deconsolidated a North American Seating & Interiors joint venture as it was determined the Company no longer had effective control over the venture's operating activities. Subsequent to April 1, 2005, the Company determined that based on SFAS 94, Consolidation of All Majority-Owned Subsidiaries, the joint venture should not have been consolidated in prior periods. As such, the Company's financial statements have been restated to account for the joint venture on an equity basis in accordance with APB 18, The Equity Method of Accounting for Investments in Common Stock for all periods prior to April 1, 2005. The deconsolidation had no impact on previously reported income from continuing operations, net income or earnings per share (see Note 15 to the Consolidated Financial Statements).

Subsequent to September 30, 2005, the Company identified intercompany subsidiary upstream guarantees, issued March 21, 2001, applicable to certain third party debt of the Company. Based upon the nature of these guarantees, the Company has determined that condensed guarantor subsidiary financial statement information should have been disclosed in its previously filed interim and annual financial statements since the issuance of the guarantees. As a result, the Company has restated its fiscal 2005 and fiscal 2004 consolidated financial statements to include these required disclosures. As the restatement relates only to the disclosure of guarantor financial information, the previously reported amounts in the Consolidated Statement of Income and the Consolidated Statement of Financial Position remain unchanged (see Note 16 to the Consolidated Financial Statements).

Prior year results of operations, financial position and cash flows noted in the following discussion have been restated to reflect the current year's presentation of the engine electronics business and World Services as discontinued operations and the North American Seating & Interiors joint venture as an investment in a partially-owned affiliate. The following management's discussion and analysis of financial condition and results of operations (MD&A) should be read in conjunction with the September 30, 2004 consolidated financial statements and notes thereto, along with the MD&A included in the Company's Amended 2004 Annual Report on Form 10-K/A.

Table of Contents**Comparison of Operating Results for the Three Month Periods ended June 30, 2005 and 2004*****Sales***

The Company's net sales for the three month periods ended June 30, 2005 and 2004 were as follows:

(in millions)	2005	Restated 2004	% change
Controls Group	\$ 1,406.6	\$ 1,320.8	6%
Seating & Interiors North America	2,203.3	2,118.8	4%
Seating & Interiors Europe	2,425.4	2,026.4	20%
Seating & Interiors Asia	361.6	275.4	31%
Battery Group	665.2	534.6	24%
 Total	 \$ 7,062.1	 \$ 6,276.0	 13%

Consolidated net sales in the third quarter of fiscal 2005 were \$7.1 billion, increasing 13% above the prior year period sales of \$6.3 billion.

Controls Group

Controls Group sales in the current period were \$1.4 billion, 6% above the \$1.3 billion in the prior year period.

Excluding the impact of currency translation, segment sales were up 4% over the prior year.

North American sales were 5% above the prior year. Sales of installed systems contracts grew 10%, with strong growth in both the systems renovation and new construction businesses. Service sales were down 1%, due to a decrease in facility management sales partially offset by an increase in technical services volumes.

European sales were 11% higher than the prior year period with strong increases in facility management sales and systems renovation, but continued to remain relatively flat in the new construction market. Excluding the positive effects of currency translation, segment sales in Europe were approximately 5% higher than the prior year.

Sales in the rest of the world, which represent less than 10% of segment revenue, were slightly above the prior year, primarily attributable to the favorable impact of currency translation and volume increases in Japan.

Seating & Interiors North America

Seating & Interiors North America sales in the third quarter of fiscal 2005 increased 4% from \$2.1 billion in the prior year period to \$2.2 billion. The Company benefited from new business awards and a favorable mix of vehicle sales compared to the estimated 1% decrease in the industry's domestic vehicle production.

Seating & Interiors Europe

Segment sales in Europe for the current period increased 20% above the prior year period. Excluding the favorable impact of currency translation, European sales were up 13%. The growth was primarily attributable to new contract awards in seating and interior systems in the current year, growth in electronics revenue and a slightly positive mix to the estimated 1% decline in industry vehicle production in Europe.

Table of Contents**Seating & Interiors Asia**

Seating & Interiors Asia sales in the third quarter of fiscal 2005 increased 31% compared to prior period. Excluding the positive effects of currency translation, Asian sales were up 25%. The strong growth in sales was primarily due to the introduction of significant new models in Japan by original equipment manufactures (OEMs) and strong sales in our seating business in Korea.

Battery Group

Automotive battery sales increased 24% compared to the third quarter of the prior year primarily due to the acquisition of the remaining interest in the Company's Latin American battery joint venture in the fourth quarter of fiscal 2004, which added \$77 million to the segment's third quarter sales. Excluding the impact of the acquisition, automotive battery sales increased 10% due mainly to the pass-through of higher lead costs and higher unit volumes.

Operating Income

The Company's operating income for the three month periods ended June 30, 2005 and 2004 was as follows:

(in millions)	2005	Restated 2004	% change
Controls Group	\$ 93.0	\$ 67.5	38%
Seating & Interiors North America	115.3	154.0	-25%
Seating & Interiors Europe	80.8	32.7	147%
Seating & Interiors Asia	3.3	8.4	-61%
Battery Group	75.7	56.7	34%
 Total	 \$ 368.1	 \$ 319.3	 15%

Consolidated operating income for the third quarter of fiscal 2005 was \$368 million, a 15% increase from the prior year's operating income of \$319 million.

