Of
Jilin Chemical Industrial Company Limited**

**Name of the Offeror: PetroChina Company Limited
Legal Address of the Offeror: World Tower, 16 Andelu Dongcheng District, Beijing**

Dated: 28 October 2005

Cautionary Language

1. The Offeror hereby reminds investors that the Offeror intends to acquire Jilin Chemical Industrial Company Limited (Jilin) through the Offers (as defined herein below) for the purpose of terminating the listing of Jilin.
2. Following the delisting of the Jilin A Shares, any Jilin A Shares that are not tendered for acceptance pursuant to the A Share Offer will not be able to be traded on the Shenzhen Stock Exchange and the liquidity of and the convenience of the trading in such Jilin A Shares will be seriously reduced compared with the same before. However, such Jilin A Shares not so tendered will be able to be sold to the Offeror, and the Offeror shall by itself or through a securities company designated by it purchase such Jilin A Shares, at the A Share Offer Consideration (as defined herein below). Once the Offers become effective, the Offeror will make a separate announcement with respect to the specific processes and operational procedures for such further purchase (including but without limitation to formalities such as right confirmation, registration and the applicable verifications, which need to be dealt with by the shareholders themselves), prior to the delisting of the Subject Company.
3. In consideration of any impact that the forthcoming Spring Festival may have on the Offers (as defined herein below), the valid term of the A Share Offer has been adjusted to 35 days, commencing from the first day on which both the Jilin A Shares and the Jilin H Shares are traded, immediately after all of the conditions to the H Share Offer are satisfied. As of the date on which this Report on the Offer to Acquire A Shares of Jilin Chemical Industrial Company Limited (this Offer Report) is published, the A Share Offer (as defined herein below) has not become effective, thus holders of Jilin A Shares cannot declare their preliminary acceptance of the A Share Offer.

The date on which the commencement of the valid term of the A Share Offer may occur at the earliest is 9 January 2006. If all of the conditions to the H Share Offer are satisfied on such date, PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer. Based on our reasonable judgment, it is unlikely that the date for the commencement of the valid term of the A Share Offer will be earlier than 9 January 2006. However, we cannot exclude the possibility that the conditions to the effectiveness of the H Share Offer may be satisfied ahead of the schedule. If all of the conditions to the H Share Offer are satisfied ahead of the schedule, PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer ahead of the schedule accordingly. If the date on which all of the conditions to the effectiveness of the H Share Offer are satisfied is postponed, both the date for the commencement of the valid term of the A Share Offer and the

Jilin A Share Tender Offer Report

one for the expiry of the valid term of the A Share Offer will be postponed accordingly. Therefore, we hereby strongly recommend investors to pay close attention to any and all of the announcements published by PetroChina as from 4 January 2006.

4. The condition to the effectiveness of the A Share Offer (the A Share Offer Condition) is: the satisfaction of all of the conditions to H Share Offer. Upon the satisfaction of all of the conditions to the effectiveness of the H Share Offer, the A Share Offer shall become effective and the Jilin A Shares shall be delisted; if any of the conditions to the effectiveness of the H Share Offer are not satisfied, the A Share Offer shall be void from the very beginning.

The H Share Offer is subject to the satisfaction of the following conditions (the H Share Offer Conditions):

- (1) the passing of a resolution approving the voluntary withdrawal of the listing of H Shares from the SEHK (as defined herein below) at a class meeting of the shareholders of Jilin to be convened for this purpose by the holders of Jilin H Share, other than PetroChina and persons acting in concert with PetroChina, subject to (A) approval by at least 75% of the votes attaching to the H Shares held by persons other than PetroChina and persons acting in concert with PetroChina (the Disinterested Shares) that are cast either in person or by proxy and (B) the number of votes cast against the resolution being not more than 10% of the votes attaching to all Disinterested Shares; and
- (2) minimum valid acceptances of the H Share Offer being received in respect of not less than 66.67% of the Jilin H Shares, including the Jilin H Shares represented by the Jilin ADSs, carrying voting rights then exercisable at a general meeting of holders of Jilin H Share.

The H Share Offer shall become effective upon the satisfaction of all of the above conditions and shall not become effective from the very beginning if any of the above conditions is not satisfied.

