PORTFOLIO MANAGERS' REPORT  
-----

PERFORMANCE OF THE TRUST

Based on \$0.11 of dividends declared during the period and the average month-end net asset value ("NAV") per share of \$6.66, the Trust's annualized distribution rate was 6.89% for the third fiscal quarter ended November 30, 2002, up from 6.34% for the three-month period ended August 31, 2002.

During the fiscal third quarter, the Trust posted a -0.36% total return (based on NAV), a significant improvement from a decline of 4.46% during the previous fiscal quarter. As a result, the Trust finished the three-month period in the second quartile of the Lipper Loan Participation Fund2 peer group, which posted an average total return of -0.68%. Based on strong relative performance during the last two months of the year, during the fourth calendar quarter (ended December 31, 2002), the Trust posted a 1.26% total return and again finished the period in the second quartile of the overall peer group.

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

In general, the leveraged loan market closed out the choppiest year on record in a fairly strong fashion. The fourth quarter's performance, as benchmarked by a 1.6% rise in the S&P/LSTA Leverage Loan Index (LLI), was the best since the first quarter of 2001, and a significant reversal of the painful 1.2% loss in the third quarter, the worst three-month period on record. Although several forces remain at work, the strong quarter was clearly driven by a resurgent high-yield bond market and the resulting improvement in loan market technicals.

The Trust clearly benefited from this improved investor sentiment, as indicative prices for some of the largest holdings (Nextel Communications, in particular, representing 3.5% of total assets at November 30) reached levels not seen for some time. Also contributing to the strong relative recent performance was consistent if not strong returns across several of the Trust's key sector exposures (e.g., healthcare, containers & packaging and beverage & food). Indicative prices in the cellular communications sector, historically one of the Trust's largest, have recently been riding the coattails of Nextel, the group's undisputed benchmark. Indicative bid interest for Nextel loans continues to be driven north by strong operating performance and an increasingly clear path to free cash flow generation and debt reduction. Providing a partial offset to some of the Trust's top performers has been the continuing volatility in Charter Communications, the nation's third largest cable television provider, and lower recoveries on a handful of existing non-performing credits, particularly the Trust's older, illiquid positions. Indicative bids for Charter continue to be negatively impacted by earnings issues, a series of ratings downgrades and, not insignificantly, supply/demand factors (Charter is one of the largest issuers in the loan market). We continue to see limited downside and meaningful potential upside in Charter's senior secured loans, as evidenced by the current valuation levels of other cable TV systems.

The Trust utilizes financial leverage to seek to increase the yield to the holders of common shares. As of November 30, 2002, the Trust had \$641 million of borrowings outstanding, consisting of \$450 million of "aaa/AAA" rated cumulative auction rate preferred shares, and \$191 million outstanding under \$540 million in available credit facilities. Total leverage, as a percentage of total assets (including preferred shares), was 41.1% at quarter end. The weighted average leverage cost including all borrowings and preferred shares as of quarter ended November 30, 2002 was 1.58%.

2

### OUTLOOK

Clearly, as we enter 2003, the loan market appears to be on more solid footing relative to the start of 2002. In addition to empirical return data, two other key measures of market health, new transaction issuance and credit quality, also are showing continuing, albeit uneven, signs of strength. Institutional M&A-related loan volume jumped to \$6.2 billion during the fourth quarter, roughly twice that of the previous quarter, and up over six-fold from the fourth quarter of 2001. As of this writing, the forward calendar also looks reasonably robust (in excess of \$4.0 billion), with several large-cap deals in the offing. Trailing loan default rates (by principal amount, as tracked by S&P Leveraged Commentary & Data Group) also continue to improve slowly, ending the year at approximately 6%, after peaking at 7.4% by principal amount in June.

The outlook is not without risk, however. In addition to being increasingly tied to the equity and high-yield bond markets, the loan market remains challenged by economic uncertainty, the increasing potential for outside geopolitical shocks and historically low short-term interest rates that will continue to hinder returns, even if bids continue to rise. Until we gain sufficient clarity on these issues, we will remain in a relatively defensive posture while attempting to take advantage of selective accretive buying opportunities.