Controls Group

Controls Group operating income in the third quarter was \$93 million, compared to the prior period operating income of \$68 million. The increase was due to higher gross profits in both North America and Europe. North American gross profits increased primarily due to a favorable mix of higher margin system and services sales versus lower margin facility management sales. In addition, system and service gross margins benefited from improved operational efficiency associated with our branch redesign initiative.

Seating & Interiors North America

Seating & Interiors North America operating income was \$115 million, compared to the prior period operating income of \$154 million. The decrease was primarily due to continued price reductions and material cost pressures, partially offset by a favorable mix compared to industry production, operational cost savings and lower engineering expenses.

Lower sales mix of mature vehicle programs and sales price reductions under long term agreements with the Company's customers exceeded cost reductions and operational efficiencies by \$17 million in the period. The lower sales mix of mature vehicle programs

Table of Contents

negatively impacted results as these sales typically deliver more favorable margins due to operational efficiencies and cost reductions that are implemented throughout the vehicle life cycle. In contrast, new vehicle programs require significant engineering and start up costs thereby reducing margins at the onset of the program. Annual price reduction renewal negotiations during the period yielded terms consistent with prior agreements. It should be noted that price reduction commitments are often made in the context of broader customer negotiations on several factors, including volume, potential new business opportunities and geographic expansion.

The segment experienced commodity cost increases, primarily steel, resin and chemicals, of approximately \$30 million compared to the prior year. The Company continues to address the rising commodity costs in the region through negotiations with both its customers and suppliers. In order to address future increases, the Company intends to modify the duration and terms of its direct material buy contracts.

The Company expects the commodity cost pressures to continue in the fourth quarter of 2005, with increased pressure from Tier 2 and Tier 3 suppliers partially offset by the Company's direct purchase initiatives.

SG&A expenses decreased \$8 million in the period primarily due to lower net engineering expenses.

Seating & Interiors Europe

Seating & Interiors Europe operating income was \$81 million, compared to the prior period operating income of \$33 million. The increase was due to increased volumes of higher margin interior systems, improved launch execution and reduced engineering costs, partially offset by price reductions and commodity cost increases. The current period also benefited from a lower number of new vehicle launches compared to the prior year.

Implemented cost reductions, operational efficiencies and the higher sales mix of mature vehicle programs exceeded incremental sales price reductions by approximately \$60 million in the period. Annual sales price reduction renewal negotiations during the period yielded terms consistent with prior agreements.

The incremental effect of commodity costs totaled approximately \$8 million in the period. The increases were less than those incurred in North America due to the timing of contract renewals and variations in certain terms of the agreements. SG&A expenses increased approximately \$4 million compared to the prior period.

Seating & Interiors Asia

Seating & Interiors Asia operating income in the third quarter of fiscal 2005 decreased \$5 million from \$8 million for the prior period. The decrease was primarily due to a significant number of recent new program wins in Japan and their corresponding launch and engineering costs.

Battery Group

Battery Group operating income in the third quarter increased 34% to \$76 million from the prior period operating income of \$57 million. The increase is primarily due to favorable sales mix and higher unit volumes in North America and higher unit volumes and operational improvements in Europe. In addition, the incremental effect of commodity costs benefited North America in the current period by \$4 million due to the

Table of Contents

implementation of lead hedges and improved pass through of lead costs, while the effect of changes in commodity costs were unfavorable to Europe by \$5 million.

Other Income/Expense

Other net expense decreased in the third quarter of fiscal year 2005 compared to the prior year period due to lower Miscellaneous net expenses, which was partially offset by lower equity income and slightly higher net interest expense. Miscellaneous net expense in the current quarter decreased approximately \$12 million from the prior year period due primarily to the prior year including approximately \$6 million of expense associated with the early redemption of outstanding bonds. The current period Miscellaneous net expense also benefited from lower foreign currency losses. Equity income decreased due to lower earnings from certain Seating & Interiors joint ventures in China.

Provision for Income Taxes

The Company's estimated annualized base effective income tax rate for continuing operations for the three months ended June 30, 2005, declined to 26.5% from 27.1% for the prior year period primarily due to continuing global tax planning initiatives.

Minority Interests in Net Earnings of Subsidiaries

Minority interests in net earnings of subsidiaries in the current quarter decreased from the prior year. The decrease was primarily due to lower earnings at certain Seating & Interiors joint ventures in North America, partially offset by higher earnings at certain Seating & Interiors joint ventures in Asia.

Income from Continuing Operations

Income from continuing operations for the three months ended June 30, 2005 was \$255 million, \$46 million higher than prior period's \$209 million. The increased earnings were primarily the result of higher gross profit and lower miscellaneous expenses. Diluted earnings per share from continuing operations for the three months ended June 30, 2005 were \$1.31, compared to the prior year period of \$1.08.

Table of Contents**Comparison of Operating Results for the Nine Month Periods ended June 30, 2005 and June 30, 2004*****Sales***

The Company's consolidated net sales for the nine month periods ended June 30, 2005 and 2004 were as follows:

(in millions)	Restated		% change
	2005	2004	
Controls Group	\$ 4,216.4	\$ 3,892.7	8%
Seating & Interiors North America	6,397.8	6,244.5	2%
Seating & Interiors Europe	6,859.1	5,803.1	18%
Seating & Interiors Asia	1,041.0	790.2	32%
Battery Group	2,065.0	1,640.1	26%
Total	\$ 20,579.3	\$ 18,370.6	12%

Consolidated net sales in the nine month period ended June 30, 2005 reached \$20.6 billion, 12% higher than the prior year's \$18.4 billion. Excluding the favorable impact of currency translation, current period sales grew 9% over the prior period.