After the completion of the Offers subject to the effectiveness of the H Share Offer, the Offeror will hold at least 85.35% of Jilin's total share capital. Pursuant to the currently effective Company Law (as defined herein below), Jilin's equity structure will not qualify Jilin for a listed company and so Jilin will carry out relevant procedures for delisting Jilin A Shares.

5. Both the A Share Offer Consideration and the H Share Offer Consideration in the Offers are determined on the following bases: the A Share Offer Consideration and the H Share Offer Consideration represent appropriate premiums over the average closing price of Jilin A Shares

Jilin A Share Tender Offer Report

and the average closing price of Jilin H Shares, in each case, over the six months as of the publication of the applicable Summary of the Offer Report, and such premiums should be comparable to each other.

The A Share Offer Consideration under the A Share Offer is RMB5.25 per Jilin A Share, which represents a premium of approximately 41.9% over the arithmetic average closing price of approximately RMB3.70 per Jilin A Share, based on the daily arithmetic closing prices over the six months prior to and including the date on which the applicable Summary of the Offer Report is publicly announced.

The H Share Offer Consideration (as defined herein below) under the H Share Offer is HK\$2.80 per Jilin H Share, which represents a premium of approximately 41.4% over the arithmetic average closing price of approximately HK\$1.98 per Jilin H Share, based on the daily arithmetic closing prices as quoted on the Hong Kong Stock Exchange Limited over the six months prior to and including the date on which the applicable Summary of the Offer Report is publicly announced.

6. Schedule for Significant Events in the A Share Offer

16 November 2005 (Wednesday)	PetroChina to publish the full text of the Report on the Offer to Acquire Jilin Chemical Industrial Company Limited.
31 December 2005 (Saturday)	Jilin to convene the class meeting of holders of Jilin H Shares (the Jilin H Shareholders).

9 January 2006 (Monday)	The date on which the commencement of the A Share Offer may occur at the earliest. If all of the H Share Offer Conditions are satisfied on the preceding trading date (i.e., 6 January 2006), PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer on this date.
12 February 2006 (Friday)	The date on which the expiry of the valid term of the A Share Offer may occur at the earliest.

Notes: The valid term of the A Share Offer will be 35 days. Based on our reasonable judgment, it is unlikely that the date for the commencement of the valid term for the A Share Offer will be earlier than 9 January 2006. However, we cannot exclude the possibility that the H Share Offer Conditions may be satisfied ahead of the schedule. If all of the conditions to the H Share Offer are satisfied ahead of the schedule, PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer ahead of the schedule accordingly. If the date on which all of the H Share Offer Conditions are satisfied is postponed, both the date for the commencement of the valid term of the A Share Offer and the one for the expiry of the valid term of the A Share Offer will be postponed accordingly.

As of the date on which this Offer Report is published, the A Share Offer has not become effective, so holders of Jilin A Shares cannot declare their preliminary acceptance of the A Share Offer. The date on which the commencement of the valid term of the A Share Offer may occur at the earliest will be 9 January 2006. If all of the H Share Offer Conditions are satisfied on this

date, the Offeror will publish a reminder announcement about the commencement of the valid term of the A Share Offer.

Jilin A Share Tender Offer Report

Section 3 Background to the Offers

The Subject Company was incorporated on 13 December 1994 as a joint stock company with limited liability pursuant to the PRC law. The Subject Company was established in connection with a restructuring (the Restructuring) of its predecessor, Jilin Chemical Industrial Complex. Pursuant to the Restructuring, the principal chemical businesses and certain assets and liabilities of Subject Company's predecessor, including certain ancillary and business support functions, were transferred to the Subject Company on 1 October 1994. Following the completion of the Restructuring, the Subject Company's predecessor was renamed Jilin Chemical Group Corporation (Jilin Corporation) and the Subject Company was formed as a wholly owned subsidiary of Jilin Corporation. The Subject Company completed its initial public offering of its H Shares on 22 May 1995 and the ADSs of the Subject Company, each ADS representing 100 H shares of the Subject Company, and the H shares of the Subject Company went listed on the SEHK and NYSE on 22 and 23 May 1995, respectively. Subsequently, the A shares of the Subject Company went listed on the SSE on 15 October 1996.