-----  
PORTFOLIO MANAGERS' FOOTNOTES  
-----

1. The distribution rate is calculated by annualizing dividends declared during the quarter and dividing the resulting annualized dividend by the Trust's average month-end net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of Market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.
2. Lipper, Inc. rankings are based on average annual total returns, not including sales charges, among 43 Loan Participation Funds.

PERFORMANCE DATA REPRESENTS PAST PERFORMANCE AND IS NO GUARANTEE OF FUTURE RESULTS. INVESTMENT RETURN AND PRINCIPAL VALUE OF AN INVESTMENT IN THE TRUST WILL FLUCTUATE. SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

SENIOR LOANS ARE SUBJECT TO CREDIT RISKS AND THE POTENTIAL FOR NON-PAYMENT OF SCHEDULED PRINCIPAL OR INTEREST PAYMENTS, WHICH MAY RESULT IN A REDUCTION OF THE TRUST'S NAV.

ING Prime Rate Trust

-----  
 STATISTICS AND PERFORMANCE FOOTNOTES  
 -----

- (A) Yield is calculated by dividing the Trust's net investment income per share for the most recent thirty days by the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of market) at quarter-end. Yield calculations do not include any commissions or sales charges, and are compounded for six months and annualized for a twelve-month period to derive the Trust's yield consistent with the SEC standardized yield formula for open-end investment companies.
- (B) The distribution rate is calculated by annualizing each monthly dividend, then averaging the annualized dividends declared for each month during the quarter and dividing the resulting average annualized dividend amount by the Trust's average net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) at the end of the period.
- (C) Calculation of total return assumes a hypothetical initial investment at the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) on the last business day before the first day of the stated period, with all dividends and distributions reinvested at the actual reinvestment price.
- (D) On December 27, 1994, the Trust issued to its shareholders transferable rights which entitled the holders to subscribe for 17,958,766 shares of the Trust's common stock at the rate of one share of common stock for each four rights held. On January 27, 1995, the offering expired and was fully subscribed. The Trust issued 17,958,766 shares of its common stock to exercising rights holders at a subscription price of \$8.12. Offering costs of \$4,470,955 were charged against the offering proceeds.
- (E) On October 18, 1996, the Trust issued to its shareholders non-transferable rights which entitled the holders to subscribe for 18,122,963 shares of the Trust's common stock at the rate of one share of common stock for each five rights held. On November 12, 1996, the offering expired and was fully subscribed. The Trust issued 18,122,963 shares of its common stock to exercising rights holders at a subscription price of \$9.09. Offering costs of \$6,972,203 were charged against the offering proceeds.
- (F) Inception Date -- May 12, 1988.
- (G) Initial Trading on NYSE -- March 9, 1992.
- (H) Reflects partial waiver of fees.

ING Prime Rate Trust

 ADDITIONAL NOTES AND INFORMATION  
 -----

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program," formerly known as the Dividend Reinvestment and Cash Purchase Plan) which allows common

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

shareholders a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers Trust common shareholders the ability to make optional cash investments in any amount from \$100 to \$5,000 on a monthly basis. Amounts in excess of \$5,000 require prior approval of the Trust. DST Systems, Inc., the Trust's Transfer Agent, is the Administrator for the Program.

For dividend reinvestment purposes, the Administrator will purchase shares of the Trust on the open market when the market price plus estimated commissions is less than the net asset value on the valuation date. The Trust may issue new shares when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

For optional cash investments, shares will be purchased on the open market by the Administrator when the market price plus estimated commissions is less than the net asset value on the valuation date. New shares may be issued by the Trust when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a pro-rata basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or our Shareholder Services Department at (800) 992-0180.

Common shares outstanding at end of period (000's)	136,973	136,973	136,8

(1) Annualized for periods less than one year.