Controls Group

Sales in the first nine months of fiscal 2005 reached \$4.2 billion, an 8% increase over the prior year's \$3.9 billion. Sales grew 3% excluding the positive impact of currency translation and acquisitions.

Sales in North America were up 8% over the first nine months of the prior year. Sales of installed systems increased 9%, with strong growth achieved in new construction and the existing buildings market. Service sales were up 7% in North America, with increases in both technical services and facility management.

Excluding the positive effects of currency translation, sales in Europe increased 6% in comparison to the prior year period. The increase is primarily attributed to strength in facility management and existing building markets.

Sales in the rest of the world, which represent less than 10% of segment revenue, were above the prior year, primarily attributable to higher volumes in Japan and the favorable impact of currency translation.

Seating & Interiors North America

Seating & Interiors North America sales increased 2% above the prior year's sales of \$6.2 billion for the nine month period ended June 30, 2005 due to new business awards and a favorable mix of vehicle platforms compared to the estimated decrease in the domestic vehicle production.

Seating & Interiors Europe

Segment sales in Europe for the current period grew 18% above the prior year period sales of \$5.8 billion. Excluding the positive impact of currency translation, European sales were up over 11%. The growth was primarily attributable to new contract awards in seating and interior systems in the current year, growth in electronics revenue and a slightly positive mix to the estimated slight decline in industry vehicle production in Europe over the first nine months of the year.

Table of Contents**Seating & Interiors Asia**

Seating & Interiors Asia sales in the first nine months of fiscal 2005 increased 32% compared to prior period. Excluding the positive effects of currency translation, sales in Asia sales were up 27%. The strong growth in sales was primarily due to the introduction of significant new models in Japan by OEMs and strong sales in our seating business in Korea.

Battery Group

Battery Group sales increased 26% to \$2.1 billion from the prior year nine month period sales of \$1.6 billion reflecting strong increases in both North America and Europe.

North American battery sales increased 32%, due mainly to the acquisition of the Company's remaining interest in the Latin American battery joint venture in the fourth quarter of fiscal year 2004, which added \$228 million of sales in the current period. Excluding the effect of the acquisition, North American battery sales increased 9% compared to the prior year period primarily due to the pass through of higher lead costs and higher unit volumes.

European battery sales, excluding the impact of currency translation, increased 10% over the prior year period primarily due to the pass through of higher lead costs and slightly higher unit volumes.

Operating Income

The Company's operating income for the nine month periods ended June 30, 2005 and 2004 was as follows:

(in millions)	Restated		% change
	2005	2004	
Controls Group (1)	\$ 179.2	\$ 159.0	13%
Seating & Interiors North America (2)	242.3	370.7	-35%
Seating & Interiors Europe (3)	165.0	46.3	256%
Seating & Interiors Asia (4)	18.7	19.2	-3%
Battery Group (5)	235.1	173.2	36%
Total	840.3	768.4	9%
Restructuring costs	(210.0)	(82.4)	
Japanese pension gain		84.4	
Consolidated Operating Income	\$ 630.3	\$ 770.4	

(1) Controls group operating income excludes \$51.3 and \$13.3 million of restructuring costs for the nine months ended June 30, 2005 and 2004, respectively.

(2) Seating & Interiors North America operating

income excludes \$11.9 and \$5.1 million of restructuring costs for the nine months ended June 30, 2005 and 2004, respectively.

(3) Seating & Interiors Europe operating income excludes \$129.6 and \$51.1 million of restructuring costs for the nine months ended June 30, 2005 and 2004, respectively.

(4) Seating & Interiors Asia operating income excludes \$0.4 million of restructuring costs for the nine months ended June 30, 2005 and a pension gain of \$84.4 million for the nine months ended June 30, 2004.

(5) Battery Group operating income excludes \$16.8 and \$12.9 million of restructuring costs for the nine months ended June 30, 2005 and 2004, respectively.

Table of Contents

Consolidated operating income for the first nine months of fiscal 2005 was \$630 million, down from the prior year's \$770 million. Included in the current nine month period's operating income was \$210 million of restructuring costs, compared to the prior year nine month period which included \$82 million of restructuring costs and an \$84 million Japanese pension gain.

Controls Group

Controls Group operating income was \$179 million (excluding \$51 million of restructuring costs) for the first nine months of fiscal 2005, up \$20 million from the prior period operating income of \$159 million (excluding \$13 million of restructuring costs). The increase was due to higher gross profit in Europe and North America, partially offset by higher SG&A in North America.

North American gross profit increased primarily due to a favorable mix of systems and services business compared to the lower margin facility management sales. In addition, system and service gross margins benefited from improved operational efficiency associated with the Company's branch redesign initiative. European gross profits were also higher due to cost reductions and higher facility management sales. Higher SG&A expenses in North America were primarily due to an acquisition in the first quarter of fiscal year 2005, which added \$22 million of expense in the current year period.

Seating & Interiors - North America

Seating & Interiors - North America operating income was \$242 million (excluding \$12 million of restructuring costs), compared to the prior period operating income of \$371 million (excluding \$5 million of restructuring costs). The decrease of \$129 million was due to selling price reductions and material cost increases in excess of cost savings, partially offset by lower SG&A.