Until July 1998, Jilin Corporation had been a State-owned enterprise under the direct administrative control of the Jilin Provincial Government. In July 1998, as a result of the restructuring of the PRC petrochemical and chemical industries approved by the PRC State Council, Jilin Corporation became a wholly-owned subsidiary of CNPC. Jilin Corporation transferred to the Offeror all of its State-owned legal person shares in the Subject Company, constituting 70.25% of the Subject Company's registered capital, causing the Offeror to become the controlling shareholder of the Subject Company. After the issuance of 150,000,000 additional A Shares by the Subject Company on 27 January 2000, the Offeror remains to be the controlling shareholder of the Subject Company, holding approximately 67.29% of the Subject Company's total issued capital.

As of the execution date of this Offer Report, the Offeror has provided certain goods and services to the Subject Company and *vice versa*. The Subject Company and the Offeror entered into a Master Product and Service Agreement on November 30, 2004 (the Master Product and Service Agreement) to govern the supply of a series of products and services by the parties and/or their subsidiaries and affiliated companies in the ordinary and usual course of business of the Subject Company and the Offeror for a term of three years, from 1 January 2005 to 31 December 2007. Under the Master Product and Service Agreement, products and services to be provided by the Offeror to the Subject Company include production materials such as crude oil, naphtha, pure benzene and fatty alcohol, and services such as production safety insurance funds,

lease of machinery and equipment, as well as other related and similar services as may be requested by the Subject Company from time to time. The products and services to be provided by the Subject Company to the Offeror include gasoline, diesel oil, petrochemical products, railway transport and wastewater treatment and such other related or similar products and services as may be requested by the Offeror from time to time.

In addition, in consideration of the reasons for the Offers described in Section 4 Structuring of the Offers herein, the Offeror decides to proceed with the Offers to acquire the Subject Company.

Jilin A Share Tender Offer Report

Percentage of the Jilin H shares proposed to be acquired through the Offers in the total share capital of Jilin	:	27.09%

The Offeror will make an offer to all of the holders of the A Shares and H Shares of Jilin.

2. Purposes of the Offers

The Offers aim to terminate the listing of Jilin for the purpose of resolving the competition between the Offeror and Jilin in the same industry, reducing and further standardizing the related-party transactions between the Offeror as the controlling shareholder of Jilin and Jilin itself.

3. Reasons for the Offers

The Offeror believes that as a result of the Offers Jilin will create many benefits to the Offeror's shareholders in its operational, financial and organizational aspects as set forth below:

- (1) Streamlined Group Structure: the Offeror committed to streamline its corporate structure at the time of the offering and listing of its H Shares and this is the first step in achieving this important objective. The Offers are intended to further enhance the PetroChina Group's corporate transparency and improve corporate efficiency and reduce the number of connected transactions.

Jilin A Share Tender Offer Report

- (2) **Procurement/Product Distribution Efficiency:** the Offeror supplies approximately 70% of Jilin's crude oil requirements and purchases approximately the same percentage of refined petroleum products produced by Jilin. Consequently, the Offeror's acquisition of Jilin is intended to create maximum efficiencies in both the sourcing of crude oil and other raw materials for Jilin and in the sale of Jilin's refined products as the entire process can be fully integrated and optimized in the context of the Offeror's group-wide procurement and sales process.
- (3) **Management Efficiency:** The successful completion of the Offer will simplify the ownership and management structure of the operations at Jilin and is expected to lead to organizational and management improvements.
- (4) **Business Integration:** The complete integration of Jilin's business and operations into PetroChina is expected to deliver cost savings and help Jilin better leverage on PetroChina's integrated upstream, midstream and downstream operations. Following the successful completion of the Offer, cost savings are expected to result from, among other things, the rationalization of management and corporate functions, the removal of processes and costs associated with Jilin's current status and increased operational efficiencies. The Offeror will also be able to include Jilin in its overall domestic product optimization plans leading to increased operational efficiencies.
- (5) **Capital Allocation:** Consolidating the operations of Jilin within the PetroChina Group is intended to provide us the opportunity to derive full benefit across Jilin's value chain and to better plan group-wide capital expenditure in order to optimise capital allocation across our whole asset base rather than on a more limited plant by plant basis.

