Item 1.01 Entry into a Material Definitive Agreement

On February 7, 2008, the Compensation Committee of the Board of Directors of Vulcan Materials Company (the Company) approved for each of the named executive officers to be included in the Company s 2008 proxy statement (the NEOs), (i) the annual base salaries, effective March 1, 2008, (ii) the short term incentive payments (cash performance bonus) for 2007, payable in March 2008, and (iii) the short term target bonus percentages for the 2008 fiscal year. The compensation for the CEO was ratified by the Board of Directors. The Compensation Committee also authorized the payment of previously granted Performance Share Units for the three year period ended December 31, 2007.

Salary and Cash Bonus

Each of the NEO s participates in either the Company s Executive Incentive Plan (EIP) or its Management Incentive Plan (MIP). No executive may participate in both plans concurrently. Under these plans, participating executives are entitled to earn an annual cash incentive award to the extent established financial objectives are achieved. Total incentive payments to executive officers participating in the EIP in any year cannot exceed 4% of consolidated net earnings in excess of 6% of net capital for the prior year. For annual bonuses payable for the Company s fiscal year 2008, 40% of the maximum amount available for payment has been allocated to the Chief Executive Officer and 15% of the maximum amount available for payment has been allocated to each of the other participants (Bonus Caps). Total payments under the MIP in any year cannot exceed 10% of consolidated net earnings in excess of 6% of net capital for the prior year.

The Compensation Committee has selected Economic Profit (EP), which is defined as operating income after current taxes less a charge for capital employed, as the financial performance objective for determining awards under the EIP and MIP. A target EP is established by the Compensation Committee annually at its February meeting based on the average of last year s actual EP and last year s target EP for the Company as well as each of its divisions, subject to certain adjustments, including the effects of certain long-term investment projects. The target EP represents the amount of EP that must be earned in order for a target bonus to be paid. The target bonus is expressed as a percentage of base salary and established for each named executive officer based on market surveys of similar-sized industrial companies. An executive can earn from zero up to an amount equal to his Bonus Cap, depending on the actual EP results for the year. If the EP performance relative to the EP target (for the Company or its business units as applicable for the particular executive officer) is not met, then the executive s bonus would be reduced in accordance with a predetermined schedule. In the case of the NEOs other than the Chief Executive Officer, the Chief Executive Officer can adjust the actual bonus to be paid to the NEOs subject to the EIP individual Bonus Caps, based on:

the individual performance of the executive

the safety, health and environmental performance record of the Company and its Divisions

consistent above target performance for 3 or more years

successful implementation of Vulcan strategic objectives

The Compensation Committee likewise determines the actual bonus payable to the Chief Executive Officer based on his performance, subject to the restraints and caps set forth above.

For each NEO, the following table sets forth (i) the 2008 base salary effective March 1, 2008, (ii) the cash bonus to be paid such executive in March 2008 based on 2007 performance, and (iii) the target bonus opportunity for the 2008 fiscal year.

Long-Term Incentive Award Payments

The Compensation Committee also authorized payments to the NEOs for the Performance Share Units previously granted pursuant to the Company's 1996 Long-Term Incentive Plan. The payments were based on internal performance measures along with changes in the market value of our common stock and total shareholder return versus a preselected comparison group.

The following table sets forth the amount earned for the previously granted Performance Share Units for the period ending December 31, 2007. Note that the value will be paid in shares of the Company's common stock.