Lower sales mix of mature vehicle programs and sales price reductions under long term agreements with the Company's customers exceeded cost reductions and operational efficiencies by \$91 million in the period. The lower sales mix of mature vehicle programs negatively impacted results as these sales typically deliver more favorable margins due to operational efficiencies and cost reductions that are implemented throughout the vehicle life cycle. In contrast, new vehicle programs require significant engineering and start up costs thereby reducing margins at the onset of the program. Annual price reduction renewal negotiations during the period yielded terms consistent with prior agreements. It should be noted that price reduction commitments are often made in the context of broader customer negotiations on several factors, including volume, potential new business opportunities and geographic expansion. The segment experienced commodity cost increases, primarily steel, resin and chemicals, of approximately \$97 million compared to the prior year. The Company continues to address the rising commodity costs in the region through negotiations with both its customers and suppliers. In order to address future increases, the Company intends to modify the duration and terms of its direct material buy contracts. The Company expects these commodity cost pressures on gross profit to continue in the fourth quarter of fiscal 2005, with increased pressure from Tier 2 and Tier 3 suppliers partially offset by the Company's direct purchase initiatives.

SG&A expenses decreased \$59 million in the period primarily due to lower net engineering expenses.

Table of Contents

Seating & Interiors Europe

Seating & Interiors Europe operating income was \$165 million (excluding \$130 million of restructuring costs), compared to the prior period operating income of \$46 million (excluding \$51 million of restructuring costs) due to increased volumes of higher margin interior systems, improved launch efficiencies, fewer overall launches, and operational improvements that more than offset the price and commodity cost increases. Excluding the positive impact of foreign currency, operating income increased \$112 million.

Implemented cost reductions, operational efficiencies and the higher sales mix of mature vehicle programs exceeded incremental sales price reductions by approximately \$108 million in the period. Annual sales price reduction renewal negotiations during the period yielded terms consistent with prior agreements.

The incremental effect of commodity costs totaled approximately \$20 million in the period. The increases were less than those incurred in North America due to the timing of contract renewals and variations in certain terms of the agreements. SG&A expenses declined approximately \$24 million primarily due to lower net engineering expenses.

Seating & Interiors Asia

Seating & Interiors Asia operating income was \$19 million in the first nine months of fiscal 2005, consistent with the prior year period of \$19 million (excluding an \$84 pension gain).

Battery Group

Battery Group operating income in the nine month period ended June 30, 2005 increased 36% to \$235 million (excluding \$17 million of restructuring costs) from the prior period operating income of \$173 million (excluding \$13 million of restructuring costs). The increase is primarily due to higher sales volumes in both the Americas and Europe and the acquisition of the remaining interest in the Company's Latin American Joint Venture in the fourth quarter of fiscal year 2004, which added approximately \$20 million to the current period. The Battery Group also benefited from a favorable product mix in North America and operational improvements in Europe. In addition, the incremental effect of commodity costs benefited North America in the current period by \$9 million due to the implementation of lead hedges and improved pass through of lead costs, while the effect of changes in commodity costs were unfavorable to Europe by \$13 million.

Restructuring Costs

In the second quarter of fiscal year 2005, the Company executed a restructuring plan (2005 Plan) involving cost reduction actions and recorded a \$210 million restructuring charge included in Restructuring costs in the Consolidated Statement of Income. These restructuring charges include workforce reductions of approximately 3,100 within Seating & Interiors and the Battery Group and 800 employees in the Controls Group. The charges associated with employee severance and termination benefits are paid over the severance period granted to each employee and on a lump sum basis when required in accordance with individual severance agreements. As of June 30, 2005, approximately 150 employees within Seating & Interiors and the Battery Group and 400 employees in the Controls Group have been separated from the Company. In addition, the 2005 Plan includes eight plant closures within Seating & Interiors and the Battery Group and four plant closures within the Controls Group. The write downs of the long-lived assets

Table of Contents

associated with the plant closures were determined using a discounted cash flow analysis. Seating & Interiors and the Battery Group actions are primarily concentrated in Europe, while the Controls Group restructuring actions involve activities in both North America and Europe. The Company expects to incur other related and ancillary costs associated with some of these restructuring initiatives. These costs are not expected to be material and will be expensed as incurred. The majority of the restructuring activities are expected to be completed by the end of the second quarter of fiscal year 2006.

The Company recorded the restructuring charge as a result of management's ongoing review of the Company's cost structure, the sharp increase in commodity costs, and the current economic difficulties facing some of our most significant customers. Company management is continually analyzing our businesses for opportunities to consolidate current operations and to locate our facilities in low cost countries in close proximity to our customers. This ongoing analysis includes the review of our manufacturing, engineering and purchasing operations as well as our overall company footprint. As a result of the 2005 Plan, the Company anticipates annual savings of approximately \$135 million beginning in fiscal year 2006.

In the second quarter of fiscal year 2004, the Company executed a restructuring plan (2004 Plan) involving cost structure improvement actions and recorded an \$82.4 million restructuring charge included in Restructuring costs in the Consolidated Statement of Income. These charges primarily related to workforce reductions of approximately 1,500 employees within Seating & Interiors and the Battery Group and 470 employees in the Controls Group. In addition, the 2004 Plan called for four plants within Seating & Interiors to be consolidated. Through June 30, 2005, approximately 1,375 employees within Seating & Interiors and the Battery Group and all employees from the Controls Group have been separated from the Company. A significant portion of the Seating & Interiors and the Battery Group actions were concentrated in Europe. The Controls Group restructuring actions involved activities in both North America and Europe. The remaining restructuring activities are expected to be completed in the fourth quarter of fiscal year 2005.