4. The Offer Considerations and the Calculation Basis

As required by the Takeover Regulations of the CSRC, the price offered by an offeror for the acquisition of each of the subject listed shares falling under a certain class of the subject company shall not be lower than the higher between the following two:

1. the highest price paid by the offeror for purchasing each of the subject listed shares of the subject company within the six months prior to the relevant reminder announcement;
2. 90% of the arithmetic average of the daily volume-weighted average price for each of the subject listed shares of the subject company within the 30 trading days prior to such relevant reminder announcement.

Jilin A Share Tender Offer Report

During the six months prior to the date on which the applicable Summary of the Offer Report is publicly announced, the Offeror did not conduct any purchase or sale of any listed Jilin A Shares. The arithmetic average of the daily volume-weighted average price per Jilin A Share is RMB4.59 over the 30 trading days prior to the date on which the applicable Summary of the Offer Report is publicly announced and 90% of such arithmetic average of the daily volume-weighted average price per Jilin A Share is RMB4.13. Based on the foregoing, pursuant to Article 34 of the Takeover Regulations, the consideration offered by the Offeror for the acquisition of Jilin A Shares shall not be lower than RMB4.13 per Jilin A Share.

Pursuant to the Codes on Takeovers and Mergers and Share Repurchases of the SFC, In order to achieve comparability, this Rule 14 may require an offeror acquiring a particular class of shares to pay a price higher than the highest price paid by such offeror in the preceding 6 months for the purchase of shares of that class.

During the six months prior to the date on which the applicable Summary of the Offer Report, the Offeror did not conduct any purchase or sale of any listed Jilin H Shares either.

Based on the above-referenced relevant provisions of both the PRC and Hong Kong regulatory authorities, the Offeror has determined the A Share Offer Consideration and the H Share Offer Consideration on the following bases: the A Share Offer Consideration and the H Share Offer Consideration should represent appropriate premiums over the average closing price of Jilin A Shares and the average closing price of Jilin H Shares, in each case, over the six months as of the publication of the applicable Summary of the Offer Report, and such premiums are comparable to each other.

The Offeror intends to acquire listed Jilin A Shares at the A Share Consideration of RMB5.25 per Jilin A Share in the A Share Offer, which represents a premium of approximately 41.9% over the arithmetic average closing price of approximately RMB3.70 per Jilin A Share, which is based on the daily arithmetic closing prices over the six months prior to and including the date on which the applicable Summary of the Offer Report is publicly announced.

The Offeror intends to acquire listed Jilin H Shares at the H Share Consideration of HK\$2.80 per Jilin H Share in the H Share Offer, which represents a premium of approximately 41.4% over the average closing price of approximately HK\$1.98 per Jilin H Share, which is based on the daily closing prices as quoted on the SEHK over the six months prior to and including the date on which the applicable Summary of the Offer Report is publicly announced.

Jilin A Share Tender Offer Report

The Offeror will not increase the A Share Offer Consideration or the H Share Offer Consideration as set forth above, save in very exceptional circumstances and approved by the securities supervisory departments.

The A Share Offer Consideration under the A Share Offer represents:

- (i) a premium of 27.12%, over the lowest price allowed for each Jilin A Share equal to RMB4.13;
- (ii) a premium of 6.92%, over the closing price of RMB4.91 per Jilin A Share on the last trading day for Jilin A Shares prior to the date on which the applicable Summary of the Offer Report;
- (iii) a premium of 8.92%, over the arithmetic average of RMB4.82 per Jilin A Share of the daily arithmetic average closing price for Jilin A Shares over the 5 trading days prior to the date on which the applicable Summary of the Offer Report is publicly announced;
- (iv) a premium of 13.39%, over the arithmetic average of RMB4.63 per Jilin A Share of the daily arithmetic average closing price for Jilin A Shares over the 10 trading days prior to the date on which the applicable Summary of the Offer Report is publicly announced;
- (v) a premium of 14.88%, over the arithmetic average of RMB4.57 per Jilin A Share of the daily arithmetic average closing price for Jilin A Shares over the 20 days trading prior to the date on which the applicable Summary of the Offer Report is publicly announced;
- (vi) a premium of 14.38%, over the arithmetic average of RMB4.59 per Jilin A Share of the daily arithmetic average closing price for Jilin A Shares over the 30 trading days prior to the date on which the applicable Summary of the Offer Report is publicly announced; and
- (vii) a premium of 24.11%, over the arithmetic average of RMB4.23 per Jilin A Share of the daily arithmetic average closing price for Jilin A Shares over the 3 months prior to the the date on which the applicable Summary of the Offer Report is publicly announced.