(2) Prior to the waiver of expenses, the ratios of expenses to average net assets were 1.95% (annualized), 1.48% and 1.44% for the period from May 12, 1988 to February 28, 1989, and for the fiscal years ended February 28, 1990 and February 29, 1992, respectively, and the ratios of net investment income to average net assets were 8.91% (annualized), 10.30% and 7.60% for the period from May 12, 1988 to February 28, 1989, and for the fiscal years ended February 28, 1990 and February 29, 1992, respectively.

(3) Total return calculations are attributable to common shareholders.

(4) Total investment return measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the dividend reinvestment plan. On March 9, 1992, the shares of the Trust were initially listed for trading on the New York Stock Exchange. Accordingly, the total investment return for the year ended February 28, 1993, covers only the period from March 9, 1992, to February 28, 1993. Total investment return for periods prior to the year ended February 28, 1993, are not presented

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

since market values for the Trust's shares were not available. Total returns for less than one year are not annualized.

- (5) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions in accordance with the provisions of the dividend reinvestment plan. This calculation differs from total investment return because it excludes the effects of changes in the market values of the Trust's shares. Total returns for less than one year are not annualized.
- (6) Calculation of total return excludes the effects of the per share dilution resulting from the rights offering as the total account value of a fully subscribed shareholder was minimally impacted.

ING Prime Rate Trust

-----

NOTES TO FINANCIAL STATEMENTS as of November 30, 2002 (Unaudited)

-----

NOTE 1 -- SIGNIFICANT ACCOUNTING POLICIES

ING Prime Rate Trust (the "Trust"), is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, investment management company. The Trust invests in senior loans which are exempt from registration under the Securities Act of 1933 as amended (the "33 Act"), but contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the Prime Rate of a U.S. bank specified in the credit agreement, the London Inter-Bank Offered Rate ("LIBOR"), the certificate of deposit rate, or in some cases another base lending rate. The following is a

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. SENIOR LOAN AND OTHER SECURITY VALUATION. Loans are normally valued at the mean of the means of one or more bid and asked quotations obtained from a pricing service or other sources determined by the Board of Trustees to be independent and believed to be reliable. Loans for which reliable quotations are not available may be valued with reference to another loan or a group of loans for which quotations are more readily available and whose characteristics are comparable to the loan being valued. Under this approach, the comparable loan or loans serve as a proxy for changes in value. The Trust has engaged an independent pricing service to provide quotations from dealers in loans and to calculate values under the proxy procedure described above. It is expected that most of the loans held by the Trust will be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

ING Investments, LLC (the "Investment Manager") may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Manager that the Investment Manager believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value as determined in good faith under procedures established by the Trust's Board of Trustees and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Manager and monitored by the Trust's Board of Trustees through its Valuation Committee. In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the loan, including price quotations for, and trading in, the loan and interests in similar loans; (v) the reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange or the NASDAQ National Market System are stated at the last reported sale price on the day of valuation. Debt and equity securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked price. Securities other than senior loans for which reliable quotations are not readily available and all other assets will be valued at their respective fair values as determined in good faith by, or under procedures established by, the Board of Trustees of the Trust. Investments in securities maturing in

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

NOTES TO FINANCIAL STATEMENTS as of November 30, 2002 (Unaudited)

less than 60 days from the date of acquisition are valued at amortized cost, which, when combined with accrued interest, approximates market value.

- B. FEDERAL INCOME TAXES. It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

At February 28, 2002, the Trust had capital loss carryforwards for federal income tax purposes of approximately \$125,806,013 which are scheduled to expire through February 28, 2011.

The Board of Trustees intends to offset any future net capital gains with the capital loss carryforwards until each carryforward has been fully utilized or expires.

- C. SECURITY TRANSACTIONS AND REVENUE RECOGNITION. Loans are booked on a settlement date basis and security transactions are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities delivered. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. Upon such discontinuance, all unpaid accrued interest is reversed. Cash collections on nonaccrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are returned to accrual status only after all past due amounts have been received and the borrower has demonstrated sustained performance. For all loans acquired prior to March 1, 2001, arrangement fees, which represent non-refundable fees associated with the acquisition of loans, are deferred and recognized over the shorter of 2.5 years or the actual terms of the loan. For all loans, except revolving credit facilities, acquired subsequent to February 28, 2001, arrangement fees are treated as discounts and accreted as described in Note 1.H. Arrangement fees associated with revolving credit facilities acquired subsequent to February 28, 2001 are deferred and recognized over the shorter of 4 years or the actual term of the loan.