Other Income/Expense

Other net expense decreased in the nine months ended June 30, 2005 compared to the prior year period due to lower Miscellaneous net expenses, which was partially offset by higher net interest expenses and lower equity income. Miscellaneous net expense in the current period decreased approximately \$28 million from the prior year period as the prior year included approximately \$6 million of expense associated with the early redemption of outstanding bonds, higher non-recurring litigation expenses and higher foreign currency losses. Net interest expense increased from the prior year period primarily as a result of higher interest rates. Equity income was lower due to lower earnings from certain Seating & Interiors joint ventures in China.

Provision for Income Taxes

The Company's estimated base effective income tax rate for continuing operations for the nine month period ended June 30, 2005 declined to 25.1%, from 26.6% for the prior year period due to continuing global tax planning initiatives. The Company's base effective tax rate for the nine month period ended June 30, 2005 benefited from an \$11.5 and \$69 million tax benefit in the first and second quarters, respectively, due to a change in tax

Table of Contents

status of a French and a German subsidiary. The change in tax status resulted from a voluntary tax election that produced a deemed liquidation of the French and German subsidiaries for US federal income tax purposes. The US shareholder received a tax benefit for the loss from the decrease in value from the original tax basis of these investments. This election changed the tax status of the French and German entities from controlled foreign corporations (i.e. taxable entities) to branches (i.e. flow through entities similar to a partnership) for US federal income tax purposes and is thereby reported as a discrete period tax benefit in accordance with the provisions of SFAS No. 109, Accounting for Income Taxes. These benefits were partially offset by an increase in the tax valuation allowance of \$28 million related to second quarter restructuring charges for which no tax benefits were recorded in certain countries (primarily Germany and the United Kingdom) given the uncertainty of its realization due to restrictive tax loss rules or a lack of sustained profitability in that country. The prior year nine month period ended June 30, 2004 benefited from a \$17 million favorable tax settlement related to prior periods.

The Company used an effective rate for income from discontinued operations for all periods of 39% and 35.4% for World Services and the engine electronics business, respectively. These effective tax rates approximate the local statutory rate adjusted for permanent differences. The Company's income taxes for the gain on the sale of discontinued operations resulted in an effective tax rate of 38.1%.

Minority Interests in Net Earnings of Subsidiaries

Minority interests in net earnings of subsidiaries in the first nine months of fiscal year 2005 decreased \$5 million from the prior year period. The decrease was primarily due to lower earnings at certain Seating & Interiors joint ventures in North America, partially offset by higher earnings at certain Seating & Interiors joint ventures in Asia.

Income from Continuing Operations

Income from continuing operations for the nine months ended June 30, 2005 was \$465 million, a decrease of \$47 million compared to the prior year's \$512 million. The decreased earnings were a result of the current year restructuring charge of \$210 million compared to the prior year restructuring charge of \$82 million, an \$84 million Japanese pension gain in the prior year period and slightly higher SG&A expenses, partially offset by higher gross profit and a lower provision for income taxes. The income tax provision included an \$80 million tax benefit due to changes in the tax status of two foreign subsidiaries, partially offset by an increase the tax valuation allowance of \$28 million related to the current period restructuring charges for which no tax benefit will be received in certain countries. Diluted earnings per share from continuing operations for the nine months ended June 30, 2005 were \$2.39, compared to \$2.66 in the prior year period.

Fourth Quarter Outlook

Management estimates the fourth quarter sales will be approximately \$7 billion, an increase of approximately 9% compared to the fourth quarter sales of \$6.4 billion for fiscal year 2004. Earnings per share from continuing operations for the fourth quarter are expected to be between \$1.48 and \$1.52, a 13-16% increase from \$1.31 for 2004. Pricing pressures, higher commodity costs and vehicle production uncertainties, among others,

Table of Contents

could cause the Company's actual results to differ materially from the forecasted amounts.

Other Measures

Orders for control systems in the first nine months of fiscal year 2005 were above the prior year in both the domestic and European markets. Strong domestic market sectors for new construction included health care, industrial and office, while European operations showed growth in new construction and services businesses.

The Controls Group backlog relates to its installed systems and technical service activity, accounted for using the percentage-of-completion method. At June 30, 2005, the unearned backlog to be executed within the next year was \$2.0 billion, 7% above the prior year level of \$1.8 billion.

Comparison of Financial Condition

Working Capital and Cash Flow

Working capital, excluding cash and debt, of \$0.7 billion at June 30, 2005 was \$0.2 billion lower than at fiscal year-end and comparable to one year ago. The decrease from year-end was due to the disposition of the net assets of the discontinued operations, higher other current liabilities and accrued compensation and benefits, partially offset by higher accounts receivable and other current assets. Working capital was flat compared to one year ago based on higher accounts receivable and other current assets, which were completely offset by the disposition of the net assets of the discontinued operations, higher other current liabilities and accrued compensation and benefits.

The Company's days sales in accounts receivable for the three months ended June 30, 2005 was 52, consistent with the period ended September 30, 2004 and June 30, 2004 days sales in accounts receivable.

The Company's inventory turnover ratio for the three months ended June 30, 2005, was 21, an increase compared to the turnover ratio of 19 for the period ended September 30, 2004, and consistent with the ratio for the period ended June 30, 2004. The increase from the period ended September 30, 2004 was primarily due to increases in sales volume in the Seating & Interiors Europe segment at a faster rate than the increase in inventory as a result of increased operational efficiency.

Cash provided by operating activities of continuing operations was \$347 million and \$740 million for the three and nine month period ended June 30, 2005, respectively. In comparison to the three and nine month periods in the prior year, the cash provided by operating activities decreased \$54 million and \$111 million, respectively. The decrease in the nine month period ended June 30, 2005 primarily relates to the decrease in factored foreign currency trade account receivables in foreign countries.