In addition, the H Share Offer Consideration of HK\$2.80 per Jilin H Share under the H Share Offer represents a premium of approximately 15.5% over the closing price of HK\$2.425 per Jilin H Share, as quoted on the SEHK on the last trading day for Jilin H Shares prior to the date on which the applicable Summary of the Offer Report is publicly announced; and a premium of approximately 17.3% over the daily volume weighted average price of HK\$2.388 per share for Jilin H Shares, as quoted on the SEHK over the 30 trading days prior to and

including the last trading day for Jilin H Shares immediately before the date on which the applicable Summary of the Offer Report is publicly announced.

5. Aggregate of the Consideration for all of the Jilin A Shares in the A Share Offer and the Form of the Payment of A Share Consideration

The consideration required for the acquisition of all of the Jilin A Shares in the A Share Offer in aggregate is RMB1.05 billion and will entirely be paid in cash.

6. Valid Term of the A Share Offer and Schedule

In consideration of any impact that the forthcoming Spring Festival may have on the Offers, the term of the A Share Offer has been adjusted to 35 days, commencing from the first trading date for both the Jilin A Shares and the Jilin H Shares following the satisfaction of all of H Share Offer Conditions.

As of the date on which this Offer Report is published, the A Share Offer has not become effective, thus holders of Jilin A Shares cannot declare their preliminary acceptance of the valid term of the A Share Offer. The date on which the commencement of the A Share Offer may occur at the earliest will be 9 January 2006. If all of the H Share Offer Conditions are satisfied on this date, the Offeror will publish a reminder announcement about the commencement of the valid term of the A Share Offer.

Based on our reasonable judgment, it is unlikely that the date for the commencement of the valid term for the A Share Offer will be earlier than 9 January 2006. However, we cannot exclude the possibility that the H Share Offer Conditions may be satisfied ahead of the schedule. If all of the conditions to the H Share Offer are satisfied ahead of the schedule, PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer ahead of the schedule accordingly. If the date on which all of the H Share Offer Conditions are satisfied is postponed, both the date for the commencement of the valid term of the A Share Offer and the one for the expiry of the valid term of the A Share Offer will be postponed accordingly. Therefore, we hereby strongly recommend investors to pay close attention to any and all of the announcements published by PetroChina as from 4 January 2006.

12 February 2006
(Friday)

The date on which the expiry of the valid term of the A Share Offer may occur at the earliest.

Notes: The valid term of the A Share Offer will be 35 days. Based on our reasonable judgment, it is unlikely that the date for the commencement of the valid term for the A Share Offer will be earlier than 9 January 2006. However, we cannot exclude the possibility that the H Share Offer Conditions may be satisfied ahead of the schedule. If all of the conditions to the H Share Offer are satisfied ahead of the schedule, PetroChina will publish a reminder announcement about the commencement of the valid term of the A Share Offer ahead of the schedule accordingly. If the date on which all of the H Share Offer Conditions are satisfied is postponed, both the date for the commencement of the valid term of the A Share Offer and the one for the expiry of the valid term of the A Share Offer will be postponed accordingly.

7. Conditions to the Effectiveness of the Offers

Upon the satisfaction of the H Share Offer Conditions, the A Share Offer shall become effective and the Jilin A Shares shall be delisted; if the H Share Offer Conditions are not satisfied, the A Share Offer shall be void as of the very beginning.