- D. DISTRIBUTIONS TO SHAREHOLDERS. The Trust records distributions to its shareholders on the ex-date. Distributions from income are declared by the Trust on a monthly basis. Distributions from capital gains, if any, are declared on an annual basis. The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America for items such as the treatment of short term capital gains and the amortization of premiums and accretion of discounts. These "book/tax" differences are considered either temporary or permanent in nature. To the extent that these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassifications. Distributions which exceed net investment income and net realized capital gains for financial reporting purposes but not for tax purposes are reported as distributions in excess of net investment income and/or realized capital gains. To the extent they exceed net investment income and

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

net realized capital gains for tax purposes, they are reported as a tax return of capital. During the year ended February 28, 2002 the Trust reclassified \$2,580,000 from undistributed net investment income to accumulated net realized loss on investments, to reflect the treatment of permanent book/tax differences.

- E. DIVIDEND REINVESTMENTS. Pursuant to the Shareholder Investment Program (formerly known as the Automatic Dividend Reinvestment Plan), DST Systems, Inc., the Plan Agent, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased only when the closing sale or bid price plus commission is less than the net asset value per share of the stock on the valuation date. If the market

37

ING Prime Rate Trust

---

NOTES TO FINANCIAL STATEMENTS as of November 30, 2002 (Unaudited)

---

price plus commissions is equal to or exceeds the net asset value, new shares are issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

- F. USE OF ESTIMATES. Management of the Trust has made certain estimates and assumptions relating to the reporting of assets, liabilities, revenues, expenses and contingencies to prepare these financial statements in conformity with generally accepted accounting principles in the United States of America. Actual results could differ from these estimates.
- G. SHARE OFFERINGS. During the year ended February 28, 1999, the Trust began issuing shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.
- H. CHANGE IN ACCOUNTING PRINCIPLE. In November 2000 the American Institute of Certified Public Accountants (the "AICPA") issued a revised version of the AICPA Audit and Accounting Guide for Investment Companies (the "Guide"). Effective March 1, 2001, the Fund adopted the provisions of the Guide and began amortizing premiums and accreting discounts on debt securities. Prior to March 1, 2001, the Trust had not amortized premiums nor accreted discounts. The cumulative effect of this accounting change had no impact on net assets of the Trust, but resulted in a \$2,823,000 increase in the cost of securities and a corresponding \$2,823,000 increase in net unrealized depreciation of investments, based on securities held by the Trust on March 1, 2001.
- I. RECLASSIFICATION. Under EITF Topic D-98, CLASSIFICATION AND MEASUREMENT OF REDEEMABLE SECURITIES, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. Subject to the guidance of the EITF, the Trust's preferred stock, which was previously classified as a component of net assets, has been reclassified outside of permanent equity (net assets) in the accompanying financial statements. Prior year amounts have also been reclassified to conform with this presentation. The impact of this reclassification creates no change to the net assets available to common shareholders.

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

NOTE 2 -- INVESTMENTS

For the nine months ended November 30, 2002, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$635,820,345 and \$726,696,339, respectively. At November 30, 2002, the Trust held senior loans valued at \$1,479,865,820 representing 95.4% of its total investments. The market value of these assets is established as set forth in Note 1.