Capital Expenditures

Capital spending for property, plant and equipment for the three month period ended June 30, 2005 was \$104 million, down \$73 million from the comparable prior year period. For the nine month period ended June 30, 2005, capital spending was \$387 million, down \$170 million from the same period in the prior year. The majority of the current year

Table of Contents

spending was attributable to the Seating & Interiors business. Management has decreased its estimate for full year fiscal 2005 capital expenditures to \$625 to \$675 million.

Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The Company has certain subsidiaries, mainly located in Germany, Italy, Mexico, United Kingdom, Japan, and Brazil, that have generated operating losses and, in certain circumstances, have limited loss carryforward periods. As a result, the Company has recorded valuation allowances against tax assets for certain of these subsidiaries. The Company's long-lived asset impairment analyses indicate that assets of these countries are not impaired based on undiscounted cash flows. At June 30, 2005, the Company does not have any material assets whose recovery is at risk.

Capitalization

Total capitalization of \$8.0 billion at June 30, 2005 included short-term debt of \$0.4 billion, long-term debt (including the current portion) of \$1.8 billion and shareholders' equity of \$5.8 billion. The Company's total capitalization at September 30, 2004 and June 30, 2004 was \$7.9 billion and \$7.2 billion, respectively. Total debt as a percentage of total capitalization at June 30, 2005 was 28.0%, compared with 33.9% at fiscal year end and 31.6% one year ago. The Company is in compliance with all covenants and other requirements set forth in its credit agreements and indentures. The Company believes its capital resources and liquidity position at June 30, 2005 are adequate to meet projected needs. Requirements for working capital, capital expenditures, dividends, debt maturities and any potential acquisitions in the remainder of fiscal 2005 will continue to be funded from operations, supplemented by short and long-term borrowings, if required.

Acquisitions and Dispositions

In February 2005, the Company completed the sale of its engine electronics business, included in the Seating & Interiors Europe segment, to Valeo for approximately \$323 million, or about \$427 million. This non-core business was acquired in fiscal 2002 from Sagem SA. The sale of the engine electronics business resulted in a gain of approximately \$90 million (\$57 million after tax), net of related costs and subject to certain adjustments. As part of the post-closing activities in the third quarter, the Company received a claim from Valeo seeking an adjustment to the above purchase price. The Company is in negotiations with Valeo regarding the claim; however the outcome cannot be determined at this time. To the extent the Company is required to make an adjustment, it will be recognized as a charge, net of tax, in discontinued operations.

In March 2005, the Company completed the sale of its Johnson Controls World Services, Inc. subsidiary (World Services), included in the Controls Group segment, to IAP Worldwide Services, Inc. for approximately \$260 million. This non-strategic business was acquired in fiscal 1989 from Pan Am Corporation. The sale of World Services resulted in a gain of approximately \$144 million (\$88 million after tax), net of related costs and subject to certain adjustments.

Table of Contents

On July 1, 2005, the Company completed a transaction with Delphi to purchase their global battery business for approximately \$202.5 million. In conjunction with the acquisition, the Company has received a global long-term contract to supply General Motors.

Financial Instruments

The Company selectively uses equity swaps to reduce market risk associated with its stock-based compensation plans, such as its deferred compensation plans and stock appreciation rights. In March 2004, the Company entered into an equity swap agreement. In connection with the swap agreement, a third party may purchase shares of the Company's stock in the market or in privately negotiated transactions up to an amount equal to \$135 million in aggregate. The swap agreement's impact on the Company's earnings for the three months ended June 30, 2005 was not material.

Off-Balance Sheet Arrangements

In the ordinary course of business, the Company utilizes accounts receivable factoring arrangements in countries where programs of this type are typical. Under these arrangements, the Company may sell certain of its trade accounts receivable to financial institutions. The arrangements, in virtually all cases, do not contain recourse provisions against the Company for its customers' failure to pay. The Company sold approximately \$35 million and \$155 million of foreign currency trade accounts receivable as of June 30, 2005 and 2004, respectively.

Recent Accounting Pronouncements

During December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS 123R), which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions under other Company stock plans. The Company grants options to purchase common stock to some of its employees and directors under various plans at prices equal to the market value of the stock on the dates the options were granted. In April 2005, the Securities and Exchange Commission amended the effective date of SFAS 123R to the first interim period of the first fiscal year beginning after June 15, 2005. The Company is currently evaluating the impact that the adoption of SFAS 123R will have on its consolidated financial position, results of operations and cash flows.

Cautionary Statements for Forward-Looking Information

The Company has made forward-looking statements in this document pertaining to its financial results for fiscal 2005 that are based on preliminary data and are subject to risks and uncertainties. Forward-looking statements include information concerning possible or assumed future risks and may include words such as believes, expects, outlook, forecasts or similar expressions. For those statements, the Company cautions that numerous important factors, such as automotive vehicle production levels and schedules, the ability to increase prices due to higher raw material costs, the strength of the U.S. or other economies, currency exchange rates, cancellation of commercial contracts, as well as those factors discussed in the company's Form 8-K filing (dated October 26, 2004), could affect the Company's actual results and could cause its actual consolidated results

Table of Contents

to differ materially from those expressed in any forward-looking statement made by, or on behalf of, the Company.