The H Share Offer Conditions are as follows:

purpose by the Jilin H shareholders, other than PetroChina and persons acting in concert with PetroChina, subject to (A) approval by at least 75% of the votes attaching to the H Shares held by persons other than PetroChina and persons acting in concert with PetroChina (the Disinterested Shares) that are cast either in person or by proxy and (B) the number of votes cast against the resolution being not more than 10% of the votes attaching to all Disinterested Shares; and

Accordingly, the Jilin A Shareholders are reminded that if they do not accept the A Share Offer and the H Share Offer or the A Share Offer (as applicable) subsequently becomes unconditional in all respects, and the Jilin H Shares, the Jilin ADSs and the Jilin A Shares are delisted from the SEHK, the NYSE and the SSE, respectively, this will result in such Jilin A Shareholders holding securities that are not listed or quoted on the SSE. The liquidity of and the convenience of the trading in any Jilin A Shares that are not tendered for acceptance pursuant to the A Share Offer will be seriously reduced compared with the same before. However, such Jilin A Shares not so tendered will be able to be sold to the Offeror, and the Offeror shall by itself or through a securities company designated by it purchase such Jilin A Shares, at the A Share Offer Consideration. Once the Offers become effective, the Offeror will make a separate announcement with respect to the specific processes and operational procedures for such further purchases (including but without limitation to formalities such as right confirmation, registration and the applicable verifications, which need to be dealt with by the shareholders themselves), prior to the delisting of the Subject Company.

Upon the Offers becoming or being declared unconditional in all aspects, the listings of the Jilin A Shares on the SSE, the Jilin H Shares on the SEHK and the Jilin ADSs on the NYSE will be terminated. The Offeror shall have no rights under the laws of the PRC or the Articles of Association of Jilin to compulsorily acquire the Jilin A Shares and the Jilin H Shares, including the Jilin H Shares represented by the Jilin ADSs, that are not tendered for acceptance pursuant to the Offers. Accordingly, the Jilin A Shareholders, the Jilin H Shareholders and the Jilin ADS holders are hereby reminded that if they do not accept the Offers and the Offers subsequently become unconditional in all respects, and the Jilin A Shares, the Jilin H Shares and the Jilin ADSs are delisted from the SSE, the SEHK and the NYSE, respectively, the result will be that such Jilin A Shareholders, Jilin H Shareholders and Jilin ADS holders hold securities that are not listed or quoted on any stock exchange.

The primary benefits of the Offers to Jilin include: because substantially all of its equity securities will be held by PetroChina, Jilin will enjoy certain efficiencies, such as a reduction of the time devoted by its management and many other employees to comply with the reporting requirements associated with the operation of a public company. Specifically, Jilin will no longer be subject to the SSE, SEHK and NYSE listing and reporting requirements.

The primary benefits that may be provided through the Offers to those Jilin shareholders who will file for acceptance of the Offers include the following:

The A Share Offer Consideration and the H Share Offer Consideration represent premiums of approximately 6.9% and 15.5% over the closing trading prices of Jilin A Shares and

Jilin A Share Tender Offer Report

Jilin H Shares, respectively, on the SSE and the SEHK on 26 October 2005, the last trading day for Jilin shares prior to the announcement of the Offers; and

The avoidance of the risk associated with any decrease in the future earnings, growth or value of Jilin following the Offers.

The primary detriments that may be caused by the Offers to those Jilin shareholders who will file for acceptance of the Offers include the following:

Jilin's shareholders (other than PetroChina) will cease to have an interest in Jilin and therefore will no longer benefit from increases in the future earnings, growth or value of Jilin or payment of dividends on the Jilin shares, if any; and

The cash received from the acceptance to the H Share Offer and the A Share Offer will be a taxable subject under certain PRC, Hong Kong and U.S. tax regimes and may also be taxable upon under other applicable state, local, foreign and other tax laws. Each Jilin shareholder is recommended to consult his/her/its own PRC, Hong Kong and US tax advisors regarding tax-related particulars.

An equity investment in Jilin following the H Share Offer and the A Share Offer will involve substantial risk resulting from the limited liquidity of such an investment. Nonetheless, if Jilin successfully carries out its business strategies, the value of PetroChina's equity investment could be greater than the original cost due to the benefits accruing from increases in the future earnings, growth or value of Jilin or payment of dividends.

The primary detriments that may be caused by the Offers to PetroChina include the following:

Following the Offers, there will be no market for the exchange of Jilin's shares through public trading.

All of the risk of any decrease in the earnings, growth or value of Jilin following the Offers, which could be significant, will be borne by PetroChina.