The senior loans acquired by the Trust may take the form of a direct co-lending relationship with the corporate issuer, an assignment of a co-lender's interest in a loan, or a participation interest in a co-lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors collateral. In the event that the lead lender becomes insolvent, enters FDIC receivership or, if not FDIC insured, enters into bankruptcy, the Trust may incur certain costs and delays in realizing payment, or may suffer a loss of principal and/or interest. Additionally, certain situations may arise where the Trust acquires a participation in a co-lender's interest in a loan and the Trust does not have privity with or direct recourse against the corporate issuer. Accordingly, the Trust may incur additional credit risk as a participant because it must assume the risk of insolvency or bankruptcy of the co-lender from which the participation was acquired. Common and preferred stocks, and stock purchase warrants held in the portfolio were acquired in conjunction with senior loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly

ING Prime Rate Trust

-----  
 NOTES TO FINANCIAL STATEMENTS as of November 30, 2002 (Unaudited)  
 -----

sold without registration under the '33 Act, or without an exemption under the '33 Act. In some cases, these restrictions expire after a designated period of time after issuance of the stock or warrant. These restricted securities are valued at fair value as determined by the Board of Trustees by considering quality, dividend rate, and marketability of the securities compared to similar issues. In order to assist in the determination of fair value, the Trust will obtain quotes from dealers who periodically trade in such securities where such quotes are available. Dates of acquisition and cost or assigned basis of restricted securities are as follows:

NOTE 3 -- MANAGEMENT AND ADMINISTRATION AGREEMENTS

The Trust has entered into an Investment Management Agreement with the Investment Manager, a wholly-owned subsidiary of ING Funds Services, LLC (the "Administrator"), to provide advisory and management services. The Investment Management Agreement compensates the Investment Manager with a fee, computed daily and payable monthly, at an annual rate of 0.80% of the Trust's average daily net assets (inclusive of preferred stock) plus borrowings ("Managed Assets").

The Trust has also entered into an Administration Agreement with the Administrator to provide administrative services and also to furnish facilities. The Administrator is compensated with a fee, computed daily and payable monthly, at an annual rate of 0.25% of the Trust's average daily Managed Assets.

At November 30, 2002, the Trust had the following amounts recorded in payable to affiliates on the accompanying Statement of Assets and Liabilities:

ACCRUED INVESTMENT MANAGEMENT FEES	ACCRUED ADMINISTRATIVE FEES	TOTAL
---------------------------------------	--------------------------------	-------

-----  
\$1,348,752

### NOTE 4 -- COMMITMENTS

The Trust has entered into both a 364-day and a five-year revolving credit agreement, collateralized by assets of the Trust, to borrow up to \$540 million from a syndicate of major financial institutions maturing July 15, 2003. Borrowing rates under these agreements are based on a fixed spread over LIBOR, the federal funds rate, or a commercial paper-based rate. Prepaid arrangement fees for any unborrowed amounts are amortized over the term of the agreements. The amount of borrowings outstanding at November 30, 2002, was \$191 million, at a weighted average interest rate of 1.6%. The amount of borrowings represented 12.2% of total assets at November 30, 2002. Average borrowings for the nine months ended November 30, 2002 were \$200,258,182 and the average annualized interest rate was 2.5%.

As of November 30, 2002, the Trust had unfunded loan commitments pursuant to the terms of the following loan agreements:

Airgate PCS, Inc.	\$ 859,935

### NOTE 5 -- RIGHTS AND OTHER OFFERINGS

On October 18, 1996, the Trust issued to its shareholders non-transferable rights which entitled the holders to subscribe for 18,122,963 shares of the Trust's common stock at the rate of one share of common stock for each five rights held. On November 12, 1996, the offering expired and was fully subscribed. The Trust issued 18,122,963 shares of its common stock to exercising rights holders at a subscription price of \$9.09. Offering costs of \$6,972,203 were charged against the offering proceeds.

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

On December 27, 1994, the Trust issued to its shareholders transferable rights which entitled the holders to subscribe for 17,958,766 shares of the Trust's common stock at the rate of one share of common stock for each four rights held. On January 27, 1995, the offering expired and was fully subscribed. The Trust issued 17,958,766 shares of its common stock to exercising rights holders at a subscription price of \$8.12. Offering costs of \$4,470,955 were charged against the offering proceeds.