Other Financial Information

The interim financial information included in this 10-Q/A Report has not been audited by PricewaterhouseCoopers LLP (PwC). In reviewing such information, PwC has applied limited procedures in accordance with professional standards for reviews of interim financial information. Accordingly, you should restrict your reliance on their reports on such information. PwC is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their reports on the interim financial information because such reports do not constitute reports or parts of the registration statements prepared or certified by PwC within the meaning of Sections 7 and 11 of the Securities Act of 1933.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the three month period ended June 30, 2005, the Company did not experience any adverse changes in market risk exposures that materially affect the quantitative and qualitative disclosures presented in the Company's Amended Annual Report on Form 10-K/A for the year ended September 30, 2004.

ITEM 4. CONTROLS AND PROCEDURES

Restatement

On July 18, 2005, in response to a comment raised by the Staff of the Securities and Exchange Commission, the Audit Committee of the Board of Directors and management of the Company concluded that the Company's financial statements for the years ended September 30, 2004, 2003 and 2002 and as of and for the three month periods ended December 31, 2004 and 2003, as of and for the three and six month periods ended March 31, 2005 and 2004 and as of and for the three and nine month periods ended June 30, 2004, should be restated and such financial statements should no longer be relied upon. The restatement revised the segment information included in previously filed financial statements, including Note 8 Goodwill and Other Intangible Assets in this Form 10-Q/A. As the restatement only related to the disclosure of the Company's segment information, previously reported net sales, operating income, net income and earnings per share were unchanged.

On November 15, 2005, the Audit Committee of the Board of Directors and management of the Company concluded that the Company's financial statements for the years ended September 30, 2004 and 2003, and as of and for the three month periods ended December 31, 2004 and 2003, as of and for the three and six month periods ended March 31, 2005 and 2004, and as of and for the three and nine month periods ended June 30, 2005 and June 30, 2004, should be restated and such financial statements should no longer be relied upon. The restatement of the Company's financial statements is in response to a comment raised by the Staff of the Securities and Exchange Commission regarding the Company's historical consolidation of a North American Seating & interiors joint venture which was deconsolidated by the Company on April 1, 2005. The restatement revised the Company's financial statements to deconsolidate the joint venture in accordance with SFAS 94, Consolidation of All Majority-Owned Subsidiaries, and account for the joint venture's

Table of Contents

operating results on an equity basis of accounting in accordance with APB 18, The Equity Method of Accounting for Investments in Common Stock for all periods prior to April 1, 2005. The restatement results in changes to certain financial statement line items as reported in the previously filed financial statements. Specifically, revenues and expenses previously recorded in certain consolidated financial statement line items are now reported on a net basis as Equity income in the Consolidated Statement of Income and the Company's net investment in the joint venture is reported in the Investments in partially-owned affiliates line in the Consolidated Statement of Financial Position. In addition to the joint venture deconsolidation, the Company will restate their fiscal 2004 and fiscal 2003 annual consolidated financial statements and their fiscal 2005 and fiscal 2004 interim consolidated financial statements for purposes of providing financial statement footnote disclosure related to intercompany subsidiary upstream guarantees applicable to certain third-party debt of the Company. The restatement will provide guarantor subsidiary financial information disclosures in the footnotes to the previously filed financial statements in accordance with Rule 3-10 of Regulation S-X.

This restatement (Amendment No. 1 filed on December 22, 2005) also caused the Company to restate certain previously reported footnotes that were impacted as a result of the North American joint venture deconsolidation. This includes Note 2 Inventories, Note 5 Research and Development, Note 8 Goodwill and Other Intangible Assets, Note 11 Segment Information, and Note 12 Income Taxes. This restatement (Amendment No. 1 filed on December 22, 2005) did not impact previously reported income from continuing operations, net income or earnings per share and its impact on the Consolidated Statement of Cash Flows was not significant.

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2005. Because of the material weaknesses described below, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2005. In light of the material weaknesses, the Company performed additional analysis and other post-closing procedures in connection with the preparation of its consolidated financial statements in accordance with generally accepted accounting principles. Accordingly, the Company believes that the financial statements included in this quarterly filing on Form 10-Q/A fairly present, in all material respects, the Company's financial position, results of operations and cash flows for the periods presented.

A material weakness is a control deficiency or combination of control deficiencies that result in more than a remote likelihood that a material misstatement of the annual or interim consolidated financial statements will not be prevented or detected. The following material weaknesses were identified in the Company's assessment of the effectiveness of disclosure controls and procedures as of June 30, 2005:

Ineffective controls over the accounting for joint venture investments in accordance with SFAS 94, Consolidation of All Majority-Owned Subsidiaries and APB 18, The Equity Method of Accounting for Investments in Common Stock. Specifically, the Company's controls over the reporting of certain

Table of Contents

non-majority owned affiliate investments did not prevent or detect the inappropriate consolidation of that investment. This control deficiency resulted in the restatement of the Company's fiscal 2004 and fiscal 2003 annual consolidated financial statements and our fiscal 2005 and fiscal 2004 interim consolidated financial statements. In addition, this control deficiency could result in a material misstatement of accounts and disclosures that would result in a material misstatement to annual or interim financial statements that would not be prevented or detected. Accordingly, management has concluded that this deficiency constitutes a material weakness.