As of November 30, 2002, share offerings pursuant to shelf registrations were as follows:

REGISTRATION DATE ----	SHARES REGISTERED -----	SHARES REMAINING -----
6/11/98	15,000,000	--
6/19/98	10,000,000	9,730,800
9/15/98	25,000,000	19,170,354
3/04/99	5,000,000	3,241,645

On November 2, 2000, the Trust issued 3,600 shares each of Series M, Series W and Series F Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000 liquidation preference, for a total issuance of \$270 million. Also, on November 16, 2000, the Trust issued 3,600 shares of Series T and Series Th Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000, liquidation preference, for a total issuance of \$180 million. Costs associated with the offering of approximately \$5,438,664 were charged against the proceeds received. The Trust used the net proceeds of the offering to partially pay down the then existing indebtedness. The Trust may reborrow amounts in the future to increase its use of leverage which will be consistent with the limitations imposed by the 1940 Act. Preferred Shares pay dividends based on a rate set at auctions, normally held every 7 days. In the most instances dividends are also payable every 7 days, on the first business day following the end of the rate period.

#### NOTE 6 -- CUSTODIAL AGREEMENT

State Street Bank and Trust Company ("SSB") serves as the Trust's custodian and recordkeeper. Custody fees paid to SSB are reduced by earnings credits based on the cash balances held by SSB for the Trust. There were no earnings credits for the nine months ended November 30, 2002.

#### NOTE 7 -- SUBORDINATED LOANS AND UNSECURED LOANS

The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition, it acquires or holds a Senior Loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Manager believes, at the time of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. The Trust may invest up to 5% of its total assets, measured at the time of investment, in subordinated loans and unsecured loans. As of November 30, 2002, the Trust held 3.4% of its total assets in subordinated loans and unsecured loans.

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

### NOTE 8 -- SUBSEQUENT EVENTS

Subsequent to November 30, 2002, the Trust paid to Common Shareholders the following dividends from net investment income:

PER SHARE AMOUNT	DECLARATION DATE	RECORD DATE	PAYABLE DATE
-----	-----	-----	-----

Series F	\$46.31	12/06/02 to 01/17/03	12/13/02 to 01/24/03	12/16/02 to 01/27/03

### MANAGEMENT'S ADDITIONAL OPERATING INFORMATION (UNAUDITED)

#### APPROVAL OF CHANGES IN INVESTMENT POLICIES

At a Special Meeting of Trust Shareholders, held August 6, 1998, Shareholders approved changes in the Trust's fundamental investment policies which make available certain additional investment opportunities to the Trust, including (i) investing in loans in any form of business entity, as long as the loans otherwise meet the Trust's requirements regarding the quality of loans in which it may invest; (ii) the treatment of lease participations as Senior Loans which would constitute part of the 80% of the Trust's assets normally invested in Senior Loans; (iii) investing in all types of hybrid loans that meet credit standards established by the Investment Manager constituting part of the 20% of the Trust's assets that may be invested in Other Investments; and (iv) the ability to invest up to 5% of its total assets in both subordinated loans and unsecured loans which would constitute part of the 20% of the Trust's assets that may be invested in Other Investments.

Additionally, another policy change approved by the Board of Trustees of the Trust, which does not require shareholder approval, permits the Trust to accept guarantees and expanded forms of intangible assets as collateral, including copyrights, patent rights, franchise value, and trademarks. Another policy change approved by the Board, that does not require shareholder approval, provides that 80% of the Trust's managed assets, as opposed to 80% of its net assets, may normally be invested in Senior Loans.

The Trust's Manager considered the evolving nature of the syndicated loan market and the potential benefits to the Trust and its shareholders of revising the restriction to permit the Trust to invest in loans other than Senior Loans and the increase in the number of attractive investment opportunities available to the Trust due to the change.

#### REPURCHASE OF SECURITIES BY CLOSED-END COMPANIES

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940

## Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

Act the Trust may from time to time purchase shares of beneficial interest of the Trust in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

### SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program") which enables investors to conveniently add to their holdings at reduced costs. Should you desire further information concerning this Program, please contact the Shareholder Servicing Agent at (800) 992-0180.