Ineffective controls over the identification and disclosure of required guarantor subsidiary financial statement information in the Company's consolidated financial statements as required by Rule 3-10 of Regulation S-X. Specifically, the Company did not have effective controls, including the communication between the Company's Treasury Department and Accounting Department, to identify the required financial statement disclosures to be included in the Company's consolidated financial statements resulting from subsidiary guarantees applicable to certain third-party debt of the Company. This control deficiency resulted in the restatement of the Company's fiscal 2004 and fiscal 2003 annual consolidated financial statements and our fiscal 2005 and fiscal 2004 interim consolidated financial statements. In addition, this control deficiency could result in inaccurate or incomplete guarantor subsidiary financial statement disclosures that would result in a material misstatement to annual or interim financial statements that would not be prevented or detected. Accordingly, management has concluded that this deficiency constitutes a material weakness.

As a result of these material weaknesses, the Company concluded that our disclosure controls and procedures were not effective as of June 30, 2005.

Remediation of Material Weakness in Internal Control

As reported in Part I, Item 4, Controls and Procedures, of the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2005, remedial actions were taken in the third quarter of fiscal 2005, which were applied in preparing the financial statements for the quarter ended June 30, 2005, to address the material weakness in the Company's internal control over financial reporting with respect to the identification of operating and reportable segments.

Specifically, the Company implemented the following actions:

Key personnel involved in the financial reporting process have enhanced the controls by which the SFAS 131 authoritative guidance is monitored and applied on a regular basis. In addition, the Company will now require the Company's Disclosure Committee to review its segment reporting on a quarterly basis and the Company has revised its monthly reporting package used by the Chief Operating Decision Maker. The Company's management believes that these corrective actions have remediated this deficiency in the Company's disclosure controls and procedures as of June 30, 2005 and as of the date of this filing.

These additional remedial actions were taken by the Company:

Table of Contents

The Company expanded its review and approval procedures at the Business Unit and Corporate level related to joint venture agreements using a newly developed checklist and now requires CFO and Controller review and approval of any situation where the Company is not consolidating a joint venture in which it has an equity interest greater than 50% or where the Company is consolidating a joint venture in which it has an equity interest of 50% or less. In addition, the Company has established formal quarterly review requirements related to the identification of any ownership, business or operational responsibility changes at its joint ventures and related accounting assessments and enhanced global training regarding joint venture accounting and the related authoritative guidance.

The Company rescinded all intercompany upstream guarantees and replaced them with alternative intercompany arrangements in November 2005. Accordingly, future disclosure of this information will no longer be required. To the extent new intercompany guarantees are required in the future, the Company's Treasury Department will ensure that all intercompany guarantees are maintained in its central repository of external guarantees and reviewed on a quarterly basis using a newly developed checklist. In addition, the Company's Corporate Accounting Department will review the central repository of guarantees in conjunction with its preparation and filing of the Company's quarterly reports on Form 10-Q and annual reports on Form 10-K.

Changes in Internal Control over Financial Reporting

Other than noted above, there were no significant changes in the Company's internal control over financial reporting during the quarter ended June 30, 2005, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In 1989, Johnson Controls initiated an action in the Milwaukee County, Wisconsin Circuit Court, *Johnson Controls, Inc. v. Employers Insurance of Wausau*, which sought reimbursement under comprehensive general liability insurance policies dating from 1954 through 1985 for costs relating to certain environmental matters. In 1995, the Circuit Court dismissed the action based on the Wisconsin Supreme Court's decision in *City of Edgerton v. General Casualty Co. of Wisconsin*. The Company twice appealed the case to the Court of Appeals and then petitioned the Wisconsin Supreme Court to review the lower courts' decisions. The Supreme Court granted the petition and on July 11, 2003, overruled its decision in the *Edgerton* case, and found that the comprehensive general liability insurance policies may provide coverage for environmental damages. The Supreme Court's decision remanded the case to the Circuit Court for further consideration. During the third quarter of 2005, the Company filed a motion for declaratory judgment, in which it seeks a ruling that one of its insurers breached its duty to defend, thus waiving its defenses against the Company's environmental claims. The ultimate outcome cannot be determined at this time, however, the Company expects a decision on its motion within approximately six months.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company entered into an Equity Swap Agreement, dated as of March 18, 2004 (the Swap Agreement), with Citibank, N.A. (Citibank). The Company selectively uses equity swaps to reduce market risk associated with its Company stock-based compensation plans, such as its deferred compensation plans and stock appreciation rights. These equity compensation liabilities increase as the Company's stock price increases and decrease as the Company's stock price decreases. In contrast, the value of the Swap Agreement moves in the opposite direction of these liabilities, allowing the Company to fix a portion of the liabilities at a stated amount.

Citibank has advised the Company that, in connection with the Swap Agreement, Citibank may purchase shares of the Company's stock in the market or in privately negotiated transactions up to an amount equal to \$135 million in aggregate market value at any given time. The Company disclaims that Citibank is an affiliated purchaser of the Company as such term is defined in Rule 10b-18(a)(3) under the Securities Exchange Act or that Citibank is purchasing any shares for the Company. Although the Swap Agreement has a stated expiration date, the Company's intention is to continually renew the Swap Agreement with Citibank's consent.

The following table presents information pursuant to Item 703(a) of Regulation S-K regarding the repurchase of the Company's common stock by the Company and purchases of the Company's common stock by Citibank in connection with the Swap Agreement during the three months ended June 30, 2005. The Swap Agreement's impact on the Company's earnings for the three months ended June 30, 2005 was not material. The repurchases of the Company's common stock by the Company relate solely to stock option and restricted stock transactions that are treated as involving repurchases of Company common stock for purposes of this disclosure.

Table of Contents

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of the Publicly Announced Program	Approximate Dollar Value of Shares that May Yet be Purchased under the Program⁽¹⁾
